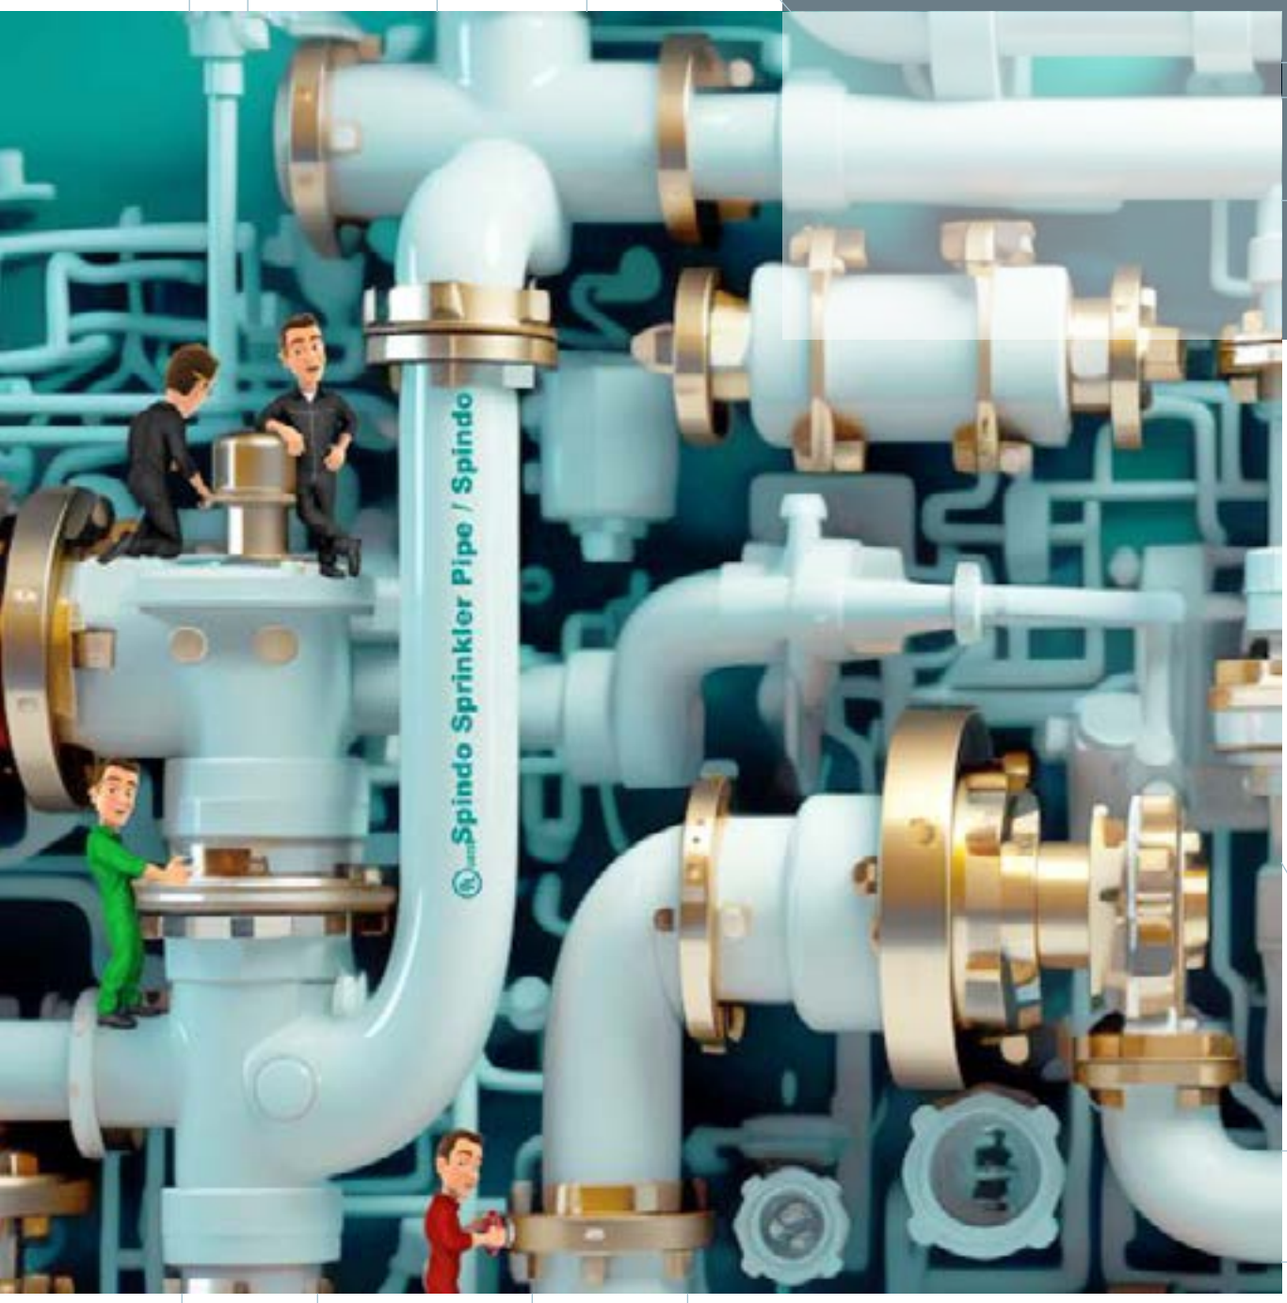
# 02 Laporan Manajemen
## Management Report



# Laporan Dewan Komisaris

Report from Board of Commissioners

Para pemegang saham yang terhormat,

Tahun 2023, Perseroan tetap menorehkan prestasi dalam peningkatan penjualan barang dan jasa, serta laba bersih. Pertumbuhan yang kuat ini akan menjadi fundamental yang kokoh untuk keberlanjutan usaha di masa mendatang.

Fluktuasi harga baja global tidak mempengaruhi kinerja Perseroan untuk memperoleh margin laba. Penjualan yang kuat dan kemampuan dalam pengelolaan harga yang menjadi kebijakan Direksi patut kami apresiasi.

*Dear shareholders,*

*In 2023, the Company continued to make a number of achievements, which was evident in a rise in sales of products and services as well as in net profits. This significant growth has laid a solid foundation for our business sustainability in the foreseeable future.*

*Fluctuations in global steel prices did not affect the Company's financial performance that was manifested in the achieved profit margin. We especially appreciate the Board of Directors' policies on the high volume of sales and the ability to maintain price stability.*

# **Penilaian Kinerja Direksi**
# Assessment of Board of Directors' Performance

Dewan Komisaris SPINDO mengapresiasi kinerja Direksi dalam pengelolaan manajemen untuk tetap meningkatkan penjualan bersih, di mana fluktuasi harga baja global sangat berpengaruh terhadap pendapatan Perseroan sepanjang tahun 2023. Penjualan dan pendapatan jasa di tahun 2023 adalah Rp6,45 triliun, meningkat 3,1% dibandingkan tahun sebelumnya Rp6,25 triliun.

*SPINDO's Board of Commissioners would like to express appreciation of the effort that the Board of Directors had undertaken to continue to boost net sales throughout 2023, where fluctuations in global steel prices brought about a strong effect on the Company's revenue. The Company's sales and service revenue in 2023 amounted to IDR6.45 trillion, showing a 3.1% increase compared to the previous year's figure of IDR6.25 trillion.*

Volume penjualan total Perseroan tumbuh 6,4% dan volume penjualan dari pipa baja saja tumbuh 10,9% mengindikasikan pertumbuhan yang kuat. Penurunan harga baja global, terutama Hot Rolled Coil (HRC) dari Tiongkok yang turun 13,4% dari tahun sebelumnya, namun harga jual rata-rata (Average Selling Price / ASP) Perseroan hanya mengalami penurunan sekitar 2,75%. Kami memberikan apresiasi kepada Direksi, walaupun terjadi penurunan nilai penjualan, Perseroan mampu mengelola harga, dan pada akhirnya meningkatkan margin.

*The Company's total sales volume grew 6.4% and the sales volume from steel pipes alone grew 10.9%, which indicated a strong growth. Despite the falling global steel price, especially that of Hot Rolled Coil (HRC) from China which fell 13.4% from the previous year's figure, the Company's average selling price (ASP) only decreased by approximately 2.75%. We appreciate the Board of Directors that amid an overall decline in sales value the Company was able to maintain price stability and ultimately improve margins.*

Laba bersih tahun berjalan adalah Rp498 miliar meningkat 63% dibanding tahun sebelumnya Rp306 miliar. Efisiensi pembiayaan dan proses operasional telah berjalan dengan baik, Perseroan melakukan pembelian bahan baku dan proses produksi dengan efisien. Kapasitas mesin meningkat sehingga kapasitas produksi bertambah, serta kontrol produksi lebih ketat oleh sumber daya manusia yang minim.

*Net profit for the year was IDR498 billion, that is an increase of 63% over the previous year's figure of IDR306 billion. With the financial efficiency being achieved and operational processes operating properly, the Company managed to purchase raw materials and regulate production processes efficiently. The machine capacity was expanded so as to allow an increase in the production capacity and a tighter production control by a minimum number of human resources.*

Kami juga memberikan apresiasi kepada Direksi dengan kebijakan strategis yang telah berjalan sepanjang tahun 2023. Kebijakan strategis pengembangan produk, distribusi produk, dan peningkatan

*We also wish to extend our appreciation to the Board of Directors for the strategic policies that had been implemented throughout 2023. The strategic policies in product development, product distribution,*

kerjasama dengan mitra bisnis sebagai kelanjutan dari kebijakan strategi sebelumnya, yaitu diversifikasi untuk aplikasi pipa baja. Berjalannya seluruh kebijakan strategis ini akan mempererat hubungan kerja sama antara Perseroan dengan seluruh rantai distribusi hingga ke *end-user*.

*and cooperation with business partners represent a continuation of the strategic policies in the preceding years, that is, diversification of steel pipe applications. The implementation of the strategic policies will strengthen the relationship that has existed among the Company, distribution channels, and end users.*

## **Pengawasan terhadap Direksi**
## Supervision of the Board of Directors

Pada tahun 2023, kami telah mengadakan 6 kali rapat gabungan yang terjadwal dengan Direksi di mana kami membahas kinerja keuangan dan operasional, rencana dan risiko utama Perseroan di setiap fungsi bisnis, serta peluang bisnis baru.

*In 2023, we held six scheduled joint meetings with members of the Board of Directors where we discussed the Company's financial and operational performance, plans and key risks in each business function as well as opportunities for the Company.*

Kami melakukan pengawasan tambahan melalui Komite Audit, yang memberi kami gambaran yang jelas mengenai jalannya manajemen risiko dan fungsi kontrol internal, kepatuhan, audit internal dan eksternal, serta kebijakan remunerasi. Komunikasi dari Dewan Komisaris kepada Direksi telah berjalan dengan baik berupa nasehat dan saran dalam rapat formal maupun informal terkait hal-hal yang spesifik.

*We exercised an additional supervision through the Audit Committee, giving us a fuller understanding of the Company's risk management and internal control functions, compliance, internal and external audit, and remuneration policies. Communication between members of the Board of Commissioners and the Board of Directors has run well. This largely took the form of advice and suggestions in formal and informal meetings on specific matters.*

## **Penilaian Penerapan Tata Kelola Perusahaan**
## Assessment of Corporate Government Implementation

Perseroan menyusun Pedoman Tata Kelola Perusahaan berdasarkan pada lima prinsip GCG yang meliputi: transparansi, akuntabilitas, pertanggungjawaban, kemandirian, dan kewajaran. Prinsip-prinsip tersebut memberikan landasan bagi keberlangsungan usaha, dan Perseroan telah menunjukkan peningkatan yang stabil sesuai prinsip-prinsip tersebut. Kami mengawasi tinjauan dan revisi Piagam Direksi agar sejalan dengan pedoman terbaru dari OJK. Kami juga telah melihat pelaksanaan sosialisasi *whistleblower* di seluruh unit-unit Perseroan dan pada tahun 2023 tidak terdapat laporan tentang pelanggaran yang terjadi di Perseroan.

*The Company has prepared Corporate Governance Guidelines pursuant to five GCG principles that comprise transparency, accountability, responsibility, independence, and fairness. These principles have formed a sound basis for our business continuity, and the Company has shown steady improvement in terms of the guidelines. We oversaw the review and revision of the Board of Directors Charter in order that it is in alignment with the latest guidelines released by Indonesia's Financial Services Authority (OJK). Moreover, we supervised the dissemination of whistleblowing procedure among all the Company units, and it is worthy of note that in 2023 there was no report of violations occurring in the Company.*

## **Perubahan Dewan Komisaris**
## Changes in the Board of Commissioners

Pada tahun 2023 terjadi perubahan susunan anggota Dewan Komisaris. Ibu Ingewati / Kong Ay Ing yang sebelumnya menjabat sebagai Komisaris telah meninggal dunia. Kami memberikan apresiasi kepada para pemegang saham dan pemangku kepentingan atas kepercayaan terus-menerus yang diberikan. Semoga dukungan anda terus bersama kami dalam berbagai upaya membawa perubahan yang positif bagi kehidupan, lingkungan, dan masa depan bisnis kami.

*In 2023 there will be a change in the composition of the members of the Board of Commissioners. Mrs. Ingewati / Kong Ay Ing, who previously served as Commissioner, has passed away. We would like to express our appreciation to all shareholders and stakeholders for their continued trust. May you keep supporting our efforts to make positive changes in life, the environment, and the future of our business.*

## **Pandangan ke Depan** | Business Outlook

Pada tahun-tahun mendatang konsumsi baja nasional akan meningkat seiring meningkatnya permintaan akibat pertumbuhan belanja infrastruktur Pemerintah dan perkembangan industri baru yang berbasis industri hijau, seperti produksi mobil listrik, produksi solar panel, dan distribusi gas untuk rumah tangga. Kami percaya bahwa Perseroan mampu mengikuti pertumbuhan sektor-sektor tersebut berkat kebijakan strategis yang telah dilaksanakan sepanjang tahun 2023. Kami juga mendukung kerjasama yang semakin erat dari berbagai pihak untuk senantiasa meningkatkan produk dan jasa pipa baja SPINDO.

Akhir kata, saya mewakili Dewan Komisaris memberikan penghargaan yang sebesar-besarnya kepada Direksi, manajemen, dan seluruh karyawan atas kerja kerasnya di sepanjang tahun 2023.

*In the coming years, national steel consumption will increase as demand for steel products increases. This conceivably results from the growth in the property sector, Government infrastructure spending, and the automotive steel consumption industry. We believe that the Company will be able to sustain the growth in these sectors, thanks to the strategic policies that had been followed during 2023. We also foster a closer cooperation with many different parties in an effort to continuously improve SPINDO's steel pipe products and services.*

*Finally, on behalf of the Board of Commissioners, I would like to express my deepest appreciation to all members of the Board of Directors, management, and employees for their hard work throughout 2023.*

# Laporan Direksi

## Report from Board of Directors

Para Pemegang Saham dan Pemangku Kepentingan yang terhormat,

Menghadapi tahun 2023, Perseroan berupaya membangun fundamental yang kuat untuk pertumbuhan ke depan, berbagai perbaikan internal manajemen dan perkuatan pasar dalam negeri terus dilakukan. Perseroan telah berupaya membuka pasar baru dan menciptakan nilai baru untuk industri pipa baja melalui divisi Marketing. Manufaktur pipa baja SPINDO mampu menghasilkan produk dan jasa yang sangat fleksibel dan memiliki kegunaan yang sangat luas.

*Dear Shareholders and Stakeholders,*

*Preparing to face the year 2023, the Company has provided a strong basis for future growth, made various improvements in internal management, and continued to strengthen the domestic market. The Company has opened new markets and created new values for the steel pipe industry through the Marketing division. SPINDO as a steel pipe manufacturer is now capable of creating products and offering services that are very flexible and have a wide range of applications.*

## **Kondisi Ekonomi Domestik** | Domestic Economic

Perekonomian Indonesia mencatat pertumbuhan menjadi 5,05% pada tahun 2023, sedikit lebih rendah dari tahun sebelumnya yang mencapai 5,31%. Penyumbang utama pertumbuhan ini adalah peningkatan konsumsi rumah tangga dan investasi. Di tengah tantangan ekonomi global dan inflasi yang tinggi, peningkatan konsumsi rumah tangga menunjukkan bahwa daya beli masyarakat Indonesia masih terjaga.

*As of 2023, Indonesia's economy recorded a growth of 5.05%, a decline from the previous year's realization of 5.31%. The main contributors to the growth were increased household consumption and investment rates. Amidst the global economic challenges and high inflation, the increase in household consumption rate showed that Indonesia managed to maintain its purchasing power.*

Pertumbuhan investasi didukung oleh realisasi program pembangunan infrastruktur menunjukkan kepercayaan investor terhadap perekonomian Indonesia. Stabilitas politik dan ekonomi, serta potensi pasar yang besar, menjadi daya tarik bagi investor untuk menanamkan modalnya di Indonesia. Hal ini menimbulkan optimisme bagi Perseroan untuk terus mengembangkan produk dan jasa pipa baja, serta memperluas persebaran pipa baja di berbagai daerah di Indonesia.

*The investment growth which was supported by the realization of infrastructure development programs reflected investors' confidence in the Indonesian economy. Indonesia's political and economic stability and its large market potential are attractive to investors. These were grounds for optimism for the Company to continue developing steel pipe products and services, as well as ensuring the wider distribution of steel pipes across various regions in Indonesia.*

Konsumsi baja di Indonesia menunjukkan peningkatan dari tahun ke tahun. Tahun 2023 konsumsi baja meningkat 4,82% dibanding tahun sebelumnya. Meningkatnya konsumsi baja dalam negeri secara otomatis importasi baja juga ikut melonjak. Oleh karena itu, Pemerintah perlu mendorong iklim investasi industri nasional yang sedang berlangsung. Saat ini rata-rata utilitas kapasitas produksi baja nasional masih rendah, sehingga industri baja nasional menghadapi ancaman banjirnya produk jadi dari China.

*Indonesia's steel consumption has seen a year-to-year increase. In 2023, the steel consumption rate increased by 4.82% compared to the previous year's figure. The increase in the domestic steel consumption reasonably resulted in increased steel imports. Therefore, it is important that the Government fosters a favorable investment climate of the national industry. Currently, the average utility of the national steel production capacity is still low, so that the national steel industry has been under the threat of a flood of finished products from China.*

## **Kondisi Ekonomi Global** | Global Economic Conditions

Sepanjang tahun 2023, perekonomian global terus menghadapi tantangan inflasi dan prospek pertumbuhan rendah seperti kondisi keuangan yang lebih ketat, pertumbuhan perdagangan yang melemah, dan rendahnya kepercayaan dunia usaha dan konsumen. Perekonomian global juga mengalami transisi dari energi fosil menjadi energi terbarukan.

*Throughout 2023, the global economy had continued to face challenges of inflation and low growth prospects such as tighter financial conditions, weaker trade growth, as well as low business and consumer confidence. The global economy was also experiencing a transition from fossil to renewable energy.*

Isu dekarbonisasi menjadi topik utama global sepanjang tahun 2023. Seluruh negara melakukan percepatan dekarbonisasi akibat pemanasan global akan melampaui ambang batas berbahaya, bahkan mencapai rekor tertinggi pada tahun 2023. Hal ini mendorong upaya dekarbonisasi sektor industri besi dan baja melalui perpindahan teknologi proses produksi. *Blast Furnace* atau teknologi tanur tinggi yang menggunakan bahan bakar batu bara dan kokas mengakibatkan emisi karbon tinggi di industri besi dan baja.

*Issues surrounding decarbonization had become the main global topic during 2023. Many countries are accelerating decarbonization as it now appears that global warming will exceed the dangerous threshold, and 2023 was even the warmest year on record. This has stepped up our efforts to decarbonize the iron and steel industry through a transfer of technology of production process. It is worth mentioning that the coal and coke-powered blast furnace technology used in the iron and steel industry generates high carbon emissions.*

Produksi baja di China melambat karena pabrik berupaya mengatasi kelebihan pasokan dan lemahnya margin keuntungan, begitu pula dengan produksi baja di Jepang. Sementara produksi baja India dan Rusia mengalami peningkatan. Secara keseluruhan industri baja mendatar dan mengalami tren penurunan pada akhir tahun 2023, sehingga harga baja dunia mengalami fluktuasi.

*The steel production in both China and Japan saw a slowdown as mills were having an oversupply and slim profit margins. Meanwhile, the steel production in India and Russia showed an increase. The overall steel industry flattened out and experienced a downward trend by the end of 2023, resulting in fluctuating world steel prices.*

## **Kebijakan Strategis** | Strategic Policy

Perseroan melanjutkan dan memperbaiki kebijakan strategis yang sudah ditempuh pada tahun sebelumnya. Strategi diversifikasi aplikasi pipa baja telah berkembang secara luas, tidak hanya pada 4 (empat) sektor utama Perseroan, yaitu: “infrastruktur, konstruksi dan utilitas”, “minyak dan gas”, “otomotif”, dan “furniture”. Perseroan melihat peluang pada sektor pertanian, perikanan, peternakan, informasi teknologi, telekomunikasi, dan sektor usaha lain yang belum terlayani.

*The Company continued to implement and made improvements in the strategic policies as these were pursued in the previous years. The strategy for diversifying steel pipe applications has expanded widely beyond the Company's four main sectors: infrastructure, construction and utilities; oil and gas, automotive; and furniture. The Company has seen opportunities to serve agriculture, fishery, animal husbandry, information technology, telecommunications, and some other underserved business sectors.*

Tahun 2023, Perseroan menetapkan berbagai kebijakan strategis dalam pengembangan produk, distribusi produk dan peningkatan kerja sama dengan mitra bisnis. Perseroan berupaya mengembang-kan produk dengan produksi pipa stainless steel hingga 8 (delapan) inci dan produksi pipe ERW hingga 16 (enam belas) inci. Produk pipa baja berdiameter besar ini digunakan oleh sektor konstruksi dan sektor minyak bumi dan gas. Kami juga berusaha mempercepat proses untuk mencapai industri 4.0, sehingga bisnis kami akan efisien dan unggul dalam kompetisi industri pipa baja.

*In 2023, the Company set various strategic policies on product development, product distribution, and business partnership. The Company has further developed products by manufacturing eight-inch and up to 16-inch ERW stainless steel pipes. These large diameter steel pipe products are generally used by the construction as well as oil and gas sectors. We are also accelerating the realization of Industry 4.0 so as to make our business increasingly efficient and to excel in the steel pipe industry competition.*

Distribusi produk ke berbagai daerah ditandai dengan peresmian Depo Makassar. Depo ini menjadi depo ke-6 (enam) yang beroperasi. Depo sebelumnya telah beroperasi di Jakarta Barat, Bandung, Samarinda, Pasuruan, dan Sidoarjo. Peresmian Depo Makassar pada tanggal 15 Juni 2023 diharapkan dapat memenuhi kebutuhan masyarakat di area Sulawesi Selatan dan sekitarnya.

*As regards distribution, the inauguration of Makassar depot helped deliver our products and service to many more regions in Indonesia. It is the sixth depot in operation. Already operating depots are located in West Jakarta, Bandung (West Java), Samarinda (East Kalimantan), and Pasuruan and Sidoarjo (East Java). The inauguration took place on June 15, 2023 and it is expected that the new depot will enable the Company to serve the needs of communities in South Sulawesi and its surrounding areas.*

Perseroan senantiasa memastikan ketersediaan pasokan pipa baja kapanpun bagi konsumen yang membutuhkan dan kecepatan pengiriman produk untuk berbagai daerah di Indonesia.

*Apart from continually seeking to maintain the availability of steel pipe supply and meet customer needs, the Company ensures a timely product delivery to various regions in the country.*

Kebijakan strategis lainnya adalah mempererat hubungan kerja sama antara Perseroan dengan seluruh rantai distribusi ke *end user*. Perseroan tetap aktif mengadakan *customer gathering* dan pameran, serta terlibat dalam beberapa asosiasi untuk meningkatkan kerja sama dan mendapatkan informasi-informasi bisnis. Sebagai wujud untuk mempererat hubungan kerja sama, Divisi Pemasaran Perseroan memberikan pelatihan tenaga penjualan (*sales training*) bersama mitra kerja toko atau distributor. Kerja sama dalam iklan bersama (*ad-sharing*) yang telah dilakukan sejak beberapa tahun lalu tetap berjalan dengan baik.

*Another strategic policy was to strengthen cooperation between the Company and all distribution channels to end users. The Company continues to actively hold customer gatherings and exhibitions, as well as being involved in several associations in order to improve cooperation with end users and obtain valuable business information. As part of the efforts to enhance business cooperation, the Company's Marketing Division provides store or distributor partners with sales training. The cooperation in the form of joint advertising (ad-sharing) that has for years been organized continues to run well.*

# **Kinerja Tahun 2023** | 2023 Performance

Sepanjang tahun 2023, Perseroan masih membukukan nilai penjualan bersih yang meningkat 3,1% menjadi Rp6,45 triliun dari tahun sebelumnya Rp6,25 triliun. Begitu pula dengan volume penjualan secara total Perseroan tumbuh 6,4% dan volume penjualan dari pipa baja saja tumbuh 10,9%. Hal ini mengindikasikan volume penjualan Perseroan yang masih kuat dalam pertumbuhannya.

*In 2023, the Company booked a 3.1% increase in net sales value, that is, from the previous year's figure of IDR6.25 trillion to that of IDR6.45 trillion. Similarly, the Company's total sales volume grew by 6.4% and sales volume of steel pipes alone grew by 10.9%. This indicates that the Company's sales volume has managed to sustain a strong growth.*

Namun nilai penjualan bersih ini tidak mencapai target penjualan bersih yang ditetapkan oleh Perseroan yang berkisar Rp7-7,5 triliun, hal ini disebabkan Penjualan dan Pendapatan Jasa Perseroan berkaitan erat dengan fluktuasi harga baja global. Tahun 2023, harga *Hot Rolled Coil (HRC)* dari Tiongkok turun 13,4% dari tahun sebelumnya, namun harga jual rata-rata (*Average Selling Price/ASP*) Perseroan hanya mengalami penurunan sekitar 2,75%. Hal ini menunjukkan kemampuan Perseroan dalam mengelola harga, dan dengan demikian meningkatkan margin.

*However, the net sales value did not reach the net sales target set by the Company which ranged from IDR7 to 7.5 trillion. This is mainly because the Company's Sales and Service Revenue is closely related to fluctuating global steel prices. In 2023, the price of Hot Rolled Coil (HRC) from China decreased by 13.4% from the previous year, but the Company's Average Selling Price (ASP) only decreased by around 2.75%. This demonstrates the Company's ability to maintain price stability and thus improve margins.*

Laba bersih Perseroan mengalami peningkatan menjadi Rp498 miliar dari tahun sebelumnya Rp306 miliar. Peningkatan ini disebabkan oleh penjualan produk dan jasa Perseroan yang meningkat, serta proses produksi yang efisien.

*The Company's net profit increased from the previous year's IDR306 billion to IDR498 billion. This increase was due largely to the increased sales of the Company's products and services as well as efficient production processes.*

Sepanjang tahun 2023, 95% produksi pipa baja SPINDO diserap oleh pasar domestik, sedangkan sisanya untuk ekspor. Dukungan Pemerintah Indonesia untuk menggiatkan ekspor, menjadi peluang bagi Perseroan untuk terus meningkatkan ekspor yang telah berjalan untuk pasar Kanada dan Amerika Serikat.

*In 2023, 95% of SPINDO's steel pipe production served the domestic market and the remaining portion reached the export market. The Indonesian Government's support for an intensification of export has offered the Company opportunities to continue to increase exports targeting the Canadian and US markets.*

# **Prospek Tahun 2024** | 2024 Outlook

Tahun 2024 perekonomian Indonesia diperkirakan lebih baik, seiring dengan inflasi yang diharapkan melandai. Perseroan telah merancang strategi jangka panjang dengan tetap berfokus pada sarana distribusi dan logistik untuk memperluas jangkauan pasar pipa baja.

*In 2024, it is expected that Indonesia's economy will grow more vibrant and that inflation will go down. The Company has designed a long-term strategy by making improvement in distribution and logistics facilities and increasing the market share of steel pipes.*

Pembangunan Ibu Kota Nusantara (IKN) yang telah berjalan akan menjadi generator pertumbuhan bagi Perseroan dalam penyediaan produk dan jasa pipa baja. Perseroan mempersiapkan dana belanja modal sebesar Rp60 miliar hingga Rp100 miliar untuk digunakan untuk penyelesaian depo atau gudang, serta peremajaan mesin agar lebih maksimal dalam produksi.

*The ongoing development of the Nusantara Capital City (IKN) will become a growth stimulus to the Company's steel pipe product and service offerings. The Company has prepared a capital expenditure fund of IDR60 billion up to IDR100 billion to be used for the completion of depots or warehouses and the machinery rejuvenation program to maximize production.*

# **Penerapan Tata Kelola Perusahaan yang Baik** Implementation of Good Corporate Governance

Perseroan menjalankan Tata Kelola Perusahaan yang Baik / Good Corporate Governance (GCG) berdasarkan prinsip-prinsip transparansi, akuntabilitas, responsibilitas, independensi, dan kewajaran. Setiap tahun, Perseroan senantiasa memperbaiki penerapan GCG dengan melakukan koordinasi seluruh pemangku kepentingan, seperti Direksi, Dewan Komisaris, Komite Audit, dan unit-unit pendukungnya.

*The Company implements Good Corporate Governance (GCG) in compliance with the principle of transparency, accountability, responsibility, independence, and fairness. Year after year, the Company continuously improves the implementation of GCG by ensuring effective coordination among all stakeholders, which include the Board of Directors, Board of Commissioners, Audit Committee, and relevant supporting units.*

Komunikasi Direksi dilakukan dengan rapat Direksi yang telah dilakukan sebanyak 12 (dua belas) kali di tahun 2023. Direksi juga melakukan rapat gabungan antara Direksi dan Dewan Komisaris sebanyak 6 (enam) kali di tahun 2023.

*Communication between members of the Board of Directors was established in the form the Board of Directors' meetings and was held twelve times in 2023. The Board of Directors also conducted six joint meetings between members of the Board of Directors and the Board of Commissioners in 2023.*

# **Penutup** | Concluding Remarks

Tahun 2023 tidak terjadi perubahan komposisi anggota Direksi. Akhir kata, saya mewakili direksi mengucapkan terima kasih kepada seluruh pemangku kepentingan atas dukungan dan kepercayaan yang telah diberikan. Saya juga mengucapkan terima kasih kepada Dewan Komisaris, rekan-rekan Direksi, manajemen, seluruh karyawan, pemasok, distributor, toko hingga end-user atas kepercayaan kepada produk dan jasa pipa baja SPINDO.

*There was no change in the composition of the Board of Directors in 2023. Finally, on behalf of the Board of Directors, I should be grateful to all stakeholders for their ongoing support and trust. I also would like to thank the Board of Commissioners, fellow Directors, management, employees, suppliers, distributors, stores and end-users for their unwavering trust in SPINDO steel pipe products and services.*

# Sekilas Perusahaan

## Company at a Glance

PT Steel Pipe Industry of Indonesia Tbk (SPINDO) didirikan pada tahun 1971 di Surabaya dengan anggaran dasar sebagai produsen pipa baja. Setelah itu, Perseroan telah berkembang menjadi kapasitas produksi terbesar di Indonesia dan berpengalaman dalam memproduksi berbagai macam pipa baja/tabung dan berbagai produk terkait lainnya.

Portofolio produk Perseroan terdiri dari beragam produk kustom (dibuat sesuai pesanan) dan produk pipa baja karbon serta pipa stainless steel. Produk-produk Perseroan digunakan untuk berbagai industri: konstruksi, infrastruktur, utilitas, minyak dan gas, furnitur, dan otomotif. Selain memproduksi berbagai produk pipa baja, SPINDO juga menawarkan layanan jasa lainnya galvanisasi, shearing, slitting, 3LPE coating, internal dan external epoxy coating, cement lining, dan uji kendali mutu di laboratorium modern perusahaan.

Dalam perjalanannya yang kini telah menggenapi lima dekade, Perseroan berhasil mengembangkan bisnis secara signifikan. Serapan pasar akan produk-produk yang dihasilkan membuat Perseroan terus melakukan peningkatan kualitas dan produktivitas hingga mendapatkan sejumlah sertifikasi untuk kualitas produknya yang unggul. Pada tahun 1998, Perseroan melakukan penggabungan usaha dengan PT Radjin sebagai bentuk perluasan

*PT Steel Pipe Industry of Indonesia Tbk (SPINDO) was established in 1971 in Surabaya with a statute as a steel pipe manufacturer. Thereafter, the Company has grown to become the largest production capacity in Indonesia and is vastly experienced in producing a wide range of steel pipes/tubes and other related products.*

*Our product portfolio comprises all sorts of custom-made products (produced upon customers' requests), carbon standard products and stainless steel pipes. These products are mostly used by various industries: construction, infrastructure, utility, oil and gas, furniture and automotive. Other than manufacturing a variety of industrial products, SPINDO also offers other services namely galvanizing, shearing, slitting, 3LPE coating, internal and external epoxy coating, cement lining, and quality control testing at the Company's modern laboratory facility.*

*In its five decade journey, the Company has successfully developed businesses significantly. Market absorption of its products drives the Company to continually improve the quality of its products and increase its productivity that earned the Company many certifications for the excellent quality of its products. In 1998, the Company conducted a business merger with PT Radjin with the purpose of expanding its business of producing various types of pipe. In 2005,*

bisnis yang memproduksi beragam pipa baja. Pada tahun 2005, Perseroan kembali melakukan perluasan unit usahanya dengan membangun unit produksi di Karawang dengan perlengkapan industri pipa baja dengan teknologi terkini.

*the Company again expanded its business units with the development of a production unit in Karawang equipped with the latest technology innovation in the steel pipe industry.*

Inovasi pun terus dilakukan dengan melihat peluang investasi untuk menjaga keberlangsungan bisnis termasuk peningkatan kapasitas produksi dan efisiensi. Pada tahun 2014, unit produksi di Sidoarjo telah beroperasi dan pada masa mendatang unit produksi di Gresik akan beroperasi. Upaya memperluas jangkauan distribusi diwujudkan dengan pembangunan gudang stok dan penjualan yang berlokasi di Bandung, Jakarta, Pasuruan, Gresik, Sidoarjo, Samarinda, dan Makassar pada tahun 2023. Saat ini Perseroan telah memiliki 6 fasilitas manufaktur di Indonesia dengan total 38 lini produksi yang masing-masing dapat dikalibrasi untuk menghasilkan berbagai jenis pipa.

*The Company continues to prioritize innovation by observing every investment opportunity in order to preserve business sustainability including increasing the capacity of production and efficiency. Memperoleh ISO TS 16949 Quality Management System untuk pipa otomotif di pabrik Karawang.

