Sinergi untuk Masa Depan: Inovasi, Pertumbuhan, Kepercayaan

Synergy for the Future: Innovation, Growth, and Trust

Laporan Tahunan
Annual Report **2025**

bank **bjb** menegaskan komitmen untuk membangun masa depan yang kokoh melalui akselerasi inovasi digital dan kolaborasi ekosistem. Inovasi terus menjadi pendorong utama dalam perjalanan transformasi bank **bjb**, terutama melalui digitalisasi layanan. bank **bjb** juga mencatatkan kemajuan dalam adopsi digital melalui platform DIGI bank **bjb**. Digitalisasi yang dijalankan bank **bjb** bukan hanya fokus pada kecepatan layanan, tetapi juga mengedepankan kenyamanan, kemudahan, dan personalisasi sesuai kebutuhan nasabah. Langkah ini selaras dengan strategi perusahaan dalam memperkuat loyalitas nasabah dan memperluas basis pengguna secara berkelanjutan.

Di tengah tantangan ekonomi makro dan ketatnya likuiditas industri perbankan, bank **bjb** terus mengelola aset secara optimal dan hati-hati (*prudent*). Untuk menjaga pertumbuhan, bank **bjb** memperkuat fokus pada segmen konsumer ritel sebagai pilar utama bisnis, serta mengembangkan layanan pada sektor-sektor potensial lainnya. Langkah ini dilakukan tidak hanya di wilayah Jawa Barat dan Banten, tetapi juga melalui sinergi Kelompok Usaha Bank (KUB) bersama bank **bjb** syariah, Bank Jambi, dan Bank Bengkulu. Sinergi KUB juga menjadi katalis penting dalam penguatan kinerja konsolidasi yang berhasil memberikan nilai tambah strategis dalam membentuk portofolio keuangan yang lebih inklusif dan diversifikasi. Di saat yang sama, bank **bjb** terus mempercepat transformasi digital guna meningkatkan kemudahan layanan kepada nasabah, serta mendorong efisiensi proses operasional secara menyeluruh.

bank **bjb** senantiasa menjunjung tinggi prinsip *Good Corporate Governance* (GCG) sebagai landasan utama dalam setiap proses bisnis. Komitmen ini bertujuan untuk memastikan keberlanjutan usaha, menjaga kepercayaan publik, serta mendukung pencapaian kinerja yang sehat dan berkelanjutan.

bank **bjb** reaffirms its commitment to building a resilient future through the acceleration of digital innovation and ecosystem collaboration. Innovation continues to serve as a key driver in bank **bjb** 's transformation journey, particularly through the digitalization of services. bank **bjb** has also recorded progress in digital adoption through the DIGI bank **bjb** platform. The digitalization initiatives implemented by bank **bjb** are not solely focused on service speed, but also emphasize convenience, ease of use, and personalization in accordance with customer needs. This approach is aligned with the Bank's strategy to strengthen customer loyalty and sustainably expand its user base.

Amid macroeconomic challenges and tightening liquidity in the banking industry, bank **bjb** continues to manage its assets optimally and prudently. To sustain growth, bank **bjb** strengthens its focus on the consumer retail segment as a core business pillar, while also developing services in other potential sectors. These efforts are carried out not only in the West Java and Banten regions, but also through synergy within the Bank Business Group (KUB) together with bank **bjb** syariah, Bank Jambi, and Bank Bengkulu. The KUB synergy also serves as a key catalyst in strengthening consolidated performance, delivering strategic value in building a more inclusive and diversified financial portfolio. At the same time, bank **bjb** continues to accelerate digital transformation to enhance service accessibility for customers and drive overall operational efficiency.

bank **bjb** consistently upholds the principles of Good Corporate Governance (GCG) as a fundamental basis in all business processes. This commitment aims to ensure business sustainability, maintain public trust, and support the achievement of sound and sustainable performance.

Penguatan Sinergi untuk Pertumbuhan Bisnis yang Solid

Dalam menghadapi tantangan perekonomian, PT Bank Pembangunan Daerah Jawa Barat dan Banten Tbk (selanjutnya disebut bank **bjb** atau Perseroan) telah mempersiapkan berbagai strategi untuk menjaga momentum pertumbuhan, meningkatkan efisiensi, dan menggali potensi pendapatan baru. Untuk itu, bank **bjb** melaksanakan penguatan sinergi dengan berbagai langkah strategi salah satunya dengan pembentukan Kelompok Usaha Bank (KUB). Pada tahun 2024, bank **bjb** menjadi BPD pertama di Indonesia yang telah menyelesaikan seluruh rangkaian proses KUB dan menjadi *benchmark* bagi proses KUB seluruh BPD khususnya BPD yang akan bergabung bersama bank **bjb.** Saat ini, bank **bjb** menjadi BPD satu-satu nya di Indonesia yang memiliki pengalaman ber-KUB sekaligus memiliki perangkat tata kelola nya di dalam organisasi bank. Sinergi ini merupakan hal penting yang dilaksanakan bank **bjb** terutama dalam melakukan inovasi dan transformasi agar bisa bersaing di industri perbankan. bank **bjb** terus berfokus pada penguatan sinergi grup untuk terus meningkatkan kinerja. Peningkatan kinerja tidak terlepas dari inovasi layanan perbankan, diversifikasi bisnis, serta pengelolaan risiko yang matang sehingga hal ini dapat memperluas cakupan bisnis dan memperkuat citra Perseroan.

2023

Tumbuh Berkelanjutan, Memberikan Inovasi Terbaik

Dalam menghadapi perubahan industri perbankan, PT Bank Pembangunan Daerah Jawa Barat dan Banten Tbk. (selanjutnya disebut bank **bjb** atau Perseroan) tetap berkomitmen untuk terus berkontribusi nyata terhadap perekonomian Indonesia. Untuk menjaga pertumbuhan kinerja, bank **bjb** memberikan berbagai inovasi-inovasi terbaik guna meningkatkan pertumbuhan kegiatan operasional dan keuangan antara lain melalui pemanfaatan ekosistem perbankan digital. Pada tahun 2023, bank **bjb** meningkatkan layanan melalui pengembangan digitalisasi proses kredit dengan penguatan mitigasi risiko. Perseroan juga menciptakan *digital ecosystem* bisnis dengan fokus menggarap sektor ekonomi unggulan pada masing-masing daerah guna mendorong pemberdayaan ekonomi daerah dan menciptakan pelaku-pelaku sektor ekonomi kerakyatan. Melalui berbagai inovasi tersebut, pada tahun 2023 bank **bjb** berhasil meningkatkan pendapatan bunga dan syariah menjadi sebesar Rp14,25 triliun serta pertumbuhan aset yang menjadi sebesar Rp188,30 triliun. bank **bjb** akan terus meningkatkan eksistensinya sebagai salah satu perbankan nasional yang mampu memberikan layanan keuangan secara menyeluruh sehingga dapat memberikan nilai tambah bagi seluruh *stakeholder*.

2022
Laporan Tahunan
Annual Report

Transformasi Tiada Henti untuk Mempersembahkan Kinerja Terbaik

Transformasi yang terus dilakukan pada PT Bank Pembangunan Daerah Jawa Barat dan Banten, Tbk. (selanjutnya disebut bank **bjb** atau Perseroan) khususnya melalui strategi ekspansi kredit, peningkatan dana pihak ketiga serta transformasi layanan *digital*, telah membuahkan hasil yang sangat baik di tahun 2022. Strategi ekspansi kredit difokuskan pada Kredit Konsumer, Kredit Ritel dan KPR. Peningkatan dana pihak ketiga menekankan pada peningkatan *market share* dan *positioning* bank **bjb** melalui pengembangan dan peningkatan kualitas produk dan layanan yang berbasis *customer centric* dan *digital*. Transformasi layanan *digital* diwujudkan dengan secara proaktif menerapkan teknologi terkini guna mendukung pengembangan produk dan layanan *one stop solution*. Hasil dari transformasi yang tiada henti terlihat dari pertumbuhan laba tahun 2022 yaitu sebesar 11,23% serta pertumbuhan aset pada tahun 2022 sebesar 14,45%. Ke depannya, bank **bjb** terus berkomitmen untuk memberikan kontribusi yang terbaik untuk mendorong pertumbuhan perekonomian dan pembangunan untuk mewujudkan masyarakat yang sejahtera.

2021
Laporan Tahunan
Annual Report

Pertumbuhan Melalui Akselerasi Digital, Memberi Makna untuk Indonesia

Sesuai dengan visi PT Bank Pembangunan Daerah Jawa Barat dan Banten, Tbk. (bank bjb) yaitu "Menjadi Bank Pilihan Utama Anda," Perseroan telah melakukan transformasi layanan digital khususnya pada tahun 2021. Inisiatif dan roadmap implementasi dirancang berdasarkan beberapa penggerak utama untuk memastikan keselarasan dengan tujuan bisnis. Selama tahun 2021, Perseroan telah melakukan beberapa pengembangan baik dari sisi core banking, switching maupun networking. bank **bjb** telah melakukan langkah-langkah strategis di antaranya adalah melakukan akselerasi pengembangan aplikasi dan perbaikan (improvement) fitur-fitur e-channel, sebagai enabler peningkat bisnis transactional banking dan pengelolaan sistem IT yang lebih fokus, terarah dan terintegrasi untuk mendukung pengembangan seluruh segmen bisnis secara keseluruhan, agar dapat mengakselerasi business process, meningkatkan kehandalan electronic channels serta memberikan solusi layanan IT yang lebih mendekatkan bisnis dengan nasabah.

Tentang Laporan Tahunan
About Annual Report

Laporan Tahunan ini merupakan laporan terintegrasi yang berisi profil perusahaan, laporan Direksi dan Dewan Komisaris, analisis dan pembahasan manajemen yang meliputi pencapaian kinerja Perusahaan, dibandingkan dengan kinerja tahun-tahun sebelumnya, proyeksi kinerja serta prospek perusahaan. Dalam Laporan Tahunan ini juga dilaporkan tentang penerapan tata kelola perusahaan yang meliputi struktur dan proses tata kelola. Dengan demikian Laporan Tahunan ini menempatkan kinerja historis ke dalam konteks dan menggambarkan risiko, peluang, dan prospek korporasi di masa depan, sehingga diharapkan dapat membantu pemegang saham dan pemangku kepentingan memahami tujuan strategis korporasi dan kemajuannya dalam menciptakan nilai yang berkelanjutan.

This Annual Report is an integrated report containing the company profile, reports from the Board of Directors and Board of Commissioners, management analysis and discussion covering the Company's performance achievements, compared to previous years' performance, performance projections and company prospects. This Annual Report also reports on the implementation of corporate governance covering the governance structure and process. Thus, this Annual Report places historical performance into context and describes the risks, opportunities and prospects of the corporation in the future, so that it is expected to help shareholders and stakeholders understand the corporation's strategic objectives and its progress in creating sustainable value.

Synergy Consolidation for Solid Business Growth

Dealing with economic challenges, PT Bank Pembangunan Daerah Jawa Barat dan Banten Tbk (hereinafter referred to as bank **bjb** or the Company) has prepared various strategies to maintain growth momentum, increase efficiency, and explore new revenue potential. In doing so, bank **bjb** performs synergy consolidation with numerous strategic steps. One of them is the establishment of a Bank Business Group (KUB). In 2024, bank **bjb** became the first BPD in Indonesia that had completed the entire series of KUB processes and was a benchmark for the KUB process of BPDs, particularly BPDs that joined bank **bjb**. Currently, bank **bjb** is the only BPD in Indonesia that has KUB experience and also has its governance tools within the bank organization. The synergy is a significant point that bank **bjb** has implemented, mainly in performing innovation and transformation to compete in the banking industry. bank **bjb** continuously focuses on group synergy consolidation to improve its performance. Performance improvements is an integral part of banking service innovation, business diversification, and mature risk management so that it can expand business coverage and affirm the Company's image.

Sustainable Growth for the Greatest Innovation

In facing the banking industry changes, PT Bank Pembangunan Daerah Jawa Barat and Banten Tbk. (hereafter referred to as bank **bjb** or the Company) commits to continue making a real contribution to the Indonesian economy. To maintain performance growth, bank **bjb** provides the best innovations to increase the growth of operational and financial activities, among others, by utilizing the digital banking ecosystem. In 2023, bank **bjb** will improve services by developing credit process digitatlization by strengthening risk mitigation. The Company also creates a business digital ecosystem to focus on leading economic sectors in each region to encourage regional economic empowerment and create actors in the people's economic sector. Through various innovations, in 2023 bank **bjb** succeeded in increasing interest and sharia income to IDR14.25 trillion and asset growth to IDR188,30 trillion. bank **bjb** will continue to increase its existence as one of the national banks that can provide comprehensive financial services so that it can provide additional value for all stakeholders.

Continuously Transforming for the Best Performance

The ongoing transformation at PT Bank Pembangunan Daerah Jawa Barat dan Banten, Tbk. (hereinafter referred to as bank **bjb** or the Company), especially through loan expansion strategies, increasing third parties funds and transforming digital services, performed excellent results in 2022. The loan expansion strategy was focused on Consumer Loans, Retail Loans and house ownership loan. Increasing third parties funds emphasized increasing bank **bjb** market share and positioning through the development and improvement of the quality of products and services based on customer centric and digital. Digital service transformation was realized by proactively applying the latest technology to support the development of one stop solution products and services. The results of the non-stop transformation could be seen from the 2022 profit growth of 11.23% and asset growth in 2022 of 14.45%. Going forward, bank **bjb** continued to be committed to providing the best contribution to encourage economic growth and development to create a prosperous society.

Growth through Digital Acceleration, Giving Meaning for Indonesia

In accordance with the vision of PT Bank Pembangunan Daerah Jawa Barat dan Banten, Tbk. (bank **bjb**) namely "Become Your Preferred Bank," the Company transformed its digital services, especially in 2021. The implementation initiatives and roadmap were designed based on several key drivers to ensure alignment with business goals. During 2021, the Company carried out several developments in terms of core banking, switching and networking. bank **bjb** took strategic steps including accelerating application development and improving e-channel features, as an enabler to increase transactional banking business and managing IT systems that were more focused and integrated to support the development of all business segments in a holistic manner in order to accelerate business process, improve the reliability of electronic channels and provide IT service solutions bringing business closer to customers.

PERTUMBUHAN STRATEGIS MELALUI SINERGI KUB bank bjb

Pertumbuhan Strategis Melalui Sinergi KUB bank bjb

Sebagai bank pembangunan daerah yang adaptif terhadap dinamika industri, bank **bjb** menunjukkan kontribusi strategis dalam implementasi Kelompok Usaha Bank (KUB) sebagai bagian dari penguatan struktur perbankan nasional. bank **bjb** berperan aktif dalam memperkuat struktur permodalan bank anggota KUB melalui skema penyertaan modal dan dukungan strategis lainnya. Langkah ini memberikan dampak langsung terhadap peningkatan kapasitas ekspansi pembiayaan, perbaikan rasio keuangan, serta peningkatan kepercayaan pemangku kepentingan.

Melalui KUB, bank **bjb** mendorong sinergi produk dan jaringan distribusi antar bank. Sinergi ini, diharapkan dapat memperluas akses pembiayaan UMKM dan sektor produktif, pengembangan layanan digital bersama serta optimalisasi jaringan kantor.

As a regional development bank that remains adaptive to industry dynamics, bank **bjb** has demonstrated a strategic contribution to the implementation of the Bank Business Group (KUB) as part of efforts to strengthen the national banking structure. bank **bjb** plays an active role in reinforcing the capital structure of KUB member banks through capital participation schemes and other strategic support. These initiatives have had a direct impact on enhancing financing expansion capacity, improving financial ratios, and strengthening stakeholder confidence.

Through KUB, bank **bjb** promotes product and distribution network synergies among member banks. This synergy is expected to expand access to financing for MSMEs and productive sectors, support the development of shared digital services, and optimize branch network utilization.

SUMBER DAYA MANUSIA UNGGUL
Excellent Human Capitals

Perseroan berkomitmen mengelola sumber daya manusia secara efektif dan berkelanjutan melalui perencanaan kebutuhan tenaga kerja, rekrutmen, pengembangan karir, manajemen talenta, dan pengelolaan remunerasi. Langkah ini bertujuan menciptakan SDM yang unggul, kompeten, adaptif, dan mampu mendukung visi serta misi perusahaan. Upaya ini juga fokus pada peningkatan kapabilitas, keterlibatan, dan produktivitas pegawai untuk mendorong pertumbuhan bisnis yang berkelanjutan.

Sebagai wujud dari upaya strategis tersebut, bank **bjb** telah merumuskan *Human Capital Strategic Plan* (HCSP) 2021-2025 yang berlandaskan pada tiga pilar utama, yaitu:

The Company commits to manage human resources effectively and sustainably through workforce needs planning, recruitment, career development, talent management, and remuneration management. This step aims to create superior, competent, adaptive human resources that can support the Company's vision and mission. In addition, this attempt also highlights on improving employee capabilities, engagement, and productivity to drive sustainable business growth.

As a manifestation of this strategic effort, bank **bjb** has formulated the 2021-2025 Human Capital Strategic Plan (HCSP), which is based on three key pillars, as follows

Base Pillars (2021 - 2022)

Meliputi penerapan strategi dalam Impressive Hiring, Proven Performance, pengembangan kompetensi pegawai yang andal (*Competent People*), serta membangun pengalaman kerja yang inspiratif (*Inspiring Experience*).

It includes the implementation of strategies in Impressive Hiring, Proven Performance, development of competent people, and building inspiring experience.

Upright Pillars (2022 - 2023)

Fokus pada pengelolaan talenta (Talent Focus), penguatan perjalanan karir pegawai (*Career Journey*), pemberian penghargaan yang mendorong kinerja (*Encouraging Reward*), serta transformasi data kepegawaian berbasis digital (HC *Data Driven*).

It focuses on talent focus, strengthening career journey, providing encouraging reward, and HC data driven).

Study Pillars (2023 - 2025)

Berorientasi pada Wellness Steadiness (keseimbangan kesejahteraan), Automasi Fondasi Human Capital (*Automation of HC Foundation*), serta penerapan tata kelola yang kokoh (*Solid Governance*).

It orients towards wellness steadiness, automation of human capital foundation, and implementation of solid governance.

KARTU ATM ISTIMEWA
Special ATM Card

Kartu Anjungan Tunai Mandiri (ATM) bank **bjb** dapat digunakan di ribuan mesin ATM yang berlogo ATM Bersama PRIMA dan Link yang tersebar di seluruh Indonesia. Dapat digunakan sebagai fasilitas belanja pada kurang lebih puluhan ribu *Electronic Data Capture* (EDC) yang telah terstandarisasi Gerbang Pembayaran Nasional (GPN) juga telah terkoneksi dengan *Malaysian Exchange Payment System* (MEPS) sehingga nasabah dapat melakukan transaksi di Malaysia, melalui NETS dan *InterBank Transaction Management Exchange* (ITMX) untuk Singapura dan Thailand serta Korean *Financial Tellecommunications & Clirings* (KFTC) untuk Korea Selatan. Dapat digunakan juga oleh nasabah untuk bertransaksi di Jaringan Visa di seluruh dunia, pada mesin ATM maupun pada *merchant* yang menggunakan mesin EDC berlogo Visa yang tersebar di seluruh dunia.

Bank **bjb** Automated Teller Machine (ATM) cards can be used at thousands of ATM machines with the ATM Bersama PRIMA and Link logos spread throughout Indonesia. Can be used as a shopping facility for approximately tens of thousands of Electronic Data Capture (EDC) which has been standardized by the National Payment Gateway (GPN) and has also been connected to the Malaysian Exchange Payment System (MEPS) so that customers can make transactions in Malaysia, through NETS and Inter-Bank Transactions Management Exchange (ITMX) for Singapore and Thailand and Korean Financial Tellecommunications & Clearings (KFTC) for South Korea.

MENDUKUNG EKONOMI NASIONAL MELALUI INOVASI PRODUK

Supporting the National Economy through Product Innovation

DIGI bank bjb

Transaksi dengan DIGI bank **bjb** menjadi lebih mudah, karena fitur layanan terintegrasi melalui *system mobile*, seperti SMS Banking – DIGI SMS dan DIGI Loan untuk peminjaman membantu masyarakat dalam pengajuan produk kredit bank **bjb** melalui ponsel pribadi.

Selain itu, terdapat DigiCash bank **bjb** yang merupakan uang elektronik berbasis *server* yang memanfaatkan teknologi berbasis *mobile application* yang dapat digunakan untuk melakukan berbagai transaksi melalui *Quick Response Code Indonesia Standar* (QRIS).

Pada tahun 2024, bank **bjb** meluncurkan produk KGB Pisan yang merupakan produk kredit digital dari bank **bjb** yang ditujukan untuk Aparatur Sipil Negara (ASN). **bjb** KGB Pisan memberikan kemudahan bagi ASN untuk memenuhi kebutuhan finansialnya tanpa harus datang ke bank. Proses pengajuan, simulasi, dan pencairan kredit dapat dilakukan secara mandiri melalui aplikasi DIGI bank bjb.

Transactions with DIGI bank **bjb** have become easier, because the service features are integrated through the mobile system, such as SMS Banking - DIGI SMS and DIGI Loan for loans to help people apply for bank **bjb** credit products via personal mobile phones.

In addition, DigiCash bank **bjb**, which is a server-based electronic money, utilizes mobile application-based technology that can be used to perform various transactions through the Quick Response Code Indonesia Standard (QRIS).

In 2024, bank **bjb** launched the KGB Pisan product, a digital credit product from bank **bjb** aimed at State Civil Apparatus (ASN). **bjb** KGB Pisan eased ASN to meet their financial needs without coming to the bank. The application, simulation, and credit disbursement process could be done independently through the bank **bjb** DIGI application.

Agen Laku Pandai bjb BiSA

Nasabah Jadi Mitra Melalui layanan **bjb** BiSA, nasabah menjadi mitra bank **bjb**, yaitu sebagai agen yang dapat melayani transaksi perbankan masyarakat secara *real time online* menggunakan fitur **bjb** EDC dengan konsep *sharing fee* yang tersebar di 15 provinsi di Indonesia.

Customers Became Partners through the **bjb** BiSA service; customers became bank **bjb** partners, namely as agents who could serve real-time online community banking transactions using the **bjb** EDC feature with the sharing fee concept spread across 15 provinces in Indonesia.

bjb LAKU

Merupakan aplikasi berbasis android yang dapat memberikan kemudahan untuk para calon debitur dalam mendapatkan akses pembiayaan perbankan dari seluruh Segmen Kredit UMKM bank **bjb**. Aplikasi ini diperuntukan bagi masyarakat khususnya para pelaku UMKM yang membutuhkan fasilitas pembiayaan kredit yang dapat digunakan untuk meningkatkan kapasitas usaha dengan cepat, murah dan terjangkau. Melalui aplikasi **bjb** Laku ini, diharapkan bank **bjb** khususnya segmen Kredit UMKM dapat menjangkau masyarakat dan para pelaku UMKM secara luas dan cepat.

Is an android-based application that can provide convenience for prospective debtors in getting access to banking financing from all of bank **bjb** MSME Loan Segments. This application is intended for the community, especially MSME actors who need loan financing facilities that can be used to increase business capacity quickly, cheaply and affordably. Through the **bjb** Laku application, it is hoped that bank **bjb** especially the MSME Loan segment can reach the community and MSME actors widely and quickly.

bjb PESAT

Pemberdayaan Ekonomi Masyarakat Terpadu (PESAT) merupakan komitmen bank **bjb** untuk turut serta meningkatkan kompetensi dan kapasitas usaha mikro, kecil dan menengah (UMKM).

Integrated Economic Empowerment for Community (PESAT) is bank **bjb** commitment to participating in the improvement of the competence and capacity of micro, small and medium enterprises (MSME).

bjb DiSentra

Aplikasi **bjb** DiSentra adalah Aplikasi Pemberdayaan Digital bagi para pelaku UMKM dengan tujuan untuk meningkatkan kapasitas usahanya melalui fitur-fitur pemberdayaan secara *online*. Aplikasi **bjb** DiSentra dikembangkan oleh Divisi Kredit UMKM pada saat Indonesia terkena wabah Covid-19 yang mana ruang gerak para pelaku UMKM sangat terbatas dikarenakan adanya pembatasan sosial berskala besar. Aplikasi **bjb** DiSentra mempunyai fitur-fitur seperti Klinik Bisnis untuk berkonsultasi secara *online* dengan para ahli di bidang UMKM, fitur sentra belajar sebagai sarana pembelajaran melalui *e-book* maupun video, fitur ruang pertemuan yang dapat dipesan untuk kegiatan pelaku UMKM, dan Pasar UMKM sebagai media promosi dan pemasaran produk-produk pelaku UMKM.

The **bjb** DiSentra application is a Digital Empowerment Application for MSMEs with the aim of increasing their business capacity through online empowerment features. The **bjb** Disentra application was developed by the MSME Credit Division when Indonesia was hit by the Covid-19 outbreak, which limited the movement of MSMEs due to large-scale social restrictions. The **bjb** DiSentra application has features such as a Business Clinic for online consultation with experts in the MSME field, a learning center feature as a means of learning through e-books or videos, a meeting room feature that can be booked for MSME activities, and an MSME Market as a media for promotion and marketing of MSME products.

bjb E-Tax

Inovasi juga dilakukan dalam layanan E-Tax bank **bjb** untuk menyetorkan Pajak Bumi dan Bangunan Perdesaan dan Perkotaan (PBB-P2). Kerjasama bank **bjb** terkait Layanan Penerimaan Pajak Daerah dengan Provinsi DKI Jakarta dan 35 Kota dan Kabupaten wilayah Jawa Barat dan Banten serta 6 (enam) Kota di luar wilayah Jabar dan Banten (Provinsi Kepulauan Riau, Kota Batam, Kota Pekanbaru, Kota Binjai, Kabupaten Pesawaran dan Kota Surakarta), khususnya layanan PBB-P2 membuat Wajib Pajak di wilayah tersebut dapat melakukan pembayaran PBB-P2 secara online melalui aplikasi DIGI bank **bjb**.

Innovation is also carried out in the bank **bjb** E-Tax service for depositing Rural and Urban Land and Building Tax (PBB-P2). bank **bjb** had collaboration related to Regional Tax Receipt Services with DKI Jakarta Province and 35 Cities and Regencies in West Java and Banten regions as well as 6 (six) Cities outside the West Java and Banten regions (Riau Archipelago Province, Batam City, Pekanbaru City, Binjai City, Pesawaran Regency and Surakarta City), particularly the PBB-P2 service that allowed taxpayers in the region to make PBB-P2 payments online through the DIGI bank **bjb** application.

bjb E-Samsat

Layanan sistem administrasi manunggal satu atap (samsat) secara elektronik atau E-Samsat. E-Samsat merupakan layanan pembayaran Pajak Kendaraan Bermotor tahunan. Layanan pembayaran E-Samsat ini adalah salah satu layanan terbaik bank **bjb** bagi para nasabahnya, khususnya dalam hal pembayaran Pajak Kendaraan Bermotor tahunan kini nasabah bank **bjb** tidak perlu mengantri lama untuk melakukan pembayaran Pajak Kendaraan Bermotornya, karena pembayaran dapat dilakukan diseluruh *e-channel* bank **bjb** yang tersebar di seluruh Indonesia. bank **bjb** bekerja sama dengan Tim Pembina Samsat Provinsi Jawa Barat melalui Aplikasi Sambara (Samsat Mobile Jawa Barat), Tim Pembina Samsat Provinsi Banten melalui program Sambat (Samsat Banten Hebat dan Tim Pembina Samsat Provinsi Kepulauan Riau melalui program E-Samsat Kepri serta Tim Pembina Samsat Nasional melalui program SIGNAL (samsat digital nasional).

It was one-stop administration system (Samsat) service electronically or E-Samsat. E-Samsat was an annual Motor Vehicle Tax payment service. This e-samsat payment service became one of the best bank **bjb** services for its customers, especially in terms of annual Motor Vehicle Tax payments, now bank **bjb** customers did not have to queue long to make Motor Vehicle Tax payments, because payments could be made throughout the bank **bjb** e-channel throughout Indonesia. bank **bjb** collaborated with the West Java Province Samsat Advisory Team through the Sambara program (West Java Samsat Champion), the Banten Province Samsat Advisory Team through the Samsat program (Great Banten Samsat and the Riau Islands Province Samsat Advisory Team through the Riau Islands E-Samsat program and the National Samsat Development Team through the SIGNAL (national digital samsat) program.

bjb T-Samsat

Merupakan pengembangan dari layanan e-samsat, yaitu layanan pembayaran pajak kendaraan bermotor (PKB) dengan cara pembayaran berkala atau tahunan melalui tabungan dengan mekanisme debet otomatis pada saat jatuh tempo pembayaran pajak. Saat ini **bjb** T-Samsat hanya melayani pembayaran PKB untuk wilayah Jawa Barat, namun sedang dalam proses pengembangan agar dapat melayani pembayaran PKB di wilayah Indonesia lainnya.

It is a development of the E-Samsat service, which was a motor vehicle tax payment service (PKB) by means of periodic or annual payments through savings with an automatic debit mechanism at the due date of tax payments. Currently **bjb** T-Samsat only served PKB payments for the West Java region, but was in the process of being developed so that it could serve PKB payments in other parts of Indonesia.

Meanwhile, to exercise its operational activities, bank **bjb** had 6,801 employees. The educational level of these employees was 9 (nine) employees holding doctoral degrees, 768 employees having postgraduate degrees, 5,481 employees holding bachelor's degrees, and 543 employees having diploma degrees.

Analisis Atas Kinerja Perseroan

Dengan berbagai sumber daya yang dimiliki Perseroan, Direksi telah melakukan pengelolaan secara efektif terhadap sumber daya tersebut. Perseroan telah menghasilkan kinerja yang baik di tahun 2025 di tengah kondisi perekonomian yang masih belum sepenuhnya pulih. Direksi senantiasa mempertimbangkan kondisi perekonomian baik global, nasional maupun industri perbankan dalam mengembangkan strategi bisnis, sehingga mampu mengatasi kendala-kendala khususnya yang terkait dengan dampak kondisi perekonomian terhadap bisnis Perseroan.

Analysis of The Company's Performance

Having the Company's various resources, the Board of Directors effectively managed them. The Company delivered firm performance in 2025 amidst an economic situation that had not fully recovered. The Board of Directors consistently considered global, national, and banking economic conditions in developing business strategies, so it overcame constraints, particularly those related to the impact of economic conditions on the Company's business.

Kondisi Perekonomian yang Secara Langsung Berdampak Terhadap Kinerja Perseroan

Ketidakpastian ekonomi global meningkat tajam seiring perubahan besar dalam kebijakan perdagangan internasional. Amerika Serikat (AS) memberlakukan tarif impor tinggi terhadap sebagian besar mitra dagangnya, termasuk Tiongkok, yang memicu gelombang proteksionisme dan mendorong negara lain melakukan penyesuaian kebijakan. IMF memproyeksikan

Economic Conditions Directly Affecting The Company's Performance

Global economic uncertainty heated up sharply due to major shifts in international trade policy. The United States of America (USA) imposed high import tariffs on most of its trading partners, including China, triggering a wave of protectionism and prompting other countries to adjust their policies. The IMF projected global economic growth to slow

pertumbuhan ekonomi global melambat dari kisaran 3,9% pada 2025 dan 3,1% pada 2026, di bawah rata-rata pra-pandemi, dengan negara berkembang tetap menjadi penopang utama di tengah lemahnya pemulihan negara maju. Kondisi ini menciptakan tekanan eksternal yang signifikan bagi Indonesia melalui jalur nilai tukar, arus modal, dan permintaan ekspor, meskipun likuiditas global relatif membaik seiring pelonggaran kebijakan moneter di sejumlah negara maju.

from 3.9% in 2025 to 3.1% in 2026, below the pre-pandemic average, where developing countries remained the mainstay amidst a weak recovery in developed countries. This situation created significant external pressures for Indonesia through exchange rate channels, capital flows, and export demand, despite relatively improved global liquidity due to monetary policy easing in several developed countries.

Meskipun perekonomian global masih melambat, ekonomi Indonesia tumbuh sebesar 5,39% (yoy) pada Triwulan-IV 2025, mencatatkan pertumbuhan kuartalan tertinggi sejak periode pasca pandemi COVID-19 serta mendorong pertumbuhan tahunan sebesar 5,11% (yoy) sepanjang 2025. Dari sisi pengeluaran, pertumbuhan ekonomi 2025 terutama ditopang oleh konsumsi rumah tangga yang tumbuh 5,11% (yoy) pada Triwulan IV dan 4,98% sepanjang tahun 2025, didukung daya beli yang kuat, mobilitas meningkat, inflasi terkendali, serta berbagai stimulus pemerintah seperti bansos, Bantuan Langsung Tunai Subsidi (BLTS), dan diskon transportasi yang mendorong aktivitas konsumsi, termasuk sektor restoran, hotel, transportasi, dan komunikasi. Konsumsi pemerintah tumbuh 4,55% (yoy) pada triwulan IV dan 2,5% sepanjang tahun, dengan belanja negara sebesar Rp805,4 triliun untuk program prioritas dan Rp110,7 triliun untuk stimulus, memberikan efek pengganda bagi konsumsi, dunia usaha, dan produktivitas jangka panjang.

Despite the continued slowdown in the global economy, Indonesia's economy grew by 5.39% (yoy) in Q4 2025, marking the highest quarterly growth since the post-COVID-19 pandemic period and bringing full-year growth to 5.11% (yoy) for 2025. From the expenditure side, economic growth in 2025 was primarily supported by household consumption, which grew by 5.11% (yoy) in Q4 and 4.98% for the full year, driven by strong purchasing power, increased mobility, controlled inflation, and various government stimulus measures such as social assistance, Direct Cash Transfer Subsidies (BLTS), and transportation discounts that boosted consumption activities, including in the restaurant, hotel, transportation, and communication sectors. Government consumption grew by 4.55% (yoy) in Q4 and 2.5% for the full year, with state spending amounting to IDR805.4 trillion for priority programs and IDR110.7 trillion for stimulus, generating multiplier effects on consumption, business activity, and long-term productivity.

Di sisi lain, sektor perbankan mampu menunjukan resiliensi yang kuat dengan permodalan yang terjaga pada level tinggi dan kinerja intermediasi yang tetap stabil meskipun dalam situasi global yang penuh dengan tantangan. Meskipun suku bunga acuan global pada November 2025 mengalami penurunan, perlu diperhatikan juga faktor risiko seperti tekanan inflasi yang relatif persisten di Jepang mendorong Bank of Japan menaikkan suku bunga kebijakan ke level tertinggi dalam tiga dekade terakhir, perbedaan kebijakan turut memengaruhi dinamika pasar keuangan global ke depan. Sejumlah indikator utama perbankan seperti pertumbuhan kredit dan DPK bank umum mencatatkan pertumbuhan yang positif.

Conversely, the banking sector highlighted strong resilience, maintaining high levels of capital and stable intermediation performance, despite the challenging global environment. Although the global benchmark interest rate was expected to decline in November 2025, risk factors, such as persistent inflationary pressures in Japan, which prompted the Bank of Japan to raise its policy rate to its highest level in three decades, had to be reconsidered. Policy differences also influenced future global financial market dynamics. Several key banking indicators, such as loan growth and deposits at commercial banks, recorded positive growth.

Pertumbuhan kredit pada November 2025 tumbuh sebesar 7,74% (yoy) menjadi sebesar Rp8.314,48 triliun, yang didorong oleh pertumbuhan pada sektor pengangkutan dan pergudangan sebesar 18,33%, pengadaan listrik, gas, dan air sebesar 21,83%, industri pertambangan sebesar 11,0%, serta konstruksi sebesar 8,14%. Berdasarkan kelompok penggunaan, pertumbuhan kredit modal kerja, kredit investasi, dan kredit konsumsi, masing-masing sebesar 2,04% (yoy), 17,98% (yoy), dan 6,67% (yoy). Pembiayaan perbankan syariah tumbuh sebesar 7,67% (yoy), sementara kredit UMKM terkontraksi 0,64% (yoy). Di sisi lain, pada November 2025, Dana Pihak Ketiga (DPK) tercatat mengalami pertumbuhan tinggi mencapai 12,03% (yoy) yang meningkat dari tahun sebelumnya, yaitu 11,48% (yoy). Pertumbuhan DPK ini menjadi salah satu faktor pendorong terjaganya likuiditas perbankan. Kualitas kredit

The 2025 loan growth was projected to grow by 7.74% (yoy) to IDR8,314.48 trillion, driven by growth in the transportation and warehousing sector (18.33%), electricity, gas, and water supply (21.83%), mining (11.0%), and construction (8.14%). Based on usage groups, working capital credit, investment credit, and consumer loan grew by 2.04% (yoy), 17.98% (yoy), and 6.67% (yoy), respectively. Sharia banking financing grew by 7.67% (yoy), while MSME loans contracted by 0.64% (yoy). Meanwhile, in November 2025, Third Party Funds (TPF) recorded high growth, reaching 12.03% (yoy), an increase from the previous year's 11.48% (yoy). The third-party funds (TPF) growth was one of the driving factors in maintaining banking liquidity. Commercial bank loan quality had also improved, with the Gross Non-Performing Loan (NPL) ratio maintained at a low 2.04% in November 2025. From the

Bank Umum juga membaik dengan rasio NPL Gross November 2025 yang terjaga rendah sebesar 2,04%. Dari sisi perbankan syariah, kinerja industri perbankan syariah juga mencatatkan yang baik. Hal ini tercermin dari aset perbankan syariah yang mengalami pertumbuhan positif pada Oktober 2025 sebesar 11,34% (yoy). Selain itu, penyaluran pembiayaan juga tumbuh 7,78% (yoy) sejalan dengan pertumbuhan industri perbankan nasional dan diikuti DPK yang tumbuh sekitar 14,26% (yoy).

Sharia banking perspective, the industry also performed well. A better performance was reflected in the positive growth of Sharia banking assets in October 2025, reaching 11.34% (yoy). Furthermore, financing disbursement also grew 7.78% (yoy), in line with the growth of the national banking industry, followed by third-party funds (TPF) growth, around 14.26% (yoy).

Berdasarkan analisis perekonomian dan industri serta memperhatikan tantangan yang ada, maka bank **bjb** menetapkan target pasar berupa peningkatan DPK dan Kredit. Target DPK dan Penyaluran Kredit di tahun 2025 masing-masing sebesar Rp125,32 triliun dan Rp115,92 triliun. Peningkatan DPK dan Kredit dilakukan antara lain dengan terus mengembangkan produk-produk inovatif agar dapat memenuhi kebutuhan nasabah dan menangkap peluang dari tren bisnis yang berkembang serta konsisten dalam melakukan digital transformation sehingga bisnis proses dapat menjadi lebih efektif dan efisien.

Based on economic and industry analysis and considering existing challenges, bank **bjb** set market targets for increasing third-party funds (TPF) and loans. The 2025 target for third-party funds (TPF) and loans distribution was IDR125.32 trillion and IDR115.92 trillion, respectively. The increase in third-party funds (TPF) and loans achieved through the continuous development of innovative products to meet customer needs, seize opportunities from emerging business trends, as well as consistent digital transformation, and enable more effective and efficient business processes.

Untuk mencapai target pasar tersebut, telah ditetapkan suku bunga dasar kredit tahun 2025 adalah sebagai berikut:

To achieve the said market target, the 2025 prime lending rate had been stipulated, as follows:

Strategi dan Kebijakan Strategis yang Diterapkan oleh Perseroan

Kebijakan strategis jangka pendek tahun 2025 bank **bjb** disusun dengan mengacu pada Rencana Bisnis Bank (*business plan*) sebagai pedoman dalam penetapan target kinerja dan prioritas operasional. Kebijakan tersebut mencerminkan langkah-langkah strategis yang terfokus pada pencapaian sasaran jangka pendek yang diuraikan sebagai berikut:

1. Peningkatan Pertumbuhan Kredit Berkualitas dan Berkelanjutan yang Berfokus Pada Target Market serta Optimalisasi Portofolio Aset Melalui Digitalisasi Bisnis Proses.

Strategies and Strategic Policies Applied by The Company

bank **bjb**'s 2025 short-term strategic policy was formulated with reference to the Bank's Business Plan as a guideline for setting performance targets and operational priorities. This policy reflects strategic steps focused on achieving short-term goals, as outlined below:

1. Increasing Quality and Sustainable Credit Growth Focused on Target Markets and Optimizing Asset Portfolios Through Digitalized Business Processes.

2. Menjaga Pengelolaan Likuiditas yang Efektif, Efisien dan Berkelanjutan serta Peningkatan Share of Wallet Nasabah Guna Mendukung Penyaluran Dana Secara Optimal.
3. Meningkatkan Kontribusi *Fee Based Income* Dengan Penguatan Produk-Produk Transaksional dan Bisnis Berbasis Digital Ekosistem.
4. Akselerasi *Digital Platform* Untuk Mendorong Terwujudnya *Digital Banking* yang Inovatif Melalui Penguatan Infrastruktur Teknologi Informasi Handal dan Aman.
5. Memperkuat Struktur Modal dan Pengelolaan *Human Capital* yang Solid untuk Mendukung Pertumbuhan Bisnis.
6. Transformasi Keuangan yang Inklusif Dalam Rangka Optimalisasi dan Memperkuat Ekosistem Keuangan Berkelanjutan.
7. Pengelolaan Manajemen Risiko yang Efektif, Didukung Dengan Tata Kelola yang Kuat dan Compliance Sebagai Pilar Dalam Mencapai Kinerja Bank yang Tangguh dan Berkelanjutan.

Peranan Direksi dalam Perumusan Strategi dan Kebijakan Strategis

Menghadapi berbagai tantangan di tengah kondisi bisnis yang semakin kompleks, Direksi terus berperan aktif dalam menavigasi, memitigasi, dan beradaptasi secara cepat dan tepat dalam merumuskan strategi serta menentukan kebijakan strategis untuk mengoptimalkan kinerja bank **bjb**. Direksi secara aktif melakukan analisis komprehensif terhadap kondisi internal Perseroan, dinamika industri perbankan, serta perkembangan ekonomi makro baik global maupun nasional sebagai dasar dalam penyusunan strategi yang adaptif dan responsif.

Proses perumusan strategi dilakukan secara terstruktur melalui penyusunan Arahan Strategis Direksi Tahunan (ASDT) yang diturunkan ke dalam Rencana Bisnis Bank (RBB), yang diselaraskan dengan visi dan misi bank **bjb**. Direksi memastikan bahwa setiap kebijakan strategis yang ditetapkan tidak hanya berorientasi pada pertumbuhan kinerja keuangan, tetapi juga memperhatikan prinsip kehati-hatian (*prudential banking*), manajemen risiko yang efektif, serta aspek keberlanjutan (*sustainability*). Selain itu, Direksi menetapkan berbagai kebijakan strategis yang mencakup pengembangan produk dan layanan, akselerasi transformasi digital, peningkatan kualitas sumber daya manusia, serta optimalisasi sinergi dalam Kelompok Usaha Bank (KUB).

Proses yang Dilakukan Direksi untuk Memastikan Implementasi Strategi

Direksi memastikan bahwa setiap strategi yang telah dirumuskan dapat diimplementasikan secara efektif. Direksi memastikan adanya penyelarasan strategi di seluruh unit kerja melalui komunikasi yang intensif dan berjenjang. Setiap kebijakan dan inisiatif strategis disosialisasikan secara komprehensif agar

2. Maintaining Effective, Efficient, and Sustainable Liquidity Management and Increasing Customer Wallet Share to Support Optimal Fund Distribution.
3. Increasing Fee-Based Income Contribution by Strengthening Transactional Products and Digital Ecosystem-Based Businesses.
4. Accelerating Digital Platforms to Encourage Innovative Digital Banking Through Strengthening Reliable and Secure Information Technology Infrastructure.
5. Strengthening Capital Structure and Solid Human Capital Management to Support Business Growth.
6. Inclusive Financial Transformation to Optimize and Strengthen the Sustainable Financial Ecosystem.
7. Effective Risk Management, Supported by Strong Governance and Compliance, as Pillars in Achieving Resilient and Sustainable Bank Performance

Directors' Role in Formulating Strategy and Strategic Policy

Dealing with various challenges amidst increasingly complex business conditions, the Board of Directors continuously played an active role in navigating, mitigating, and adapting quickly and precisely in formulating strategies and determining strategic policies to optimize bank **bjb**'s performance. The Board of Directors also actively conducted comprehensive analyses of the Company's internal conditions, the dynamics of the banking industry, and macroeconomic developments both globally and nationally as a basis for developing adaptive and responsive strategies.

The strategy formulation process was conducted structurally through the preparation of the Annual Board of Directors' Strategic Direction (ASDT), which was translated into the Bank Business Plan (RBB) and aligned with bank **bjb**'s vision and mission. The Board of Directors ensured that every strategic policy established was not only oriented towards financial performance growth, but also considered the principles of prudential banking, effective risk management, and sustainability aspects. In addition, the Board of Directors established various strategic policies that include product and service development, accelerating digital transformation, improving human resource quality, and optimizing synergies within the Bank Business Group (BBG).

Process Performed by The Board of Directors to Ensure Strategy Implementation

The Board of Directors confirmed that every formulated strategy could be implemented effectively. The Board of Directors also ensured strategic alignment across business units through intensive, hierarchical communication. Each strategic policy and initiative was comprehensively socialized to ensure its

dipahami dan dijalankan secara konsisten oleh seluruh jajaran manajemen dan karyawan. Dalam hal ini, Direksi juga mendorong budaya kinerja yang berorientasi pada hasil (*performance-driven culture*) guna memperkuat eksekusi strategi.

Dalam tahap implementasi, Direksi melakukan pengawasan aktif melalui mekanisme *monitoring* dan evaluasi berkala, baik melalui rapat manajemen, laporan kinerja rutin, maupun pengukuran kinerja berbasis KPI. Direksi juga memastikan bahwa implementasi strategi didukung oleh sistem manajemen risiko dan pengendalian internal yang memadai. Setiap inisiatif strategis dievaluasi dari aspek risiko, kepatuhan, dan prinsip kehati-hatian (*prudential banking*), sehingga pelaksanaannya tetap berada dalam koridor *Corporate Governance*. Direksi juga secara aktif melakukan koordinasi dengan Dewan Komisaris dalam rangka memperoleh arahan dan pengawasan strategis, serta memastikan bahwa implementasi strategi berjalan sesuai dengan Rencana Bisnis Bank.

Analisis Kinerja Perseroan

Kinerja Operasional dan Keuangan

Berdasarkan strategi yang telah diterapkan, pada tahun 2025 kinerja bank **bjb** menunjukkan ketahanan di tengah dinamika ekonomi global dan domestik yang masih penuh tantangan. Secara konsolidasi, total aset bank **bjb** pada akhir 2025 tercatat sebesar Rp221,35 triliun. Penyaluran kredit termasuk pembiayaan mencapai Rp140,7 triliun, dengan kontribusi perusahaan anak sebesar Rp28,8 triliun dan *bank only* sebesar Rp111,9 triliun.

Pada *bank only*, segmen kredit konsumer tetap menjadi kontributor utama dengan *outstanding* mencapai Rp74,8 triliun. Kualitas aset pada segmen ini terjaga sangat baik dengan tingkat NPL rendah dan margin yang sehat. Potensi pertumbuhan juga tetap terbuka seiring peningkatan jumlah pegawai P3K di Jawa Barat dan Banten yang mencapai sekitar 504 ribu orang pada Juni 2025, sehingga memperluas basis pasar *payroll* bank **bjb**.

Transformasi digital juga terus dipercepat melalui pengembangan *platform* KGB Pisan. Sejak memperoleh izin pengembangan layanan dari Otoritas Jasa Keuangan pada November 2025, *platform* ini mendukung pengajuan kredit baru secara *end-to-end* digital bagi nasabah *payroll* bank **bjb**. Proses kredit yang sepenuhnya digital turut meningkatkan produktivitas dan skalabilitas bisnis konsumer.

Selain itu bank **bjb** juga tetap melakukan ekspansi secara terukur pada segmen korporasi dan komersial yang difokuskan pada proyek berbasis ekosistem daerah sehingga diharapkan dapat mendorong pertumbuhan ekonomi di daerah. Adapun laba bersih yang dapat diatribusikan kepada induk mencapai

comprehensiveness and consistently implemented by all levels of management and employees. In this regard, the Board of Directors also promoted a results-oriented performance culture to strengthen strategy execution.