*Obtained a certificate of ISO TS 16949 Quality Management System for automotive pipes in Karawang.*

## 2015

- Pertemuan Para Analis di Gedung Bursa Efek Indonesia, Jakarta pada tanggal 14 September 2015,
- *Analyst Meeting at Indonesia Stock Exchange Building, Jakarta on September 14th, 2015,*
- Penandatanganan nota kesepahaman antara SPINDO, JFE Steel Corp., dan Marubeni-Itochu Inc. pada tanggal 14 Desember 2015.
- *MOU signing ceremony between SPINDO, JFE Steel Corp. and Marubeni-Itochu Inc. on December 14th, 2015.*

## 2017

- Penandatanganan kerja sama untuk pasokan bahan baku antara SPINDO dan Benxi Steel Group Co. Ltd. tanggal 30 November 2017.
- *Signing of Cooperation between SPINDO and Benxi Steel Group Co. Ltd. on November 30th, 2017.*

## 2018

- Ekspor perdana pipa bersertifikasi UL (Underwriters Laboratory) ke Kanada dan Amerika pada tanggal 23 Januari 2018.
- *First export of UL (Underwriters Laboratory) certified pipes to Canada and America on January 23rd, 2018.*

## 2022

- Untuk pertama kalinya menerbitkan Surat Utang yang ditawarkan kepada Publik dengan instrumen Obligasi dan Sukuk Ijarah.
- *For the first time issuing Debt Securities offered to the Public with Bonds and Sukuk Ijarah instruments.*
- Mulai mengoperasikan mesin produksi pipa baja nirkarat (stainless steel) yang baru.
- *Started operating a new machine for stainless steel pipe production.*

## 2023

- SPINDO menerbitkan Penawaran Umum Berkelanjutan (PUB) II Tahap II sebesar Rp170.000.000.000,00 dengan spread sebesar 100 bps terhadap Benchmark Obligasi Negara.
- Peresmian Depo SPINDO keempat di Makassar tanggal 15 Juni 2023.
- *A Sustainable Public Offering (PUB) II Phase II worth IDR170,000,000,000.00 was released by SPINDO, with a 100 basis point spread over the Benchmark State Bond.*
- *Inauguration of the fourth SPINDO Depot in Makassar on June 15th, 2023.*
- Pemancangan pertama Plant 7 SPINDO Gresik pada bulan September 2023.
- Memperoleh sertifikat MONOGRAM LISENCE API 5L-1276 dari American Petroleum Institute (API).
- *First groundbreaking for Plant 7 SPINDO Gresik in September 2023.*
- *Obtained MONOGRAM LICENCE API 5L-1276 certificate from the American Petroleum Institute (API).*

# Bidang Usaha, Produk, & Jasa

Business Lines, Products, & Services

Kegiatan usaha Perseroan adalah merancang dan memproduksi berbagai macam produk pipa baja berdasarkan kategori, baik standar maupun yang dibuat berdasarkan pesanan yang dikustomisasi sesuai dengan spesifikasi pelanggan. Produksi yang dilakukan meliputi berbagai jenis pipa yang dibuat dari karbon *hot rolled*, *cold rolled* dan *stainless steel*. Hasil produksi pipa Perseroan digunakan untuk berbagai industri seperti industri infrastruktur, otomotif, minyak dan gas, pipa air minum, dan lain sebagainya. Selain memproduksi berbagai macam produk pipa untuk beragam industri, Perseroan juga menyediakan jasa layanan pelapisan (*coating* dan *protection*) internal dan eksternal.

*The Company's business activities include designing and manufacturing various kinds of steel pipe products based on categories both generally ready-made and custom-made as specified by customers. Raw materials used in the production process namely hot rolled steel, cold rolled steel and stainless steel. From which the final products are mainly used by various industries such as infrastructure, automotive, oil and gas, drinking water pipe and many more. Aside from producing all sorts of pipe products for various industries, the Company also provides coating services (coating and protection) internally and externally.*

Untuk pangsa pasar domestik, Perseroan telah menjajaki pasar ritel dan proyek, di mana keduanya berkontribusi setara 90% bagi pendapatan Perseroan. Sementara pasar global menyasar kawasan Amerika Utara - Kanada, dan Australia. Untuk Asia Perseroan menyasar pasar Vietnam, Malaysia, dan Timor Leste.

*For domestic market share, the Company is currently exploring the retail market and project-based market, where these markets contribute 90% of the Company's revenue. In the meantime, for the global market, the Company aims to enter North America-Canada and Australia markets. For the Asia region, Vietnam, Malaysia, and East Timor.*

## **Produk** | Products

Produk-produk yang dihasilkan SPINDO adalah:

*The products manufactured by SPINDO are:*

### Pipa Struktural

ERW: Pipa baja ERW SPINDO telah digunakan pada beberapa proyek jembatan, proyek konstruksi terutama untuk bangunan bentang lebar: bandara, stadion, aula, dll, serta aplikasi struktural selubung bangunan. Perseroan telah melayani ragam proyek, mulai dari proyek konstruksi raksasa milik Pemerintah dan proyek luar negeri hingga proyek-proyek swasta lokal dengan kontraktor umum.

SSAW: Pipa baja SSAW SPINDO sangat ideal untuk digunakan pada berbagai aplikasi struktural, seperti pekerjaan pondasi (tiang pancang SNI 8052:2014, ASTM A 252) dan di dermaga, jembatan dan konstruksi bangunan proyek. Pipa baja SPINDO sangat bermanfaat sebagai bahan alternatif konstruksi karena proses manufaktur pembentukan pipa spiral yang akurat membuat produk mudah digunakan, serta dikombinasikan dengan pengelasan berkualitas tinggi dan uji produk untuk memastikan keandalan.

### Structural Pipes

*ERW steel pipe is used in numerous bridge construction projects and other construction projects mainly for wide-span structure: airport, stadium, hall and more as well as structural application of building envelopes. The Company has served a variety of projects from the Government's mega construction projects and overseas projects to local private projects with general contractors.*

*SSAW steel pipe is very ideal to be used in various structural applications, such as foundation work (piles SNI 8052:2014, ASTM A 252) and in piers, bridges and project building construction. SPINDO's steel pipe is very useful as an alternative construction material due to the accurate manufacturing process of the spiral pipe that makes it easy to use, combined with high quality welding and product quality control to ensure reliability.*

# Pipa Air

ERW: Pipa Baja SPINDO memenuhi berbagai standar kelayakan penggunaannya sebagai pipa air, salah satunya adalah SNI 0039. Pipa Air ERW SPINDO melalui proses pelapisan yang telah teruji supaya dapat menyediakan produk dengan kualitas terbaik. Penggunaan pipa baja ini terutama untuk jaringan pipa air transmisi, pabrik pengolahan air, pabrik pengolahan air limbah, fasilitas penggunaan tenaga air, dan sistem sirkulasi air pada bangunan. Pipa Air ERW SPINDO juga telah mendapatkan sertifikasi UL 852 dan FM 1630, di mana sertifikasi ini biasa dipakai di luar negeri untuk pipa pemadam kebakaran.

SSAW: Pipa air SSAW SPINDO digunakan untuk distribusi air dengan diameter besar, seperti pada terowongan air, pabrik pengolahan air, pabrik pengolahan air limbah, dan sebagainya. Pada pipa jenis ini terdapat beberapa lapisan pada bagian dalam dan luar pipa, seperti cement mortar lining dan internal epoxy coating pada bagian dalam pipa. Untuk lapisan luar terdapat lapisan three-layer polyethylene dan juga external epoxy coating.

# Water Pipes

*ERW: SPINDO Steel Pipe meets various eligibility standards for its use as water pipes, such as SNI 0039. The pipes coating process which has been well tested enables SPINDO to produce the best quality product. These steel pipes are mostly used for water transmission pipeline, water treatment plant, wastewater treatment plant, hydropower facilities and water circulation system in buildings. This particular product has acquired UL 852 and FM 1630 certifications which are conventionally used abroad for fire extinguisher systems.*

*SSAW: SPINDO SSAW water pipe is used for water distribution systems with large diameters, such as water tunnel systems, water treatment plants, wastewater treatment plants, etc. This pipe variant has several layers of coating both on the inner and outer surface of the pipe such as cement mortar lining and internal epoxy coating on the inner part of the pipe. The outer layer consists of three-layer polyethylene and an external epoxy coating.*

# Pipa Oil & Gas

ERW: SPINDO merupakan salah satu supplier pipa ERW untuk minyak dan gas, dengan sertifikasi API 5L. Pipa ERW kami tersedia dalam berbagai grade, ketebalan, dan diameter pipa sesuai kebutuhan pelanggan. Proses produksi pipa ERW menggunakan material berkualitas tinggi, pengecoran terus menerus, proses kontrol rol, fine grain, serta baja karbon rendah yang sesuai dengan persyaratan standar API 5L.

SSAW: SPINDO memproduksi pipa SSAW berkualitas tinggi berdiameter besar untuk industri minyak dan gas. Manufaktur kami menggunakan proses produksi berteknologi terkini dan otomatisasi sebagai langkah maju terdepan. Berbagai ukuran, kapasitas yang memadai, kemampuan proses pelapisan pipa, dan lokasi strategis menjadi keunggulan kami dalam meraih pasar Indonesia.

# Oil & Gas Pipes

*ERW: SPINDO one of the suppliers of API 5L certified ERW pipes for the oil and gas industry. ERW pipes are available in various grades, thicknesses and diameters to accommodate the customers' needs. Our ERW pipes production process utilizes high-quality materials, a continuous casting process, roll control process, fine-grain, low carbon steel that has met the required standards of API 5L.*

*SSAW: SPINDO produces high quality large diameter SSAW pipe for the oil and gas industry. Our manufacturer utilizes the production process of the latest technology and automation process as the leading strategic step. Various sizes, adequate capacity, surface coating ability and strategic locations are our primary strengths in capturing Indonesian market.*

## Pipa Stainless Steel

Pipa Industri: Pipa stainless steel SPINDO memiliki ketahanan yang sangat baik terhadap korosi, tahan panas, serta telah digunakan sebagai bahan baku yang dapat menahan lingkungan yang korosif seperti industri kimia.

Pipa Ornamen (Ornamental Tubes) SPINDO banyak digunakan untuk berbagai peralatan sehari-hari karena sangat awet dan mampu menahan korosi. Pipa ini tahan karat, bahkan apabila elemennya tak terlindungi, tahan panas, dan kondisi ekstrim lainnya.

## Stainless Steel Tubes & Pipes

*Industrial Pipes: SPINDO stainless steel pipes have extremely well durability against corrosion and heat. It has been used as raw materials that can withstand corrosive environments such as chemical industries.*

*Ornamental Tubes: Because of their strength and resistance to corrosion, SPINDO ornamental tubes are extensively utilized for a range of common appliances. These tubes withstand heat, rust even in exposed environments, and other harsh situations with durability.*

## Pipa GI

Pipa GI (*Galvanized Iron*) merupakan pipa yang terbuat dari baja dan dilapisi oleh pelindung yang terbuat dari bahan seng. Lapisan tersebut ditujukan untuk melindungi baja dari korosi sehingga penggunaannya lebih awet. Selain itu, konstruksi baja yang kuat membuat Pipa GI tahan terhadap beban berat dan juga tahan lama.

Pipa GI SPINDO sebagian besar diaplikasikan sebagai rangka langit-langit/plafon, rangka partisi dinding, kanopi, pagar, gerbang, saluran kabel listrik dan telekomunikasi. Pipa SPINDO secara fleksibel diproduksi sesuai spesifikasi standar atau custom.

## Galvanized Iron Pipes

*Galvanized Iron Pipes are made of steel and dipped in a protective zinc coating to prevent corrosion and make it durable. Other than that, solid steel construction renders galvanized pipes durable and long-lasting.*

*Galvanized Iron pipes/SPINDO GI Pipes are mostly installed as ceiling frames/ceiling, frames in partition walls, canopies, fences, gates, electrical/telecommunication cable lines. SPINDO pipes are flexibly produced according to the customized or standard specifications.*

## Pipa Perabot

Pipa perabot / furnitur merupakan salah satu varian dari pipa baja hitam (pipa hitam). Berbagai produk furnitur fabrikasi dari varian pipa hitam yang satu ini, beberapa di antaranya adalah rangka meja atau kursi, ranjang, dan rak atau lemari, dsb.

## Furniture Tubes

*Furniture tubes are a type of black steel tubes (black tube). This black tube variation is used to build a variety of furniture products, including table or chair frames, beds, shelves or cupboards, and so on.*

## Pipa Mekanis

SPINDO memproduksi pipa mekanis dengan kualitas terbaik yang dapat diaplikasikan untuk bermacam-macam kegunaan, seperti bahan furnitur, struktur rangka bus, rangka sepeda, sparepart otomotif dan juga beberapa bagian kendaraan bermotor. Pipa Mekanis SPINDO telah melewati serangkaian tahap pengecekan dan juga pengetesan agar dapat menghasilkan Mechanical Tubes dengan kualitas terbaik.

## Mechanical Tubes

*Mechanical Tubes: SPINDO produces the best quality mechanical tubes that can be applied for various purposes such as furniture material, bus frame structure, bicycle frame, automotive spare parts as well as several parts of motorized vehicles. SPINDO mechanical tubes have gone through a series of inspection and testing phases in order to produce the best quality Mechanical Tubes.*

## Tiang

Tiang Telekomunikasi: Tiang telekomunikasi SPINDO dirancang untuk memenuhi berbagai permintaan pelanggan. Tiang baja memiliki keunggulan lebih ringan dibandingkan tiang beton, serta mudah untuk pemeliharaan.

Tiang listrik: Tiang listrik SPINDO tersedia dalam berbagai macam ukuran dan tipe untuk berbagai kebutuhan tegangan. Sebagai peralatan untuk mendistribusikan listrik, tiang baja menawarkan alternatif hemat biaya dibanding material yang lain.

Tiang Penerangan: Penerangan jalan raya yang efisien membutuhkan aspek keamanan, ekonomis dan perawatan yang mudah. Tiang SPINDO memenuhi persyaratan desain sesuai dengan struktur yang ada, serta desain yang kontemporer.

## Steel Poles

*Telecommunication poles: SPINDO telecommunication poles are designed to meet the various demands of the customers. Steel poles are lighter compared to concrete ones and easy to maintain.*

*Electric poles: SPINDO electric poles are available in various sizes and variants according to the voltage requirements. As an equipment for electricity distribution, steel poles offer cost-efficient alternatives compared to other materials.*

*Light Poles: Efficient street lighting requires safety, economic and easy maintenance aspects. SPINDO poles meet all the design requirements according to the existing structure and contemporary design.*

Proses penjaminan mutu produk diverifikasi terhadap program evaluasi mutu yang ketat, yang diwujudkan dalam keberhasilan memperoleh sertifikat internasional ISO dan API 5L. Sebagai bagian dari upaya memenuhi standar yang diakui secara internasional, SPINDO terus memenuhi sejumlah standar mutu yang ditetapkan oleh badan akreditasi lokal dan internasional, antara lain ASTM, BS, JIS, ISO, API, AS, dan SNI. Terkait basis pelanggan Perseroan, meliputi industri lokal dan perusahaan multinasional yang beroperasi di Indonesia, misalnya Total, Chevron, Honda, Yamaha, dan J Steel Australasia Pty, Ltd.

*All of our products have succeeded in achieving both national and international certification standards. The product quality assurance process is verified against a stringent quality evaluation program, which is manifested in the success in obtaining international certificates of ISO and API 5L. As part of the efforts to meet the internationally recognized standards, SPINDO continues to live up to a number of quality standards established by local and international accreditation bodies, including ASTM, BS, JIS, ISO, API, AS, and SNI. # **Rantai Kegiatan Usaha Bisnis** | Business Chain of Business Activity

Dalam menjalankan bisnisnya, Perseroan menggarap pasar domestik dan juga global mengingat produk-produk Perseroan diakui kualitasnya dan sudah mendapatkan sertifikasi baik nasional maupun internasional. Basis pelanggan Perseroan meliputi perusahaan domestik Indonesia dan perusahaan-perusahaan multinasional yang beroperasi di Indonesia seperti Total, Chevron, Honda, dan Yamaha, serta perusahaan internasional seperti J Steel Australasia Pty, Ltd.

*In conducting its business, the Company is working on the domestic and global markets in view of the quality of its products that have been recognized and have acquired both national and international certifications. The Company's customer basis includes domestic and multinational Companies operating in Indonesia namely Total, Chevron, Honda and Yamaha as well as international companies such as J Steel Australasia Pty. Ltd.*

Di pasar domestik, Perseroan telah melakukan sejumlah pengembangan rantai produksi dengan beroperasinya unit produksi di Sidoarjo pada tahun 2014. Pengembangan bidang usaha dengan pembangunan gudang stok dan penjualan di Bandung dan Jakarta pada tahun 2016, gudang stok dan penjualan di Samarinda pada tahun 2018, dan gudang stok dan penjualan di Makassar pada tahun 2023 ini. Perseroan telah memiliki 6 fasilitas manufaktur di Indonesia dengan total 38 lini produksi yang masing-masing dapat dikalibrasi untuk menghasilkan berbagai jenis pipa. Saat ini Perseroan juga tengah dalam proses pembangunan SPINDO di Gresik, Jawa Timur di atas lahan 1.000.000 m².

*In the domestic market, the Company has developed several production chains namely production units located in Sidoarjo began operational in 2014. Other developments conducted by the Company are the construction of stock warehouse and marketing units in Bandung and Jakarta in 2016, Samarinda in 2018 and then Makassar in 2023. The Company owns six manufacturing facilities in Indonesia with a total of 38 production lines where each can be calibrated to produce a variety of pipes/tubes. Currently, the Company is in the midst of developing SPINDO operation unit on 1,000,000 sqm land in Gresik, East Java.*

Untuk pasar global, Perseroan telah secara rutin melakukan ekspor produk pipa ke Amerika Serikat dan Kanada sejak tahun 2003. Selain itu, sejumlah pasar potensial yang belum tersentuh mulai dikalkulasi untuk dijadikan target pasar selanjutnya seperti Eropa dan Asia.

*In the global market, the Company has been regularly exporting its products to the United States of America and Canada since 2003. In addition, several potential new markets have been analyzed for the Company's next export destinations such as Europe and Asia.*

# **Wilayah Operasi** | Areas of Operation

Wilayah operasi SPINDO telah menjangkau berbagai pelosok tanah air dengan pembangunan store dan stockist di beberapa daerah. Sejumlah lokasi produksi yang berdekatan dengan jalur distribusi pelabuhan memudahkan pengiriman barang ke wilayah timur Indonesia. Perseroan berupaya menjangkau hingga ke berbagai wilayah Indonesia yang terpencil.

*SPINDO's operational area has reached various corners of the country by building stores and stockists in several areas. A number of production locations that are close to port distribution channels facilitate the delivery of goods to eastern Indonesia. The company seeks to reach various remote areas of Indonesia.*

# Manajemen Modal Manusia

## Human Capital Management

Perseroan yang telah beroperasi selama 5 dekade telah mengembangkan pengelolaan sumber daya manusia menjadi Manajemen Modal Manusia yang menekankan pada investasi perusahaan untuk menambah nilai kepada karyawan melalui motivasi, komitmen, kompetensi, serta efektivitas kerja tim.

*The Company, which has been operating for 5 decades, has developed human resource management into Human Capital Management which emphasizes corporate investment to add value to employees through motivation, commitment, competence, and teamwork effectiveness.*

Perseroan memandang karyawan sebagai aset yang dapat diperkaya dan memberikan keuntungan bagi perusahaan dalam jangka panjang. Investasi pada pengembangan manusia, misalnya melalui pelatihan profesional, dapat meningkatkan kepuasan kerja yang lebih besar bagi karyawan.

*The company consider employees as assets that can be enriched and provide benefits for the company in the long term. Investment in human development, for example through professional training, can lead to greater job satisfaction for employees.*

Setiap karyawan memiliki kesempatan yang sama dan setara untuk mengembangkan karir mereka. Perseroan tidak pernah menjadikan latar belakang suku, agama, ras, gender maupun hal lain yang bersifat diskriminatif dalam menentukan penempatan karyawan pada posisi jabatan tertentu. Perseroan juga mendukung budaya yang mengedepankan keberagaman dan menghargai tiap kontribusi seluruh karyawan.

*All employees are privileged to have equal opportunities to develop professionally. The company does not exploit an employee's background, including ethnicity, religion, race, gender, or any other discriminatory aspect, to place an employee in a particular position. The company support a culture that promotes diversity and the ability of all employees to contribute.*

## **Rekrutmen** | Recruitment

Program rekrutmen Perseroan yang sangat terfokus dan proaktif, yang dirancang bukan hanya untuk menarik bakat terbaik di semua tingkatan organisasi, tetapi juga untuk mengidentifikasi talenta-talenta yang berpotensi dipromosikan untuk naik jabatan untuk mengisi posisi-posisi penting. Kami percaya bahwa karyawan yang telah memiliki tujuan karier yang jelas akan cenderung memilih untuk tetap bersama Perseroan. Perseroan menawarkan peluang pengembangan potensi mereka dan memberikan paket remunerasi yang kompetitif.

*We have highly focused and proactive recruitment programs, designed not only to attract the best talents at all organization levels but also to identify potential talents to be promoted to fill critical positions. We believe that employees who have vivid career goals generally opt to dedicate their career with the Company. In addition to offering various opportunities to develop employees' potential and provide competitive salary budles, we ensure that every employee develop their potential.*

Strategi pemenuhan SDM yang diterapkan Perseroan mencakup:

- *Paper Screening*
- Psikotes
- *User Interview*
- *Medical Check Up*
- *Signing Agreement.*

*The strategy of Human Capital procurement implemented by the Company includes:*

- *Paper Screening*
- *Psychological test*
- *User Interview*
- *Medical Check Up*
- *Signing Agreement.*

# **Manajemen Karir** | Career Management

Sejalan dengan sistem pengembangan SDM berbasis kompetensi, Perseroan juga telah menyiapkan sistem manajemen karir yang lebih komprehensif. Manajemen karir ditujukan untuk memberi peluang kepada karyawan dalam mengembangkan dirinya selaras dengan kebutuhan posisi dalam perseroan dan dapat memberikan arah pergerakan karir karyawan sesuai potensinya. Bagi karyawan, karir merupakan indikator proses pengembangan diri, dan bagi perseroan menggambarkan posisi-posisi yang diperlukan dalam rangka pencapaian tujuan Perseroan.

*In line with the competency-based Human Resources development system, the Company has also prepared a more comprehensive career management system, intended to provide opportunities for employees to develop themselves in line with the Company's needs. Furthermore, this system can provide a career direction for the employees based on their potential. For employees, a career is a development process indicator; on the other hand, for the company, it describes positions needed in order to achieve the Company's goals.*

Untuk mengurangi dampak *turn over* yang tinggi kami menggunakan teknik ini untuk mengetahui indikasi awal ketidakpuasan karyawan yang dapat mengakibatkan mereka meninggalkan Perseroan. Kami kemudian dapat melakukan tindakan untuk mengatasi ketidakpuasan ini untuk mencegah karyawan tersebut mengundurkan diri dari Perseroan. Strategi ini telah berkontribusi pada tingkat pengunduran diri karyawan yang lebih rendah dari rata-rata pasar.

*To reduce the high turnover impact, we use this technique to find out early indications of employee dissatisfaction that could result in them leaving the Company. We can then take action to overcome this dissatisfaction to prevent the employees from resigning from the Company. This strategy has contributed to the lower rate of employees' resignation than the average trend in the market.*

# **Kesejahteraan Karyawan** | Employee Welfare

Kesejahteraan karyawan menjadi salah satu perhatian utama Perseroan agar karyawan dapat merasa aman dan nyaman dalam bekerja, sehingga dapat bekerja dengan motivasi yang lebih baik, yang pada akhirnya akan meningkatkan prestasi dan produktivitas kerja. Perseroan selalu berusaha memenuhi ketentuan-ketentuan Pemerintah yang berhubungan dengan kesejahteraan karyawan berupa penyesuaian besarnya gaji yang sejalan dengan laju inflasi serta memenuhi standar Upah Minimum Kabupaten/Kota (UMK) bagi karyawannya sesuai dengan ketentuan Kementerian Ketenagakerjaan.

*Employee welfare is one of the main concerns of the Company to keep the employees feel safe and comfortable at work. Thus, they are more motivated to work and finally improve their performance and productivity. The Company always strives to meet the Government's provisions related to employee welfare in the form of adjusting the salary amount in alignment with the inflation rate and with the Regency/City Minimum Wage (UMK) standard for its employees in accordance with the provisions of the Ministry of Manpower.*

Di samping itu, Perseroan juga menyediakan berbagai fasilitas dan tunjangan lain, seperti:

- Tunjangan kesehatan, diberikan berdasarkan level dan lama bekerja dari masing-masing karyawan
- Tunjangan pensiun, diberikan kepada karyawan yang telah bekerja selama 25 tahun atau lebih dan telah mencapai usia pensiun (55 tahun)
- Tunjangan uang makan dan uang transport
- Tunjangan alat komunikasi, untuk divisi tertentu
- Tunjangan cuti selama 12 hari kerja
- Tunjangan cuti selama 3 bulan untuk karyawati yang melahirkan
- Tunjangan cuti untuk kejadian khusus seperti kematian, sunatan, pembaptisan, wisuda, kelahiran, dan lain sebagainya untuk karyawan yang diatur dalam Perjanjian Kerja Bersama (PKB).

*In addition, the Company also offers various other facilities and allowances, such as:*

- *Healthcare allowance, distributed based on the level and work experience of each employee*
- *Pension allowance, given to employees who have worked for 25 years or more and have reached retirement age (55 years)*

- *Maternity allowance for 3 months*
- *Leave allowance for aprticular events such as death, circumcision, baptism, graduation, birth, etc. for employees regulated in the Collective Labor Agreement (PKB)*

Selain fasilitas dan tunjangan yang telah disebutkan di atas, Perseroan juga mendaftarkan seluruh karyawan pada BPJS Ketenagakerjaan (d/h Jamsostek) serta BPJS Kesehatan, guna mengantisipasi kejadian tak terduga yang dialami karyawan pada saat melaksanakan pekerjaannya.

*In addition to the facilities and allowances mentioned above, the Company also registered all employees into Employment Social Security or BPJS Ketenagakerjaan (formerly Jamsostek) and Healthcare Security or BPJS Kesehatan, to anticipate unexpected events encountered by the Company's employees when performing their work.*

# **Keberagaman** | Diversity

Di perseroan, kami menghormati dan menghargai perbedaan etnis, jenis kelamin, usia, asal kebangsaan, orientasi seksual, pendidikan, budaya, dan agama, dan kami menghargai beragam perspektif yang hadir dari keberagaman ini. Kami bangga karyawan kami di tingkat manajerial adalah perempuan, dan kami terus melakukan langkah-langkah untuk meningkatkan komposisi ini. Penjabaran target yang jelas untuk kinerja kami dalam hal keberagaman, serta meneguhkan komitmen yang lebih kuat untuk meningkatkan kehidupan perempuan di sepanjang rantai nilai kami.

*The Company pays the utmost respect and upholds ethnicity, gender, age, nationality, gender, education, culture, and religion differences. We also value the diverse perspectives in it. We are proud that our employees at the managerial level are women, and we continue to take steps to improve this composition. We describe clear targets for our diversity performance and affirm a stronger commitment to improve the women live along our value chain.*

Lebih lanjut tentang hal ini dapat dilihat di bagian Tanggung Jawab Sosial Perseroan Laporan ini. Pada seluruh tingkat organisasi, kami melakukan perbaikan terus-menerus dalam upaya kesetaraan gender dengan menetapkan target yang jelas setiap tahunnya, serta rencana jangka panjang untuk mencapainya. Langkah-langkah yang telah kami lakukan meliputi: Membangun jajaran tenaga kerja yang seimbang secara jenis kelamin di dalam Perseroan, khususnya pada tingkat manajemen; Mendorong keselamatan dan keamanan bagi para perempuan di komunitas tempat kami beroperasi; Meningkatkan akses para perempuan ke pelatihan dan keterampilan di seluruh rantai nilai kami; Memperluas peluang bagi perempuan dalam rantai nilai kami; Menyediakan sistem pendukung agar karyawan perempuan mencapai keseimbangan yang lebih baik antara karier dan keluarga mereka.

*This matter is explained in more details in the Corporate Social Responsibility section of this Report. In all levels of the organization, we create continuous improvement in gender equality effort by setting clear annual targets as well as a long-term plan to achieve them. The steps we have taken include: Building a gender-balanced workforce within the Company, especially at the management level; encouraging women safety and security in the community in our operational place; Increasing women's access to training and skills throughout our value chain; Expanding opportunities for women in our value chain; Providing a support system so that female employees reach a better balance between careers and their families.*

Salah satu aspek penting dalam komitmen kami terhadap keberagaman adalah memberikan kesempatan yang adil dan sama ke semua karyawan untuk mengikuti pelatihan. kami telah melakukan hal-hal berikut: Tim *General Training* Perseroan mengirimkan informasi tentang pelatihan yang tersedia kepada seluruh karyawan dan manajer untuk memastikan bahwa setiap individu memiliki kesempatan yang sama untuk berpartisipasi.

*One of the critical aspects of our commitment to diversity is to provide the same and equal opportunities to all employees for training, where we have conducted the following points: The Company's General Training Team informs about the training available to all employees and managers to guarantee that each employee has the same opportunity to participate.*

# **Penghargaan Terhadap Karyawan** | Employee Award

Perseroan memberikan kesamaan hak bagi seluruh karyawan untuk mengembangkan karir di lingkungan Perseroan. Karyawan yang memiliki prestasi kerja baik dan memenuhi berbagai persyaratan dari Perseroan akan memperoleh promosi jabatan dan kenaikan gaji. Selain itu, untuk karyawan yang telah bekerja selama 10, 20, dan 30 tahun diberikan penghargaan atas bukti loyalitasnya selama bekerja di Perseroan.

*The Company provides equal rights for all employees to develop careers within the Company. Employees who have excellent work performance and fulfill various requirements imposed by the Company will get promotion and salary increase. In addition, the employees who have worked for 10, 20, and 30 years are rewarded for their loyalty to the Company.*

# **Hubungan Industri** | Industrial Relationship

Hak seluruh karyawan Perseroan ditetapkan dan dilindungi oleh Prinsip Bisnis dan Pedoman Kebijakan (Kode Etik), serta oleh ketentuan dalam Perjanjian Kerja Bersama (PKB). PKB dinegosiasikan dan ditandatangani ulang setiap dua tahun oleh serikat pekerja dan Manajemen. Pada tahun 2019, terdapat 2 (dua) diskusi pokok yang telah didiskusikan antara Manajemen dan Serikat Pekerja, yang diselesaikan secara lancar. Tanggung jawab Perseroan kepada karyawan telah dijabarkan dalam Pedoman. Termasuk di antaranya adalah memastikan tempat kerja yang aman dan sehat, menjunjung tinggi seluruh undang-undang dan peraturan yang berlaku, dan memastikan bahwa hubungan kerja berlandaskan pada rasa saling menghormati dan kepercayaan. Sementara itu, setiap keluhan dari karyawan dapat diajukan melalui mekanisme bipartit Perseroan di tingkat lokal, regional, dan nasional. Sebagaimana disebutkan di atas, kesejahteraan karyawan adalah prioritas utama bagi kami. Sistem serta proses yang telah kami laksanakan untuk memastikan lingkungan kerja yang aman diuraikan di bagian 'Keselamatan dan Kesehatan Kerja' di halaman 253-264, Bab 6 dari Laporan Tahunan ini.

*All employees' rights are determined and protected by the Business Principles and Policy Guidelines (Code of Ethics), as well as by the provisions in the Collective Labor Agreement (PKB). PKB is negotiated and re-signed binually by trade unions and management. In 2019, there were 2 (two) main issues that had been discussed between the Management and the Labor Union, which were smoothly settled. The Company's responsibility to employees has been described in the Guidelines. It includes ensuring a safe and healthy workplace, upholding all applicable laws and regulations, and ensuring that work relationships are based on mutual respect and trust. Meanwhile, any employees' complaints can be submitted through the Company's bipartite mechanism at the local, regional, and national levels. As previously mentioned, employee welfare is our top priority. The systems and processes that we have administered to ensure a safe working environment are outlined in the 'Occupational Safety and Health' section in page 253-264, chapter 6 of this Annual Report.*

# **Program Pelatihan** | Training Program

Perseroan berupaya untuk meningkatkan pengetahuan, ketrampilan, dan sikap kerja agar karyawan kompeten sehingga dapat bekerja dengan efektif. Perseroan juga memberikan pemahaman mengenai digitalisasi kepada seluruh karyawan untuk mendukung Perseroan menuju industri 4.0. Upaya pengembangan karyawan terus menerus dilakukan melalui berbagai jenis kegiatan di antaranya melalui keikutsertaan pelatihan secara internal (diselenggarakan secara mandiri di dalam perseroan dan pelatihan eksternal (mengikuti pelatihan publik), demi mendapatkan hasil yang optimal untuk memastikan bahwa karyawan yang bekerja adalah karyawan yang kompeten di pekerjaannya. Penambahan dan penyempurnaan materi pelatihan akan terus dilakukan sesuai dengan kebutuhan dan perkembangan Perseroan.

*The Company always strives to improve knowledge, skills, and work attitudes so that employees are competent so they can work effectively. The company also provides an understanding of digitalization to all employees to support the company towards industry 4.0. Employee development efforts are continuously carried out through various types of activities including through the participation of internal training (conducted independently within the company and external training (following public training), in order to obtain optimal results to ensure that employees who work are employees who are competent in their jobs. And improvement of training materials will continue to be carried out in accordance with the needs and development of the Company.*

# 04 Analisa & Pembahasan Manajemen

## Management Discussion & Analysis

# Tinjauan Bisnis

Overview of Business Performance

## Penerapan Strategi Multisegmen | Implementation of Multisegment Strategy

Perseroan menerapkan strategi multisegmen untuk produk pipa baja yang dihasilkan. Masing-masing pasar memiliki pesan atau produk yang berbeda sehingga Perseroan juga menyesuaikan pesan dan konten agar sesuai dengan keinginan dan kebutuhan yang ditentukan oleh masing-masing pasar. Perseroan telah memilah produk pipa baja sesuai kebutuhan pasar, antara lain: pipa air, pipa struktur, pipa minyak dan gas, pipa GI, pipa furnitur, pipa otomotif, tiang, pipa stainless steel untuk industri, dan stainless steel untuk ornamen. Masing-masing label produk pipa baja tersebut telah diberikan pesan dan konten yang berbeda sesuai dengan kebutuhan *end-user*.

*The company implements a multi-segment strategy for its steel pipe products. Each market has a different message or product, so the Company also adjusts the message and content to suit the wants and needs determined by each market. The Company has sorted steel pipe products according to market needs, including: water pipes, structural pipes, oil and gas pipes, GI pipes, furniture pipes, automotive pipes, poles, stainless steel pipes for industry and stainless steel for ornaments. Each steel pipe product label has been given a different message and content according to end-user needs.*

Strategi ini membantu Perseroan mengatasi siklus hidup produk, apabila salah satu produk segmen tertentu turun maka Perseroan memiliki produk segment lain untuk bersaing. Strategi multisegmen memberi Perseroan peluang untuk menjangkau pangsa pasar yang lebih luas, sekaligus memungkinkan efisiensi dan efektivitas pemasarannya karena perusahaan memiliki lebih banyak sarana untuk menyampaikan pesan kepada konsumen.

*This strategy helps the Company overcome the product life cycle, if one particular product segment declines, the Company has other product segments to compete. The multi-segment strategy gives the Company the opportunity to reach a wider market share, as well as enabling efficiency and effectiveness of its marketing because the company has more means to convey messages to consumers.*

# **Pendekatan End-User** | Approach to End-User

Tahun 2023, Perseroan fokus kepada strategi pemasaran, terutama yang berkaitan langsung dengan penjualan. Pendekatan kepada *End-user* menjadi poin utama dalam produk pipa baja. Pasar Indonesia masih memiliki pandangan bahwa pipa baja sebagai komoditas, sehingga dalam persaingan produk lebih diutamakan harga terendah. Akibatnya, untuk mencapai harga yang diinginkan pasar, spesifikasi ukuran, ketebalan, *finishing*, kelengkungan dapat direduksi sesuai *budget*. Produk pipa baja memiliki nilai fungsi dan spesifikasi produksi yang unik; Hal itu menjadi dasar bahwa edukasi *end-user* berperan penting dalam strategi marketing.

*In 2023, the company had focused on marketing strategies, particularly ones relating directly to sales. An End-user approach was the key point in steel pipe products. Steel pipes are often perceived by Indonesian market as commodities, so that products set at a lowest price will be most preferred in the market. Therefore, in order that prices could be pegged at a desirable range, such product specifications as measurement, thickness, finishing, and curvature might be reduced according to budget. Steel pipe products have a unique value of function and product specification. This is the reason why an End-user approach takes an important role in marketing strategy.*

# **Acara Temu Pelanggan SPINDO** | SPINDO Customer Gathering

Selain *marketing campaign* dalam bentuk media outdoor, Perseroan juga aktif melakukan *customer gathering* di daerah-daerah sebagai upaya untuk mengakuisisi pelanggan (*customer acquisition*) sekaligus meretensi pelanggan (*customer retention*). Selain memperoleh umpan balik pelanggan, Perseroan juga memperoleh informasi yang akurat dari kondisi retail pipa baja untuk setiap daerah.