During the implementation phase, the Board of Directors conducted active supervision through periodic monitoring and evaluation mechanisms, including management meetings, routine performance reports, and KPI-based performance measurements. The Board of Directors also ensured that strategy implementation was supported by an adequate risk management and internal control system. Each strategic initiative was then evaluated from a risk, compliance, and prudential banking perspective, ensuring that its implementation remained within the framework of Corporate Governance. The Board of Directors also actively coordinated with the Board of Commissioners to obtain strategic direction and supervision, and confirmed that strategy implementation was in accordance with the Bank's Business Plan.

Analysis of The Company's Performance

Operational and Finance Performance

Based on the implemented strategy, bank **bjb**'s 2025 performance demonstrated resilience amidst the challenges of the global and domestic economy. On a consolidated basis, bank **bjb**'s total assets at the end of 2025 were recorded at IDR221.35 trillion. Credit distribution, including financing, reached IDR140.7 trillion, with contributions from subsidiaries as of IDR28.8 trillion and bank-only at IDR111.9 trillion.

In terms of the bank-only segment, the consumer credit segment remained a major contributor, with outstanding loans reaching IDR74.8 trillion. Asset quality in this segment was well maintained, with low non-performing loans (NPLs) and sound margins. Growth potential also remained strong, as the number of first aid workers in West Java and Banten increased to approximately 504,000 by June 2025, expanding bank **bjb**'s payroll market base.

Digital transformation continued to accelerate through the development of the KGB Pisan platform. Since obtaining a service development permit from the Financial Services Authority in November 2025, this platform supported new, end-to-end digital loan applications for bank **bjb**'s payroll customers. The fully digital credit process also increased the productivity and scalability of consumer businesses.

Furthermore, bank **bjb** continued to conduct measured expansion in the corporate and commercial segments, focusing on regional ecosystem-based projects, which were expected to drive regional economic growth. Net profit attributable to the holding company reached IDR1.15 trillion. The momentum

Rp1,15 triliun. Momentum perbaikan kinerja Triwulan IV juga berlanjut pada awal 2026 dan menjadi indikasi positif bagi pemulihan pertumbuhan laba ke depan. Selain itu, bank **bjb** juga terus memperkuat sinergi bisnis dalam Kelompok Usaha Bank (KUB), kinerja anak perusahaan memberikan kontribusi aset sebesar Rp42,8 triliun atau sekitar 18% dari total aset konsolidasi Grup **bjb**.

Human Capital

Pada tahun 2025, bank **bjb** telah menyelenggarakan pengembangan kompetensi yang dilaksanakan melalui **bjb** University. Sejalan dengan strategi utama Divisi Human Capital tahun 2025, pengelolaan pengembangan kompetensi diarahkan untuk mendorong *high productivity workforce* yang adaptif, berdaya saing, serta selaras dengan kebutuhan bisnis. Pelaksanaan pengembangan kompetensi pada tahun 2025 dilakukan melalui berbagai metode pembelajaran yang adaptif, baik secara tatap muka maupun digital, dengan mengoptimalkan pendekatan *blended learning*. Pendekatan ini dirancang untuk meningkatkan *employee experience* sekaligus memastikan pengembangan kompetensi teknis, profesional, manajerial, dan kepemimpinan berjalan secara berkelanjutan, terencana, dan berdampak langsung pada kinerja individu maupun organisasi.

Sebagai bagian dari komitmen jangka panjang dalam pengembangan talenta unggul, bank **bjb** juga melanjutkan program pengembangan berkelanjutan, termasuk pemberian beasiswa kepada pegawai yang memenuhi kualifikasi. Program ini tidak hanya bertujuan untuk meningkatkan kualitas sumber daya manusia Perseroan, tetapi juga sebagai upaya memperkuat *employee engagement* dan retensi talenta strategis. Selain itu, dalam rangka mendukung penguatan tata kelola perusahaan dan manajemen risiko, bank **bjb** secara konsisten melaksanakan Program Sertifikasi Manajemen Risiko serta program *refreshment* kompetensi secara berjenjang dan berkesinambungan. Selain itu, Perseroan juga memfasilitasi sertifikasi lain yang relevan dengan kebutuhan jabatan dan profesi pegawai guna memastikan kesiapan kompetensi sesuai standar industri dan regulator.

Teknologi Informasi

Sejalan dengan pengembangan bisnis Perseroan, bank **bjb** juga telah melakukan pengembangan pada teknologi informasi (TI). Pengembangan dan inovasi teknologi informasi merupakan salah satu pilar strategis dalam mendukung pertumbuhan bisnis, peningkatan kualitas layanan, serta percepatan transformasi digital di bank **bjb**. Sepanjang tahun 2025, bank **bjb** secara berkelanjutan melakukan berbagai pengembangan dan inovasi teknologi informasi, baik pada sisi aplikasi bisnis, sistem pelaporan dan *monitoring*, maupun layanan digital yang berorientasi kepada nasabah dan pemangku kepentingan. Inisiatif ini dirancang untuk memperkuat efektivitas operasional,

of improved performance in the fourth quarter continued into early 2026 and was a positive indication for a recovery in future profit growth. Furthermore, bank **bjb** continuously affirmed its business synergies within the Bank Business Group (KUB), with subsidiaries contributing IDR42.8 trillion in assets, or approximately 18% of bank **bjb** Group's total consolidated assets.

Human Capital

In 2025, bank **bjb** launched competency development through **bjb** University. In line with the Human Capital Division's 2025 key strategy, competency development management was aimed at fostering a highly productive, adaptive, and competitive workforce, and aligned with business needs. The 2025 competency development was implemented through various adaptive learning methods, both face-to-face and digital, optimizing a blended learning approach. This approach was designed to enhance the employee experience while ensuring that technical, professional, managerial, and leadership competency development was sustainable and planned, and had a direct impact on individual and organizational performance.

Having long-term commitment to developing superior talent, bank **bjb** also continued its ongoing development program, including providing scholarships to qualified employees. This program not only aimed to improve the quality of the Company's human resources but also strengthened employee engagement and retention of strategic talent. Furthermore, to support the strengthening of corporate governance and risk management, bank **bjb** consistently implemented the Risk Management Certification Program and competency refreshment programs on a tiered and ongoing basis. In addition, the Company also facilitated other certifications that were relevant to the needs of employee positions and professions to ensure competency readiness according to industry and regulatory standards.

Information Technology

In line with the Company's business development, bank **bjb** also developed information technology (IT). Information technology development and innovation were strategic pillars in supporting business growth, improving service quality, and accelerating digital transformation at bank **bjb**. Throughout 2025, bank **bjb** continuously performed various information technology developments and innovations, including business applications, reporting and monitoring systems, and digital services oriented towards customers and stakeholders. These initiatives were designed to strengthen operational effectiveness, improve data accuracy and reliability, and

meningkatkan akurasi dan keandalan data, serta mendukung penerapan tata kelola dan manajemen risiko teknologi informasi secara menyeluruh. Langkah-langkah ini dirancang untuk memperkuat daya saing bank **bjb** dalam menghadapi tantangan di era digital, sekaligus memberikan nilai tambah bagi nasabah dan mitra bisnis. Melalui berbagai inovasi di tahun 2025, bank **bjb** menunjukkan komitmen berkelanjutan dalam memanfaatkan teknologi informasi sebagai *enabler* pertumbuhan bisnis, peningkatan kualitas layanan, serta penguatan kepatuhan dan tata kelola. Ke depan, bank **bjb** akan terus berinovasi guna mendukung visi bank **bjb** sebagai bank yang adaptif, kompetitif, dan berorientasi digital.

Perbandingan Antara Hasil yang Dicapai dengan yang Ditargetkan

Secara umum, realisasi kinerja keuangan bank **bjb** pada tahun 2025 menunjukkan hasil yang tetap solid, meskipun tidak seluruh indikator mencapai target yang ditetapkan. Dari sisi posisi keuangan, realisasi aset dan ekuitas berhasil melampaui target masing-masing sebesar 101,46% dan 102,70%, mencerminkan fundamental bank **bjb** yang tetap kuat. Sementara itu, dana pihak ketiga dan kredit yang diberikan belum sepenuhnya mencapai target dengan capaian 97,42% dan 96,57%, namun capaian tersebut tetap menunjukkan pertumbuhan yang sehat dan terkendali. Khusus untuk kredit, realisasi yang sedikit di bawah target juga mencerminkan penerapan prinsip kehati-hatian dalam penyaluran kredit di tengah dinamika risiko.

Pada sisi pendapatan, realisasi pendapatan bunga dan syariah yang mendekati target mencapai 98,01% menunjukkan bahwa kemampuan bank **bjb** dalam menjaga pendapatan inti tetap terpelihara. Di saat yang sama, laba tahun berjalan justru melampaui target dengan capaian 102,15%, yang menegaskan efektivitas bank **bjb** dalam menjaga profitabilitas melalui pengelolaan pendapatan dan biaya yang baik. Secara keseluruhan, capaian tahun 2025 menunjukkan bahwa meskipun terdapat beberapa indikator yang belum sepenuhnya memenuhi target, kinerja bank **bjb** tetap terjaga dengan baik dan ditopang oleh fundamental yang kuat, profitabilitas yang sehat, serta pengelolaan risiko yang hati-hati.

Kendala-Kendala yang Dihadapi Perusahaan dan Langkah-Langkah Penyelesaiannya

Dalam menjalankan kegiatan operasionalnya, bank **bjb** juga mengalami berbagai kendala. Kendala tersebut antara lain, rasio permodalan bank **bjb** yang lebih rendah dibandingkan satu *peer* di industri perbankan nasional yang menyebabkan ruang ekspansi bisnis bank **bjb** relatif terbatas. Untuk mengatasi kendala tersebut, Perseroan memiliki strategi untuk menjaga kecukupan permodalan dengan optimalisasi pengelolaan *Debt Instrument* dalam rangka memperkuat

support the implementation of comprehensive information technology governance and risk management. These steps were designed to strengthen bank **bjb**'s competitiveness in facing the challenges of the digital era, while providing added value to customers and business partners. Through various innovations in 2025, bank **bjb** demonstrated its ongoing commitment to utilizing information technology as an enabler of business growth, improving service quality, and strengthening compliance and governance. Going forward, bank **bjb** would innovate to support bank **bjb**'s vision as an adaptive, competitive, and digitally oriented bank.

Comparison Between The Achieved Results with The Established Target

Overall, bank **bjb**'s 2025 financial performance remained solid, although not all indicators achieved the established targets. In terms of financial position, asset and equity realization exceeded targets by 101.46% and 102.70%, respectively, reflecting bank **bjb**'s continuously firm fundamentals. Meanwhile, third-party funds and loans fell short of their targets at 97.42% and 96.57%, respectively. However, these achievements demonstrated sound and controlled growth. Specifically for loans, the slightly below-target realization also reflected the application of prudent principles in lending amidst dynamic risks.

In terms of the revenue, interest and sharia income realization approached the target of 98.01%, demonstrating bank **bjb**'s ability to maintain core income. At the same time, current-year profit exceeded the target by 102.15%, confirming bank **bjb**'s effectiveness in maintaining profitability through sound revenue and cost management. Overall, the 2025 achievements showed that although several indicators had not fully met the targets, bank **bjb**'s performance remained well-maintained and was supported by strong fundamentals, sound profitability, and prudent risk management.

Constraints Dealt with The Company and Resolving Measures

To perform its operational activities, bank **bjb** also dealt with various challenges. These challenges included a lower capital ratio compared to its peers in the national banking industry, which limited its business expansion opportunities. To address these challenges, the Company had a strategy to maintain adequate capital by optimizing debt instrument management to strengthen the Company's capital structure, supporting the role of risk management in maintaining an adequate capital

struktur permodalan Perseroan, mendukung peran manajemen risiko dalam mengelola struktur permodalan bank yang memadai dalam menutupi risiko kemungkinan akan timbul serta menjaga pertumbuhan laba Perseroan untuk mendukung penguatan modal secara organik.

Konsentrasi *customer* yang sangat tergantung dari Aparatur Sipil Negara juga menjadi kendala Perseroan. Untuk menghadapi kendala tersebut, bank **bjb** memiliki strategi untuk mendorong pertumbuhan Dana Pihak Ketiga (DPK) terutama dana murah melalui optimalisasi seluruh segmen bisnis terkait yang bertujuan untuk mendorong pertumbuhan bisnis bank **bjb** secara menyeluruh dan meningkatkan *market share* produk dana sehingga dapat menjadikan bank **bjb** sebagai bank transaksional pilihan utama nasabah. bank **bjb** juga melakukan ekspansi terhadap nasabah institusi baru sebagai upaya perluasan dan penguatan bisnis untuk mendukung kemajuan perekonomian daerah melalui transaksi pengelolaan keuangan serta kerja sama layanan perbankan.

Kendala lainnya yaitu, kontribusi pendapatan yang bersumber dari pendapatan non bunga/*fee based income* belum optimal. Untuk menghadapi kendala tersebut, bank **bjb** memiliki strategi untuk meningkatkan kontribusi *fee based income* dengan penguatan produk-produk transaksional dan bisnis berbasis digital ekosistem.

Hal-Hal Penting yang Diperkirakan Terjadi pada Masa Mendatang dan Prospek Usaha

Menurut International Monetary Fund (IMF) dalam *World Economic Outlook* (WEO) Oktober 2025, pertumbuhan ekonomi global diperkirakan melambat dan mencapai sekitar 3,1% pada tahun 2026. Perlambatan tersebut dipengaruhi oleh meningkatnya ketidakpastian kebijakan perdagangan global yang berdampak pada melemahnya kepercayaan pelaku usaha dan investor, serta mendorong fragmentasi ekonomi global. Kondisi ini tercermin dari meningkatnya kecenderungan proteksionisme dan penyesuaian rantai pasok global yang mengurangi efisiensi produksi dan menekan kinerja perdagangan internasional. Selain itu, dampak lanjutan kebijakan tarif Amerika Serikat terhadap mitra dagangnya masih berlanjut dan turut meningkatkan biaya produksi, menekan volume perdagangan global, serta menahan arus investasi lintas negara.

Meskipun lanskap global menunjukkan perlambatan, perekonomian Indonesia pada tahun 2026 diproyeksikan tetap solid, meskipun dibayangi ketidakpastian eksternal yang tinggi. Kementerian Keuangan memperkirakan pertumbuhan ekonomi Indonesia mencapai sebesar 5,4%, didukung oleh terjaganya permintaan domestik, keberlanjutan agenda reformasi struktural, serta efektivitas bauran kebijakan fiskal dalam

structure to cover potential risks, and maintaining profit growth to support organic capital strengthening.

The Company's customer concentration, which was heavily dependent on the Civil Service Apparatus, also posed a challenge. To overcome these challenges, bank **bjb** had a strategy to encourage the growth of Third-Party Funds (TPF), particularly low-cost funds, by optimizing all related business segments. This strategy aimed to drive overall business growth and increase market share for financial products, making bank **bjb** as the transactional bank of choice for customers. bank **bjb** was also expanding its reach to new institutional customers as part of its business expansion and strengthening efforts to support regional economic progress through financial management transactions and banking service collaborations.

Another challenge was the suboptimal contribution of non-interest/fee-based income. To resolve this challenge, bank **bjb** had a strategy to increase fee-based income by strengthening transactional products and a digital ecosystem-based business.

Significant Things Expected to Occur in The Future and Business Prospects

According to the International Monetary Fund (IMF) in its October 2025 World Economic Outlook (WEO), global economic growth was projected to slow to around 3.1% in 2026. This slowdown was influenced by increasing uncertainty in global trade policies, which had weakened business and investor confidence and driven global economic fragmentation. The retard condition was reflected in the increasing tendency towards protectionism and adjustments to global supply chains, which reduced production efficiency and depressed international trade performance. Furthermore, the continued impact of the United States' tariff policies on its trading partners continuously increased production costs, suppressed global trade volume, and restrained cross-border investment flows.

Despite a slowing global landscape, Indonesia's economy was projected to remain solid in 2026, despite significant external uncertainty. The Ministry of Finance estimated Indonesia's economic growth would reach 5.4%, supported by sustained domestic demand, the sustainability of the structural reform agenda, and the effectiveness of the fiscal policy mix in maintaining the momentum of economic recovery.

menjaga momentum pemulihan ekonomi. Sejalan dengan itu, Bank Indonesia memproyeksikan pertumbuhan ekonomi berada pada kisaran 4,9%-5,7%, mencerminkan ketahanan konsumsi rumah tangga, meningkatnya kontribusi investasi, serta dukungan kebijakan moneter dan makroprudensial yang akomodatif dan terkoordinasi dengan kebijakan fiskal. Bloomberg memperkirakan pertumbuhan ekonomi Indonesia sebesar 5,0%, dengan mempertimbangkan moderasi kinerja ekspor seiring pelemahan permintaan global, namun tetap ditopang oleh kuatnya pasar domestik dan stabilitas makroekonomi yang terjaga.

Consistently, Bank Indonesia projected economic growth in the range of 4.9%-5.7%, reflecting resilient household consumption, increasing investment contributions, and support from accommodative monetary and macroprudential policies coordinated with fiscal policy. Further, Bloomberg estimated Indonesia's economic growth at 5.0%, considering moderate export performance due to weakening global demand, but still supported by a strong domestic market and maintained macroeconomic stability.

Industri perbankan Indonesia pada 2026 diproyeksikan tetap tumbuh positif, meski harus menghadapi dinamika global dan nasional yang penuh ketidakpastian. Sejumlah faktor pendukung prospek pertumbuhan, antara lain inflasi yang terjaga di kisaran target 2,5% ±1% pada tahun 2026, ruang pelonggaran kebijakan moneter Bank Indonesia (BI), serta stimulus fiskal pemerintah yang difokuskan pada UMKM, energi terbarukan, perumahan, dan infrastruktur. Program populis seperti Makan Bergizi Gratis (MBG) dan pembangunan 770 ribu unit rumah melalui FLPP dan Tapera dipastikan akan meningkatkan permintaan kredit ritel maupun konstruksi.

The Indonesian banking industry was projected to maintain positive growth in 2026, despite facing uncertain global and national dynamics. Several factors supported the growth outlook, including inflation maintained within the target range of 2.5% ± 1% in 2026, a space for monetary policy easing by Bank Indonesia (BI), and government fiscal stimulus focused on MSMEs, renewable energy, housing, and infrastructure. Populist programs, such as the Free Nutritious Meals (MBG) and the construction of 770,000 housing units through the FLPP and Tapera (Finance Program for the Poor) programs, were certain to increase demand for retail and construction credit.

Di saat yang sama, dinamika persaingan juga semakin kompleks. Meningkatnya intensitas kompetisi dengan perusahaan *financial technology (fintech)* dan lembaga keuangan non-bank, baik dalam penghimpunan dana maupun penyaluran pembiayaan, mendorong perbankan untuk mempercepat transformasi digital, meningkatkan efisiensi operasional, serta memperkuat proposisi nilai. Artinya, keberlanjutan pertumbuhan tidak hanya ditentukan oleh faktor makroekonomi, tetapi juga oleh kemampuan adaptasi model bisnis terhadap perubahan lanskap industri keuangan.

At the same time, competitive dynamics were also increasingly complex. Increasing competition with financial technology (fintech) companies and non-bank financial institutions, both in fundraising and financing distribution, encouraged banks to accelerate digital transformation, improve operational efficiency, and strengthen their value propositions. In short, sustainable growth was determined not only by macroeconomic factors but also by the ability of business models to adapt to the changing financial industry landscape.

Namun demikian, di tengah berbagai tantangan tersebut, peluang pertumbuhan tetap terbuka lebar. Akselerasi digitalisasi sistem pembayaran, penguatan ekosistem *Open Banking* dan integrasi QRIS lintas negara, serta pengembangan pembiayaan berkelanjutan *(green financing)* sejalan dengan implementasi *Green Taxonomy* 2.0 dan kebijakan pajak karbon menjadi katalis positif bagi ekspansi yang lebih inklusif dan berkelanjutan. Oleh karena itu, melalui penerapan strategi yang tepat—meliputi optimalisasi CASA untuk menekan CoF, peningkatan efisiensi operasional, penguatan manajemen risiko, serta ekspansi pembiayaan ke sektor hijau dan UMKM—industri perbankan nasional memiliki ruang untuk mencatatkan pertumbuhan yang moderat hingga agresif secara berkelanjutan pada tahun 2026.

However, amid these challenges, growth opportunities remained wide open. The acceleration of payment system digitalization, strengthening the Open Banking ecosystem and cross-border QRIS integration, as well as the development of sustainable financing (green financing) in line with the implementation of Green Taxonomy 2.0 and the carbon tax policy, were positive catalysts for more inclusive and sustainable expansion. Therefore, through the implementation of appropriate strategies—including optimizing CASA to reduce Cost of Funds (CoF), increasing operational efficiency, strengthening risk management, and expanding financing to the green sector and MSMEs—the national banking industry had a space to record moderate to aggressive growth on a sustainable basis by 2026.

Dengan mempertimbangkan berbagai proyeksi pertumbuhan ekonomi dan sektor keuangan tersebut, bank **bjb** optimistis memiliki prospek usaha yang baik serta ruang ekspansi yang berkelanjutan pada tahun mendatang. Ketahanan ekonomi domestik, dukungan kebijakan fiskal dan moneter yang

Considering these various economic and financial sector growth projections, bank **bjb** was optimistic about its good business prospects and room for sustainable expansion in the coming year. Domestic economic resilience, accommodative fiscal and monetary policy support, and the increasing need for

akomodatif, serta meningkatnya kebutuhan pembiayaan pada sektor-sektor prioritas menjadi landasan kuat bagi bank **bjb** untuk memperkuat fungsi intermediasi dan meningkatkan daya saing. Sejalan dengan hal tersebut, peluang yang dapat dimanfaatkan oleh bank **bjb** antara lain sebagai berikut:

1. Sinergi dengan pemerintah daerah menjadi peluang untuk *cross selling* kredit produktif, *treasury*, dan layanan digital publik berbasis integrasi ekosistem, serta memperluas *income* melalui *bundling* produk investasi dan asuransi bagi ASN dan Pemda.
2. Fitur dan layanan digital bank **bjb** dapat ditingkatkan, karena wadahnya sudah tersedia dan terdapat peluang besar untuk memperkuat posisi di *digital banking*.
3. Penyesuaian biaya akuisisi (*cost per acquisition)* memungkinkan fleksibilitas dalam strategi *pricing*, baik untuk efisiensi maupun daya saing.
4. Ambisi Pemerintah Provinsi Jawa Barat RPJMD, RKPD Jabar 2026 untuk mempercepat pembangunan ekonomi regional melalui pelaksanaan berbagai proyek (misalnya infrastruktur, pendidikan) menciptakan peluang signifikan bagi bank **bjb** untuk menjadi penyedia layanan keuangan utama, sekaligus mendorong sinergi strategis.
5. Preferensi terhadap pembiayaan berkelanjutan (ESG) meningkat, membuka potensi bank **bjb** sebagai katalis pembiayaan hijau dan syariah daerah.
6. Tren digitalisasi pelayanan publik (SP2D, QRIS Daerah, *payroll* ASN) memberi peluang bagi bank **bjb** dalam menjadi *anchor* bank bagi Pemda melalui integrasi sistem pembayaran publik.
7. Peningkatan (Rp200 triliun) likuiditas nasional membuka peluang bagi bank **bjb** dalam memperluas ekspansi kredit produktif, memperkuat posisi likuiditas, dan melakukan *reposisi pricing* berbasis layanan serta efisiensi pendanaan.
8. Pergeseran minat masyarakat ke aset aman seperti emas dan saham, membuka peluang bagi bank **bjb** dalam menawarkan produk investasi ritel, sehingga dana tetap berada di ekosistem bank **bjb**.

Informasi Terkait Kelompok Usaha Bank

Hingga tanggal 31 Desember 2025, tidak terdapat kepemilikan saham yang bersifat signifikan oleh Direksi dan Dewan Komisaris di dalam Kelompok Usaha bank **bjb**, data tersebut sebagaimana telah disampaikan pada bagian Kepemilikan Saham Direksi dan Dewan Komisaris. Kemudian, selama tahun 2025, tidak terdapat perubahan penting pada Bank dan Kelompok Usaha Bank.

financing in priority sectors provided a strong foundation for bank **bjb** to strengthen its intermediation function and enhance its competitiveness. In line with this optimism, opportunities that bank **bjb**'s could capitalize were as follows:

1. Synergy with local governments provided an opportunity for cross-selling productive credit, treasury, and digital public services based on ecosystem integration, as well as expanding revenue through bundling investment and insurance products for civil servants and local governments.
2. bank **bjb**'s digital features and services could be enhanced, as the platform was readily available and there was a significant opportunity to strengthen its position in digital banking.
3. Adjusting cost per acquisition that allowed flexibility in pricing strategies, both for efficiency and competitiveness.
4. The West Java Provincial Government's ambition, the 2026 Regional Medium-Term Development Plan (RPJMD) and the West Java Regional Work Plan (RKPD) to accelerate regional economic development through the implementation of various projects (e.g., infrastructure, education), creates a significant opportunity for bank **bjb** to become a major financial services provider, while simultaneously fostering strategic synergies.
5. Preference for sustainable financing (ESG) was increasing, unlocking bank **bjb**'s potential as a catalyst for regional green and sharia financing.
6. The trend of digitalization of public services (SP2D, QRIS Daerah, ASN payroll) provided an opportunity for bank **bjb** to become an anchor bank for local governments through integration with public payment systems.
7. The increase (IDR200 trillion) in national liquidity opened up opportunities for bank **bjb** to expand productive credit, strengthen its liquidity position, and reposition pricing based on service and funding efficiency.
8. The shift in public interest toward safe assets, such as gold and stocks opens up opportunities for bank **bjb**.

Information Related to The Bank Business Group

As of December 31, 2025, there were no significant shareholdings by the Board of Directors and Board of Commissioners within the bank **bjb** Business Group, as reported in the Share Ownership of the Board of Directors and Board of Commissioners section. Furthermore, during 2025, there were no significant changes within the Bank or the Bank Business Group.

Perkembangan Penerapan Tata Kelola Perusahaan

Sepanjang tahun 2025, bank **bjb** terus memperkuat penerapan *Corporate Governance* sebagai fondasi utama dalam menjaga keberlanjutan usaha dan meningkatkan kepercayaan para pemangku kepentingan. Komitmen ini diwujudkan melalui penguatan struktur, sistem, dan proses tata kelola yang selaras dengan ketentuan regulator serta praktik terbaik di industri perbankan. Tujuan penerapan GCG yaitu menciptakan nilai tambah bagi semua pihak yang berkepentingan, pihak – pihak tersebut adalah pihak internal yang meliputi Dewan Komisaris, Direksi, Karyawan, dan pihak eksternal yang meliputi investor, kreditur, pemerintah, masyarakat dan pihak berkepentingan lainnya. Dalam rangka meningkatkan penerapan tata kelola secara berkelanjutan, Perseroan senantiasa menerapkan keempat pilar GCG yaitu ETAK (Perilaku Beretika, Transparansi, Akuntabilitas dan Keberlanjutan).

Tanggungjawab Perseroan untuk menjalankan bisnisnya secara berkelanjutan tidak akan dapat dijalankan dengan efektif jika tidak didasarkan pada perilaku korporasi yang beretika. bank **bjb** menempatkan perilaku beretika sebagai salah satu pilar utama dalam menjalankan kegiatan usaha dan membangun kepercayaan para pemangku kepentingan. Komitmen terhadap perilaku beretika diwujudkan melalui implementasi Kode Etik (*Code of Conduct*) yang mengatur standar perilaku bagi Direksi, Dewan Komisaris, serta seluruh karyawan. Dalam rangka memperkuat implementasi, bank **bjb** secara rutin melakukan sosialisasi dan internalisasi nilai-nilai etika melalui pelatihan, komunikasi internal, serta berbagai program budaya perusahaan. bank **bjb** juga menerapkan kebijakan yang tegas terkait benturan kepentingan (*conflict of interest*), gratifikasi, serta pencegahan praktik kecurangan (*fraud*). Setiap potensi pelanggaran wajib dilaporkan dan ditangani secara transparan dan akuntabel. Untuk mendukung hal tersebut, Perseroan menyediakan mekanisme pelaporan pelanggaran (*whistleblowing system*) yang aman, independen, dan melindungi kerahasiaan pelapor. Selain itu, pengawasan terhadap penerapan perilaku beretika dilakukan secara berkelanjutan melalui fungsi kepatuhan dan audit internal. Evaluasi berkala atas kepatuhan terhadap Kode Etik menjadi bagian penting dalam memastikan bahwa standar etika tetap dijaga dan ditingkatkan.

Dalam memberikan informasi yang diperlukan oleh investor atau Pemegang Saham (transparansi informasi), bank **bjb** memberikan perlakuan yang sama terhadap seluruh Pemegang Saham, baik pemegang saham Mayoritas maupun Minoritas. bank **bjb** telah memberikan rincian kontak melalui situs *web* Perseroan atau Laporan Tahunan yang mana para pemangku kepentingan dapat menggunakannya untuk meyampaikan keluhan, saran maupun kemungkinan adanya pelanggaran atas hak-hak mereka. Selain melalui laporan tahunan, bank **bjb** juga telah mengungkapkan informasi perusahaan melalui laporan keberlanjutan, laporan triwulanan, laporan keuangan

Development of the Implementation of Good Corporate Governance

Throughout 2025, bank **bjb** strengthened the implementation of Corporate Governance as the primary foundation for maintaining business sustainability and enhancing stakeholder trust. This commitment was realized through strengthening governance structures, systems, and processes in line with regulatory requirements and best practices in the banking industry. The purpose of GCG implementation was to create added value for stakeholders, including internal parties, including the Board of Commissioners, Board of Directors, and employees, as well as external parties, such as investors, creditors, the government, the community, and other stakeholders. To enhance the implementation of sustainable governance, the Company consistently implemented the four pillars of GCG: ETAK (Ethical Behavior, Transparency, Accountability, and Sustainability).

The Company's responsibility to run its business sustainably was not effectively implemented without being based on ethical corporate behavior. bank **bjb** placed ethical behavior as a key pillar in conducting its business activities and building stakeholder trust. This commitment to ethical behavior was realized through the implementation of a Code of Conduct that regulated behavioral standards for the Board of Directors, Board of Commissioners, and employees. To strengthen implementation, bank **bjb** regularly socialized and internalized ethical values through training, internal communications, and various corporate culture programs. bank **bjb** also implemented strict policies regarding conflicts of interest, gratuities, and the prevention of fraudulent practices. Any potential violations must be reported and handled transparently and accountably. To support this program, the Company provided a whistleblowing system that is secure, independent, and protects the confidentiality of the whistleblower. Furthermore, supervision of ethical behavior was carried out continuously through the compliance and internal audit functions. Periodic evaluation of compliance with the Code of Ethics was a crucial part of ensuring that ethical standards were maintained and improved.

In providing information required by investors or shareholders (information transparency), bank **bjb** treated all shareholders equally, both majority and minority shareholders. bank **bjb** had provided contact details through the Company's website or Annual Report, which stakeholders could use to convey complaints, suggestions, or report potential violations of their rights. In addition to its annual report, bank **bjb** also disclosed company information through sustainability reports, quarterly reports, and financial reports, which could be viewed on the bank **bjb** website. The public could access all financial and non-financial reports submitted by bank **bjb** transparently

yang dapat dilihat pada *website* bank **bjb**. Masyarakat dapat mengakses seluruh laporan keuangan dan non keuangan yang telah disampaikan bank **bjb** secara transparan melalui berbagai sarana yang tersedia tepat waktu, lengkap dan akurat.

through various available channels, ensuring timely, complete, and accurate reporting.

Dalam upaya memberikan informasi yang transparan kepada publik berkaitan dengan perkembangan dan pelaksanaan pengelolaan usaha Perseroan serta demi menjalankan program komunikasi pemasaran, sejak tahun 2013 bank **bjb** telah menggunakan beragam perangkat untuk menyampaikan informasi penting yang perlu diketahui para pemangku kepentingan. bank **bjb** telah menyediakan akses informasi bagi Pemegang Saham dan pemangku kepentingan untuk mendapatkan informasi lebih lanjut melalui Divisi Corporate Secretary dan Investor Relation Group.

To provide transparent information to the public regarding the Company's business development and management, as well as its marketing communications program, since 2013, bank **bjb** has utilized various tools to convey important information that stakeholders require to know. bank **bjb** has provided access to information for shareholders and stakeholders through the Corporate Secretary Division and the Investor Relations Group.

Selain itu, informasi mengenai perkembangan saham dan permodalan bank **bjb** juga dapat diakses melalui *website* Bursa Efek Indonesia (www.idx.co.id). Salah satu bentuk penyebarluasan informasi bank **bjb** kepada publik yaitu dengan melakukan siaran pers. Perseroan juga secara rutin menerbitkan buletin yang memuat informasi bagi pegawai yang diterbitkan melalui aplikasi kepegawaian HCS (*Human Capital Solutions*) dan Majalah **bjb** Prioritas.

In addition, information regarding bank **bjb**'s stock and capitalization developments could be accessed through the Indonesia Stock Exchange website (www.idx.co.id). Specifically, bank **bjb** disseminated information to the public through press releases. The company also regularly published bulletins containing information for employees, published through the HCS (Human Capital Solutions) employee application and **bjb** Prioritas Magazine.

bank **bjb** menempatkan akuntabilitas sebagai salah satu prinsip utama dalam penerapan *Corporate Governance*. Prinsip ini diwujudkan melalui kejelasan fungsi, pelaksanaan, dan pertanggungjawaban setiap organ perusahaan, sehingga pengelolaan Perseroan dapat berjalan secara efektif, transparan, dan dapat dipertanggungjawabkan kepada seluruh pemangku kepentingan. Perseroan telah menyampaikan pencapaian target dan kinerja Direksi dan Dewan Komisaris. Penilaian kinerja Direksi dilakukan secara kolektif kolegial dan individu melalui metode *self assessment*, berdasarkan parameter-parameter sesuai dengan ketentuan yang berlaku. Kinerja Direksi secara kolegial berdasarkan pencapaian target Perseroan sesuai rencana Korporasi dan Rencana Bisnis. Sedangkan kriteria atas penilaian kinerja Direksi secara individu antara lain pencapaian target dan anggaran yang telah ditetapkan pada awal tahun anggaran, pengetahuan dan pemahaman anggota Direksi atas nilai-nilai, misi, rencana strategis serta rencana usaha Bank, partisipasi Direksi dalam rapat dan lainnya.

bank **bjb** placed accountability as one of the key principles in the implementation of Corporate Governance. This principle was realized through clarity of function, implementation, and accountability of each company organ, so that the Company's management could be effective, transparent, and accountable to stakeholders. The Company had reported on the achievement of targets and the performance of the Board of Directors and the Board of Commissioners. The Board of Directors' performance was assessed collectively, collegially, and individually through self-assessment, based on parameters in accordance with applicable regulations. The Board of Directors' performance was collegially assessed based on the achievement of the Company's targets in accordance with the Corporate Plan and Business Plan. The criteria for individual Directors' performance assessments included achievement of targets and budgets established at the beginning of the fiscal year, knowledge and understanding of the Board of Directors' values, mission, strategic plan, and business plan, participation in meetings, and other criteria.

Atas pelaksanaan tugas kepengurusan Perseroan oleh Direksi, RUPS dan Dewan Komisaris memutuskan bahwa Direksi telah melaksanakan tugasnya dengan baik. Hasil penilaian kinerja Direksi secara kolektif kolegial pada tahun 2025 dinilai baik dengan pencapaian nilai sebesar 100%. Sedangkan Penilaian kinerja Dewan Komisaris dibantu oleh Komite Nominasi dan Remunerasi yang kemudian disampaikan pada RUPS melalui Laporan tugas pengawasan Dewan Komisaris dalam Laporan Tahunan Perseroan. Dewan Komisaris telah menyusun dan melaksanakan program kerja Dewan Komisaris tahun 2025 dengan memperhatikan tugas, wewenang dan kewajiban

Regarding the overall performance of the Board of Directors, the GMS and the Board of Commissioners concluded that the Board of Directors had performed its duties effectively. The 2025 collective and collegial performance assessment of the Board of Directors was deemed satisfactory, with a score of 100%. The performance assessment of the Board of Commissioners was assisted by the Nomination and Remuneration Committee, which was then submitted to the GMS through the Board of Commissioners' supervisory duties report in the Company's Annual Report. The Board of Commissioners had prepared and implemented the Board of Commissioners' 2025 work program,

Dewan Komisaris dalam hal pengawasan Perseroan sesuai dengan peraturan dan perundang-undangan yang berlaku. Atas pelaksanaan tugas pengawasan Perseroan oleh Dewan Komisaris, RUPS menyatakan bahwa Dewan Komisaris telah melaksanakan tugasnya dengan baik. Hasil penilaian kinerja Dewan Komisaris secara kolektif kolegial pada tahun 2024 dinilai baik dengan pencapaian nilai sebesar 100%.

considering the Board's duties, authorities, and obligations regarding Company supervision in accordance with applicable laws and regulations. Regarding the Board of Commissioners' performance of the Company's supervisory duties, the GMS declared that the Board of Commissioners had performed its duties satisfactorily. The 2024 collective collegial performance assessment of the Board of Commissioners was deemed satisfactory, achieving a score of 100%.

bank **bjb** juga telah menegaskan bahwa manajemen bertanggung jawab untuk membentuk dan memelihara Pengendalian Internal atas Pelaporan Keuangan (ICoFR) yang memadai sesuai dengan Peraturan OJK Nomor 15 Tahun 2024. Pengendalian ini dirancang untuk memberikan keyakinan yang memadai mengenai keandalan pelaporan keuangan dan penyusunan laporan keuangan sesuai dengan standar akuntansi yang berlaku. Manajemen berkomitmen untuk terus memperkuat kerangka pengendalian internal guna memastikan transparansi, akuntabilitas, dan kepercayaan pemangku kepentingan terhadap integritas pelaporan keuangan Bank.

bank **bjb** affirms that management is responsible for establishing and maintaining adequate Internal Control over Financial Reporting (ICoFR) in accordance with OJK Regulation No. 15 of 2024. These conrols are designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with applicable accounting standards. Managemnt remains committed to continuously strengthening the internal control framework to ensure transparency, accountability, and stakeholder confidence in the integrity of the Bank's financial reporting.

bank **bjb** juga memiliki komitmen untuk menerapkan tata kelola keberlanjutan. Hal ini diwujudkan dalam penerapan keuangan berkelanjutan. bank **bjb** senantiasa mengevaluasi realisasi atas Rencana Aksi Keuangan Berkelanjutan (RAKB) guna melakukan perbaikan secara berkesinambungan atas penerapan keuangan berkelanjutan. Tanggung jawab pelaksanaan RAKB dipercayakan kepada Direksi yang berperan sebagai pejabat eksekutif di bawah pengawasan Dewan Komisaris. Hasil dari kinerja RAKB selanjutnya akan dikomunikasikan dan dilaporkan kepada Dewan Komisaris, salah satunya melalui laporan keberlanjutan yang diterbitkan setiap tahun. Program prioritas yang telah ditetapkan bank **bjb** dalam RAKB antara lain Peningkatan Pengetahuan, Mengenai Keuangan, Berkelanjutan, Menciptakan Lingkungan Kerja yang Ramah Lingkungan Hidup, Peningkatan Ekonomi, Sosial, dan Perbaikan Lingkungan, Mendukung Peningkatan Literasi & Inklusi Keuangan Nasional, Diversifikasi Produk Keuangan Berkelanjutan.

bank **bjb** was also committed to implementing sustainable governance. The commitment was manifested in the implementation of sustainable finance. bank **bjb** continuously evaluated the implementation of the Sustainable Finance Action Plan (RAKB) to continuously improve its implementation. Responsibility for RAKB implementation was entrusted to the Board of Directors, who acted as executive officers under the supervision of the Board of Commissioners. The results of RAKB performance were then communicated and reported to the Board of Commissioners. One of the reports was through the sustainability report published annually. Priority programs established by bank **bjb** in the RAKB included Increasing Knowledge, Regarding Sustainable Finance, Creating a Green Work Environment, Improving Economic, Social, and Environmental Improvement, Supporting National Financial Literacy and Inclusion, and Diversifying Sustainable Financial Products.

bank **bjb** juga telah melakukan penguatan manajemen risiko sebagai langkah awal dalam memitigasi timbulnya dampak atas risiko iklim. bank **bjb** melaksanakan climate risk stress testing sebagai alat untuk mengukur ketahanan bank dalam menghadapi guncangan iklim. Dalam pelaksanaan *climate risk stress testing*, Perseroan mengacu kepada standar pengaturan yang dikeluarkan oleh *Basel Committee on Banking Supervision* (BCBS). BCBS mengidentifikasi risiko tersebut dengan istilah Risiko Keuangan Terkait Iklim (*Climate-Related Financial Risk*) yang bersumber dari dua kategori risiko, yaitu Risiko Fisik (*Physical Risk*) dan Risiko Transisi (*Transition Risk*). Perseroan merupakan lembaga intermediasi dengan fungsi utama menghimpun dana dari masyarakat untuk kemudian disalurkan dalam bentuk kredit. Namun demikian, dalam kegiatan usahanya Perseroan menghadapi berbagai risiko keuangan terkait iklim antara lain risiko fisik dan risiko transisi yang dapat mempengaruhi risiko keuangan bank, di antaranya risiko kredit, risiko pasar, dan risiko operasional.

bank **bjb** also strengthened risk management as a first step in mitigating the impact of climate risk. bank **bjb** conducted climate risk stress testing as a tool to measure the bank's resilience to climate shocks. In conducting climate risk stress testing, the Company referred to regulatory standards issued by the Basel Committee on Banking Supervision (BCBS). BCBS identified these risks as Climate-Related Financial Risk, which originated from two risk categories: Physical Risk and Transition Risk. The Company was an intermediary institution with the primary function of collecting funds from the public and channeling them in the form of credit. However, in its business activities, the Company dealt with various climate-related financial risks, including physical risks and transition risks that could impact the bank's financial risks, including credit risk, market risk, and operational risk.

Dalam rangka evaluasi penerapan *Good Corporate Governance* (GCG), Perseroan melaksanakan GCG *Assessment* yang dilaksanakan secara periodik dan konsisten setiap tahun yang terdiri dari *Self Assessment* sesuai ketentuan Otoritas Jasa Keuangan. Pelaksanaan *Self Assessment* tersebut dilakukan secara periodik setiap semester yaitu pada bulan Juni dan Desember pada tahun berjalan. Hasil *self assessment* pada bulan periode Januari-Juni 2025 dan periode Juli-Desember 2025 berada pada peringkat 2 (dua) yang mencerminkan Manajemen Perseroan telah melakukan penerapan Tata Kelola yang secara umum baik. Dari hasil *assessment* tersebut, Perseroan telah melakukan upaya-upaya perbaikan dengan menindaklanjuti beberapa kelemahan yang direkomendasikan berdasarkan hasil *assessment*.

To evaluate the implementation of Good Corporate Governance (GCG), the Company conducted a periodic and consistent annual GCG Assessment, consisting of a Self-Assessment in accordance with the Financial Services Authority (OJK) regulations. The Self-Assessment was conducted periodically every semester, such as in June and December of the current year. The self-assessment results for the January-June 2025 and July-December 2025 periods were ranked 2 (two), reflecting that the Company's Management had implemented generally good Governance. Based on these assessments, the Company implemented improvement efforts by addressing several weaknesses recommended based on the assessment results.

Penilaian Komite di Bawah Direksi

Dalam melaksanakan tugas kepengurusannya, Direksi dibantu oleh Komite di bawah Direksi sebanyak 6 (enam) Komite, yaitu:

1. Komite Manajemen Risiko
2. Komite Kebijakan Perkreditan
3. Komite Pengarah Teknologi Informasi
4. Komite Manajemen Risiko Terintegrasi
5. Assets and Liability Committee (ALCO)
6. Komite Risiko Permodalan

Prosedur penilaian kinerja Komite di bawah Direksi dilakukan oleh Direksi dengan memberikan evaluasi sesuai kriteria yang telah ditetapkan melalui rapat Direksi secara berkala. Adapun kriteria yang digunakan dalam penilaian Direksi terhadap kinerja Komite di bawah Direksi yaitu berdasarkan pelaksanaan tugas masing-masing Komite di bawah Direksi. Selama tahun 2025, Direksi menilai bahwa komite di bawah Direksi telah menjalankan tugas dan tanggungjawabnya dengan baik.

Assessment of The Committee Under The Board of Directors

To perform its management duties, the Board of Directors is assisted by six committees under the Board of Directors, as follows:

1. Risk Management Committee
2. Credit Policy Committee
3. Information Technology Steering Committee
4. Integrated Risk Management Committee
5. Assets and Liability Committee (ALCO)
6. Capital Risk Committee

The performance assessment procedures for the committees under the Board of Directors are performed by the Board of Directors by providing evaluations based on criteria established through regular Board of Directors meetings. The criteria used in the Board of Directors' assessment of the performance of the committees under the Board of Directors are based on the implementation of each committee's duties. During 2025, the Board of Directors assessed that the committees under the Board of Directors had carried out their duties and responsibilities effectively.

Perubahan Komposisi Anggota Direksi

Selama tahun 2025, telah terjadi perubahan komposisi anggota Direksi. Perubahan komposisi anggota Direksi dilakukan berdasarkan kebutuhan Perseroan. Perubahan komposisi anggota Direksi adalah sebagai berikut:

KOMPOSISI DIREKSI SEBELUM RUPS TAHUNAN TAHUN BUKU 2024

Komposisi Direksi sebelum RUPS Tahunan Tahun Buku 2024 sebanyak 7 (tujuh) orang yang terdiri dari 1 (satu) orang Direktur Utama, 6 (enam) orang Direksi sebagai berikut:

Changes to The Composition of Members of The Board of Directors

During 2025, there were changes to the composition of the Board of Directors. These changes were made based on the Company's needs. The changes to the composition of the Board of Directors are as follows:

COMPOSITION OF THE BOARD OF DIRECTORS BEFORE THE ANNUAL GMS FOR THE 2024 FISCAL YEAR

The composition of the Board of Directors before the Annual GMS for the 2024 Fiscal Year was 7 (seven) people, consisting of 1 (one) President Director, 6 (six) Directors, as follows:

Yuddy Renaldi	:	Direktur Utama

Joko Hartono Kalisman	:	Direktur Kepatuhan

KOMPOSISI DIREKSI SETELAH RUPS LUAR BIASA TAHUN 2025

Pada tanggal 9 Desember 2025, RUPS Luar Biasa memutuskan:

1. Membatalkan dengan hormat pengangkatan Joko Hartono Kalisman selaku Direktur Kepatuhan.
2. Memberhentikan dengan hormat Direktur Utama Almarhum Yusuf Saadudin, berlaku efektif sejak tanggal 14 November 2025.
3. Menetapkan Ayi Subarna sebagai Direktur Pengganti Direktur Utama Perseroan.

Yuddy Renaldi	:	President Director
Tedi Setiawan	:	Director of Operations
Rio Lanasier	:	Director of Information Technology, Treasury & International Banking
Nancy Adistyasari	:	Director of Commercial and MSME
Cecep Trisna	:	Director of Compliance
Hana Dartiwan	:	Director of Finance
Yusuf Saadudin	:	Director of Consumer and Retail

COMPOSITION OF THE BOARD OF DIRECTORS AFTER THE ANNUAL GMS FOR THE 2024 FISCAL YEAR

On April 16, 2025, the Annual GMS for the 2024 fiscal year resolved:

1. Accepting the resignation of Yuddy Renaldi as President Director.
2. Confirming the honorable dismissal of Nancy Adistyasari as Director of Commercial and MSMEs.
3. Honorably dismissing Rio Lanasier as Director of IT & Transaction Banking, Tedi Setiawan as Director of Operations, and Cecep Trisna as Director of Compliance.
4. Changing the duties and authorities of Yusuf Saadudin, who previously served as Director of Consumer and Retail, to President Director.
5. Nominating Nunung Suhartini as Director of Consumer and Retail, Mulyana as Director of Corporate and MSMEs, Ayi Subarna as Director of Operations and Information Technology, and Joko Hartono Kalisman as Director of Compliance.

Therefore, the composition of the Board of Directors after the Annual GMS for the 2024 Fiscal Year was 6 (six) members, consisting of 1 (one) President Director and 5 (five) Directors as follows:

Yusuf Saadudin	:	President Director
Hana Dartiwan	:	Director of Finance
Nunung Suhartini	:	Director of Consumer and Retail
Mulyana	:	Director of Corporate and MSME
Ayi Subarna	:	Director of Operations and Information Technology
Joko Hartono Kalisman	:	Director of Compliance

COMPOSITION OF THE BOARD OF DIRECTORS AFTER THE EXTRAORDINARY GMS FOR THE 2025 FISCAL YEAR

On December 9, 2025, the Extraordinary GMS resolved:

1. Honorably revoking the nomination of Joko Hartono Kalisman as Director of Compliance.
2. Honorably dismissing the late President Director, Yusuf Saadudin, effectively as of November 14, 2025.
3. Nominating Ayi Subarna as the Company's acting President Director.