*Aside from the marketing campaign in the form of outdoor media, the Company also actively held customer gatherings in several Indonesian regions which were mainly designed as both customer acquisition and customer retention. In addition to getting feedback from the customers, the Company could obtain reliable information on steel pipe retail condition from the regions.*

Perseroan bekerja sama dengan distributor daerah atau toko yang memiliki total komitmen menjual pipa baja SPINDO untuk mengundang seluruh pelanggan toko, lokakarya (bengkel) pengguna pipa baja dan kontraktor. Mereka diberikan informasi tentang spesifikasi pipa baja beserta uji perbandingan kemampuan produk pipa baja. Acara ini bertujuan untuk memberikan pemahaman yang lebih baik kepada pelanggan mengenai kualitas dan standar pipa baja produksi SPINDO, sehingga pelanggan tidak salah pilih dalam menentukan pilihan produk; Saat ini marak produk pipa baja yang tidak sesuai standar di pasaran.

*The Company invited store customers, workshops as steel pipe users, and contractors to customer gatherings, which were organized in cooperation with regional distributors or stores showing a shared commitment to sell SPINDO steel pipes. Participants of the events were given information regarding steel pipe specifications and the results of comparison tests on steel pipe performance. The events were held with the intention of providing SPINDO customers with in-depth understandings of the quality and standard of steel pipes produced by SPINDO in order that they will make informed decisions when it comes to selecting steel pipe products. Unfortunately, many steel pipe products that are below standard are available in the market.*

Dalam acara ini juga dilakukan uji perbandingan kekuatan dan kualitas pipa baja SPINDO dibandingkan dengan produk lain. Dalam uji perbandingan kekuatan antara pipa baja SPINDO dengan pipa baja lain, dengan ukuran ketebalan yang sama, pipa baja SPINDO masih tetap kuat ketika diberi beban yang sama, sementara produk lain patah.

*During the customer gatherings, SPINDO's steel pipes and similar products of other brands were compared and tested for their strength and quality. Regarding the strength of steel pipes of equal thickness, SPINDO's steel pipes stood load tests, whereas other products did not.*

Perseroan juga mempersiapkan tim untuk mengadakan *Customer Gathering* guna mendukung *customer* di seluruh Indonesia. Permintaan *Customer Gathering* tersebut dapat ditujukan kepada Direktorat Marketing SPINDO.

*The Company is also preparing a team to hold a Customer Gathering to support customers throughout Indonesia. The Customer Gathering request can be addressed to the SPINDO Marketing Directorate.*

# Tinjauan Operasional

Overview of Operational Performance

Dalam mengidentifikasi segmen operasi, manajemen melihat dari jenis usaha berdasarkan sifat produk dan jasa yang mewakili kegiatan utama usaha Perseroan yaitu pipa baja las lurus (pipa HFW), pipa baja las spiral (pipa SSAW), strip dan plat serta jasa dan lain-lain.

*In identifying the Company's operating segments, the management categorizes the Company's business based on nature of the Company's products and services that represent main activities of the Company's business: straight welded pipes (HFW), spiral welded pipes (SSAW), strips and plate and services and others.*

## Tinjauan Operasional per Segmen Usaha | Operation Review of Business Segment

Informasi konsolidasian berdasarkan segmen operasi adalah sebagai berikut:

*The consolidated information based on operating segments is as follows:*

## Pipa HFW | HFW Pipe

Pipa HFW (*High-Frequency Welded*) memiliki hasil pengelasan yang berbentuk lurus atau longitudinal dengan menggunakan resistensi frekuensi tinggi (*high-frequency resistance welding*).

*HFW (High-Frequency Welded) pipes' welding results are in a straight form or longitudinal form by employing a high-frequency resistance technique (high-frequency resistance welding).*

| Laba Kotor<br>*Gross Profit* | 768.415 | 532.093 | 236.322 | 44% |

Sepanjang tahun 2023 Perseroan mencatat volume produksi pipa HFW sebanyak 242 ribu ton, naik 28 ribu ton atau 13% dibandingkan volume produksi tahun 2022 sebanyak 214 ribu ton.

*Throughout 2023, The Company recorded 242 thousand tons of HFW pipes production volume, higher by 28 thousand tons or 13% compared to that in 2022 of 214 thousand tons.*

Nilai penjualan pipa HFW tercatat sebesar Rp4,6 triliun, naik 6% dibandingkan dengan nilai penjualan di tahun 2022 sebesar Rp4,4 triliun.

*HFW pipes sales values reached IDR4.6 trillion, increased by 6% compared to the sales values in 2022 of IDR4.4 trillion.*

Naiknya nilai penjualan pipa HFW disebabkan karena naiknya volume penjualan, terutama untuk pipa mekanis, pipa hitam dan pipa air.

*The increase in the sales value of HFW pipes was due to the increase in sales volume, especially for mechanical pipes, black pipes and water pipe.*

Beban Pokok Pendapatan untuk pipa HFW naik 1% dari Rp3,86 triliun di tahun 2022 menjadi Rp3,88 triliun di tahun 2023, atau naik Rp0,2 triliun. Naiknya beban pokok pendapatan sejalan dengan naiknya volume dan penjualan di tahun 2023.

*Cost of Revenue for HFW pipes increased by 1% from IDR3.86 trillion in 2022 to IDR3,88 trillion in 2023, or an increase of IDR0.2 trillion. The increase in cost of revenue was in line with the increase in sales volume in 2023.*

Laba Kotor untuk pipa HFW mengalami kenaikan sebesar 44% atau Rp236 juta jika dibandingkan dengan Laba Kotor tahun 2022. Kenaikan Laba Kotor ini disebabkan karena kenaikan nilai penjualan yang lebih tinggi jika dibandingkan dengan kenaikan Beban Pokok Pendapatan sehingga menaikkan margin penjualan.

*Gross Profit for HFW pipes decreased by 44% or IDR236 million compared to Gross Profit in 2022. The increased in Gross Profit was due to the increase in Sales revenue that was higher when compared to the increase in Cost of revenue , thereby increasing the sales margins.*

## **Pipa SSAW** | SSAW Pipes

Proses pipa SSAW (Spiral Submerged Arc Welded) dengan menggunakan teknik las spiral, di mana lembaran baja dilas menjadi pipa baja dalam bentuk spiral dan menggunakan filler kawat tembaga antara tepi dilas.

*The SSAW (Spiral Submerged Arc Welded) pipe method uses a spiral welding technology in which steel sheets are welded into steel pipes in a spiral shape, with copper wire filler between the welded edges.*

| Laba Kotor<br>*Gross Profit* | 205.670 | 147.270 | 58.400 | 40% |

Volume produksi pipa SSAW pada tahun 2023 tercatat sebanyak 75 ribu ton, naik 26% atau 15 ribu ton dibandingkan dengan volume produksi di tahun 2022 yang tercatat sebanyak 60 ribu ton.

*In 2023, SSAW pipes production volume reached 75 thousand tons, higher by 26% or 15 thousand tons compared to that in 2022 of 60 thousand tons.*

Perseroan mencatat nilai penjualan pipa SSAW pada tahun 2023 sebesar Rp 1,24 triliun atau naik 2% atau Rp 28 miliar dibandingkan nilai penjualan di tahun 2022 yang tercatat sebesar Rp 1,21 triliun. Berlawanan dengan peningkatan nilai penjualan, beban pokok pendapatan pipa SSAW tercatat mengalami penurunan sebesar 3% atau Rp 30 miliar, jika dibandingkan dengan beban pokok pendapatan di tahun 2022 sebesar Rp 1,1 triliun.

*The Company recorded sales value of SSAW pipes in 2023 of IDR 1.24 trillion, an increased of 2% or IDR 28 million compared to sales value in 2022 which was recorded at IDR 1,21 trillion. Contrary to the increase in sales value, the cost of revenue of SSAW pipes recorded to have decreased by 3% or IDR 30 million, when compared to the cost of revenue in 2022 of IDR 1.1 trillion.*

## **Strip dan Plat** | Strips and Plates

Perseroan memproduksi strip dan plat baja dengan cara gulungan baja dimasukkan ke mesin pemotong baja, yang kemudian dipotong dalam bentuk strip/plat dengan berbagai ukuran, atau sesuai dengan spesifikasi pelanggan. Perseroan menjual strip dan plat baja langsung ke pengguna akhir, terutama industri konstruksi.

# **Penilaian Kinerja Direksi** | Board of Directors' Performance Assesment

**Prosedur**

Pelaksanaan evaluasi kinerja Direksi Perseroan dilakukan secara kolegial sebagaimana tercantum dalam Anggaran Dasar Perseroan, Pedoman, dan Kontrak Manajemen yang ditetapkan oleh Pemegang Saham pada RUPS Tahunan.

***Procedure***

*The performance evaluation of the Directors of the Company is conducted in a collegial manner as stated in the Company's Article of Association, Guidelines, and Management Contracts determined by the Shareholders in AGMS.*

**Kriteria**

Penilaian Kinerja dilakukan dengan kriteria yang telah ditetapkan secara tahunan melalui Indikator Penilaian Kinerja (KPI) Direksi yang meliputi aspek:

1. Pencapaian Key *Performance Indicators* (KPI) dalam Kontrak Manajemen.
2. *Self-Assessment* penerapan GCG.
3. Perumusan dan Implementasi, strategi serta inovasi.
4. Pencapaian manajemen dalam meningkatkan nilai bagi Pemegang Saham.
5. Kinerja masing-masing Direktur secara individu.

***Criteria***

*Performance appraisal uses the criteria that has been determined annually through Performance Assessment Indicators of the Directors (KPI) which covers the aspects of:*

1. *Achievement of Key Performance Indicators (KPI) in the Management Contract.*
2. *Self-Assessment of the implementation of GCG.*
3. *Formulation and Implementation, strategy and innovation.*
4. *Management's achievement in increasing value for Shareholders.*
5. *The performance of each Director individually.*

**Hasil Penilaian**

Secara keseluruhan, realisasi pencapaian KPI Direksi pada 2023 telah sesuai dengan target yang ditetapkan Pemegang Saham. Di samping itu, untuk mengetahui sejauh mana tingkat penilaian kinerja Direksi berdasarkan implementasi Tata Kelola Perusahaan, SPINDO juga menerapkan *self-assessment* yang penilaiannya mengacu pada Surat Edaran Otoritas Jasa Keuangan No. 32/SEOJK.04.2015 tanggal 17 November 2015 tentang Pedoman Tata Kelola Perusahaan terbuka. Penerapan *self-assessment* ini juga bertujuan untuk meningkatkan kualitas pelaksanaan tugas dan tanggung jawab Direksi. Selain itu, kebijakan ini juga menilai kinerja Direksi secara kolegial sehingga anggota Direksi dapat berkontribusi untuk memperbaiki kinerja Direksi secara berkesinambungan.

***Assessment Results***

*Overall, the realization of the Board of Directors' KPI achievements in 2023 is in line with the targets set Shareholders In addition, to understand to what extent the level of the performance assessment of the Board of Directors based on the implementation of corporate governance of the Company, SPINDO has also adopted the self-assessment which the assessment method refers to the Circular Letter of Financial Services Authority No. 32/SEOJK.04.2015 dated November 17, 2015 concerning Corporate Governance Guidelines for Public Companies. The self-assessment implementation also aims to elevate the quality of the execution of the duties and responsibilities of the Board of Directors. Aside from that, this policy also evaluates the Board of Directors' performances in a collegial manner to enable the Board of Directors to contribute in improving their performance continuously.*

# Audit Internal

Internal Audit

Perseroan mengawal setiap aktivitas Perusahaan dengan pembentukan budaya tata kelola yang baik. Pengelolaan risiko serta Pengendalian internal menyentuh setiap aspek di dalam Perusahaan baik operasional maupun keuangan. SPINDO mendorong setiap elemen yang ada untuk memahami dan peduli terhadap budaya GCG.

*The Company oversees every activity of the Company with the establishment of good governance culture. Risk management as well as internal controls touch every aspect of the Company both operations and finance. SPINDO encourages every existing element to understand and care for GCG culture.*

Langkah tersebut menjadi bagian dalam menciptakan Perusahaan yang sehat dan berkelanjutan, sehingga memberikan nilai tambah dan landasan yang kuat kepada Perseroan untuk bersaing dan menjadi pilihan utama para pelanggan.

*The step is one part of creating a healthy and sustainable company so that it generates added value and a strong foundation for the Company to compete and become the customers' main option.*

Peran KP5 yang dilakukan oleh Internal Audit sangat strategis dalam menunjang penerapan budaya GCG melalui pendekatan yang terstruktur dan menyeluruh. KP5 juga berperan untuk menanggapi pelaporan pelanggaran kode etik di bawah level direksi. Fungsi ini dilakukan guna mengevaluasi dan meningkatkan tata kelola (governance process), pengendalian (control), dan efektivitas proses.

*The role of KP5 (Monitoring Committee on the Implementation and Enforcement of Code of Ethics and Conduct) carried out by the Internal Audit is very strategic in supporting the application of GCG culture through a structured and comprehensive approach. KP5 also plays a role in responding to code of ethics breach report below the level of the Directors. The purpose of this function is to evaluate and improve governance (governance process), control, and process effectiveness.*

# Sistem Pengendalian Internal

## Internal Control System

Sistem Pengendalian Internal merupakan metode, kebijakan, dan prosedur yang terkoordinasi di dalam perusahaan untuk mengamankan kekayaan perusahaan, menguji ketepatan, ketelitian, dan keandalan catatan/data akuntansi serta untuk mendorong ditaatinya kebijakan manajemen.

*Internal Control System is a method, policy and procedure coordinated within the Company to secure the Company's wealth, to examine accuracy, precision and reliability of accounting notes/date as well as to prompt the compliance with the management policy.*

Sistem pengendalian internal Perseroan dijabarkan dalam bentuk perencanaan yang meliputi seluruh kegiatan operasional Perseroan dengan tujuan menjaga eksistensi dan keamanan harta milik Perseroan, memeriksa kebenaran data akuntansi, dan mendorong dipatuhinya seluruh kebijakan-kebijakan manajemen yang telah ditetapkan. Untuk dapat mencapai hal tersebut, dalam menjalankan kegiatan usahanya Perseroan dipimpin oleh para Direksi yang sangat berpengalaman dalam *core business* perusahaan, dibantu oleh para manajer yang berpengalaman, memiliki integritas yang tinggi, dan berkompeten di bidangnya masing-masing. Selain itu, Perseroan selalu menyesuaikan kegiatan operasionalnya dengan memanfaatkan perkembangan teknologi terkini baik dalam keuangan, produksi, maupun bidang pemasaran.

*The Internal Control System of the Company is elaborated in the form of planning covering the entire operational activities of the Company with the goal to preserve existence and security of the Company's wealth, to examine the validity of accounting data and urge compliance with all of the determined management policies. To achieve these goals, in running its business activities, the Company is led by the Board of Directors vastly experienced with the Company's core business, assisted by experienced managers who possess high integrity and competence in their respective fields. Furthermore, the Company always adjusts its operational activities by taking advantage of the latest technological advancements in the fields of finance, production and marketing.*

Pelaksanaan sistem pengendalian internal (*Internal Control System*) Perseroan mengadaptasi *framework internal control* dari COSO (*Committee of Sponsoring Organizations of the Treadway Commission*) yang memiliki 5 komponen utama, dan 17 prinsip untuk mendukung tercapainya, yaitu antara lain kepatuhan terhadap kebijakan dan prosedur yang ada dan penerapan internal kontrol yang efektif dalam operasional perusahaan, sebagai berikut:

# **Evaluasi dan Kecukupan Sistem Pengendalian Internal** | Evaluation and Adequacy of the Internal Control System

Evaluasi atas sistem pengendalian internal di lingkungan Perseroan dilakukan oleh Unit Audit Internal yang selanjutnya hasil tersebut akan dieskalasi ke Direksi. Direksi menilai sistem pengendalian internal yang dilakukan oleh Perseroan telah berjalan baik dan cukup. Namun Perseroan akan tetap melakukan pengembangan, evaluasi dan perbaikan yang dilakukan secara terus-menerus agar lebih optimal.

*Evaluation of internal control system within the Company is carried out by the Internal Audit Unit which the results will be escalated to the Board of Directors. The Board of Directors considers that internal control system conducted by the Company has been running well and adequate. However, the Company will continue to develop, evaluate, and improve continuously to be more optimal.*

# Manajemen Resiko
## Risk Management

Dalam menjalankan kegiatannya, Perseroan menghadapi risiko usaha dan risiko lain yang berada di luar jangkauan Perseroan. Seiring dengan perkembangan Perseroan, maka risiko yang harus dihadapi Perseroan pun semakin meluas dan bervariatif. Dituntut kemampuan yang prima dari pihak manajemen untuk melakukan proses identifikasi, analisis, dan evaluasi atas risiko agar risiko-risiko tersebut dapat dikenali dan dikendalikan dengan tepat. Tujuan manajemen risiko Perseroan secara keseluruhan adalah untuk mengendalikan risiko-risiko secara efektif dan meminimalisir pengaruh yang dapat menimbulkan kerugian lebih lanjut.

*In executing its activities, the Company is met with business risks and other risks beyond the Company's reach. Along with the development of the Company, the risks that must be dealt with are increasingly expanding and various. This fact demands prime capability from the management to conduct series of processes of risk identification, analysis and evaluation so that they are recognizable and properly mitigated. The overall objective of the Company's risk management is to control the risks effectively and minimize the effects that could lead to further losses.*

Manajemen Risiko menjadi bagian yang tidak kalah penting dalam menciptakan tata kelola perusahaan yang baik. Penerapan prinsip-prinsip GCG diharapkan mampu mendorong akurasi dalam menyusun dan memitigasi risiko. Sehingga kegiatan pengelolaan Perusahaan berjalan lancar dan mampu meningkatkan kinerja operasional dan keuangan Perseroan.

*Risk Management is an equally important part of creating good corporate governance. The application of GCG principles is expected to boost accuracy in compiling and mitigating risks. Thus, the Company's management activities will run seamlessly and will be able to improve operational and financial performances of the Company.*

Sebagai salah satu Perusahaan yang memproduksi pipa dengan berbagai jenis, Perseroan menyadari bahwa risiko yang sedang dan akan dihadapi merupakan keniscayaan dalam menjalankan bisnis. Risiko dalam konteks SPINDO merupakan suatu kejadian potensial, baik yang dapat diperkirakan (*anticipated*) maupun yang tidak diperkirakan (*unanticipated*) yang berdampak negatif terhadap pertumbuhan, pendapatan, dan operasional.

*As one of the companies that produces pipe with various types, the Company realizes how inevitable the risks when running a business. Risk in SPINDO's context is a potential event, either predictable (anticipated) or unpredictable (unanticipated) which has negative impact on growth, revenue, and operations.*

Manajemen risiko dirancang untuk mengidentifikasi kejadian potensial (risiko) yang dapat mempengaruhi Perseroan untuk kemudian dikelola sedemikian rupa agar sesuai dengan *risk appetite* (toleransi terhadap risiko).

*Risk management is designed to identify potential events (risks) that may affect the Company and then to be managed in such a way so that it is in accordance with risk appetite (risk tolerance).*

## **Kebijakan Manajemen Risiko** | Risk Management Policy

Untuk saat ini, Perseroan belum memiliki pedoman manajemen risiko secara formal, akan tetapi prinsip manajemen risiko telah tertuang pada Pedoman Tata Kelola Perusahaan yang ditandatangani oleh seluruh Dewan Komisaris dan Direksi pada 9 Januari 2018.

*Currently, the Company has yet to have a formal risk management guidelines however the principles of risk management have all been incorporated in its Corporate Governance Guidelines signed by all members of the Board of Commissioners and Directors on January 9th, 2018.*

## **Sistem Manajemen Risiko** | Risk Management System

Sistem Manajemen Risiko Perseroan terus berupaya menyempurnakan Sistem Manajemen Risiko yang ada. Perseroan sedang menyusun dan membangun sistem manajemen risiko yang sesuai dengan bidang usaha dan kondisi operasional. Sistem Manajemen Risiko akan mengacu pada kerangka kerja COSO-ERM yang tergambar dalam diagram berikut:

*The Company continues to seek for the improvement of the existing Risk Management System. The Company has drafted and built a risk management system in accordance with the line of business and operational conditions. Risk Management System shall refer to the COSO-ERM Framework as illustrated in the following diagram:*

Kerangka kerja Enterprise Risk Management (ERM) ini akan memiliki 4 sasaran utama, yakni:

**Strategis**
Sasaran strategi ditetapkan untuk memberikan dukungan dalam pelaksanaan dan pencapaian misi Perusahaan, sehingga tujuan yang ditetapkan menjadi selaras dengan pelaksanaan operasional yang dijalankan oleh Perusahaan.

**Operasi**
Sasaran operasi diperlukan dalam pemanfaatan semua sumber daya yang dimiliki oleh perusahaan secara efektif dan efisien, sehingga sumber daya tersebut dapat lebih tepat guna.

**Pelaporan**
Sasaran pelaporan adalah dapat dipercayainya laporan yang diterbitkan perusahaan, khususnya untuk kepentingan pelaporan dengan pihak eksternal (Pemangku Kepentingan & Pemegang Saham).

**Kepatuhan**
Sasaran kepatuhan adalah terpenuhinya ketentuan dan persyaratan hukum dan regulasi yang berlaku. Sasaran utama tersebut kemudian dituangkan dalam 8 tahapan atau skema kerja, yakni:

**Lingkungan Internal**
Manajemen risiko yang dilakukan oleh perusahaan merupakan suatu bentuk pengelolaan risiko yang terjadi di dalam lingkungan internal Perusahaan. Elemen yang mempengaruhi lingkungan internal antara lain sistem nilai yang dianut oleh Perusahaan, gaya kepemimpinan manajemen, pola penentuan keputusan, dan pola penentuan wewenang dan tanggung jawab manajemen. Hal ini berdampak terhadap bentuk tingkat risiko yang dapat diterima (*risk appetite*), tingkat toleransi risiko, budaya risiko, dan implementasi ERM.

**Penetapan Tujuan**
Tujuan harus ditetapkan lebih awal sebelum manajemen Perusahaan memutuskan mengidentifikasi risiko-risiko yang telah ada, sehingga diharapkan risiko-risiko tersebut selanjutnya dapat dimitigasi, sehingga tujuan Perusahaan dapat tercapai. Tujuan Perusahaan dapat diidentifikasi ke dalam tujuan yang sifatnya strategis, operasional, pemenuhan, dan pelaporan.

**Identifikasi Kejadian**
Seluruh kejadian baik yang datangnya dari dalam Perusahaan (internal) maupun dari luar Perusahaan (eksternal) yang berpotensi mempunyai pengaruh terhadap sasaran yang hendak dicapai, maka harus diidentifikasi berbagai risiko yang dapat timbul. Identifikasi risiko ini dapat dilakukan dengan berbagai cara, di antaranya melihat analisis kecenderungan (tren), analisis atas kejadian masa lalu (historis), ataupun dengan analisis proyeksi masa depan.

*Enterprise Risk Management (ERM) Framework will consists of 4 key targets, namely:*

***Strategic***
*Strategic targets are set to generate support in the implementation and achievement of the Company's mission, so the set goals should be consistent with operational implementation by the Company.*

***Operations***
*Operation targets are needed in the utilization of all resources owned by the Company effectively and efficiently, so that it can be more appropriately used.*

***Reporting***
*Reporting target is when the reports published by companies are credible, in particular for the importance of reporting with external parties (Stakeholders and Shareholders).*

***Compliance***
*Compliance target is the fulfillment of the legal provision and requirements and the applicable regulations. These key targets will be then incorporated into eight stages or work scheme, they are:*

***Internal Environment***
*Risk management carried out by the Company is a form of risk management that occurs within the Company's internal environment. Elements that affect the internal environment including the value system embraced by the Company, management leadership style, patterns of determining decisions, and patterns of determining authority and responsibility of the management. These impact the level of the acceptable risk (risk appetite), the level of risk tolerance, risk culture, and ERM implementation.*

***Objective Setting***
*Objective must be set at the earliest stage before the Company's management decides to identify the existing risks for then to be mitigated so that the targets of the Company can be achieved. The targets of the Company can be identified into strategic, operational, fulfillment, and reporting objectives.*

***Event Identification***
*All events either originated from within the Company (internal) or without (external) which may potentially influence the target that it intends to reach, thus various risks that may arise must be identified. Identification of these risks can be conducted in a variety of ways, including by observing the tendency analysis (trends), analysis of past events (historical), or by analyzing future projections.*

**Penilaian Risiko**

Dalam penilaian risiko, perusahaan melakukan penilaian berbagai tingkat dan besarnya risiko yang dapat berpengaruh terhadap pencapaian tujuan Perusahaan. Risiko-risiko tersebut dapat ditentukan berdasarkan kemungkinan keterjadiannya *(likelihood)* dan dampak yang ditimbulkannya sehingga dapat diperhitungkan mitigasi penyelesaiannya dimulai dari tingkat dan besarnya risiko yang paling tinggi sampai terendah.

**Perlakuan Risiko**

Tahap selanjutnya melakukan perlakuan risiko yang tepat untuk setiap risiko yang terjadi, menentukan tingkat toleransi risiko tersebut, dan menentukan berbagai alternatif penyelesaian risiko-risiko yang teridentifikasi. Terdapat beberapa perlakuan risiko yang timbul yaitu menghindar, menerima, mengurangi, dan membagi risiko kepada berbagai pihak.

**Aktivitas Pengendalian**

Dalam aktivitas pengendalian dilakukan penerapan atas kebijakan dan prosedur yang telah ditetapkan perusahaan yang dimaksudkan untuk memastikan bahwa risiko-risiko telah diperlakukan secara efektif, sehingga proses mitigasi terlaksana dengan baik. Tahap selanjutnya menyusun dan mengembangkan sistem pengembangan Perusahaan yang terintegrasi.

**Informasi dan Komunikasi**

Informasi yang berkaitan dengan pencapaian tujuan perusahaan diidentifikasi apakah berdampak langsung atau tidak, dikelompokkan ke dalam berbagai jenisnya, dan didistribusikan atau dikomunikasi-kan melalui media komunikasi yang tepat dengan waktu yang tepat pula sehingga setiap individu perusahaan dapat menjalankan tugas dan tanggung jawabnya dengan lebih baik.

**Pemantauan**

Tahap terakhir yaitu melakukan pemantauan atas semua aktivitas pengendalian risiko yang telah dilakukan untuk menjamin bahwa risiko-risiko telah dimitigasi dengan baik. Selain itu, mempertimbang-kan juga data-data yang diperoleh baik berupa data historis, data saat ini, maupun data berupa peramalan masa depan. Data historis dimaksudkan untuk melacak kinerja masa lalu terkait pencapaian target, rencana, dan ekspektasinya. Data saat ini menyajikan informasi tambahan dan data masa depan untuk penyempurnaan analisa informasi. Dari hasil pemantauan selanjutnya dievaluasi kembali untuk penyempurnaan lebih lanjut kemudian dikembangkan untuk menghasilkan pelaksanaan sistem organisasi yang lebih baik.

***Risk Assessment***

*In risk assessment, the Company assesses the various levels and magnitude of risks that may affect the achievement of the Company's goals. These risks can be determined based on the likelihood and the impact it may cause so that the mitigation can be calculated starting from the level and magnitude of risks, the highest risks to the lowest.*

***Risk Response***

*The next phase will be to conduct proper risk treatment for every risk that occurs, determine the level of risk tolerance, and determine various alternative solutions to the identified risks. There are a number of treatments for the emerging risks namely risk avoidance, risk retention, risk reduction, and risk sharing with various parties.*

***Control Activities***

*Control activity is carried out by applying the policies and procedures that have been established by the Company which is intended to guarantee that risks have been treated effectively, so that the mitigation*
*process can be implemented properly. The next stage will be to establish and develop an integrated company development system.*

***Information and Communication***

*Information relating to achieving goals of the Company will be identified whether it has a direct impact or not, categorized into various types, and distributed or communicated through proper communication media at the right time so that every individual of the Company can perform their duties and responsibilities better.*

***Monitoring***

*The last stage is monitoring the risk control activities that have been conducted to guarantee that the risks have been properly mitigated. Apart from that, it should also take into consideration the data obtained, either in the form of historical data, current data, as well as data on the future forecast. Historical data is intended to track down the past performance related to targets achievement, plans, and expectations. Current data presents additional information and future data for the improvement of information analysis. The monitoring results subsequently will be re evaluated for further improvements and then to be developed to produce a better implementation of the organizational system.*

# Pedoman Perilaku

## Code of Conduct

Sebagai salah satu produsen pipa baja dan *stainless steel* di Indonesia, SPINDO sebagai Perusahaan Terbuka berkomitmen untuk menaati dan patuh kepada seluruh ketentuan peraturan perundang-undangan yang berlaku, di antaranya adalah Undang-undang No. 40 Tahun 2007 tentang Perseroan Terbatas dan undang-undang lain yang berkaitan dengan hak dan kewajiban perusahaan. Sebagai bentuk pertanggung- jawaban kepada seluruh Stakeholders, SPINDO berkomitmen untuk melaksanakan prinsip-prinsip *Good Corporate Governance* (GCG) atau Tata Kelola Perusahaan Yang Baik dengan berlandaskan pada Pedoman Etika Bisnis dan Etika Kerja.

*As one of the steel pipe and stainless steel manufacturer in Indonesia, SPINDO as a public company is subject and comply to all applicable laws and regulations, such as Law No.40 of 2007 on Limited Liability Company and other related legislation with the rights and obligations of the company. As a form of accountability to all stakeholders, SPINDO is committed to implement Good Corporate Governance (GCG) principles or Good Corporate Governance based on the Code of Business Ethics and Work Ethics.*

Pedoman perilaku dan *compliance* ini memberikan arahan kepada setiap pejabat dan karyawan di SPINDO mengenai cara bertindak sesuai dengan ketentuan-ketentuan standar etika, yaitu Etika Bisnis dan Etika Kerja. Kedua hal tersebut memiliki tujuan sebagai berikut:

1. Mewujudkan standar kerja yang sesuai dengan Tata Kelola Perusahaan Yang Baik dan tepat bagi seluruh jajaran Dewan Komisaris, Direksi, dan karyawan SPINDO dengan tetap berpedoman pada aturan yang berlaku, sebagai komitmen bersama untuk mewujudkan Visi dan me-laksanakan Misi perusahaan secara profesional dan beretika, dengan memperhatikan seluruh *stakeholders*;
2. Meminimalisir segala risiko yang mengakibatkan terjadinya konflik kepentingan maupun kelalaian yang dilakukan oleh seluruh jajaran Dewan Komisaris, Direksi, dan karyawan SPINDO;
3. Menjabarkan Tata Nilai sebagai landasan etika yang harus diikuti oleh seluruh jajaran Dewan Komisaris, Direksi, dan karyawan SPINDO dalam melaksanakan tugas.

*This Code of Conduct and compliance provides direction to every officer and employee of SPINDO on how to act in accordance with the provisions of the ethical standards, Business Ethics and Work Ethics. Both of these have the following objectives:*

1. *Implement work standards in accordance with Good Corporate Governance for all: the Board of Commissioners, Directors, and SPINDO employees while complying with applicable regulations, professionally and ethically carry out the same commitment to actualize the vision and carry out the company's mission related to all Stakeholders;*
2. *Minimizing all risks that may result in conflicts of interest or negligence of work performed by all levels of the Board of Commissioners, Board of Directors, and SPINDO employees;*
3. *Explaining in detail values as the foundation of ethics to be followed by all levels of the Board of Commissioners, Directors, and SPINDO employees in carrying out their duties.*

Etika bisnis adalah bagian utama dari tata kelola perusahaan untuk mencapai keberhasilan jangka panjang. Sementara, Kode etik adalah pedoman perilaku yang menjadi acuan bagi organ perusahaan dan karyawan dalam menerapkan nilai-nilai perusahaan, yang jika diterapkan secara berkelanjutan akan menjadi budaya perusahaan, maka Etika Bisnis dan Etika Kerja memiliki manfaat sebagai acuan atau landasan perilaku seluruh pejabat dan karyawan SPINDO, menciptakan suasana dan lingkungan kerja yang kondusif, sehat dan nyaman, dan untuk membentuk karakter individu di dalam lingkungan SPINDO yang berintegritas dan beretika ketika berinteraksi dengan sesama individu.

*Business ethics is a major part of corporate governance to achieve long-term success. Code of ethics is a code of conduct that becomes a reference for corporate organs and employees in applying corporate values, which if applied in a sustainable manner will become a corporate culture, then Business Ethics and Work Ethics has an advantage as a reference or basis to all SPINDO officials and employees behavior, creating conducive work environment, a healthy and comfortable work environment, and builds SPINDO's character with integrity and ethics in interacting with others.*

## Pengelolaan Sistem Whistleblower | Whistleblower Management System

Perusahaan memberikan kesempatan kepada Manajemen dan Karyawan Perusahaan untuk dapat melaporkan setiap kasus korupsi, suap, gratifikasi, maupun penyelewengan lainnya kepada Komite GCG. Seluruh karyawan SPINDO, mitra bisnis, dan para pemangku kepentingan memiliki akses yang mudah ke saluran *whistleblower* kami, di mana mereka dapat melaporkan pelanggaran, dugaan, atau potensi pelanggaran Kode Etik Bisnis dan Aturan Kebijakan, serta pelanggaran etika atau perilaku ilegal lainnya. Semua laporan terhadap tindakan pelanggaran etika yang dilakukan Pegawai Perusahaan disampaikan kepada Komite Pemantau Penerapan dan Penegakan Pedoman Etika dan Perilaku (KP5). Namun demikian, khusus untuk pelanggaran yang dilakukan oleh Direksi dan/atau anggota KP5, maka pelaporan tindakan pelanggaran disampaikan langsung kepada Komite Audit.

*The company provides an opportunity for the Management and Employees of the Company to be able to report any cases of corruption, bribery, gratuity, or other fraud to the GCG Committee. All SPINDO employees, business partners and stakeholders have easy access to our whistleblower channel, where they can report violations, allegations, or potential violations of the Code of Business Conduct and Policy Rules, as well as ethical or other illegal conduct violations. All reports of ethical offenses committed by Company Employees are submitted to the Monitoring Committee on the Implementation and Enforcement of the Code of Ethics and Conduct (KP5). However, specifically for the breach committed by the Board of Directors and / or members of KP5, the reporting of the breach is submitted directly to the Audit Committee.*

# Tanggung Jawab Sosial Perusahaan Terkait Operasi yang Adil

Corporate Social Responsibility Related to Fair Operation

## Komitmen Tanggung Jawab Sosial Perusahaan Terkait Operasi Yang Adil | Corporate Social Responsibility Commitment Related To Fair Operations

Operasi yang adil tercermin melalui penerapan sistem GCG di pelaksanaan operasional Group SPINDO. Hal ini juga tercermin dari berbagai kebijakan untuk memastikan operasi yang adil, antara lain kebijakan anti korupsi, kebijakan hak-hak kreditur, pengadaan barang dan jasa yang transaparan serta kebijakan pelaporan pelanggaran.

*A fair operation is mirrored through the implementation of GCG system in SPINDO Group operation process and through the company's established policies namely policies on anti-corruption, rights of creditors, transparent goods and services procurement and complaint reporting.*

## Pelaksanaan Inisiatif Operasi Yang Adil | Implementation Of Fair Operation Initiatives

Setiap karyawan Perseroan diwajibkan melaksanakan budaya anti korupsi dalam operasionalnya. Selain guna terhindar dari masalah hukum, hal ini juga akan menciptakan budaya efisien dan transparan.