Sehingga komposisi Direksi setelah RUPS Luar Biasa Tahun 2025 sebanyak 4 (empat) orang Direksi sebagai berikut:

Ayi Subarna*	:	Direktur Operasional dan Teknologi Informasi
Hana Dartiwan**	:	Direktur Keuangan
Nunung Suhartini	:	Direktur Konsumer dan Ritel
Mulyana	:	Direktur Korporasi dan UMKM

* Bertindak selaku Direktur Pengganti Direktur Utama berdasarkan Surat Keputusan Direksi No. 0656/SK/DIR-CSE/2025 tanggal 15 November 2025.
** Ditetapkan selaku Direktur yang membawahkan Divisi Kepatuhan & APU PPT berdasarkan Surat Keputusan Direksi No. 0123/SK-DIR-CSE/2025 tanggal 21 April 2025.

Therefore, the composition of the Board of Directors after the 2025 Extraordinary GMS was 4 (four) Directors, as follows:

Ayi Subarna*	:	Director of Operations and Information Technology
Hana Dartiwan**	:	Director of Finance
Nunung Suhartini	:	Director of Consumer and Retail
Mulyana	:	Director of Corporate and MSME

* Served as Acting President Director based on Board of Directors Decree No. 0656/SK/DIR-CSE/2025 dated November 15, 2025
** Appointed as the Director in charge of the Compliance & APU PPT Division based on Board of Directors Decree No. 0123/SK-DIR-CSE/2025 dated April 21, 2025

Penutup

Direksi memberikan penghargaan yang setinggi-tingginya atas kepercayaan, komitmen dan kerja sama dari seluruh pemangku kepentingan, khususnya kepada jajaran tim manajemen dan seluruh pegawai yang telah bekerja keras menghadapi perekonomian yang penuh tantangan. Direksi mengucapkan terima kasih atas kerja keras dari tim manajemen dan seluruh pegawai sehingga bank **bjb** mampu memperoleh kinerja yang baik di tahun 2025.

Direksi memberikan penghargaan yang setinggi-tingginya atas arahan yang diberikan oleh Dewan Komisaris yang sangat memberikan kontribusi dalam pencapaian kinerja bank **bjb**. Direksi juga mengucapkan penghargaan yang setinggi-tingginya kepada pemegang saham, nasabah dan mitra kerja bank **bjb**. Atas dukungan yang diberikan selama ini, bank **bjb** mampu bertahan dan bahkan senantiasa menunjukkan pencapaian kinerja yang baik.

bank **bjb** akan terus berupaya untuk memperkuat posisi untuk menjadi bank pilihan utama masyarakat dengan fokus pada inovasi, digitalisasi, serta peningkatan kualitas layanan, dengan tetap mengedepankan prinsip kehati-hatian, sebagai modal penting bagi Perseroan dalam menghadapi tantangan ke depan. Dengan semangat kolaborasi dan inovasi, bank **bjb** optimis dapat terus tumbuh dan memberikan kontribusi nyata bagi perekonomian daerah dan nasional.

Closing

The Board of Directors expressed its highest appreciation for the trust, commitment, and cooperation of all stakeholders, especially the management team and employees who had worked hard in facing the challenging economic conditions. The Board of Directors also thanked the hard work of the management team and employees, which had enabled bank **bjb** to achieve strong performance in 2025.

The Board of Directors addressed its highest appreciation for the direction provided by the Board of Commissioners, which had significantly contributed to bank **bjb**'s performance. The Board of Directors also expressed its highest appreciation to bank **bjb**'s shareholders, customers, and business partners. Thanks to their support, bank **bjb** could survive and consistently demonstrate strong performance.

Going forward, bank **bjb** will continue to strive to strengthen its position as the bank of choice for the public by focusing on innovation, digitalization, and improving service quality, while prioritizing the principle of prudence, as a crucial asset for the Company in facing future challenges. Having a spirit of collaboration and innovation, bank **bjb** is optimistic that it can continue to grow and make a real contribution to the regional and national economy.

Laporan Dewan Komisaris
Board of Commissioner's Report

Para Pemegang Saham dan Pemangku Kepentingan yang Terhormat,

Puji syukur kehadirat Allah SWT, Tuhan Yang Maha Esa karena atas berkat rahmat dan karunia-Nya, di tengah dinamika perekonomian global yang masih mengalami ketidakpastian serta perubahan lanskap bisnis yang semakin cepat, bank bjb mampu menunjukkan ketahanan kinerja yang baik melalui strategi yang adaptif dan pengelolaan risiko yang *prudent*.

Dear Shareholders and Stakeholders,

Praise be to God Almighty, for by His grace and blessings, amidst the dynamics of a global economy still experiencing uncertainty and an increasingly rapid change in the business landscape, bank **bjb** can demonstrate strong performance resilience through adaptive strategies and prudent risk management.

Rudie Kusmayadi*
Komisaris
Commissioner

* Koordinator Dewan Komisaris yang menjalankan fungsi koordinatif selama jabatan Komisaris Utama belum terisi secara definitif berdasarkan keputusan Rapat Dewan Komisaris. / Coordinator of the Board of Commissioners who performs a coordinating function during the period in which the position of President Commissioners has not been definitively filled, based on a resolution of the Board of Commissioners.

Berikut kami sampaikan laporan pengawasan dan pemberian nasihat Dewan Komisaris terhadap jalannya kepengurusan Perseroan untuk tahun buku 2025 yang terdiri dari penilaian atas kinerja Direksi selama tahun 2025, pandangan atas prospek usaha yang di susun oleh Direksi, penerapan tata kelola perusahaan yang baik, penilaian atas Komite di bawah Dewan Komisaris dan perubahan komposisi Dewan Komisaris.

Penilaian Kinerja Direksi

Dewan Komisaris secara konsisten menjalankan fungsi pengawasan dan pemberian nasihat kepada Direksi guna memastikan bahwa pengelolaan Perseroan dilakukan secara efektif, selaras dengan prinsip *Corporate Governance*, serta berorientasi pada penciptaan nilai jangka panjang bagi pemegang saham dan pemangku kepentingan lainnya. Sepanjang tahun 2025, Dewan Komisaris secara aktif melakukan pengawasan terhadap pelaksanaan strategi yang telah ditetapkan Direksi. Pengawasan tersebut dilakukan melalui rapat berkala, evaluasi kinerja, serta pembahasan bersama Direksi atas berbagai isu strategis yang dihadapi Perseroan.

Frekuensi dan Cara Pemberian Nasihat Kepada Direksi

Pemberian nasihat dilakukan secara berkala melalui rapat Dewan Komisaris dengan Direksi yang diselenggarakan secara rutin, baik dalam forum rapat gabungan maupun rapat-rapat khusus sesuai kebutuhan. Pelaksanaan rapat tersebut disesuaikan dengan kompleksitas dan dinamika kegiatan usaha Perseroan, serta isu-isu strategis yang memerlukan perhatian dan arahan dari Dewan Komisaris. Selain itu, nasihat juga diberikan melalui rapat komite di bawah Dewan Komisaris, seperti Komite Audit, Komite Pemantau Risiko, Komite Remunerasi dan Nominasi, serta Komite Tata Kelola Terintegrasi yang membahas aspek-aspek spesifik secara lebih mendalam. Selama tahun 2025, Rapat Gabungan Dewan Komisaris mengundang Direksi telah dilaksanakan sebanyak 40 (empat puluh) kali.

Di luar forum formal, Dewan Komisaris juga memberikan nasihat secara insidentil melalui komunikasi langsung dengan Direksi, baik dalam bentuk surat resmi, memorandum, maupun diskusi informal. Mekanisme ini memungkinkan Dewan Komisaris untuk merespons secara cepat terhadap perkembangan situasi dan memberikan arahan strategis yang tepat waktu. Nasihat yang diberikan mencakup berbagai aspek, antara lain perumusan dan implementasi strategi, pengelolaan risiko, peningkatan kinerja keuangan dan operasional, penguatan tata kelola, serta kepatuhan terhadap peraturan perundang-undangan. Setiap nasihat disampaikan secara konstruktif, objektif, dan berbasis pada hasil evaluasi serta analisis yang komprehensif.

We would like to submit the Board of Commissioners' supervisory and advisory report on the Company's management for the 2025 fiscal year, which include an assessment of the Board of Directors' 2025 performance, views on business prospects prepared by the Board of Directors, the implementation of good corporate governance, an assessment of the Committees under the Board of Commissioners, and changes to the composition of the Board of Commissioners.

Board of Director Performance Assessment

The Board of Commissioners consistently performs its supervisory and advisory functions to the Board of Directors to ensure that the Company's management is carried out effectively, in line with the principles of Corporate Governance, and oriented towards creating long-term value for shareholders and other stakeholders. Throughout 2025, the Board of Commissioners actively monitored the implementation of strategies established by the Board of Directors. The supervision was conducted through regular meetings, performance evaluations, and discussions with the Board of Directors on various strategic issues dealing with the Company.

Frequency and Methods of Providing Advice to The Board of Directors

Advice is provided periodically through regular meetings between the Board of Commissioners and the Board of Directors, held either in joint meetings or at special meetings as needed. These meetings are tailored to the complexity and dynamics of the Company's business activities, as well as strategic issues requiring the attention and direction of the Board of Commissioners. Advice is also provided through committee meetings under the Board of Commissioners, such as the Audit Committee, the Risk Monitoring Committee, the Remuneration and Nomination Committee, and the Integrated Governance Committee which discuss specific aspects in greater depth. During 2025, 40 Joint Meetings of the Board of Commissioners with the Board of Directors were held.

Outside of formal forums, the Board of Commissioners also provides incidental advice through direct communication with the Board of Directors, either in the form of official letters, memoranda, or informal discussions. This mechanism enables the Board of Commissioners to respond quickly to evolving situations and provide timely strategic direction. The advice provided covers various aspects, including strategy formulation and implementation, risk management, improving financial and operational performance, strengthening governance, and compliance with laws and regulations. Each piece of advice is delivered constructively, objectively, and based on comprehensive evaluation and analysis.

Sebagai bagian dari pelaksanaan tugas dan tanggung jawabnya, Dewan Komisaris terus berupaya untuk mendorong pelaksanaan pengawasan yang semakin efektif. Selama 2025, Dewan Komisaris telah mengeluarkan beberapa keputusan dan persetujuan, antara lain:

1. Memberikan persetujuan terhadap penyediaan dana kepada pihak terkait.
2. Persetujuan Penyesuaian RBB bank **bjb** Tahun 2025 – 2027.
3. Persetujuan Penyesuaian Struktur Organisasi bank **bjb**.
4. Persetujuan terhadap *Recovery Plan* bank **bjb** Tahun 2025.
5. Persetujuan RBB bank **bjb** Tahun 2026 – 2028.
6. Persetujuan Rencana Aksi Keuangan Berkelanjutan (RAKB) Tahun 2026.
7. Persetujuan *Corporate Plan* bank **bjb** Tahun 2026 – 2030.
8. Persetujuan *Corporate Plan* Perusahaan Induk Konglomerasi Keuangan Tahun 2026 – 2030.

Pengawasan Dewan Komisaris dalam Perumusan dan Implementasi Strategi yang Dilakukan oleh Direksi

Dewan Komisaris senantiasa melakukan fungsi pengawasan secara aktif dan berkelanjutan terhadap proses perumusan dan implementasi strategi yang dilakukan oleh Direksi, guna memastikan bahwa arah kebijakan dan langkah strategis Perseroan selaras dengan visi, misi, serta kepentingan jangka panjang perusahaan. Dalam tahap perumusan strategi, Dewan Komisaris memberikan arahan dan masukan strategis terhadap Rencana Bisnis Bank (RBB) yang disusun oleh Direksi. Pengawasan dilakukan melalui pembahasan intensif dalam rapat Dewan Komisaris bersama Direksi, dengan menelaah asumsi makroekonomi, proyeksi kinerja, strategi pertumbuhan, serta kecukupan manajemen risiko yang mendasari rencana tersebut. Dewan Komisaris memastikan bahwa strategi yang dirumuskan telah mempertimbangkan prinsip kehati-hatian (*prudential banking*), aspek keberlanjutan, serta dinamika industri perbankan.

Sedangkan pengawasan terhadap implementasi strategi, Dewan Komisaris melakukan pengawasan melalui mekanisme *monitoring* dan evaluasi berkala atas pelaksanaan strategi. Hal ini dilakukan dengan menelaah laporan kinerja Direksi, membandingkan realisasi dengan target yang telah ditetapkan, serta mengidentifikasi potensi deviasi dan risiko yang muncul. Dewan Komisaris juga memberikan rekomendasi perbaikan dan arahan strategis guna memastikan implementasi berjalan efektif dan tetap berada pada jalur yang telah direncanakan.

Pengawasan turut diperkuat melalui peran komite-komite di bawah Dewan Komisaris, seperti Komite Audit, Komite Pemantau Risiko, Komite Remunerasi dan Nominasi, serta Komite Tata Kelola Terintegrasi yang melakukan kajian lebih mendalam terhadap aspek-aspek spesifik dalam implementasi

To perform its duties and responsibilities, the Board of Commissioners continues to strive to promote increasingly effective oversight. During 2025, the Board of Commissioners issued several decisions and approvals, including:

1. Approving the provision of funds to related parties.
2. Approving the Adjustment to the 2025-2027 bank **bjb** Business Plan (RBB).
3. Approving the Adjustment to the bank **bjb** Organizational Structure.
4. Approving the 2025 bank **bjb** Recovery Plan.
5. Approving the 2026-2028 bank **bjb** Business Plan (RBB).
6. Approving the 2026 Sustainable Finance Action Plan (RAKB).
7. Approving the 2026-2030 bank **bjb** Corporate Plan.
8. Approving the 2026-2030 Corporate Plan of the Financial Conglomerate Holding Company.

Supervision by The Board of Commissioners in The Formulation and Implementation of Strategies Undertaken by The Board of Directors

The Board of Commissioners consistently and continuously supervises the strategy formulation and implementation process undertaken by the Board of Directors, ensuring that the Company's policy direction and strategic initiatives align with the Company's vision, mission, and long-term interests. During the strategy formulation phase, the Board of Commissioners provides strategic direction and input to the Bank Business Plan (RBB) prepared by the Board of Directors. Supervision is conducted through intensive discussions in joint Board of Commissioners meetings with the Board of Directors, reviewing macroeconomic assumptions, performance projections, growth strategies, and the adequacy of the risk management underlying the plan. The Board of Commissioners ensures that the formulated strategy takes into account prudential banking principles, sustainability aspects, and banking industry dynamics.

Supervision of strategy implementation is carried out by the Board of Commissioners through periodic monitoring and evaluation mechanisms. The supervision is accomplished by reviewing the Board of Directors' performance reports, comparing actual results with established targets, and identifying potential deviations and emerging risks. The Board of Commissioners also provides recommendations for improvements and strategic direction to ensure implementation is effective and remains on track.

Moreover, supervision is strengthened through the role of committees under the Board of Commissioners, such as the Audit Committee, the Risk Monitoring Committee, the Remuneration and Nomination Committee, and the Integrated Governance Committee which conduct in-depth reviews of

strategi. Hasil pembahasan komite menjadi bahan pertimbangan bagi Dewan Komisaris dalam memberikan nasihat dan rekomendasi kepada Direksi.

Selain itu, Dewan Komisaris menjaga intensitas komunikasi dengan Direksi, baik melalui forum formal maupun komunikasi insidentil, guna merespons secara cepat terhadap perubahan kondisi eksternal maupun internal yang dapat memengaruhi pencapaian strategi. Pendekatan ini memungkinkan adanya penyesuaian strategi secara tepat waktu dan terukur.

Kondisi Perekonomian yang Secara Langsung Berdampak terhadap Kinerja Perseroan

Dinamika geopolitik dan perekonomian global terus memberikan tekanan signifikan terhadap arah kebijakan moneter bank-bank sentral serta stabilitas pasar keuangan dunia. Ketidakpastian global tetap tinggi, dipicu oleh berlanjutnya konflik Rusia-Ukraina, eskalasi ketegangan geopolitik di Timur Tengah, serta fragmentasi perdagangan global akibat kebijakan tarif AS. Kondisi tersebut meningkatkan volatilitas pasar keuangan dan menahan arus perdagangan serta investasi internasional. Seiring dengan meredanya tekanan inflasi global dan melemahnya momentum pertumbuhan ekonomi di sejumlah negara maju, bank-bank sentral mulai memasuki fase pelonggaran kebijakan moneter. Bank Sentral AS (The Fed) menurunkan Federal Funds Rate (FFR) pada September 2025 ke kisaran 3,50%–3,75%, sebagai bagian dari upaya menyeimbangkan perlambatan ekonomi dan pasar tenaga kerja dengan inflasi yang mulai menurun.

Meskipun perekonomian global masih melambat, ekonomi Indonesia tumbuh sebesar 5,39% (yoy) pada Triwulan-IV 2025, mencatatkan pertumbuhan kuartalan tertinggi sejak periode pasca pandemi COVID-19 serta mendorong pertumbuhan tahunan sebesar 5,11% (yoy) sepanjang 2025. Dari sisi lapangan usaha, kinerja ekonomi 2025 tetap solid dengan sektor industri pengolahan tumbuh 5,40% (yoy) pada Triwulan IV 2025 dan 5,30% (yoy) sepanjang tahun 2025, didorong permintaan domestik, pemulihan global, serta kebijakan hilirisasi dan penguatan daya saing industri. Sektor perdagangan juga tumbuh kuat 6,07% (yoy) pada Triwulan IV 2025 dan 5,49% (yoy) sepanjang tahun 2025 seiring peningkatan pasokan, distribusi, dan konsumsi, sementara sektor pertanian tumbuh 5,14% (yoy) pada Triwulan IV 2025 dan 5,33% (yoy) sepanjang tahun 2025, ditopang produksi tanaman pangan dan dukungan kebijakan.

Di sisi lain, sektor transportasi serta akomodasi dan makan minum menunjukkan kinerja tinggi seiring peningkatan mobilitas dan pariwisata, sedangkan sektor informasi dan komunikasi tumbuh 8,09% (yoy) pada Triwulan IV 2025 dan 8,35% (yoy) sepanjang tahun 2025 didorong akselerasi

specific aspects of strategy implementation. The results of these committee discussions serve as considerations for the Board of Commissioners in providing advice and recommendations to the Board of Directors.

The Board of Commissioners maintains frequent communication with the Board of Directors, both through formal forums and incidental communications, to respond quickly to changes in external and internal conditions that could impact the achievement of the strategy. This approach allows for timely and measurable strategy adjustments.

Economic Conditions Directly Affecting The Company's Performance

Global geopolitical and economic dynamics continue to exert significant pressure on the direction of central banks' monetary policies and the stability of global financial markets. Global uncertainty remains high, fueled by the ongoing Russia-Ukraine conflict, escalating geopolitical tensions in the Middle East, and the fragmentation of global trade due to US tariff policies. These conditions increase financial market volatility and restrain international trade and investment flows. As global inflationary pressures subside and economic growth momentum weakens in several developed countries, central banks are beginning to ease monetary policy. The US Federal Reserve (The Fed) lowered the Federal Funds Rate (FFR) in September 2025 to a range of 3.50%–3.75%, as part of an effort to balance the economic and labor market slowdown with declining inflation.

Despite the continued slowdown in the global economy, Indonesia's economy grew by 5.39% (yoy) in Q4 2025, marking the highest quarterly growth since the post-COVID-19 pandemic period and bringing full-year growth to 5.11% (yoy) for 2025. From the production side, economic performance in 2025 remained solid, with the manufacturing sector growing by 5.40% (yoy) in Q4 2025 and 5.30% (yoy) for the full year, supported by domestic demand, global recovery, as well as downstream policies and enhanced industrial competitiveness. The trade sector also recorded strong growth of 6.07% (yoy) in Q4 2025 and 5.49% (yoy) for the full year, in line with increased supply, distribution, and consumption, while the agricultural sector grew by 5.14% (yoy) in Q4 2025 and 5.33% (yoy) for the full year, supported by food crop production and policy support.

On the other hand, the transportation as well as accommodation and food services sectors showed strong performance in line with increased mobility and tourism, while the information and communication sector grew by 8.09% (yoy) in Q4 2025 and 8.35% (yoy) for the full year, driven by accelerated

digitalisasi. Namun demikian, sektor pertambangan masih terkontraksi sebesar 1,31% (yoy) pada Triwulan IV 2025 dan 0,66% (yoy) sepanjang tahun 2025 akibat penurunan kinerja komoditas dan penyesuaian struktur menuju hilirisasi.

Dari sisi perbankan, sektor perbankan mampu menunjukan resiliensi yang kuat dengan permodalan yang terjaga pada level tinggi dan kinerja intermediasi yang tetap stabil meskipun dalam situasi global yang penuh dengan tantangan. Sejumlah indikator utama perbankan seperti pertumbuhan kredit dan DPK bank umum mencatatkan pertumbuhan yang positif. Pertumbuhan kredit pada November 2025 tumbuh sebesar 7,74% (yoy) menjadi sebesar Rp8.314,48 triliun, yang didorong oleh pertumbuhan pada sektor pengangkutan dan pergudangan sebesar 18,33%, pengadaan listrik, gas, dan air sebesar 21,83%, industri pertambangan sebesar 11,0%, serta konstruksi sebesar 8,14%. Pembiayaan perbankan syariah tumbuh sebesar 7,67% (yoy), sementara kredit UMKM terkontraksi 0,64% (yoy). Di sisi lain, pada November 2025, Dana Pihak Ketiga (DPK) tercatat mengalami pertumbuhan tinggi mencapai 12,03% (yoy) yang meningkat dari tahun sebelumnya, yaitu 11,48% (yoy). Kualitas kredit Bank Umum juga membaik dengan rasio NPL Gross November 2025 yang terjaga rendah sebesar 2,04%.

Kinerja Perseroan

Dewan Komisaris menilai bahwa Direksi telah menjalankan tugas dan tanggung jawabnya dengan baik, tercermin dari pencapaian kinerja yang positif serta kemampuan dalam menjaga stabilitas operasional di tengah tantangan eksternal. Upaya Direksi dalam memperkuat sinergi melalui Kelompok Usaha Bank (KUB), meningkatkan kualitas layanan, serta mengembangkan inovasi digital merupakan langkah strategis yang tepat dalam memperkuat daya saing bank **bjb**.

Pada tahun 2025, total *outstanding* kredit bank **bjb** sebesar Rp112,60 triliun. Komposisi portofolio kredit terbesar pada tahun 2025 berasal dari kredit konsumer yang mencapai 48,79% dari total penyaluran kredit bank **bjb**. Secara nominal, penyaluran kredit konsumer meningkat menjadi Rp54,94 triliun atau tumbuh sebesar 3,29% dibandingkan dengan tahun 2024 yang tercatat sebesar Rp53,19 triliun. Total Dana Pihak Ketiga Konsumer tahun 2025 mencapai Rp46,68 triliun, meningkat 1,63% atau Rp747,63 miliar dibandingkan dengan tahun 2024 yang mencapai Rp45,93 triliun.

Selain kinerja operasional, pencapaian yang baik juga terlihat dari sisi keuangan. Pendapatan bunga dan syariah pada tahun 2025 tercatat sebesar Rp17,09 triliun, meningkat 7,69% dibandingkan tahun 2024 sebesar Rp15,87 triliun. Peningkatan pendapatan bunga dan syariah secara tidak langsung meningkatkan laba tahun berjalan Perseroan. Laba tahun berjalan pada tahun 2025 tercatat sebesar Rp1,58

digitalization. However, the mining sector remained in contraction, declining by 1.31% (yoy) in Q4 2025 and 0.66% (yoy) for the full year, due to weaker commodity performance and structural adjustments toward downstreaming.

In terms of the banking perspective, the banking sector demonstrated strong resilience, maintained high levels of capital, and secured stable intermediation performance, despite the challenging global environment. Several key banking indicators, such as credit growth and third-party funds (TPF) at commercial banks, recorded positive growth. Credit growth in November 2025 was projected to reach 7.74% (yoy) to IDR8,314.48 trillion, driven by growth in the transportation and warehousing sector (18.33%), electricity, gas, and water supply (21.83%), mining (11.0%), and construction (8.14%). Sharia banking financing grew by 7.67% (yoy), while MSME loans contracted by 0.64% (yoy). Furthermore, in November 2025, Third Party Funds (TPF) recorded high growth of 12.03% (yoy), an increase from 11.48% (yoy) in the previous year. Commercial Bank credit quality also improved, with the Gross NPL ratio maintained at a low 2.04% in November 2025.

The Company's Performance

The Board of Commissioners assessed that the Board of Directors had carried out its duties and responsibilities effectively, as reflected in its positive performance and ability to maintain operational stability amidst external challenges. The Board of Directors' efforts to strengthen synergies through the Bank Business Group (BBG), improved service quality, and develop digital innovation were strategic steps to strengthen bank **bjb**'s competitiveness.

In 2025, bank **bjb**'s total outstanding credit reached IDR112.60 trillion. Consumer loans comprised the largest portion of the 2025 loan portfolio, accounting for 48.79% of bank **bjb**'s total loan disbursement. Nominally, consumer loans increased to IDR54.94 trillion, representing an increase of 3.29% compared to IDR53.19 trillion in 2024. Total consumer third-party funds achieved IDR46.68 trillion in 2025, representing an increase of 1.63%, or IDR747.63 billion, compared to IDR45.93 trillion in 2024.

In addition to operational performance, strong financial performance was also evident. The 2025 interest and sharia income was recorded at IDR17.09 trillion, an increase of 7.69% compared to IDR15.87 trillion in 2024. The increase in interest and Sharia income indirectly increased the Company's current year profit. The 2025 current year profit was recorded at IDR1.58 trillion, an increase of 8.86% compared to IDR1.46

triliun, meningkat 8,86% dibandingkan tahun 2024 sebesar Rp1,46 triliun. Aset per 2025 tercatat sebesar Rp221,35 triliun, meningkat sekitar 0,63% dibandingkan 2024 sebesar Rp219,96 triliun. Kemudian, total ekuitas pada tahun 2025 tercatat sebesar Rp20,82 triliun, meningkat 6,02% dibandingkan tahun 2024 sebesar Rp19,64 triliun.

Selain kinerja operasional dan keuangan, tingkat kesehatan bank juga menjadi salah satu pertimbangan Dewan Komisaris dalam melakukan penilaian atas kinerja Direksi. Peringkat Komposit Tingkat Kesehatan bank **bjb** posisi 31 Desember 2025 berada pada PK 2 (Sehat). Kondisi bank **bjb** secara umum sehat, sehingga dinilai mampu menghadapi pengaruh negatif yang signifikan dari perubahan kondisi bisnis dan faktor eksternal lainnya. Hal ini tercermin dari peringkat faktor penilaian antara lain profil risiko, penerapan tata kelola, rentabilitas, dan permodalan yang secara umum baik. Dalam hal terdapat kelemahan, maka secara umum kelemahan tersebut kurang signifikan.

Pandangan Atas Prospek Usaha yang Disusun Direksi

Memasuki tahun 2026, perekonomian global diperkirakan masih dibayangi oleh berbagai ketidakpastian. Dana Moneter Internasional (IMF) memproyeksikan pertumbuhan ekonomi global diperkirakan melambat berada di kisaran sekitar 3,1%. Meningkatnya risiko geopolitik global menambah ketidakpastian prospek ekonomi dunia. Pada saat yang sama, keterbatasan ruang fiskal di sejumlah negara maju, seiring tingginya tingkat utang publik dan kebutuhan konsolidasi fiskal pasca pandemi, membatasi kapasitas kebijakan fiskal untuk memberikan stimulus tambahan bagi perekonomian. Kombinasi berbagai faktor tersebut menyebabkan pemulihan ekonomi global berlangsung secara moderat dan tidak merata antar negara, serta secara keseluruhan menahan prospek pertumbuhan ekonomi global dalam jangka menengah.

Di tengah dinamika global tersebut, perekonomian nasional Indonesia pada tahun 2026 diproyeksikan tetap menunjukkan kinerja yang solid dan stabil. Kementerian Keuangan memperkirakan pertumbuhan ekonomi Indonesia mencapai sebesar 5,4%, didukung oleh terjaganya permintaan domestik, keberlanjutan agenda reformasi struktural, serta efektivitas bauran kebijakan fiskal dalam menjaga momentum pemulihan ekonomi. Sejalan dengan itu, Bank Indonesia memproyeksikan pertumbuhan ekonomi berada pada kisaran 4,9%-5,7%, mencerminkan ketahanan konsumsi rumah tangga, meningkatnya kontribusi investasi, serta dukungan kebijakan moneter dan makroprudensial yang akomodatif dan terkoordinasi dengan kebijakan fiskal.

Industri perbankan Indonesia pada 2026 diproyeksikan tetap tumbuh positif, meski harus menghadapi dinamika global dan

trillion in 2024. The 2025 assets were recorded at IDR221.35 trillion, an increase of approximately 0.63% compared to IDR219.96 trillion in 2024. Furthermore, total equity in 2025 was recorded at IDR20.82 trillion, an increase of 6.02% compared to IDR19.64 trillion in 2024.

In terms of the operational and financial performance, the bank's soundness was also a consideration for the Board of Commissioners in assessing the Board of Directors' performance. bank **bjb**'s Composite Rating as of December 31, 2025, is at CR 2 (Sound). bank **bjb**'s overall soundness was considered sound, and could be deal with significant negative impacts from changing business conditions and other external factors. The soundness was reflected in the generally sound rating of assessment factors, including risk profile, governance implementation, profitability, and capitalization. Weaknesses were generally considered less significant
.

Views on Business Prospects Prepared by The Board of Directors

Entering 2026, the global economy is expected to remain shrouded in uncertainty. The International Monetary Fund (IMF) projects that global economic growth will slow to around 3.1%. Rising global geopolitical risks add to the uncertainty of the global economic outlook. At the same time, limited fiscal space in several developed countries, coupled with high levels of public debt and the need for post-pandemic fiscal consolidation, limits the capacity of fiscal policy to provide additional stimulus to the economy. This combination of factors has caused the global economic recovery to be moderate and uneven across countries, and overall, has restrained the prospects for global economic growth in the medium term.

Amid these global dynamics, Indonesia's national economy was projected to continuously show solid and stable performance in 2026. The Ministry of Finance estimated that Indonesia's economic growth would reach 5.4%, supported by maintained domestic demand, the sustainability of the structural reform agenda, and the effectiveness of the fiscal policy mix in maintaining the momentum of economic recovery. Accordingly, Bank Indonesia projected economic growth in the range of 4.9%-5.7%, reflecting resilient household consumption, increasing investment contributions, and support from accommodative monetary and macroprudential policies coordinated with fiscal policy.

The Indonesian banking industry is projected to maintain positive growth in 2026, despite facing uncertain global and

nasional yang penuh ketidakpastian. Mencermati berbagai tantangan dan peluang yang dihadapi industri perbankan, serta arah kebijakan yang akan ditempuh ke depan, Bank Indonesia memproyeksikan pertumbuhan kredit pada kisaran 8%–12%. Proyeksi ini sejalan dengan perkiraan Otoritas Jasa Keuangan yang memproyeksikan Dana Pihak Ketiga (DPK) berpotensi tumbuh sekitar 7%–9%, didukung oleh stabilitas makroekonomi yang terjaga, inflasi yang terkendali, serta tetap kuatnya kepercayaan masyarakat terhadap sistem keuangan nasional. Dengan demikian, secara fundamental, ruang ekspansi intermediasi perbankan pada tahun mendatang masih relatif terbuka.

national dynamics. Considering the various challenges and opportunities facing the banking industry, as well as the future policy direction, Bank Indonesia projected credit growth in the range of 8%-12%. This projection aligned with the Financial Services Authority, estimating that Third Party Funds (TPF) had the potential to grow by around 7%-9%, supported by maintained macroeconomic stability, controlled inflation, and continued strong public confidence in the national financial system. Therefore, fundamentally, there was still relatively room for expansion in banking intermediation in the coming year.

Meskipun demikian, prospek pertumbuhan tersebut tidak terlepas dari berbagai tantangan struktural yang masih membayangi industri. Tingginya biaya dana (*Cost of Fund*/CoF) akibat dominasi dana mahal, khususnya deposito berjangka, terus menekan ruang ekspansi dan margin intermediasi. Selain itu, risiko kredit pada sektor-sektor yang bersifat siklikal seperti komoditas, konstruksi, dan perdagangan menuntut penerapan manajemen risiko yang lebih pruden dan selektif. Kondisi ini menunjukkan bahwa pertumbuhan yang diharapkan tetap harus diimbangi dengan pengelolaan risiko dan efisiensi yang kuat.

However, this growth outlook was not without various structural challenges that still loomed over the industry. The high cost of funds (CoF) due to the dominance of expensive funds, particularly time deposits, continued to pressure expansion space and intermediation margins. Credit risk in cyclical sectors, such as commodities, construction, and trade, needed more prudent and selective risk management. This situation indicated that expected growth had to be balanced with strong risk management and efficiency.

Setelah mempertimbangkan kondisi perekonomian, Dewan Komisaris berpendapat bahwa prospek usaha yang telah disusun oleh Direksi sudah tepat. Dewan Komisaris berkeyakinan bahwa Perseroan akan dapat memanfaatkan peluang yang ada di antaranya sinergi dengan pemerintah daerah menjadi peluang untuk *cross selling* kredit produktif, *treasury*, dan layanan digital publik berbasis integrasi ekosistem, serta memperluas *income* melalui *bundling* produk investasi dan asuransi bagi ASN dan Pemda. Ambisi Pemerintah Provinsi Jawa Barat RPJMD, RKPD Jabar 2026 untuk mempercepat pembangunan ekonomi regional melalui pelaksanaan berbagai proyek (misalnya infrastruktur, pendidikan) menciptakan peluang signifikan bagi bank **bjb** untuk menjadi penyedia layanan keuangan utama, sekaligus mendorong sinergi strategis. Tren digitalisasi pelayanan publik (SP2D, QRIS Daerah, *payroll* ASN) memberi peluang bagi bank **bjb** dalam menjadi anchor bank bagi Pemda melalui integrasi sistem pembayaran publik. Peningkatan (Rp200 triliun) likuiditas nasional juga membuka peluang bagi bank **bjb** dalam memperluas ekspansi kredit produktif, memperkuat posisi likuiditas, dan melakukan reposisi pricing berbasis layanan serta efisiensi pendanaan. Selain itu, pergeseran minat masyarakat ke aset aman seperti emas dan saham, membuka peluang bagi bank **bjb** dalam menawarkan produk investasi ritel, sehingga dana tetap berada di ekosistem bank **bjb**. Hal-hal tersebut didukung oleh efektifnya strategi usaha yang telah ditetapkan oleh Direksi. Dewan Komisaris akan terus mendorong Direksi untuk memperkuat strategi bisnis yang adaptif, meningkatkan efisiensi operasional, serta

After considering economic conditions, the Board of Commissioners believed that the business prospects outlined by the Board of Directors were appropriate. The Board of Commissioners was confident that the Company could capitalize on existing opportunities, including synergies with local governments, which could be maximized to cross-sell productive credit, treasury, and ecosystem-based public digital services, as well as expand income through bundling investment and insurance products for civil servant apparatus (ASN) and local governments. The West Java Provincial Government's ambition, in the 2026 Regional Medium-Term Development Plan (RPJMD) and West Java Regional Work Plan (RKPD) to accelerate regional economic development through the implementation of various projects (e.g., infrastructure and education), created significant opportunities for bank **bjb** to become a primary financial services provider while simultaneously fostering strategic synergies. The trend in digitalization of public services (SP2D, Regional QRIS, ASN payroll) provided an opportunity for bank **bjb** to become an anchor bank for local governments through public payment system integration. The increase (IDR200 trillion) in national liquidity also opened up opportunities for bank **bjb** to expand productive credit, strengthen its liquidity position, and reposition its pricing based on services and funding efficiency. Furthermore, the shift in public interest toward safe assets such as gold and stocks opens up opportunities for bank **bjb** to offer retail investment products, retaining funds within the bank **bjb** ecosystem. The public interest change was supported by the effectiveness of the business strategy established by the

memanfaatkan peluang pertumbuhan, khususnya melalui pengembangan ekosistem digital dan perluasan basis nasabah.

Board of Directors. The Board of Commissioners continuously encouraged the Board of Directors to strengthen adaptive business strategies, improve operational efficiency, and capitalize on growth opportunities, particularly through the development of a digital ecosystem and expanding its customer base
.

Pandangan Atas Penerapan Tata Kelola Bank

Dewan Komisaris memandang bahwa penerapan *Corporate Governance* di bank **bjb** sepanjang tahun 2025 telah berjalan secara efektif dan menunjukkan perkembangan yang positif. Hal ini tercermin dari semakin kuatnya komitmen seluruh organ perusahaan dalam mengintegrasikan prinsip-prinsip transparansi, akuntabilitas, tanggung jawab, independensi, dan kewajaran ke dalam setiap aspek kegiatan usaha. Dewan Komisaris menilai bahwa Direksi telah melaksanakan pengelolaan Perseroan dengan mengedepankan prinsip kehati-hatian (*prudential banking*), didukung oleh sistem manajemen risiko dan pengendalian internal yang memadai. Penguatan fungsi kepatuhan, audit internal, serta pengawasan yang dilakukan secara berlapis menjadi faktor penting dalam menjaga kualitas implementasi GCG.

Views on Bank Governance Implementation

The Board of Commissioners believed that bank **bjb**'s 2025 Corporate Governance implementation had been effective and shown positive progress. The improvement was reflected in the increasingly strong commitment of company organs to integrating the principles of transparency, accountability, responsibility, independence, and fairness into every aspect of business activities. The Board of Commissioners assessed that the Board of Directors had implemented the Company's management by prioritizing the principle of prudential banking, supported by an adequate risk management system and internal control. Strengthening the compliance function, internal audit, and multi-layered supervision are important factors in maintaining the quality of GCG implementation.

Manajemen Risiko

Perseroan sebagai lembaga intermediasi yang mempunyai peranan penting dalam sistem perekonomian sehingga memerlukan adanya fungsi manajemen risiko atas aktivitas tersebut. Dalam menjalankan aktivitasnya, Perseroan dihadapkan pada risiko-risiko yang melekat antara lain risiko kredit, risiko pasar, risiko likuiditas, risiko operasional, risiko hukum, risiko kepatuhan, risiko reputasi dan risiko stratejik yang semakin kompleks sejalan dengan perkembangan dunia usaha perbankan karena inovasi produk, perluasan jaringan, pemutakhiran teknologi maupun pengembangan sumber daya manusia.

Risk Management

An intermediary institution with a vital role in the economic system, the Company requires a risk management function for its activities. In carrying out its activities, the Company faces inherent risks, including credit risk, market risk, liquidity risk, operational risk, legal risk, compliance risk, reputation risk, and strategic risk, which are increasingly complex in line with developments in the banking industry due to product innovation, network expansion, technological upgrades, and human resource development.

Situasi lingkungan eksternal dan internal perbankan tersebut meningkatkan kebutuhan praktik *corporate governance* dan penerapan manajemen risiko yang meliputi pengawasan aktif pengurus Perseroan, kecukupan kebijakan, prosedur, dan penetapan limit. Kecukupan proses identifikasi, pengukuran, pemantauan dan pengendalian risiko serta sistem informasi dan pengendalian internal yang menyeluruh. Untuk meningkatkan *sustainability* dalam menghadapi gejolak ekonomi serta meningkatkan kinerja dalam rangka melindungi kepentingan *stakeholder*. Perseroan berupaya memperkuat proses manajemen risiko di setiap kegiatan usahanya dengan melakukan penyempurnaan atas kebijakan infrastruktur dan kualitas sumber daya manusia terkait dengan pengelolaan risiko.

This external and internal banking environment increases the need for corporate governance practices and the implementation of risk management, which includes active oversight by the Company's management, the adequacy of policies, procedures, and limit setting. Adequate risk identification, measurement, monitoring, and control processes, as well as comprehensive information systems and internal controls, are essential. To enhance sustainability in the face of economic turmoil and improve performance to protect stakeholder interests, the Company strives to strengthen its risk management processes in its business activities by improving infrastructure policies and the quality of human resources related to risk management.

Penerapan manajemen risiko juga diterapkan dalam Konglomerasi Keuangan. Hal ini dikarenakan hubungan

The implementation of risk management is also implemented within the Financial Conglomerate. This is because the

kepemilikan dan pengendalian antar lembaga jasa keuangan mempengaruhi kelangsungan usaha yang disebabkan adanya risiko yang timbul dari kegiatan usaha perusahaan anak dan perusahaan terelasi yang tergabung dalam suatu konglomerasi keuangan bank **bjb**. Dalam rangka pengukuran risiko secara lebih menyeluruh, konglomerasi keuangan harus menerapkan manajemen risiko secara terintegrasi. Melalui penerapan manajemen risiko secara terintegrasi, konglomerasi keuangan akan mendapat manfaat antara lain pengelolaan risiko yang lebih baik, selain itu, penerapan manajemen risiko terintegrasi bagi konglomerasi keuangan diharapkan dapat mewujudkan stabilitas sistem keuangan yang tumbuh secara berkelanjutan, sehingga mampu meningkatkan daya saing nasional.

ownership and control relationships between financial services institutions affect business continuity due to risks arising from the business activities of subsidiaries and related companies within the bank **bjb** financial conglomerate. To assess risk more comprehensively, financial conglomerates must implement integrated risk management. Through the implementation of integrated risk management, financial conglomerates will benefit from improved risk management. Furthermore, the implementation of integrated risk management for financial conglomerates is expected to achieve financial system stability and sustainable growth, enhancing national competitiveness.

bank **bjb** selaku Entitas Utama wajib menerapkan Manajemen Risiko Terintegrasi secara komprehensif dan efektif, yang disesuaikan dengan karakteristik dan kompleksitas usaha Konglomerasi Keuangan dengan rincian sebagai berikut:

a. Memastikan pelaksanaan manajemen risiko terintegrasi dalam Konglomerasi Keuangan;
b. Memastikan kecukupan kebijakan, prosedur, dan penetapan limit Manajemen Risiko Terintegrasi;
c. Memastikan kecukupan proses identifikasi, pengukuran, pemantauan, pengendalian risiko secara terintegrasi, dan sistem informasi Manajemen Risiko Terintegrasi;
d. Memastikan kecukupan infrastruktur pelaksanaan Manajemen Risiko Terintegrasi.

bank **bjb**, the Lead Entity, must implement comprehensive and effective Integrated Risk Management, tailored to the characteristics and complexity of the Financial Conglomerate's business, as detailed below:

a. Confirming the implementation of integrated risk management within the Financial Conglomerate;
b. Ensuring the adequacy of Integrated Risk Management policies, procedures, and limit setting;
c. Verifying the adequacy of the integrated risk identification, measurement, monitoring, and control processes, as well as the Integrated Risk Management information system;
d. Certifying the adequacy of the Integrated Risk Management implementation infrastructure.

Sebagai implementasi dari Peraturan Otoritas Jasa Keuangan Nomor 17/POJK.03/2014 Tentang Penerapan Manajemen Risiko Terintegrasi Bagi Konglomerasi Keuangan, bank **bjb** melaksanakan penerapan Manajemen Risiko Terintegrasi mencakup paling sedikit:

a. Pengawasan Direksi dan Dewan Komisaris Entitas Utama;
b. Kecukupan Kebijakan, Prosedur, dan Penetapan Limit Manajemen Risiko Terintegrasi;
c. Kecukupan Proses Identifikasi, Pengukuran, Pemantauan, Pengendalian Risiko secara Terintegrasi, dan Sistem Informasi Manajemen Risiko Terintegrasi; serta
d. Sistem Pengendalian Intern yang Menyeluruh Terhadap Penerapan Manajemen Risiko Terintegrasi.

In terms of the implementation of Financial Services Authority Regulation Number 17/POJK.03/2014 concerning the Implementation of Integrated Risk Management for Financial Conglomerates, bank **bjb** implements Integrated Risk Management, which includes minimally:

a. Supervision by the Board of Directors and Board of Commissioners of the Lead Entity;
b. Adequacy of Integrated Risk Management Policies, Procedures, and Limit Determination;
c. Adequacy of Integrated Risk Identification, Measurement, Monitoring, and Control Processes, and the Integrated Risk Management Information System; and
d. A Comprehensive Internal Control System for the Implementation of Integrated Risk Management.

Dewan Komisaris melalui Komite Pemantau Risiko menilai bahwa selama tahun 2025 manajemen risiko telah berjalan memadai yang tercermin hasil *review* atas kelengkapan dan keakuratan identifikasi, pengukuran, pemantauan, pengendalian dan pelaporan risiko, serta atas kecukupan skenario mitigasi yang diusulkan oleh unit kerja operasional telah memadai.

The Board of Commissioners, through the Risk Monitoring Committee, assessed that risk management had been running adequately during 2025, as reflected in the results of a review of the completeness and accuracy of risk identification, measurement, monitoring, control, and reporting, as well as the adequacy of the mitigation scenarios proposed by operational business units.

Sistem Pengendalian Internal

Sistem Pengendalian Internal (SPI) merupakan suatu mekanisme proses pengawasan yang ditetapkan oleh

Internal Control System

The Internal Control System (SPI) is a continuous oversight process established by the Company's management, the

manajemen Perseroan secara berkesinambungan yang kualitas desain dan pelaksanaannya dipengaruhi oleh Dewan Komisaris, Direksi serta seluruh pejabat dan pegawai Perseroan. SPI dirancang untuk dapat memberikan yang memadai guna menjaga dan mengamankan harta kekayaan Perseroan, menjamin tersedianya laporan yang akurat, meningkatkan kepatuhan terhadap ketentuan yang berlaku, mengurangi dampak kerugian keuangan, penyimpangan termasuk kecurangan (*fraud*) dan pelanggaran aspek kehati-hatian, serta meningkatkan efektivitas organisasi dan meningkatkan efisiensi biaya.

quality of which is influenced by the Board of Commissioners, the Board of Directors, and all officers and employees of the Company. The SPI is designed to provide adequate safeguards to safeguard and secure the Company's assets, ensure accurate reporting, enhance compliance with applicable regulations, mitigate the impact of financial losses, irregularities, including fraud and prudential violations, and enhance organizational effectiveness and cost efficiency.

Sistem Pengendalian Intern bank **bjb** mengacu pada SEOJK 35/SEOJK.03/2017 tentang Pedoman Sistem Pengendalian Intern Bagi Bank Umum. Pengendalian intern diselenggarakan secara berkesinambungan (*on going basis*) untuk mencapai 3 (tiga) sasaran, yaitu:

1. Mencapai efektivitas dan efisiensi pada setiap aktivitas yang dijalankan oleh Perseroan, mencakup kinerja operasional dan keuangan, serta menjaga dan mengamankan harta kekayaan Perseroan.
2. Menciptakan laporan finansial dan non-finansial bagi pihak internal dan eksternal yang terpercaya, tepat waktu, dan transparan, serta sesuai dengan regulasi dan standar yang berlaku.
3. Menjaga kepatuhan terhadap hukum dan regulasi dalam seluruh aspek aktivitas Perseroan.

bank **bjb**'s Internal Control System adheres to OJK Circular Letter 35/SEOJK.03/2017 concerning Guidelines for Internal Control Systems for Commercial Banks. Internal control is implemented on an ongoing basis to achieve three objectives:

1. Achieving effectiveness and efficiency in all activities carried out by the Company, including operational and financial performance, as well as safeguarding and securing the Company's assets.
2. Producing reliable, timely, and transparent financial and non-financial reports for internal and external parties, in accordance with applicable regulations and standards.
3. Maintaining compliance with laws and regulations in all aspects of the Company's activities.

Sistem Pengendalian Internal (SPI) yang efektif merupakan komponen penting dalam manajemen bank **bjb** dan menjadi dasar bagi kegiatan operasional Perseroan yang sehat dan aman. SPI yang efektif dapat membantu Direksi dan Dewan Komisaris menjaga aset bank, menjamin tersedianya pelaporan keuangan dan manajerial yang dapat dipercaya, meningkatkan kepatuhan bank terhadap ketentuan dan peraturan perundang-undangan, serta mengurangi risiko terjadinya kerugian, penyimpangan, dan pelanggaran aspek kehati-hatian.

An effective Internal Control System (ISC) is a crucial component of bank **bjb**'s management and serves as the foundation for the Company's sound and safe operations. An effective ISC can assist the Board of Directors and Board of Commissioners in safeguarding the bank's assets, ensuring reliable financial and managerial reporting, enhancing the bank's compliance with laws and regulations, and reducing the risk of losses, irregularities, and violations of prudential principles.

Perseroan melakukan pemantauan terhadap efektivitas keseluruhan pelaksanaan pengendalian intern. Pemantauan terhadap risiko utama Perseroan harus diprioritaskan dan berfungsi sebagai bagian dari kegiatan Perseroan sehari-hari termasuk evaluasi secara berkala, baik oleh satuan-satuan kerja operasional dan non operasional maupun oleh Satuan Kerja Audit Intern (SKAI). Perseroan memantau dan mengevaluasi kecukupan sistem pengendalian intern berkaitan dengan adanya perubahan kondisi internal dan eksternal serta harus meningkatkan kapasitas sistem pengendalian intern tersebut agar efektivitasnya dapat ditingkatkan. Kelemahan dalam pengendalian intern, baik yang diidentifikasi oleh satuan kerja operasional (*risk taking unit*), SKAI maupun pihak lainnya, segera dilaporkan dan menjadi perhatian pejabat atau Direksi yang berwenang. Kelemahan pengendalian intern yang material juga dilaporkan kepada Dewan Komisaris.

The Company monitors the overall effectiveness of internal control implementation. Monitoring the Company's key risks must be prioritized and function as part of the Company's daily activities, including regular evaluations by both operational and non-operational work units, as well as by the Internal Audit Unit (SKAI). The Company monitors and evaluates the adequacy of the internal control system in light of changing internal and external conditions and must enhance the capacity of the internal control system to enhance its effectiveness. Weaknesses in internal control, whether they are identified by operational business units (risk-taking units), SKAI, or other parties, must be promptly reported and brought to the attention of authorized officials or the Board of Directors. Material internal control weaknesses are also reported to the Board of Commissioners.

Satuan Kerja Audit Internal (SKAI), Direksi, Dewan Komisaris serta Komite Audit telah melakukan pemantauan terhadap efektivitas keseluruhan pelaksanaan pengendalian intern. SKAI, Direksi, Dewan Komisaris serta Komite Audit memantau dan mengevaluasi kecukupan sistem pengendalian intern berkaitan dengan adanya perubahan kondisi internal dan eksternal serta harus meningkatkan kapasitas sistem pengendalian internal tersebut agar efektivitasnya dapat ditingkatkan. Direksi, Dewan Komisaris, Komite Audit serta SKAI menilai bahwa sistem pengendalian internal telah memadai pada tahun 2025.

The Internal Audit Business Unit (SKAI), the Board of Directors, the Board of Commissioners, and the Audit Committee have monitored the overall effectiveness of internal control implementation. SKAI, the Board of Directors, the Board of Commissioners, and the Audit Committee monitor and evaluate the adequacy of the internal control system in light of changing internal and external conditions and must enhance the capacity of the internal control system to enhance its effectiveness. The Board of Directors, the Board of Commissioners, the Audit Committee, and SKAI assessed that the internal control system was adequate by 2025.

Whistleblowing System

Whistleblowing System (WBS) berperan penting dalam meningkatkan pelaksanaan tata kelola perusahaan yang baik serta serta merupakan bagian dari pemeliharaan budaya dan kepedulian atas *anti fraud* di jajaran organisasi bank **bjb**. Dalam rangka meningkatkan efektivitas penerapan *Good Corporate Governance* melalui peran aktif para pelapor (*whistleblower*) maka Perseroan telah membentuk Sistem Pengaduan Pelanggaran berupa **bjb** WBS (*Whistleblowing System*). Penyampaian laporan kejadian indikasi *fraud* (*whistleblowing*) dapat dilakukan oleh seluruh pihak baik internal maupun eksternal kepada bank **bjb**. Sarana penyampaian laporan pengungkapan kejadian indikasi *fraud* merupakan fasilitas komunikasi yang bersifat independen, bebas dan rahasia, sehingga setiap laporan yang disampaikan akan diterima langsung oleh pengelola *Whistleblowing System*.

Whistleblowing System

The Whistleblowing System (WBS) plays a crucial role in enhancing good corporate governance and is part of maintaining a culture of anti-fraud awareness within bank **bjb**. To enhance the effectiveness of Good Corporate Governance implementation through the active participation of whistleblowers, the Company has established a Whistleblowing System (**bjb**WBS). All parties, both internal and external, can submit reports of suspected fraud to bank **bjb**. The reporting platform for fraud disclosures is an independent, free, and confidential communication facility, ensuring that each report is received directly by the Whistleblowing System administrator.

Whistleblowing System bank **bjb** dikelola oleh Satuan Kerja Audit Internal yang bertanggung jawab secara langsung kepada Direktur Utama serta memiliki hubungan komunikasi kepada Dewan Komisaris. Dewan Komisaris senantiasa melakukan evaluasi atas efektivitas *whistleblowing system* melalui Komite Audit yang secara berkala menelaah program kerja dan pelaksanaan tugas Satuan Kerja Audit Internal. Dewan Komisaris berpendapat bahwa penerapan *Whistleblowing System* telah diterapkan secara baik pada operasional Perseroan.

bank **bjb** Whistleblowing System is managed by the Internal Audit Business Unit, which reports directly to the President Director and maintains a communication link with the Board of Commissioners. The Board of Commissioners continuously evaluates the effectiveness of the whistleblowing system through the Audit Committee, which periodically reviews the work program and implementation of the Internal Audit Unit's duties. The Board of Commissioners believed that the Whistleblowing System had been effectively implemented in the Company's operations.

Efektivitas penerapan *Whistleblowing System* bank **bjb** dikelola oleh Satuan Kerja Audit Internal yang bertanggung jawab secara langsung kepada Direktur Utama serta memiliki hubungan komunikasi kepada Dewan Komisaris. Pelaksanaan sosialisasi **bjb** Wbs menjadi satu bagian tidak terpisahkan saat melaksanakan sosialisasi strategi Anti Fraud yang dilaksanakan oleh SKAI. Pada tahun 2025, Perseroan telah melaksanakan sosialisasi **bjb** Wbs ke Kantor Cabang bank **bjb**.

The effectiveness of bank **bjb** Whistleblowing System implementation is managed by the Internal Audit Business Unit, which reports directly to the President Director and has a communication link with the Board of Commissioners. The implementation of bank **bjb** Wbs socialization is an integral part of the Anti-Fraud strategy socialization implemented by the Internal Audit Business Unit (SKAI). In 2025, the Company implemented bank **bjb** Wbs socialization at bank **bjb** Branch Offices.

Program Anti Korupsi

Perseroan dalam pengelolaan Tata Kelola yang baik berkomitmen melaksanakan implementasi ketentuan SNI ISO 37001:2016 Sistem Manajemen Anti Penyuapan (SMAP), berintegritas, dan terbebas dari penyuapan. Dalam proses

Anti-Corruption Program

To implement its Good Corporate Governance (GCG) management, the Company is committed to implementing the provisions of SNI ISO 37001:2016 on the Anti-Bribery Management System (ABMS), maintaining integrity, and being

pengendalian SMAP, Perseroan melakukan identifikasi faktor internal dan eksternal melalui proses pemetaan isu berdasarkan:

1. Ukuran, struktur dan pendelegasian pengambilan keputusan.
2. Lokasi dan sektor dimana Bank beroperasi atau melakukan antisipasi pengoperasian.
3. Sifat, skala dan kompleksitas dari aktivitas, operasi serta model bisnis.
4. Entitas dimana Bank mempunyai kendali.
5. Entitas yang menerapkan kendali terhadap Bank.
6. Sifat dan jangkauan interaksi dengan pejabat publik.
7. Peraturan perundang-undangan, regulasi, kontrak serta kewajiban dan tugas professional.

Perseroan menetapkan ruang lingkup penerapan SMAP berdasarkan analisis faktor internal dan eksternal, kebutuhan dan harapan pemangku kepentingan serta pertimbangan proses bisnis.

Dalam upaya melakukan pencegahan Korupsi, Kolusi dan Nepotisme (KKN), bank **bjb** telah membentuk program pengendalian gratifikasi yang sebagaimana tertuang dalam Pedoman Pengendalian Gratifikasi Nomor 0148/SK/DIR-KP/2022 yang memberikan arah serta acuan bagi segenap organisasi Bank di dalam menanggulangi praktik saling memberi (penerimaan, penolakan, maupun pemberian) di lingkungan perseroan sehingga pengelolaan gratifikasi pada Bank dapat sesuai dengan prinsip-prinsip tata kelola perusahaan yang baik. Dengan ditetapkannya pedoman ini, Bank diharapkan dapat mendorong terlaksananya etika bisnis yang tinggi serta mencegah timbulnya benturan kepentingan, kecurangan serta perilaku penyimpangan lain di lingkungan Perseroan.

bank **bjb** secara berkesinambungan melakukan *monitoring* dan evaluasi program pengendalian gratifikasi sebagai bentuk komitmen bank **bjb** dengan KPK dalam melaksanakan program pengendalian gratifikasi dan perseroan telah melaksanakan sosialisasi baik secara tatap muka (*offline)* maupun *online* melalui media komunikasi resmi bank **bjb** dan pembelajaran bekerja sama dengan **bjb** *University*.

Dalam mewujudkan komitmen Program Pengendalian Gratifikasi maka *corporate value* bank **bjb** dijabarkan dalam bentuk *code of conduct* (etika usaha dan tata perilaku) untuk menjadi acuan perilaku bagi Dewan Komisaris, Direksi dan seluruh pegawai bank **bjb** dalam mengelola perusahaan guna mencapai visi, misi dan tujuan Bank. Salah satu etika perilaku yang terdapat pada *code of conduct* yaitu standar etika untuk menghindari benturan kepentingan (penanganan benturan kepentingan/ *conflict of interest*) dan penyalahgunaan jabatan serta etika untuk tidak menerima gratifikasi dalam bentuk apapun yang berhubungan dengan jabatan, tugas serta kewenangannya.

free from bribery. In the ABMS control process, the Company identifies internal and external factors through an issue mapping process based on:

1. The size, structure, and delegation of decision-making.
2. The locations and sectors in which the Bank operates or plans to operate.
3. The nature, scale, and complexity of activities, operations, and business models.
4. Entities over which the Bank has control.
5. Entities that exercise control over the Bank.
6. The nature and extent of interactions with public officials.
7. Applicable laws, regulations, contracts, as well as professional obligations and duties.

The Company determines the scope of ABMS implementation based on an analysis of internal and external factors, stakeholder needs and expectations, and business process considerations.

To prevent Corruption, Collusion, and Nepotism (KKN), bank **bjb** has established a gratification control program, as outlined in the Gratification Control Guidelines Number 0148/SK/DIR-KP/2022. This provides direction and guidance for all Bank organizations in addressing the practice of mutual giving (receiving, refusing, or giving) within the company, ensuring that gratification management within the Bank is in accordance with the principles of good corporate governance. Having established these guidelines, the Bank is expected to encourage the implementation of high business ethics and prevent conflicts of interest, fraud, and other deviant behavior within the Company.

bank **bjb** continuously monitors and evaluates the gratification control program as a manifestation of its commitment to the Corruption Eradication Commission (KPK). The company has conducted outreach programs both face-to-face (offline) and online through bank **bjb**'s official communication channels and through learning in collaboration with **bjb** University.

To realize the commitment of the Gratification Control Program, the corporate values of bank **bjb** are outlined in the form of a code of conduct to be a behavioral reference for the Board of Commissioners, Directors, and employees of bank **bjb** in managing the company to achieve the Bank's vision, mission, and objectives. One of the behavioral ethics contained in the code of conduct is the ethical standard to avoid conflicts of interest (conflicts of interest management) and abuse of office, as well as ethics to not accept gratuities in any form related to their position, duties, and authority

Sustainabillity Governance

bank **bjb** terus memperkuat penerapan *sustainability governance* sebagai bagian integral dari strategi bisnis dan tata kelola perusahaan yang berkelanjutan. Komitmen ini diwujudkan melalui integrasi aspek lingkungan, sosial, dan tata kelola (*Environmental, Social, and Governance*/ESG) dalam proses pengambilan keputusan serta operasional Perseroan.

Perseroan memastikan bahwa kebijakan dan strategi keberlanjutan selaras dengan visi dan rencana jangka panjang perusahaan, serta mengacu pada ketentuan regulator dan praktik terbaik di industri perbankan. Dalam hal ini, bank **bjb** telah mengembangkan kerangka kerja keberlanjutan yang mencakup pengelolaan risiko lingkungan dan sosial, pembiayaan berkelanjutan, serta tanggung jawab sosial perusahaan.

Dari sisi tata kelola, pengawasan terhadap implementasi keberlanjutan dilakukan secara berjenjang oleh Direksi dan Dewan Komisaris, termasuk melalui fungsi komite terkait. Mekanisme ini memastikan bahwa setiap inisiatif keberlanjutan dijalankan secara terarah, terukur, dan dapat dipertanggungjawabkan.

bank **bjb** juga mengintegrasikan prinsip keberlanjutan dalam manajemen risiko, khususnya melalui identifikasi dan mitigasi risiko lingkungan dan sosial dalam penyaluran pembiayaan. Selain itu, bank **bjb** mendorong peningkatan portofolio pembiayaan yang mendukung kegiatan ramah lingkungan dan inklusi keuangan, sebagai kontribusi nyata terhadap pembangunan berkelanjutan.

Dalam aspek operasional, bank **bjb** terus meningkatkan efisiensi penggunaan sumber daya, termasuk energi dan kertas, serta mengembangkan inisiatif digitalisasi untuk mengurangi dampak lingkungan. Upaya ini sejalan dengan komitmen Bank dalam mendukung transisi menuju ekonomi rendah karbon. Dari sisi sosial, bank **bjb** aktif menjalankan program tanggung jawab sosial dan lingkungan (TJSL) yang berfokus pada pemberdayaan masyarakat, peningkatan literasi keuangan, serta pengembangan usaha mikro, kecil, dan menengah (UMKM). Program-program tersebut dirancang untuk memberikan dampak positif yang berkelanjutan bagi masyarakat.

Sebagai bagian dari transparansi, bank **bjb** juga menyampaikan laporan keberlanjutan secara berkala yang memuat kinerja ESG, capaian program, serta rencana pengembangan ke depan. Hal ini mencerminkan komitmen Bank dalam menjaga akuntabilitas dan keterbukaan kepada seluruh pemangku kepentingan. Melalui penerapan *sustainability governance* yang terstruktur dan konsisten, bank **bjb** berupaya menciptakan keseimbangan antara pertumbuhan bisnis, tanggung jawab sosial, dan pelestarian lingkungan, sehingga dapat memberikan nilai tambah jangka panjang bagi perusahaan dan masyarakat.

Sustainabillity Governance

bank **bjb** continues to strengthen the implementation of sustainability governance as an integral part of its business strategy and sustainable corporate governance. This commitment is realized through the integration of environmental, social, and governance (ESG) aspects into the Company's decision-making and operational processes.

The Company ensures that its sustainability policies and strategies align with the company's long-term vision and plans, and adhere to regulatory requirements and best practices in the banking industry. To this end, bank **bjb** has developed a sustainability framework encompassing environmental and social risk management, sustainable financing, and corporate social responsibility.

In the context of a governance perspective, supervision of sustainability implementation is carried out at various levels by the Board of Directors and the Board of Commissioners, including through relevant committee functions. This mechanism ensures that each sustainability initiative is implemented in a targeted, measurable, and accountable manner.

bank **bjb** also integrates sustainability principles into risk management, particularly through the identification and mitigation of environmental and social risks in financing disbursements. Furthermore, bank **bjb** encourages an increased financing portfolio that supports environmentally friendly activities and financial inclusion, as a tangible contribution to sustainable development.

In terms of operations, bank **bjb** continues to improve the efficiency of resource use, including energy and paper, and develops digitalization initiatives to reduce environmental impact. These efforts align with the bank's commitment to supporting the transition to a low-carbon economy. From a social perspective, bank **bjb** actively implements social and environmental responsibility (TJSL) programs focused on community empowerment, improving financial literacy, and developing micro, small, and medium enterprises (MSMEs). These programs are designed to have a sustainable and positive impact on society.

Meanwhile, in terms of its transparency program, bank **bjb** also submits regular sustainability reports that outline its ESG performance, program achievements, and future development plans. The report reflects the bank's commitment to maintaining accountability and transparency with all stakeholders. Having implemented the structured and consistent sustainability governance, bank **bjb** strives to create a balance between business growth, social responsibility, and environmental preservation, thereby providing long-term added value for the company and society.

Penilaian Kinerja Komite-Komite di Bawah Dewan Komisaris

Dalam rangka meningkatkan peran Dewan Komisaris dalam menjalankan fungsi pengawasan, Dewan Komisaris telah membentuk 4 (empat) komite yaitu:

1. Komite Audit
2. Komite Nominasi dan Remunerasi
3. Komite Pemantau Risiko
4. Komite Tata Kelola Terintegrasi

Prosedur penilaian kinerja Komite di bawah Dewan Komisaris dilakukan oleh Dewan Komisaris secara periodik yang dilakukan 1 (satu) kali dalam satu tahun berdasarkan kriteria yang telah ditetapkan. Proses penilaian kinerja Komite di bawah Dewan Komisaris dilakukan melalui rapat internal Dewan Komisaris. Adapun kriteria penilaian kinerja Komite di bawah Dewan Komisaris berdasarkan kompetensi, rapat dan pelaksanaan tugas komite selama tahun buku. Sepanjang tahun 2025, Dewan Komisaris menilai bahwa Komite di bawah Dewan Komisaris telah menjalankan tugas dan tanggung jawabnya dengan baik.

Perubahan Komposisi Dewan Komisaris

Selama tahun 2025, telah terjadi perubahan komposisi anggota Dewan Komisaris. Perubahan komposisi anggota Dewan Komisaris dilakukan berdasarkan kebutuhan Perseroan. Perubahan komposisi anggota Dewan Komisaris adalah sebagai berikut:

KOMPOSISI DEWAN KOMISARIS SEBELUM RUPS TAHUNAN TAHUN BUKU 2024

Komposisi Dewan Komisaris sebelum RUPS Tahunan Tahun Buku 2024 sebanyak 4 (empat) orang yang terdiri dari 1 (satu) Komisaris Utama Independen, 2 (dua) Komisaris dan 1 (satu) Komisaris Independen. Komposisi dan dasar pengangkatan Dewan Komisaris dapat dilihat pada tabel di bawah ini.

Taswin Zakaria	:	Komisaris Utama Independen
Diding Sakri	:	Komisaris Independen
Tomsi Tohir	:	Komisaris
Rudie Kusmayadi	:	Komisaris
Mohammad Taufiq Budi Santoso	:	Komisaris
Hilman Purakusumah	:	Komisaris Independen

Performance Assessment of Committees Under The Board of Commissioners

To enhance the role of the Board of Commissioners in carrying out its supervisory function, the Board of Commissioners has established four committees:

1. Audit Committee
2. Nomination and Remuneration Committee
3. Risk Monitoring Committee
4. Integrated Governance Committee

The performance assessment procedures for the Committees under the Board of Commissioners are conducted by the Board of Commissioners periodically, once a year, based on established criteria. The performance assessment process for the Committees under the Board of Commissioners is conducted through internal Board of Commissioners meetings. The performance assessment criteria for the Committees under the Board of Commissioners are based on competence, meetings, and the implementation of the committee's duties during the fiscal year. In 2025, the Board of Commissioners assessed that the Committees under the Board of Commissioners had performed their duties and responsibilities effectively.

Changes to The Composition of The Board of Commissioners

During 2025, there were changes to the composition of the Board of Commissioners. These changes were made based on the Company's needs. The changes to the composition of the Board of Commissioners are as follows:

COMPOSITION OF THE BOARD OF COMMISSIONERS BEFORE THE ANNUAL GMS FOR THE 2024 FISCAL YEAR

The composition of the Board of Commissioners before the Annual GMS for the 2024 Financial Year was 4 (four) people, consisting of 1 (one) Independent President Commissioner, 2 (two) Commissioners, and 1 (one) Independent Commissioner. The composition and basis for nomination of the Board of Commissioners can be seen in the table below.

Taswin Zakaria	:	Independent President Commissioner
Diding Sakri	:	Independent Commissioner
Tomsi Tohir	:	Commissioner
Rudie Kusmayadi	:	Commissioner
Mohammad Taufiq Budi Santoso	:	Commissioner
Hilman Purakusumah	:	Independent Commissioner

KOMPOSISI DEWAN KOMISARIS SETELAH RUPS TAHUNAN TAHUN BUKU 2024

Pada tanggal 16 April 2025, RUPS Tahunan Tahun Buku 2024 memutuskan:

1. Memberhentikan dengan hormat anggota Taswin Zakaria selaku Komisaris Utama Independen, Diding Sakri selaku Komisaris Independen, Hilman Purakusumah selaku Komisaris Independen, dan M Taufiq Budi Santoso selaku Komisaris.
2. Mengangkat Wowiek Prasantyo selaku Komisaris Utama Independen, Novian Herodwijanto selaku Komisaris Independen, Helmy Yahya selaku Komisaris Independen dan Herman Suryatman selaku Komisaris.

Sehingga komposisi Dewan Komisaris setelah RUPS Tahunan Tahun Buku 2024 sebanyak 6 (enam) orang yang terdiri dari 1 (satu) Komisaris Utama Independen, 3 (tiga) Komisaris dan 2 (dua) Komisaris Independen sebagai berikut:

Wowiek Prasantyo	:	Komisaris Utama Independen
Tomsi Tohir	:	Komisaris
Rudie Kusmayadi	:	Komisaris
Novian Herodwijanto	:	Komisaris Independen
Helmy Yahya	:	Komisaris Independen
Herman Suryatman	:	Komisaris

KOMPOSISI DEWAN KOMISARIS SETELAH RUPS LUAR BIASA TAHUN 2025

Pada tanggal 9 Desember 2025, RUPS Luar Biasa memutuskan membatalkan dengan hormat pengangkatan Wowiek Prasantyo selaku Komisaris Utama Independen dan Helmi Yahya selaku Komisaris Independen. Sehingga komposisi Dewan Komisaris setelah RUPS Luar Biasa Tahun 2025 sebanyak 4 (empat) orang yang terdiri dari 3 (tiga) Komisaris dan 1 (satu) Komisaris Independen. Komposisi dan dasar pengangkatan Dewan Komisaris dapat dilihat pada tabel di bawah ini.

Tomsi Tohir	:	Komisaris
Rudie Kusmayadi	:	Komisaris
Novian Herodwijanto	:	Komisaris Independen
Herman Suryatman	:	Komisaris

COMPOSITION OF THE BOARD OF COMMISSIONERS AFTER ANNUAL GMS OF THE 2024 FISCAL YEAR

On April 16, 2025, the Annual GMS for the 2024 Fiscal Year resolved:

1. Honorably dismissal Taswin Zakaria as Independent President Commissioner, Diding Sakri as Independent Commissioner, Hilman Purakusumah as Independent Commissioner, and M Taufiq Budi Santoso as Commissioner.
2. Nominating Wowiek Prasantyo as Independent President Commissioner, Novian Herodwijanto as Independent Commissioner, Helmy Yahya as Independent Commissioner, and Herman Suryatman as Commissioner.

Therefore, the composition of the Board of Commissioners after the Annual GMS for the 2024 Financial Year is 6 (six) members, consisting of 1 (one) Independent President Commissioner, 3 (three) Commissioners, and 2 (two) Independent Commissioners as follows:

Wowiek Prasantyo	:	Independent President Commissioner
Tomsi Tohir	:	Commissioner
Rudie Kusmayadi	:	Commissioner
Novian Herodwijanto	:	Independent Commissioner
Helmy Yahya	:	Independent Commissioner
Herman Suryatman	:	Commissioner

COMPOSITION OF THE BOARD OF COMMISSIONERS AFTER THE 2025 EXTRAORDINARY GMS

On December 9, 2025, the Extraordinary GMS decided to honorably revoke the nomination of Wowiek Prasantyo as Independent President Commissioner and Helmi Yahya as Independent Commissioner. Therefore, the composition of the Board of Commissioners after the 2025 Extraordinary GMS was 4 (four) people, consisting of 3 (three) Commissioners and 1 (one) Independent Commissioner. The composition and basis for the nomination of the Board of Commissioners can be seen in the table below.

Tomsi Tohir	:	Commissioner
Rudie Kusmayadi	:	Commissioner
Novian Herodwijanto	:	Independent Commissioner
Herman Suryatman	:	Commissioner

Penutup

Akhir kata, Dewan Komisaris menyampaikan apresiasi kepada Direksi dan seluruh insan bank **bjb** atas dedikasi dan kinerja yang telah ditunjukkan sepanjang tahun 2025. Ucapan terima kasih juga disampaikan kepada para pemegang saham, nasabah, regulator, dan seluruh pemangku kepentingan atas kepercayaan dan dukungan yang berkelanjutan. Dengan sinergi yang kuat, bank **bjb** optimis dapat terus tumbuh dan memberikan kontribusi nyata bagi pembangunan ekonomi daerah dan nasional.

Closing

Lastly, the Board of Commissioners would like to express higher appreciation to the Board of Directors and bank **bjb**'s personnel for their dedication and performance demonstrated during 2025. We also thanked to shareholders, customers, and stakeholders for their trust and sustainable support. Having a firm synergy, bank **bjb** is optimistic to continuously grow and provide real contribution for the national and regional economic development ahead.

Brand Perusahaan
Company Brand

Identitas *brand* bank **bjb** dapat dijelaskan sebagai berikut:

The bank **bjb** brand identity can be described as follows:

bank bjb

Logo Perseroan memiliki makna Jangkauan Pelayanan, dalam perspektif sekunder berarti sayap yang terbang untuk kemajuan. Bentuk sayap pada logo bank **bjb** melambangkan lengan yang menjangkau jauh untuk memberikan pelayanan yang terbaik kepada nasabah, *shareholder* dan seluruh masyarakat. Sedangkan penggunaan huruf pada *logotype* merupakan pengembangan bentuk dari huruf Alte Haas Grothesk.

bank **bjb** logo has the meaning of Service Outreach, in a secondary perspective it means wings that fly to progress. The wing shape on the bank **bjb** logo symbolizes the far reaching arm to provide the best service to customers, shareholders and the entire community. While the use of letters on the logotype is the development of the shape of the Alte Haas Grothesk letters.

Pemilihan nama bank **bjb** hadir sebagai akronim dari Bank Jabar Banten menggambarkan sifat kesederhanaan dan sifat modern masyarakat di mana bank **bjb** akan berbakti. Nama ini menggambarkan transformasi bank **bjb** untuk menjadi lebih efektif dan profesional dalam melayani seluruh lapisan masyarakat dari Sabang sampai Merauke.

The selection of the name bank **bjb** was present as an acronym for Bank Jabar Banten describing the simplicity and modern nature of the society in which the bank **bjb** will serve. This name describes the transformation of the bank **bjb** to be more effective and professional in serving all levels of society from Sabang to Merauke.

Brand Personality bank **bjb** menggambarkan sosok institusi finansial perbankan yang cekatan, sigap dan terampil dalam setiap tindakan maupun interaksi, baik dengan *shareholder*, nasabah maupun dengan masyarakat pada umumnya. Selain itu, juga menunjukkan sosok institusi finansial yang membumi, akrab, ingin selalu dekat dengan masyarakat, *shareholder* dan nasabahnya. Sehingga dalam proses operasional hari ke hari, sifat ini menjadi nafas dalam setiap tindakan. Serta, menampilkan sosok sebuah institusi finansial yang mapan, memiliki pondasi yang kuat dan dengan demikian tampak penuh percaya diri dalam menghadapi persaingan, menjadi pemain teratas dalam industri maupun dalam proses pelayanan dengan nasabah.

bank **bjb** Brand Personality describes the figure of a bank financial institution that is dexterous, alert and skilled in every action and interaction, both with shareholders, customers and the community in general. In addition, it also shows the figure of a financial institution that is grounded, familiar, wants to always be close to the community, shareholders and customers. So that in the operational process day to day, this trait becomes a breath in every action. And, displaying the figure of an established financial institution, has a strong foundation and thus appears confident in the face of competition, becomes the top player in the industry and in the process of service with customers.

Riwayat Singkat Perusahaan
Brief History of The Company

PT Bank Pembangunan Daerah Jawa Barat dan Banten Tbk (selanjutnya disebut "bank **bjb**" atau Perseroan) didirikan berdasarkan Peraturan Pemerintah No. 33 Tahun 1960 tentang penentuan perusahaan milik Belanda di Indonesia yang dikenakan nasionalisasi. Salah satu perusahaan milik Belanda yang berkedudukan di Bandung yaitu N.V Denis (*De Eerste Nederlandsche Indische Shareholding*) terkena ketentuan tersebut dan diarahkan kepada Pemerintah Daerah Provinsi Daerah Tingkat I Jawa Barat. Bank telah mulai beroperasi secara komersial pada tanggal 20 Mei 1961.

Sebagai tindak lanjut dari peraturan Pemerintah No. 33 tahun 1960, Pemerintah daerah Tingkat Provinsi I Jawa Barat mendirikan Bank Karja Pembangunan dengan Akta Notaris Noezar No. 152 tanggal 21 Maret 1961 dan No. 184 tanggal 13 Mei 1961 yang kemudian dikukuhkan dengan surat Keputusan Gubernur Provinsi Jawa Barat No. 7/GKDN/BPD/61 tanggal 20 Mei 1961 dengan nama PT Bank Karja Pembangunan Daerah Djawa Barat. Berdasarkan Peraturan Daerah Provinsi DJawa Barat No. 11/PD/DPRD/72 tanggal 27 Juni 1972, kedudukan hukum PT Bank Karja Pembangunan Daerah Djawa Barat diubah menjadi PD Bank Karja Pembangunan Daerah Djawa Barat. Nama PD Bank Karja Pembangunan Daerah Jawa Barat

PT Bank Pembangunan Daerah Jawa Barat dan Banten, Tbk. (from now on referred to as "bank **bjb**" or the Company) was established based on Government Regulation No. 33 of 1960 concerning the determination of Dutch-owned companies in Indonesia subject to nationalization. One of the Dutch-owned companies based in Bandung, namely N.V Denis (De Eerste Nederlandsche Indische Shareholding), is affected by this provision and directed to the Regional Government of the Provincial Level Region of West Java. The bank began its commercial operation on May 20, 1961.

As a follow up to Government Regulation No. 33 of 1960, the Regional Government of the Provincial Level I of West Java established the Development Work Bank with Noezar Notarial Deed No. 152 March 21, 1961 and No. 184 dated May 13, 1961 which was then confirmed by the Decree of the Governor of West Java Province No. 7/GKDN/BPD/61 dated May 20, 1961 under the name of PT Bank Karya Pembangunan Daerah Djawa Barat. Based on the Regional Regulation of West Java Province No. 11/PD/DPRD/72 dated June 27, 1972, the legal position of PT Bank Karya Pembangunan Daerah in West Java was changed to PD Bank Karja Pembangunan Jawa Barat. The name PD Karja Pembangunan Jawa Barat is subsequently

selanjutnya diubah menjadi Bank Pembangunan Daerah Jawa Barat (BPD Jabar) sesuai Perda Provinsi Jawa Barat Nomor 1/DP-040/PD/1978 Tanggal 27 Juni 1978. Pada tahun 1992 sesuai dengan Surat Keputusan Bank Indonesia No. 25/84/KEP/DIR tanggal 2 November 1992 status BPD Jabar meningkat menjadi bank umum devisa. Berdasarkan Peraturan Daerah No. 11 Tahun 1995, BPD Jabar memiliki sebutan Bank Jabar dengan logo baru.

changed to West Java BPD according to West Java Provincial Regulation Number 1/DP-040/PD/1978 dated June 27, 1978. In 1992 according to Bank Indonesia Decree No.25/84/KEP/DIR on November 2, 1992 the status of the West Java BPD increased to a foreign exchange commercial bank. Based on Regional Regulation No. 11 of 1995, West Java BPD has the name Bank Jabar with a new logo.

Berdasarkan Peraturan Daerah Provinsi Daerah Tingkat I Jawa Barat No.22 Tahun 1998 tanggal 14 Desember 1998 tentang Perubahan Bentuk Hukum Bank Pembangunan Daerah Jawa Barat dari Perusahaan Daerah (PD) menjadi Perseroan Terbatas (PT). Perda tersebut dituangkan lebih lanjut pada Akta Pendirian Nomor 4 Tanggal 8 April 1999 juncto Akta Perbaikan Nomor 8 Tanggal 15 April 1999. Keduanya dibuat di hadapan Popy Kuntari Sutresna, S.H., Notaris di Bandung yang telah memperoleh pengesahan Menteri Kehakiman RI berdasarkan Surat Keputusan No. C2-7103.HT.01.01.TH.99 tanggal 16 April 1999, didaftarkan dalam Daftar Perusahaan di Kantor Pendaftaran Perusahaan Kab/Kodya Bandung di bawah No. 871/BH.10.11/IV/99 tanggal 24 April 1999, serta telah diumumkan dalam Berita Negara Republik Indonesia No.39 tanggal 14 Mei 1999, Tambahan No. 2811, bentuk hukum Bank Jabar diubah dari Perusahaan Daerah (PD) menjadi Perseroan Terbatas (PT).

Based on the Regional Regulation of the Provincial Level I West Java No.22 of 1998 dated December 14, 1998 concerning the Changing the Legal Form of the West Java Regional Development Bank from a Regional Company (PD) to a Limited Liability Company (PT). The Regional Regulation was further outlined in Deed of Establishment Number 4 dated on April 8, 1999 juncto Deed of Amendment Number 8 dated April 15, 1999. Both of them were made before Popy Kuntari Sutresna, SH, a Notary in Bandung who had been approved by the Minister of Justice of the Republic of Indonesia based on Decree No.C2- 7103.HT.01.01.TH.99 dated April 16, 1999, was registered in the Company Register at the Bandung District/Kodya Company Registration Office under No.871/BH.10.11/IV/99 dated April 24, 1999, and was announced in the News Negara Republik Indonesia No.39 dated May 14, 1999, Supplement No.2811 the legal form of Bank Jabar was changed from a Regional Company (PD) to a Limited Liability Company (PT).

Untuk memenuhi meningkatnya kebutuhan masyarakat akan jasa layanan perbankan yang berlandaskan syariah, sesuai dengan izin Bank Indonesia No. 2/18/DpG/DPIP Tanggal 12 April 2000 maka sejak tanggal 15 April 2000 Bank Jabar menjadi BPD pertama di Indonesia yang menjalankan *dual banking system*, yaitu memberikan layanan perbankan dengan sistem konvensional dan sistem syariah.

To meet the increasing needs of the community for shariabased banking services, in accordance with BI license Number 2/18/DpG/ DPIP on April 12, 2000, since April 15, 2000 Bank Jabar became the first BPD in Indonesia to run a dual banking system, namely providing banking services with conventional and sharia systems.

Berdasarkan Rapat Umum Pemegang Saham (RUPS) tanggal 16 April 2001 menyetujui peningkatan modal dasar Bank Jabar menjadi Rp1 triliun. Selanjutnya, berdasarkan hasil keputusan Rapat Umum Pemegang Saham (RUPS) yang diselenggarakan pada tanggal 14 April 2004 berdasarkan Akta No. 10 Tanggal 14 April 2004, modal dasar Bank Jabar dinaikkan dari Rp1 triliun menjadi Rp2 triliun. Melihat perkembangan prospek usaha yang terus membaik, hasil RUPS tanggal 5 April 2006 menetapkan kenaikan modal dasar Bank Jabar dari Rp2 triliun menjadi Rp4 triliun.

Based on the General Meeting of Shareholders (GMS) on April 16, 2001, the bank approved an increase in authorized capital of Bank Jabar to IDR1 trillion. Furthermore, based on the results of the GMS decision held on April 14, 2004 based on Deed No. 10 dated April 14, 2004, the authorized capital of Bank Jabar was increased from IDR1 trillion to IDR2 trillion. By seeing the development of business prospects which continues to improve, the results of the Annual GMS on April 5, 2006 set an increase in the authorized capital of Bank Jabar from IDR2 trillion to IDR4 trillion.

Pada bulan November 2007, sebagai tindak lanjut SK Gubernur BI No. 9/63/kep.gbi/2007 tentang Perubahan Izin Usaha Atas Nama PT Bank Pembangunan Daerah Jawa Barat Menjadi Izin Usaha Atas Nama PT Bank Pembangunan Daerah Jawa Barat dan Banten, dilaksanakan penggantian *call name* dari "Bank Jabar" menjadi "Bank Jabar Banten".

In November 2007, as a follow-up to the Decree of the Governor of BI No. 9/63/kep.gbi/2007 concerning the change of business license on behalf of PT Bank Pembangunan Daerah Jawa Barat to become a business license on behalf of PT Bank Pembangunan Daerah Jawa Barat dan Banten, the call name was changed from "Bank Jabar" to "Bank Jabar Banten".

Sehubungan dengan kegiatan usaha perbankan syariah, Bank Jabar Banten melakukan pemisahan (*spin off*) unit usaha syariah menjadi bank syariah dengan nama PT Bank Jabar Banten Syariah. Berdasarkan Akta Pendirian Perseroan Terbatas, PT Bank Jabar Banten Syariah No.4 tanggal 15 Januari 2010, dibuat oleh Fathiah Helmi, S.H., Notaris di Jakarta, bank **bjb** memiliki penyertaan sebanyak 1.980.000.000 (satu miliar sembilan ratus delapan puluh juta) saham yang merupakan 99% (sembilan puluh sembilan persen) dari seluruh saham yang telah ditempatkan dan disetor penuh dalam Anak Perusahaan. PT Bank Jabar Banten Syariah memperoleh izin usaha dari Bank Indonesia sesuai dengan Keputusan Gubernur Bank Indonesia No.12/35/KEP.GBI/2010 tanggal 30 April 2010 Tentang Pemberian Izin Usaha PT Bank Jabar Banten Syariah.

Seiring dengan perkembangan jaringan kantor yang lebih luas maka berdasarkan Hasil Rapat Umum Pemegang Saham Luar Biasa PT Bank Pembangunan Jawa Barat dan Banten No. 26 tanggal 21 April 2010 dan sesuai Surat Bank Indonesia No. 12/78/APBU/Bd tanggal 30 Juni 2010 perihal Rencana Perubahan Logo Bank serta Surat Keputusan Nomor 1337/SK/DI(R-PPN/2010 tanggal 5 Juli 2010 tentang Perubahan Logo dan Penyebutan Nama Serta Pemberlakuan *Brand Identity Guidelines*, maka pada tanggal 8 Agustus 2010 nama "Bank Jabar Banten" resmi berubah menjadi "bank **bjb**". Pada 8 Juli 2010 bank Bank Jabar Banten mencatatkan saham perdananya (IPO) di Bursa Efek Indonesia dengan kode saham **Bjb**R. Pada Tahun 2021 bank **bjb** memiliki Perusahaan Efek Daerah Pertama. Di Tahun yang sama bank **bjb** menjadi Perusahaan Konglomerasi.

Keterangan Perubahan Nama

Sesuai dengan uraian riwayat singkat, Perseroan pernah melakukan tiga kali perubahan nama yaitu nama PD Bank Karja Pembangunan Daerah Jawa Barat diubah menjadi Bank Pembangunan Daerah Jawa Barat (BPD Jabar) pada Tanggal 27 Juni 1978. Selanjutnya, pada tahun 1995 BPD Jabar memiliki sebutan Bank Jabar. Selanjutnya pada tahun 2007 sebutan perseroan diubah menjadi Bank Jabar Banten yang efektif pada bulan November 2007. Terakhir pada tahun 2010 perubahan penyebutan nama Perseroan menjadi bank **bjb** yang efektif pada tanggal 30 April 2010**.**

In connection with sharia banking business activities, Bank Jabar Banten spin off sharia business units into Islamic banks under the name PT Bank Jabar Banten Syariah. Based on the Deed of Establishment of a Limited Liability Company, PT Bank Jabar Banten Syariah No.4 on January 15, 2010, made by Fathiah Helmi, SH, Notary in Jakarta, bank **bjb** has an investment of 1,980,000,000 (one billion nine hundred eighty million) shares which constitute 99% (ninety nine percent) of all shares that have been placed and fully paid in the Subsidiary. Bank Jabar Banten Syariah obtained a business license from Bank Indonesia in accordance with the Decree of the Governor of Bank Indonesia No.12/35/KEP.GBI/2010 dated April 30, 2010 concerning the Granting of a Business License of PT Bank Jabar Banten Syariah.

Along with the development of a wider office network, based on the Results of the Extraordinary General Meeting of Shareholders, PT Bank Pembangunan Jawa Barat dan Banten Number 26 dated April 21, 2010 and in accordance with Bank Indonesia Letter No. 12/78/APBU/Bd dated June 30, 2010 concerning the Plan for Changing the Bank Logo and Decree Number 1337/SK/DI (R-PPN/2010 dated July 5, 2010 concerning Change of Logo and Mention of Names and Enforcement of Brand Identity Guidelines, then on August 8, 2010 the name "Bank Jabar Banten" officially changed to "bank **bjb**". On July 8, 2010 Bank Jabar Banten bank listed its initial shares (IPO) on the Indonesia Stock Exchange with the stock code **Bjb**R. In 2021 bank **bjb** has the First Regional Securities Company. In the same year bank **bjb** became a conglomerate company.

Description of Name Change

In accordance with the brief history, the Company has changed its name three times, namely the name PD Bank Karja Pembangunan Daerah Jawa Barat was changed to Bank Pembangunan Daerah Jawa Barat (BPD Jabar) on June 27, 1978. Furthermore, pada tahun 1995 BPD Jabar has the name Bank Jabar. Furthermore, on tahun 2007 The company's name was changed to Bank Jabar Banten which was effective in November 2007. Finally, in 2010, the company's name was changed to bank **bjb** which was effective on April 30, 2010.

The results of the vision and mission review in 2025, the achievement of the Company's Vision and Mission has been in accordance with the direction and stages set by the Company. The Board of Commissioners and Board of Directors have ensured that the Company's vision, mission, goals, targets, strategies and annual and medium-term plans are consistent with long- term goals by utilizing innovation and technology effectively.

TAGLINE

Tandamata
Untuk Negeri

Budaya Perusahaan

Budaya Perusahaan adalah prinsip-prinsip yang diyakini baik dan benar dalam mencapai tujuan perusahaan yang menjadi landasan kebijakan dan aturan, dan mengarahkan perilaku individu di dalam perusahaan. Budaya Perusahaan yang dikelola dengan baik memiliki peranan yang strategis dalam upaya pencapaian visi, misi, tujuan, strategi, dan sasaran-sasaran usaha. Peran budaya perusahaan dapat dilihat dari sudut kepentingan perusahaan dan kepentingan pegawai sebagai berikut:

Bagi Perusahaan
for the Company

1. Meningkatkan citra perusahaan dengan keunikan budaya yang dimiliki.
2. Sebagai suatu acuan atau pedoman yang menjiwai segala kebijakan perusahaan.
3. Menekan turn over pegawai karena rasa kebanggaan dan jati diri.
4. Salah satu instrumen untuk mendapatkan dukungan dari semua unsur dalam perusahaan.
5. Sebagai sarana membentuk kesamaan visi dan cara-cara melakukan bisnis.

1. Improve the image of the Bank with its unique culture.
2. Serve as a reference or guideline that permeates in all policies.
3. Reduce employee turnover due to a sense of pride and identity.
4. Serve as an instrument to received support from all elements in the Bank.
5. Serve as a tool for creating common vision and ways of doing business.

Bagi Pegawai
for Employees

1. Memberi arah yang jelas dalam bersikap dan berperilaku di dalam perusahaan.
2. Menyamakan persepsi dan pola pandang yang sama dalam mencapai sasaran perusahaan.
3. Meningkatkan produktivitas dan meningkatkan prestasi kerja para pegawai.
4. Peran pegawai menjadi jelas, dan memperjelas arah perusahaan sehingga terlihat lebih nyata.
5. Meningkatkan motivasi kerja pegawai.

1. Provide a clear direction in behaving and conducting within the Bank.
2. Create equal perspective and point of view in achieving the Bank's goals.
3. Increase productivity and improve employees work performance.
4. Clarify the role of employees, and clarify the directions of the Bank so as to make them more real.
5. Improve employee motivation.

bank **bjb** secara konsisten terus berupaya menyesuaikan cara dalam mengimplementasikan *Corporate Value* dan Program Budaya Kerja agar lebih mudah dipahami dan dijalankan oleh seluruh pegawai. Internalisasi Program Budaya di bank **bjb** dilaksanakan melalui optimalisasi program komunikasi pegawai secara berkelanjutan (*Culture Implementation Program*). Nilai-nilai Budaya Perusahaan bank **bjb** merupakan penjabaran lebih lanjut atas slogan bank **bjb** sebagai acuan pokok bagaimana perilaku bank **bjb** dengan segenap jajarannya dalam mengelola bisnisnya.

Corporate Culture

Corporate Culture becomes the principles believed to be good and right in achieving company goals that form the basis of policies and rules, and direct the behavior of individuals within the company. A well-managed corporate culture has a strategic role in achieving the vision, mission, goals, strategies, and business goals. The role of corporate culture could be seen from the point of view of company interests and employee interests as follows:

bank **bjb** consistently strived to adjust the way in implementing Corporate Values and Work Culture Programs to make it easier for all employees to understand and implement. Internalization of the Culture Program at bank **bjb** was carried out through the optimization of the employee communication program on an ongoing basis (Culture Implementation Program). bank **bjb** Corporate Culture valueswere a further elaboration of bank **bjb** slogan as the main reference for how bank **bjb** should behave with all its staff in managing its business.

Nilai-Nilai Budaya Perusahaan bank **bjb** adalah "GO SPIRIT".

3. Samsat Banten Hebat (SAMBAT) for Banten Province.
4. E-samsat Kepri for Riau Islands Province.

bjb T-SAMSAT merupakan pengembangan dari layanan **bjb** E-Samsat, yaitu layanan pembayaran pajak kendaraan bermotor (PKB) dengan cara pembayaran berkala atau tahunan melalui tabungan dengan mekanisme debet otomatis pada saat jatuh tempo pembayaran pajak. Saat ini **bjb** T-Samsat hanya melayani pembayaran PKB untuk wilayah Jawa Barat,

bjb T-SAMSAT is a development of the **bjb** E-Samsat service, which is a motorized vehicle tax (PKB) payment service by means of periodic or annual payments through savings with an automatic debit mechanism when tax payments are due. Currently **bjb** T-Samsat only serves PKB payments for the West Java region, but is in the process of being developed so

namun sedang dalam proses pengembangan agar dapat melayani pembayaran PKB di wilayah Indonesia lainnya. Untuk memberikan kemudahan, registrasi bjb T-Samsat juga dapat dilakukan via aplikasi DIGI bank **bjb**. Selain itu, terdapat **bjb** Digi Loan adalah aplikasi milik bank bjb untuk membantu masyarakat dalam pengajuan produk kredit bank bjb melalui ponsel pribadi.

Pada tahun 2024, bank **bjb** kembali menunjukkan komitmennya dalam mendukung kesejahteraan Aparatur Sipil Negara (ASN) dengan meluncurkan produk kredit digital inovatif, **bjb** KGB Pisan (Kredit Guna Bhakti Pinjaman ASN). Produk ini dirancang khusus untuk memudahkan ASN dalam memenuhi kebutuhan finansial mereka dengan cepat dan efisien, tanpa harus datang ke bank. Dengan **bjb** KGB Pisan, ASN dapat melakukan simulasi, pengajuan, hingga pencairan kredit secara mandiri melalui aplikasi DIGI bank **bjb** kapan saja dan di mana saja.

Keunggulan utama dari bjb KGB Pisan adalah kemudahan akses yang ditawarkan. ASN tidak perlu lagi meluangkan waktu untuk datang ke kantor cabang bank, karena semua proses dapat dilakukan melalui perangkat smartphone. Selain itu, ASN juga dapat mengakses informasi terkait fasilitas kredit dan melakukan simulasi pengajuan kredit, yang memberikan pengalaman baru dalam proses pengajuan kredit dibandingkan dengan cara konvensional.