1. **Kampanye Anti Korupsi**

   Demi mewujudkan lingkungan usaha yang bersih dan sehat, Perseroan senantiasa menjaga integritas dari seluruh Insan Perseroan. Perseroan dengan tegas menolak adanya praktik KKN (Korupsi, Kolusi dan Nepotisme). Sebagai dasar kebijakannya, melalui Surat Keputusan Bersama Dewan Komisaris dan Direksi tentang Pedoman Tata Kelola Perusahaan dan Pedoman Etika Perilaku, Perseroan menyatakan komitmen untuk melaksanakan proses bisnis dengan mengutamakan etika dalam berbisnis dan berperilaku. Bentuk komitmen tersebut antara lain larangan adanya benturan kepentingan dalam menjalankan proses bisnis, larangan menerima dan memberi suap, larangan gratifikasi. Sosialisasi mengenai hal ini dilakukan sebanyak minimal 1 (satu) kali, melalui media komunikasi (baik lisan maupun tertulis) yang ada di perusahaan. Upaya awareness juga dilakukan dengan memasukkan materi anti korupsi dalam orientasi karyawan baru. Ini dilakukan agar anti korupsi benarbenar dimengerti dan diimplementasikan dalam aktivitas operasional sehari-hari dan menjadi budaya perusahaan.

*Every employee is obligated to apply anti-corruption culture in its daily operations which aims to deter legal problem while at the same time it will build a culture of efficiency and transparency.*

1. ***Anti-Corruption Campaign***

   *The Company is committed to safeguarding the integrity instilled in all members of the Company in order to create a healthy and clean business environment. The Company unequivocally rejects corruption, collusion and nepotism practices. The basis of the policy is the Joint Decree of the Board of Commissioners and Directors on Corporate Governance Guidelines and Code of Ethics and Conduct in which stated the Company's commitment to implementing a business process that emphasizes ethics of doing business and conduct. The manifestation of such commitments including a prohibition of conflict of interest in executing business process, prohibition of accepting and giving bribes and prohibition of gratification. Socialization activities in respect of these policies were conducted at least once a year, through company's media communication (both oral and written). Activities to enhance awareness were also incorporated in the new employee orientation program by inserting topics on anti-corruption. The aim is to increase employees' understanding about anti-corruption and implementing it in the daily operational activities and to become corporate culture.*

2. **Persaingan Usaha yang Sehat**

   Operasional Perseroan juga menjunjung tinggi persaingan usaha yang sehat serta menghargai hak kepemilikan setiap Pemangku Kepentingan. Hal ini sangat mendukung operasional yang adil dan terhindar dari berbagai tuntutan dan sanksi hukum. Selain itu, rumusan ini juga akan mendukung peningkatan citra perusahaan kepada para Pemangku Kepentingan.

3. **Transparansi Pengadaan Barang dan Jasa**

   Perseroan memberikan kesempatan yang sama kepada semua pihak untuk menjadi mitra dalam proses pengadaan barang dan jasa, sesuai dengan persyaratan yang ditetapkan. Semua ketentuan dan informasi mengenai pengadaan barang dan jasa, termasuk syarat teknis administrasi pengadaan, tata cara evaluasi, hasil evaluasi, penetapan calon penyedia barang dan jasa, sifatnya terbuka bagi peserta penyedia barang dan jasa yang berminat.

2. ***Healthy Business Competition***

   *The company's operation also values a healthybusiness competition and respects property rights of every stakeholder for it will provide strong support to fair operations and to stave off lawsuits and legal sanctions. Furthermore, it will increase the Company's positive image to stakeholders.*

3. ***Transparency in Goods and Services Procurement***

   *The Company provides equal opportunities to all parties to become partners in goods and services procurement, according to established requirements. All provisions and information pertaining to goods and services procurement including procurement administrative requirements, evaluation procedures, evaluation results, determining goods and services supplier candidates are open to all interested suppliers.*

## **Pencapaian CSR di Bidang Operasi Yang Adil** | CSR Achievements In Fair Operations

## 2. Remunerasi dan Kesejahteraan Karyawan | Remuneration and Employee Welfare

Perseroan senantiasa berupaya untuk memenuhi hak-hak karyawan seperti yang diatur dalam Undang-Undang No.13 tahun 2003 tentang Ketenagakerjaan. Seluruh karyawan Perseroan diberikan kebijakan remunerasi dan benefit, disesuaikan dengan ketentuan Upah Minimum Provinsi (UMP). Perseroan juga menerapkan remunerasi berbasis kinerja.

*The Company seeks to meet the rights of employees as regulated by Law No.13 of 2003 concerning Manpower (Labor Law). All employees receive remuneration and benefits policies based on the Provincial Minimum Wage provisions. The Company also applies performance-based remuneration policies.*

**Kesejahteraan Karyawan**

Kesejahteraan karyawan menjadi salah satu perhatian utama Perseroan agar karyawan dapat merasa aman dan nyaman dalam bekerja, sehingga dapat bekerja dengan motivasi yang lebih baik. Pada akhirnya hal tersebut diharapkan akan berkontribusi pada peningkatkan prestasi dan produktivitas kerja. Terkait hal tersebut, Perseroan selalu berusaha memenuhi ketentuanketentuan Pemerintah yang berhubungan dengan kesejahteraan karyawan berupa penyesuaian besarnya gaji yang sejalan dengan laju inflasi serta memenuhi standar Upah Minimum Kabupaten/Kota (UMK) sesuai dengan ketentuan Kementerian Ketenagakerjaan. Disamping itu, Perseroan juga menyediakan berbagai fasilitas dan tunjangan lain, seperti:

***Employee Welfare***

*The welfare of employee is one of the main attentions of the Company to make employee feels safe and comfortable at work and to be able to work with better motivation. In the end, it is expected that it will contribute to the increase of work achievements and productivity. # 3. Pengembangan Kompetensi | Competency Development

Untuk mencapai tujuan, organisasi membutuhkan sumber daya manusia yang kompeten di bidangnya masing-masing. Salah satu upaya yang dilakukan untuk meningkatkan pengetahuan dan kemampuan karyawan dalam menjalankan tugasnya adalah melalui pengembangan kompetensi. Pengembangan kompetensi bagi karyawan Perseroan merupakan upaya dalam pengembangan pengetahuan, keterampilan, dan/atau sikap perilaku kerja dalam melaksanakan tugas jabatannya guna mewujudkan sumber daya manusia yang kompeten sesuai dengan kebutuhan organisasi.

*In an effort to achieve the Company's goals, our organization needs competent human resources in their respective fields. We have taken a number of measures to improve employees' knowledge and abilities to carry out their duties, and one of which is through competency development. This is aimed at developing employees' knowledge and skills as well as fostering their work attitude and behavior as they perform their tasks in order that the Company will be able to draw on competent human resources in accordance with organizational needs.*

Pengembangan kompetensi karyawan dilaksanakan dalam bentuk pelatihan, seminar, *workshop* / lokakarya dan sosialisasi. Sementara pembelajaran dilakukan melalui dua jalur, yaitu pembelajaran klasikal dan pembelajaran nonklasikal. Pengembangan kompetensi klasikal dapat berupa kegiatan seperti :

1. Pelatihan kepemimpinan, manajerial dan teknis
2. Kegiatan sejenis seminar / konferensi / sarasehan, *workshop* atau lokakarya;
3. Kegiatan terfokus lain semisal bimbingan teknis dan sosialisasi.
4. Jalur Pengembangan Kompetensi dalam bentuk pelatihan klasikal lainnya.

*The employee competency development takes the form of trainings, seminars, workshops, and outreach programs. In addition to the activities, learning sessions are organized in the form of both classroom and non-classroom instructions.*
*Classroom competence development programs may include the following:*

1. *Leadership, managerial, and technical trainings;*
2. *Seminar / conference / workshop-based events;*
3. *Focused activities such as technical assistance and outreach programs;*
4. *Competency Development Pathway in the form of other classroom trainings.*

Sedangkan pengembangan kompetensi non klasikal dapat berupa kegiatan seperti :

1. *Coaching, mentoring, self study*, dan *on the job training*;
2. Pelatihan jarak jauh;
3. Pembelajaran berupa kegiatan patok banding (*benchmarking*);
4. Kegiatan belajar lain seperti belajar mandiri , komunitas belajar , bimbingan di tempat kerja dan magang / praktik kerja;
5. Jalur pengembangan kompetensi dalam bentuk pelatihan non klasikal lainnya.

*Non-classroom competency development programs may include the following:*

1. *Coaching, mentoring, self-study, and on-the-job trainings*
2. *Distance trainings*
3. *Benchmarking activity-based learning*
4. *Independent study, learning community, workplace guidance, and internship / practical work;*
5. *Competency development pathway in the form of other non-classroom trainings.*

Identifikasi kebutuhan pelatihan karyawan dapat dilakukan sesuai dengan Kebutuhan Minimal Jabatan dan Hasil Asesmen Kompetensi sesuai jabatan. Standar Kompetensi yang digunakan Perseroan bersumber dari SKKNI (Standar Kompetensi Kerja nasional Indonesia) dan SKKK (Standar Kompetensi Kerja Khusus).

*The Company identifies employee training needs by referring to Minimum Position Requirements and position-based Competency Assessment Results. Competency standards that the Company adopts are derived from the Indonesian National Work Competency Standards (SKKNI) and Specific Work Competency Standards (SKKK).*

Selanjutnya dalam pelaksanaan pengembangan kompetensi, karyawan yang akan mengikuti pelatihan mengikuti Prosedur Pelatihan yang berlaku.

*Furthermore, employees taking part in competency development-related programs need to follow the applicable training procedures.*

Mengingat adanya keterbatasan jam kerja dan tidak semua pegawai berkesempatan mengikuti semua pelatihan yang ada dalam satu waktu maka pengembangan kompetensi dilakukan melalui sharing session. Kegiatan sharing session dilakukan dengan menugaskan karyawan yang telah selesai mengikuti pelatihan baik itu klasikal (eksternal) untuk menyampaikan kembali ilmu yang didapatkan selama pelatihan kepada karyawan lain.

*Given the fact that working hours are limited and that it is unlikely that employees attend available trainings at once, the competency development is also made possible through sharing sessions. These activities are conducted by assigning employees who have completed both classroom (external) and non-classroom training sessions to share knowledge and skills they gained during the sessions with their peers.*

Dengan banyaknya pilihan pelatihan yang dapat diikuti oleh karyawan untuk meningkatkan kompetensi diharapkan para karyawan dapat berpartisipasi aktif dengan atasan langsungnya terkait perencanaan pengembangan kompetensinya. Kemudian, atasan langsung turut dapat berperan dalam memberikan bimbingan (menjadi mentor/coach) kepada bawahan yang telah mengikuti pengembangan kompetensi, agar hasil pembelajaran yang telah diperoleh dapat diterapkan dalam pelaksanaan tugas dan fungsi masing-masing sesuai jabatannya.

*Employees have many different training options to take in order to increase their competence. It is thus expected that employees actively coordinate their competency development programs with their immediate superior. Then, direct supervisor can also play a role in providing guidance to subordinates participating in the competency development, for example, by becoming a mentor or coach. In turn, employees have the ability and opportunity to apply the outcomes of learning as they perform their respective duties and functions.*

# Tanggung Jawab Sosial Perusahaan Kepada Pelanggan

Corporate Social Responsibility to Customers

## Komitmen Tanggung Jawab Sosial Perusahaan Kepada Pelanggan | Corporate Social Responsibility Commitment to Customers

Dalam salah satu penetapan tujuan untuk menjalankan Misi organisasi Perusahaan, disebutkan poin mengenai "*No Complaints*" yang ditujukan Perseroan bagi kepuasan pelanggan. Artinya seluruh insan Perseroan diminta untuk memberikan pelayanan menyeluruh kepada para pelanggan. Persepsi yang sangat baik terhadap kinerja Perseroan diharapkan dapat menjadikan konsumen sebagai pelanggan setia terhadap produk dan layanan Perseroan.

*In one of the goal setting process to implement corporate Mission, stated the point of "No Complaints" that the Company aims at customer satisfaction. Meaning all members of the organization were asked to provide a comprehensive service to the customers. Excellent perception of the Company's performance is expected to render the consumers as customers loyal to the Company's products and services.*

Perseroan mengedepankan pelanggan sebagai Pemangku Kepentingan utama bagi keberlangsungan dan keberlanjutan bisnis. Untuk itu, Perseroan secara terus menerus melakukan terobosan dan inovasi guna memberikan kemudahan layanan dan perlindungan terhadap para pelanggannya. Perseroan tidak hanya sekadar memenuhi seluruh butir yang disyaratkan dari Perjanjian kerja sama. Lebih dari itu, Perseroan akan berupaya maksimal memberikan nilai tambah bagi para pelanggan. Pelanggan harus merasa diuntungkan menjalin kerja sama dengan SPINDO.

*The Company emphasizes that the customers are the key stakeholders for the continuity and sustainability of its business. For this, the Company continuously promotes breakthroughs and innovations in order to provide ease of service and protection for its customers. The Company does not simply seek to meet all conditions required in the covenant. More than that, the Company will do its utmost to provide added value to customers. Customers must feel that they will benefit from working with SPINDO.*

## Pelaksanaan Inisiatif Pelayanan Kepada Pelanggan | Implementation of Customer Service Initiatives

Guna memberikan pelayanan yang maksimal kepada para pelanggan, Perseroan mulai tahun 2023 menargetkan *zero penalty* atau nihil sanksi dalam memberikan pelayanan. Perseroan juga berkomitmen untuk menyelesaikan keluhan ataupun pengaduan sesuai dengan standar kerjasama yang telah disepakati sebelumnya.

*In order to give maximum service to the customers, in 2023 the Company launched the campaign of zero-penalty target and zero sanctions in providing services. The Company is also committed to resolving complaints or grievances according to the previously agreed upon cooperation standards.*

Dalam upaya mencapai target yang telah ditetapkan oleh manajemen, maka Perseroan melakukan kegiatan atau program sebagai berikut:

- Manajemen proses produksi yang displin dan sesuai dengan target yang telah dibuat.
- Pelaksanaan pengendalian mutu (*Quality Control*) yang sesuai dengan prosedur guna memastikan kesesuaian produk dengan persyaratan standar yang disepakati. Hal tersebut juga berlaku bagi unit bisnis yang menghasilkan sektor jasa bagi pelanggan.

*In its efforts to achieve its targets which have been determined by the Management, the Company has conducted the following activities or programs:*

- *Discipline and on-target production management has been established.*
- *Implementation of Quality Control examination process in accordance with the procedures is to ensure the quality of the product is consistent with the standard requirements. This goes as well for business units that provide services to customers.*

- Pendistribusian produk yang mengutamakan Keselamatan dan Kesehatan Kerja (K3). Perseroan memastikan proses pendistribusian terlebih untuk produk-produk yang memiliki resiko tinggi bagi keselamatan dikarenakan besarannya, agar dilakukan sesuai prosedur K3.
- Informasi jasa yang faktual kepada Pelanggan. Perseroan dalam hal ini memberikan informasi faktual mengenai produk, pendistribusian ataupun jasa yang dilakukan Perseroan secara spesifik dan faktual. Selain itu Perseroan juga melakukan mekanisme pengecekan berkala di lapangan agar informasi yang disampaikan kepada Pelanggan sesuai dengan fakta di lapangan. Hal ini dilakukan agar tidak terjadi kesalahan persepsi dan informasi antar Perseroan dan pelanggan saat kerjasama dilakukan. Keterbukaan informasi akan sangat berdampak dalam pencegahan perselisihan di kemudian hari antara Perseroan dan pelanggan atau mitra kerja
- Inovasi dan Pengembangan spesifikasi produk maupun jasa yang dihasilkan SPINDO terus menerus dilakukan sebagai upaya memberikan kepuasan bagi pelanggan termasuk melakukan perbaikan dan penyempurnaan.

## LAPORAN AUDITOR INDEPENDEN

Laporan No : 00044/3.0357/AU.1/04/0111-2/1/III/2024

Pemegang Saham, Dewan Komisaris dan Direksi
**PT Steel Pipe Industry Of Indonesia Tbk**

### Opini

Kami telah mengaudit laporan keuangan PT Steel Pipe Industry of Indonesia Tbk dan entitas anaknya ("Grup"), yang terdiri dari laporan posisi keuangan konsolidasian tanggal 31 Desember 2023, 2022 dan 2021, serta laporan laba rugi dan penghasilan komprehensif lain konsolidasian, laporan perubahan ekuitas konsolidasian, dan laporan arus kas konsolidasian untuk tahun-tahun buku yang berakhir pada tanggal tersebut, serta catatan atas laporan keuangan, termasuk informasi kebijakan akuntansi material.

Menurut opini kami, laporan keuangan konsolidasian terlampir menyajikan secara wajar, dalam semua hal yang material, posisi keuangan konsolidasian Grup tanggal 31 Desember 2023, 2022 dan 2021, serta kinerja keuangan konsolidasian dan arus kas konsolidasiannya dan untuk tahun yang berakhir pada tanggal tersebut, sesuai dengan Standar Akuntansi Keuangan di Indonesia.

### Basis Opini

Kami melaksanakan audit kami berdasarkan Standar Audit yang ditetapkan oleh Institut Akuntan Publik Indonesia. Tanggung jawab kami menurut Standar tersebut diuraikan lebih lanjut dalam paragraf Tanggung Jawab Auditor terhadap Audit atas Laporan Keuangan Konsolidasian pada laporan kami. Kami independen terhadap Grup berdasarkan ketentuan etika yang relevan dalam audit kami atas laporan keuangan di Indonesia, dan kami telah memenuhi tanggung jawab etika lainnya berdasarkan ketentuan tersebut. Kami yakin bahwa bukti audit yang telah kami peroleh adalah cukup dan tepat untuk menyediakan suatu basis bagi opini kami.

### Hal Audit Utama

Hal audit utama adalah hal-hal yang, menurut pertimbangan profesional kami, merupakan hal yang paling signifikan dalam audit kami atas laporan keuangan konsolidasian periode kini. Hal-hal tersebut disampaikan dalam konteks audit kami atas laporan keuangan konsolidasian secara keseluruhan, dan dalam merumuskan opini kami atas laporan keuangan terkait, kami tidak menyatakan suatu opini terpisah atas hal audit utama tersebut.

### *Opinion*

*We have audited the consolidated financial statements of PT Steel Pipe Industry of Indonesia Tbk and its subsidiaries ("the Group"), which comprise the consolidated statement of financial position as of December 31, 2023, 2022 and 2021 and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the years ended and notes to the consolidated financial statements, including a material accounting policies information.*

*In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2023, 2022 and 2021, and its consolidated financial performance and its consolidated cash flows for the years ended in accordance with Indonesian Financial Accounting Standards.*

### *Basis for Opinion*

*We conducted our audit in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements paragraph of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Indonesia, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.*

### *Key Audit Matters*

*Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.*

**Hal Audit Utama - Lanjutan**

**1. Penyisihan penurun nilai persediaan**

Mengacu Catatan 3g (untuk kebijakan akuntansi) dan Catatan No 8 atas Laporan Keuangan Konsolidasian.

Grup tidak melakukan penyisihan untuk persediaan usang dan atau lambat pergerakannya.

Saldo persediaan Grup adalah sebesar Rp 3.676.658 juta, Rp 3.095.377 juta, dan Rp 3.243.760 juta pada tanggal 31 Desember 2023, 2022 dan 2021 (Catatan 8). Evaluasi penilaian tersebut memerlukan pertimbangan manajemen dalam menilai apakah nilai tercatat persediaan tidak lebih tinggi dari nilai realisasi bersihnya pada akhir tahun. Selain itu, pertimbangan manajemen yang signifikan diperlukan dalam menentukan penyisihan keusangan persediaan, karena hal ini didasarkan pada penilaian manajemen terhadap riwayat dan prakiraan penjualan persediaan, keusangan fisik barang dan faktor relevan lainnya. Perubahan asumsi ini dapat mengakibatkan perubahan material pada nilai tercatat persediaan.

Namun, Manajemen menekankan bahwa sifat produk pipa baja, memiliki produk yang berumur panjang, tak lekang waktu bahkan hingga 10-50 tahun, dengan biaya pembersihan yang tidak signifikan.

Lambatnya perputaran produk pipa baja tersebut disebabkan oleh beberapa pengiriman produk pipa baja yang tidak mengikuti alur masuk pertama keluar pertama secara fisik karena adanya permintaan pelanggan yang mendesak akan pipa baja yang harus segera dipenuhi.

Dengan demikian, Manajemen berkesimpulan bahwa produk pipa baja tersebut bukan merupakan produk usang melainkan bergerak lambat, dan tidak perlu dilakukan penyisihan.

Hal ini penting bagi audit kami karena saldo persediaan adalah material bagi Grup, mencakup 46% dari total aset Grup dan memerlukan pertimbangan manajemen yang signifikan.

**Bagaimana audit kami merespons hal audit utama**

- Kami telah menilai perhitungan nilai realisasi bersih persediaan yang dilakukan oleh manajemen berdasarkan penelaahan penjualan berikutnya setelah akhir tahun.
- Kami telah menguji pergerakan persediaan bahan baku dengan memperoleh informasi dokumen utama yang mendukung tanggal perolehan bahan baku dan tanggal pembuatan barang jadi berdasarkan sampel.

***Key Audit Matters - Continued***

***1. Allowance of impairment of inventories***

*Refer to Note 3g (accounting policy) and Note 8 to the Consolidated Financial Statements.*

*The Group has not provided allowance for obsolete and or slow-moving inventory.*

*Inventory balance of the Group amounts to Rp 3,676,658 million, Rp 3,095,376 million and Rp 3,243,758 million after impairment allowance as of December 31, 2023, 2022 and 2021 (Note 8). The impairment evaluation requires management judgment in assessing whether the carrying value of inventories is not higher than their net realizable value at year-end. Also, significant management judgment is required in determining the inventory obsolescence allowance, asit is based on the management's assessment of historical and forecasted sales of inventory, physical obsolescence and other relevant factors. Changes to these assumptions could result in a material change in the carrying value of inventory.*

*However, the Management emphasizes that the nature of the steel pipe product, has a long life product, timeless even up to 10-50 years, with insignificant cleaning costs.*

*The slow-moving steel pipes products are caused by several shipments of steel pipes products do not follow the flow of the first in first out physically due to urgent customers demand for steel pipes that must be fulfilled immediately.*

*Accordingly, the Management concludes that the steel pipe products are not obsolete product rather than slow moving, and no provisions to be made necessarily.*

*This matter is significant to our audit since the inventory balance is material to the Group, comprising 46% of the Group total assets and requires a significant management judgment.*

***How our audit addressed the key audit matter***

- *We have assessed management's calculations of net realizable value of inventories based on a review of subsequent sales after the end of the year.*
- *We have tested movement of raw material inventories by obtaining information of primary documents supporting the date of acquisition of raw materials and the date of manufacturing of the finished goods on a sample basis.*

**Hal Audit Utama - Lanjutan**

- Kami telah mempertimbangkan kecukupan pengungkapan dalam laporan keuangan pada area ini (Catatan 8).

**2. Penyisihan Kerugian Kredit Ekspektasian atas Piutang Usaha**

Pada tanggal 31 Desember 2023, 2022 dan 2021, Grup mengakui piutang usaha bersih dari pelanggan masing-masing sebesar Rp 1.134.793 juta, Rp 1.159.861 juta dan Rp 1.019.584 juta, setelah mengakui penyisihan kerugian kredit ekspektasian sebesar Rp 49.230 juta, Rp 44.373 juta dan Rp 43.792 per 31 Desember 2023, 2022 dan 2021.

Grup mengembangkan model perhitungan penyisihan kerugian kredit ekspektasian dengan menerapkan pendekatan yang disederhanakan berdasarkan PSAK 71-Instrumen Keuangan dan – oleh karena itu - mengukur penyisihan kerugian kredit ekspektasian sebesar jumlah kerugian kredit ekspektasian seumur hidup ("ECL") dari seluruh piutang usaha.

Kerugian kredit ekspektasian seumur hidup didasarkan pada arus kas tertimbang probabilitas dengan mempertimbangkan serangkaian kemungkinan hasil dan mendiskontokan arus kas ini pada suku bunga efektif awal.

Dalam menentukan penyisihan kerugian kredit ekspektasian, pertimbangan utama berikut diterapkan oleh Grup:

- Menentukan kriteria peristiwa transisi, yang digunakan untuk merangkum masing-masing piutang dagang ke dalam negara-negara populasi, dan untuk memperkirakan kemungkinan transisi piutang dagang antar negara-negara populasi tersebut (tingkat transisi);
- Menetapkan segmen piutang sejenis untuk keperluan pengukuran penyisihan ECL secara kolektif; Dan
- Menetapkan jumlah dan bobot relatif dari skenario berwawasan ke depan seperti perkiraan PDB, perkiraan tingkat suku bunga dan inflasi untuk setiap jenis produk/pasar dan penyisihan kerugian kredit ekspektasian.

Kami fokus pada area ini karena nilai tercatat atas piutang usaha mewakili 14% dari total aset Grup dan besarnya nilai penyisihan kerugian kredit ekspektasian yang dibentuk atas piutang usaha tersebut, yang nilainya signifikan terhadap laporan keuangan konsolidasian. Penentuan penyisihan kerugian kredit ekspektasian membutuhkan pertimbangan manajemen yang objektif dan melibatkan penggunaan estimasi dengan tingkat ketidakpastian yang tinggi.

***Key Audit Matters - Continued***

- *We have considered the adequacy of disclosures in the financial statements in this area (Note 8).*

***2. Allowance of Expected Credit Loss for Account Receivable***

*At December 31, 2023, 2022 and 2021, the Group recognised net trade receivables from customers of Rp 1,134,795 million, Rp 1,159,861 million and Rp 1,019,584 million after recognising an allowance for expected credit losses (ECL) allowance of Rp 49,230 million, Rp 44,373 million and Rp 43,792 as of December 2023, 2022 and 2021.*

*The Group developed a model for calculation of the expected credit loss allowance by applying the simplified approach under PSAK 71 Financial Instruments and – accordingly - measures the ECL allowance at an amount equal to the lifetime expected credit losses ("ECL") of all trade receivables.*

*Lifetime ECL are based on probability weighted cash flows considering a range of possible outcomes and discounting these cash flows at the original effective interest rate.*

*In determining the ECL allowance, the following key judgements were applied by the Group:*

- *Determining criteria for transition events, which are used to summarise individual trade receivables into population states, and to predict the likelihood of trade receivables transitioning between such population states (transition rates);*
- *Establishing segments of similar receivables for the purposes of measuring the ECL allowance on a collective basis; and*
- *Establishing the number and relative weightings of forward-looking scenarios such as GDP outlook, interest rate and inflation rate forecasts for each type of product/market and the ECL allowance.*

*We focused on this area because the carrying value of trade receivables represents 14% of the Group's total assets and the amount of the allowance for expected credit losses established on these trade receivables is significant to the consolidated financial statements. Determining the Allowance for Expected Credit Losses requires objective management judgment and involves the use of estimates with a high degree of uncertainty.*

**Bagaimana audit kami merespons hal audit utama**

Kami melakukan prosedur audit berikut pada penyisihan kerugian kredit ekspektasian:

- Kami melakukan penilaian terhadap kebijakan akuntansi terkait penentuan penyisihan kerugian kredit ekspektasian dengan mengacu pada persyaratan PSAK 71 dan penerapannya dalam industri Grup. Kami mengidentifikasi tidak ada penyimpangan yang signifikan dari PSAK 71 dan praktik industry.
- Untuk sampel piutang usaha, kami menyepakati informasi yang mendasarinya sehubungan dengan masing-masing piutang usaha, serta portofolio piutang usaha yang digunakan dalam model, ke dalam catatan akuntansi dan dokumen pendukung yang relevan. Tidak ada perbedaan signifikan tercatat.
- Kami membandingkan tambahan penyisihan kerugian kredit ekpsektasian yang ditentukan berdasarkan tingkat cakupan yang disesuaikan ,dengan penyesuaian ke depan yang dilakukan Grup dan menemukan bahwa penyesuaian yang dilakukan Grup masih dalam jangkauan ekspektasi independen kami.

***How our audit addressed the key audit matter***

*We performed the following audit procedures on the ECL allowance:*

- *We assessed the accounting policies relating to the determination of the ECL allowance with reference to the requirements of PSAK 71 and application thereof in the Group's industry. We identified no significant deviations from PSAK 71 and industry practice;*
- *For sampling of trade receivables, we agreed the underlying information with respect to individual trade receivables, as well as portfolios of trade receivables utilised in the model, to the relevant accounting records and underlying documents. No material differences were noted;*
- *We compared the additional ECL allowance determined based on these adjusted coverage rates, to the Group's forward-looking adjustments and found that the Group's adjustments were not significant in our range of independent expectations.*

**Informasi Lain**

Manajemen bertanggung jawab atas informasi lain. Informasi lain terdiri dari informasi yang tercantum dalam laporan tahunan, tetapi tidak termasuk laporan keuangan konsolidasian dan laporan auditor kami. Laporan tahunan diharapkan akan tersedia bagi kami setelah tanggal laporan auditor ini.

Opini kami atas laporan keuangan konsolidasian tidak mencakup informasi lain, dan oleh karena itu, kami tidak menyatakan bentuk keyakinan apapun atas informasi lain tersebut.

Sehubungan dengan audit kami atas laporan keuangan konsolidasian, tanggung jawab kami adalah untuk membaca informasi lain yang teridentifikasi di atas, jika tersedia dan, dalam melaksanakannya, mempertimbangkan apakah informasi lain mengandung ketidakkonsistensian material dengan laporan keuangan konsolidasian atau pemahaman yang kami peroleh selama audit, atau mengandung kesalahan penyajian material.

Ketika kami membaca laporan tahunan, jika kami menyimpulkan bahwa terdapat suatu kesalahan penyajian material di dalamnya, kami diharuskan untuk mengomunikasikan hal tersebut kepada pihak yang bertanggung jawab atas tata kelola dan mengambil tindakan tepat berdasarkan Standar Audit yang ditetapkan oleh Institut Akuntan Publik Indonesia.

***Other Information***

*Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditors' report thereon. The annual report is expected to be made available to us after the date of this auditors' report.*

*Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.*

*In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.*

*When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants.*

**Tanggung Jawab Manajemen dan Pihak yang Bertanggung Jawab atas Tata Kelola terhadap Laporan Keuangan Konsolidasian**

Manajemen bertanggung jawab atas penyusunan dan penyajian wajar laporan keuangan konsolidasian tersebut sesuai dengan Standar Akuntansi Keuangan di Indonesia, dan atas pengendalian internal yang dianggap perlu oleh manajemen untuk memungkinkan penyusunan laporan keuangan konsolidasian yang bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan.

Dalam penyusunan laporan keuangan konsolidasian, manajemen bertanggung jawab untuk menilai kemampuan Grup dalam mempertahankan kelangsungan usahanya, mengungkapkan, sesuai dengan kondisinya, hal-hal yang berkaitan dengan kelangsungan usaha, dan menggunakan basis akuntansi kelangsungan usaha, kecuali manajemen memiliki intensi untuk melikuidasi Grup atau menghentikan operasi, atau tidak memiliki alternatif yang realistis selain melaksanakannya.

Pihak yang bertanggung jawab atas tata kelola bertanggung jawab untuk mengawasi proses pelaporan keuangan Grup.

**Tanggung jawab auditor terhadap Audit atas Laporan Keuangan Konsolidasian**

Tujuan kami adalah untuk memeroleh keyakinan memadai tentang apakah laporan keuangan konsolidasian secara keseluruhan bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan, dan untuk menerbitkan laporan auditor yang mencakup opini kami. Keyakinan memadai merupakan suatu tingkat keyakinan tinggi, namun bukan merupakan suatu jaminan bahwa audit yang dilaksanakan berdasarkan Standar Audit akan selalu mendeteksi kesalahan penyajian material ketika hal tersebut ada. Kesalahan penyajian dapat disebabkan oleh kecurangan maupun kesalahan dan dianggap material jika, baik secara individual maupun secara agregat, dapat diekspektasikan secara wajar akan memengaruhi keputusan ekonomi yang diambil oleh pengguna berdasarkan laporan keuangan konsolidasian tersebut.

Sebagai bagian dari suatu audit berdasarkan Standar Audit, kami menerapkan pertimbangan profesional dan mempertahankan skeptisisme profesional selama audit. Kami juga:

- Mengidentifikasi dan menilai risiko kesalahan penyajian material dalam laporan keuangan konsolidasian, baik yang disebabkan oleh kecurangan maupun kesalahan, mendesain dan melaksanakan prosedur audit yang responsif terhadap risiko tersebut, serta memeroleh bukti audit yang cukup dan tepat untuk menyediakan basis bagi opini kami. Risiko tidak terdeteksinya kesalahan penyajian material yang disebabkan oleh kecurangan lebih tinggi dari yang disebabkan oleh kesalahan, karena kecurangan dapat melibatkan kolusi, pemalsuan, penghilangan secara sengaja, pernyataan salah, atau pengabaian pengendalian internal.

***Responsibilities of Management and Those Charged with Governance for theConsolidated Financial Statements***

*Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Indonesian Financial Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.*

*In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.*

*Those charged with governance are responsible for overseeing the Group's financial reporting process.*

***Auditor's Responsibilities for the Audit of the Consolidated Financial Statements***

*Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standard on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.*

*As part of an audit in accordance with Standard on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:*

- *Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.*

**Tanggung jawab auditor terhadap Audit atas Laporan Keuangan Konsolidasian – Lanjutan**

- Memeroleh suatu pemahaman tentang pengendalian internal yang relevan dengan audit untuk mendesain prosedur audit yang tepat sesuai dengan kondisinya, tetapi bukan untuk tujuan menyatakan opini atas keefektivitasan pengendalian internal Grup.
- Mengevaluasi ketepatan kebijakan akuntansi yang digunakan serta kewajaran estimasi akuntansi dan pengungkapan terkait yang dibuat oleh manajemen.
- Menyimpulkan ketepatan penggunaan basis akuntansi kelangsungan usaha oleh manajemen dan, berdasarkan bukti audit yang diperoleh, apakah terdapat suatu ketidakpastian material yang terkait dengan peristiwa atau kondisi yang dapat menyebabkan keraguan signifikan atas kemampuan Grup untuk mempertahankan kelangsungan usahanya. Ketika kami menyimpulkan bahwa terdapat suatu ketidakpastian material, kami diharuskan untuk menarik perhatian dalam laporan auditor kami ke pengungkapan terkait dalam laporan keuangan konsolidasian atau, jika pengungkapan tersebut tidak memadai, harus menentukan apakah perlu untuk memodifikasi opini kami. Kesimpulan kami didasarkan pada bukti audit yang diperoleh hingga tanggal laporan auditor kami. Namun, peristiwa atau kondisi masa depan dapat menyebabkan Grup tidak dapat mempertahankan kelangsungan usaha.
- Mengevaluasi penyajian, struktur, dan isi laporan keuangan konsolidasian secara keseluruhan, termasuk pengungkapannya, dan apakah laporan keuangan konsolidasian mencerminkan transaksi dan peristiwa yang mendasarinya dengan suatu cara yang mencapai penyajian wajar.
- Memeroleh bukti audit yang cukup dan tepat terkait informasi keuangan entitas atau aktivitas bisnis dalam Grup untuk menyatakan opini atas laporan keuangan konsolidasian. Kami bertanggung jawab atas arahan, supervisi, dan pelaksanaan audit Grup. Kami tetap bertanggung jawab sepenuhnya atas opini audit kami.

Kami mengomunikasikan kepada pihak yang bertanggung jawab atas tata kelola mengenai, antara lain, ruang lingkup dan saat yang direncanakan atas audit, serta temuan audit signifikan, termasuk setiap defisiensi signifikan dalam pengendalian internal yang teridentifikasi oleh kami selama audit.

Kami juga memberikan suatu pernyataan kepada pihak yang bertanggung jawab atas tata kelola bahwa kami telah mematuhi ketentuan etika yang relevan mengenai independensi, dan mengomunikasikan seluruh hubungan, serta hal-hal lain yang dianggap secara wajar berpengaruh terhadap independensi kami, dan, jika relevan, pengamanan terkait.