Agen Laku Pandai bjb BiSA

Agen Laku Pandai **bjb** BiSA dapat mengakomodasikan berbagai kebutuhan transaksi perbankan baik nasabah eksisting maupun non nasabah di wilayah remote area. Agen Laku Pandai bjb BiSA menggunakan sarana mesin *Electronic Data Capture* (EDC) untuk dapat bertransaksi secara (*realtime online*) sehingga pelayanan lebih efisien dan fleksibel karena tidak harus datang ke kantor bank yang lokasinya jauh.

Segmentasi individu yakni agen yang direkrut dari perorangan seperti petani, nelayan, perangkat desa, pensiunan, guru, pedagang dan lainnya. Sedangkan kelompok antara lain kelompok tani dan nelayan, Badan Usaha Milik Desa (Bumdes), perusahaan dan instansi.

Manfaat Agen Laku Pandai itu adalah layanan perbankan menjadi lebih dekat tanpa harus datang ke Kantor Bank. Transaksi perbankan yang dapat dilakukan di Agen Laku Panda bjb BiSA antara lain, setor/ tarik tunai, pemindahbukuan antar rekening bank **bjb** maupun transfer antar bank. Selain itu, juga melayani transaksi pembelian dan pembayaran antara lain, pembelian pulsa, *top up e-Wallet*, serta pembayaran BPJS Kesehatan, TV Berlangganan, PAM/PDAM, PBB dan sebagainya.

that it can serve PKB payments in other parts of Indonesia. To provide convenience, **bjb** T-Samsat registration can also be done via the DIGI by bank **bjb** application. In addition, there is **bjb** Digi Loan, which is an application owned by bank **bjb** to assist the public in applying for bank **bjb** loan products via personal cellphone.

In 2024, bank **bjb** re-demonstrated its commitment to support the welfare of State Civil Apparatus (ASN) by launching an innovative digital credit product, **bjb** KGB Pisan (ASN Guna Bhakti Loan). This product was specifically designed to ease ASN to meet their financial needs quickly and efficiently, without coming to the bank. Having **bjb** KGB Pisan, ASN can conduct simulations, applications, and credit disbursements independently through bank **bjb** DIGI application anytime and anywher.

The key superiority of **bjb** KGB Pisan is the easily offered accesibility. ASN do not need to come to the bank branch office, because processes can be done via smartphone devices. In addition, ASN can also access information related to loans facilities and perform loans application simulations, which provide a new experience in the loans application process than conventional method.

Laku Pandai bjb BiSA Agent

Laku Pandai **bjb** BiSA agents can accommodate various banking transaction needs for both existing and non-customers in remote areas. Laku Pandai **bjb** BiSA agents use Electronic Data Capture (EDC) machines to be able to transact (real-time online) so that services are more efficient and flexible because they do not have to come to a bank office that is far away.

Segmentation of individual agents recruited from individuals such as farmers, fishermen, village officials, retirees, teachers, traders and others. Meanwhile, groups include farmer and fisherman groups, Village-Owned Enterprises (Bumdes), schools, companies and agencie.

The benefits of Laku Pandai Agents are that banking services become closer without having to come to the Bank Office. Banking transactions that can be done at Laku Panda Agents **bjb** BiSA include, cash deposits/withdrawals, transfers between **bjb** bank accounts and interbank transfers. In addition, it also serves purchase and payment transactions including, purchasing credit, e-Wallet top ups, and BPJS Health payments, Subscription TV, PAM/PDAM, PBB and so on.

Daftar Keanggotaan Asosiasi
List of Association Membership

Organisasi maupun asosiasi memiliki peran yang penting bagi suatu perusahaan, baik dari segi bisnis maupun sosial. Hal itu mendorong bank **bjb** untuk berperan aktif dalam keanggotaan organisasi atau asosiasi terutama di Indonesia. Aktifnya bank **bjb** pada keanggotaan diharapkan dapat memperluas pengetahuan tentang perkembangan lingkungan bisnis, mengembangkan hubungan bisnis, dan memperkuat eksistensi Perseroan. Sampai akhir 2025, bank **bjb** terdaftar sebagai anggota asosiasi perbankan di tingkat nasional sebagaimana ditampilkan pada tabel di bawah ini:

Organizations and associations have an important role for a company, both from a business and social perspective. This encourages bank **bjb** to play an active role in membership of organizations or associations, especially in Indonesia. The activeness of bank **bjb** in membership is expected to broaden knowledge about developments in the business environment, develop business relationships, and strengthen the existence of the company. Until the end of 2025, bank **bjb** is registered as a member of the banking association at the national level as shown in the table below:

Joko Hartono Kalisman	Direktur Kepatuhan Director of Compliance	OJK	RUPS Tahunan tanggal 16 April 2025 Annual GMS on April 16, 2025	-

Komposisi Direksi Setelah RUPS Luar Biasa Tahun 2025

Pada tanggal 9 Desember 2025, RUPS Luar Biasa memutuskan:

1. Membatalkan dengan hormat pengangkatan Joko Hartono Kalisman selaku Direktur Kepatuhan.
2. Memberhentikan dengan hormat Direktur Utama Almarhum Yusuf Saadudin, berlaku efektif sejak tanggal 14 November 2025 dan mengucapkan turut berduka cita yang sedalam dalamnya dari seluruh insan Perseroan, serta mengucapkan terima kasih atas sumbangsih tenaga dan pikiran yang diberikan selama menjabat sebagai Pengurus Perseroan.
3. Menetapkan Ayi Subarna sebagai Direktur Pengganti Direktur Utama Perseroan berdasarkan SK Direksi Nomor 0565/SK/DIR-CSE/2025 Tanggal 15 November 2025 Tentang Pembagian Tugas dan Wewenang Direksi PT Bank Pembangunan Daerah Jawa Barat dan Banten, Tbk., serta telah disampaikan kepada publik dalam Keterbukaan Informasi Perseroan pada tanggal 17 November 2025.

Sehingga komposisi Direksi setelah RUPS Luar Biasa Tahun 2025 sebanyak 4 (empat) orang Direksi. Komposisi dan dasar pengangkatan Direksi dapat dilihat pada tabel di bawah ini.

Composition of The Board of Director After Extraordinary GMS for The 2025 Fiscal Year

On December 9, 2025, the Extraordinary General Meeting of Shareholders (EGMS) resolved as follows:

1. Honorably revoked the appointment of Joko Hartono Kalisman as Director of Compliance.
2. onorably dismissed the late Yusuf Saadudin from his position as President Director, effective November 14, 2025, and conveyed the Company's deepest condolences on behalf of all members of the Company, as well as expressed appreciation for his dedication and contributions during his tenure as a member of the Company's Management.
3. Appointed Ayi Subarna as the Acting President Director of the Company pursuant to the Board of Directors Decree No. 0565/SK/DIR-CSE/2025 dated November 15, 2025 concerning the Distribution of Duties and Authorities of the Board of Directors of PT Bank Pembangunan Daerah Jawa Barat dan Banten, Tbk., which has also been disclosed to the public through the Company's Information Disclosure dated November 17, 2025.

Accordingly, the composition of the Board of Directors following the 2025 Extraordinary General Meeting of Shareholders consists of 4 (four) Directors. The composition and basis of appointment of the Board of Directors can be seen in the table below.

Pengembangan Kompetensi Pegawai

Dalam rangka mendukung penguatan tata kelola perusahaan dan manajemen risiko, bank **bjb** secara konsisten melaksanakan Program Sertifikasi Manajemen Risiko serta program *refreshment* kompetensi secara berjenjang dan berkesinambungan. Selain itu, Perseroan juga memfasilitasi sertifikasi lain yang relevan dengan kebutuhan jabatan dan profesi pegawai guna memastikan kesiapan kompetensi sesuai standar industri dan regulator. Adapun ketentuan pengelolaan Sertifikasi Manajemen Risiko tertuang dalam Surat Edaran Nomor 0601/SK/DIR-BUN/2024 tanggal 13 Desember 2024 perihal Sertifikasi Manajemen Risiko.

bank **bjb** menjunjung tinggi prinsip kesetaraan kesempatan pengembangan karier, di mana setiap pegawai memiliki akses yang sama terhadap program pembelajaran berdasarkan kinerja, kompetensi, pengalaman, serta kriteria yang ditetapkan Perseroan. Kebijakan ini sejalan dengan ketentuan internal terkait pengelolaan pembelajaran dan pengembangan kompetensi pada Surat Keputusan Direksi No. 0190/SK/DIR-BUN/2025 Tanggal 23 Juni 2025 Tentang Standar Operasional Prosedur Penyelenggaraan Pembelajaran.

Melalui kebijakan dan pelaksanaan pengembangan kompetensi yang terarah dan terintegrasi pada tahun 2025, bank **bjb** berkomitmen untuk memastikan kesiapan talenta dalam mendukung pencapaian target bisnis, memperkuat produktivitas *Human Capital*, serta mengokohkan peran Divisi Human Capital sebagai *strategic partner* dan *value creator* bagi Perseroan.

Employee's Competency Development

In order to support the strengthening of corporate governance and risk management, bank **bjb** consistently implemented the Risk Management Certification Program as well as tiered and continuous competency refreshment programs. In addition, the Company also facilitated other certifications relevant to employees' job and professional requirements to ensure competency readiness in accordance with industry and regulatory standards. The provisions governing the administration of Risk Management Certification were stipulated in Circular Letter No. 0601/SK/DIR-BUN/2024 dated December 13, 2024 concerning Risk Management Certification.

bank **bjb** upheld the principle of equal opportunity for career development, whereby all employees had equal access to learning programs based on performance, competencies, experience, and the criteria established by the Company. This policy was in line with the internal provisions governing learning management and competency development as stipulated in the Board of Directors Decree No. 0190/SK/DIR-BUN/2025 dated June 23, 2025 concerning the Standard Operating Procedures for Learning Implementation.

Through structured and integrated competency development policies and implementation in 2025, bank **bjb** remained committed to ensuring talent readiness in supporting the achievement of business targets, strengthening Human Capital productivity, and reinforcing the role of the Human Capital Division as a strategic partner and value creator for the Company.

Pendirian bank **bjb** Syariah diawali dengan pembentukan Divisi/Unit Usaha Syariah oleh PT Bank Pembangunan Daerah Jawa Barat dan Banten Tbk pada 20 Mei 2000, dengan tujuan untuk memenuhi kebutuhan masyarakat Jawa Barat yang mulai tumbuh keinginannya untuk menggunakan jasa perbankan syariah pada saat itu.Setelah 10 (sepuluh tahun) operasional Divisi/Unit Usaha Syariah, manajemen PT Bank Pembangunan Daerah Jawa Barat dan Banten Tbk berpandangan bahwa untuk mempercepat pertumbuhan usaha syariah serta mendukung program Bank Indonesia yang menghendaki peningkatan *share* perbankan syariah, maka dengan persetujuan Rapat Umum Pemegang Saham PT Bank Pembangunan Daerah Jawa Barat dan Banten Tbk diputuskan untuk menjadikan Divisi/Unit Usaha Syariah menjadi Bank Umum Syariah.

Establishment of bank **bjb** syariah began with the establishment of Sharia Division/Business Unit by PT Bank Pembangunan Daerah Jawa Barat dan Banten Tbk on May 20, 2000 with the purpose to meet West Java's society emerging needs of using sharia banking services at that time. After 10 (ten) years of operational of Sharia Division/Business Unit, management of PT Bank Pembangunan Daerah Jawa Barat dan Banten Tbk viewed that to accelerate sharia business growth and to support Bank Indonesia program intending to increase sharia banking share, therefore, at the approval of General Meeting of Shareholders of PT Bank Pembangunan Daerah Jawa Barat dan Banten Tbk, it was decided to transform the Sharia Division/ Business Unit into Sharia Commercial Bank.

Sebagai tindak lanjut keputusan Rapat Umum Pemegang Saham PT Bank Pembangunan Daerah Jawa Barat dan Banten Tbk, maka pada tanggal 15 Januari 2010 didirikan bank bjb syariah berdasarkan Akta Pendirian Perseroan Terbatas No. 4 yang dibuat oleh Notaris Fathiah Helmi dan telah mendapat pengesahan dari Menkumham Nomor AHU-04317.AH.01.01 Tahun 2010 tanggal 26 Januari 2010.

As a follow-up to the decision of the General Meeting of Shareholders of PT Bank Pembangunan Daerah Jawa Barat dan Banten Tbk, on January 15, 2010, bank **bjb** syariah was established based on the Deed of Establishment of Limited Liability Company No. 4 made by Notary Fathiah Helmi and approved by the Minister of Law and Human Rights Number AHU-04317.AH.01.01 Year 2010 dated January 26, 2010.

Pada tahun 1973 Kabupaten Garut mendirikan lembaga keuangan dengan nama Lembaga Perkreditan Kecamatan berdasarkan Surat Keputusan Gubernur Kepala Daerah Tingakt I Jawa Barat Nomor 446/A.III/SK/1973 tentang Pembentukan Lembaga Perkreditan Kecamatan (LPK) di Provinsi Jawa Barat. Pada tahun 1998, PD. LPK di Kabupaten Garut selanjutnya berubah status menjadi PD BPR LPK sesuai Peraturan Daerah Provinsi Jawa Barat No. 25 Tahun 1996 Tentang Perusahaan Daerah Perkreditan Kecamatan (PD.PK) dan mendapat izin usaha sebagai BPR dari Bank Indonesia sesuai surat No. 31/20/DIR/UBPR/Rahasia tanggal 22 Juni 1998 serta disahkan melalui Keputusan Menteri Keuangan Republik Indonesia No. KEP-467/KM.17/1998 tentang Pemberian Izin Usaha sebagai Bank Perkreditan Rakyat kepada Perusahaan Daerah Bank Perkreditan Rakyat Lembaga Perkreditan Rakyat Kecamatan Garut Kota.

In 1973 Garut regency established a financial institution with the name of the District Credit Institution based on the Governor's Decree of the Head of the Level I of West Java No. 446/A. III/SK/1973 concerning Establishment of District Credit Institutions (LPK) in West Java Province. In 1998, PD LPK in Garut Regency then changed its status to PD BPR LPK according to West Java Province Regulation No. 25 of 1996 concerning Regional Credit Companies (PD.PK) and obtain a business license as a Rural Bank from Bank Indonesia in accordance with letter No. 31/20/DIR/UBPR/Rahasia dated June 22, 1998 and approved by Decree of the Minister of Finance of the Republic of Indonesia No. KEP467/KM.17/1998 concerning Granting of Business Licenses as Rural Banks to Regional Companies of Rural Banks for Rural Credit Institutions in Garut City District.

Untuk penguatan perusahaan, pada tahun 2010 dimulai proses merger terhadap 7 (tujuh) PD BPR LPK di Kabupaten Garut sesuai Perda Provinsi Jabar No. 30 Tahun 2010 tentang Perubahan atas Perusahaan Daerah Jawa Barat No. 14 Tahun 2006, yaitu:

- PD BPR LPK Garut Kota
- PD BPR LPK Sukawening
- PD BPR LPK Bayongbong
- PD BPR LPK Cikajang
- PD BPR LPK Banjarwangi
- PD BPR LPK Leuwigoong
- PD BPR LPK Cibalong

In order to strengthen the Company, in 2010 the merger process of 7 (seven) PD BPR LPK in Garut Regency was initiated in accordance with West Java Provincial Regulation No. 30 of 2010 concerning the Amendment to West Java Provincial Regulation No. 14 of 2006, namely as follows:

- PD BPR LPK Garut Kota
- PD BPR LPK Sukawening
- PD BPR LPK Bayongbong
- PD BPR LPK Cikajang
- PD BPR LPK Banjarwangi
- PD BPR LPK Leuwigoong
- PD BPR LPK Cibalong

Menindaklanjuti Peraturan Daerah Provinsi Jawa Barat Nomor 10 Tahun 2013 Tentang Perubahan Bentuk Hukum Perusahaan Daerah Bank Perekonomian Rakyat Hasil Merger Di Kabupaten Garut, Kabupaten Subang, Kabupaten Cianjur Dan Kabupaten Tasikmalaya Menjadi Perseroan Terbatas, maka pada tanggal 3 April 2014 Pemegang Saham dan Pengurus PD. BPR LPK Garut Kota telah melaksanakan Rapat Umum Pemegang Saham Luar Biasa (RUPS-LB) Dalam Rangka Perubahan Bentuk Badan Hukum PD. BPR LPK Garut Kota Kabupaten Garut. Dalam RUPS Luar Biasa tersebut Pemegang Saham telah memberikan persetujuan terhadap perubahan bentuk badan hukum PD. BPR LPK Garut Kota.

Following up on the Regional Regulation of West Java Province Number 10 of 2013 concerning Changes in the Legal Form of the Regional Company Bank Perekonomian Rakyat Resulting from the Merger in Garut Regency, Subang Regency, Cianjur Regency and Tasikmalaya Regency into a Limited Liability Company, on April 3, 2014 the Shareholders and Management of PD. BPR LPK Garut City held an Extraordinary General Meeting of Shareholders (EGMS-LB) in the Framework of Changing the Legal Form of PD. BPR LPK Garut City, Garut Regency. In the Extraordinary GMS, the Shareholders have given their approval for the change in the legal form of PD. BPR LPK Garut City.

Kemudian, pada tanggal 11 Desember 2014 telah didirikan suatu Perseroan Terbatas dengan nama PT. BPR Intan Jabar, sesuai dengan Akta Pendirian Perseroan Terbatas nomor 47 tanggal 11 Desember 2014 yang dibuat dihadapan Intan Rubyati Dewi,

Total penerimaan dari penawaran umum tersebut sebesar Rp1.454.443 juta. Selisih lebih antara harga penawaran per saham dengan nilai nominal per saham dicatat sebagai "Tambahan Modal Disetor." Yang disajikan pada bagian Ekuitas pada laporan posisi keuangan konsolidasian.

In 2010, the Bank offered 2,424,072,500 shares, or 25% of the total shares of the Bank, to the public at an offering price of Rp600 (full amount) per share. The offered shares are Series B shares with a nominal price of IDR250 (full amount) per share. The public offering has obtained an effective statement based on a letter from Bapepam-LK No. S-5901/BL/2010 dated June 29, 2010. The total revenue from the public offering amounted to IDR1,454,443 million. The difference between the per share offer price and the nominal value per share is recorded as "Additional Paid-in Capital" which is presented in the Equity section in the consolidated statement of financial positio.

Pada tanggal 8 Juli 2010, saham Perseroan secara resmi telah tercatat di Bursa Efek Indonesia. Jumlah saham Perseroan yang tercatat di Bursa Efek Indonesia sebanyak 2.424.072.500 saham seri B atau 25% dari jumlah saham Bank.

On July 8, 2010, Bank shares were officially listed on the Indonesia Stock Exchange. The number of Bank shares listed on the Indonesia Stock Exchange is 2,424,072,500 series B shares or 25% of the Bank's total shares.

Dalam rangka penguatan struktur permodalan untuk menjaga rasio permodalan sesuai Peraturan Otoritas Jasa Keuangan No. 11/POJK.03/2016 tentang Kewajiban Penyediaan Modal Minimum Bank Umum sebagaimana telah diubah oleh Peraturan Otoritas Jasa Keuangan No. 34/POJK.03/2016 serta untuk menunjang ekspansi bisnis Perseroan di masa mendatang, khususnya untuk ekspansi kredit, Perseroan merencanakan untuk melaksanakan Program Penambahan Modal Tanpa Hak Memesan Efek Terlebih Dahulu (Program PMT HMETD) sebagaimana dimaksud dalam Peraturan No. 38/POJK.04/2014 tentang Penambahan Modal Tanpa Memberikan Hak Memesan Efek Terlebih Dahulu.

In the context of strengthening the capital structure to maintain the capital ratio in accordance with Financial Services Authority Regulation No. 11/POJK.03/2016 concerning the Minimum Capital Requirement for Commercial Banks as amended by Financial Services Authority Regulation No. 34/POJK.03/2016 and to support the expansion of the Company's business in the future, specifically for loan expansion, the Company plans to implement a Capital Addition Program without Pre-emptive Rights (PMT HMETD Program) as referred to in Regulation No. 38/POJK.04/2014 concerning Increasing Capital Without Giving Preemptive Rights.

Berdasarkan hasil Keputusan Rapat Umum Pemegang Saham Luar Biasa yang diselenggarakan di Kota Bandung pada tanggal 11 Desember 2018, telah memberikan persetujuan untuk pelaksanaan PMT HMETD dengan menerbitkan sebanyak-banyaknya 360.100.000 lembar saham Seri A dengan nilai nominal Rp250 per lembar saham, dengan harga penerbitan sebesar Rp1.900 per lembar saham. Dasar penetapan harga penerbitan berdasarkan ketentuan dalam butir V.1 Lampiran II Peraturan Pencatatan PT Bursa Efek Indonesia No. 1-A Keputusan No. Kep-00001/BEI/01-2014 tanggal 20 Januari 2014 yakni harga rata-rata 25 (dua puluh lima) hari penutupan perdagangan saham Perseroan di Bursa Efek Indonesia sebelum tanggal pemberitahuan pelaksanaan RUPSLB yakni mulai tanggal 28 September 2018 sampai dengan 1 November 2018.

Based on the results of the Extraordinary General Meeting of Shareholders held in the city of Bandung on December 11, 2018, has given approval for the exercise of Pre-emptive Rights by issuing as many as 360,100,000 Series A shares with a nominal value of IDR250 per share, with the issuance price in the amount of IDR1,900 per share. The basis for determining the issuance price is based on the provisions in point V.1 Appendix II of PT Indonesia Stock Exchange Listing Regulation No. 1-A Decree No. Kep-00001/BEI/01-2014 dated January 20, 2014 namely the average price of 25 (twenty-five) days of trading closure of the Company's shares on the Indonesia Stock Exchange prior to the date of the notice of the EGMS starting on September 28, 2018 until November 1, 2018.

Jangka waktu pelaksanaan Program PMT HMETD adalah 2 (dua) tahun terhitung sejak persetujuan RUPSLB yaitu sampai dengan 11 Desember 2020. Pelaksanaan setoran modal dilakukan secara bertahap disesuaikan dengan anggaran serta pemenuhan peraturan perundang-undangan yang berlaku untuk pemerintah daerah. Di tahun 2018 terdapat 20 (dua puluh) Pemerintah Daerah yang telah melakukan setoran modal dengan total nilai setoran adalah sebesar Rp270.742.390.500 dan dengan jumlah lembar saham Seri A baru yang diterbitkan sebanyak 142.495.995 lembar saham.

The period for implementing the Preemptive Rights PMT Program was 2 (two) years from the approval of the EGMS, namely until December 11, 2020. The capital injection was carried out in stages according to the budget and compliance with the laws and regulations that applied to local governments. In 2018 there were 20 (twenty) Regional Governments that had paid up capital with a total deposit value of IDR270,742,390,500 and with the number of new Series A shares issued as many as 142,495,995 shares.

Berdasarkan hasil keputusan Rapat Umum Pemegang Saham Tahunan Tahun Buku 2020 yang diselenggarakan di Kota Bandung pada tanggal 6 April 2021 telah menyetujui pelaksanaan Penambahan Modal dengan Hak Memesan Efek

Based on the resolution of the Annual General Meeting of Shareholders for Fiscal Year 2020 held in Bandung on April 6, 2021, the Company approved the implementation of a Capital Increase with Pre-emptive Rights (PMHMETD) through

Tinjauan Perekonomian
Economic Review

Analisis Perekonomian Global

Ketidakpastian ekonomi global meningkat tajam seiring perubahan besar dalam kebijakan perdagangan internasional. Amerika Serikat (AS) memberlakukan tarif impor tinggi terhadap sebagian besar mitra dagangnya, termasuk Tiongkok, yang memicu gelombang proteksionisme dan mendorong negara lain melakukan penyesuaian kebijakan. Meski beberapa kesepakatan dagang bilateral sempat menurunkan ketegangan, situasi perdagangan global masih diwarnai ketidakpastian yang menekan investasi, memperlambat arus perdagangan, dan menghambat pemulihan ekonomi pasca pandemi.

IMF memproyeksikan pertumbuhan ekonomi global melambat dari kisaran 3,9% pada 2025 dan 3,1% pada 2026, di bawah rata-rata pra-pandemi, dengan negara berkembang tetap menjadi penopang utama di tengah lemahnya pemulihan negara maju. Kondisi ini menciptakan tekanan eksternal yang signifikan bagi Indonesia melalui jalur nilai tukar, arus modal, dan permintaan ekspor, meskipun likuiditas global relatif membaik seiring pelonggaran kebijakan moneter di sejumlah negara maju.

Global Economic Analysis

Global economic uncertainty increased significantly amid major shifts in international trade policy. The United States (US) imposed high import tariffs on most of its trading partners, including China, triggering a wave of protectionism and prompting other countries to adjust their policies. Although several bilateral trade agreements temporarily eased tensions, global trade conditions remained characterized by uncertainty that weighed on investment, slowed trade flows, and hindered post-pandemic economic recovery.

The International Monetary Fund (IMF) projects that global economic growth will moderate to around 3.9% in 2025 and 3.1% in 2026, below the pre-pandemic average, with emerging economies remaining the primary drivers amid the weaker recovery in advanced economies. These conditions create significant external pressures on Indonesia through the exchange rate, capital flows, and export demand channels, although global liquidity has shown relative improvement in line with the monetary policy easing implemented in several advanced economies.

Dinamika geopolitik dan perekonomian global terus memberikan tekanan signifikan terhadap arah kebijakan moneter bank-bank sentral serta stabilitas pasar keuangan dunia. Ketidakpastian global tetap tinggi, dipicu oleh berlanjutnya konflik Rusia-Ukraina, eskalasi ketegangan geopolitik di Timur Tengah, serta fragmentasi perdagangan global akibat kebijakan tarif AS. Kondisi tersebut meningkatkan volatilitas pasar keuangan dan menahan arus perdagangan serta investasi internasional. Seiring dengan meredanya tekanan inflasi global dan melemahnya momentum pertumbuhan ekonomi di sejumlah negara maju, bank-bank sentral mulai memasuki fase pelonggaran kebijakan moneter. Bank Sentral AS (The Fed) menurunkan Federal Funds Rate (FFR) pada September 2025 ke kisaran 3,50%–3,75%, sebagai bagian dari upaya menyeimbangkan perlambatan ekonomi dan pasar tenaga kerja dengan inflasi yang mulai menurun.

Pelonggaran kebijakan moneter tersebut mendorong perbaikan kondisi keuangan global, ditandai dengan membaiknya likuiditas dan menurunnya volatilitas pasar. Namun demikian, ketidakpastian tetap membayangi seiring berlanjutnya risiko geopolitik dan kekhawatiran fiskal di negara-negara maju, yang mendorong penguatan kembali dolar AS secara luas serta peningkatan imbal hasil US Treasury di berbagai tenor, meskipun masih berada dalam kisaran historis yang wajar. Kondisi ini mencerminkan sikap kehati-hatian pasar terhadap arah kebijakan moneter global ke depan yang diperkirakan akan lebih terbatas dan sangat bergantung pada perkembangan data ekonomi.

Geopolitical and global economic dynamics continued to exert significant pressure on the direction of monetary policy across central banks as well as on global financial market stability. Global uncertainty remained elevated, driven by the ongoing Russia–Ukraine conflict, escalating geopolitical tensions in the Middle East, and global trade fragmentation resulting from US tariff policies. These conditions increased financial market volatility and restrained international trade and investment flows. As global inflationary pressures eased and economic growth momentum weakened in several advanced economies, central banks began entering a phase of monetary policy easing. The US Federal Reserve (The Fed) reduced the Federal Funds Rate (FFR) in September 2025 to the range of 3.50%–3.75%, as part of efforts to balance the economic slowdown and labor market conditions with moderating inflation.

The monetary policy easing supported an improvement in global financial conditions, reflected in improved liquidity and declining market volatility. Nevertheless, uncertainty persisted amid ongoing geopolitical risks and fiscal concerns in advanced economies, which led to a broad strengthening of the US dollar and higher US Treasury yields across various tenors, although still within a reasonable historical range. These conditions reflect market prudence toward the future direction of global monetary policy, which is expected to remain more limited and highly dependent on incoming economic data.

Analisis Perekonomian Nasional

Ekonomi Indonesia tumbuh sebesar 5,39% (yoy) pada Triwulan-IV 2025, mencatatkan pertumbuhan kuartalan tertinggi sejak periode pasca pandemi COVID-19 serta mendorong pertumbuhan tahunan sebesar 5,11% (yoy) sepanjang 2025.

National Economic Analysis

Indonesia's economy grew by 5.39% (yoy) in the fourth quarter of 2025, marking the highest quarterly growth since the post-COVID-19 pandemic period and driving full-year growth of 5.11% (yoy) throughout 2025.

Pertumbuhan Ekonomi Dari Sisi Pengeluaran

Dari sisi pengeluaran, pertumbuhan ekonomi 2025 terutama ditopang oleh konsumsi rumah tangga yang tumbuh 5,11% (yoy) pada Triwulan IV dan 4,98% sepanjang tahun 2025, didukung daya beli yang kuat, mobilitas meningkat, inflasi terkendali, serta berbagai stimulus pemerintah seperti bansos, Bantuan Langsung Tunai Subsidi (BLTS), dan diskon

Economic Growth In Expenditure Sector

From the expenditure side, economic growth in 2025 was primarily supported by household consumption, which grew by 5.11% (yoy) in the fourth quarter and 4.98% for the full year of 2025, underpinned by strong purchasing power, increased mobility, controlled inflation, as well as various government stimulus measures such as social assistance, Cash Transfer

transportasi yang mendorong aktivitas konsumsi, termasuk sektor restoran, hotel, transportasi, dan komunikasi. Konsumsi pemerintah tumbuh 4,55% (yoy) pada triwulan IV dan 2,5% sepanjang tahun, dengan belanja negara sebesar Rp805,4 triliun untuk program prioritas dan Rp110,7 triliun untuk stimulus, memberikan efek pengganda bagi konsumsi, dunia usaha, dan produktivitas jangka panjang.

Subsidy Assistance (BLTS), and transportation discounts that stimulated consumption activities, including in the restaurant, hotel, transportation, and communication sectors. Government consumption grew by 4.55% (yoy) in the fourth quarter and 2.5% for the full year, with state spending amounting to IDR805.4 trillion for priority programs and IDR110.7 trillion for stimulus, thereby generating multiplier effects on consumption, business activities, and long-term productivity

Investasi (Pembentukan Modal Tetap Bruto /PMTB) tumbuh kuat 6,12% (yoy) pada Triwulan IV dan 5,09% sepanjang tahun 2025, didorong peningkatan investasi mesin dan perlengkapan serta kendaraan, didukung stabilitas makroekonomi dan realisasi Penanaman Modal Asing- Penanaman Modal Dalam Negeri (PMA-PMDN) yang tumbuh 12,66%, serta peran belanja pemerintah dan BUMN dalam mengungkit investasi swasta. Sementara itu, ekspor tumbuh 3,25% (yoy) pada triwulan IV dan 7,03% sepanjang tahun, didorong komoditas utama dan peningkatan wisatawan mancanegara, sementara impor tumbuh 3,96% (yoy) dan 4,77% secara tahunan untuk mendukung produksi domestik.

Investment (Gross Fixed Capital Formation/GFCF) recorded strong growth of 6.12% (yoy) in the fourth quarter and 5.09% for the full year of 2025, driven by increased investment in machinery and equipment as well as vehicles, supported by macroeconomic stability and the realization of Foreign Direct Investment and Domestic Investment (FDI–DDI), which grew by 12.66%, as well as the role of government and state-owned enterprises (SOEs) spending in leveraging private investment. Meanwhile, exports grew by 3.25% (yoy) in the fourth quarter and 7.03% for the full year, driven by key commodities and an increase in international tourist arrivals, while imports grew by 3.96% (yoy) and 4.77% annually to support domestic production

Struktur PDB Indonesia pada Triwulan IV 2025 atas dasar harga berlaku masih didominasi oleh konsumsi rumah tangga dengan pangsa sebesar 53,63%, menegaskan perannya sebagai motor utama perekonomian yang didukung daya beli terjaga, mobilitas meningkat, serta berbagai stimulus pemerintah. Investasi (PMTB) menjadi kontributor terbesar kedua dengan porsi 30,02%, mencerminkan peran penting pembentukan modal dalam menjaga momentum pertumbuhan, sejalan dengan meningkatnya investasi swasta dan dukungan kebijakan. Di sisi eksternal, ekspor berkontribusi sebesar 23,08% dan impor 21,43%, menunjukkan aktivitas

The structure of Indonesia's Gross Domestic Product (GDP) in the fourth quarter of 2025 at current prices remained dominated by household consumption, with a share of 53.63%, reaffirming its role as the primary driver of the economy, supported by maintained purchasing power, increased mobility, as well as various government stimulus measures. Investment (GFCF) constituted the second-largest contributor with a share of 30.02%, reflecting the important role of capital formation in sustaining growth momentum, in line with increasing private investment and supportive policy measures. On the external side, exports contributed 23.08% and imports

perdagangan internasional yang tetap aktif di tengah surplus neraca perdagangan. Sementara itu, konsumsi pemerintah memiliki porsi 9,95% dengan peran sebagai stabilisator melalui belanja negara, serta konsumsi LNPRT sebesar 1,38% yang relatif kecil namun tetap mendukung aktivitas sosial ekonomi. Struktur ini mengindikasikan bahwa perekonomian Indonesia masih bertumpu pada permintaan domestik dengan dukungan investasi dan kinerja eksternal yang tetap solid.

21.43%, indicating that international trade activities remained robust amid a trade balance surplus. Meanwhile, government consumption accounted for 9.95%, serving as a stabilizer through state spending, while consumption of Non-Profit Institutions Serving Households (NPISHs) accounted for 1.38%, relatively small yet still supporting socio-economic activities. The structure indicates that Indonesia's economy continues to be driven by domestic demand, supported by investment and solid external performance.

Pertumbuhan Ekonomi Dari Sisi Lapangan Usaha

Dari sisi lapangan usaha, kinerja ekonomi 2025 tetap solid dengan sektor industri pengolahan tumbuh 5,40% (yoy) pada Triwulan IV 2025 dan 5,30% (yoy) sepanjang tahun 2025, didorong permintaan domestik, pemulihan global, serta kebijakan hilirisasi dan penguatan daya saing industri. Sektor perdagangan juga tumbuh kuat 6,07% (yoy) pada Triwulan IV 2025 dan 5,49% (yoy) sepanjang tahun 2025 seiring peningkatan pasokan, distribusi, dan konsumsi, sementara sektor pertanian tumbuh 5,14% (yoy) pada Triwulan IV 2025 dan 5,33% (yoy) sepanjang tahun 2025, ditopang produksi tanaman pangan dan dukungan kebijakan.

Di sisi lain, sektor transportasi serta akomodasi dan makan minum menunjukkan kinerja tinggi seiring peningkatan mobilitas dan pariwisata, sedangkan sektor informasi dan komunikasi tumbuh 8,09% (yoy) pada Triwulan IV 2025 dan 8,35% (yoy) sepanjang tahun 2025 didorong akselerasi digitalisasi. Namun demikian, sektor pertambangan masih terkontraksi sebesar 1,31% (yoy) pada Triwulan IV 2025 dan 0,66% (yoy) sepanjang tahun 2025 akibat penurunan kinerja komoditas dan penyesuaian struktur menuju hilirisasi.

Economic Growth In Business Sector

From the production side, economic performance in 2025 remained solid, with the manufacturing sector growing by 5.40% (yoy) in the fourth quarter of 2025 and 5.30% (yoy) for the full year of 2025, driven by domestic demand, global recovery, as well as downstreaming policies and strengthened industrial competitiveness. The trade sector also recorded strong growth of 6.07% (yoy) in the fourth quarter of 2025 and 5.49% (yoy) for the full year of 2025, in line with increased supply, distribution, and consumption, while the agriculture sector grew by 5.14% (yoy) in the fourth quarter of 2025 and 5.33% (yoy) for the full year of 2025, supported by food crop production and policy support.

On the other hand, the transportation as well as accommodation and food service sectors demonstrated strong performance in line with increased mobility and tourism, while the information and communication sector grew by 8.09% (yoy) in the fourth quarter of 2025 and 8.35% (yoy) for the full year of 2025, driven by the acceleration of digitalization. However, the mining sector still contracted by 1.31% (yoy) in the fourth quarter of 2025 and 0.66% (yoy) for the full year of 2025 due to declining commodity performance and structural adjustments toward downstreaming.

Source: Official Statistics Release, Statistics Indonesia (BPS), December 2025 (processed)

Sepanjang 2025, tekanan inflasi masih didominasi oleh faktor sisi penawaran, meskipun tekanan dari sisi permintaan mulai terlihat pada semester II 2025. Komoditas yang memberikan kontribusi terbesar terhadap inflasi bulanan selama tahun tersebut antara lain emas perhiasan, seiring kenaikan harga emas di tengah meningkatnya ketidakpastian global; cabai merah akibat terganggunya produksi karena curah hujan tinggi; serta ikan segar. Beras sebagai komoditas pangan pokok juga termasuk dalam kelompok penyumbang utama inflasi.

Secara bulanan, inflasi Desember 2025 tercatat sebesar 0,64% (mom), meningkat dari 0,17% (mom) pada November 2025. Kenaikan ini mencerminkan penguatan konsumsi pada periode akhir tahun serta lonjakan harga komponen bergejolak. Inflasi volatile meningkat signifikan dibandingkan bulan sebelumnya, menunjukkan adanya gangguan pasokan akibat curah hujan tinggi dan kenaikan permintaan musiman menjelang akhir tahun. Beberapa komoditas pangan utama yang mengalami kenaikan harga antara lain cabai rawit, daging ayam ras, dan bawang merah.

Sumber: Berita Resmi Statistik, Badan Pusat Statistik (BPS), Desember 2025.

Throughout 2025, inflationary pressures were still predominantly driven by supply-side factors, although demand-side pressures began to emerge in the second half of 2025. Commodities contributing the most to monthly inflation during the year included gold jewelry, in line with rising gold prices amid heightened global uncertainty; red chili, due to production disruptions caused by high rainfall; and fresh fish. Rice, as a staple food commodity, was also among the key contributors to inflation.

On a monthly basis, inflation in December 2025 was recorded at 0.64% (mom), increasing from 0.17% (mom) in November 2025. This increase reflected stronger consumption during the year-end period as well as a surge in volatile price components. Volatile inflation rose significantly compared to the previous month, indicating supply disruptions due to high rainfall and increased seasonal demand ahead of year-end. Several key food commodities that experienced price increases included bird's eye chili, broiler chicken meat, and shallots.

Analisis Industri Perbankan

Sektor perbankan mampu menunjukan resiliensi yang kuat dengan permodalan yang terjaga pada level tinggi dan kinerja intermediasi yang tetap stabil meskipun dalam situasi global yang penuh dengan tantangan. Meskipun suku bunga acuan global pada November 2025 mengalami penurunan, perlu diperhatikan juga faktor risiko seperti tekanan inflasi yang relatif persisten di Jepang mendorong Bank of Japan menaikkan suku bunga kebijakan ke level tertinggi dalam tiga dekade terakhir, perbedaan kebijakan turut memengaruhi dinamika pasar keuangan global ke depan. Sejumlah indikator utama perbankan seperti pertumbuhan kredit dan DPK bank umum mencatatkan pertumbuhan yang positif.

Pertumbuhan kredit pada November 2025 tumbuh sebesar 7,74% (yoy) menjadi sebesar Rp8.314,48 triliun, yang didorong oleh pertumbuhan pada sektor pengangkutan dan pergudangan sebesar 18,33%, pengadaan listrik, gas, dan air sebesar 21,83%, industri pertambangan sebesar 11,0%, serta konstruksi sebesar 8,14%. Berdasarkan kelompok penggunaan, pertumbuhan kredit modal kerja, kredit investasi, dan kredit konsumsi, masing-masing sebesar 2,04% (yoy), 17,98% (yoy), dan 6,67% (yoy). Pembiayaan perbankan syariah tumbuh sebesar 7,67% (yoy), sementara kredit UMKM terkontraksi 0,64% (yoy). Di sisi lain, pada November 2025, Dana Pihak Ketiga (DPK) tercatat mengalami pertumbuhan tinggi mencapai 12,03% (yoy) yang meningkat dari tahun sebelumnya, yaitu 11,48% (yoy). Pertumbuhan DPK ini menjadi salah satu faktor pendorong terjaganya likuiditas perbankan. Kualitas kredit Bank Umum juga membaik dengan rasio NPL *Gross* November 2025 yang terjaga rendah sebesar 2,04%. Dari sisi perbankan syariah, kinerja industri perbankan syariah juga mencatatkan yang baik. Hal ini tercermin dari aset perbankan syariah yang mengalami pertumbuhan positif pada Oktober 2025 sebesar 11,34% (yoy). Selain itu, penyaluran pembiayaan juga tumbuh 7,78% (yoy) sejalan dengan pertumbuhan industri perbankan nasional dan diikuti DPK yang tumbuh sekitar 14,26% (yoy).

Banking Industry Analysis

The banking sector was able to demonstrate strong resilience with high capitalization and stable intermediation performance despite the challenging global situation. Although the global benchmark interest rate in 2025 decreased, it was also necessary to pay attention to risk factors such as the development of geopolitical conflicts in the Middle East and Ukraine as well as the "Trump Effect" which has the potential to trigger an increase in commodity prices and inflation in the future. A number of key banking indicators such as loan growth and general bank TPF recorded positive growth.

Loan growth in November 2025 increased by 7.74% (yoy) to IDR8,314.48 trillion, driven by growth in the transportation and warehousing sector of 18.33%, electricity, gas and water supply of 21.83%, mining industry of 11.0%, and construction of 8.14%. Based on usage categories, working capital loans, investment loans, and consumer loans grew by 2.04% (yoy), 17.98% (yoy), and 6.67% (yoy), respectively. Islamic banking financing grew by 7.67% (yoy), while MSME loans contracted by 0.64% (yoy). Meanwhile, in November 2025, Third Party Funds (TPF) recorded strong growth of 12.03% (yoy), increasing from 11.48% (yoy) in the previous year. This growth in TPF was one of the factors supporting the maintenance of banking sector liquidity. The asset quality of Commercial Banks also improved, with the Gross NPL ratio in November 2025 remaining low at 2.04%. From the Islamic banking perspective, the performance of the Islamic banking industry also recorded positive results. This was reflected in Islamic banking assets which posted positive growth of 11.34% (yoy) in October 2025. In addition, financing disbursement grew by 7.78% (yoy) in line with the growth of the national banking industry and was accompanied by TPF growth of around 14.26% (yoy).

Pada November 2025, aset bank **bjb** mengalami penurunan sebesar 3,28% (yoy), sedangkan pertumbuhan aset BPD per November 2025 yang sebesar 3,10% (yoy) dan Bank Umum yang tumbuh sebesar 8,56% (yoy). Kredit bank **bjb** pada periode yang sama juga mengalami perlambatan sebesar 5,09% (yoy), sedangkan BPD tumbuh sebesar 2,67% (yoy) dan Bank Umum sebesar 7,74% (yoy). Pendapatan bunga bersih bank **bjb** per November 2025 mencatatkan pertumbuhan sebesar 1,11% (yoy) yang lebih rendah dibandingkan dengan pendapatan bunga bersih BPD pada periode yang sama yang mencatatkan pertumbuhan positif sebesar 3,91% (yoy) dan Bank Umum sebesar 4,43% (yoy). Laba bersih bank **bjb** per November 2025 juga menunjukan

As of November 2025, bank **bjb**'s total assets declined by 3.28% (yoy), while Regional Development Banks (BPD) recorded asset growth of 3.10% (yoy) and Commercial Banks posted growth of 8.56% (yoy). Loans of bank **bjb** in the same period also experienced a slowdown, growing by 5.09% (yoy), compared with BPD loans which grew by 2.67% (yoy) and Commercial Bank loans which grew by 7.74% (yoy). Net interest income of bank **bjb** as of November 2025 recorded growth of 1.11% (yoy), which was lower than the net interest income growth of BPD in the same period at 3.91% (yoy) and Commercial Banks at 4.43% (yoy). Net profit of bank **bjb** as of November 2025 also declined by 25.57% (yoy) compared

penurunan dari November 2024 sebesar 25,57% (yoy) demikian pula dengan pertumbuhan BPD yang mencatatkan pertumbuhan negatif sebesar 2,47% (yoy) pada periode yang sama. Adapun yang menjadi faktor penghambat pencapaian laba bank **bjb** diantaranya adalah likuiditas ketat di *market* yang menyebabkan *cost of fund* menjadi relatif tinggi sehingga menekan NII dan adanya pemburukan kualitas kredit sehingga menyebabkan pembentukan CKPN dan belum optimalnya pendapatan *fee based income*.

to November 2024, similar to BPD which recorded negative growth of 2.47% (yoy) during the same period. Several factors constrained the achievement of bank **bjb**'s profit performance, including tight liquidity in the market which led to a relatively high cost of funds, thereby exerting pressure on net interest income (NII), deterioration in loan quality which resulted in higher allowance for impairment losses (CKPN) formation, and suboptimal fee-based income generation.

Perbandingan rasio bank **bjb** dibanding rata-rata BPD dan Bank Umum disajikan dalam tabel di bawah ini.

Comparison of bank **bjb**'s ratios compared to the average for BPD and Commercial Banks is presented in the following table.

Sumber: Statistik Perbankan Indonesia Otoritas Jasa Keuangan (SPI OJK) November 2025
Source: Indonesian Banking Statistics of the Financial Services Authority (SPI OJK), November 2025

Pada November 2025, rasio NPL *gross* bank **bjb** tercatat sebesar 2,93%, lebih rendah dibandingkan rasio NPL *gross* BPD sebesar 3,25%. Hal ini membuktikan bahwa pinjaman yang bermasalah di bank **bjb** terkendali sehingga kualitas pinjaman tetap terjaga. Sementara itu tingkat likuiditas bank **bjb** yang diukur melalui rasio pinjaman terhadap dana pihak ketiga (LDR) masih terjaga di kisaran aman yaitu sebesar 83,68% yang menunjukan efektivitas bank **bjb** dalam hal memanfaatkan penghimpunan dana dari masyarakat dan disalurkan dalam bentuk pinjaman.

In November 2025, bank **bjb**'s gross NPL ratio was recorded at 2.93%, lower than BPD's gross NPL ratio at 3.25%. This proves that problem loans at bank **bjb** were under control so that loan quality was maintained. Also, bank **bjb**'s liquidity level as measured by the ratio of loans to third party funds (LDR) was still maintained in the safe range, such as 83.68%, which showed bank **bjb**'s effectiveness in utilizing funds collected from the public and channeled in the form of loans

Tinjauan Operasional
Operational Review

Sebagai badan usaha yang bergerak dalam bidang perbankan, bank **bjb** memiliki kegiatan usaha sebagai berikut.

1. Menghimpun dana dari masyarakat dalam bentuk simpanan berupa giro, deposito berjangka, sertifikasi deposito, tabungan dan/atau bentuk lainnya yang dipersamakan dengan itu.
2. Menyalurkan dana dalam bentuk kredit.
3. Menempatkan dana pada, meminjam dana dari, atau meminjamkan dana kepada bank lain, baik dengan menggunakan surat, sarana telekomunikasi maupun dengan wesel unjuk, cek atau sarana lainnya.
4. Melakukan kegiatan dalam penyertaan modal pada bank atau perusahaan di bidang jasa keuangan lainnya atau mendirikan perusahaan baru sepanjang sesuai dengan ketentuan yang berlaku.
5. Melakukan kegiatan dalam valuta asing dan bertindak sebagai bank devisa dengan memenuhi ketentuan yang ditetapkan oleh yang berwenang.

Selain itu, sebagai Bank Pembangunan Daerah, bank **bjb** juga membantu Pemerintah Provinsi, Kota atau Kabupaten se-Jawa Barat dan Banten dalam membina Bank Perkreditan Rakyat (BPR) dan institusi jasa keuangan lainnya milik pemerintah Provinsi, Kota atau Kabupaten se-Jawa Barat dan Banten yang sebagian sahamnya dimiliki oleh bank **bjb**, atau bank **bjb** sama sekali tidak memiliki saham namun diminta untuk membantu pembinaan BPR dimaksud.

As a business entity engaged in banking, bank **bjb** has the following business activities.

1. Collecting funds from the public in the form of savings in the form of current account, time deposits, certification of deposits, savings and/or other forms equivalent.
2. Distributing loan
3. Placing funds in, borrowing funds from, or lending funds to other banks, either by using letters, telecommunications facilities or by drafts, checks or other means.
4. Conducting activities in capital participation in banks or other financial services companies or establishing new companies as long as they comply with applicable regulations.
5. Conducting activities in foreign exchange and acting as a foreign exchange bank by meeting the conditions set by the authorities.