***Auditor's Responsibilities for the Audit of the Consolidated Financial Statements – Continued***

- *Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.*
- *Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.*
- *Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.*
- *Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.*
- *Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.*

*We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.*

*We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.*

**Tanggung jawab auditor terhadap Audit atas Laporan Keuangan Konsolidasian – Lanjutan**

Dari hal-hal yang dikomunikasikan kepada pihak yang bertanggung jawab atas tata kelola, kami menentukan hal-hal tersebut yang paling signifikan dalam audit atas laporan keuangan periode kini dan oleh karenanya menjadi hal audit utama. Kami menguraikan hal audit utama dalam laporan auditor kami, kecuali peraturan perundang-undangan melarang pengungkapan publik tentang hal tersebut atau ketika, dalam kondisi yang sangat jarang terjadi, kami menentukan bahwa suatu hal tidak boleh dikomunikasikan dalam laporan kami karena konsekuensi merugikan dari mengomunikasikan hal tersebut akan diekspektasikan secara wajar melebihi manfaat kepentingan publik atas komunikasi tersebut.

***Auditor's Responsibilities for the Audit of the Consolidated Financial Statements – Continued***

*From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.*

## 2. PENERAPAN PERNYATAAN STANDAR AKUNTANSI KEUANGAN ("PSAK") DAN INTERPRETASI STANDAR AKUNTANSI KEUANGAN ("ISAK") BARU DAN REVISI

### a. Standar (SAK) dan Interpretasi Standar Akuntansi Keuangan (ISAK) yang Diterbitkan dan Berlaku Efektif Dalam Periode Berjalan (pada atau setelah 1 Januari 2023)

Dalam periode berjalan, Entitas dan Entitas Anak telah menerapkan standar akuntansi keuangan ("SAK") dan intrepretasi standar akuntansi keuangan ("ISAK") baru dan revisi termasuk pengesahan amandemen dan penyesuaian tahunan yang dikeluarkan oleh Dewan Standar Akuntansi Keuangan Ikatan Akuntan Indonesia yang dianggap relevan dengan kegiatan operasinya dan mempengaruhi laporan keuangan konsolidasian berlaku efektif untuk periode tahun buku yang dimulai pada atau setelah 1 Januari 2023.

SAK dan ISAK baru dan revisi termasuk pengesahan amandemen dan penyesuaian tahunan yang berlaku efektif dalam periode berjalan adalah sebagai berikut:

- Amendemen PSAK 1: Amendemen PSAK 1 mengubah istilah "signifikan" menjadi "material" dan memberi penjelasan mengenai kebijakan akuntansi material.
- Amandemen PSAK 1: Penyajian Laporan Keuangan tentang Klasifikasi Liabilitas Jangka Pendek atau Jangka Panjang. Amandemen tersebut memperjelas salah satu kriteria dalam mengklasifikasikan suatu liabilitas sebagai jangka panjang, yaitu mensyaratkan entitas memiliki hak untuk menunda penyelesaian liabilitas setidaknya selama 12 bulan setelah periode pelaporan.
- Amandemen PSAK 16: Aset Tetap tentang Hasil Sebelum Penggunaan yang Diintensikan.
- Amendemen PSAK 25 memberi definisi baru dari "estimasi akuntansi" dan penjelasannya.
- Amendemen PSAK 46: Pajak Penghasilan tentang Pajak Tangguhan Terkait Aset dan Liabilitas yang Timbul dalam Satu Transaksi.

## *2. ADOPTION OF NEW AND REVISED STATEMENTS OF FINANCIAL ACCOUNTING STANDARDS ("PSAK") AND INTERPRETATION TO FINANCIAL ACCOUNTING STANDARDS ("ISAK")*

### *a. Standards (SAK) and Interpretation to Financial Accounting Standards (ISAK) Issued and Effective in the Current Period (on or after January 1, 2023)*

*In the current period, the Entity's and Subsidiary has adopted all of the new and revised financial accounting standards (SAK) and interpretation to financial accounting standards (ISAK) including amendment and annual improvements issued by the Board of Financial Accounting Standards of the Indonesian Institute of Accountants that are relevant to their operations and affected to the consolidated financial statements effective for accounting period beginning on or after January 1, 2023.*

*New and revised SAK and ISAK including amendments and annual improvements effective in the current period are as follows:*

- *Amendment to PSAK 1: Amendment to PSAK 1 changes the term "significant" to "material" and provides an explanation of material accounting policies.*
- *Amendment to PSAK 1: Presentation of Financial Statements on Classification of Liabilities as Short-Term or Long-Term. The amendment clarifies one of the criteria in classifying a liability as long-term, namely requiring an entity to have the right to defer settlement of the liability for at least 12 months after the reporting period.*
- *Amendment to PSAK 16: Property, Plant and Equipment on Proceeds Before Intended Use.*
- *Amendment to PSAK 25 provides a new definition of "accounting estimates" and explanations.*
- *Amendment to PSAK 46: Income Taxes tentang Deferred Tax related to Assets and Liabilities arising from a Single Transaction.*

**2. PENERAPAN PERNYATAAN STANDAR AKUNTANSI KEUANGAN ("PSAK") DAN INTERPRETASI STANDAR AKUNTANSI KEUANGAN ("ISAK") BARU DAN REVISI-Lanjutan**

**b. Standar (SAK) dan Interpretasi Standar Akuntansi Keuangan (ISAK) yang Diterbitkan Namun Belum Berlaku Efektif Dalam Periode Berjalan**

- Amendemen PSAK 1 tentang Penyajian Laporan Keuangan terkait liabilitas jangka panjang dengan kovenan. Amandemen ini berlaku efektif untuk periode pelaporan tahunan yang dimulai pada atau setelah tanggal 1 Januari 2024 dengan penerapan dini diperbolehkan.

- Amendemen PSAK 73 tentang Sewa mengenai liabilitas sewa dalam transaksi jual dan sewa kembali. Amendemen ini berlaku efektif untuk periode pelaporan tahunan yang dimulai pada atau setelah tanggal 1 Januari 2024 dengan penerapan dini diperbolehkan.

- PSAK 74 memperkenalkan Pendekatan Block Building, yang dimodifikasi untuk kontrak asuransi dengan fitur partisipasi langsung, yang digambarkan sebagai Pendekatan Biaya Variabel. Terdapat penyederhanaan jika kriteria tertentu terpenuhi dengan menggunakan Pendekatan Alokasi Premi. PSAK 74 ini berlaku efektif untuk periode pelaporan tahunan yang dimulai pada atau setelah tanggal 1 Januari 2025 dengan penerapan dini diperbolehkan.

- Amendemen PSAK 74: Kontrak Asuransi – Penerapan Awal PSAK 74 dan PSAK 71-Informasi Komparatif, berlaku efektif ketika entitas pertama kali menerapkan PSAK 74.

Beberapa dari SAK dan ISAK termasuk amandemen dan peyesuaian tahunan yang berlaku dalam tahun berjalan dan relevan dengan kegiatan Entitas dan Entitas Anak telah diterapkan sebagaimana dijelaskan dalam "Informasi Kebijakan Akuntansi Material".

Beberapa SAK dan ISAK lainnya yang tidak relevan dengan kegiatan Entitas dan Entitas Anak atau mungkin akan mempengaruhi kebijakan akuntansinya dimasa depan sedang dievaluasi oleh manajemen potensi dampak yang mungkin timbul dari penerapan standar-standar ini terhadap laporan keuangan konsolidasian.

***2. ADOPTION OF NEW AND REVISED STATEMENTS OF FINANCIAL ACCOUNTING STANDARDS ("PSAK") AND INTERPRETATION TO FINANCIAL ACCOUNTING STANDARDS ("ISAK")-Continued***

***b. Standards (SAKs) and Interpretation to Financial Accounting Standards (ISAKs) Issued but not Effective in the Current Period***

- *Amendment to PSAK 1 concerning Presentation of Financial Statements related to long-term liabilities with covenants. This amendment is effective for the annual reporting period beginning on or after January 1, 2024 with early application permitted.*

- *Amendment to PSAK 73 concerning Leases regarding lease liabilities in a sale and leaseback. This amendment is effective for the annual reporting period beginning on or after January 1, 2024 with early application permitted.*

- *PSAK 74 introduces the Block Building Approach, which is modified for insurance contracts with direct participation features, described as a Variable Fee Approach. There is simplification if certain criteria are met by using the Premium Allocation Approach. This PSAK 74 is effective for the annual reporting period beginning on or after January 1, 2025 with early application permitted.*

- *Amendment to PSAK 74 – Insurance Contracts – Initial Application of PSAK 74 and PSAK 71 – Comparative Information, effective when the entity first applies PSAK 74.*

*Several SAKs and ISAKs including amendments and annual improvements that became effective in the current year and are relevant to the Entity's and Subsidiary's operation have been adopted as disclosed in the "Material Accounting Polices Information".*

*Other SAKs and ISAKs that are not relevant to the Entity's and Subsidiary's operation or might affect the accounting policies in the future are being evaluated by the management the potential impact that might arise from the adoption of these standards to the consolidated financial statements.*

## 3. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL

Kebijakan akuntansi diterapkan secara konsisten dalam penyajian laporan keuangan konsolidasian kecuali bagi penerapan beberapa SAK yang telah direvisi dan berlaku efektif sejak tanggal 1 Januari 2023, yaitu sebagai berikut:

a. Pernyataan Kepatuhan

Laporan keuangan telah disusun dan disajikan sesuai dengan SAK, yang mencakup Pernyataan dan Interpretasi yang diterbitkan oleh Dewan Standar Akuntansi Keuangan Ikatan Akuntan Indonesia, termasuk standar baru dan yang direvisi, amandemen dan penyesuaian tahunan, yang berlaku efektif sejak tanggal 1 Januari 2023 serta Lampiran Keputusan Ketua Badan Pengawasan Pasar Modal dan Lembaga Keuangan (sekarang menjadi Otoritas Jasa Keuangan atau OJK) No. Kep-347/BL/2012 tanggal 25 Juni 2012 yaitu Peraturan No.VIII.G.7 tentang Penyajian dan Pengungkapan Laporan Keuangan yang diterbitkan oleh Otoritas Jasa Keuangan (OJK) (dahulu Badan Pengawas Pasar Modal dan Lembaga Keuangan (BAPEPAM-LK)) untuk perusahaan publik.

b. Dasar Penyusunan Laporan Keuangan Konsolidasian

Laporan keuangan konsolidasian disusun sesuai dengan PSAK 1 (Revisi 2013) "Penyajian Laporan Keuangan", termasuk PSAK 1 (Amendemen 2015), "Penyajian Laporan Keuangan tentang Prakarsa Pengukapan". PSAK revisi ini mengubah pengelompokkan item-item yang disajikan dalam penghasilan komprehensif lain (OCI). Item-item yang akan direklasifikasi ke laba rugi akan disajikan terpisah dari item-item yang tidak akan direklasifikasi ke laba rugi. Penerapan PSAK ini hanya berakibat pada penyajian saja dan tidak berdampak pada posisi keuangan dan kinerja Entitas dan Entitas Anak.

Laporan keuangan konsolidasian disusun berdasarkan asumsi kelangsungan usaha serta atas dasar akrual, kecuali laporan arus kas konsolidasian yang menggunakan dasar kas.

Dasar pengukuran dalam penyusunan laporan keuangan konsolidasian ini adalah konsep biaya perolehan (*historical cost*), kecuali untuk beberapa akun tertentu yang didasarkan pengukuran lain sebagaimana yang diungkapkan pada kebijakan akuntansi dalam masing-masing akun tersebut.

## *3. MATERIAL ACCOUNTING POLICIES INFORMATION*

*The accounting policies have been applied consistently in the preparation of consolidated financial statements except for the adoption of several new and revised SAKs and ISAKs that effective on or after January 1, 2023, as follows:*

*a. Statement of Compliance*

*The financial statements have been prepared and presented in accordance with SAK, which comprises the Statements and Interpretations issued by the Board of Financial Accounting Standards of the Indonesian Institute of Accountants, including applicable new and revised standards, amendments and annual improvements, effective on or after January 1, 2023 and Attachment to the Decision of the Chairman of Bapepam – LK (now becoming Indonesian Financial Services Authority or OJK) No. Kep-347/BL/2012 dated June 25, 2012 that is Regulation No.VIII.G.7 regarding Presentation and Disclosures of the Financial Statements issued by the Financial Services Authority (OJK) (formerly Capital Market and Financial Institutions Supervisory Agency (BAPEPAM-LK)) for publicly listed companies.*

*b. Basis of Preparation of Consolidated Financial Statements*

*The consolidated financial statements are prepared in accordance with PSAK 1 (Revised 2013) "Presentation of Financial Statements" including PSAK 1 (Amendment 2015) "Presentation of Financial Statements on Initiative Disclosures". This revised PSAK changes the grouping of items presented in OCI. Items that could be reclassified to profit or loss would be presented separately from items that will never be reclassified. The adoption of this PSAK affects presentation only and has no impact on the Entity's and Subsidiary's financial position or performance.*

*The consolidated financial statements have been prepared on the assumption of going concern and accrual basis except for consolidated statements of cash flows using cash basis.*

*The measurement in the preparation of consolidated financial statements is historical cost concept, except for certain accounts which are measured on the basis described in the related accounting policies of respective account.*

b. Dasar Penyusunan Laporan Keuangan Konsolidasian – Lanjutan

Laporan arus kas konsolidasian disusun dengan menggunakan metode langsung (*direct method*) dengan mengelompokkan arus kas dalam aktivitas operasi, investasi dan pendanaan.

Mata uang pelaporan yang digunakan dalam laporan keuangan konsolidasian adalah Rupiah (Rp) yang juga merupakan mata uang fungsional Entitas dan Entitas Anak.

Ketika entitas menerapkan suatu kebijakan akuntansi secara restrospektif atau membuat penyajian kembali pos-pos laporan keuangan atau ketika entitas mereklasifikasi pos-pos dalam laporan keuangannya maka entitas menyajikan kembali laporan posisi keuangan pada awal periode komparatif yang disajikan.

c. Prinsip-prinsip Konsolidasian

Sesuai dengan PSAK No. 65, mengenai "Laporan Keuangan Konsolidasian", definisi Entitas Anak adalah semua Entitas (termasuk entitas terstruktur) dimana Entitas memiliki pengendalian.

Dengan demikian, Entitas mengendalikan Entitas Anak jika dan hanya jika Entitas memiliki seluruh hal berikut ini:
- Kekuasaan atas Entitas Anak;
- Ekposur atau hak atas imbal hasil variabel dari keterlibatannya dengan Entitas Anak; dan
- Kemampuan untuk menggunakan kekuasaannya atas Entitas Anak untuk mempengaruhi jumlah imbal hasil Entitas Anak.

Entitas menilai kembali apakah Entitas mengendalikan *investee* jika fakta dan keadaan mengindikasikan adanya perubahan terhadap satu atau lebih dari tiga elemen pengendalian. Ketika hak suara Entitas atas *investee* kurang dari mayoritas, Entitas memiliki kekuasaan atas investee ketika hak suara-nya secara sepihak mempunyai kemampuan praktikal dalam mengarahkan kegiatan relevan dari investee. Entitas mempertimbangkan seluruh fakta dan keadaan yang relevan dalam menilai apakah hak suara Entitas atas *investee* cukup untuk memberinya wewenang, termasuk:

a) Ukuran kepemilikan hak suara Entitas sehubungan dengan ukuran dan sebaran pemegang suara lainnya;
b) Hak suara potensial yang dimiliki oleh Entitas, pemegang suara lainnya atau pihak lainnya;
c) Hak yang timbul dari perjanjian kontrak lainnya, dan

*b. Basis of Preparation of Consolidated Financial Statements – Continued*

*The consolidated statements of cash flows, which have been prepared using the direct method, present cash receipts and payments classified into operating, investing and financing activities.*

*The reporting currency used in the preparation of the consolidated financial statements is Rupiah (Rp) which also represents functional currency of the Entity's and Subsidiary.*

*When the entity adopts accounting policy retrospectively or restates items in its financial statements or the entity reclassifies the items in its financial statements, the statement of financial position at the beginning of comparative period is presented.*

*c. Principles of Consolidation*

*According to PSAK No. 65, regarding "Consolidated Financial Statements" Subsidiary is defined as all entities (including structured entities) over which the Entity has control.*

*Thus, the Entity controls the Subsidiary if and only if the Entity has all of the following:*

- *Has power over the Subsidiary;*
- *Is exposed or has rights to variable returns from its involvement with Subsidiary; and*
- *Has the ability to use its power to affect its returns.*

*The Entity re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. When the Entity has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Entity considers all relevant facts and circumstances in assessing whether or not the Entity's voting rights in an investee are sufficient to give it power, including:*

*a) The size of the Entity's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;*
*b) Potential voting rights held by the Entity, other vote holders or other parties;*
*c) Right arising from other contractual arrangements; and*

c. Prinsip-prinsip Konsolidasian - Lanjutan

d) Fakta dan keadaan tambahan yang mengindikasikan bahwa saat ini Entitas memiliki atau tidak memiliki kemampuan mengarahkan kegiatan yang relevan pada saat keputusan harus diambil, termasuk pola pemungutan suara pada pertemuan pemegang saham sebelumnya.

Konsolidasian atas Entitas Anak dimulai sejak tanggal memperoleh pengendalian atas Entitas Anak dan berakhir ketika kehilangan pengendalian atas Entitas Anak. Penghasilan dan beban Entitas Anak dimasukkan atau dilepaskan selama tahun berjalan dalam laba rugi dari tanggal diperolehnya pengendalian sampai dengan tanggal ketika Entitas kehilangan pengendalian atas Entitas Anak.

Kepentingan non pengendali disajikan di ekuitas dalam laporan posisi keuangan konsolidasian, terpisah dari ekuitas pemilik Entitas.

Laba rugi dan setiap komponen dari penghasilan komprehensif lain diatribusikan kepada pemilik Entitas Induk dan kepentingan non pengendali, meskipun hal tersebut mengakibatkan kepentingan non pengendali memiliki saldo defisit.

Jika diperlukan, dilakukan penyesuaian atas laporan keuangan Entitas Anak guna memastikan keseragaman dengan kebijakan akuntansi Entitas dan Entitas Anak. Mengeliminasi secara penuh aset dan liabilitas, penghasilan, beban, dan arus kas dalam Entitas dan Entitas Anak terkait dengan transaksi antar Entitas dan Entitas Anak.

d. Kas dan Bank

Sesuai dengan PSAK No. 2, mengenai "Laporan Arus Kas", kas dan setara kas terdiri dari kas, bank dan deposito berjangka dengan jangka waktu 3 (tiga) bulan atau kurang sejak tanggal penempatannya serta dapat segera dijadikan kas tanpa terjadi perubahan nilai yang signifikan. Kas dan setara kas tidak digunakan sebagai jaminan atas liabilitas dan pinjaman lainnya dan tidak dibatasi penggunaannya.

*c. Principles of Consolidation - Continued*

*d) Any additional facts and circumstances that indicate that the Entity has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders meetings.*

*Consolidation of a subsidiary begins when the Entity obtains control over the subsidiary and ceases when the Entity loses control of the subsidiary. Income and expenses of subsidiary acquired or diposed of during the year are included in the profit or loss from the date the Entity gains control until the date the Entity ceases to control the Subsidiary.*

*Non-controlling interests in subsidiary are presented in the consolidated statements of financial position separately from the equity attributable to equity owners of the Equity.*

*Profit or loss and each component of other comprehensive income are attributed to owners of the parent and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.*

*When necessary, adjustments are made to the financial statements of subsidiary to bring their accounting policies into line with the Entity's and Subsidiary's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Entity and Subsidiary are eliminated in full on consolidation.*

*d. Cash on Hand and in Banks*

*According to PSAK No. 2, regarding "Statements of Cash Flows", cash on hand and in banks consist of cash on hand, cash in bank, and time deposits with maturity period of 3 (three) months or less from the date of placement and can be cash soon without significant value changes. Cash and cash equivalents are not pledged as collaterals for liabilities and others loans and not restricted.*

e. Instrumen Keuangan

**(1) Aset keuangan**

**Pengakuan dan Pengukuran Awal**

Aset keuangan diakui pada posisi keuangan ketika entitas menjadi pihak dalam penyediaan instrumen secara kontraktual. Semua aset keuangan diakui dan dihentikan pengakuannya berdasarkan tanggal perdagangan di mana pembelian atau penjualan aset keuangan dilakukan berdasarkan kontrak yang persyaratannya mengharuskan penyerahan aset dalam jangka waktu yang ditetapkan oleh pasar yang bersangkutan.

Aset keuangan pada awalnya diukur pada nilai wajar, dalam hal investasi tidak diklasifikasikan sebagai *FVTPL*, nilai wajar ditambah biaya transaksi yang dapat diatribusikan secara langsung dengan akuisisi atau penerbitan aset keuangan.

Semua aset keuangan yang diakui kemudian diukur secara keseluruhan pada biaya perolehan diamortisasi atau nilai wajar, tergantung pada klasifikasi aset keuangan tersebut.

**Pengukuran Selanjutnya**

Instrumen utang yang memenuhi kondisi berikut diukur pada biaya perolehan diamortisasi:
- aset keuangan dimiliki dalam model bisnis yang bertujuan untuk memiliki aset keuangan untuk mengumpulkan arus kas kontraktual; dan
- Persyaratan kontraktual dari aset keuangan menimbulkan arus kas pada tanggal tertentu yang hanya merupakan pembayaran pokok dan bunga dari jumlah pokok terutang.

Instrumen utang yang memenuhi ketentuan berikut ini selanjutnya diukur pada nilai wajar melalui penghasilan komprehensif lain (*FVOCI*):

- aset keuangan dimiliki dalam model bisnis yang tujuannya dicapai dengan mengumpulkan arus kas kontraktual dan menjual aset keuangan; dan

- Persyaratan kontraktual dari aset keuangan menimbulkan arus kas pada tanggal tertentu yang hanya merupakan pembayaran pokok dan bunga dari jumlah pokok terutang.

Semua aset keuangan lain yang tidak diklasifikasikan sebagai biaya perolehan diamortisasi atau *FVOCI* selanjutnya diukur pada nilai wajar melalui laporan laba rugi (*FVTPL*).

*e. Financial Instruments*

***(1) Financial Assets***

***Initial Recognition and Measurement***

*Financial assets are recognized on the financial position when the entity becomes a party to the contractual provision of the instrument. All financial assets are recognized and de-recognized on a trade date basis where the purchase or sale of financial assets is under a contract whose terms require delivery of assets within the time frame established by the market concerned*

*Financial assets are initially measured at fair value, in the case of investments not classified as FVTPL, fair value plus transaction costs that are directly attributable to the acquisition or issuance of financial assets.*

*All recognized financial assets are subsequently measured in their entirety at either amortized cost or fair value, depending on the classification of the financial assets.*

***Subsequent Measurement***

*Debt instruments that meet the following conditions are subsequently measured at amortized cost:*
- *the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and*
- *the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.*

*Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (FVOCI):*

- *the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling the financial assets; and*
- *the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.*

*All other financial assets that are not classified as amortized cost or FVOCI are subsequently measured at fair value through profit or loss (FVTPL).*

**(1) Aset keuangan - Lanjutan**

**Pengukuran Selanjutnya - Lanjutan**

Entitas dan Entitas Anak dapat membuat penetapan yang tidak dapat dibatalkan berikut ini pada pengakuan awal aset keuangan:
- Entitas dan Entitas Anak dapat memilih yang tidak dapat dibatalkan untuk menyajikan perubahan berikutnya dalam nilai wajar dari investasi ekuitas dalam pendapatan komprehensif lain (tanpa klasifikasi kembali) jika memenuhi kriteria tertentu; dan
- Entitas dan Entitas Anak dapat menetapkan investasi utang yang tidak dapat dibatalkan yang memenuhi biaya diamortisasi atau kriteria *FVOCI* sebagai yang diukur pada *FVTPL* jika tindakan tersebut menghilangkan atau secara signifikan mengurangi inkonsistensi akuntansi.

Dalam tahun berjalan, Entitas dan Entitas Anak tidak ada penetapan investasi utang yang memenuhi biaya diamortisasi atau kriteria *FVOCI* sebagai yang diukur pada FVTPL maupun investasi ekuitas sebagai *FVOCI.*

**Biaya Perolehan Diamortisasi dan Metode Bunga Efektif**

Biaya perolehan diamortisasi dari aset keuangan adalah jumlah di mana aset keuangan diukur pada pengakuan awal dikurangi pembayaran pokok, ditambah amortisasi kumulatif dengan menggunakan metode suku bunga efektif dari setiap perbedaan antara jumlah awal dan jumlah jatuh tempo, disesuaikan dengan penyisiahn kerugian. Di sisi lain, jumlah tercatat bruto dari aset keuangan adalah biaya perolehan diamortisasi dari aset keuangan sebelum disesuaikan dengan penyisihan kerugian.

***(1) Financial assets - Continued***

***Subsequent Measurement – Continued***

*The Entity's and Subsidiary may make the following irrevocable designation at initial recognition of a financial asset:*
- *the Group may irrevocably elect to present subsequent changes in fair value of an equity investment in other comprehensive income (no recycling) if meet certain criteria; and*
- *the Entity's and Subsidiary may irrevocably designate a debt investment that meets the amortized cost or FVOCI criteria as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.*

*In the current year, the Entity's and Subsidiary has neither designated any debt investments that meet the amortized cost or FVOCI criteria as measured at FVTPL nor any equity investment as FVOCI.*

***Amortized Cost and Effective Interest Method***

*The amortized cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. On the other hand, the gross carrying amount of a financial asset is the amortized cost of a financial asset before adjusting for any loss allowance.*

**(1) Aset keuangan - Lanjutan**

**Pengukuran Selanjutnya - Lanjutan**

**Biaya Perolehan Diamortisasi dan Metode Bunga Efektif – Lanjutan**

Pendapatan bunga diakui dengan menggunakan metode suku bunga efektif untuk instrumen utang yang diukur kemudian pada biaya perolehan diamortisasi dan pada *FVOCI*. Untuk instrumen keuangan selain yang dibeli atau yang berasal dari aset keuangan memburuk, pendapatan bunga dihitung dengan menggunakan suku bunga efektif terhadap jumlah tercatat bruto dari aset keuangan (basis bruto), kecuali untuk aset keuangan yang kemudian mengalami penurunan nilai kredit. Untuk aset keuangan yang kemudian mengalami penurunan nilai kredit, pendapatan bunga diakui dengan menerapkan suku bunga efektif pada biaya perolehan diamortisasi dari aset keuangan tersebut. Jika, pada periode pelaporan berikutnya, risiko kredit atas instrumen keuangan yang mengalami penurunan nilai kredit meningkat sehingga aset keuangan tidak lagi mengalami penurunan nilai kredit, maka pendapatan bunga diakui dengan menerapkan suku bunga efektif terhadap nilai tercatat bruto aset keuangan.

Metode suku bunga efektif adalah metode yang digunakan untuk menghitung biaya perolehan diamortisasi dari instrumen utang dan metode untuk mengalokasikan pendapatan bunga selama periode yang relevan.

Untuk instrumen keuangan selain yang dibeli atau yang berasal dari aset keuangan memburuk (yaitu aset yang mengalami penurunan nilai kredit pada pengakuan awal), suku bunga efektif adalah suku bunga yang secara tepat mendiskontokan estimasi penerimaan kas masa depan (termasuk semua biaya dan poin yang dibayarkan atau diterima merupakan bagian yang tidak terpisahkan dari suku bunga efektif, biaya transaksi dan premi atau diskon lainnya) tidak termasuk kerugian kredit yang diharapkan, selama perkiraan umur dari instrumen utang, atau, jika sesuai, periode yang lebih pendek, ke jumlah tercatat bruto dari instrumen hutang pada pengenalan awal.

***Amortized Cost and Effective Interest Method - Continued***

*Interest income is recognized using the effective interest method for debt instruments measured subsequently at amortized cost and at FVOCI. For financial instruments other than purchased or originated credit-impaired financial assets, interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset (gross basis), except for financial assets that have subsequently become credit-impaired. For financial assets that have subsequently become credit-impaired, interest income is recognized by applying the effective interest rate to the amortized cost of the financial asset. If, in subsequent reporting periods, the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognized by applying the effective interest rate to the gross carrying amount of the financial asset.*

*The effective interest method is a method of calculating the amortized cost of a debt instrument and of allocating interest income over the relevant period.*

*For financial instruments other than purchased or originated credit-impaired financial assets (i.e. assets that are credit-impaired on initial recognition), the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit losses, through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition.*

Untuk aset keuangan yang dibeli atau yang berasal dari aset keuangan memburuk, Entitas dan Entitas Anak mengakui pendapatan bunga dengan menerapkan suku bunga efektif yang disesuaikan dengan kredit ke biaya perolehan diamortisasi dari aset keuangan tersebut sejak pengakuan awal. Penghitungan tidak kembali ke basis bruto meskipun risiko kredit dari aset keuangan kemudian membaik sehingga aset keuangan tidak lagi memburuk.

Pendapatan bunga diakui dalam laporan laba rugi dan dimasukkan dalam item baris "Pendapatan Keuangan - Pendapatan Bunga".

**Investasi dalam Instrumen Utang Yang Diklasifikasikan sebagai *FVOCI***

Instrumen utang pada awalnya diukur pada nilai wajar ditambah biaya transaksi. Selanjutnya, perubahan nilai tercatat instrumen utang sebagai akibat dari keuntungan dan kerugian selisih kurs, keuntungan atau kerugian penurunan nilai, dan pendapatan bunga yang dihitung dengan menggunakan metode suku bunga efektif, diakui dalam laporan laba rugi. Jumlah yang diakui dalam laba rugi sama dengan jumlah yang akan diakui dalam laporan laba rugi jika aset keuangan tersebut diukur dengan biaya perolehan diamortisasi. Semua perubahan lain dalam nilai tercatat dari aset keuangan tersebut diakui dalam penghasilan komprehensif lain dan diakumulasi dalam akun cadangan revaluasi investasi. Ketika aset keuangan ini dihentikan pengakuannya, keuntungan atau kerugian kumulatif yang sebelumnya diakui dalam penghasilan komprehensif lain akan direklasifikasi ke laba rugi.

**Investasi dalam Instrumen Ekuitas Yang Ditetapkan pada *FVOCI***

Pada pengakuan awal, Entitas dan Entitas Anak dapat membuat pemilihan yang tidak dapat dibatalkan (atas dasar instrumen per instrumen) untuk menetapkan investasi pada instrumen ekuitas sebagai pada *FVOCI*. Penetapan *FVOCI* tidak diperkenankan jika investasi ekuitas dimiliki untuk diperdagangkan atau jika merupakan imbalan kontinjensi yang diakui oleh pihak pengakuisisi dalam kombinasi bisnis yang menerapkan PSAK 22.

*For purchased or originated credit-impaired financial assets, the Entity's and Subsidiary recognizes interest income by applying the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition. The calculation does not revert to the gross basis even if the credit risk of the financial asset subsequently improves so that the financial asset is no longer credit-impaired.*

*Interest income is recognized in profit or loss and is included in the "Finance Income – Interest Income" line item.*

***Investment in Debt Instruments Classified as at FVOCI***

*The debt instruments are initially measured at fair value plus transaction costs. Subsequently, changes in the carrying amount of the debt instruments as a result of foreign exchange gains and losses, impairment gains or losses, and interest income calculated using the effective interest method are recognized in profit or loss. The amounts that are recognized in profit or loss are the same as the amounts that would have been recognized in profit or loss if these financial assets had been measured at amortized cost. All other changes in the carrying amount of these financial assets are recognized in other comprehensive income and accumulated under the heading of investments revaluation reserve. When these financial assets are derecognized, the cumulative gains or losses previously recognized in other comprehensive income are reclassified to profit or loss.*

***Investment in Equity Instruments Designated as at FVOCI***

*On initial recognition, the Entity's and Subsidiary may make an irrevocable election (on an instrument-by-instrument basis) to designate investments in equity instruments as at FVOCI. Designation at FVOCI is neither permitted if the equity investment is held for trading nor if it is contingent consideration recognized by an acquirer in a business combination to which PSAK 22 applies.*

**Investasi dalam Instrumen Ekuitas Yang Ditetapkan pada FVOCI – Lanjutan**

Aset keuangan disimpan untuk diperdagangkan jika:
- diakuisisi terutama untuk tujuan menjualnya dalam waktu dekat; atau
- pada pengakuan awal, ini merupakan bagian dari portofolio instrumen keuangan teridentifikasi yang dikelola bersama oleh Entitas dan Entitas Anak dan memiliki bukti pola pengambilan laba jangka pendek aktual terkini; atau
- merupakan derivatif (kecuali untuk derivatif yang merupakan kontrak jaminan keuangan atau instrumen lindung nilai yang ditetapkan dan efektif).

Investasi dalam instrumen ekuitas pada *FVOCI* pada awalnya diukur pada nilai wajar ditambah biaya transaksi. Selanjutnya, nilai wajar tersebut diukur pada nilai wajar dengan keuntungan dan kerugian yang timbul dari perubahan nilai wajar diakui dalam penghasilan komprehensif lain dan diakumulasi dalam cadangan revaluasi investasi. Keuntungan atau kerugian kumulatif tidak akan direklasifikasi ke laba rugi atas pelepasan investasi ekuitas, melainkan akan ditransfer ke saldo laba.

Pendapatan dividen dari investasi dalam instrumen ekuitas ini diakui dalam laporan laba rugi ketika hak Entitas dan Entitas Anak untuk menerima dividen ditetapkan, kecuali dividen tersebut secara jelas merupakan pemulihan sebagian biaya investasi. Dividen disertakan dalam baris rincian "Pendapatan Keuangan - Pendapatan Dividen" dalam laporan laba rugi.

**Aset Keuangan pada *FVTPL***

Aset keuangan yang tidak memenuhi kriteria untuk diukur pada biaya perolehan diamortisasi atau *FVOCI* diukur pada *FVTPL*.

Secara khusus:
- Investasi pada instrumen ekuitas diklasifikasikan sebagai *FVTPL*, kecuali Entitas dan Entitas Anak menetapkan investasi ekuitas yang dimiliki untuk tidak diperdagangkan atau imbalan kontinjensi yang timbul dari kombinasi bisnis sebagai *FVOCI* yang tidak dapat dibatalkan pada pengakuan awal.

- *on initial recognition it is part of a portfolio of identified financial instruments that the Entity's and Subsidiary manages together and has evidence of a recent actual pattern of short-term profit-taking; or*
- *it is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).*

*Investments in equity instruments at FVOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognized in other comprehensive income and accumulated in the investments revaluation reserve. The cumulative gain or loss will not be reclassified to profit or loss on disposal of the equity investments, instead, they will be transferred to retained earnings.*

*Dividends income on these investments in equity instruments are recognized in profit or loss when the Entity's and Subsidiary's right to receive the dividends is established, unless the dividends clearly represent a recovery of part of the cost of the investment. Aset keuangan pada *FVTPL* diukur pada nilai wajar pada setiap tanggal pelaporan, dengan keuntungan atau kerugian nilai wajar diakui dalam laporan laba rugi sepanjang bukan merupakan bagian dari hubungan lindung nilai yang ditentukan. Keuntungan atau kerugian bersih yang diakui dalam laporan laba rugi termasuk dividen atau bunga yang diperoleh dari aset keuangan dan dimasukkan dalam item baris "Keuntungan dan Kerugian Lainnya".

**Penurunan nilai aset keuangan**

Entitas dan Entitas Anak mengakui penyisihan kerugian kredit ekspektasian ("*ECL*") atas investasi dalam instrumen utang yang diukur pada biaya perolehan diamortisasi atau pada *FVOCI*, piutang sewa, aset kontrak, serta komitmen pinjaman pada kontrak jaminan keuangan. Tidak ada kerugian penurunan nilai yang diakui untuk investasi pada instrumen ekuitas. Jumlah kerugian kredit ekspektasian diperbarui pada setiap tanggal pelaporan untuk mencerminkan perubahan risiko kredit sejak pengakuan awal atas instrumen keuangan tersebut.

Entitas dan Entitas Anak selalu mengakui *ECL* sepanjang umur untuk piutang usaha, aset kontrak dan piutang sewa. Kerugian kredit ekspektasian atas aset keuangan ini diestimasi dengan menggunakan matriks provisi berdasarkan pengalaman kerugian kredit historis Entitas dan Entitas Anak, disesuaikan untuk faktor-faktor yang spesifik bagi debitur, kondisi ekonomi secara umum dan penilaian terhadap arah saat ini maupun arah kondisi perkiraan kerugian pada tanggal pelaporan, termasuk nilai waktu uang jika sesuai.

The expected credit losses on these financial assets are estimated using a provision matrix based on the Entity's and Subsidiary's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.*

**Penurunan nilai aset keuangan – Lanjutan**

Untuk semua instrumen keuangan lainnya, Entitas dan Entitas Anak mengakui *ECL* sepanjang umur ketika terdapat peningkatan yang signifikan dalam risiko kredit sejak pengakuan awal. Sebaliknya, jika risiko kredit atas instrumen keuangan tidak meningkat secara signifikan sejak pengakuan awal, Entitas dan Entitas Anak mengukur penyisihan kerugian untuk instrumen keuangan tersebut dengan jumlah yang sama dengan *ECL* 12 bulan (*12mECL*). Penilaian apakah *ECL* sepanjang umur harus diakui didasarkan pada peningkatan signifikan dalam kemungkinan atau risiko gagal bayar yang terjadi sejak pengakuan awal alih-alih pada bukti aset keuangan mengalami penurunan nilai kredit pada tanggal pelaporan atau terjadi gagal bayar *(default)* yang sebenarnya.

*ECL* sepanjang umur merupakan kerugian kredit ekspektasian yang dihasilkan dari semua kemungkinan peristiwa gagal bayar (default) selama perkiraan umur instrumen keuangan. Sebaliknya, *12mECL* merupakan porsi *ECL* sepanjang umur yang diharapkan dihasilkan dari peristiwa gagal bayar *(default)* pada instrumen keuangan yang mungkin terjadi dalam 12 bulan setelah tanggal pelaporan.

**Risiko Kredit Meningkat Signifikan**

Dalam menilai apakah risiko kredit pada instrumen keuangan telah meningkat secara signifikan sejak pengakuan awal, Entitas dan Entitas Anak membandingkan risiko gagal bayar *(default)* yang terjadi pada instrumen keuangan pada tanggal pelaporan dengan risiko gagal bayar *(default)* yang terjadi pada instrumen keuangan pada tanggal pengakuan awal. Dalam melakukan penilaian ini, Entitas dan Entitas Anak mempertimbangkan informasi kuantitatif dan kualitatif yang wajar dan dapat didukung, termasuk pengalaman historis dan informasi berwawasan ke depan yang tersedia tanpa biaya atau upaya yang tidak semestinya.

Informasi berwawasan ke depan yang dipertimbangkan mencakup prospek masa depan industri dimana debitur Entitas dan Entitas Anak beroperasi, yang diperoleh dari laporan ahli ekonomi, analis keuangan, badan pemerintah, lembaga pemikir *(think-tanks)* terkait, dan organisasi serupa lainnya, serta pertimbangan berbagai sumber eksternal dan memperkirakan informasi ekonomi yang terkait dengan operasi inti Entitas dan Entitas Anak.

*For all other financial instruments, the Entity's and Subsidiary recognizes lifetime ECL when there has been a significant increase in credit risk since initial recognition. If, on the other hand, the credit risk on the financial instrument has not increased significantly since initial recognition, the Entity's and Subsidiary measures the loss allowance for that financial instrument at an amount equal to 12 month ECL (12mECL). The assessment of whether lifetime ECL should be recognized is based on significant increases in the likelihood or risk of a default occurring since initial recognition instead of on evidence of a financial asset being credit-impaired at the reporting date or an actual default occurring.*

*Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12mECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.*

***Significant Increase in Credit Risk***

*In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Entity's and Subsidiary compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Entity's and Subsidiary considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.*

*Forward-looking information considered includes the future prospects of the industries in which the Entity's and Subsidiary's debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think tanks and other similar organizations, as well as consideration of various external sources of actual and forecast economic information that relate to the Entity's and Subsidiary's core operations.*

Untuk komitmen pinjaman dan kontrak jaminan keuangan, pada tanggal Entitas dan Entitas Anak menjadi salah satu pihak dari komitmen yang tidak dapat dibatalkan dianggap sebagai tanggal pengakuan awal untuk tujuan penilaian penurunan nilai instrumen keuangan. Dalam menilai apakah terdapat peningkatan yang signifikan dalam risiko kredit sejak pengakuan awal atas komitmen pinjaman dan kontrak jaminan keuangan, Entitas dan Entitas Anak mempertimbangkan perubahan risiko di mana debitur tertentu akan gagal bayar *(default)* dalam kontrak.

Entitas dan Entitas Anak secara berkala memantau efektivitas kriteria yang digunakan untuk mengidentifikasi apakah terdapat peningkatan risiko kredit yang signifikan dan merevisinya sesuai kebutuhan untuk memastikan bahwa kriteria tersebut mampu mengidentifikasi peningkatan risiko kredit yang signifikan sebelum jumlah tersebut jatuh tempo.

Jika Entitas dan Entitas Anak telah mengukur penyisihan kerugian untuk instrumen keuangan dengan jumlah yang sama dengan *ECL* sepanjang umur pada periode pelaporan sebelumnya, tetapi menentukan pada tanggal pelaporan saat ini bahwa kondisi untuk *ECL* sepanjang umur tidak lagi terpenuhi, Entitas dan Entitas Anak mengukur penyisihan kerugian pada jumlah yang sama dengan *12mECL* pada tanggal pelaporan saat ini, kecuali untuk aset yang menggunakan pendekatan yang disederhanakan.

Entitas dan Entitas Anak mengakui keuntungan atau kerugian penurunan nilai dalam laporan laba rugi untuk semua instrumen keuangan dengan penyesuaian yang sesuai dengan nilai tercatatnya melalui akun penyisihan kerugian, kecuali untuk investasi dalam instrumen utang yang diukur pada *FVOCI*, di mana penyisihan kerugian diakui pada penghasilan komprehensif lain dan diakumulasi dalam cadangan revaluasi investasi, dan tidak mengurangi nilai tercatat aset keuangan pada laporan posisi keuangan.

*For loan commitments and financial guarantee contracts, the date that the Group becomes a party to the irrevocable commitment is considered to be the date of initial recognition for the purposes of assessing the financial instrument for impairment. In assessing whether there has been a significant increase in the credit risk since initial recognition of a loan commitment and financial guarantee contract, the Entity's and Subsidiary considers the changes in the risk that the specified debtor will default on the contract.*

*The Entity's and Subsidiary regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.*

*If the Entity's and Subsidiary has measured the loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Entity's and Subsidiary measures the loss allowance at an amount equal to 12mECL at the current reporting date, except for assets for which simplified approach was used.*

*The Entity's and Subsidiary recognizes an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt instruments that are measured at FVOCI, for which the loss allowance is recognized in other comprehensive income and accumulated in the investment revaluation reserve, and does not reduce the carrying amount of the financial asset in the statement of financial position.*

**Kebijakan Penghapusan**

Entitas dan Entitas Anak menghapus aset keuangan jika terdapat informasi yang menunjukkan bahwa debitur berada dalam kesulitan keuangan yang parah dan tidak ada prospek pemulihan yang realistis. Aset keuangan yang dihapuskan mungkin masih tunduk pada aktivitas penegakan hukum berdasarkan prosedur pemulihan Entitas dan Entitas Anak, dengan mempertimbangkan advis hukum jika sesuai. Setiap pemulihan yang dilakukan diakui dalam laporan laba rugi.

**Penghentian Pengakuan Aset Keuangan**

Entitas dan Entitas Anak menghentikan pengakuan aset keuangan hanya jika hak kontraktual atas arus kas dari aset tersebut berakhir, atau saat aset keuangan tersebut dialihkan dan secara substansial seluruh risiko dan manfaat kepemilikan aset kepada pihak lain. Jika Entitas dan Entitas Anak tidak mengalihkan atau mempertahankan secara substansial seluruh risiko dan manfaat kepemilikan dan terus mengendalikan aset yang dialihkan, Entitas dan Entitas Anak mengakui hak kepemilikannya atas aset dan liabilitas terkait sebesar jumlah yang mungkin harus dibayar. Jika Entitas dan Entitas Anak memiliki secara substansial seluruh risiko dan manfaat kepemilikan aset keuangan yang dialihkan, Entitas dan Entitas Anak tetap mengakui aset keuangan dan juga mengakui pinjaman yang dijamin sebesar hasil yang diterima.

Pada penghentian pengakuan aset keuangan yang diukur dengan biaya perolehan diamortisasi, perbedaan antara nilai tercatat aset dan jumlah imbalan yang diterima dan piutang diakui dalam laporan laba rugi. Selain itu, pada penghentian pengakuan investasi dalam instrumen utang yang diklasifikasikan sebagai *FVOCI*, keuntungan atau kerugian kumulatif yang sebelumnya diakumulasi dalam cadangan revaluasi investasi direklasifikasi ke laba rugi. Sebaliknya, pada penghentian pengakuan investasi dalam instrumen ekuitas yang telah ditetapkan Entitas dan Entitas Anak pada pengakuan awal untuk diukur pada *FVOCI*, keuntungan atau kerugian kumulatif yang sebelumnya diakumulasi dalam cadangan revaluasi investasi tidak direklasifikasi ke laba rugi, tetapi dipindahkan ke saldo laba.

Any recoveries made are recognized in profit or loss.*

***Derecognition of Financial Assets***

*The Entity's and Subsidiary derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Entity's and Subsidiary neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Entity's and Subsidiary recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Entity's and Subsidiary retains substantially all the risks and rewards of ownership of a transferred financial asset, the Entity's and Subsidiary continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.*

*On derecognition of a financial asset measured at amortized cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognized in profit or loss. In addition, on derecognition of an investment in a debt instrument classified as at FVOCI, the cumulative gain or loss previously accumulated in the investments revaluation reserve is reclassified to profit or loss. In contrast, on derecognition of an investment in equity instrument which the Entity's and Subsidiary has elected on initial recognition to measure at FVOCI, the cumulative gain or loss previously accumulated in the investments revaluation reserve is not reclassified to profit or loss, but is transferred to retained earnings.*

Liabilitas keuangan pada *FVTPL* disajikan sebesar nilai wajar dengan keuntungan atau kerugian yang timbul dari perubahan nilai wajar yang diakui dalam laporan laba rugi sepanjang hal tersebut bukan merupakan bagian dari hubungan lindung nilai yang ditentukan. Keuntungan atau kerugian bersih yang diakui dalam laba rugi menggabungkan setiap bunga yang dibayarkan atas liabilitas keuangan dan dimasukkan dalam item baris "Keuntungan dan Kerugian Lain-lain".

Keuntungan atau kerugian dari kontrak jaminan keuangan dan komitmen pinjaman yang diterbitkan oleh Entitas dan Entitas Anak yang ditetapkan oleh Entitas dan Entitas Anak pada nilai wajar melalui laporan laba rugi diakui dalam laporan laba rugi.

**Liabilitas Keuangan Selanjutnya Diukur pada Biaya perolehan diamortisasi**

Liabilitas keuangan yang bukan merupakan imbalan kontinjensi dari pihak pengakuisisi dalam kombinasi bisnis, dimiliki untuk tidak diperdagangkan, atau ditetapkan sebagai *FVTPL*, selanjutnya diukur pada biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif.

Metode suku bunga efektif adalah metode untuk menghitung biaya perolehan diamortisasi dari liabilitas keuangan dan metode untuk mengalokasikan beban bunga selama periode yang relevan. Suku bunga efektif adalah suku bunga yang secara tepat mendiskontokan estimasi pembayaran tunai di masa depan (termasuk semua biaya dan poin yang dibayarkan atau diterima yang merupakan bagian integral dari suku bunga efektif, biaya transaksi, dan premi atau diskon lainnya) selama perkiraan umur kewajiban keuangan, atau (jika sesuai) periode yang lebih singkat, untuk biaya perolehan diamortisasi dari liabilitas keuangan.

**Keuntungan dan Kerugian Selisih Kurs**

Untuk liabilitas keuangan dalam mata uang asing dan diukur pada biaya perolehan diamortisasi pada setiap tanggal pelaporan, keuntungan dan kerugian selisih kurs ditentukan berdasarkan biaya perolehan diamortisasi instrumen tersebut. Keuntungan dan kerugian selisih kurs ini diakui dalam "Keuntungan atau Kerugian Selisih Kurs" dalam laporan laba rugi untuk liabilitas keuangan yang bukan merupakan bagian dari hubungan lindung nilai yang ditentukan. Untuk liabilitas yang ditetapkan sebagai instrumen lindung nilai untuk lindung nilai atas risiko mata uang asing, keuntungan dan kerugian selisih kurs diakui dalam penghasilan komprehensif lain dan diakumulasi dalam komponen ekuitas yang terpisah

*Financial liabilities that are not contingent consideration of an acquirer in a business combination, not held-for-trading, or designated as at FVTPL, are subsequently measured at amortized cost using the effective interest method.*

*The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortized cost of a financial liability.*

***Foreign Exchange Gains and Losses***

*For financial liabilities that are denominated in a foreign currency and are measured at amortized cost as at each reporting date, the foreign exchange gains and losses are determined based on the amortized cost of the instruments. These foreign exchange gains and losses are recognized in the "Gains or Losses on Foreign Exchange" in profit or loss for financial liabilities that are not part of a designated hedging relationship. Nilai wajar dari liabilitas keuangan dalam mata uang asing ditentukan dalam mata uang asing tersebut dan dijabarkan dengan kurs spot pada akhir periode pelaporan. Untuk liabilitas keuangan yang diukur pada *FVTPL*, komponen valuta asing merupakan bagian dari keuntungan atau kerugian nilai wajar dan diakui dalam laporan laba rugi untuk liabilitas keuangan yang bukan merupakan bagian dari hubungan lindung nilai yang ditentukan.

**Penghentian Pengakuan Liabilitas Keuangan**

Entitas dan Entitas Anak menghentikan pengakuan liabilitas keuangannya jika, dan hanya jika, liabilitas Entitas dan Entitas Anak dilepaskan, dibatalkan, atau habis masa berlakunya. Selisih antara nilai tercatat liabilitas keuangan yang dihentikan pengakuannya dan imbalan yang dibayarkan dan terutang, termasuk aset non tunai yang dialihkan atau liabilitas yang diambil alih, diakui dalam laporan laba rugi.

Ketika Entitas dan Entitas Anak menukar dengan pemberi pinjaman yang eksis, suatu instrumen utang ke instrumen lain dengan persyaratan yang secara substansial berbeda, pertukaran tersebut dicatat sebagai penghapusan liabilitas keuangan awal dan pengakuan liabilitas keuangan baru. Demikian pula, Entitas dan Entitas Anak mencatat modifikasi substansial dari persyaratan liabilitas yang ada atau bagian darinya sebagai penghapusan liabilitas keuangan asli dan pengakuan liabilitas baru.

Diasumsikan bahwa persyaratannya secara substansial berbeda jika nilai sekarang yang didiskontokan dari arus kas menurut persyaratan baru, termasuk biaya yang dibayarkan setelah dikurangi biaya yang diterima dan didiskontokan menggunakan tarif efektif awal sekurang-kurangnya 10 persen berbeda dari nilai wajar yang didiskontokan atas nilai sisa arus kas dari liabilitas keuangan awal. Jika modifikasi tidak substansial, perbedaan antara: (1) nilai tercatat liabilitas sebelum modifikasi; dan (2) nilai kini arus kas setelah modifikasi harus diakui dalam laporan laba rugi sebagai keuntungan atau kerugian modifikasi dalam keuntungan dan kerugian lain.

***Derecognition of Financial Liabilities***

*The Entity's and Subsidiary derecognizes financial liabilities when, and only when, the Entity's and Subsidiary's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.*

*When the Entity's and Subsidiary exchanges with the existing lender one debt instrument into another one with the substantially different terms, such exchange is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, the Entity's and Subsidiary accounts for substantial modification of terms of an existing liability or part of it as an extinguishment of the original financial liability and the recognition of a new liability.*

*It is assumed that the terms are substantially different if the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received and discounted using the original effective rate is at least 10 per cent different from the discounted present value of the remaining cash flows of the original financial liability. If the modification is not substantial, the difference between: (1) the carrying amount of the liability before the modification; and (2) the present value of the cash flows after modification should be recognized in profit or loss as the modification gain or loss within other gains and losses.*

**(3) Instrumen Keuangan Derivatif**

Untuk mengelola eksposur terhadap risiko suku bunga dan nilai tukar mata uang asing, termasuk kontrak berjangka valuta asing dan swap suku bunga, Entitas dan Entitas Anak dapat masuk ke dalam berbagai instrumen keuangan derivatif.

Derivatif pada awalnya diakui pada nilai wajar pada tanggal kontrak derivatif ditandatangani dan selanjutnya diukur kembali ke nilai wajarnya pada setiap tanggal pelaporan. Keuntungan atau kerugian yang dihasilkan segera diakui dalam laporan laba rugi kecuali derivatif tersebut ditetapkan dan efektif sebagai instrumen lindung nilai, di mana waktu pengakuan laba rugi tergantung pada sifat hubungan lindung nilai.

Derivatif dengan nilai wajar positif diakui sebagai aset keuangan sedangkan derivatif dengan nilai wajar negatif diakui sebagai liabilitas keuangan. Derivatif tidak saling hapus dalam laporan keuangan kecuali Entitas dan Entitas Anak memiliki hak hukum dan niat untuk saling hapus.

**Derivatif Melekat**

Derivatif melekat adalah komponen dari kontrak hibrida yang juga mencakup host non-derivatif dengan pengaruh bahwa beberapa arus kas dari instrumen gabungan bervariasi dengan cara yang serupa dengan derivatif yang berdiri sendiri.

Derivatif yang melekat pada kontrak utama non-derivatif yang bukan merupakan aset keuangan dalam ruang lingkup PSAK 71 diperlakukan sebagai derivatif terpisah jika memenuhi definisi derivatif, risiko dan karakteristiknya tidak terkait erat dengan risiko dan karakteristik kontrak utama dan kontrak utama kontrak tidak diukur pada *FVTPL*.

Derivatif yang melekat pada kontrak hibrida yang mengandung aset keuangan utama dalam ruang lingkup PSAK 71 tidak dipisahkan. Seluruh kontrak hibrida diklasifikasikan dan selanjutnya diukur sebagai biaya perolehan diamortisasi atau *FVTPL* sebagaimana mestinya.

***(3) Derivative Financial Instruments***

*To manage its exposure to interest rate and foreign exchange rate risks, including foreign exchange forward contracts and interest rate swaps, the Group can enter into a variety of derivative financial instruments.*

*Derivatives are initially recognized at fair value at the date the derivative contracts are entered into and are subsequently remeasured to their fair value as at each reporting date. The resulting gain or loss is recognized in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedge relationship.*

*A derivative with a positive fair value is recognized as a financial asset whereas a derivative with a negative fair value is recognized as a financial liability. Derivatives are not offset in the financial statements unless the Entity's and Subsidiary has both legal right and intention to offset.*

***Embedded Derivatives***

*An embedded derivative is a component of a hybrid contract that also includes a non-derivative host with the effect that some of the cash flows of the combined instrument vary in a way similar to a stand-alone derivative.*

*Derivatives embedded in non-derivative host contracts that are not financial assets within the scope of PSAK 71 are treated as separate derivatives when they meet the definition of a derivative, their risks and characteristics are not closely related to those of the host contracts and the host contracts are not measured at FVTPL.*

*Derivatives embedded in hybrid contracts that contain financial asset hosts within the scope of PSAK 71 are not separated. The entire hybrid contract is classified and subsequently measured as either amortized cost or FVTPL as appropriate.*

Berbeda dengan aset keuangan, ketentuan yang ada dalam PSAK 55 untuk pemisahan derivatif melekat tetap dilanjutkan untuk liabilitas keuangan, artinya liabilitas keuangan yang diukur pada biaya perolehan diamortisasi masih perlu dianalisis untuk menentukan apakah terdapat derivatif melekat yang harus dipertanggungjawabkan secara terpisah pada *FVTPL*.

Jika kontrak hibrida merupakan liabilitas keuangan kuotasian, alih-alih memisahkan derivatif melekat, Entitas dan Entitas Anak biasanya menetapkan seluruh kontrak hibrida pada *FVTPL*.

Derivatif melekat disajikan sebagai aset tidak lancar atau liabilitas tidak lancar jika sisa jatuh tempo instrumen hibrida yang terkait dengan derivatif melekat lebih dari 12 bulan dan tidak diharapkan akan direalisasikan atau diselesaikan dalam 12 bulan.

**(4) Akuntansi Lindung Nilai**

Entitas dan Entitas Anak menetapkan derivatif tertentu sebagai instrumen lindung nilai sehubungan dengan risiko mata uang asing dan risiko suku bunga dalam lindung nilai nilai wajar, lindung nilai arus kas, atau lindung nilai atas investasi neto dalam operasi luar negeri yang sesuai. Lindung nilai atas risiko nilai tukar mata uang asing atas komitmen dicatat sebagai lindung nilai arus kas.

Pada insepsi hubungan lindung nilai, Entitas dan Entitas Anak mendokumentasikan hubungan antara instrumen lindung nilai dan item yang dilindung nilai, bersama dengan tujuan manajemen risiko dan strateginya untuk melakukan berbagai transaksi lindung nilai

Selanjutnya, pada awal lindung nilai dan secara berkelanjutan, Entitas dan Entitas Anak mendokumentasikan apakah instrumen lindung nilai efektif dalam mengimbangi perubahan nilai wajar atau arus kas dari item yang dilindungi nilai yang disebabkan oleh risiko lindung nilai, yaitu ketika hubungan lindung nilai memenuhi semua dari persyaratan efektivitas lindung nilai berikut:

*In contrast to financial assets, the existing requirements in PSAK 55 for the separation of embedded derivatives have been continued for financial liabilities, meaning that financial liabilities to be measured at amortized cost would still need to be analyzed to determine whether they contain any embedded derivatives that are required to be accounted for separately at FVTPL.*

*If the hybrid contract is a quoted financial liability, instead of separating the embedded derivative, the Entity's and Subsidiary generally designates the whole hybrid contract at FVTPL*

*An embedded derivative is presented as a non-current asset or non-current liability if the remaining maturity of the hybrid instrument to which the embedded derivative relates is more than 12 months and is not expected to be realized or settled within 12 months.*

***(4) Hedge Accounting***

*The Entity's and Subsidiary designates certain derivatives as hedging instruments in respect of foreign currency risk and interest rate risk in fair value hedges, cash flow hedges, or hedges of net investments in foreign operations as appropriate. Hedges of foreign exchange risk on firm commitments are accounted for as cash flow hedges.*

*At the inception of the hedge relationship, the Entity's and Subsidiary documents the relationship between the hedging instrument and the hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions.*

*Furthermore, at the inception of the hedge and on an ongoing basis, the Entity's and Subsidiary documents whether the hedging instrument is effective in offsetting changes in fair values or cash flows of the hedged item attributable to the hedged risk, which is when the hedging relationships meet all of the following hedge effectiveness requirements:*

**(4) Akuntansi Lindung Nilai - Lanjutan**

- ada hubungan ekonomi antara item yang dilindungi nilai dan instrumen lindung nilai;
- pengaruh risiko kredit tidak mendominasi perubahan nilai yang dihasilkan dari hubungan ekonomi tersebut; dan
- rasio lindung nilai dari hubungan lindung nilai adalah sama dengan yang dihasilkan dari jumlah item yang dilindungi nilai yang sebenarnya dilindung nilai oleh Entitas dan Entitas Anak dan jumlah instrumen lindung nilai yang sebenarnya digunakan Entitas dan Entitas Anak untuk lindung nilai atas jumlah item yang dilindungi nilai tersebut.

Jika hubungan lindung nilai tidak lagi memenuhi persyaratan efektivitas lindung nilai yang berkaitan dengan rasio lindung nilai tetapi tujuan manajemen risiko untuk hubungan lindung nilai yang ditentukan tetap sama, Entitas dan Entitas Anak menyesuaikan rasio lindung nilai dari hubungan lindung nilai (yaitu menyeimbangkan kembali lindung nilai) sehingga memenuhi kriteria kualifikasi lagi.

Entitas dan Entitas Anak hanya menetapkan nilai intrinsik kontrak opsi sebagai item lindung nilai. Perubahan nilai wajar dari nilai waktu selaras dari opsi diakui dalam penghasilan komprehensif lain dan diakumulasikan dalam biaya penyisihan lindung nilai. Jika item yang dilindungi nilainya terkait dengan transaksi, nilai waktunya direklasifikasi ke laba rugi ketika item yang dilindungi nilainya mempengaruhi laba rugi. Jika item yang dilindungi nilai terkait dengan periode waktu, maka jumlah yang terakumulasi dalam biaya penyisihan lindung nilai direklasifikasi ke laba rugi secara basis rasional – Entitas dan Entitas Anak menerapkan amortisasi garis lurus. Jumlah yang direklasifikasi tersebut diakui dalam laporan laba rugi pada baris yang sama dengan item yang dilindungi nilai. Jika item yang dilindungi nilai adalah item non-keuangan, maka jumlah yang terakumulasi dalam biaya penyisihan lindung nilai dihapus langsung dari ekuitas dan dimasukkan ke dalam jumlah tercatat awal item non-keuangan yang diakui. Selanjutnya, jika Entitas dan Entitas Anak mengharapkan sebagian atau seluruh kerugian yang terakumulasi dalam biaya penyisihan lindung nilai tidak akan dipulihkan di masa depan, jumlah tersebut segera direklasifikasi ke laba rugi.

- *there is an economic relationship between the hedged item and the hedging instrument;*
- *the effect of credit risk does not dominate the value changes that result from that economic relationship; and*
- *the hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Entity's and Subsidiary actually hedges and the quantity of the hedging instrument that the Entity's and Subsidiary actually uses to hedge that quantity of hedged item.*

*If a hedging relationship ceases to meet the hedge effectiveness requirement relating to the hedge ratio but the risk management objective for that designated hedging relationship remains the same, the Entity's and Subsidiary adjusts the hedge ratio of the hedging relationship (i.e. rebalances the hedge) so that it meets the qualifying criteria again.*

*The Entity's and Subsidiary designates only the intrinsic value of option contracts as a hedged item. The changes in the fair value of the aligned time value of the option are recognized in other comprehensive income and accumulated in the cost of hedging reserve. If the hedged item is transaction-related, the time value is reclassified to profit or loss when the hedged item affects profit or loss. If the hedged item is time-period related, then the amount accumulated in the cost of hedging reserve is reclassified to profit or loss on a rational basis – the Entity's and Subsidiary applies straight-line amortization. Those reclassified amounts are recognized in profit or loss in the same line as the hedged item. If the hedged item is a non-financial item, then the amount accumulated in the cost of hedging reserve is removed directly from equity and included in the initial carrying amount of the recognized non-financial item. Furthermore, if the Entity's and Subsidiary expects that some or all of the loss accumulated in cost of hedging reserve will not be recovered in the future, that amount is immediately reclassified to profit or loss.*

**(4) Akuntansi Lindung Nilai – Lanjutan**

**Lindung Nilai - Nilai Wajar**

Perubahan nilai wajar atas instrumen lindung nilai yang memenuhi syarat diakui dalam laporan laba rugi kecuali jika instrumen lindung nilai tersebut melakukan lindung nilai atas instrumen ekuitas yang ditetapkan pada *FVOCI* dalam hal ini diakui dalam penghasilan komprehensif lain.

Nilai tercatat item yang dilindungi nilai yang belum diukur pada nilai wajar disesuaikan dengan perubahan nilai wajar yang dapat diatribusikan pada risiko lindung nilai dengan entri yang sesuai dalam laba rugi. Untuk instrumen utang yang diukur pada *FVOCI*, nilai tercatatnya tidak disesuaikan karena telah diukur pada nilai wajarnya, tetapi keuntungan atau kerugian lindung nilai diakui dalam laba rugi, bukan penghasilan komprehensif lain. Jika item lindung nilai merupakan instrumen ekuitas yang ditetapkan pada *FVOCI*, keuntungan atau kerugian lindung nilai tetap berada dalam penghasilan komprehensif lain agar sesuai dengan instrumen lindung nilai.

Entitas dan Entitas Anak menghentikan akuntansi lindung nilai hanya jika hubungan lindung nilai (atau bagian darinya) tidak lagi memenuhi kriteria kualifikasi (setelah penyeimbangan kembali, jika berlaku). Ini termasuk contoh ketika instrumen lindung nilai kedaluwarsa atau dijual, dihentikan atau dilaksanakan. Penghentian diperhitungkan secara prospektif. Penyesuaian nilai wajar atas nilai tercatat item yang dilindungi nilai yang timbul dari risiko lindung nilai diamortisasi ke laba rugi sejak tanggal tersebut.

**Lindung Nilai - Arus Kas**

Bagian efektif dari perubahan nilai wajar derivatif dan instrumen lindung nilai lain yang memenuhi syarat yang ditetapkan dan memenuhi syarat sebagai lindung nilai arus kas, diakui dalam penghasilan komprehensif lain dan diakumulasikan dalam akun penyisihan lindung nilai arus kas, terbatas pada perubahan kumulatif nilai wajar dari item yang dilindungi nilai sejak dimulainya lindung nilai. Keuntungan atau kerugian yang terkait dengan bagian yang tidak efektif segera diakui dalam laba rugi, dan dimasukkan dalam baris "Keuntungan dan Kerugian Lainnya".

***Fair Value Hedges***

*The fair value change on qualifying hedging instruments is recognized in profit or loss except when the hedging instrument hedges an equity instrument designated at FVOCI in which case it is recognized in other comprehensive income.*

*The carrying amount of a hedged item not already measured at fair value is adjusted for the fair value change attributable to the hedged risk with a corresponding entry in profit or loss. For debt instruments measured at FVOCI, the carrying amount is not adjusted as it is already at fair value, but the hedging gain or loss is recognized in profit or loss instead of other comprehensive income. When the hedged item is an equity instrument designated at FVOCI, the hedging gain or loss remains in other comprehensive income to match that of the hedging instrument.*

*The Entity's and Subsidiary discontinues hedge accounting only when the hedging relationship (or a part thereof) ceases to meet the qualifying criteria (after rebalancing, if applicable). This includes instances when the hedging instrument expires or is sold, terminated or exercised. The discontinuation is accounted for prospectively. The fair value adjustment to the carrying amount of the hedged item arising from the hedged risk is amortized to profit or loss from that date.*

***Cash Flow Hedges***

*The effective portion of changes in the fair value of derivatives and other qualifying hedging instruments that are designated and qualify as cash flow hedges is recognized in other comprehensive income and accumulated under the heading of cash flow hedging reserve, limited to the cumulative change in fair value of the hedged item from inception of the hedge. The gain or loss relating to the ineffective portion is recognized immediately in profit or loss, and is included in the "Other Gains and Losses" line item.*

Jumlah yang sebelumnya diakui dalam penghasilan komprehensif lain dan diakumulasi dalam ekuitas direklasifikasi ke laba rugi pada periode ketika item yang dilindungi nilai mempengaruhi laba rugi, di baris yang sama dengan item yang dilindungi nilai yang diakui. Namun, ketika prakiraan transaksi lindung nilai menghasilkan pengakuan aset non-keuangan atau liabilitas non-keuangan, keuntungan dan kerugian yang sebelumnya diakui dalam penghasilan komprehensif lain dan diakumulasi dalam ekuitas dikeluarkan dari ekuitas dan dimasukkan dalam pengukuran awal biaya aset non-keuangan atau kewajiban non-keuangan. Transfer ini tidak mempengaruhi penghasilan komprehensif lain. Lebih lanjut, jika Entitas dan Entitas Anak memperkirakan bahwa sebagian atau seluruh kerugian yang diakumulasi dalam penghasilan komprehensif lain tidak akan dipulihkan di masa depan, jumlah tersebut segera direklasifikasi ke laba rugi.

**Lindung Nilai Investasi Bersih dalam Operasi Asing**

Lindung nilai atas investasi bersih dalam operasi asing dicatat serupa dengan lindung nilai arus kas. Keuntungan atau kerugian dari instrumen lindung nilai yang terkait dengan bagian efektif dari lindung nilai diakui dalam penghasilan komprehensif lain dan diakumulasikan dalam akun penyisihan penjabaran mata uang asing. Keuntungan atau kerugian yang terkait dengan bagian yang tidak efektif segera diakui dalam laba rugi, dan dimasukkan dalam baris "Keuntungan dan Kerugian Lainnya".

Keuntungan dan kerugian dari instrumen lindung nilai terkait dengan bagian efektif dari lindung nilai yang diakumulasi dalam penyisihan penjabaran mata uang asing direklasifikasi ke laba rugi atas pelepasan atau pelepasan sebagian operasi luar negeri.

This transfer does not affect other comprehensive income. Furthermore, if the Entity's and Subsidiary expects that some or all of the loss accumulated in other comprehensive income will not be recovered in the future, that amount is immediately reclassified to profit or loss.*

***Hedges of Net Investments in Foreign Operations***

**(5) Pengaturan Saling Hapus**

Aset keuangan dan liabilitas keuangan saling hapus dan jumlah bersih disajikan di laporan posisi keuangan jika, dan hanya jika, Entitas dan Entitas Anak memiliki hak yang dapat diberlakukan secara hukum untuk menghapus jumlah yang diakui; dan bermaksud untuk menyelesaikan secara neto, atau untuk merealisasikan aset dan menyelesaikan liabilitas secara bersamaan. Hak untuk kompensasi harus tersedia saat kini daripada bergantung pada peristiwa di masa depan dan harus dapat dilaksanakan oleh salah satu pihak lawan, baik dalam kegiatan bisnis normal dan dalam hal terjadi gagal bayar (*default*), keadaan tidak dapat membayar (*insolvency*) atau kebangkrutan.

**(6) Reklasifikasi Instrumen Keuangan**

Untuk aset keuangan, diperlukan reklasifikasi antara *FVTPL*, *FVOCI* dan biaya perolehan diamortisasi, jika dan hanya jika tujuan model bisnis entitas untuk aset keuangannya berubah sehingga penilaian model sebelumnya tidak berlaku lagi.

Jika reklasifikasi sudah sesuai, maka harus dilakukan secara prospektif sejak tanggal reklasifikasi yang ditetapkan sebagai hari pertama periode pelaporan pertama setelah perubahan model bisnis. Entitas dan Entitas Anak tidak menyajikan kembali keuntungan, kerugian, atau bunga yang diakui sebelumnya.

PSAK 71 tidak mengizinkan reklasifikasi:
- untuk investasi ekuitas yang diukur pada FVOCI, atau
- di mana opsi nilai wajar telah dilaksanakan dalam kondisi apapun untuk aset keuangan atau liabilitas keuangan.

f. Transaksi dengan Pihak-pihak Berelasi

Entitas dan Entitas Anak melakukan transaksi dengan pihak-pihak berelasi seperti yang dinyatakan dalam PSAK No. 7 (Revisi 2015), mengenai "Pengungkapan Pihak-pihak Berelasi".

Pihak-pihak berelasi adalah orang atau entitas yang terkait dengan entitas pelapor:

A right to set-off must be available today rather than being contingent on a future event and must be exercisable by any of the counterparties, both in the normal course of business and in the event of default, insolvency or bankruptcy.*

***(6) Reclassification of Financial Instruments***

*For financial assets, reclassification is required between FVTPL, FVOCI and amortized cost, if and only if the entity's business model objective for its financial assets changes so its previous model assessment would no longer apply.*

*If reclassification is appropriate, it must be done prospectively from the reclassification date which is defined as the first day of the first reporting period following the change in business model. The Entity's and Subsidiary does not restate any previously recognized gains, losses, or interest.*

*PSAK 71 does not allow reclassification:*

Seluruh saldo dan transaksi yang signifikan dengan pihak berelasi, baik yang dilakukan dengan persyaratan dan kondisi normal sebagaimana yang dilakukan dengan pihak ketiga, diungkapkan dalam catatan atas laporan keuangan konsolidasian.

g. Persediaan

Sesuai dengan PSAK No. 14, mengenai "Persediaan", persediaan dinyatakan sebesar nilai terendah antara biaya perolehan atau nilai realisasi neto (*the lower of cost or net realizable value*). Biaya perolehan persediaan ditentukan dengan metode rata-rata (*average method*) yang mencerminkan kondisi terkini persediaan.