In addition, as a Regional Development Bank, bank **bjb** also helps Provincial, City or Regency Governments in West Java and Banten in fostering Rural Credit Banks (BPR) and other financial service institutions owned by Provincial, City, or Regency Governments in West Java and Banten, and some of the shares are owned by bank **bjb**, or bank **bjb** does not own any shares but is asked to help with the development of the BPR mentioned.

Rencana Strategis Bank

Rencana strategis bank **bjb** disusun dalam bentuk Rencana Korporasi (Corporate Plan) dan Rencana Bisnis Bank (Business Plan).

Rencana Korporasi (*Corporate Plan*)

Untuk mewujudkan aspirasi pemangku kepentingan dan mencapai target yang agresif, telah dirumuskan *Strategy House* yang terdiri dari empat pilar strategis utama, didukung oleh lima pilar *enabler*. Kerangka ini berfungsi sebagai *guiding blueprint* yang memastikan setiap inisiatif terintegrasi dan selaras dengan visi "Bank Pilihan Utama Anda." Melalui struktur yang komprehensif, *Strategy House* tidak hanya mengarahkan pencapaian target finansial, tetapi juga mendorong transformasi fundamental dalam model bisnis, tata kelola risiko, dan inovasi digital, sehingga bank **bjb** mampu memperkuat daya saing dan menciptakan nilai berkelanjutan bagi seluruh pemangku kepentingan.

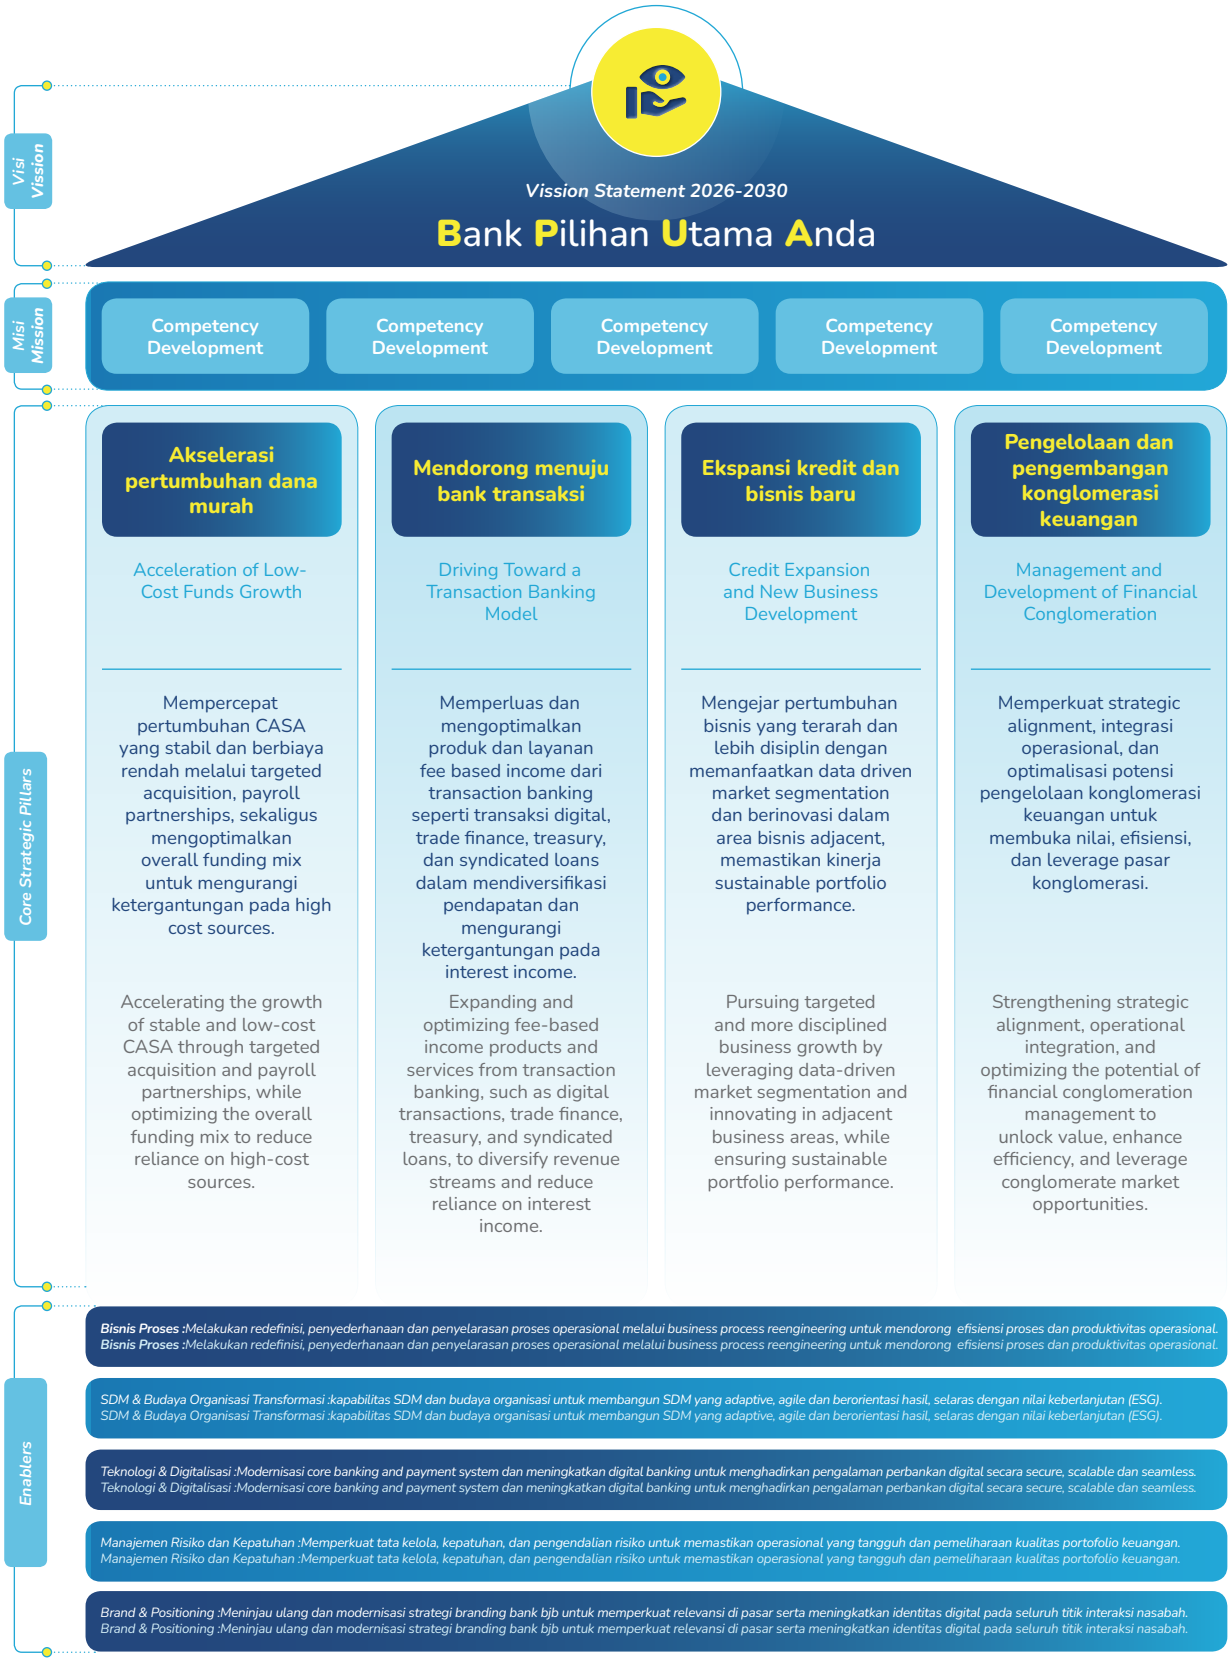
The Bank's Strategic Plan

The strategic plans of bank **bjb** are formulated in the form of a Corporate Plan and a Bank Business Plan.

Corporate Plan

To realize stakeholders' aspirations and achieve ambitious targets, the Company has formulated a Strategy House consisting of four main strategic pillars, supported by five enabling pillars. This framework serves as a guiding blueprint to ensure that every initiative is integrated and aligned with the vision of "Your Preferred Bank." Through this comprehensive structure, the Strategy House not only directs the achievement of financial targets but also drives fundamental transformation in the business model, risk governance, and digital innovation. In doing so, bank **bjb** aims to strengthen its competitiveness and create sustainable value for all stakeholders.

Strategy House bank bjb 2026-2030



Rencana *Corporate Plan* bank **bjb** dibangun di atas empat *core* pilar transformasional:

1. **Akselerasi pertumbuhan dana murah**
   Mempercepat pertumbuhan CASA yang stabil dan berbiaya rendah melalui *targeted acquisition*, *payroll partnerships*, sekaligus mengoptimalkan *overall funding mix* untuk mengurangi ketergantungan pada *high cost sources*.
2. **Mendorong menuju bank transaksi**
   Memperluas dan mengoptimalkan produk dan layanan *fee based income* dari transaction banking seperti transaksi digital, *trade finance*, *treasury*, dan *syndicated loans* dalam mendiversifikasi pendapatan dan mengurangi ketergantungan pada *interest income*.
3. **Ekspansi kredit dan bisnis baru**
   Mengejar pertumbuhan bisnis yang terarah dan lebih disiplin dengan memanfaatkan data *driven market segmentation* dan berinovasi dalam area bisnis *adjacent*, memastikan kinerja *sustainable portfolio performance*.
4. **Pengelolaan dan pengembangan konglomerasi keuangan**
   Memperkuat *strategic alignment*, integrasi operasional, dan optimalisasi potensi pengelolaan konglomerasi keuangan untuk membuka nilai, efisiensi, dan *leverage* pasar konglomerasi.

Keempat pilar ini dirancang untuk mendorong pertumbuhan berkelanjutan melalui peningkatan pendanaan murah, diversifikasi sumber pendapatan, dan ekspansi kredit yang terukur. Tujuannya adalah memperkuat posisi kompetitif bank **bjb** di Jawa Barat, meningkatkan profitabilitas, serta menciptakan sinergi operasional yang mendukung efisiensi dan integrasi bisnis. Dengan demikian, pilar-pilar ini menjadi instrumen strategis untuk mewujudkan visi bank **bjb** "Bank Pilihan Utama Anda".

Untuk mendukung ambisi strategis, bank **bjb** akan berfokus pada lima pilar *enabler* yang menjadi fondasi transformasi:

1. **Melakukan *Streamlining* Sistem Operasional Melalui Perbaikan Proses Bisnis**
   Melakukan redefinisi, penyederhanaan dan penyelarasan proses operasional melalui *business process reengineering* untuk mendorong efisiensi proses dan produktivitas operasional.
2. **Mengembangkan SDM dan Talenta serta Budaya Kerja yang Selaras**
   Transformasi kapabilitas SDM dan budaya organisasi untuk membangun SDM yang *adaptive*, *agile* dan berorientasi hasil, selaras dengan nilai keberlanjutan (ESG).
3. **Memperbarui Ekosistem Teknologi untuk Akselerasi Perbankan Digital**
   Modernisasi *core banking and payment system* dan meningkatkan *digital banking* untuk menghadirkan pengalaman perbankan digital secara *secure*, *scalable* dan *seamless*.

The Corporate Plan of bank **bjb** is built upon four transformational core pillars:

1. **Accelerating Low-Cost Funding Growth**
   Accelerating the growth of stable and low-cost CASA through targeted customer acquisition and payroll partnerships, while optimizing the overall funding mix to reduce reliance on high-cost funding sources.
2. **Advancing Toward a Transaction Banking Model**
   Expanding and optimizing fee-based income products and services from transaction banking activities, including digital transactions, trade finance, treasury services, and syndicated loans, to diversify revenue streams and reduce reliance on interest income.
3. **Credit Expansion and New Business Development**
   Pursuing disciplined and targeted business growth by leveraging data-driven market segmentation and innovating in adjacent business areas, while ensuring sustainable portfolio performance.
4. **Financial Conglomeration Management and Development**
   Strengthening strategic alignment, operational integration, and optimization of financial conglomeration management to unlock value, enhance efficiency, and leverage the conglomerate's market potential.

These four pillars are designed to drive sustainable growth through the expansion of low-cost funding, diversification of revenue sources, and prudent credit expansion. The objective is to strengthen bank **bjb**'s competitive position in West Java, enhance profitability, and create operational synergies that support efficiency and business integration. Collectively, these pillars serve as strategic instruments in realizing bank **bjb**'s vision of "Your Preferred Bank".

To support these strategic ambitions, bank **bjb** will focus on five enabler pillars that serve as the foundation for transformation:

1. **Streamlining Operational Systems Through Business Process Improvements**
   Redefining, simplifying, and aligning operational processes through business process reengineering to enhance process efficiency and operational productivity.
2. **Developing Human Capital, Talent, and an Aligned Work Culture**
   Transforming human capital capabilities and organizational culture to build an adaptive, agile, and results-oriented workforce aligned with sustainability values (ESG).
3. **Upgrading the Technology Ecosystem to Accelerate Digital Banking**
   Modernizing the core banking and payment systems while enhancing digital banking capabilities to deliver secure, scalable, and seamless digital banking experiences.

4. **Memperkuat Manajemen Risiko dan Kepatuhan**
   Memperkuat tata kelola, kepatuhan, dan pengendalian risiko untuk memastikan operasional yang tangguh dan pemeliharaan kualitas portofolio keuangan.
5. **Merevitalisasi *Branding* sebagai *Digitally Rooted Financial Institution***
   Meninjau ulang dan modernisasi strategi branding bank **bjb** untuk memperkuat relevansi di pasar serta meningkatkan identitas digital pada seluruh titik interaksi nasabah.

Strategi jangka panjang dan jangka menengah disesuaikan dengan *Strategic Roadmap* bank **bjb**. Untuk memastikan berjalannya transformasi strategis selama lima tahun ke depan, telah disusun *Strategic Roadmap* yang terstruktur ke dalam tiga fase utama, yang merepresentasikan tema strategis untuk mencapai target yang telah ditetapkan.

1. ***Phase* 1 (2026–2027)**
   Meningkatkan *funding base* berkelanjutan, dominasi CASA, dan penguatan kualitas kredit, fokus pada penguatan fondasi likuiditas dan kualitas aset untuk mendukung pertumbuhan yang sehat.
2. ***Phase* 2 (2028–2029)**
   Mendorong pertumbuhan perbankan transaksional, digitalisasi layanan, dan perluasan market share kredit, mempercepat inovasi digital dan memperluas penetrasi pasar melalui layanan berbasis transaksi.
3. ***Phase* 3 (2029 *onwards*)**
   Berinovasi untuk mendorong pertumbuhan bisnis dan menjajaki *adjacent business*, menciptakan sumber pertumbuhan baru melalui inovasi produk dan pengembangan bisnis pendukung.

4. **Strengthening Risk Management and Compliance**
   Enhancing governance, compliance, and risk control frameworks to ensure resilient operations and maintain the quality of the financial portfolio.
5. **Revitalizing Branding as a Digitally Rooted Financial Institution**
   Reviewing and modernizing bank **bjb**'s branding strategy to strengthen market relevance and reinforce its digital identity across all customer touchpoints.

The long-term and medium-term strategies are aligned with bank **bjb**'s Strategic Roadmap. To ensure the successful implementation of the strategic transformation over the next five years, a structured Strategic Roadmap has been developed across three main phases, each representing a strategic theme to achieve the targeted objectives.

1. **Phase 1 (2026–2027)**
   Strengthening a sustainable funding base, increasing CASA dominance, and improving credit quality, with a focus on reinforcing liquidity foundations and asset quality to support healthy growth.
2. **Phase 2 (2028–2029)**
   Driving transaction banking growth, accelerating service digitalization, and expanding credit market share by strengthening digital innovation and increasing market penetration through transaction-based services.
3. **Phase 3 (2029 onwards)**
   Driving innovation to support business growth and exploring adjacent businesses to create new sources of growth through product innovation and supporting business development.

Kerangka ini dirancang untuk memastikan transformasi berjalan secara terarah, dengan setiap fase membangun momentum untuk mencapai visi bank **bjb** menjadi ”Bank Pilihan Utama Anda”.

This framework is designed to ensure that the transformation progresses in a structured manner, with each phase building momentum toward achieving bank **bjb**'s vision of becoming “Your Preferred Bank”.

Roadmap Transformasi *High Level* bank bjb 2026–2030

(Target Primer)
Kenaikan Laba Kotor
(Primary Target)
Increase in Gross Profit

Peningkatan total revenue per tahun dari keseluruhan operasi perbankan

Increase in total annual revenue from overall banking operations

Rp3
triliun / trillion
(+106% by 2030)

2026-2027

Meningkatkan funding base berkelanjutan, dominasi CASA, dan penguatan kualitas kredit

Enhancing a sustainable funding base, strengthening CASA dominance, and improving credit quality

Membangun fondasi yang kokoh guna mencapai pertumbuhan yang berkelanjutan melalui optimalisasi komposisi pendanaan dan perluasan basis nasabah. Rencana Bisnis Bank (Business Plan)

Kebijakan strategis jangka pendek tahun 2025 bank **bjb** disusun dengan mengacu pada Rencana Bisnis Bank (*business plan*) sebagai pedoman dalam penetapan target kinerja dan prioritas operasional. Kebijakan tersebut mencerminkan langkah-langkah strategis yang terfokus pada pencapaian sasaran jangka pendek yang diuraikan sebagai berikut:

1. **Peningkatan Pertumbuhan Kredit Berkualitas dan Berkelanjutan yang Berfokus Pada Target *Market* serta Optimalisasi Portofolio Aset Melalui Digitalisasi Bisnis Proses**
   a. Meningkatkan pertumbuhan portofolio kredit konsumer yang berkualitas melalui penyerapan berbagai sumber pendapatan ASN Aktif dan Pra Pensiun dengan pengembangan produk serta optimalisasi pemasaran.
   b. Meningkatkan layanan pengembangan digitalisasi proses kredit dan integrasi sistem dengan Pemerintah Daerah sebagai sumber data potensi kredit konsumer.
   c. UMKM *Go Digital*, optimalisasi digitalisasi layanan kredit dalam rangka meningkatkan inklusi keuangan pelaku UMKM melalui ekosistem ekonomi digital kemitraan.
   d. Memperluas penyaluran kredit korporasi dan komersial melalui penetrasi pada sektor-sektor ekonomi yang potensial serta ekosistem keuangan bank **bjb** sehingga dapat mendorong laju pertumbuhan ekonomi.
   e. Meningkatkan portofolio bisnis yang mendukung prinsip-prinsip *Environmental, Social and Governance (ESG)*.
2. **Menjaga Pengelolaan Likuiditas yang Efektif, Efisien dan Berkelanjutan serta Peningkatan *Share of Wallet* Nasabah Guna Mendukung Penyaluran Dana Secara Optimal**
   a. Mendorong pertumbuhan DPK terutama dana murah melalui optimalisasi seluruh segmen bisnis terkait yang bertujuan untuk mendorong pertumbuhan bisnis bank **bjb** secara menyeluruh dan meningkatkan *market share* produk dana sehingga dapat menjadikan bank **bjb** sebagai bank transaksional pilihan utama nasabah.
   b. Mendukung proses akselerasi *digital transformation* bank **bjb** untuk membangun dan mengembangkan ekosistem finansial serta meningkatkan inklusi keuangan yang berdampak langsung terhadap penguatan pertumbuhan dana murah dan *product holding* bank **bjb**.
   c. Akuisisi potensi bisnis dari ekosistem nasabah eksisting dan implementasi MoU/PKS untuk meningkatkan pertumbuhan seluruh segmentasi bisnis bank **bjb**.
   d. Ekspansi terhadap nasabah institusi baru sebagai upaya perluasan dan penguatan bisnis untuk mendukung kemajuan perekonomian daerah melalui transaksi pengelolaan keuangan serta kerjasama layanan perbankan.

Bank Business Plan

The short-term strategic policies of bank **bjb** for 2025 were formulated with reference to the Bank Business Plan as a guideline for setting performance targets and operational priorities. These policies reflect strategic measures focused on achieving short-term objectives, as outlined below:

1. **Enhancing High-Quality and Sustainable Loan Growth Focused on Target Markets and Asset Portfolio Optimization Through Business Process Digitalization**
   a. Increasing the growth of high-quality consumer loan portfolios by capturing various income sources from active and pre-retirement civil servants through product development and optimized marketing strategies.
   b. Enhancing digitalization in credit process development and system integration with Regional Governments as a key data source for consumer credit potential.
   c. SME Go Digital, optimizing the digitalization of credit services to improve financial inclusion for SMEs through digital partnership ecosystems.
   d. Expanding corporate and commercial lending through deeper penetration into potential economic sectors and the bank **bjb** financial ecosystem to help drive economic growth.
   e. Increasing business portfolio exposure that supports Environmental, Social, and Governance (ESG) principles.
2. **Maintaining Effective, Efficient, and Sustainable Liquidity Management and Increasing Customer Share of Wallet to Support Optimal Fund Allocation**
   a. Encouraging growth in third-party funds, particularly low-cost funds, through optimization of all related business segments to support overall business growth and increase the market share of funding products, positioning bank **bjb** as customers' preferred transactional bank.
   b. Supporting the acceleration of bank **bjb**'s digital transformation to build and develop financial ecosystems and improve financial inclusion, directly contributing to the growth of low-cost funds and product holding.
   c. Acquiring business potential from existing customer ecosystems and implementing MoU/Cooperation Agreements to increase growth across all business segments.
   d. Expanding the institutional customer base as part of business expansion and strengthening initiatives to support regional economic development through financial management transactions and banking service partnerships.

e. Optimalisasi pengelolaan *asset and liabilities* untuk memperoleh *yield enhancement* dengan tetap memperhatikan kondisi *market*, pemenuhan likuiditas bank **bjb** dan rasio-rasio keuangan.

3. **Meningkatkan Kontribusi *Fee Based Income* Dengan Penguatan Produk-Produk Transaksional dan Bisnis Berbasis Digital Ekosistem**
   a. Optimalisasi *digital marketing* yang berfokus pada peningkatan jumlah *account*, utilisasi transaksi sistem pembayaran, akuisisi dan utilisasi merchant serta peningkatan akuisisi dan utilisasi *merchant* Agen Laku Pandai.
   b. Mendukung pertumbuhan bank **bjb** sebagai *one stop financial solution* bagi nasabah melalui optimalisasi segmen bisnis *wealth management* yang mendorong peningkatan pertumbuhan *fee based income*, *market share* dan *wallet share* nasabah
   c. Meningkatkan *fee based income* melalui optimalisasi peran bank **bjb** sebagai *primary dealer*, transaksi *fixed income* dan *foreign exchange and derivatives* serta jasa kustodian dan jasa wali amanat
   d. Optimalisasi bisnis melalui kerja sama dengan *counterparty*, agen remitansi dan nasabah melalui peningkatan trade *ecosystem/product holding* untuk meningkatkan pendapatan bank **bjb**.
   e. Optimalisasi *recovery* kredit hapus buku yang terstruktur dan masif.
4. **Akselerasi *Digital Platform* Untuk Mendorong Terwujudnya *Digital Banking* yang Inovatif Melalui Penguatan Infrastruktur Teknologi Informasi Handal dan Aman**
   a. Akselerasi dan perbaikan *(improvement)* fitur-fitur *e-channel* untuk mendorong peningkatan *transactional banking* guna mendukung pertumbuhan *fee based income* melalui kerja sama dengan para pelaku *fintech* untuk memperluas ekosistem digital.
   b. Meningkatkan kualitas proses operasional dan efektivitas rekonsiliasi transaksi *e-channel* melalui penerapan *robotic processing automation*.
   c. Pengembangan unifikasi dan optimalisasi berbagai *digital platform* untuk meningkatkan *digital customer engagement* guna mendukung bisnis bank dalam rangka peningkatan *fee based income*.
   d. Peningkatan kapasitas, kapabilitas dan layanan *data center* untuk mendukung perluasan *digital market* dan kolaborasi *partner digital*.
   e. Peningkatan kemampuan *cyber security resilience* dalam mendukung implementasi transformasi digital yang selaras dengan arah *corporate plan* bank **bjb**.
   f. Mendorong *cyber security as a culture* sebagai sebuah budaya kerja sehingga dapat menjadi "*human firewall*" dalam menghadapi implementasi transformasi digital.

e. Optimizing asset and liability management to enhance yields while maintaining market considerations, bank **bjb** liquidity requirements, and financial ratios.

3. **Increasing Fee-Based Income Contribution Through Strengthening Transaction-Based Products and Digital Ecosystem-Based Businesses**
   a. Optimizing digital marketing initiatives focused on increasing the number of accounts, utilization of payment system transactions, merchant acquisition and utilization, as well as expanding merchant acquisition and utilization through Laku Pandai agents.
   b. Supporting bank **bjb**'s growth as a one-stop financial solution for customers through optimization of the wealth management business segment to increase fee-based income growth, market share, and customer wallet share.
   c. Increasing fee-based income by optimizing bank **bjb**'s role as a primary dealer, as well as through fixed income transactions, foreign exchange and derivatives, custodian services, and trustee services.
   d. Optimizing business performance through cooperation with counterparties, remittance agents, and customers by strengthening the trade ecosystem and product holding to increase bank **bjb** revenue.
   e. Optimizing the structured and large-scale recovery of written-off loans.
4. **Accelerating Digital Platforms to Foster Innovative Digital Banking Through Strengthened Reliable and Secure IT Infrastructure**
   a. Accelerating and improving e-channel features to increase transactional banking and support fee-based income growth through partnerships with fintech players to expand the digital ecosystem.
   b. Improving operational process quality and the effectiveness of e-channel transaction reconciliation through the implementation of Robotic Process Automation.
   c. Developing unified and optimized digital platforms to enhance digital customer engagement and support business growth while increasing fee-based income.
   d. Enhancing the capacity, capabilities, and services of data centers to support digital market expansion and digital partner collaboration.
   e. Strengthening cybersecurity resilience to support the implementation of digital transformation aligned with bank **bjb**'s corporate plan.
   f. Promoting cybersecurity as a culture to establish a "human firewall" in supporting digital transformation initiatives.

5. **Memperkuat Struktur Modal dan Pengelolaan *Human Capital* yang Solid untuk Mendukung Pertumbuhan Bisnis**
   a. **Menjaga kecukupan permodalan dalam mendukung strategi bisnis bank bjb**
      - Optimalisasi pengelolaan *debt instrument* dalam rangka memperkuat struktur permodalan bank **bjb**.
      - Mendukung peran manajemen risiko dalam mengelola struktur permodalan bank **bjb** yang memadai dalam menutupi risiko kemungkinan akan timbul.
      - Menjaga pertumbuhan laba bank **bjb** untuk mendukung penguatan modal secara organik.
   b. **Pengelolaan *human capital* yang efektif untuk meningkatkan kompetensi dan produktivitas**
      i. ***Encourage the Employee Capabilities***
      Peningkatan kapabilitas pegawai melalui program pengembangan karir dan kompetensi yang berfokus pada setiap jenis kompetensi, baik *core*, *leadership* maupun teknis, sesuai dengan level dan jenjang karir pegawai.
      ii. ***Enhancement Human Capital Synergies***
         - Memastikan kesiapan *talent (talent readiness)* baik internal organisasi bank **bjb** maupun *Business Group* bank **bjb**.
         - Melanjutkan strategi *human capital synergies* di tahun 2024, dengan meningkatkan strategi kolaborasi dalam memenuhi *pipeline leadership* di perusahaan *investee*, perusahaan terafiliasi dan badan atau perusahaan lainnya.
      iii. ***Continue to develop an integrated Human Capital System***
      Terus melakukan perbaikan dan pengembangan serta melaksanakan evaluasi atas integrasi *human capital system* yang telah dilaksanakan, khususnya yang telah dibangun di tahun 2024, yaitu *Talent Management System* dan BEST Salmon.
6. **Transformasi Keuangan yang Inklusif Dalam Rangka Optimalisasi dan Memperkuat Ekosistem Keuangan Berkelanjutan**
   a. Menerapkan prinsip-prinsip *Environmental, Social, and Governance* (ESG) dalam seluruh aktivitas perbankan.
   b. Mendukung *sustainability finance* melalui bekerja efektif dan efisien dalam menjalankan proses audit internal serta berperan aktif dalam resiliensi menghadapi tantangan siber dan peningkatan keamanan data nasabah dan perusahaan.
   c. Menciptakan *learning culture* dan *learning ecosystem* yang didukung *learning technologies* dengan mengembangkan pembelajaran yang dinamis, efektif, dan valuable, dalam rangka meningkatkan kompetensi pegawai, serta mempersiapkan *future leader* yang capable untuk mendukung *sustainable organization performance*.
   d. Memberikan kontribusi dalam keberlanjutan ekonomi, sosial dan lingkungan melalui kegiatan *corporate social responsibility*.

5. **Strengthening Capital Structure and Solid Human Capital Management to Support Business Growth**
   a. **Maintaining Adequate Capital to Support Bank bjb's Business Strategy**
      - Optimizing the management of **debt instruments** to strengthen bank **bjb**'s capital structure.
      - Supporting the role of risk management in maintaining an adequate capital structure to cover potential risks.
      - Sustaining bank **bjb**'s profit growth to support organic capital strengthening.
   b. **Effective Human Capital Management to Enhance Competence and Productivity**
      i. **Encourage the Employee Capabilities**
      Enhancing employee capabilities through career and competency development programs covering core, leadership, and technical competencies aligned with employee levels and career paths.
      ii. **Enhancement Human Capital Synergies**
         - Ensuring talent readiness within both bank **bjb** and the broader bank **bjb** Business Group.
         - Continuing the human capital synergy strategy by strengthening collaborative strategies to develop leadership pipelines in investee companies, affiliated companies, and other related entities.
      iii. **Continue to Develop an Integrated Human Capital System**
      Continuously improving, developing, and evaluating the integration of the Human Capital System, particularly systems developed in 2024, including the Talent Management System and BEST Salmon.
6. **Inclusive Financial Transformation to Optimize and Strengthen a Sustainable Financial Ecosystem**
   a. Implementing Environmental, Social, and Governance (ESG) principles across all banking activities.
   b. Supporting sustainable finance through effective and efficient internal audit processes while actively strengthening resilience against cyber threats and enhancing data security for customers and the Company.
   c. Creating a learning culture and learning ecosystem supported by learning technologies to deliver dynamic, effective, and valuable learning programs to enhance employee competencies and prepare capable future leaders to support sustainable organizational performance.
   d. Contributing to economic, social, and environmental sustainability through Corporate Social Responsibility (CSR) initiatives.

7. **Pengelolaan Manajemen Risiko yang Efektif, Didukung Dengan Tata Kelola yang Kuat dan *Compliance* Sebagai Pilar Dalam Mencapai Kinerja Bank yang Tangguh dan Berkelanjutan**
   a. Pengembangan *Enterprise Risk Management* sebagai bentuk sinergi penerapan metodologi dan sistem informasi manajemen risiko bagi individu bank dan konglomerasi keuangan.

3. **Program Promosi**
   a. Penyelenggaran program *employee reward* secara berkala untuk pegawai tenaga pemasar.
   b. Penyelenggaran program *customer reward* secara berkala dan tematik untuk nasabah.
4. **Pengembangan Kompetensi SDM**
   Mengikutsertakan pegawai bank **bjb** dalam pelatihan atau sertifikasi di bidang *wealth management* yang dapat menunjang kebutuhan pemasaran di lapangan. Serta melakukan *refreshment* produk, program dan *market update* untuk menambah wawasan dan pengetahuan pegawai.
5. **Pengembangan Teknologi**
   Dalam rangka meningkatkan efektifitas dan efisiensi aktivitas pemasaran produk-produk *wealth management* serta memberikan kemudahan dan pelayanan bagi nasabah, bank **bjb** mengembangkan teknologi untuk mempermudah proses pembayaran premi asuransi yang dapat mendukung kinerja pemasaran produk.

Strategi Pemasaran *International and Transaction Banking* Tahun 2025

Berikut beberapa strategi pemasaran dalam pencapaian target pendapatan berupa *fee based income* dan *interest income* yang dikelola oleh Divisi *International & Transaction Banking*, yaitu:

1. Melakukan *review* serta penambahan *counterparty* baik bank maupun non bank guna memperluas basis bisnis dan mendukung pertumbuhan transaksi bank **bjb**.
2. Mempertahankan serta memperkuat hubungan kerja sama dengan *counterparty* sekaligus menggali potensi peningkatan bisnis melalui strategi *cross selling* berbagai produk dan layanan bank **bjb**.

b. Conducting market update sessions for customers along with the introduction of wealth management products, including.

1) **bjb** Prioritas Outlet Teuku Umar
Inviting **bjb** Prioritas customers in the Greater Bandung area, including customers from the **bjb** Prioritas Tamansari Outlet, the **bjb** Prioritas Main Branch Bandung Outlet, and the **bjb** Prioritas Soreang Outlet.

2) **bjb** Prioritas Outlet Jakarta T-Tower
Inviting customers from the **bjb** Prioritas Jakarta T-Tower Outlet, the **bjb** Prioritas Kelapa Gading Outlet, and the **bjb** Prioritas Bogor Outlet.

3) **bjb** Prioritas Outlet Bekasi
Inviting customers from the **bjb** Prioritas Bekasi Outlet.

c. Participating in external events organized in collaboration with other work units and associations to promote wealth management products.

d. Conducting collaborative marketing initiatives with government and private institutions such as APDESI, PUPR, PPPK, IDI, and other institutions.

3. **Promotion Programs**
   a. Organizing periodic **employee reward programs** for marketing personnel.
   b. Organizing periodic and thematic **customer reward programs** for customers.
4. **Human Capital Competency Development**
   bank **bjb** involves its employees in training programs or certifications in the wealth management field to support marketing activities in the field. In addition, the Bank conducts product refreshment sessions, program updates, and market updates to enhance employees' knowledge and insights.
5. **Technology Development**
   In order to improve the effectiveness and efficiency of marketing activities for wealth management products and to provide convenience and better services to customers, bank **bjb** has developed technology to facilitate the insurance premium payment process, thereby supporting the marketing performance of wealth management products.

Marketing Strategy of International and Transaction Banking In 2025

The following are several marketing strategies implemented to achieve revenue targets in the form of fee-based income and interest income managed by the International & Transaction Banking Division:

1. Conducting reviews and expanding counterparties, both banks and non-bank institutions, to broaden the business base and support the growth of bank **bjb**'s transactions.
2. Maintaining and strengthening cooperative relationships with counterparties, while exploring opportunities to increase business potential through cross-selling strategies of various bank **bjb** products and services.

3. Mengoptimalkan pemanfaatan *credit line* untuk meningkatkan volume bisnis dan pendapatan bank **bjb**, dengan tetap mengedepankan prinsip kehati-hatian serta manajemen risiko yang *prudent*.
4. Optimalisasi utilisasi limit non *cash loan* melalui *monitoring* aktif, *advisory* transaksi, dan pendampingan kebutuhan layanan *trade* debitur eksisting.
5. Akselerasi perluasan transaksi dengan memaksimalkan potensi *value chain* dalam ekosistem *trade* debitur.
6. Mendorong penetrasi produk *trade finance* pada sektor layanan kesehatan sebagai solusi manajemen keuangan yang terintegrasi.
7. Memperluas basis transaksi *trade* melalui sinergi perbankan dengan anak perusahaan dan anggota KUB.

8. Melakukan program kegiatan pemasaran bersama dengan Divisi UMKM, melalui kegiatan literasi keuangan kepada para Pemagang/Pekerja Migran Indonesia (PMI) di beberapa LPK di Jawa Barat.
9. Melakukan penjajakan kerja sama dengan *remittance agent*, *financial technology*, dan Kelompok Usaha Bank di bawah bank **bjb**.
10. Melakukan program pemasaran di antaranya sebagai berikut:

    a. Nama Program : **Program *Loyalty Customer* Transfer Valas**
       Periode Program : 01 Januari 2023 sampai dengan 30 November 2025
       Lokasi Program : Seluruh jaringan kantor cabang bank **bjb**
       Jenis Hadiah : Logam mulia/Televisi/*Voucher* Belanja
       Peserta Program : Nasabah seluruh jaringan kantor cabang bank **bjb**.

    b. Nama Program : **Program *Loyalty Customer Firecash 2025***
       Periode Program : 01 Januari sampai dengan 31 Desember 2025
       Lokasi Program : Seluruh jaringan kantor cabang bank **bjb**
       Jenis Hadiah : *Voucher* belanja @500.000
       Peserta Program : Nasabah seluruh jaringan kantor cabang bank **bjb**.

    c. Nama Program : **Program *Loyalty Customer BI-Fast***
       Periode Program : 01 Januari sampai dengan 31 Desember 2025
       Lokasi Program : Seluruh jaringan kantor cabang bank **bjb**
       Jenis Hadiah : *Voucher* belanja @500.000
       Peserta Program : Nasabah Perorangan

3. Optimizing the utilization of credit lines to increase business volume and revenue for bank **bjb**, while maintaining prudential principles and sound risk management practices.

4. Optimizing the utilization of non-cash loan limits through active monitoring, transaction advisory, and assistance in meeting the trade service needs of existing debtors.
5. Accelerating transaction expansion by maximizing the value chain potential within the trade debtor ecosystem.
6. Encouraging the penetration of trade finance products in the healthcare sector as an integrated financial management solution.
7. Expanding the trade transaction base through banking synergies with subsidiaries and members of the Banking Business Group (KUB).
8. Conducting joint marketing programs with the MSME Division through financial literacy activities for apprentices/ Indonesian Migrant Workers (PMI) at several training institutions (LPK) in West Java.
9. Exploring cooperation opportunities with remittance agents, financial technology companies, and banking business group members under bank **bjb**.
10. Implementation of Marketing Programs, including the following:

    a. Program Name : **Loyalty Customer Foreign Exchange Transfer Program**
       Program Period : January 1, 2023 to November 30, 2025
       Program Location : All bank **bjb** branch office networks
       Prize Type : Precious metals / Television / Shopping vouchers
       Program Participants : Customers across all bank **bjb** branch office networks.

       Program Period : January 1 to December 31, 2025
       Program Location : All bank **bjb** branch office networks
       Prize Type : Shopping voucher valued at IDR500,000
       Program Participants : Individual customers

Strategi Pemasaran *Treasury* Tahun 2025

Strategi pemasaran *Treasury* tahun 2025 diarahkan untuk memperkuat posisi **bjb** sebagai mitra utama nasabah perorangan dan non-perorangan dalam pengelolaan investasi dan transaksi keuangan, dengan fokus pada peningkatan *fee based income* dan pendalaman hubungan nasabah. Produk **bjb** obligasi ritel difokuskan pada optimalisasi penjualan SBN Ritel dan obligasi pasar sekunder, sedangkan **bjb** *Foreign Exchange* diarahkan untuk memenuhi kebutuhan transaksi valuta asing tunai dan non-tunai bagi individu dan korporasi. Pemasaran dijalankan melalui pendekatan *relationship based* dan melalui seluruh kanal media bank **bjb** dengan optimalisasi peran *relationship manager*, cabang, *treasury sales*, serta dukungan edukasi pasar dan kanal digital. Nilai tambah bank **bjb** terletak pada solusi bertransaksi yang aman, kompetitif, terintegrasi, serta didukung oleh pendampingan profesional untuk mendorong pertumbuhan bisnis yang berkelanjutan.

Marketing Strategy of Treasury In 2025

The Treasury marketing strategy in 2025 is directed toward strengthening bank **bjb**'s position as a key partner for both individual and non-individual customers in managing investments and financial transactions, with a focus on increasing fee-based income and deepening customer relationships. The **bjb** Retail Bonds product is focused on optimizing the sales of Retail Government Bonds (SBN Ritel) and secondary market bonds, while **bjb** Foreign Exchange is aimed at meeting the needs for both cash and non-cash foreign exchange transactions for individuals and corporate customers. Marketing activities are carried out through a relationship-based approach and through all bank **bjb** media channels by optimizing the roles of relationship managers, branches, treasury sales, as well as market education initiatives and digital channels. The added value of bank **bjb** lies in providing secure, competitive, and integrated transaction solutions supported by professional advisory services to encourage sustainable business growth.

Strategi Pemasaran Dana Pensiun Lembaga Keuangan (DPLK) Tahun 2025

Strategi pemasaran yang diterapkan DPLK bank **bjb** di tahun 2025 adalah sebagai berikut:

1. Meningkatkan literasi dan inklusi kepada masyarakat untuk memperkuat *branding* DPLK bank **bjb** diseluruh wilayah kerja jaringan kantor bank **bjb** melalui program *marketing* kreatif.
2. Optimalisasi ekosistem bisnis yang terdapat pada bank **bjb**.
3. Diversifikasi investasi dan pengembangan aplikasi investasi untuk mengoptimalkan kinerja portofolio.
4. Meningkatkan *customer relationship* untuk menambah potensi portofolio dana kelolaan.

Marketing Strategy of Financial Institution Pension Funds (DPLK) In 2025

The marketing strategies implemented by bank **bjb**'s DPLK in 2025 included:

1. Increasing financial literacy and inclusion among the public to strengthen the DPLK bank **bjb** brand across all operational areas through creative marketing programs.
2. Enhancing marketing programs in business banking, retail banking, and transaction banking.
3. Diversifying investments and developing investment applications to optimize portfolio performance.
4. Strengthening customer relationships to expand the potential of managed fund portfolios.

Pangsa Pasar

Analisis pangsa pasar diklasifikasikan berdasarkan jumlah aset yang dimiliki, jumlah dana pihak ketiga yang berhasil dihimpun, dan jumlah kredit yang diberikan. bank **bjb** menghadapi persaingan pasar dengan Bank Pembangunan Daerah (BPD) yang disajikan sebagai berikut

Market Share

Market share analysis is classified based on the number of assets owned, the amount of third parties funds collected, and the amount of loans granted. bank **bjb** faces market competition with the Regional Development Bank (BPD) which is presented as follows.

Tabel Pangsa Pasar bank bjb dibandingkan BPD
Table of bank **bjb** Market Share compared to BPD

(dalam miliar Rupiah / in IDR billion)

Uraian	Keterangan Information	November 2025	November 2024	Description
Jumlah Aset	BPD	**1,061,1389**	1,037,497	Total Asset
	bank **bjb**	**181,019.72**	187,159	
	Pangsa Pasar (%) Market Share (%)	**17.06%**	**18.04%**	

Uraian	Keterangan Information	November 2025	November 2024	Description
Jumlah Dana Pihak Ketiga	BPD	**830,982**	810,904	Total Third Party Fund
	bank **bjb**	**130,655**	133,375	
	Pangsa Pasar (%) Market Share (%)	**15.72%**	**16.45%**	
Jumlah Kredit Yang Diberikan	BPD	**668,455**	643,980	Total Loans
	bank **bjb**	**113,417**	119,497	
	Pangsa Pasar (%) Market Share (%)	**16.97%**	**18.56%**	

Sumber: Statistik Perbankan Indonesia Otoritas Jasa Keuangan (SPI OJK) November 2025
Source: Indonesian Banking Statistics Financial Services Authority (SPI OJK) November 2025

Berdasarkan jumlah aset, penguasaan pasar bank **bjb** terhadap BPD per November 2025 mencapai 17,06% mengalami penurunan dibandingkan dengan per November 2024 yang mencapai 18,04%. Dari sisi jumlah dana pihak ketiga pangsa pasar bank **bjb** per November 2025 mencapai 15,72% yang menurun dibandingkan dengan per November 2024 yang mencapai 16,45%. Pangsa pasar jumlah kredit yang diberikan per November 2025 bank **bjb** mencapai 16,97% mengalami penurunan dibandingkan dengan per November 2024 yang mencapai 18,56%. Penurunan pangsa pasar total kredit yang diberikan bank **bjb** terhadap BPD lain disebabkan oleh pertumbuhan kredit yang lebih rendah dibandingkan dengan BPD secara keseluruhan. Sementara itu, penurunan pangsa pasar jumlah aset dan dana pihak ketiga menunjukkan bahwa bank **bjb** menghadapi tekanan persaingan dalam penghimpunan dana dan ekspansi usaha di tengah dinamika industri perbankan yang masih dipengaruhi oleh kondisi suku bunga yang relatif tinggi.

Based on total assets, bank **bjb**'s market share among Regional Development Banks (BPD) as of November 2025 reached 17.06%, declining from 18.04% as of November 2024. In terms of Third Party Funds (TPF), bank **bjb**'s market share as of November 2025 stood at 15.72%, decreasing from 16.45% recorded in November 2024. Meanwhile, the market share of total loans disbursed by bank **bjb** as of November 2025 reached 16.97%, declining from 18.56% in November 2024. The decline in bank **bjb**'s market share of total loans relative to other BPDs was primarily attributable to loan growth that was lower than the overall growth of the BPD industry. Meanwhile, the decline in the market share of total assets and Third Party Funds indicates that bank **bjb** faced competitive pressures in fund mobilization and business expansion amid banking industry dynamics that continued to be influenced by relatively high interest rate conditions.

Berdasarkan jumlah aset, pangsa pasar bank **bjb** terhadap bank umum pada November 2025 tercatat sebesar 1,35%, sedikit menurun dibandingkan posisi November 2024 sebesar 1,51%. Dari sisi dana pihak ketiga, pangsa pasar bank **bjb** pada

Based on total assets, bank **bjb**'s market share among Commercial Banks in November 2025 was recorded at 1.35%, slightly lower than the 1.51% recorded in November 2024. In terms of Third Party Funds, bank **bjb**'s market share in November

November 2025 tercatat sebesar 1,32%, dibandingkan dengan November 2024 sebesar 1,52%. Sementara itu, pangsa pasar kredit yang diberikan pada November 2025 tercatat sebesar 1,36%, dibandingkan dengan November 2024 sebesar 1,58%. Perkembangan tersebut mencerminkan pertumbuhan industri perbankan secara umum yang relatif lebih tinggi pada periode pelaporan, di tengah upaya bank **bjb** untuk tetap menjaga kualitas pertumbuhan dan prinsip kehati-hatian dalam pengelolaan bisnis.

2025 stood at 1.32%, compared to 1.52% in November 2024. Meanwhile, the market share of loans disbursed in November 2025 was recorded at 1.36%, compared to 1.58% in November 2024. These developments reflect the relatively higher growth of the banking industry overall during the reporting period, amid bank **bjb**'s efforts to maintain growth quality and uphold prudential principles in managing its business operations.

Tinjauan Operasi Per Segmen Usaha

Segmen adalah bagian yang dapat dibedakan dari kelompok usaha yang terlibat baik dalam menyediakan produk tertentu (segmen usaha), maupun dalam menyediakan produk dalam lingkungan ekonomi tertentu (segmen geografis), yang memiliki risiko dan imbalan yang berbeda dengan segmen lainnya.

Pendapatan, beban, hasil, aset dan liabilitas segmen mencakup item-item yang dapat diatribusikan langsung kepada suatu segmen serta hal-hal yang dapat dialokasikan dengan dasar yang sesuai kepada segmen tersebut. Item-item segmen ditentukan sebelum saldo dan transaksi antar Kelompok Usaha, dieliminasi sebagai bagian dari proses konsolidasi. bank **bjb** dan entitas anak menyajikan segmen usaha berdasarkan laporan internal konsolidasian yang disajikan kepada pengambil keputusan operasional yaitu Direksi.

Dalam menjalankan kegiatan usahanya, bank **bjb** memiliki 2 (dua) segmen usaha yaitu segmen konvensional dan segmen syariah. Segmen konvensional meliputi produk pinjaman, produk dana pihak ketiga, dan jasa layanan. Sedangkan, segmen syariah dilaksanakan melalui kegiatan usaha entitas anak.

Segmen Konvensional

Segmen konvensional bank **bjb**, terdiri atas produk kredit/ pinjaman, produk dana pihak ketiga dan jasa layanan.

Operational Review of Business Segment

A segment is a distinguishable part of a business group that is involved both in providing certain products (business segments), as well as in providing products in certain economic environments (geographical segments), which have risks and rewards that are different from other segments.

Segment revenue, expenses, results, assets and liabilities include items that are directly attributable to a segment as well as those that can be allocated on an appropriate basis to the segment. Segment items are determined before balances and transactions between Business Groups are eliminated as part of the consolidation process. bank **bjb** and subsidiaries present business segments based on consolidated internal reports that are presented to operational decision makers, namely the Board of Directors.