Nilai realisasi neto adalah estimasi harga jual dalam kegiatan usaha normal dikurangi estimasi biaya penyelesaian dan estimasi biaya yang diperlukan untuk membuat penjualan.

Penyisihan atas persediaan usang atau penurunan nilai persediaan ditetapkan berdasarkan penelaahan berkala terhadap kondisi fisik dan tingkat perputaran persediaan.

h. Biaya Dibayar di Muka

Biaya dibayar di muka dibebankan pada laba rugi tahun berjalan sesuai masa manfaat masing-masing biaya dengan menggunakan metode garis lurus (*straight-line method*).

i. Aset Tetap

Tanah, bangunan dan prasarana serta mesin dan peralatan dicatat pada jumlah revaluasian, yaitu nilai wajar pada tanggal revaluasi dikurangi akumulasi penyusutan dan akumulasi rugi penurunan nilai yang terjadi setelah tanggal revaluasi. Revaluasi dilakukan dengan keteraturan yang cukup reguler untuk memastikan bahwa jumlah tercatat tidak berbeda secara material dari jumlah yang ditentukan dengan menggunakan nilai wajar pada tanggal posisi keuangan. Atas perubahan kebijakan akuntansi dari model biaya ke model revaluasi, maka perubahan tersebut berlaku secara prospektif.

i. Aset Tetap - Lanjutan

Penyusutan dihitung dengan menggunakan metode garis lurus untuk kelompok bangunan dan prasarana sedangkan untuk kelompok selain bangunan dan prasarana disusutkan dengan metode saldo menurun ganda berdasarkan taksiran masa manfaat ekonomis sebagai berikut:

| | Tahun/*Years* | Presentase/ *Percentage* | |
|---|---|---|---|
| Bangunan dan prasarana | 20 | 5% | *Building and improvement* |
| Mesin dan peralatan | 4 - 25 | 25% – 4% | *Machinery and equipment* |

Estimasi masa manfaat ekonomis, nilai residu dan metode penyusutan direview setiap akhir tahun dan pengaruh dari setiap perubahan estimasi tersebut berlaku prospektif.

Kenaikan yang berasal dari revaluasi tanah, bangunan dan mesin tersebut langsung dikreditkan ke surplus revaluasi pada pendapatan komprehensif lain, kecuali sebelumnya penurunan revaluasi atas aset yang sama pernah diakui dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian, dalam hal ini kenaikan revaluasi hingga sebesar penurunan nilai aset akibat revaluasi tersebut, dikreditkan dalam laporan laporan laba rugi dan penghasilan komprehensif lain konsolidasian. Penurunan jumlah tercatat yang berasal dari revaluasi aset tetap dibebankan dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian apabila penurunan tersebut melebihi saldo akun surplus revaluasi aset tetap yang berasal dari revaluasi sebelumnya, jika ada.

Dampak atas pajak penghasilan, jika ada yang dihasilkan dari revaluasi aset tetap diakui dan diungkapkan sesuai dengan PSAK No. 46, mengenai Pajak Penghasilan.

Penyusutan atas nilai revaluasian bangunan dan prasarana serta mesin dan peralatan dibebankan ke laporan laba rugi dan penghasilan komprehensif lain konsolidasian. Bila aset tetap yang telah direvaluasi dilepas atau dihentikan penggunaanya, saldo surplus revaluasi tersisa dipindahkan langsung ke saldo laba beserta pengaruh pajaknya.

Akumulasi penyusutan pada tanggal revaluasi diperlakukan dengan cara dieliminasikan terhadap jumlah tercatat bruto dari aset dan jumlah tercatat neto setelah eliminasi disajikan sebesar jumlah revaluasian dari aset tersebut.

Keuntungan dan kerugian yang timbul dari penjualan atau penghentian tanah, bangunan dan prasarana serta mesin dan peralatan ditentukan sebesar perbedaan antara jumlah neto hasil pelepasan dan jumlah tercatat dari aset tetap tersebut dan dicatat dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian.

Entitas melakukan revaluasi karena adanya perubahan kebijakan akuntansi, tidak dilakukan revaluasi karena alasan fiskal sehingga tidak ada pelaporan ke Direktorat Jendral Pajak untuk perijinan tersebut.

Revaluasi akan dilakukan secara tahunan bagi aset yang mengalami perubahan nilai wajar secara signifikan dan fluktuatif sedangkan bagi aset yang tidak mengalami perubahan nilai wajar secara signifikan wajib direvaluasi paling kurang setiap 3 (tiga) tahun.

Entitas telah menerapkan metode revaluasi sebagai kebijakan akuntansi pada pencatatan aset tetap sejak 1 Januari 2009.

Aset tetap lainnya

Aset tetap lainnya dinyatakan berdasarkan biaya perolehan setelah dikurangi akumulasi penyusutan dan akumulasi kerugian penurunan nilai. Penyusutan dihitung dengan menggunakan metode saldo menurun ganda berdasarkan taksiran masa manfaat ekonomis aset tetap sebagai berikut:

| | Tahun/Years | Presentase/ *Percentage* | |
|---|---|---|---|
| Kendaraan | 2 - 4 | 50% - 25% | *Vehicles* |
| Inventaris kantor | 2 - 4 | 50% - 25% | *Office furniture and fixtures* |

Aset sewa pembiayaan disusutkan berdasarkan taksiran masa manfaat ekonomis yang sama dengan aset yang dimiliki sendiri.

Estimasi masa manfaat ekonomis, nilai residu dan metode penyusutan direview setiap akhir tahun dan pengaruh dari setiap perubahan estimasi tersebut berlaku prospektif.

Penyusutan dihentikan lebih awal ketika aset yang dimiliki diklasifikasikan sebagai aset untuk dijual atau aset tersebut termasuk dalam kelompok aset yang tidak digunakan lagi.

Sesuai dengan PSAK No. 15, mengenai "Investasi pada Entitas Asosiasi dan Ventura Bersama", Entitas asosiasi adalah suatu entitas dimana Entitas dan Entitas Anak memiliki pengaruh signifikan dan bukan merupakan entitas anak atau ventura bersama. Pengaruh signifikan adalah kekuasaan untuk ikut serta dalam mengambil keputusan atas kebijakan keuangan dan operasional investee tetapi tidak mengendalikan atau mengendalikan bersama atas kebijakan tersebut.

Investasi pada entitas asosiasi pada awalnya diakui sebesar biaya perolehan dan disesuaikan dengan bagian grup dari aset bersih *investee* setelah tanggal akuisisi, dan untuk setiap penuruanan nilai (metode ekuitas), kecuali investasi tersebut diklasifikasikan sebagai dimiliki untuk dijual sesuai dengan PSAK No. 58, mengenai "Aset Tidak Lancar yang Dimiliki Untuk Dijual dan Operasi yang Dihentikan". Jika Entitas dan Entitas Anak kehilangan bagiannya atas entitas asosiasi, Entitas dan Entitas Anak menghentikan mengakui bagiannya atas kerugian selanjutnya.

m. Penurunan Nilai Aset Non-Keuangan

Sesuai dengan PSAK No. 48, mengenai "Penurunan Nilai Aset", pada tanggal laporan posisi keuangan konsolidasian, Entitas dan Entitas Anak menelaah nilai tercatat aset non-keuangan untuk menentukan apakah terdapat indikasi bahwa aset tersebut telah mengalami penurunan nilai.

Jika terdapat indikasi tersebut, nilai yang dapat diperoleh kembali dari aset diestimasi untuk menentukan tingkat kerugian penurunan nilai (jika ada).

Bila tidak memungkinkan untuk mengestimasi nilai yang dapat diperoleh kembali atas suatu aset individu, Entitas dan Entitas Anak mengestimasi nilai yang dapat diperoleh kembali dari unit penghasil kas atas aset. Perkiraan jumlah yang dapat diperoleh kembali adalah nilai tertinggi antara harga jual neto atau nilai pakai.

**Entitas dan Entitas Anak sebagai Penyewa**

Pada insepsi kontrak, Entitas dan Entitas Anak menilai apakah kontrak adalah, atau mengandung, sewa. Suatu kontrak adalah atau mengandung sewa jika kontrak tersebut memberikan hak untuk mengendalikan penggunaan aset yang identifikasian selama suatu jangka waktu waktu untuk dipertukarkan dengan imbalan.

Untuk menilai apakah kontrak memberikan hak untuk mengendalikan penggunaan aset yang identifikasian, Entitas dan Entitas Anak harus menilai apakah:

- Entitas dan Entitas Anak memiliki hak untuk mendapatkan secara substansial seluruh manfaat ekonomik dari penggunaan aset identifikasian selama periode penggunaan; dan

- Entitas dan Entitas Anak memiliki hak untuk mengarahkan penggunaan aset identifikasian. Entitas dan Entitas Anak memiliki hak ini ketika Entitas dan Entitas Anak memiliki hak pengambilan keputusan yang paling relevan untuk mengubah cara dan tujuan penggunaan aset telah ditentukan sebelumnya:
  1. Entitas dan Entitas Anak memiliki hak untuk mengoperasikan aset identifikasian;
  2. Entitas dan Entitas Anak telah mendesain aset identifikasian dengan cara yang telah ditentukan sebelumnya bagaimana dan untuk tujuan apa aset itu akan digunakan.

n. Sewa - Lanjutan

Pada insepsi atau penilaian kembali kontrak yang berisi komponen sewa, Entitas dan Entitas Anak mengalokasikan imbalan dalam kontrak untuk setiap komponen sewa atas dasar harga relatif tersendiri dan harga tersendiri agregat dari komponen nonsewa. Akan tetapi, untuk sewa perbaikan di mana Entitas dan Entitas Anak adalah penyewa.

Pada saat permulaan sewa, penyewa mengakui aset hak-guna dan liabilitas sewa. Aset hak-guna awalnya diukur pada harga perolehan, yang terdiri dari jumlah awal liabilitas sewa yang disesuaikan dengan pembayaran sewa yang dilakukan pada atau sebelum tanggal permulaan, ditambah biaya langsung awal yang timbul dan estimasi biaya untuk membongkar dan memindahkan aset pendasar atau merestorasi aset pendasar ke kondisi yang disyaratkan oleh syarat dan ketentuan sewa, dikurangi insentif sewa yang diterima.

Setelah tanggal permulaan, Entitas dan Entitas Anak mengukur aset hak-guna dengan menggunakan model biaya yang berkaitan aset tetap sesuai PSAK 16.

Berdasarkan model biaya, aset hak-guna diukur pada biaya perolehan dikurangi akumulasi penyusutan dan akumulasi penurunan nilai. Jika sewa mengalihkan kepemilikan aset pendasar kepada Entitas dan Entitas Anak pada akhir masa sewa atau jika biaya perolehan aset hak-guna mencerminkan bahwa penyewa akan mengeksekusi opsi beli, Entitas dan Entitas Anak mendepresiasi hak-guna sejak tanggal permulaan hingga akhir umur manfaat aset pendasar. Jika tidak, Entitas dan Entitas Anak mendepresiasi aset hak-guna dari tanggal permulaan hingga tanggal yang lebih awal antara akhir umur manfaat aset hak-guna atau akhir masa sewa.

Liabilitas sewa pada awalnya diukur pada nilai kini dari pembayaran sewa yang terutang selama masa sewa, didiskontokan pada suku bunga implisit dalam sewa jika hal itu dapat segera ditentukan. Jika suku bunga implisit tersebut tidak dapat segera ditentukan, Entitas dan Entitas Anak menggunakan suku bunga pinjaman inkremental.

*n. Leases - Continued*

*At the inception or on reassessment of a contract that contains a lease component, the Entity's and Subsidiary allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices and the aggregate stand-alone price of the non-lease components. However, for the leases of improvements in which the Entity's and Subsidiary is a lessee.*

*Upon lease commencement a lessee recognizes a right-of-use asset and a lease liability. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payment made at or before the commencement date, plus any initial direct cost incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset to the condition required by the terms and conditions of the lease, less any lease incentives received.*

*After lease commencement, The Entity's and Subsidiary measures the right-of-use asset using a cost model that relates to Property, Plant and Equipment under PSAK 16.*

*Under the cost model, a right-of-use asset is measured at cost less accumulated depreciation and accumulated impairment. If the lease transfers ownership of the underlying assets to the Entity's and Subsidiary at the end of the lease period or if the acquisition cost of the right-of-use asset reflects that the lessee will make a purchase option, the Entity's and Subsidiary depreciates the right-of-use asset from the commencement date until the end of the useful life of the asset underlying assets. If not, the Entity's and Subsidiary depreciates the right-of-use assets from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.*

*The lease liability is initially measured at the present value of the lease payments payable over the lease term, discounted at the rate implicit in the lease if that can be readily determined. If that rate cannot be readily determined, the Entity's and Subsidiary uses its incremental borrowing rate.*

n. Sewa - Lanjutan

Pembayaran sewa yang termasuk dalam pengukuran liabilitas sewa terdiri dari:

- pembayaran tetap, termasuk pembayaran tetap secara-substansi dikurangi piutang insentif sewa;
- pembayaran sewa variabel yang bergantung pada indeks atau suku bunga, awalnya diukur menggunakan indeks atau suku bunga pada tanggal permulaan;
- jumlah yang diperkirakan akan dibayarkan oleh Entitas dan Entitas Anak dalam jaminan nilai residual;
- harga eksekusi opsi beli yang cukup pasti Entitas dan Entitas Anak akan mengeksekusi; dan
- pembayaran penalti untuk penghentian sewa lebih awal kecuali Entitas dan Entitas Anak cukup pasti untuk tidak menghentikan kontrak lebih awal.

Pembayaran sewa variabel yang tidak termasuk dalam pengukuran liabilitas sewa diakui dalam laporan laba rugi pada periode terjadinya peristiwa atau kondisi yang memicu terjadinya pembayaran, kecuali biaya tersebut dimasukkan dalam nilai tercatat aset lain menurut Pernyataan lain.

- masa sewa (menggunakan tingkat diskonto yang direvisi);
- penilaian opsi beli (menggunakan tingkat diskonto yang direvisi);
- pembayaran sewa masa depan sebagai akibat dari perubahan indeks atau suku bunga yang digunakan untuk menentukan pembayaran tersebut (menggunakan tingkat diskonto yang tidak berubah).

**Sewa jangka pendek dan aset pendasar bernilai rendah**

Entitas dan Entitas Anak telah memilih untuk tidak mengakui aset hak-guna dan liabilitas sewa untuk sewa jangka pendek yang memiliki jangka waktu sewa 12 bulan atau kurang. Entitas dan Entitas Anak mengakui pembayaran sewa terkait dengan sewa tersebut sebagai beban dengan metode garis lurus selama masa sewa.

Entitas dan Entitas Anak belum menentukan ambang batas aset bernilai rendah, oleh karena itu Entitas dan Entitas Anak tidak menggunakan pengecualian ini dan menerapkan PSAK 73 sebagaimana mestinya.

- *amounts expected to be payable by the Entity's and Subsidiary under a residual value guarantee;*
- *the exercise price under a purchase option that the Entity's and Subsidiary is reasonably certain to exercise; and*
- *penalties payment for early termination of a lease unless the Entity's and Subsidiary is reasonably certain not to terminate early.*

*Variable lease payments that are not included in the measurement of the lease liability are recognized in profit or loss in the period in which the event or condition that triggers payment occurs, unless the costs are included in the carrying amount of another asset under another Standard.*

- *the lease term (using a revised discount rate);*
- *the assessment of a purchase option (using a revised discount rate);*
- *future lease payments resulting from a change in an index or a rate used to determine those payments (using an unchanged discount rate).*

***Short-term leases and low value underlying assets***

*The Entity's and Subsidiary has elected not to recognize right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less. The Entity's and Subsidiary recognizes the leases payments associated with these leases as an expense on a straight-line basis over the lease term.*

*The Entity's and Subsidiary has not determined the threshold of low value assets, accordingly the Entity's and Subsidiary does ot use this exemption and applies PSAK 73 as appropriate.*

**Modifikasi sewa**

Modifikasi sewa juga dapat meminta pengukuran kembali liabilitas sewa kecuali jika diperlakukan sebagai sewa terpisah.

Penyewa mencatat modifikasi sewa sebagai sewa terpisah jika keduanya:
- modifikasi meningkatkan ruang lingkup sewa dengan menambahkan hak untuk menggunakan satu atau lebih aset pendasar; dan
- imbalan sewa meningkat sebesar jumlah yang setara dengan harga tersendiri untuk peningkatan ruang lingkup dan penyesuaian yang tepat terhadap harga tersendiri tersebut untuk mencerminkan kondisi kontrak tertentu.

Untuk modifikasi sewa yang tidak dicatat sebagai sewa terpisah, pada tanggal efektif modifikasi sewa, penyewa:
- mengukur kembali dan mengalokasikan imbalan dalam kontrak modifikasian;
- menentukan masa sewa dari sewa modifikasian;
- mengukur kembali liabilitas sewa dengan mendiskontokan pembayaran sewa yang direvisi menggunakan tingkat diskonto revisian atas dasar sisa masa sewa dan sisa pembayaran sewa dengan penyesuaian yang sesuai dengan aset hak-guna. Tingkat diskonto revisian ditentukan sebagai suku bunga pinjaman inkremental penyewa pada tanggal efektif modifikasi;
- menurunkan nilai tercatat aset hak-guna untuk mencerminkan penghentian parsial atau penuh dari sewa untuk modifikasi sewa yang menurunkan ruang lingkup sewa. Penyewa mengakui dalam laba rugi setiap keuntungan atau kerugian yang terkait dengan penghentian parsial atau penuh sewa tersebut; dan
- membuat penyesuaian terkait dengan aset hak-guna untuk semua modifikasi sewa lainnya.

**Entitas dan Entitas Anak sebagai Pesewa**

Ketika Entitas dan Entitas Anak bertindak sebagai pesewa, maka setiap sewa diklasifikasikan sebagai sewa operasi atau sewa pembiayaan.

Sewa diklasifikasikan sebagai sewa pembiayaan jika sewa mengalihkan secara substansial semua risiko dan manfaat yang terkait dengan kepemilikan aset pendasar. Jika tidak, sewa diklasifikasikan sebagai sewa operasi.

***Lease modification***

*Lease modifications may also prompt remeasurement of the lease liability unless they are to be treated as separate leases.*

*The lessee accounts for a lease modification as a separate lease if both:*
- *the modification increases the scope of the lease by adding the right to use one or more underlying assets; and*
- *the consideration for the lease increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.*

*For a lease modification that is not accounted for as a separate lease, at the effective date of the lease modification, the lessee:*
- *remeasure and allocate the consideration in the modified contract;*
- *determine the lease term of the modified lease;*
- *remeasure the lease liability by discounting the revised lease payments using a revised discount rate on the basis of the remaining lease term and the remaining lease payment with a corresponding adjustment to the right-of-use assets. The revised discount rate is determined as the lessee's incremental borrowing rate at the effective date of the modification;*
- *decrease the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease. The lessee recognizes in profit or loss any gain or loss relating to the partial or full termination of the lease; and*
- *make a corresponding adjustment to the right-of-use asset for all other lease modifications.*

***Entity and Subsidiary as a Lessor***

*When the Entity's and Subsidiary acts as a lessor, it shall classify each lease as either an operating lease or a finance lease.*

*A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. Otherwise a lease is classified as an operating lease.*

**3. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL - Lanjutan**

n. Sewa - Lanjutan

Sebagai bagian dari penilaian ini, Entitas dan Entitas Anak mempertimbangkan indikator-indikator tertentu seperti:

a. sewa mengalihkan kepemilikan aset pendasar kepada penyewa pada akhir masa sewa;
b. penyewa memiliki opsi untuk membeli aset pendasar dengan harga yang diperkirakan cukup lebih rendah dari nilai wajar pada tanggal opsi tersebut dapat dieksekusi sehingga menjadi cukup pasti, pada tanggal insepsi, bahwa opsi tersebut akan dieksekusi;
c. masa sewa adalah untuk sebagian besar umur ekonomik aset pendasar, meskipun hak milik tidak dialihkan;
d. pada tanggal insepsi, nilai kini dari pembayaran sewa setidaknya mencakup secara substansial seluruh nilai wajar aset pendasar;
e. aset pendasar bersifat khusus sehingga hanya penyewa yang dapat menggunakannya tanpa modifikasi signifikan.

Pada permulaan sewa, Entitas dan Entitas Anak mengakui aset yang dimiliki dalam sewa pembiayaan sebagai piutang pada jumlah yang sama dengan investasi neto sewa.

Investasi neto sewa adalah investasi sewa bruto yang didiskontokan pada tingkat bunga implisit dalam sewa. Investasi bruto dalam sewa adalah jumlah dari:

1. piutang pembayaran sewa oleh Entitas dan Entitas Anak dalam sewa pembiayaan, dan
2. nilai residual yang tidak dijamin yang diperoleh Entitas dan Entitas Anak. Nilai residual yang tidak dijamin adalah bagian dari nilai residual aset pendasar, yang realisasinya oleh Entitas dan Entitas Anak tidak diyakini atau dijamin hanya oleh satu pihak yang terkait dengan Entitas dan Entitas Anak.

Entitas dan Entitas Anak mengakui pendapatan keuangan selama masa sewa dari sewa pembiayaan, berdasarkan pola yang mencerminkan tingkat pengembalian investasi neto periodik yang konstan. Hal ini dicapai dengan mengalokasikan sewa yang diterima (setelah dikurangi biaya jasa, dll.) oleh Entitas dan Entitas Anak antara pendapatan keuangan (bunga) kepada Entitas dan Entitas Anak dan pembayaran kembali saldo debitur (pokok), yaitu metode biaya perolehan diamortisasi.

Entitas dan Entitas Anak mengakui pembayaran sewa operasi sebagai pendapatan dengan dasar garis lurus atau, jika lebih merepresentasikan pola manfaat dari penggunaan aset pendasar yang menurun, maka dengan dasar sistematis lain.

*n. Leases - Continued*

*As part of this assessment, the Entity's and Subsidiary considers certain indicators such as:*

*a. the lease transfers ownership of the underlying asset to the lessee by the end of the lease term;*
*b. the lessee has the option to purchase the underlying asset at a price which is expected to be sufficiently lower than fair value at the date the option becomes exercisable that, at the inception of the lease, it is reasonably certain that the option will be exercised;*
*c. the lease term is for the major part of the economic life of the underlying asset, even if title is not transferred;*
*d. at the inception of the lease, the present value of the minimum lease payments amounts to at least substantially all of the fair value of the underlying asset;*
*e. the underlying assets are of a specialized nature such that only the lessee can use them without major modifications being made.*

*Upon lease commencement, the Entity's and Subsidiary recognizes assets held under a finance lease as a receivable at an amount equal to the net investment in the lease.*

*The net investment in the lease is the gross investment in the lease discounted at the interest rate implicit in the lease. The gross investment in the lease is the sum of:*

*1. lease payments receivable by the Entity's and Subsidiary under a finance lease, and*
*2. any unguaranteed residual value accruing to the Entity's and Subsidiary. The unguaranteed residual value is the portion of the residual value of the underlying asset, the realization of which by the Entity's and Subsidiary is not assured or is guaranteed solely by a party related to the Entity's and Subsidiary.*

*The Entity's and Subsidiary recognizes finance income over the lease term of a finance lease, based on a pattern reflecting a constant periodic rate of return on the net investment. This is achieved by allocating the lease received (net of any charges for services etc.) by the Entity's and Subsidiary between finance (interest) income to the Entity's and Subsidiary and repayment of the debtor balance (principal), that is amortized cost method.*

*The Entity's and Subsidiary recognizes operating lease payments as income on a straight-line basis or, if more representative of the pattern in which benefit from use of the underlying asset is diminished, another systematic basis.*

**Transaksi Jual dan Sewa-Balik**

Untuk menentukan apakah pengalihan aset dicatat sebagai penjualan, Entitas dan Entitas Anak menerapkan ketentuan PSAK 72 "Pendapatan dari Kontrak dengan Pelanggan" untuk menentukan kapan kewajiban pelaksanaan terpenuhi.

Jika pengalihan aset memenuhi persyaratan PSAK 72 untuk dicatat sebagai penjualan, penjual mengukur aset hak-guna sesuai proporsi jumlah tercatat sebelumnya yang terkait dengan hak-guna yang masih dipertahankan. Oleh karena itu, penjual hanya mengakui keuntungan atau kerugian yang terkait dengan hak yang dialihkan kepada pembeli.

Jika nilai wajar imbalan penjualan tidak sama dengan nilai wajar aset, atau jika pembayaran sewa tidak pada harga pasar, hasil penjualan disesuaikan ke nilai wajar, baik dengan memperhitungkan pembayaran di muka atas pembayaran sewa jika berada di bawah harga pasar atau pembiayaan tambahan yang diberikan oleh pembeli kepada Entitas dan Entitas Anak jika berada di atas harga pasar.

Entitas dan Entitas Anak tidak menilai kembali transaksi jual dan sewa-balik yang disepakati sebelum tanggal penerapan awal.

**Subsewa**

Berdasarkan PSAK 73, Entitas dan Entitas Anak sebagai pesewa-antara memperhitungkan sewa utama dan subsewa sebagai dua kontrak terpisah. Entitas dan Entitas Anak disyaratkan untuk mengklasifikasikan subsewa sebagai sewa pembiayaan atau operasi dengan mengacu pada aset hak-guna yang timbul dari sewa utama. Jika sewa utama adalah sewa jangka pendek yang diperhitungkan dengan menerapkan tidak mengakui aset hak-guna dan liabilitas sewa, maka subsewa tersebut harus diklasifikasikan sebagai sewa operasi.

Ketika Entitas dan Entitas Anak melakukan sewa pembiayaan, Entitas dan Entitas Anak:
- menghentikan pengakuan aset hak-guna terkait dengan sewa utama yang dialihkan ke subpenyewa dan mengakui investasi neto sewa;
- mengakui perbedaan antara aset hak-guna dan investasi neto dalam laba atau rugi; dan

***Sale and Leaseback Transactions***

*To determine whether the transfer of an asset is accounted for as a sale the Entity's and Subsidiary applies the requirements of PSAK 72 "Revenue from Contracts with Customers" for determining when a performance obligation is satisfied.*

*If an asset transfer satisfies the requirements of PSAK 72 to be accounted for as a sale the seller measures the right-of-use asset at the proportion of the previous carrying amount that relates to the right of use retained. Accordingly, the seller only recognizes the amount of gain or loss that relates to the rights transferred to the buyer.*

*If the fair value of the sale consideration does not equal the asset's fair value, or if the lease payments are not market rates, the sales proceeds are adjusted to fair value, either by accounting for prepayments of lease payments if any below-market term or additional financing provided by the buyer to the Entity's and Subsidiary if any above-market term.*

*The Entity and Subsidiaries did not reassess the agreed sale and leaseback transactions prior to the initial application date.*

***Subleases***

*Under PSAK 73, the Entity's and Subsidiary as an intermediate lessor accounts for the head lease and the sublease as two separate contracts. The Entity's and Subsidiary is required to classify the sublease as a finance or operating lease by reference to the right-of-use asset arising from the head lease. If the head lease is a short-term lease has accounted applying not to recognize right-of-use asset and lease liability, the sublease should be classified as an operating lease.*

*When the Entity's and Subsidiary enters into the finance sublease, the Entity's and Subsidiary:*
- *derecognizes the right-of-use asset relating to the head lease that it transfers to the sublesee and recognizes the net investment in the sublease;*
- *recognizes any difference between the right-of-use asset and the net investment in the sublease in profit or loss; and*

Ketika Entitas dan Entitas Anak melakukan subsewa operasi, Entitas dan Entitas Anak tetap memiliki liabilitas sewa dan aset hak-guna yang terkait dengan sewa utama di laporan posisi keuangannya. Selama masa sewa, Entitas dan Entitas Anak mengakui biaya penyusutan atas aset hak-guna dan bunga atas liabilitas sewa dan mengakui pendapatan sewa dari subsewa.

Pada penerapan awal atas transaksi jual dan sewa balik dicatat sebagai sewa pembiayaan dan dilanjutkan mengamortisasi keuntungan jual dan sewa balik selama masa sewa.

o. Imbalan Kerja

Sesuai dengan PSAK No. 24, mengenai "Imbalan Kerja", Entitas dan Entitas Anak mengakui program imbalan pasti untuk semua karyawan tetap. Entitas dan Entitas Anak juga membukukan imbalan pasca kerja pasti untuk karyawan sesuai dengan Undang-Undang Ketenagakerjaan No. 13/ 2013 dan untuk non-manajemen sesuai dengan Undang-Undang No. 11 Tahun 2020 tentang Cipta Kerja. Entitas dan Entitas Anak menghitung selisih antara imbalan yang diterima karyawan berdasarkan undang-undang yang berlaku dengan manfaat yang diterima dari program pensiun untuk pensiun normal.

p. Biaya Emisi Saham

Biaya-biaya emisi efek yang terjadi sehubungan dengan penawaran saham kepada masyarakat (termasuk penerbitan hak memesan efek terlebih dahulu) dikurangkan langsung dari hasil emisi dan disajikan sebagai pengurang pada akun "Tambahan Modal Disetor", sebagai bagian dari ekuitas pada laporan posisi keuangan konsolidasian.

q. Pengakuan Pendapatan dan Beban

Pendapatan diakui menggunakan penilaian 5 langkah:

**1. Identifikasi Kontrak dengan Pelanggan**

Kontrak adalah kesepakatan antara dua pihak atau lebih yang menciptakan hak dan kewajiban yang dapat dipaksakan.

**2. Identifikasi Kewajiban Pelaksanaan dalam Kontrak**

Kewajiban pelaksanaan adalah janji kepada pelanggan untuk mengalihkan barang atau jasa (atau sekumpulan barang atau jasa) yang berifat dapat dibedakan; atau serangkaian barang atau jasa bersifat dapat dibedakan yang secara substansial sama dan memiliki pola pengalihan yang sama kepada pelanggan. Bersifat dapat dibedakan artinya dapat dipisahkan, atau dapat diidentifikasi secara terpisah.

**3. Penetapan Harga Transaksi**

Harga transaksi adalah jumlah imbalan yang diperkirakan menjadi hak Entitas dan Entitas Anak dalam pertukaran untuk mengalihkan barang atau jasa kepada pelanggan, tidak termasuk jumlah yang ditagih atas nama pihak ketiga (misalnya, pajak pertambahan nilai). Jika imbalan yang dijanjikan dalam kontrak mencakup jumlah variabel, Entitas dan Entitas Anak mengestimasi jumlah imbalan yang diharapkan menjadi haknya dalam pertukaran untuk mengalihkan barang atau jasa yang dijanjikan kepada pelanggan dikurangi estimasi jumlah variabel yang akan dibayar selama kontrak.

**4. Alokasi Harga Transaksi untuk Kewajiban Pelaksanaan**

Alokasikan harga transaksi untuk setiap kewajiban pelaksanaan berdasarkan harga jual berdiri sendiri relatif dari setiap barang atau jasa berbeda yang dijanjikan dalam kontrak. Jika hal ini tidak dapat diamati secara langsung, harga jual berdiri sendiri relative perlu diestimasi.

**5. Pengakuan Pendapatan ketika Kewajiban Pelaksanaan Dipenuhi**

Pendapatan dari penjualan diakui sebagai representasi penyerahan barang atau jasa dengan jumlah yang secara tepat mewakili kewajiban yang dilakukan dan hak untuk menerima imbalan sebagai imbalan atas barang dan/atau jasa tersebut. Pengakuan pendapatan tergantung pada apakah pengalihan diselesaikan sepanjang waktu atau pada waktu tertentu. Pengalihan kendali diperhitungkan.

*q. Revenue and Expense Recognition*

*Revenue is recognized using the 5-step assessment:*

***1. Identification of the Contract with the Customer***

*Contract is an agreement between two or more parties that creates enforceable rights and obligations.*

***2. Identification of the Performance Obligation in the Contract***

*A performance obligation is a promise to a customer to transfer good or service (or a bundle of goods or services) that is distinct; or a series of distinct goods or services that are substantially the same and that have the same pattern of transfer to the customer. Distinct means separable, or separately identifiable.*

***3. Determination of the Transaction Price***

*The transaction price is the amount of consideration that the Entity and Subsidiary expects to be entitled to in exchange for the goods or services to a customer, excluding amounts collected on behalf of third parties (for example, value added tax). If the consideration promised in a contract includes a variable amount, the Entity and Subsidiary estimates the amount of consideration to which it expects to be entitled in exchange for transferring the promised goods or services to a customer less the estimated variable amount which will be paid during the contract period.*

***4. Allocation Transaction Price to Performance Obligations***

*Allocate the transaction price to each performance obligation on the basis of the relative stand-alone selling prices of each distinct goods or services promised in the contract. Where these are not directly observable, the relative stand-alone selling price is required to be estimated.*

***5. Recognition of Revenue when Performance Obligation is Satisfied***

*Revenue from sales is recognized as a representation of the delivery of goods or the rendering of services at the amount that correctly represents the performed obligation and the right to receive consideration in exchange for the goods and/or services. Revenue recognition depends on whether the transfer is being settled over time or at a certain point in time. In any case, the transfer of control is taken into account.*

q. Pengakuan Pendapatan dan Beban – Lanjutan

Untuk setiap kewajiban pelaksanaan yang dipenuhi sepanjang waktu, pendapatan diakui dengan mengukur kemajuan penyelesaian kewajiban pelaksanaan tersebut berdasarkan pengukuran kemajuan yang tepat baik "Metode Keluaran" atau "Metode Masukan".

**Biaya Mendapatkan Kontrak**

Biaya inkremental untuk mendapatkan kontrak dengan pelanggan diakui sebagai aset jika Entitas dan Entitas Anak mengharapkan untuk memulihkan biaya tersebut. Biaya inkremental tersebut adalah biaya yang timbul untuk mendapatkan kontrak dengan pelanggan yang tidak akan terjadi jika kontrak tersebut tidak berhasil diperoleh.

**Biaya Pemenuhan Kontrak**

Suatu aset diakui untuk biaya yang timbul untuk memenuhi kontrak hanya jika biaya tersebut memenuhi semua kriteria berikut:

a) biaya terkait langsung dengan kontrak atau kontrak yang diantisipasi yang secara spesifik dapat diidentifikasi oleh Entitas dan Entitas Anak;
b) biaya menghasilkan atau meningkatkan sumber daya Entitas dan Entitas Anak yang akan digunakan untuk memenuhi (atau terus memenuhi) kewajiban pelaksanaan di masa depan; dan
c) biaya diharapkan dapat dipulihkan.

Aset yang dihasilkan akan diamortisasi secara sistematis selama periode kontrak. Ketika biaya yang timbul dalam memenuhi kontrak dengan pelanggan berada dalam lingkup Pernyataan lain, biaya tersebut diperhitungkan sesuai dengan Pernyataan lainnya.

Pendapatan diukur berdasarkan imbalan yang ditentukan dalam kontrak dengan pelanggan dan tidak termasuk jumlah yang ditagih atas nama pihak ketiga seperti PPN (Pajak Pertambahan Nilai). Entitas dan Entitas Anak mengakui pendapatan saat mengalihkan kendali atas produk atau jasa kepada pelanggan.

Beban diakui pada saat terjadinya (basis akrual).