In carrying out its business activities, bank **bjb** has 2 (two) business segments, namely the conventional segment and the sharia segment. The conventional segment includes loan products, third parties fund products, and services. Meanwhile, the sharia segment is implemented through the business activities of subsidiaries.

Conventional Segment

Conventional segment of bank **bjb** consists of loan products, third parties fund products and services.

Penjelasan dan Produktivitas Segmen Konvensional

Kredit/Pinjaman

Pada tahun 2025, total *outstanding* kredit bank **bjb** sebesar Rp112,60 triliun dengan komposisi terbesar berasal dari kredit konsumer sebesar Rp54,94 triliun. Di antara seluruh porofolio kredit, kredit konsumer diproyeksikan tetap menjadi kunci pertumbuhan kredit bank **bjb**, sejalan dengan prospek perbaikan pertumbuhan ekonomi dan terjaganya daya beli masyarakat. Sebagai salah satu kontributor utama terhadap pendapatan dan laba bank **bjb**, bisnis kredit konsumer terus menjadi andalan dalam mendorong pertumbuhan yang stabil dan berkualitas. bank **bjb**, meyakini bahwa segmen ini masih memiliki prospek yang kuat, didukung oleh basis nasabah yang luas, potensi peningkatan pembiayaan payroll, serta karakteristik risiko yang relatif terukur.

Description and Productivity of Conventional Segment

Loans

In 2025, the total outstanding loans of bank **bjb** amounted to IDR112.60 trillion, with the largest portion originating from consumer loans amounting to IDR54.94 trillion. Among the overall loan portfolio, consumer loans are projected to remain the key driver of bank **bjb**'s loan growth, in line with the improving economic growth outlook and maintained purchasing power. As one of the main contributors to bank **bjb**'s revenue and profit, the consumer lending business continues to serve as a core pillar in driving stable and quality growth. bank **bjb** believes that this segment still holds strong prospects, supported by a broad customer base, the potential for increased payroll financing, and relatively manageable risk characteristics.

Sejalan dengan hal tersebut, komposisi portofolio kredit terbesar pada tahun 2025 berasal dari kredit konsumer yang mencapai 48,79% dari total penyaluran kredit bank **bjb**. Secara nominal, penyaluran kredit konsumer meningkat menjadi Rp54,94 triliun atau tumbuh sebesar 3,29% dibandingkan dengan tahun 2024 yang tercatat sebesar Rp53,19 triliun. Capaian ini semakin menegaskan bahwa segmen kredit konsumer masih menjadi portofolio yang dominan dan pilar utama dalam struktur kredit bank **bjb**, baik dari sisi kontribusi volume, pertumbuhan, maupun profitabilitas.

In line with the above, the largest composition of the loan portfolio in 2025 was derived from consumer loans, which accounted for 48.79% of bank **bjb**'s total loan disbursement. In nominal terms, consumer loan disbursement increased to IDR54.94 trillion, representing a growth of 3.29% compared to 2024, which was recorded at IDR53.19 trillion. This achievement further underscores that the consumer loan segment remains the dominant portfolio and a key pillar in bank **bjb**'s credit structure, in terms of volume contribution, growth, and profitability.

KONSUMER

Penjelasan Kredit Konsumer

Kredit konsumer yang dapat diperoleh per nasabah adalah ± Rp120-125 juta. Bisnis Kredit Konsumer saat ini menjadi "andalan" banyak bank tidak terkecuali bank **bjb**, hal ini dikarenakan kredit konsumer memiliki profil risiko yang rendah namun memiliki tingkat profitabilitas yang tinggi. Sampai dengan saat ini kredit konsumer merupakan pilar pertama bank **bjb** sekaligus sebagai pemberi kontribusi laba terbesar bagi bank **bjb**.

Penjelasan masing-masing produk Kredit Konsumer telah disajikan pada bagian Profil Sub Bab Produk dan Jasa dalam Laporan Tahunan ini.

Produk Unggulan Kredit Konsumer

Hingga akhir tahun 2025, kredit konsumer bank **bjb** mengelola tiga produk utama beserta turunan produknya yang dirancang untuk memenuhi kebutuhan pembiayaan konsumtif berbagai segmen nasabah, yaitu:

1. **bjb Kredit Guna Bhakti (bjb KGB) Pola 1**
   Merupakan fasilitas kredit konsumtif multiguna yang diberikan kepada debitur berpenghasilan tetap, antara lain Aparatur Sipil Negara (ASN), Pegawai BUMN/BUMD/BLU/BLUD, PPPK, Pegawai Lembaga Negara/Instansi Pemerintah Non PNS, Anggota TNI/POLRI, Direksi, Kepala dan Wakil Kepala Daerah, serta Anggota Dewan.
2. **bjb Kredit Pra Purna Bhakti (bjb KPPB) Pola 1**
   Merupakan fasilitas kredit yang diberikan kepada debitur berpenghasilan tetap yang akan memasuki masa pensiun, khususnya ASN dan Anggota TNI/POLRI, sebagai bentuk dukungan perencanaan keuangan menjelang masa purna tugas.
3. **bjb Kredit Abdi Bhakti (bjb KAB)**
   Merupakan fasilitas kredit yang diberikan kepada Pegawai bank **bjb** sebagai bagian dari program internal kesejahteraan pegawai.

Pengembangan Produk dan Layanan Kredit Konsumer

Pada Tahun 2025, bank **bjb** melakukan pengembangan produk berupa **bjb** KGB Pinjaman ASN (KGB PISAN) untuk debitur baru. Produk ini merupakan pengembangan dari **bjb** KGB PISAN yang sebelumnya hanya diperuntukkan bagi debitur eksisting bank **bjb**. Pengembangan tersebut diharapkan dapat memperluas basis debitur baru serta meningkatkan daya saing produk kredit konsumer bank **bjb**.

CONSUMER

Consumer Loan Explanation

Consumer Loan that can be obtained per customer is amounted to ±IDR120- 125 million. The Consumer Loan Business is now the "mainstay" of many banks, including bank **bjb**, this is because consumer loan has a low risk profile but has a high level of profitability. Until now, consumer loan is the first pillar of bank **bjb** as well as the largest profit contributor for bank **bjb**.

Details of each Consumer Credit product are presented in the Product and Services section of this Annual Report.

Key Consumer Loan Products

As of the end of 2025, bank **bjb**'s consumer lending business manages three main products along with their respective product variants, designed to meet the consumer financing needs of various customer segments, namely:

1. **bjb Kredit Guna Bhakti (bjb KGB) Pattern 1**
   This is a multipurpose consumer loan facility provided to fixed-income borrowers, including Civil Servants (ASN), employees of State-Owned/Regionally-Owned Enterprises (BUMN/BUMD/BLU/BLUD), Government Contract Employees (PPPK), employees of State Institutions/Non-Civil Servant Government Agencies, members of the Indonesian National Armed Forces (TNI)/Indonesian National Police (POLRI), Directors, Regional Heads and Deputy Regional Heads, as well as Members of Legislative Councils.
2. **bjb Kredit Pra Purna Bhakti (bjb KPPB) Pattern 1**
   This is a loan facility provided to fixed-income borrowers approaching retirement, particularly Civil Servants (ASN) and members of the TNI/POLRI, as part of financial planning support ahead of their retirement period.
3. **bjb Kredit Abdi Bhakti (bjb KAB)**
   This is a loan facility provided to bank **bjb** employees as part of the Bank's internal employee welfare program.

Development of Consumer Loan Products and Services

In 2025, bank **bjb** developed a new product, **bjb** KGB Pinjaman ASN (KGB PISAN), for new borrowers. This product is an enhancement of the **bjb** KGB PISAN product, which was previously available only to existing bank **bjb** borrowers. The development is expected to expand the new borrower base and enhance the competitiveness of bank **bjb**'s consumer loan products.

Produktivitas Kredit Konsumer

Uraian produktivitas kredit konsumer disajikan sebagai berikut.

Consumer Loan Productivity

A description of consumer loan productivity is presented as follow.

Tabel Pertumbuhan Kredit Konsumer selama 5 (lima) Tahun Terakhir
Table of Consumer Loan Growth For the Last 5 (Five) Years

(dalam jutaan Rupiah / in IDR million)

Rata-Rata		2,293,647	4.80%		29,521	7.27%		

Dalam kurun waktu lima tahun terakhir, kinerja Kredit Konsumer bank **bjb** menunjukkan tren pertumbuhan yang positif. Rata-rata pertumbuhan *outstanding* kredit tercatat sebesar 4,80% per tahun, sementara pertumbuhan jumlah debitur mencapai 7,27% per tahun. Pada tahun 2025, *outstanding* kredit konsumer mencapai Rp54,94 triliun, tumbuh 3,29% dibandingkan dengan tahun 2024 yang mencapai Rp53,18 triliun. Pertumbuhan tersebut karena pertumbuhan *outstanding* **bjb** Kredit Guna Bhakti (KGB).

Over the past five years, bank **bjb**'s Consumer Loans performance has shown a positive growth trend. The average growth in outstanding loans was recorded at 4.80% per annum, while the number of borrowers grew by 7.27% per annum. In 2025, outstanding consumer loans reached IDR54.94 trillion, representing an increase of 3.29% compared to IDR53.18 trillion in 2024. This growth was primarily driven by the increase in outstanding **bjb** Kredit Guna Bhakti (KGB) loans.

Tabel Komposisi Portofolio Kredit Berdasarkan Produk
Table of Loans Portfolio Composition by Product

(dalam jutaan Rupiah / in IDR million)

Produk Product	*Outstanding*	Komposisi Composition	*Number of Account* (NoA)	Komposisi Composition	Absolut *Non Performing Loan* (NPL)	NPL	NoA PL
	(Rp)	(%)	(*Account*)	(%)	(Rp)	(%)	(*Account*)
bjb Kredit Guna Bhakti (KGB)	42,420,794	77.21%	419,723	83.92%	93,780	0.22%	711
bjb Kredit Pra Purna Bhakti (KPPB)	11,521,566	20.97%	75,276	15.05%	45,600	0.40%	293
bjb Kredit Abdi Bhakti (KAB)	996,995	1.81%	5,148	1.03%	2,160	0.22%	13
Total	54,939,355	100.00%	500,147	100.00%	141,540	0.26%	1,017

Dari sisi komposisi portofolio tahun 2025, **bjb** Kredit Guna Bhakti (**bjb** KGB) masih mendominasi dengan porsi 77,21%, diikuti oleh **bjb** Kredit Pra Purna Bhakti (**bjb** KPPB) sebesar 20,97%, dan **bjb** Kredit Abdi Bhakti (**bjb** KAB) sebesar 1,81%. Komposisi ini mencerminkan fokus bisnis kredit konsumer bank **bjb** pada segmen debitur berpenghasilan tetap yang memiliki risiko relatif terkelola.

In terms of portfolio composition in 2025, **bjb** Kredit Guna Bhakti (**bjb** KGB) remained the dominant product with a share of 77.21%, followed by **bjb** Kredit Pra Purna Bhakti (**bjb** KPPB) at 20.97%, and **bjb** Kredit Abdi Bhakti (**bjb** KAB) at 1.81%. This composition reflects bank **bjb**'s consumer loan business focus on the fixed-income borrower segment, which carries relatively manageable risk.

Berdasarkan data *outstanding* kredit selama lima tahun terakhir, ketiga produk utama kredit konsumer mencatatkan rata-rata pertumbuhan positif sebesar 3,69%.

Based on outstanding loan data over the past five years, the three main consumer loan products recorded an average positive growth of 3.69%.

Faktor Pendukung dan Penghambat Bisnis Kredit Konsumer

1. **Faktor Pendukung**
   Beberapa faktor eksternal dan internal yang mendukung pertumbuhan kredit konsumer sepanjang tahun 2025 antara lain:
   a. Pengangkatan Pegawai Pemerintah dengan Perjanjian Kerja (PPPK) di Provinsi Jawa Barat dan Provinsi Banten, termasuk kota dan kabupaten di wilayah tersebut, yang memberikan peluang peningkatan penyaluran **bjb** Kredit Guna Bhakti (**bjb** KGB).
   b. Peningkatan jumlah ASN yang memasuki masa pensiun setiap tahunnya, yang membuka peluang pertumbuhan portofolio **bjb** Kredit Pra Purna Bhakti (**bjb** KPPB).
2. **Faktor Penghambat**
   Di sisi lain, Divisi Kredit Konsumer juga menghadapi sejumlah tantangan, antara lain:
   a. Perpindahan pengelolaan Rekening Kas Umum Daerah (RKUD) di beberapa wilayah ke bank lain yang berdampak pada penurunan portofolio kredit konsumer.
   b. Penurunan tunjangan tambahan penghasilan pegawai di sejumlah daerah akibat menurunnya pendapatan daerah, sehingga memerlukan penerapan strategi *selective selling*.

Supporting and Inhibiting Factors in Consumer Loan Business

1. **Supporting Factors**
   Several external and internal factors that supported the growth of consumer loans throughout 2025 include the following:
   a. The appointment of Government Employees with Work Agreements (PPPK) in West Java Province and Banten Province, including cities and regencies within these regions, which provides opportunities to increase the distribution of **bjb** Kredit Guna Bhakti (**bjb** KGB).
   b. The increasing number of Civil Servants (ASN) entering retirement each year, which opens opportunities for the growth of the **bjb** Kredit Pra Purna Bhakti (**bjb** KPPB) portfolio.
2. **Inhibiting Factors**
   On the other hand, the Consumer Loan Division also faced several challenges, including:
   a. The transfer of the management of Regional General Cash Accounts (RKUD) in several regions to other banks, which impacted the decline in the consumer loan portfolio.
   b. The reduction of additional employee income allowances in several regions due to declining regional revenues, thereby requiring the implementation of a selective selling strategy.

c. Perpindahan pengelolaan gaji dan tunjangan pegawai di bawah Kementerian Hukum dan HAM dari bank **bjb** ke bank Himbara.
d. Pembatasan maksimum pemberian fasilitas kredit kepada ASN oleh beberapa Pemerintah Daerah setempat.
e. Pemberlakuan Peraturan Otoritas Jasa Keuangan Republik Indonesia Nomor 20 Tahun 2023 yang berdampak pada peningkatan biaya premi asuransi kredit.

Rencana dan Strategi Kredit Konsumer Tahun 2026

Dalam menghadapi tahun 2026, bank **bjb** menyiapkan berbagai strategi bisnis untuk meningkatkan dan mempertahankan portofolio *kredit konsumer* secara berkelanjutan, antara lain:

1. Penguatan strategi pemasaran melalui pengembangan program suku bunga khusus dan insentif bagi nasabah.
2. Peningkatan engagement dengan Kepala Dinas, Sekretaris Dinas, dan *key person* di instansi pemerintah guna mengoptimalkan potensi penyaluran kredit.
3. Pembukaan *market* baru melalui kerja sama pola pembiayaan bersama *(joint financing)* dengan mitra bank maupun BPR.
4. Pelaksanaan program *customer reward*, antara lain program penghargaan nasabah setia dan program perjalanan religi.
5. Peningkatan kualitas sumber daya manusia melalui penguatan kompetensi dan kapabilitas pemasaran kredit konsumer.

RITEL

c. The transfer of the management of employee salaries and allowances under the Ministry of Law and Human Rights from bank **bjb** to Himbara banks.
d. The imposition of maximum limits on credit facilities granted to Civil Servants (ASN) by several local governments.
e. The implementation of Financial Services Authority of the Republic of Indonesia Regulation No. 20 of 2023, which has resulted in an increase in credit insurance premium costs.

Consumer Loan Plan and Strategy for 2026

In preparation for 2026, bank **bjb** has formulated various business strategies to enhance and sustain the consumer loan portfolio on a sustainable basis, including the following:

1. Strengthening marketing strategies through the development of special interest rate programs and incentive schemes for customers.
2. Enhancing engagement with Heads of Departments, Secretaries of Departments, and key personnel within government institutions to optimize consumer loan disbursement potential.
3. Expanding into new markets through joint financing arrangements with partner banks and Rural Banks (BPR).
4. Implementing customer reward programs, including loyal customer appreciation programs and religious travel programs.
5. Improving the quality of human resources through strengthening competencies and capabilities in consumer loan marketing.

Retail Loan Explanation

Retail Credit products include **bjb** Kredit Purna Bhakti (Taspen), **bjb** Tunjangan Profesi Guru Non-ASN, **bjb** Channeling Fidac, **bjb** Kredit Guna Bhakti Pola 3, **bjb** Kredit Purna Bhakti (Asabri), **bjb** Kredit Purna Bhakti (Dapen), **bjb** Kredit Guna Bhakti Ekstra Pola 2, **bjb** Tunjangan Profesi Guru ASN, **bjb** Channeling BPR Irian Sentosa (Irsen), **bjb** Supporting Account, Asset Buy NTT, **bjb** Kredit Usaha Bhakti, Asset Buy Bank Sultra, Asset Buy Bank Sulteng, Channeling Sulut, **bjb** *Back To Back Loan*, **bjb** Kredit Pra Purna Bhakti, **bjb** Kredit Guna Bhakti Pola 2.

The explanation for each Retail Credit product is provided in the Products and Services Sub-Chapter Profile of this Annual Report.

Keunggulan Layanan Kredit Ritel

Keunggulan layanan Kredit Ritel adalah sebagai berikut:

1. *Service Level Agreement* (SLA) yang terjaga.
2. Persyaratan pengajuan kredit mudah.
3. Pemberian fasilitas kredit tanpa harus memindahkan *payroll*.
4. Saluran informasi digital yang cukup lengkap untuk mengetahui informasi pinjaman melalui aplikasi DIGI bank **bjb**.
5. Terdapat layanan *office channeling* Taspen dan ASABRI bagi debitur pensiunan.

Pengembangan Produk dan Layanan Kredit Ritel

Salah satu cara perbaikan proses bisnis dan diversifikasi produk untuk pengembangan produk dan layanan adalah dengan beberapa langkah sebagai berikut:

1. Pemberian program *marketing* dalam optimalisasi potensi kredit eksisting dan kredit baru.
2. Mengoptimalkan produk eksisting, melalui *monitoring* dan *update* fitur produk dan *pricing* sesuai dengan kondisi kompetitor untuk menjaga daya saing produk.
3. Memperluas *target market* penyaluran kredit untuk segmen pegawai aktif dan pensiunan yang memiliki profil risiko yang rendah.
4. Ekspansi *market share* melalui penyaluran kredit *channeling* kepada *fintech* dan diversifikasi produk melalui pengembangan produk *digital loan* seperti *pay later*.
5. Digitalisasi proses bisnis melalui pengembangan *new Loan Management System* (LMS).
6. Pengembangan aplikasi *cross selling frontliner* untuk memasarkan produk kredit pensiun melalui **bjb** *Pop Up Fast*.
7. Penambahan Perjanjian Kerjasama (PKS) referensi kemitraan serta penambahan *channel* akuisisi melalui *fronting agent*.

Produktivitas Kredit Ritel

Uraian produktivitas Kredit Ritel disajikan sebagai berikut.

Retail Loan Services Advantages

The advantages of Retail loan services were as follow:

1. Service Level Agreement (SLA) compliance.
2. Easy loan application requirements.
3. Providing credit facilities without having to move Payroll.
4. A complete digital information channel to find out loan information through the DIGI bank **bjb** application.
5. Office channeling services for Taspen and ASABRI for retired debtors.

Retail Loan Product and Service Development

The ways to improve business processes and product diversification for product and service development were taken with the following steps:

1. Providing marketing programs to optimize the potential of existing credit and new credit.
2. Optimizing existing products, through monitoring and updating product features and pricing in accordance with competitors' conditions to maintain product competitiveness.
3. Expanding the target market for credit distribution to the active employee and retired employee segments who have a low risk profile.
4. Expansion of market share through channeling credit to fintech and product diversification through developing digital loan products such as paylater.
5. Digitalization of business processes through the development of a new Loan Management System (LMS).
6. Developing a frontliner cross selling application to market pension credit products through **bjb** Pop Up FAST.
7. Expansion of partnership agreements (PKS) and acquisition channels through fronting agents..

Retail Loan Productivity

A description of retail loan productivity is presented as follows.

Tabel Pencapaian Kredit Ritel Berdasarkan Total *Outstanding*

Table of Retail Loan Achievement by Total Outstanding

Pencapaian kredit ritel berdasarkan *outstanding* dalam 5 (lima) tahun terakhir mengalami tren positif setiap tahun sampai dengan tahun 2024. Posisi total *outstanding* kredit ritel tahun 2021 sebesar Rp17,18 triliun, bergerak tumbuh sebesar Rp3,17 triliun menjadi Rp20,36 triliun pada tahun 2025. Adapun produk yang memiliki peningkatan *outstanding* tertinggi adalah **bjb** Kredit Purna Bhakti (KPB) Taspen dengan peningkatan sebesar Rp2,21 triliun. Sedangkan produk dengan penurunan *outstanding* tertinggi berada pada produk **bjb** KGB Pola 2 dengan penurunan sebesar Rp577,91 miliar.

The achievement of retail loans based on outstanding balance over the past five years showed a positive trend each year until 2024. The total outstanding retail loans amounted to IDR17.18 trillion in 2021 and increased by IDR3.17 trillion to reach IDR20.36 trillion in 2025. The product with the highest increase in outstanding was **bjb** Kredit Purna Bhakti (KPB) Taspen, which recorded an increase of IDR2.21 trillion. Meanwhile, the product with the largest decline in outstanding was **bjb** KGB Pola 2, which decreased by IDR577.91 billion.

Berbanding terbalik dengan pencapaian total outstanding, data pencapaian total absolut NPL Kredit Ritel mengalami kenaikan pada 5 (lima) tahun terakhir sebesar Rp94,35 miliar. Kenaikan absolut NPL terbesar berada pada produk **bjb** KGB Pola 2 sebesar Rp44,96 miliar dan **bjb** KGB Pola 3 sebesar Rp20,74 miliar. Adapun pada tahun 2025 total absolut NPL sebesar Rp169,79 miliar dengan kenaikan yoy terbesar berasal dari produk **bjb** KGB Pola 2 sebesar Rp21,96 miliar.

In contrast to the growth in total outstanding, the total absolute NPL of Retail Loans increased over the past five years by IDR94.35 billion. The largest increase in absolute NPL was recorded in the **bjb** KGB Pola 2 product amounting to IDR44.96 billion and **bjb** KGB Pola 3 amounting to IDR20.74 billion. Meanwhile, in 2025, the total absolute NPL stood at IDR169.79 billion, with the largest year-on-year increase originating from the **bjb** KGB Pola 2 product amounting to IDR21.96 billion.

Berdasarkan data *nett growth* pada tabel di atas, dari periode tahun 2021 - 2025 kredit ritel tumbuh sebesar Rp4,07 triliun. Adapun *nett growth* tertinggi berada pada produk **bjb** KPB Taspen sebesar Rp3,19 triliun kemudian produk **bjb** KGB TPG Non ASN yang memiliki angka *nett growth* tertinggi kedua dengan pertumbuhan sebesar Rp861,99 miliar. Sedangkan angka negatif *growth* tertinggi berada pada produk **bjb** KGB Pola 2 sebesar Rp1,16 triliun.

Based on the net growth data in the table above, retail loans grew by IDR4.07 trillion during the 2021–2025 period. The highest net growth was recorded in the **bjb** KPB Taspen product at IDR3.19 trillion, followed by the **bjb** KGB TPG Non-ASN product which recorded the second-highest net growth of IDR861.99 billion. Meanwhile, the largest negative growth was recorded in the **bjb** KGB Pola 2 product at IDR1.16 trillion.

Produk Unggulan Kredit Ritel

Terdapat 3 (tiga) produk unggulan segmen Kredit Ritel:

1. **bjb KPB Taspen**
   Fasilitas kredit yang diberikan oleh bank **bjb** untuk calon debitur/debitur dengan status pensiun sendiri atau pensiun janda/duda yang pensiun bulanannya telah disalurkan melalui bank **bjb** atau kantor bayar lainnya yang sumber pengembaliannya berasal dari pensiun bulanan.

Retail Credit Featured Products

There are three featured products in the Retail Credit segment:

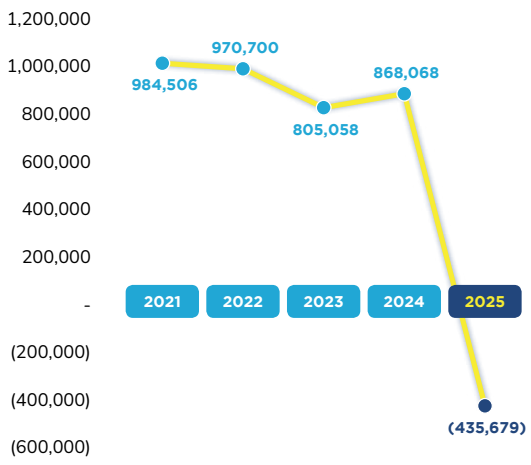
1. **bjb KPB Taspen**
   A credit facility provided by **bjb** for prospective or existing debtors who are retirees or widow(er) retirees receiving their monthly pensions through **bjb** or other designated payment offices, with repayment sourced from their monthly pensio.

2. **bjb KGB Pola 2**
   Fasilitas kredit yang diberikan oleh bank **bjb** untuk calon debitur/debitur berpenghasilan tetap yang gajinya telah maupun belum disalurkan melalui bank **bjb** yang digunakan untuk keperluan konsumtif multiguna dengan fokus penyaluran kredit kepada Anggota TNI, BUMN dan ASN Vertikal.
3. **bjb KGB Pola 3**
   Fasilitas kredit yang diberikan oleh bank **bjb** untuk calon debitur/debitur berpenghasilan tetap yang gajinya telah maupun belum disalurkan melalui bank **bjb** yang digunakan untuk keperluan konsumtif multiguna dengan fokus kepada perusahaan swasta, yayasan maupun pegawai non tetap.

a. **Produk bjb KPB Taspen**

Grafik *Net Growth* bjb KPB
Net Growth Chart of **bjb** KPB

(dalam jutaan rupiah / in IDR million)



Secara signifikan produk **bjb** KPB Taspen mengalami pertumbuhan positif selama 4 (empat) tahun berturut-turut (2021 - 2024) dengan total pertumbuhan sebesar Rp3,62 triliun. Namun, pada tahun 2025, pertumbuhan **bjb** KPB Taspen negatif Rp435,67 miliar. Penurunan yang signifikan ini disebabkan adanya implementasi POJK 20 Tahun 2023 yang mendorong dilakukannya formulasi ulang terkait Tarif Imbal Jasa Premi (IJP) asuransi oleh Perusahaan Asuransi dan Penjaminan rekanan. Penyesuaian tarif IJP mengalami kenaikan yang signifikan sampai dengan 5 (lima) kali lipat untuk debitur pensiunan. Hal tersebut berdampak terhadap penurunan realisasi kredit yang massif terhadap segmen dimaksud.

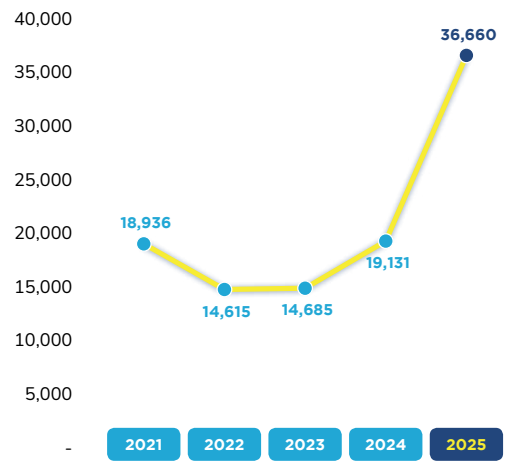
2. **bjb KGB Pola 2**
   A multi-purpose consumer credit facility offered to prospective or existing debtors with fixed income, whether or not their salaries are disbursed through **bjb**, focusing on lending to TNI members, BUMN employees, and vertical ASN.

3. **bjb KGB Pola 3**
   A multi-purpose consumer credit facility provided to prospective or existing debtors with fixed income, whether or not their salaries are disbursed through **bjb**, targeting private company employees, foundation staff, and nonpermanent employees.

a. **bjb KPB Taspen Product**

Grafik *Absolute* NPL bjb KPB
Absolute NPL Chart of **bjb** KPB

(dalam jutaan rupiah / in IDR million)



The **bjb** KPB Taspen product recorded significant positive growth for four consecutive years (2021–2024), with total growth amounting to IDR3.62 trillion. However, in 2025, **bjb** KPB Taspen recorded negative growth of IDR435.67 billion. This significant decline was attributable to the implementation of POJK No. 20 of 2023, which prompted a reformulation of the Insurance Premium Fee Rate (IJP) by partner insurance and guarantee companies. The adjustment in the IJP tariff increased significantly, by up to five times for pensioner debtors. This condition led to a substantial decline in loan realization within the segment.

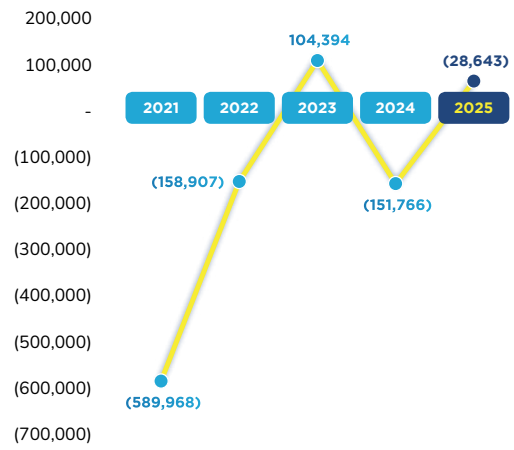
Dalam perspektif kualitas kredit, **bjb** KPB Taspen juga mengalami kenaikan absolut NPL sebesar Rp17,72 miliar, dari semula Rp18,93 miliar pada tahun 2021 menjadi Rp36,66 miliar di tahun 2025 yang juga merupakan absolut NPL tertinggi dalam 5 (lima) tahun terakhir dikarenakan meningkatnya klaim asuransi meninggal dunia yang belum dibayarkan.

From a loan quality perspective, **bjb** KPB Taspen also recorded an increase in absolute NPL of IDR17.72 billion, rising from IDR18.93 billion in 2021 to IDR36.66 billion in 2025, which represents the highest absolute NPL level over the past five years. This increase was primarily attributable to the rise in unpaid death insurance claims.

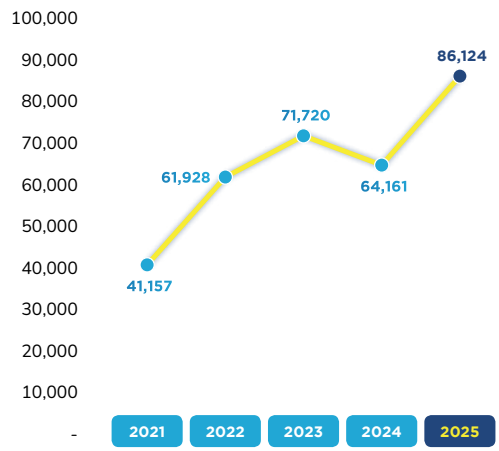
b. **Produk bjb KGB Pola 2**

b. **Produk bjb KGB Pola 2**

Grafik *Net Growth* bjb KGB Pola 2
Net Growth Chart of **bjb** KPB Pattern 2



Grafik *Absolute* NPL bjb KGB Pola 2
Absolute NPL Chart of **bjb** KPB Pattern 2



Dalam 5 (lima) tahun terakhir periode 2021 - 2025, **bjb** KGB Pola 2 mengalami negatif *growth* sebesar Rp824,89 miliar. Penurunan tersebut dikarenakan hal - hal sebagai berikut:

1. Pemberlakuan Gerakan Nasional Non Tunai (GNNT) yang menyebabkan kendala pada proses pemotongan angsuran fasilitas kredit terutama debitur yang gajinya tidak disalurkan melalui bank **bjb** sejak tahun 2018.
2. Penyaluran kredit pada Bank *payroll* di luar wilayah Jawa Barat yang menyebabkan terjadinya *double financing* pada debitur eksisting di bank **bjb**.
3. *Mega shifting market* dari *market* eksisting dengan proses konvensional dan manual menjadi *market* dengan proses digitalisasi, paperless era serta aktivasi transaksi *online* seperti BNPL (Buy Now Pay Later), dan lain-lain.

Selain berdampak terhadap pertumbuhan, kebijakan tersebut juga mengakibatkan kenaikan absolut NPL **bjb** KGB Pola 2 yang signifikan pada 5 (lima) tahun terakhir dari angka Rp41,15 miliar menjadi Rp86,12 miliar.

Over the last five-year period (2021–2025), **bjb** KGB Pola 2 experienced negative growth of IDR824.89 billion. This decline was driven by several factors:

1. Implementation of the National Non-Cash Movement (GNNT) causing constraints in the installment deduction process, especially for debtors whose salaries are not channeled through bank **bjb** since 2018.
2. Credit disbursement to Regional Payroll Banks outside the West Java region, leading to double financing for existing debtors at bank **bjb**.
3. A mega-shift in the market from an existing market with conventional and manual processes to a market with digitization, paperless transactions, and activation of online transactions such as Buy Now Pay Later, and others.

In addition to affecting growth, the policy also resulted in a significant increase in the absolute NPL of **bjb** KGB Pola 2 over the past five years, rising from IDR41.15 billion to IDR86.12 billion.

Pada tahun 2023 produk tersebut mengalami pertumbuhan positif sebesar Rp104,39 miliar dikarenakan adanya upaya untuk melakukan *shifting* (pengalihan) *target market* **bjb** KGB Pola 2 kepada ASN Vertikal, anggota TNI serta Perjanjian Kerjasama (PKS) Holding, utamanya untuk Badan Usaha Milik Negara (BUMN).

Namun pada tahun selanjutnya, produk **bjb** KGB Pola 2 kembali mengalami pertumbuhan negatif, dikarenakan bank **bjb** lebih selektif dalam menentukan tingkat suku bunga rendah hanya kepada segmen market yang memiliki profil risiko rendah. Hal tersebut bertujuan untuk menjaga *Net Interest Margin* (NIM) tidak mengalami penurunan signifikan.

In 2023, the product recorded positive growth of IDR104.39 billion, driven by efforts to shift the target market of **bjb** KGB Pola 2 toward Vertical Civil Servants (ASN), members of the Indonesian National Armed Forces (TNI), and Holding Cooperation Agreements (PKS), particularly with State-Owned Enterprises (BUMN).

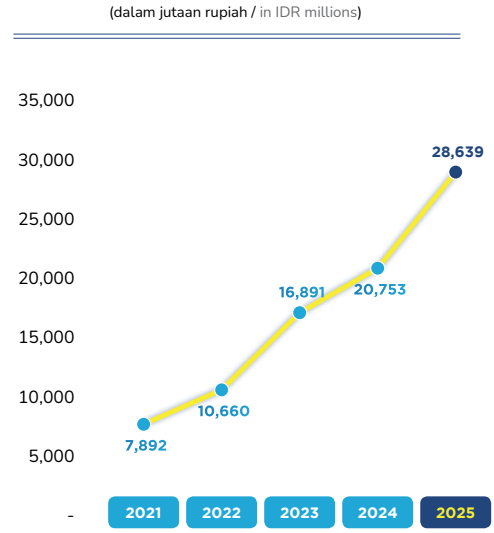
However, in next year, **bjb** KGB Pola 2 returned to negative growth as bank **bjb** adopted a more selective approach, offering low-interest rates only to market segments with low-risk profiles. This strategy aimed to maintain the Net Interest Margin (NIM) and prevent significant declines.

c. **Produk bjb KGB Pola 3**

c. **Produk bjb KGB Pola 3**

Grafik *Net Growth* bjb KGB Pola 3
Graph of Net Growth **bjb** KGB Pattern 3

Grafik *Absolute* NPL bjb KGB Pola 3
Graph of Absolute NPL **bjb** KGB Pattern 3



Produk **bjb** KGB Pola 3 rata-rata memiliki tren pertumbuhan positif selama 5 (lima) tahun terakhir dengan outstanding pada 2025 sebesar Rp1,42 triliun. Produk tersebut memberikan fasilitas kredit konsumtif kepada Pegawai Swasta, Yayasan, Dana Pensiun, Pegawai Non-Tetap Instansi Pemerintah dan Perangkat Desa.

Pada tahun 2023 produk **bjb** KGB Pola 3 mencatatkan pertumbuhan negatif Rp11,64 miliar. Kendati demikian, produk **bjb** KGB Pola 3 kembali tumbuh pada 2024 sebesar Rp11 miliar, pertumbuhan positif tersebut sebagian besar berasal dari penyaluran kredit kepada Kepala Desa/Perangkat Desa.

The **bjb** KGB Pola 3 product has generally demonstrated a positive growth trend over the past five years, with outstanding loans reaching IDR1.42 trillion in 2025. This product provides consumer loan facilities to private employees, foundations, pension funds, non-permanent employees of government institutions, and village officials.

In 2023, the **bjb** KGB Pola 3 product recorded negative growth of IDR11.64 billion. Nevertheless, the product returned to positive growth in 2024 amounting to IDR11 billion, with the majority of the increase driven by loan disbursement to village heads and village officials.

Seiring dengan pertumbuhan *outstanding*, absolut NPL **bjb** KGB Pola 3 juga mengalami peningkatan dari semula Rp7,89 miliar pada tahun 2021 menjadi Rp28,63 miliar pada 2025 atau mengalami pemburukan absolut NPL sebesar Rp20,74 miliar yang sebagian besar disebabkan oleh debitur yang terdampak kebijakan PHK massal di beberapa perusahaan.

In line with the growth in outstanding loans, the absolute NPL of **bjb** KGB Pola 3 also increased from IDR7.89 billion in 2021 to IDR28.63 billion in 2025, reflecting a deterioration in absolute NPL of IDR20.74 billion. This increase was primarily attributable to borrowers affected by mass layoffs in several companies.

Faktor Pendukung dan Penghambat Bisnis Kredit Ritel

1. **Faktor Pendukung**
   a. Suku bunga dan fitur produk kredit ritel yang kompetitif.
   b. Diversifikasi produk dan layanan yang dapat menjawab kebutuhan *customer* sesuai dengan *life stages (*pegawai aktif - pra pensiun - pensiun).
   c. Terdapat program-program pemasaran sesuai kebutuhan finansial masyarakat.
   d. Memiliki tenaga kerja yang berpengalaman di bidang kredit konsumtif.
   e. Terdapat potensi debitur yang berkantor bayar di bank **bjb** (baik potensi baru maupun eksisting).
   f. Terdapat program pemberdayaan bagi debitur baik pegawai aktif maupun pensiunan dalam bentuk kemitraan usaha dan edukasi literasi keuangan.
   g. Semakin luasnya *market* debitur Non ASN yang memiliki basis *payroll* gaji pada bank **bjb**.
2. **Faktor Penghambat**
   a. Ketersediaan infrastruktur teknologi informasi dibandingkan dengan bank lain yang relatif lebih dulu dapat mengakomodir kebutuhan model bisnis dengan *peer to peer lending.*
   b. Adanya program pemerintah yang berimplikasi terhadap proses pemotongan gaji untuk pembayaran angsuran yang berpengaruh terhadap *target market* (contoh: Gerakan Nasional Non Tunai/GNNT).
   c. Terdapat proteksi dari masing-masing BPD di luar Jawa Barat dan Banten yang menyebabkan akses bendahara keuangan terhadap pemotongan gaji debitur untuk pembayaran angsuran menjadi hilang dan berimplikasi terhadap penyempitan segmen *market* **bjb** Kredit Guna Bhakti (KGB) Pola 2.
   d. Domisili calon debitur yang berada di luar jangkauan jaringan kantor bank **bjb.**
   e. Minimnya jaringan Kantor dan ATM bank **bjb** di daerah di luar Jawa Barat dan Banten.
   f. Implementasi Peraturan Otoritas Jasa Keuangan (POJK) 20 Tahun 2023 tentang Produk Asuransi yang dikaitkan dengan kredit atau pembiayaan syariah dan produk *suretyship* atau *suretyship* syariah yang berdampak pada kenaikan biaya premi asuransi serta potensi kenaikan absolut NPL karena pemberlakukan *risk sharing* antara bank dengan asuradur dalam pembayaran klaim kredit macet.

Supporting and Inhibiting Factors for Retail Loan Business

1. **Supporting Factors**
   a. Competitive Interest Rates and Retail Loan product features.
   b. Diversification of products and services that can answer customer needs according to life stages (active employees - pre-retirement - retirement).
   c. There are marketing programs according to people's financial needs.
   d. Has a workforce that is experienced in the consumer credit sector.
   e. There is potential for debtors who have offices to pay at bank **bjb**.
   f. There is an empowerment program for debtors, both active employees and retirees, in the form of business partnerships and financial literacy education. .
   g. The expanding market of non-ASN borrowers whose payroll accounts are maintained with the bank **bjb**.
2. **Inhibiting Factors**
   a. The availability of information technology infrastructure compared to other banks that relatively earlier accommodate business models with peer-topeer lending;
   b. Government programs that have implications for salary deduction processes for installment payments, affecting the target market (example: National NonCash Movement/GNNT).
   c. There was protection from each BPD outside West Java and Banten which caused the Financial Treasurer's access to deductions from Debtor salaries for installment payments to be lost and had implications for narrowing the market segment **bjb** Kredit Guna Bhakti (KGB) Pattern 2.
   d. The domicile of the prospective debtor is outside the reach of the bank **bjb** office network.
   e. The minimal network of bank **bjb** offices and ATMs in areas outside West Java and Banten..
   f. Implementation of the OJK Regulation No. 20 of 2023 concerning insurance products linked to credit or sharia financing and suretyship or sharia suretyship products, which led to higher insurance premium costs and the potential increase in absolute NPL due to the application of risk-sharing between banks and insurers in the payment of non-performing loan claim.

Perkembangan Bisnis atau Kinerja

Beberapa fokus pada perkembangan bisnis dan kinerja Kredit Ritel pada tahun 2025 adalah:

1. Fokus terhadap *captive market* yang masih memiliki risiko yang terukur seperti Anggota TNI, ASN Vertikal, Pegawai BUMN/Swasta/Yayasan dan Pensiunan.
2. Inisiasi Perjanjian Kerjasama (PKS) secara Nasional, utamanya dalam meng-*capture new market*.
3. Optimalisasi strategi *account solution* dalam rangka pengembangan kerjasama bisnis penyaluran kredit ritel secara nasional (PKS Nasional dengan beberapa *Holding Company*).
4. *Branding* melalui webinar serta penyebaran informasi melalui kanal sosial *WhatsApp Blast*.
5. Optimalisasi Pendapatan Bunga Kredit Yang Diberikan (PBKYD) melalui pembaruan plafon kredit debitur eksisting berdasarkan nominatif data debitur eksisting yang telah melewati setengah jangka waktu.
6. Optimalisasi analisis kesehatan calon debitur pensiunan untuk mitigasi risiko kenaikan tingkat rasio klaim asuransi.

Rencana dan Strategi Kredit Ritel Tahun 2026

Uraian rencana dan strategi Kredit Ritel yang akan dilakukan pada tahun 2026 adalah sebagai berikut:

1. Fokus kepada *captive market* instansi/perusahaan yang memiliki Perjanjian Kerjasama (PKS) penyaluran kredit ritel secara nasional serta *payroll based* gaji di bank **bjb** (termasuk Guru Non ASN yang mendapatkan tunjangan profesi).
2. *Shifting* penyaluran kredit dari ASN horizontal dengan *payroll based* gaji di BPD setempat kepada segmen kredit ASN vertikal atau instansi/perusahaan yang memiliki Perjanjian Kerjasama (PKS) penyaluran kredit.
3. Implementasi aplikasi *Cash Loan Ritel*: aplikasi pengajuan Kredit Ritel secara hybrid melalui aplikasi DIGI bank **bjb** dengan *pilot project* untuk produk **bjb** TPG Non ASN dan **bjb** KGB Pola 3 (*payroll*).
4. Implementasi program *marketing* tahun 2026 sebagai strategi untuk mempertahankan debitur eksisting maupun untuk mendapatkan debitur baru, diantaranya:
   a. *Pricing* program: program suku bunga khusus.
   b. Program subsidi asuransi.
   c. Program referral dan *cashback* untuk debitur.
   d. Program apresiasi untuk unit kerja Kantor Wilayah maupun Kantor Cabang.

KORPORASI

Penjelasan Kredit Korporasi

Produk Kredit Korporasi bank **bjb** terdiri dari KIU (F), KIU (S), KIU Sindikasi, KMK Umum - Pada Perusahaan Pembiayaan (S), KMKK, KMKU (S), KMKU R/C, KMKU Sindikasi dan Kredit Jangka Pendek.

Business Development or Performance

Several focuses on business development and Retail Loan performance in 2025 are:

1. Focusing on captive markets that still have measurable risks such as Members of the Indonesian Armies (TNI), Vertical Civil Servants (ASN), SOEs/Private Employees and Pensioners.
2. The bank also initiated Cooperation Agreements (PKS) at the national level, mainly to capture new markets.
3. Optimizing the account solution strategy in the framework of developing national retail loan distribution business cooperation (National PKS with several Holding Companies).
4. Branding through webinars and dissemination of information via the WhatsApp blast social channel.
5. Optimizing Interest Income from Loans Disbursed (PBKYD) by leveraging existing debtor potential based on nominative data of credit facilities that have passed half of their loan term..
6. Optimization of the health assessment analysis of prospective retired borrowers to mitigate the risk of increasing insurance claim ratios.

Retail Loan Plans and Strategies for 2026

The description of the Retail Loan Plan and Strategy to be carried out in 2026 is as follows:

1. Focusing on the captive market of institutions/companies that have Credit Distribution Cooperation Agreements (PKS) at the national level and maintain payroll accounts with bank **bjb**, including Non-ASN teachers who receive professional allowances.
2. Shifting credit distribution from horizontal ASN segments with payroll accounts maintained at local Regional Development Banks (BPD) to vertical ASN segments or institutions/companies that have Credit Distribution Cooperation Agreements (PKS).
3. Implementation of the Retail Cash Loan application, a hybrid retail loan application platform through the DIGI bank **bjb** application, with pilot projects for **bjb** TPG Non-ASN and **bjb** KGB Pattern 3 (payroll) products.
4. Implementation of the 2026 marketing program as a strategy to retain existing borrowers and acquire new borrowers, including:
   a. Pricing Program: special interest rate program.
   b. Insurance Subsidy Program.
   c. Referral and Cashback Program for borrowers.
   d. Appreciation Program for Regional Office and Branch Office work units.

CORPORATE

Corporate Loan Explanation

bank **bjb** Corporate Loan products consist of KIU (F), KIU (S), KIU Syndication, KMK General - Financing Companies (S), KMKK, KMKU (S), KMKU R/C, KMKU Syndication and Short Term Loan.

Penjelasan masing-masing produk Kredit Korporasi telah disajikan pada bagian Profil Sub Bab Produk dan Jasa dalam Laporan Tahunan ini.

Keunggulan Layanan Kredit Korporasi

Fasilitas Kredit segmen korporasi bersifat *tailor-made* yaitu fasilitas kredit dapat dibentuk dengan fleksibel mengikuti kebutuhan bisnis calon debitur seperti pemberian kredit kepada Grup usaha debitur dengan mekanisme *Joint Borrower* sehingga fasilitas kredit dapat dipergunakan oleh calon debitur beserta dengan grup usahanya. Selain itu, pemberian fasilitas kredit dapat dilakukan dalam bentuk *switchable* antara *cash loan* dan *non cash loan*.

Mekanisme pemberian fasilitas kredit secara sindikasi pun menjadi salah satu fokus dengan peran bank **bjb** sebagai *leader* untuk penyaluran kredit yang diberikan kepada perusahaan - perusahaan BUMN/BUMN *Holding*/Group BUMN maupun perusahaan Swasta bonafit lainnya.

Pengembangan Produk Layanan Kredit Korporasi

Dalam rangka menunjang bisnis kredit korporasi selama periode tahun 2025 telah dilakukan pengembangan produk dan layanan diantaranya sebagai berikut:

1. Penyesuaian Petunjuk Teknis Kredit Sindikasi.
2. Penyesuaian Manual Produk *Receivable Financing*.
3. Penyesuaian Petunjuk Teknis IAC Sawit.
4. Penyesuaian Manual Produk *Cash Collateral* Segmen Korporasi.
5. Penyesuaian Manual Produk Kredit Modal Kerja Segmen Korporasi.