*q. Revenue and Expense Recognition - Continued*

*For each performance obligation that is satisfied over time, revenue is recognized by measuring progress towards completion of that performance obligation based on appropriate measurement of progress either "Output Method" or "Input Method".*

***Costs of Obtaining a Contract***

*The incremental costs of obtaining a contract with a customer are recognized as an asset if the Entity and Subsidiary expects to recover those costs. Those incremental costs are costs incurred to obtain a contract with a customer that would not have been incurred if the contract had not been successfully obtained.*

***Costs of Fulfilling a Contract***

*An asset is recognized for the costs incurred to fulfil a contract only if those costs meet all of the following criteria:*

*a) the costs relate directly to a contract or to an anticipated contract that the Entity and Subsidiary can specifically identify;*

*b) the costs generate or enhance resources of the Entity and Subsidiary that will be used in satisfying (or in continuing to satisfy) performance obligations in the future; and*

*c) the costs are expected to be recovered.*

*Any resulting asset would be amortized on a systematic basis over period of the contract. When costs incurred in fulfilling a contract with a customer are within the scope of other Standards, they are accounted for in accordance with those other Standards.*

*Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties such as VAT (Value Added Tax). The Entity and Subsidiary recognizes revenue when it transfers control of a product or service to a customer.*

*Expenses are recognized when incurred (accrual basis).*

s. Pajak Penghasilan

Entitas dan Entitas Anak menerapkan PSAK No. 46 (Revisi 2014), mengenai "Pajak Penghasilan", yang mengharuskan Entitas dan Entitas Anak untuk memperhitungkan konsekuensi pajak kini dan pajak masa depan atas pemulihan di masa depan (penyelesaian) dari jumlah tercatat aset (liabilitas) yang diakui dalam laporan posisi keuangan konsolidasian, dan transaksi-transaksi serta peristiwa lain yang terjadi dalam tahun berjalan yang diakui dalam laporan keuangan konsolidasian .

Beban pajak kini ditetapkan berdasarkan taksiran penghasilan kena pajak tahun berjalan. Aset dan liabilitas pajak tangguhan diakui atas perbedaan temporer antara aset dan liabilitas untuk tujuan komersial dan untuk tujuan perpajakan setiap tanggal pelaporan. Manfaat pajak di masa mendatang, seperti nilai terbawa atas saldo rugi fiskal yang belum digunakan, jika ada, juga diakui sejauh realisasi atas manfaat pajak tersebut dimungkinkan.

*s. Income Tax*

*The Entity and Subsidiary applied PSAK No. 46 (Revised 2014) regarding, "Income Tax", which requires the Entity and Subsidiary to account for the current and future tax consequences of the future recovery (settlement) of the carrying amount of assets (liabilities) that are recognized in the consolidated statement of financial position; and transactions and other events of the current year that are recognized in the consolidated financial statements.*

*Current tax expense is provided based on the estimated taxable income for the current year. Deferred tax assets and liabilities are recognized for temporary differences between commercial and tax bases of assets and liabilities at each reporting date. Future tax benefit, such as the carry-forward of unused tax losses, if any, is also recognized to the extent that realization of such tax benefit is probable.*

**3. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL - Lanjutan**

s. Pajak Penghasilan- Lanjutan

Aset dan liabilitas pajak tangguhan diukur pada tarif pajak yang diharapkan akan digunakan pada tahun ketika aset direalisasi atau ketika liabilitas dilunasi berdasarkan tarif pajak (dan peraturan perpajakan) yang berlaku atau secara substansial telah diberlakukan pada tanggal laporan posisi keuangan konsolidasian.

Perubahan nilai tercatat aset dan liabilitas pajak tangguhan yang disebabkan oleh perubahan tarif pajak dibebankan pada tahun berjalan, kecuali untuk transaksi-transaksi yang sebelumnya telah langsung dibebankan atau dikreditkan ke ekuitas.

Perubahan terhadap liabilitas perpajakan diakui pada saat penetapan pajak diterima atau jika Entitas dan Entitas Anak mengajukan keberatan, pada saat keputusan atas keberatan telah ditetapkan.

t. Segmen Operasi

PSAK No. 5 (Penyesuaian 2015) tentang "Segmen Operasi" mengharuskan segmen operasi diidentifikasi berdasarkan laporan internal mengenai komponen dari Entitas dan Entitas Anak yang secara regular direview oleh "pengambil keputusan operasional" dalam rangka mengalokasikan sumber daya dan menilai kinerja segmen operasi. Kebalikan dengan standar sebelumnya yang mengharuskan Entitas dan Entitas Anak mengindentifikasi dua segmen (bisnis dan geografis), menggunakan pendekatan risiko dan pengembalian.

PSAK revisi ini mengatur pengungkapan yang memungkinkan pengguna laporan keuangan konsolidasian untuk mengevaluasi sifat dan dampak keuangan dari aktivitas bisnis yang mana entitas terlibat dan lingkungan ekonomi dimana entitas beroperasi.

Segmen operasi adalah suatu komponen dari Entitas atau Entitas Anak:

- Yang melibatkan dalam aktivitas bisnis yang mana memperoleh pendapatan dan menimbulkan beban (termasuk pendapatan dan beban terkait dengan transaksi dengan komponen lain entitas yang sama);
- Hasil operasinya dikaji ulang secara regular oleh pengambil keputusan tentang sumber daya yang dialokasikan pada segmen tersebut dan kinerjanya; dan
- Tersedia informasi keuangan yang dapat dipisahkan.

*s. Income Tax - Continued*

*Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the assets are realized or the liabilities are settled, based on the applicable tax rates (and tax laws) that have been enacted or substantively enacted at consolidated statements of financial position date.*

*Changes in the carrying amount of deferred tax assets and liabilities due to a change in tax rates is charged to current year operations,except to the extent that it relates to items previously charged or credited to equity.*

*Amendments to tax obligations are recorded when an assessment is received or, if appealed against by the Entity and Subsidiary, when the result of the appeal is determined.*

*t. Operation Segment*

*PSAK No. 5 (Improvement 2015) regarding "Operating Segments" requires operating segments to be identified on the basis of internal reports about components of the Entity and Subsidiary that are regularly reviewed by the "chief operating decision maker" in order to allocate resources and assessing performance of the operating segments. Contrary to the performance of the previous standard that requires the Entity and Subsidiary identified two segments (business and geographical), using a risks and returns approach.*

*The revised PSAK disclosures that enable users of the consolidated financial statements to evaluate the nature and financial effects of the business activities in which the entities involved and the economic environment in which the entity operates.*

*An operating segment is a component of the Entity or Subsidiary:*

- *Involving in business activities which earn income and create a load (including revenues and expenses related to transactions with other components of the same entity);*
- *The results of operations are reviewed regularly by decisions maker about the resources allocated to the segment and its performance; and*
- *Available financial information which can be separated.*

t. Segmen Operasi – Lanjutan

Pendapatan, beban, hasil, aset dan liabilitas segmen termasuk item-item yang dapat diatribusikan langsung kepada suatu segmen serta hal-hal yang dapat dialokasikan dengan dasar yang sesuai kepada segmen tersebut.

u. Saham Treasuri

Instrumen ekuitas sendiri yang diperoleh kembali (saham treasuri) diakui pada harga perolehan kembali dan dikurangi dari ekuitas. Tidak ada laba atau rugi yang diakui pada laba rugi atas perolehan, penjualan kembali, penerbitan atau pembatalan dari instrumen ekuitas Entitas. Selisih antara jumlah tercatat dan penerimaan, bila diterbitkan kembali, diakui sebagai bagian dari tambahan modal disetor pada ekuitas.

Saham yang dibeli kembali (*treasury stock*) untuk dikeluarkan lagi dikemudian hari dicatat dengan metode nilai nominal (*par value method*).

Berdasarkan metode ini, saham beredar yang diperoleh kembali dicatat sebesar nilai nominalnya dan disajikan sebagai pengurang akun modal saham. Apabila saham beredar yang diperoleh kembali tersebut semula dikeluarkan dengan harga di atas nilai nominal, akun tambahan modal disetor akan disesuaikan. Selisih lebih harga perolehan dari harga penerbitannya akan dikoreksi ke agio saham beredar yang diperoleh kembali.

v. Laba per Saham Dasar

Sesuai dengan PSAK No. 56 mengenai, "Laba per Saham Dasar", laba per saham dasar dihitung dengan membagi laba rugi yang dapat diatribusikan kepada pemegang saham biasa Entitas dengan jumlah rata-rata tertimbang saham biasa yang beredar dalam suatu tahun, tidak termasuk saham biasa yang dibeli oleh Entitas yang dikenal sebagai saham treasuri yaitu sebesar 7.065.340.735 saham pada tanggal 31 Desember 2023, 2022 dan 2021 (lihat Catatan 24 dan 36).

*t. Operation Segment - Continued*

*Revenues, expenses, results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis to that segment.*

*u. Treasury Stock*

*The recoverable equity instruments (treasury stock) are recognized at cost and subtracted from equity. No gain or loss is recognized in profit or loss on the acquisition, resale, issuance or cancellation of the Entity's equity instruments. The difference between the carrying amount and revenues, when redeemed, is recognized as part of additional paid-in capital in equity.*

*Shares repurchased (treasury stock) to be issued again later recorded by the method of nominal value (par value method).*

*Under this method, treasury stock is presented at the par value as a reduction from the capital stock account. If the treasury stock had been original issued at a price above par value, the related additional paid in capital account is adjusted. Any excess of the reacquisition cost over the original reissuance price is adjusted to premium on treasury stock.*

*v. Basic Earnings per Share*

*According to PSAK No. 56 regarding, "Basic Earnings per Share, basic earnings per share is computed by dividing profit or loss attributable to Entity's ordinary stockholders by the weighted average number of shares outstanding in issue during the year, excluding ordinary shares purchased by the Entity and held as treasury stock, amounting to 7,065,340,735 shares as of December 31, 2023, 2022 and 2021 (see Note 24 and 36).*

**4. PERTIMBANGAN, ESTIMASI DAN ASUMSI AKUNTANSI YANG SIGNIFIKAN**

Penyusunan laporan keuangan konsolidasian mengharuskan manajemen untuk membuat estimasi dan asumsi yang mempengaruhi jumlah aset dan liabilitas dan pengungkapan aset dan liabilitas kontinjensi pada tanggal laporan keuangan konsolidasian serta jumlah pendapatan dan beban yang dilaporkan selama periode pelaporan.

***4. SIGNIFICANT ACCOUNTING JUDGMENT, ESTIMATES AND ASSUMPTIONS***

*The preparation of consolidated financial statements requires management to make estimation and assumption that affect assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period.*

**4. PERTIMBANGAN, ESTIMASI DAN ASUMSI AKUNTANSI YANG SIGNIFIKAN - Lanjutan**

Pos-pos signifikan yang terkait dengan estimasi dan asumsi antara lain:

a. Cadangan Kerugian Kredit Ekspektasian

Entitas dan Entitas Anak mengevaluasi akun tertentu jika terdapat informasi bahwa pelanggan yang bersangkutan tidak dapat memenuhi liabilitas keuangannya.

Dalam hal tersebut, Entitas dan Entitas Anak mempertimbangkan, berdasarkan fakta dan situasi yang tersedia, termasuk namun tidak terbatas pada, jangka waktu hubungan dengan pelanggan dan status kredit dari pelanggan dan faktor pasar yang telah diketahui, untuk mencatat provisi spesifik atas jumlah piutang guna mengurangi jumlah piutang pada jumlah yang diharapkan dapat diterima. Provisi spesifik ini dievaluasi kembali dan disesuaikan jika tambahan informasi yang diterima mempengaruhi jumlah penyisihan untuk penurunan nilai piutang.

Nilai tercatat pinjaman yang diberikan dan piutang telah diungkapkan dalam Catatan 6 dan 7.

b. Taksiran Masa Manfaat Ekonomis Aset Tetap dan Properti Investasi

Masa manfaat setiap aset tetap dan properti investasi Entitas dan Entitas Anak ditentukan berdasarkan kegunaan yang diharapkan dari aset tersebut. Estimasi ini ditentukan berdasarkan evaluasi teknis internal dan pengalaman atas aset sejenis.

Masa manfaat setiap aset direview secara periodik dan disesuaikan apabila prakiraan berbeda dengan estimasi sebelumnya karena keausan, keusangan teknis dan komersial, hukum atau keterbatasan lainnya atas pemakaian aset. Namun terdapat kemungkinan bahwa hasil operasi dimasa mendatang dapat dipengaruhi secara signifikan oleh perubahan atas jumlah serta periode pencatatan biaya yang diakibatkan karena perubahan faktor yang disebutkan di atas.

Perubahan masa manfaat aset tetap dan properti investasi dapat mempengaruhi jumlah biaya penyusutan yang diakui dan penurunan nilai tercatat aset tersebut. Nilai tercatat aset tetap dan properti investasi diungkapkan dalam Catatan 12 dan 13.

***4. SIGNIFICANT ACCOUNTING JUDGMENT, ESTIMATES AND ASSUMPTIONS - Continued***

*Significant posts associated with the estimation and assumptions include:*

*a. Allowances for Expected Credit Loss*

*The Entity and Subsidiary evaluate specific accounts where it has information that certain customers are unable to meet their financial obligations.*

*In these cases, the Entity and Subsidiary use judgment, based on the best available facts and circumstances, including but not limited to, the length of its relationship with the customer and the customer's current credit status and known market factors, to record specific provisions against amounts due to reduce its receivable amounts that expects to collect. These specific provisions are re-evaluated and adjusted as additional information received affects the amounts of allowance for impairment of receivables.*

*The carrying amount of loans and receivables are disclosed in Notes 6 and 7.*

*b. Estimated Useful Lives of Property, Plant and Equipment and Investment Property*

*The useful life of each item of the Entity and Subsidiary of property, plant and equipment, and investment properties are estimated based on the period over which the asset is expected to be available for use. Such estimation is based on internal technical evaluation and experience with similar assets.*

*The estimated useful life of each asset is reviewed periodically and updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the asset. It is possible, however, that future results of operations could be materially affected by changes in the amounts and timing of recorded expenses brought about by changes in the factors mentioned above.*

*A change in the estimated useful life of any item of property, plant and equipment and investment properties would affect the recorded depreciation expense and decrease in the carrying values of these assets. The carrying amount of property, plant and equipment and investment property are disclosed in Notes 12 and 13.*

**4. PERTIMBANGAN, ESTIMASI DAN ASUMSI AKUNTANSI YANG SIGNIFIKAN - Lanjutan**

c. Penurunan Nilai Aset Non-Keuangan

Pada setiap akhir periode pelaporan, Entitas dan Entitas Anak menelaah nilai tercatat aset non-keuangan untuk menentukan apakah terdapat indikasi bahwa aset tersebut telah mengalami penurunan nilai. Jika terdapat indikasi tersebut, nilai yang dapat diperoleh kembali dari aset diestimasi untuk menentukan tingkat kerugian penurunan nilai (jika ada). Bila tidak memungkinkan untuk mengestimasi nilai yang dapat diperoleh kembali atas suatu aset individu, Entitas dan Entitas Anak mengestimasi nilai yang dapat diperoleh kembali dari unit penghasil kas atas aset.

Perkiraan jumlah yang dapat diperoleh kembali adalah nilai tertinggi antara nilai wajar dikurangi biaya untuk menjual dan nilai pakai. Dalam menilai nilai pakai, estimasi arus kas masa depan didiskontokan ke nilai kini menggunakan tingkat diskonto sebelum pajak yang menggambarkan penilaian pasar kini dari nilai waktu uang dan risiko spesifik atas aset yang mana estimasi arus kas masa depan belum disesuaikan.

Jika jumlah yang dapat diperoleh kembali dari aset non-keuangan (unit penghasil kas) kurang dari nilai tercatatnya, nilai tercatat aset (unit penghasil kas) dikurangi menjadi sebesar nilai yang dapat diperoleh kembali dan rugi penurunan nilai diakui langsung ke laba rugi.

d. Pajak Penghasilan

Entitas dan Entitas Anak beroperasi di bawah peraturan perpajakan di Indonesia. Pertimbangan yang signifikan diperlukan untuk menentukan provisi pajak penghasilan dan pajak pertambahan nilai. Apabila keputusan final atas pajak tersebut berbeda dari jumlah yang pada awalnya dicatat, perbedaan tersebut akan dicatat di laporan laba rugi pada periode dimana hasil tersebut dikeluarkan.

e. Imbalan Kerja

Nilai kini liabilitas imbalan kerja tergantung pada sejumlah faktor yang ditentukan dengan menggunakan asumsi aktuaria. Asumsi yang digunakan dalam menentukan biaya bersih untuk pensiun termasuk tingkat pengembalian jangka panjang yang diharapkan atas aset program dan tingkat diskonto yang relevan. Setiap perubahan dalam asumsi ini akan berdampak pada nilai tercatat liabilitas imbalan kerja.

***4. SIGNIFICANT ACCOUNTING JUDGMENT, ESTIMATES AND ASSUMPTIONS - Continued***

*c. Impairment of Non-Financial Assets, except Goodwill*

*At the end of each reporting period, the Entity and Subsidiary review the carrying amount of non-financial assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Entity and Subsidiary estimate the recoverable amount of the cash generating unit to which the asset belongs.*

*Estimated recoverable amount is the higher of fair value less cost to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.*

*If the recoverable amount of the non-financial asset (cash generating unit) is less than its carrying amount, the carrying amount of the asset (cash generating unit) is reduced to its recoverable amount and an impairment loss is recognized immediately against earnings.*

*d. Income Tax*

*The operations of the Entity and Subsidiary are under the Indonesian tax regulations. Significant judgement is required in determining the provision for income taxes and value added taxes. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will recorded at profit and loss account in the period in which such determination is made.*

*e. Employee Benefits*

*The present value of the employee benefits obligation depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost for pensions include the expected long-term rate of return on the relevant plan assets and the discount rate. Any changes in these assumptions will impact the carrying amount of employee benefits obligation.*

**4. PERTIMBANGAN, ESTIMASI DAN ASUMSI AKUNTANSI YANG SIGNIFIKAN - Lanjutan**

e. Imbalan Kerja – Lanjutan

Asumsi tingkat pengembalian yang diharapkan atas aset program ditentukan secara seragam, dengan mempertimbangkan pengembalian historis jangka panjang, alokasi aset dan perkiraan masa depan atas pengembalian investasi jangka panjang.

Asumsi penting lainnya untuk liabilitas imbalan kerja sebagian didasarkan pada kondisi pasar saat ini.

Nilai tercatat liabilitas diestimasi imbalan kerja diungkapkan dalam Catatan 23.

f. Pengukuran Nilai Wajar

Sejumlah aset dan kewajiban yang termasuk ke dalam laporan keuangan Entitas dan Entitas Anak memerlukan pengukuran, dan/atau pengungkapan atas nilai wajar.

Pengukuran nilai wajar aset dan kewajiban keuangan dan non-keuangan Entitas dan Entitas Anak memanfaatkan pasar input dan data yang dapat diobservasi sedapat mungkin. Input yang digunakan dalam menentukan pengukuran nilai wajar dikategorikan ke dalam level yang berbeda berdasarkan pada bagaimana input dapat diobservasi yang digunakan dalam teknik penilaian yang digunakan (hirarki nilai wajar):

- Level 1: Harga kuotasi di pasar aktif untuk item yang serupa (tidak disesuaikan).
- Level 2: Teknik penilaian untuk input yang dapat diamati langsung atau tidak langsung selain input level 1.
- Level 3: Teknik penilaian untuk input yang tidak dapat diobservasi (yaitu tidak berasal dari data pasar).

Klasifikasi item menjadi level di atas didasarkan pada tingkat terendah dari input yang digunakan yang memiliki efek signifikan pada pengukuran nilai wajar item tersebut. Transfer item antar level diakui pada periode saat terjadinya.

**Menentukan Penilaian Model Bisnis**

Klasifikasi dan pengukuran aset keuangan bergantung pada hasil pengujian semata pembayaran pokok dan bunga (SPPI) atas jumlah pokok terutang dan model bisnis. Entitas dan Entitas Anak menentukan model bisnis pada tingkat yang mencerminkan bagaimana kelompok aset keuangan dikelola bersama untuk mencapai tujuan bisnis tertentu. Penilaian ini mencakup penilaian yang mencerminkan semua bukti yang relevan termasuk bagaimana kinerja aset dievaluasi dan kinerjanya diukur, risiko yang memengaruhi kinerja aset dan bagaimana pengelolaannya.

*e. Employee Benefits – Continued*

*The expected return on plan assets assumption is determined on a uniform basis, taking into consideration long-term historical returns,asset allocation and future estimates of long-term investment returns.*

*Other key assumptions for employee benefits obligation are based in part on current market conditions.*

*The carrying amount of estimated liabilities for employee benefits is disclosed in Note 23.*

*f. Fair Value Measurement*

*A number of assets and liabilities included in the Entity and Subsidiary financial statements require measurement at, and/or disclosure of fair value.*

*The fair value measurement of the Entity's and Subsidiary financial and non-financial assets and liabilities utilize market observable inputs and data as far as possible. Inputs used in determining fair value measurements are categorized into different levels based on how observable the inputs used in the valuation technique utilized are (the fair value hierarchy):*

- *Level 1: Quoted prices in active markets for identical items (unadjusted).*
- *Level 2: Valuation techniques for observable direct or indirect inputs other than level 1 inputs.*
- *Level 3: Valuation techniques for unobservable inputs (i.e. not derived from market data).*

*The classification of an item into the above levels is based on the lowest level of the inputs used that has a significant effect on the fair value measurement of the item. Transfers of items between levels are recognized in the period they occur.*

***Determining Business Model Assessment***

*Classification and measurement of financial assets depends on the results of the solely payment of principal and interest (SPPI) on the principal amount outstanding and the business model test. Entity and Subsidiary determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgment reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed.*

## 4. PERTIMBANGAN, ESTIMASI DAN ASUMSI AKUNTANSI YANG SIGNIFIKAN - Lanjutan

**Menentukan Penilaian Model Bisnis – Lanjutan**

Entitas dan Entitas Anak memantau aset keuangan yang diukur pada biaya perolehan diamortisasi atau nilai wajar melalui pendapatan komprehensif lain yang dihentikan pengakuannya sebelum jatuh tempo untuk memahami alasan pelepasannya dan apakah alasan tersebut konsisten dengan tujuan bisnis di mana aset tersebut dimiliki. Pemantauan adalah bagian dari penilaian berkelanjutan Entitas dan Entitas Anak tentang apakah model bisnis yang memiliki aset keuangan yang tersisa masih sesuai dan jika tidak sesuai apakah telah terjadi perubahan model bisnis dan oleh karena itu terdapat perubahan prospektif terhadap klasifikasi aset keuangan tersebut.

**Menentukan Peningkatan Risiko Kredit yang Signifikan**

Kerugian kredit ekspektasian (*ECL*) diukur sebagai penyisihan yang setara dengan *ECL* 12-bulan (*12mECL*) untuk aset tahap 1, atau *ECL* sepanjang umur untuk aset tahap 2 atau tahap 3. Suatu aset bergerak ke tahap 2 ketika risiko kreditnya telah meningkat secara signifikan sejak pengakuan awal. Dalam menilai apakah risiko kredit suatu aset telah meningkat secara signifikan, Entitas dan Entitas Anak mempertimbangkan informasi berwawasan ke depan yang wajar dan dapat didukung secara kualitatif dan kuantitatif.

**Menentukan dan Menghitung Penyisihan Kerugian**

Ketika mengukur kerugian kredit ekspektasian (*ECL*), Entitas dan Entitas Anak menggunakan informasi berwawasan ke depan yang wajar dan dapat didukung, yang didasarkan pada asumsi untuk pergerakan masa depan dari berbagai pendorong ekonomi dan bagaimana pendorong ini akan saling memengaruhi.

*Loss given default* adalah estimasi kerugian yang timbul karena gagal bayar *(default)*. Hal ini didasarkan pada perbedaan antara arus kas kontraktual yang jatuh tempo dan yang diharapkan akan diterima pemberi pinjaman, dengan mempertimbangkan arus kas dari agunan dan peningkatan kredit integral.

Probabilitas *default* merupakan input utama dalam mengukur *ECL*. Probabilitas gagal bayar *(default)* adalah estimasi kemungkinan gagal bayar *(default)* selama jangka waktu tertentu, yang penghitungannya mencakup data historis, asumsi, dan ekspektasi kondisi masa depan.

## *4. SIGNIFICANT ACCOUNTING JUDGMENT, ESTIMATES AND ASSUMPTIONS - Continued*

***Determining Business Model Assessment – Continued***

*Entity and Subsidiary monitors financial assets measured at amortized cost or fair value through other comprehensive income that are derecognized prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Entity's and Subsidiary continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.*

***Determining Significant Increase in Credit Risk***

*Expected credit losses (ECL) are measured as an allowance equal to 12-month ECL (12mECL) for stage 1 assets, or lifetime ECL for stage 2 or stage 3 assets. An asset moves to stage 2 when its credit risk has increased significantly since initial recognition. In assessing whether the credit risk of an asset has significantly increased the Entity's and Subsidiary into account qualitative and quantitative reasonable and supportable forward-looking information.*

***Determining and Calculation of Loss Allowance***

*When measuring expected credit losses (ECL), Entity's and Subsidiary uses reasonable and supportable forward-looking information, which is based on assumptions for the future movement of different economic drivers and how these drivers will affect each other.*

*Loss given default is an estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, taking into account cash flows from collateral and integral credit enhancements.*

*Probability of default constitutes a key input in measuring ECL. Probability of default is an estimate of the likelihood of default over a given time horizon, the calculation of which includes historical data, assumptions and expectations of future conditions.*

**Menentukan Apakah Suatu Pengaturan adalah atau Mengandung Sewa**

Penentuan apakah suatu pengaturan merupakan atau mengandung sewa memerlukan pertimbangan yang cermat untuk menilai apakah pengaturan tersebut memberikan hak untuk memperoleh secara substansial semua manfaat ekonomik dari penggunaan aset selama periode penggunaan dan hak untuk mengarahkan penggunaan aset, bahkan jika pengaturan tersebut hak tidak secara eksplisit ditentukan dalam pengaturan.

**Penentuan Opsi Masa Sewa**

Masa sewa merupakan komponen signifikan dalam pengukuran aset hak-guna dan liabilitas sewa. Pertimbangan dilakukan dalam menentukan apakah terdapat opsi untuk memperpanjang sewa atau membeli aset pendasar cukup pasti akan dieksekusi, atau opsi untuk mengakhiri sewa tidak akan dieksekusi, ketika memastikan periode yang akan disertakan dalam masa sewa. Dalam menentukan masa sewa, semua fakta dan keadaan yang menciptakan insentif ekonomik untuk menggunakan opsi perpanjangan, atau tidak untuk menggunakan opsi penghentian, dipertimbangkan pada tanggal insepsi sewa.

Faktor-faktor yang dipertimbangkan dapat mencakup pentingnya aset untuk operasi Entitas dan Entitas Anak; perbandingan syarat dan ketentuan dengan harga pasar yang berlaku; timbulnya penalti yang signifikan; adanya perbaikan hak penyewaan yang signifikan; dan biaya serta masalah gangguan untuk mengganti aset. Entitas dan Entitas Anak menilai kembali apakah cukup pasti untuk mengeksekusi opsi perpanjangan, atau tidak mengeksekusi opsi penghentian, jika terdapat peristiwa signifikan atau perubahan keadaan yang signifikan.

**Menentukan Suku Bunga Pinjaman Inkremental**

Jika suku bunga implisit dalam sewa tidak dapat segera ditentukan, suku bunga pinjaman inkremental diestimasi untuk mendiskontokan pembayaran sewa di masa mendatang untuk mengukur nilai kini liabilitas sewa pada tanggal permulaaan sewa. Suku bunga tersebut didasarkan pada estimasi Entitas dan Entitas Anak yang harus dibayarkan oleh Entitas dan Entitas Anak kepada pihak ketiga untuk meminjam dana yang diperlukan untuk memperoleh aset dengan nilai yang sama dengan aset hak-guna, dengan persyaratan, keamanan, dan lingkungan ekonomi yang serupa.

***Determining Whether an Arrangement is or Contains a Lease***

*Determining whether an arrangement is or contains a lease requires careful judgement to assess whether the arrangement conveys a right to obtain substantially all the economic benefits from use of the asset throughout the period of use and right to direct the use of the asset, even if the right is not explicitly specified in the arrangement.*

***Determination Lease Term Option***

*The lease term is a significant component in the measurement of both the right-of-use asset and lease liability. Judgment is exercised in determining whether there is reasonable certainty that an option to extend the lease or purchase the underlying asset will be exercised, or an option to terminate the lease will not be exercised, when ascertaining the periods to be included in the lease term. In determining the lease term, all facts and circumstances that create an economical incentive to exercise an extension option, or not to exercise a termination option, are considered at the lease inception date.*

*Factors considered may include the importance of the asset to the Entity and Subsidiary operations; comparison of terms and conditions to prevailing market rates; incurrence of significant penalties; existence of significant leasehold improvements; and the costs and disruption to replace the asset. the Entity and Subsidiary reassesses whether it is reasonably certain to exercise an extension option, or not exercise a termination option, if there is a significant event or significant change in circumstances.*

***Determining Incremental Borrowing Rate***

*Where the interest rate implicit in a lease cannot be readily determined, an incremental borrowing rate is estimated to discount future lease payments to measure the present value of the lease liability at the lease commencement date. Such a rate is based on what the Entity's and Subsidiary estimates it would have to pay a third party to borrow the funds necessary to obtain an asset of a similar value to the right-of-use asset, with similar terms, security and economic environment.*

Piutang usaha merupakan tagihan kepada pelanggan atas kegiatan utama Entitas menjual produk hasil produksinya, tidak terdapat pengakuan pada piutang usaha diluar kegiatan utama Entitas. / *Trade receivables represent receivables from customers for the Entity's main activity selling its products, there is no recognition of trade receivables outside the Entity's main activity.*

Berdasarkan hasil penelaahan atas kolektabilitas piutang masing-masing pelanggan pada akhir periode laporan, manajemen Entitas berpendapat bahwa cadangan kerugian penurunan nilai tersebut cukup untuk menutup kemungkinan kerugian dari tidak tertagihnya piutang usaha. / *Based on the review of the collectibility of individual receivables at the end of statement, the management of the Entity and Subsidiary believe that the allowance for impairment loss is adequate to cover possible losses on uncollectible accounts.*

Pemulihan atas kerugian kredit ekspektasian disebabkan oleh dapat tertagihnya piutang usaha yang pada tahun 2022-2021 telah dihitung kemungkinan akan mengalami kerugian kredit ekspektasian. / *Recovery of expected credit losses was due to the collectibility of trade receivables which in 2022-2021 have been calculated to be likely to experience expected credit losses.*

Tidak terdapat pengaruh yang signifikan terhadap operasional Entitas karena pihak terkait sudah melakukan pembayaran di bulan berikutnya meskipun beberapa masih terdapat *outstanding.* / *There is no significant impact on the Entity operations because the related parties have made payments in the following month, although some are still outstanding.*

Pemulihan berasal dari semua pihak dari daftar umur piutang usaha. / *Recovery comes from all parties of the accounts receivable aging list.*

Berdasarkan penelaahan terhadap kondisi fisik dan tingkat perputaran persediaan pada akhir periode laporan, manajemen Entitas dan Entitas Anak menilai bahwa telah terjadi pengakuan beban atas persediaan karena *reject* bukan karena usang dan telah dibebankan pada laporan laba rugi untuk tahun yang berakhir 31 Desember 2023, 2022 dan 2021 sebesar Rp 15.114, Rp 17.285 dan Rp 18.919 (lihat Catatan 33).

*Based on a review of the physical condition and turnover of the inventories at the end of the reporting period, the management of the Entity and Subsidiaries assesses that there has been recognition of expenses for reject and have been charged to the income statement for the years ended December 31, 2023, 2022 and 2021 amounting to Rp 15,114, Rp 17,285 and Rp 18,919 (see Note 33).*

Manajemen berkeyakinan bahwa tidak ada persediaan usang selain biaya yang telah dibebankan pada laba rugi. Persediaan tidak dicadangkan penurunan nilainya, karena sifat persediaan baja tersebut tidak lekang oleh waktu atas keusangan persediaannya.

*Management believes that these are no other obsolete inventories aside from those charged to profit or loss. Inventories are not provided for for impairment, due to the timeless nature of steel inventories due to inventory obsolescence.*

Persediaan dan aset tetap, kecuali tanah, diasuransikan secara bersama terhadap risiko kebakaran, pencurian dan risiko lainnya dengan jumlah pertanggungan sebesar Rp 1.669.454, USD 31.720, EUR 1.490, JPY 83.237 pada tanggal 31 Desember 2023, Rp 1.296.644, USD 31.064, EUR 1.490, JPY 83.237 pada tanggal 31 Desember 2022 dan Rp 1.556.485, USD 21.214, EUR 128, JPY 27.746 pada tanggal 31 Desember 2021. Manajemen berpendapat bahwa jumlah pertanggungan asuransi tersebut adalah cukup untuk menutup kerugian dari risiko atas aset dan persediaan yang dipertanggungkan. Persediaan telah diasuransikan pada perusahaan asuransi PT Asuransi Tugu Pratama Indonesia, PT BCA Insurance, dan PT Lippo Insurance.

*Inventories and property, plant and equipment, except land, together were insured against fire, theft and other possible risks with the amounts insured amounting to Rp 1,669,454, USD 31,720, EUR 1,490, JPY 83,237 as of December 31, 2023, Rp 1,296,644, USD 31,064, EUR 1,490, JPY 83,237 as of December 31, 2022 and Rp 1,556,485, USD 21,214, EUR 128, JPY 27,746 as of December 31, 2021. Uang muka pembelian tanah merupakan pembelian tanah yang berlokasi di Gresik, Jawa Timur. Pada 31 Desember 2023, tanah tersebut masih dalam proses pembebasan lahan dan pengurusan dari akta jual beli ke sertifikat tanah.

*Advance for land acquisition represents land located at Gresik, East Java. As of December 31, 2023, the land is still in the process of land acquisition and processing from a sale and purchase deed to a land certificate.*

Uang muka pembelian tanah yang dibayarkan bersifat mengikat harga beli tanah tersebut sehingga ketika direalisasi uang muka tersebut nilainya adalah tetap dan tidak terdapat penurunan nilai.

*Advances for land purchases paid are binding on the purchase price of the land so that when the advances are realized, the value is fixed and there is no impairment.*

Tidak terdapat kendala yang signifikan dalam proses pembebasan lahan selain mengenai kesepakatan harga dan ketersediaan lahan. Entitas masih menunggu proses sertifikasi tanah. Namun pembelian tanah menuju proses sertifikasi memerlukan banyak tahapan prosedur mulai dari girik, hingga sertifikasi hak guna bangunan sehingga tidak dapat diprediksi kapan selesainya sertifikat tersebut.

*There were no significant obstacles in the land acquisition process apart from price agreements and land availability. The entity is still waiting for the land certification process. However, land purchases leading to the certification process require many stages of the procedure, starting from girik, to building use rights certification, so it cannot be predicted when the certificate will be completed.*

Uang muka Pembelian Mesin sampai saat ini belum dapat direalisasi karena belum selesainya tempat penyimpanan mesin dilokasi proyek Gresik yang masih dalam proses pembangunan. Namun atas uang muka tersebut tidak terdapat indikasi penurunan nilai karena uang muka yang telah dibayarkan sebesar USD 6.825.000 (dalam nilai penuh) atau setara Rp 84.915.689.600 (dalam nilai penuh) adalah berupa uang tunai yang akan tetap bernilai sama baik dari sisi Manajemen maupun Vendor. Sehingga uang muka tersebut tidak termasuk dalam ruang lingkup penurunan nilai aset sebagaimana diatur dalam PSAK 48.

*Advances for Machine Purchase have not yet been realized due to the unfinished machine storage area at the Gresik project location which is still under construction. However, there was no indication of a decrease in value because the advance paid was USD 6,825,000 (full amount) or equivalent Rp. 84,915,689,600 (full amount) is in the form of cash which will remain the same value in terms of both Management and Vendors. Therefore, the advance is not included in the scope of asset impairment as stipulated in PSAK 48.*