Produktivitas Kredit Korporasi

Dalam kurun waktu 5 (lima) tahun terakhir, segmen korporasi mengalami pertumbuhan yoy secara signifikan pada 2020 sampai dengan 2023. Pada tahun 2022 merupakan pertumbuhan tertinggi yaitu sebesar Rp4,26 triliun atau 34,84%, sedangkan pada tahun 2025 secara yoy terdapat negatif *growth* sebesar Rp3,68 triliun atau menurun 24,70%. Penurunan *outstanding* terjadi karena terdapat pelunasan dari beberapa debitur besar sebagai bagian dari strategi pengurangan kredit dengan *rate* rendah sebagai upaya meningkatkan NIM bank **bjb** secara *bankwide*.

An explanation of each Corporate Loan product has been presented in the Profile section of the Products and Services Sub-Chapter in this Annual Report.

Corporate Credit Service Advantages

Corporate segment credit facilities are designed on a tailor-made basis, allowing the structure of the facility to be flexibly arranged according to the business needs of prospective borrowers. This includes the provision of credit facilities to a borrower's business group through a Joint Borrower mechanism, enabling the credit facility to be utilized by the prospective borrower as well as its affiliated business group. In addition, credit facilities may be structured in a switchable form between cash loan and non-cash loan facilities.

The provision of credit facilities through syndication mechanisms is also one of the Bank's key focuses, with bank **bjb** acting as the leader in loan syndications extended to State-Owned Enterprises (SOEs), SOE Holdings/Groups, as well as other reputable private companies.

Corporate Loan Product and Service Development

In order to support the Corporate Division business during the 2025 period, it has developed products and services including the following:

1. Adjustment of the Technical Guidelines for Syndicated Loans.
2. Adjustment of the Receivable Financing Product Manual.
3. Adjustment of the Technical Guidelines for Palm Oil IAC.
4. Adjustment of the Cash Collateral Product Manual for the Corporate Segment.
5. Adjustment of the Working Capital Loan Product Manual for the Corporate Segment.

Corporate Loan Productivity

Over the past five years, the corporate segment recorded significant year-on-year growth from 2020 to 2023. The highest growth was recorded in 2022, amounting to IDR4.26 trillion or 34.84%. Meanwhile, in 2025, the segment recorded negative year-on-year growth of IDR3.68 trillion, representing a decline of 24.70%. The decrease in outstanding loans was primarily attributable to repayments made by several large borrowers as part of a strategy to reduce low-rate loans in an effort to improve bank **bjb**'s net interest margin (NIM) on a bankwide basis.

Penurunan *growth* pada seluruh produk unggulan terjadi seiring dengan terdapatnya pelunasan dari beberapa debitur besar sebagai bagian dari strategi pengurangan kredit dengan *rate* rendah sebagai upaya meningkatkan NIM bank **bjb** secara *bankwide*.

The decline in growth across all key products occurred in line with the early repayment by several large debtors as part of the Bank's strategy to reduce low-rate loans, aimed at improving bank **bjb**'s Net Interest Margin (NIM) on a bank-wide basis.

Selain itu, bank **bjb** juga menyediakan produk jasa sindikasi yang mencakup peran sebagai *arranger*, agen fasilitas, agen jaminan, dan agen escrow, dengan portofolio pembiayaan yang tersebar pada berbagai sektor industri strategis serta melibatkan debitur korporasi berskala menengah hingga besar, sebagai bentuk dukungan terhadap pembiayaan proyek dan kebutuhan pendanaan jangka menengah/panjang.

In addition, bank **bjb** also provides syndicated loan services that include roles as arranger, facility agent, security agent, and escrow agent, with financing portfolios distributed across various strategic industry sectors and involving medium- to large-scale corporate debtors. This initiative reflects the Bank's commitment to supporting project financing and medium- to long-term funding requirements.

Dalam aspek kualitas kredit, persentase *Non Performing Loan* (NPL) selama lima tahun terakhir menunjukkan peningkatan yang cukup signifikan pada tahun 2024 dan 2025. Kenaikan

In terms of credit quality, the percentage of Non-Performing Loans (NPL) over the past five years showed a fairly significant increase in 2024 and 2025. The increase was mainly driven

tersebut terutama disebabkan oleh dua faktor utama, yaitu: penetapan resmi putusan hukum Pengadilan Niaga terhadap PT Sri Rejeki Isman (Sritex) yang mengakibatkan fasilitas kredit masuk dalam kategori bermasalah, serta menurunnya kemampuan pembayaran kewajiban oleh debitur PT Tahta Djaga Internasional. Kedua kondisi tersebut memberikan dampak material terhadap kenaikan NPL pada periode dimaksud. Adapun pergerakan kualitas kredit segmen Korporasi dalam 5 (lima) tahun terakhir adalah sebagai berikut:

by two key factors: the official legal ruling issued by the Commercial Court against PT Sri Rejeki Isman (Sritex), which resulted in the Bank's credit facilities being classified as non-performing, and the declining ability of PT Tahta Djaga Internasional to meet its payment obligations. Both conditions had a material impact on the increase in NPL during the period. The movement of credit quality in the Corporate segment over the past five (5) years is presented as follows:

Faktor Pendukung dan Penghambat Bisnis Kredit Korporasi

Uraian faktor pendukung dan penghambat bisnis kredit korporasi adalah sebagai berikut:

1. **Faktor Pendukung**
   bank **bjb** didukung oleh infrastruktur yang cukup memadai dalam menerapkan budaya kredit yang lebih baik untuk pertumbuhan kredit yang sehat dan berkualitas, antara lain:
   a. Penyesuaian pembagian tugas dan tanggung jawab dalam proses analisa kredit korporasi dari semula *Account Manager* menjadi *Relationship Manager* dengan fokus ekspansi serta hubungan dengan internal dan *Assistant Relationship Manager* dengan fokus SLA pada proses.
   b. Adanya pembagian segmentasi bisnis Korporasi yaitu Grup Korporasi 1 yang mengelola *account* korporasi swasta, Grup Korporasi 2 mengelola *account* korporasi BUMN, Grup Korporasi 3 mengelola *account* kredit sindikasi, dan Grup Agen Sindikasi mengelola *project* sindikasi dimana bank **bjb** bertindak sebagai *arranger* maupun agen dalam kredit sindikasi;
   c. Pemerataan pemenuhan pendidikan dan pelatihan masing-masing pegawai yang dilakukan secara berkala serta pemenuhan sertifikasi yang harus dimiliki oleh masing-masing pegawai untuk menunjang peningkatan kompetensi.
2. **Faktor Penghambat**
   a. Terdapatnya beberapa pelunasan debitur dengan nominal kredit besar di luar jadwal pembayaran yang menyebabkan *negatif growth*.
   b. Belum terpenuhinya jumlah SDM sesuai *capacity planning*. Terdapat penurunan jumlah SDM Korporasi secara yoy sebanyak 8 (delapan) pegawai.

Supporting and Inhibiting Factors for Corporate Loan Business

The description of supporting and inhibiting factors for corporate business is as follow:

1. **Supporting Factors**
   bank **bjb** is supported by adequate infrastructure in implementing a better loan culture for healthy and quality loan growth, includin:
   a. Adjustment of the division of tasks and responsibilities in the corporate loan analysis process from the original account manager to a relationship manager with a focus on expansion and relationships with internal and an assistant relationship manager with a focus on SLA on the process.
   b. There is a division of Corporate business segmentation, namely Corporate Group 1 which manages private corporate accounts, Corporate Group 2 manages BUMN corporate accounts and Corporate Group 3 manages syndicated loan accounts. In 2024, there has also been an addition of the Syndicated Agent Group, namely the Group that manages syndicated projects, bank **bjb** acts as an arranger and agent in syndicated loan;
   c. Equitable fulfillment of education and training for each employee which was carried out periodically as well as the fulfillment of certifications that had to be owned by each employee to support competency improvement.
2. **Inhibiting Factors**
   a. There were several debtor repayments with large loan amounts outside the payment schedule which caused negative growth.
   b. The number of human resources has not been met according to capacity planning. There was a decrease in the number of Corporate Human Resources yoy by 8 (eight) employees.

Rencana dan Strategi Kredit Korporasi Tahun 2026

Uraian rencana dan strategi kredit korporasi tahun 2026 adalah sebagai berikut:

1. Ekspansi kredit kepada sektor ekonomi dengan kategori "Menarik" sesuai dengan Portofolio *Guideline* dengan margin yang profitable dengan mengedepankan prinsip kehati-hatian.
2. Mempertahankan kualitas kredit agar tidak ada penurunan kualitas kredit dari debitur-debitur korporasi, dengan monitoring secara langsung *(on the spot)* maupun *on desk* yang disertai analisa 3 (tiga) pilar.
3. Mengupayakan penyelesaian atas debitur restruk/LAR dengan cara:
   a. Percepatan Penjualan agunan debitur melalui kerja sama dengan agen properti.
   b. Mencari investor untuk mengakuisisi Perusahaan atau masuk sebagai pemegang saham.
4. Meningkatkan *fee based* dari jasa sindikasi sebagai *arranger*, agen fasilitas, agen jaminan, agen *escrow*, serta memaksimalkan penetrasi terhadap ekosistem bisnis debitur/calon debitur.
5. Peningkatan NoA Korporasi melalui reformulasi dengan *size* kredit yang terukur.
6. Peningkatan kompetensi SDM Korporasi melalui pelatihan dan sertifikasi baik internal maupun eksternal.

Corporate Loan Plans and Strategies for 2026

The description of the corporate credit plan and strategy for 2026 is as follows:

1. Expanding lending to economic sectors categorized as "Attractive" in accordance with the Portfolio Guidelines, with profitable margins while upholding prudential principles.
2. Maintaining credit quality to prevent any deterioration in the credit quality of corporate debtors through both on-site (on-the-spot) monitoring and desk-based monitoring, supported by analysis based on the three pillars framework.
3. Pursuing resolution strategies for restructured/LAR debtors through the following measures:
   a. Accelerating the sale of debtor collateral through cooperation with property agents.
   b. Seeking investors to acquire the company or enter as shareholders.
4. Increasing fee-based income from syndication services by acting as arranger, facility agent, security agent, and escrow agent, while maximizing penetration into the business ecosystem of existing and prospective debtors.
5. Increasing the number of corporate accounts (NoA) through reformulation with measured credit sizes.
6. Enhancing the competency of Corporate Human Resources through both internal and external training and certification programs.

KOMERSIAL

Penjelasan Kredit Komersial

Kredit Investasi kepada seluruh Debitur yang sesuai dengan Segmentasi Kredit Komersial.

Penjelasan masing-masing produk Kredit Komersial telah disajikan pada bagian Profil Sub Bab Produk dan Jasa dalam Laporan Tahunan ini.

Produk Unggulan Kredit Komersial

Dasi sisi *outstanding* selama 5 (lima) tahun terakhir berdasarkan data posisi tahun 2025 adalah, Kredit Modal Kerja Umum, Kredit Modal Kerja Kontrak (KMKK), Kredit Modal Kerja BPR, Kredit *Cash Collateral* dan Kredit Investasi. Sedangkan secara NoA kredit 5 (lima) terbesar adalah penyaluran KMK Kontrak, Kredit Modal Kerja, Kredit Investasi, KMK Kepada Koperasi (Penerus Pinjaman) dan KMK BPR

COMMERCIAL

Commercial Loan Explanation

bank **bjb**'s Commercial Loan products consist of Working Capital Loans and Investment Loans. Working Capital Loans include General Working Capital Loans (KMK Umum), Contract-Based Working Capital Loans (KMK Kontrak), Loans to Regional Public Service Agencies (BLUD), Regional Loans, Loans to Financing Institutions, Distributor Financing, Working Capital Loans to Cooperatives (On-Lending), Working Capital Loans to Rural Banks (BPR), Loans to Developers, Warehouse Receipt Financing, Cash Collateral Loans, Receivable Financing, and **bjb** KKI for the Government Segment. Investment Loans are provided to all borrowers that fall within the Commercial Credit Segmentation.

The description of each Commercial Loan product is presented in the Profile section under the Products and Services subchapter of this Annual Report.

Key Commercial Loan Products

In terms of outstanding balance over the past five (5) years based on the 2025 position data, the largest commercial loan products consist of General Working Capital Loans, Contract-Based Working Capital Loans (KMKK), Working Capital Loans to Rural Banks (BPR), Cash Collateral Loans, and Investment Loans. Meanwhile, based on the number of accounts (NoA), the five largest credit products are Contract-Based Working Capital Loans, Working Capital Loans, Investment Loans, Working Capital Loans to Cooperatives (On-Lending), and Working Capital Loans to Rural Banks (BPR).

1. **Kredit Modal Kerja Umum (KMKU)**
   KMKU merupakan Pembiayaan Kredit Modal Kerja oleh bank **bjb** bertujuan untuk membiayai biaya operasional dan aktiva lancar yang habis dalam satu siklus usaha yaitu piutang dagang dan persediaan. Angka realisasi Kredit Modal Kerja Umum setiap tahunnya rata-rata bertahan di angka *outstanding* Rp2 triliun dengan angka posisi NoA rata-rata 600.

2. **Kredit Modal Kerja Kontrak (KMKK)**
   a. Kredit Modal Kerja Kontrak atau selanjutnya disebut KMKK adalah fasilitas Kredit Modal Kerja Kontrak yang diberikan antara lain untuk membiayai kebutuhan modal kerja debitur yang memperoleh kontrak pengadaan/jasa atau penyelesaian suatu proyek dalam rangka pelaksanaan jasa konstruksi
   b. Angka realisasi Kredit KMKK setiap tahunnya rata-rata bertahan di angka *outstanding* Rp2 Triliun dengan angka posisi NoA rata-rata 1000. Di tahun 2025 baik OS maupun NoA mengalami penurunan disebabkan terdapatkan efisiensi anggaran belanja Pemerintah Daerah untuk dialokasikan kepada sektor strategis lainnya
3. **Kredit Modal Kerja BPR**
   a. Kredit Modal Kerja BPR adalah fasilitas kredit yang disalurkan untuk Bank Perkreditan Rakyat (BPR) dengan skema pembayaran pokok dan bunga dilakukan secara berkala dalam jumlah dan jangka waktu.
   b. Kredit Modal Kerja BPR selama 5 (lima) tahun terakhir mengalami fluktuatif, dimana *trend* pada tahun 2024 hingga 2025 bank **bjb** lebih selektif dalam penyaluran kredit kepada BPR sebagai bentuk mitigasi atas ketidakpastian kondisi ekonomi global yang berdampak pada Melambatnya pertumbuhan kredit perbankan secara umum, termasuk segmen BPR. *Tren* peningkatan NPL BPR yang terjadi setelah berakhirnya beberapa ketentuan relaksasi kredit pandemi Covid-19 pada Maret 2024, yang berdampak pada kinerja keuangan BPR sehingga dalam kinerja dan ekspansinya pada saat itu di samping melakukan restrukturisasi kepada Debitur yang mengalami penurunan kinerja serta melakukan filter analisa yang lebih mendalam dan berhati – hati untuk menjaga pertumbuhan segmen Kredit Modal Kerja BPR agar tetap sehat. Secara YoY (2021 – 2025) mengalami penurunan angka outstanding kredit namun masih tetap berada pada posisi 5 (lima) besar, hal ini lebih dikarenakan iklim bisnis BPR sedang dalam kondisi *sunset industry*.
4. **Kredit *Cash Collateral***
   a. Kredit *Cash Collateral* merupakan Fasilitas Kredit yang digunakan untuk membiayai kebutuhan modal kerja debitur dengan syarat agunan tambahan adalah *Cash Collateral* antara lain berupa Giro, Tabungan, Deposito serta Surat Berharga Negara.

1. **General Working Capital Loans (KMKU)**
   KMKU is a Working Capital Loan facility provided by the bank **bjb** to finance operational expenses and current assets that are utilized within one business cycle, such as trade receivables and inventories. The realization of General Working Capital Loans each year has remained relatively stable, with an average outstanding balance of around IDR2 trillion and an average Number of Accounts (NoA) of approximately 600.
2. **Contract-Based Working Capital Loans (KMKK)**
   a. Contract-Based Working Capital Loans, hereinafter referred to as KMKK, are working capital loan facilities provided to finance the working capital needs of borrowers who have obtained procurement/service contracts or project completion contracts, particularly in the implementation of construction services.
   b. The realization of KMKK loans each year has averaged an outstanding balance of approximately IDR2 trillion, with an average NoA of around 1,000. In 2025, both the outstanding balance and NoA experienced a decline due to the efficiency of regional government expenditure budgets, which were reallocated to other strategic sectors.
3. **Working Capital Loans to Rural Banks (BPR)**
   a. Working Capital Loans to BPR are credit facilities extended to Rural Banks (BPR) with repayment schemes where principal and interest are paid periodically within specified amounts and tenors.
   b. Over the past five (5) years, Working Capital Loans to BPR have shown fluctuations. In 2024–2025, the bank **bjb** adopted a more selective lending approach to BPR as part of mitigation measures against global economic uncertainty, which affected the overall slowdown in banking loan growth, including the BPR segment. The upward trend in BPR NPL levels following the expiration of several COVID-19 credit relaxation policies in March 2024 also impacted BPR financial performance. Consequently, the Bank implemented restructuring for borrowers experiencing declining performance while strengthening its credit assessment process to ensure prudent growth in the BPR working capital loan segment. On a year-on-year basis (2021–2025), the outstanding loan balance declined but remained among the top five products, largely due to the business environment of the BPR sector currently being considered a sunset industry.
4. **Cash Collateral Loans**
   a. Cash Collateral Loans are credit facilities used to finance borrowers' working capital needs, with additional collateral in the form of cash collateral, such as current accounts, savings accounts, time deposits, and Government Securities.

b. Angka realisasi Kredit *Cash Collateral* setiap tahunnya rata-rata bertahan di angka *outstanding* Rp2 triliun dengan angka posisi NoA rata-rata 100.

5. **Kredit Investasi Umum (KIU)**
   a. KIU merupakan pembiayaan yang diberikan oleh bank **bjb** untuk membiayai kebutuhan barang-barang modal atau aktiva tetap dalam rangka rehabilitasi, modernisasi, ekspansi (perluasan), relokasi maupun *project financing* atau *refinancing*.
   b. Angka realisasi Kredit Modal Kerja Umum setiap tahunnya mengalami peningkatan dan posisi tertinggi pada tahun 2025 dengan total *outstanding* Rp1,1 triliun dengan peningkatan NoA di tahun 2025 sejumlah 444.

Keunggulan Layanan Kredit Komersial

Keunggulan layanan Kredit Komersial adalah sebagai berikut:

1. Divisi Komersial memiliki produk **bjb** KKI Segmen Pemerintah yang dikelola secara mandiri tidak bersifat *co-branding* dan telah melayani seluruh kebutuhan transaksi non tunai belanja Modal dan SPJ Pemerintah Daerah Jawa Barat dan Banten melalui *payment* QRIS dan Kartu Fisik sejak tahun 2023 dan menjadi Bank dengan transaksi non tunai tertinggi. Di tahun 2025 bank **bjb** telah memperoleh persetujuan dari Bank Indonesia untuk penyelenggaraan transaksi KKI *Online Payment*.
2. Pelayanan tersebar di seluruh 64 Kantor Cabang, 5 (lima) Kantor Wilayah dan Kantor Pusat di seluruh Indonesia, menjangkau seluruh area target market komersial yang potensial.
3. Pemisahan fungsi antara Bisnis, Risk (*four eyes principle*) serta operasional mempercepat pelayanan dan meminimalisir pelampauan SLA kredit.
4. Digitalisasi proses permohonan dan pengecekan keabsahan garansi bank secara *online* yang terpusat untuk pelayanan kepada penerima jaminan contoh yang sudah berjalan garansi bank online kepada Perguruan Tinggi Negeri dimana pada tahun 2025 Divisi Komersial memperluas fitur produk dengan pelayanan garansi bank untuk proyek APBD.
5. Tahun 2025 Divisi Komersial mengembangkan khusus produk kredit Segmen Pemerintah agar lebih optimal untuk memberikan kontribusi dan berpartisipasi sebagai penggerak dan pendorong laju perekonomian Daerah serta menjadi partner utama Pemerintah Daerah dalam pengelolaan keuangan.

Pengembangan Produk dan Layanan Kredit Komersial

Uraian pengembangan produk dan layanan Kredit Komersial adalah sebagai berikut:

1. Divisi Komersial pada Tahun 2025 melakukan pengembangan lanjutan fase ke-3 Kartu Kredit Indonesia

b. The realization of Cash Collateral Loans each year has remained relatively stable, with an average outstanding balance of around IDR2 trillion and an average NoA of approximately 100.

5. **General Investment Loans (KIU)**
   a. KIU represents financing provided by the bank **bjb** to support capital expenditure or fixed asset investments for purposes such as rehabilitation, modernization, expansion, relocation, project financing, or refinancing.
   b. The realization of General Investment Loans has shown a consistent upward trend each year, reaching its highest position in 2025 with a total outstanding balance of IDR1.1 trillion and an increase in NoA to 444 accounts in the same year.

Advantages of Commercial Loan Service

The advantages of Commercial Loan services are as follow:

1. The Commercial Division manages the **bjb** KKI Government Segment product, which is operated independently and is not co-branded. Since 2023, this product has facilitated all non-cash capital expenditure transactions and financial accountability reports (SPJ) of the Regional Governments of West Java and Banten through QRIS payments and physical cards, making bank **bjb** the bank with the highest non-cash transaction volume in this segment. In 2025, bank **bjb** also obtained approval from Bank Indonesia to implement KKI Online Payment transactions.
2. Services are spread across 64 Branch Offices, 5 (five) Regional Offices and Head Offices throughout Indonesia, reaching all potential commercial target market areas.
3. Separation of functions between business, risk (four eyes principle) and operations accelerates service and minimizes loan SLA exceedances.
4. Digitalization of the application process and verification of the validity of bank guarantees through a centralized online system to enhance services for guarantee beneficiaries. One example already implemented is the online bank guarantee service for State Universities. In 2025, the Commercial Division further expanded the product features by providing bank guarantee services for Regional Budget (APBD) projects.
5. In 2025, the Commercial Division also developed specific credit products for the Government Segment to further optimize contributions and actively participate as a driver of regional economic growth, while strengthening bank **bjb**'s role as a key partner for Regional Governments in financial management.

Commercial Loan Service Product Development

The description of commercial loan service product development is as follow:

1. In 2025, the Commercial Division carried out the further development of Phase 3 of the Indonesian Credit Card

(KKI) Segmen Pemerintah untuk transaksi *Online Payment* (CPTS) dimana sebelumnya transaksi pembayaran menggunakan Qris dan Kartu Fisik sudah selesai dan implementasi dan telah memperoleh persetujuan Bank Indonesia untuk dilakukan implementasi.

2. Divisi Komersial juga telah mengembangkan aplikasi Garansi Bank *Online* yang merupakan layanan yang disediakan Bank bagi *Bouwheer* atau Penerima Jaminan untuk mengajukan permohonan penerbitan Garansi Bank, memantau status penerbitan yang telah diajukan, diterbitkan serta melakukan pengecekan/pencocokan warkat Garansi Bank secara *online* melalui *web based*. Saat ini telah melakukan perluasan jangkauan implementasi untuk Perguruan Tinggi Negeri yang menjalin kerjasama dengan bank **bjb**.
3. Divisi Komersial dalam tahap melakukan *Enhancement* aplikasi LMS dengan pengembangan *New Design* LMS segmen komersial sebagai *tools* dalam proses pemberian kredit yang dapat mengakomodir seluruh kebutuhan dalam proses bisnis segmen komersial untuk tahap 2 yaitu produk fasilitas Garansi Bank.
4. Divisi Komersial telah mengembangan aplikasi *Distributor Financing* yaitu suatu aplikasi yang dapat mempertemukan antara Principal/main distributor, Distributor dan/atau Sub Distributor dan bank dimana aplikasi ini berfungsi sebagai alat yang memberikan kemudahan dalam proses permohonan pencairan fasilitas kredit oleh distributor dan juga monitoring *invoice* oleh *principal* dengan nama aplikasi *Distributor Financing* berbasis *web* yang dapat diakses secara *online* (*DF Online*).

(KKI) for the Government Segment for Online Payment (CPTS) transactions. Previously, payment transactions through QRIS and physical cards had been completed and implemented. The Bank has also obtained approval from Bank Indonesia to proceed with the implementation of this online payment transaction feature.

2. The Commercial Division has also developed the Online Bank Guarantee application, a service provided by the Bank for Bouwheer or guarantee beneficiaries to submit applications for the issuance of bank guarantees, monitor the issuance status of submitted guarantees, and conduct verification/matching of bank guarantee documents online through a web-based platform. Currently, the implementation coverage has been expanded to include State Universities that have established cooperation with bank **bjb**.
3. The Commercial Division is currently in the process of enhancing the Loan Management System (LMS) application through the development of a New Design LMS for the Commercial Segment as a tool in the credit approval process. This enhancement is intended to accommodate all business process requirements of the commercial segment, particularly Phase 2 development for Bank Guarantee facility products.
4. The Commercial Division has also developed the Distributor Financing application, a platform designed to connect principals/main distributors, distributors and/or sub-distributors, and the Bank. This application serves as a tool that facilitates the credit facility disbursement application process for distributors and enables invoice monitoring by principals. The application is web-based and accessible online under the name Distributor Financing Online (DF Online).

Produktivitas Kredit Komersial

Uraian ringkasan kinerja selama 5 (lima) tahun terakhir yaitu sebagai berikut:

Commercial Loan Productivity

Performance summary descriptions for the last 5 (five) years were as follows:

Tabel Ringkasan Kinerja Kredit Komersial
Table of Commercial Loan Performance Summary

(dalam jutaan Rupiah / in IDR million)

Uraian	2025	2024	2023	2022	2021	Pertumbuhan Growth 2024-2025		Description
						Nominal	%	
Outstanding	**9,188,513**	10,550,685	10,743,367	10,945,148	9,929,126	(1,362,172)	(12.91%)	Outstanding

Outstanding Kredit Komersial tahun 2025 sebesar Rp9,19 triliun, menurun dibandingkan tahun 2024 yang sebesar

Outstanding Commercial Loans in 2025 amounted to IDR9.19 trillion, declining from IDR10.55 trillion in 2024. This condition

Rp10,55 triliun. Hal ini antara lain dipengaruhi oleh segmen KMKK yang merupakan bisnis *cyclical* (musiman) sehingga portofolio cenderung tidak stabil. Oleh karenanya diperlukan diversifikasi portofolio Kredit Komersial yang lebih beragam agar dapat dijadikan penopang pertumbuhan bisnis Kredit Komersial.

was partly influenced by the KMKK segment, which represents a cyclical (seasonal) business, resulting in a relatively unstable portfolio. Therefore, a more diversified Commercial Loan portfolio is required to support the sustainable growth of the Commercial Loan business

Faktor Pendukung dan Penghambat Bisnis Kredit Komersial

Uraian faktor pendukung dan penghambat bisnis Kredit Komersial adalah sebagai berikut:

1. **Faktor Pendukung**
   a. Kebijakan Strategi Pemerintah dalam mendorong pertumbuhan ekonomi yang membuka peluang cukup besar untuk Perbankan khususnya Divisi Komersial dapat menyalurkan dana kredit baik modal kerja maupun investasi bagi sektor usaha Pemerintah maupun Swasta.

Supporting and Inhibiting Factors of Commercial Loan Business

The description of the supporting and inhibiting factors for the Commercial Loan business is as follows:

1. **Supporting Factors**
   a. The government's strategic policy in encouraging economic growth that opens up quite large opportunities for banking, especially the Commercial Division, to channel loan funds for both working capital and investment for the government and private business sectors.

b. Secara *positioning* bank **bjb** sebagai Bank Daerah Provinsi Jawa Barat dan sebagian Kota dan Kabupaten Banten secara tidak langsung memiliki potensi pembiayaan kepada rekanan Pemerintah dalam hal pembiayaan modal kerja kepada para Kontraktor yang mendapatkan pekerjaan konstruksi maupun pengadaan dari Pemerintah (Sumber Dana APBD Setempat).
c. Keberagaman produk kredit Komersial menjadi salah satu faktor pendukung dapat meratanya penyaluran kredit komersial diseluruh wilayah Kantor Cabang bank **bjb** dengan potensi masing-masing wilayah yang berbeda-beda sebagai contoh Wilayah 1, 3 dan 4 merupakan wilayah penyaluran potensi KMKK, sedangkan wilayah 2 dan 5 lebih banyak potensi untuk industrl ritel dengan potensi transaksi product holding yang cukup besar.
d. *Capacity Planning* ketersediaan *Account Officer* Komersial yang berfungsi sebagai hunter dalam mencari pipeline baik di Kantor Cabang, Kantor Wilayah dan Kantor Pusat sudah tercukupi sehingga untuk keseluruhan limit kredit sudah mempunyai ketersediaan SDM yang menangani dalam hal pemasaran.
e. Ketersediaan ketentuan sebagai acuan dalam proses penyaluran kredit Komersial, baik SOP, Manual Produk, Petunjuk Teknis serta acuan *pricing* ikut mendukung dalam ketercapaian target penyaluran kredit yang berkualitas.

2. **Faktor Penghambat**
a. Kualitas kredit menjadi salah satu tantangan signifikan di tahun 2025. Beberapa indikator menunjukkan adanya tekanan pada portofolio, termasuk peningkatan *Loan at Risk* (LAR) yang mencerminkan tingginya eksposur risiko pada portofolio kredit.
b. kehati-hatian pelaku usaha untuk ekspansi. Faktor pendukung lainnya termasuk suku bunga yang relatif tinggi, ketidakpastian geopolitik global (seperti dampak kebijakan tarif AS), serta tingginya kredit macet, terutama di sektor UMKM dan korporasi tertentu.
c. Menurunnya daya beli Masyarakat dan kehati-hatian pelaku usaha untuk ekspansi, menyebabkan efek *supply* yang lebih tinggi dibandingkan *demand*. Faktor pendukung lainnya termasuk persaingan suku bunga, ketidakpastian geopolitik global (seperti dampak kebijakan tarif AS) membuat beberapa *repayment capacity* sebagian pelaku usaha khususnya di sektor ritel yang ikut menurun, sehingga dibeberapa case kredit yang telah berjalan perlu dilakukan restrukturisasi terkait pola pembayaran bunga mengikuti kemampuan bayar, kinerja dan prospek usaha Debitur.
d. Pelaku usaha bersikap wait and see yang menyebabkan undisbursed loan tinggi dan memilih menggunakan dana internal dibandingkan optimalisasi penarikan

b. In terms of positioning bank **bjb** as a Regional Bank of West Java Province and some of the City and Regency of Banten, it indirectly has the potential for financing to government partners in terms of working capital financing to contractors who get construction work or procurement from the government (source of funds from the local APBD).
c. The diversity of Commercial loan products is one of the supporting factors for the distribution of commercial loan throughout the bank **bjb** Branch Office area with the potential of each region being different, for example, regions 1, 3 and 4 are areas for distributing potential KMKK, while regions 2 and 5 have more potential for the retail industry with the potential for quite large product holding transactions.
d. Capacity planning, the availability of commercial account officers who function as hunters in finding pipelines both at branch offices, regional offices and head offices has been met so that for the entire loan limit there is already the availability of HR who handle marketing.
e. The availability of provisions as a reference in the Commercial loan distribution process, including SOPs, product manuals, technical instructions and pricing references, also supports the achievement of quality loan distribution targets.

2. **Inhibiting Factors**
a. Loan quality is one of the significant challenges in 2025. Several indicators show pressure on the portfolio, including an increase in Loan at Risk (LAR) which reflects the high risk exposure in the loan portfolio.
b. Business players also demonstrated a more cautious approach toward expansion. Other contributing factors included relatively high interest rates, global geopolitical uncertainties (such as the impact of U.S. tariff policies), as well as increasing non-performing loans, particularly in the MSME and certain corporate sectors.
c. The decline in people's purchasing power or the effect of supply being higher than demand has caused some repayment capacities of some business actors, especially in the retail sector, to also decline, so that in several cases of loan that has been running, restructuring is needed related to the interest expenses payment pattern following the debtor's ability to pay, performance and business prospects.
d. Business players adopted a *wait-and-see* approach, resulting in relatively high undisbursed loans and a preference to utilize internal funds rather than

fasilitas kredit. Hal ini dominan terjadi pada sektor usaha Perdagangan Besar dan Eceran yang masih memiliki *available limit* pagu tertinggi selama tahun 2025.

e. Persaingan terkait besaran bunga kredit, dimana Bank Himbara berani menawarkan s*ingle digit* dengan persyaratan seluruh transaksi usaha baik dana dan kredit juga ada di Bank yang sama. Hal ini menjadi tantangan bagi Divisi Komersial untuk lebih meningkatkan pencapaian product holding agar bisa bersaing dengan bank Himbara apabila akan menyamakan suku bunga kredit yang ditawarkan.

Rencana dan Strategi Kredit Komersial Tahun 2026

Uraian rencana dan strategi Kredit Komersial yang akan dilakukan pada tahun 2026 adalah sebagai berikut:

1. ***Zero Flow (Quality First) and Zero Fraud (Governance)***
   a. ***Zero Flow*, tidak ada pemburukan kualitas kredit pada portofolio existing**
      - Tekan *flow rate* penurunan kolektibilitas (*early bucket* dan NPL).
      - Lakukan *review*/EWS atas seluruh *top exposure*/ sektor prioritas.
      - Identifikasi dini wajib, bukan reaktif setelah kredit bermasalah untuk memotong proses *flow* diawal. Disiplin EWS dan *watchlist* dengan *action plan.*

   b. ***Zero Fraud*, penguatan *control end to end process***
      - Penguatan fungsi disiplin kepegawaian pada account yang mengalami FPD
      - Pemenuhan fungsi *Quality Assurance* (QA) dalam jenjang pusat dan wilayah untuk memastikan fungsi pengawasan melalui sampling langsung berjalan.
2. ***Zero Flow (Quality First) and Zero Fraud (Governance)***
   a. Kurangi ketergantungan pada sektor/segmen tertentu.
   b. Strategi ekspansi kredit yang *targeted* untuk sektor prioritas
      - Fokus kepada pertumbuhan di sektor berpotensi tinggi seperti perdagangan, manufaktur, infrastruktur, edukasi, agrikultur dengan menempatkan bank **bjb** sebagai *entry point* untuk memberikan solusi keuangan yang terintegrasi melalui *cross selling* dan *bundling*.
      - *Alignment* dengan program strategis pemerintah (MBG, Pembangunan Infrastruktur melalui Pinjaman Daerah, KPBU dan *secure* program lainnya)
      - *Optimize relation group and project* (pembiayaan distributor *financing*, ekosistem *anchor customer* dan lainya).

optimizing the drawdown of credit facilities. This condition predominantly occurred in the Wholesale and Retail Trade sector, which maintained the highest available credit limit throughout 2025.

e. Competition related to the amount of loan interest, Bank Himbara dares to offer single digits with the requirement that all business transactions, both funds and loan, are also in the same bank. This is a challenge for the Commercial Division to further improve the achievement of product holding in order to compete with Bank Himbara if it will equalize the loan interest rates offered.

Commercial Loan Plans and Strategies for 2026

The description of Commercial Loan plans and strategies to be carried out in 2026 is as followst:

1. **Zero Flow (Quality First) and Zero Fraud (Governance)**
   a. **Zero Flow, ensuring no deterioration in the quality of the existing loan portfolio**
      - Suppress the flow rate of collectibility deterioration (early bucket and NPL).
      - Conduct reviews and Early Warning System (EWS) monitoring on all top exposures and priority sectors.
      - Early identification must be mandatory, rather than reactive actions after loans become problematic, in order to cut the flow process at an early stage. Strict implementation of EWS and watchlist monitoring is supported by clearly defined action plans.

   b. **Zero Fraud, strengthening end-to-end control processes**
      - Strengthening employee disciplinary functions for accounts experiencing First Payment Default (FPD).
      - Ensuring the implementation of the Quality Assurance (QA) function at both Head Office and Regional levels to ensure supervisory functions through direct sampling are properly carried out.
2. **Zero Flow (Quality First) and Zero Fraud (Governance)**
   a. Reduce dependency on certain sectors or segments.
   b. Targeted credit expansion strategy for priority sectors
      - Focus on growth in high-potential sectors such as trade, manufacturing, infrastructure, education, and agriculture, by positioning bank **bjb** as an entry point to provide integrated financial solutions through cross-selling and bundling strategies.
      - Alignment with the Government's strategic programs, including Free Nutritious Meals (MBG), infrastructure development through Regional Loans, Public-Private Partnership (PPP/KPBU) schemes, and other secured programs
      - Optimize group relationships and project financing, including distributor financing schemes, anchor customer ecosystems, and other related initiatives.

c. Memperkuat *syndicated loan practice* melalui sindikasi pinjaman daerah dengan BPD lain.

d. Penyusunan *playbook* sektor sebagai *guideline* dan menjadi *one stop solution gateway* bagi nasabah dengan penetrasi *business upstream*, *midstream* dan *downstream*.

3. ***Business Process Reengineering***
   a. Implementasi *Loan factoring* melalui *piloting* pembentukan *commercial business center*.

   b. *Loan factoring* sebagai upaya menguatkan standarisasi kualitas dan control, akselerasi proses, percepatan diversifikasi bisnis dan sebagai media *breeding* SDM komersial.

   c. Intensifikasi *capacity building*, *refreshment product* dan *sharing session* pada seluruh level SDM Komersial.

   d. Boosting kinerja melalui program *rewarding*.

   e. Memberikan waktu layanan yang lebih singkat dan *on point* sehingga menciptakan *customer journey* yang lebih puas dan loyal.
   f. Meningkatkan *employee experience* dan kultur baru sehingga berpotensi menghilangkan pekerjaan berulang.

c. Strengthen syndicated loan practices through regional loan syndications with other Regional Development Banks (BPDs).
d. Develop sector-specific playbooks as operational guidelines and as a one-stop solution gateway for customers, with business penetration across the upstream, midstream, and downstream value chains.

3. **Business Process Reengineering**
   a. Implementation of loan factoring through pilot projects involving the establishment of a Commercial Business Center.
   b. Loan factoring is intended to strengthen quality standardization and control mechanisms, accelerate processes, expedite business diversification, and serve as a platform for developing commercial banking talent.
   c. Intensification of capacity building programs, product refreshment initiatives, and knowledge-sharing sessions across all levels of Commercial human capital.
   d. Performance boosting through structured rewarding programs.
   e. Deliver faster and more precise service turnaround times to create a more satisfying and loyal customer journey.
   f. Enhance employee experience and foster a new organizational culture that has the potential to eliminate repetitive work processes.

USAHA MIKRO KECIL DAN MENENGAH (UMKM)

Penjelasan Kredit UMKM

Produk kredit UMKM di tahun 2025 terdiri dari Kredit Mikro Utama (KMU), Kredit Usaha Kecil Menengah (KUKM), Kredit Skema Subsidi Resi Gudang (SSRG), Kredit Usaha Rakyat (KUR), Kredit **bjb** Masyarakat Ekonomi Sejahtera (**bjb** Mesra), Kredit Program Perumahan (KPP), Kredit Usaha Alat dan Mesin Pertanian (Alsintan).

Penjelasan masing-masing produk Kredit UMKM telah disajikan pada bagian Profil Sub Bab Produk dan Jasa dalam Laporan Tahunan ini.

Keunggulan Layanan Kredit UMKM

Beberapa keunggulan layanan dari Kredit UMKM adalah sebagai berikut:

1. **PESAT**
   Program Pemberdayaan Ekonomi Masyarakat Terpadu (PESAT) adalah program pemberdayaan pelaku usaha baik untuk masyarakat maupun debitur kredit UMKM. Program ini telah berjalan semenjak tahun 2015 dijalankan oleh Divisi Kredit UMKM. Program ini bertujuan untuk meningkatkan kompetensi pelaku usaha dan peluang pengembangan kapasitas usaha. Pada tahun 2025 terdapat beberapa perkembangan program PESAT yaitu:

MICRO, SMALL AND MEDIUM ENTERPRISES (MSME)

MSME Loan Explanation

MSME loan products in 2025 consisted of Kredit Mikro Utama (KMU), Small and Medium Enterprise Loans (KUKM), the Warehouse Receipt System Subsidy Scheme Loan (SSRG), Kredit Usaha Rakyat (KUR), **bjb** Masyarakat Ekonomi Sejahtera Loan (**bjb** Mesra), Housing Program Loans (KPP), and Agricultural Machinery and Equipment Loans (Alsintan).

An explanation of each MSME Loan product has been presented in the Profile section of the Product and Services Sub-Chapter in this Annual Report.

MSME Loan Services Advantages

Several service advantages offered under MSME Loans are as follows:

1. **PESAT**
   The Integrated Community Economic Empowerment Program (PESAT) is an empowerment initiative designed for business actors, both for the general public and MSME loan debtors. The program has been implemented since 2015 and is managed by the MSME Credit Division. PESAT aims to enhance the competencies of business actors and expand opportunities for business capacity development. In 2025, several developments were introduced under the PESAT program, including the following:

a. ***Customer Loyalty Programme* (CLP)**
Adalah program *benefit* bagi debitur UMKM eksisting terpilih yang bertujuan untuk memberikan apresiasi atau penghargaan kepada debitur eksisting, serta memelihara dan meningkatkan kesetiaan debitur dalam menggunakan fasilitas atau layanan bank **bjb** baik itu fasilitas kredit UMKM maupun layanan perbankan lainnya. Pada bulan Mei 2025, telah dilaksanakan gebyar selebrasi pemenang CLP periode penilaian tahun 2024 bersamaan dengan selebrasi HUT bank **bjb** ke 64 tahun. CLP 2024 diikuti oleh 1.595 debitur terpilih dari seluruh Kantor Regional dan ditetapkan sebanyak 6 (enam) debitur UMKM sebagai pemenang CLP pada akhir periode di tahun 2024, dengan memperoleh *benefit* berupa *branding* atau pemberian perlengkapan penunjang kegiatan usaha, berikut daftar debitur pemenang.

a. **Customer Loyalty Programme (CLP)**
The Customer Loyalty Programme (CLP) is a benefit program for selected existing MSME debtors aimed at providing appreciation and recognition to loyal customers, while also maintaining and enhancing customer loyalty in utilizing bank **bjb**'s services, including MSME loan facilities as well as other banking services. In May 2025, the CLP winners celebration for the 2024 assessment period was held in conjunction with the 64th anniversary celebration of bank **bjb**. The CLP 2024 program was participated in by 1,595 selected debtors from all Regional Offices. At the end of the 2024 assessment period, six (6) MSME debtors were designated as CLP winners and received benefits in the form of branding support or business equipment to support their business activities.

3. **DiSentra**

Aplikasi **bjb** Disentra (Digital Sistem Informasi dan interaksi) adalah salah satu inovasi Divisi Kredit UMKM diawali dengan rintisan pada bulan juli tahun 2020, pada tahun 2021 aplikasi **bjb** Disentra telah dilakukan switching dengan semula berbasis web menjadi berbasis android. Untuk Tahun 2025 telah memasuki IOS. Pada tahun 2025 Aplikasi Disentra sudah digunakan oleh 6.771 user. Aplikasi **bjb** Disentra adalah sebuah Aplikasi yang dibuat oleh Divisi Kredit UMKM untuk menjadikan "ruang"aktivitas bagi pelaku UMKM baik debitur maupun non debitur. **bjb** Disentra adalah singkatan dari Digital Sistem Edukasi dan Interaksi. Penamaan SENTRA diambil juga dari nama aktivitas Kantor Fungsional Non Operasional (KFNO) yang dimiliki oleh Divisi kredit UMKM untuk menjalankan program PESAT (Pemberdayaan Ekonomi Masyarakat Terpadu). Nama aplikasi **bjb** Disentra dipilih untuk memudahkan pelaku umkm/masyarakat umum bisa mencerna dan mengingat karena terasosiasi dengan nama tempat untuk pusat segala informasi dan interaksi, hanya saja dalam platform digital. **bjb** Disentra memiliki fitur-fitur yang sangat mendukung pemasyarakatan pengetahuan kewirausahaan dan percepatan pelaku UMKM untuk naik kelas, baik secara pengetahuan, jejaring maupun dukungan perluasan pemasaran

3. **DiSentra**

The **bjb** Disentra Application (Digital System for Information and Interaction) is one of the innovations developed by the MSME Credit Division. The initiative began as a pilot project in July 2020, and in 2021 the application was migrated from a web-based platform to an Android-based platform. In 2025, the application was further expanded with the introduction of the iOS version. As of 2025, the **bjb** Disentra Application has been utilized by 6,771 users. The **bjb** Disentra Application was developed by the MSME Credit Division as a digital platform that serves as a "virtual space" for MSME players, both debtors and non-debtors, to engage in various activities. Disentra stands for Digital System for Education and Interaction. The name "Sentra" is also derived from the activities of the Non-Operational Functional Office (KFNO) operated by the MSME Credit Division to implement the PESAT (Integrated Community Economic Empowerment Program). The name **bjb** Disentra was chosen to make it easier for MSME players and the general public to recognize and remember, as it is associated with the concept of a central hub for information and interaction, albeit delivered through a digital platform. The **bjb** Disentra Application offers a variety of features that support the dissemination of entrepreneurial knowledge and accelerate the development of MSME players to move up the business value chain, particularly in terms of knowledge enhancement, networking opportunities, and support for expanding market access.

4. **Aktual (Akuntansi untuk UMKM Handal)**
   Aplikasi Aktual (Akuntansi untuk UMKM Handal) adalah aplikasi pembukuan/pencatatan keuangan secara digital yang diperuntukan untuk para pelaku UMKM baik debitur maupun non Debitur. Manfaat Aplikasi ini bagi para pelaku UMKM diantaranya ;para pelaku UMKM dapat memiliki kasir digital untuk penjualan, memiliki pencatatan pengeluaran, memiliki *stock/inventory management*, dan memiliki aplikasi laporan keuangan standar akuntansi (PSAK).

   Pada tahun 2025 *user* pelaku UMKM pada aplikasi Cakap sebanyak 1.825 *user*. Dengan adanya aplikasi ini bank **bjb** terus berupaya untuk terus melakukan pemberdayaan pada para pelaku UMKM tentang pentingnya pencatatan keuangan usaha guna menunjang peningkatan kapasitas usaha para pelaku UMKM.

5. ***Cash Pick Up***
   Selain memberikan fasilitas pembiayaan dengan tujuan modal kerja dan investasi untuk seluruh pelaku usaha UMKM sesuai kriteria yang ingin mengembangkan usahanya, produk dan layanan Kredit UMKM juga memiliki banyak kelebihan diantaranya adalah layanan jemput angsuran (*cash pick up*) sesuai kondisi dan permintaan debitur

Pengembangan Produk Layanan Kredit UMKM

Pengembangan produk dan layanan Kredit UMKM diuraikan sebagai berikut:

1. **Kredit Mikro Utama (KMU)**
   Calon nasabah yang dapat menikmati fasilitas Kredit Mikro Utama dari bank **bjb** adalah para pelaku usaha perorangan, Badan Usaha (PT, CV) dan Badan Usaha Milik Desa (BUMDES) dalam sektor ekonomi produktif yang masuk kategori Usaha Mikro Kecil dan Menengah seperti pengusaha kecil, pedagang, wirausaha, wiraswasta produktif (khusus perorangan) yang saat ini aktif menjalankan usahanya minimal 1 (satu) tahun.

   Keunggulan produk KMU adalah:
   - Suku bunga lebih ringan dibanding produk sejenis milik kompetitor
   - Persyaratan mudah
   - Jangka waktu kredit fleksibel

2. **Kredit Usaha Kecil Menengah (KUKM)**
   Calon nasabah yang dapat menikmati fasilitas Kredit Usaha Kecil Menengah dari bank **bjb** adalah para pelaku usaha perorangan (termasuk PD/UD) dan Badan Usaha (PT, CV) dalam sektor ekonomi produktif yang masuk kategori Usaha Kecil dan Menengah seperti pengusaha kecil, pedagang, wirausaha, wiraswasta produktif (khusus perorangan) yang saat ini aktif menjalankan usahanya minimal 3 tahun.

4. **Aktual (Reliable Accounting for MSMEs)**
   The AKTUAL Application (Reliable Accounting for MSMEs) is a digital bookkeeping and financial recording application designed for MSME players, both debtors and non-debtors. This application provides various benefits for MSME players, including a digital cashier system for sales transactions, expense recording, stock and inventory management, as well as financial reporting features in accordance with applicable accounting standards (PSAK).

   In 2025, the number of MSME users utilizing the AKTUAL application reached 1,825 users. Through this application, bank **bjb** continues to strengthen its commitment to empowering MSME players by promoting the importance of proper financial record-keeping to support the improvement of their business capacity.

5. **Cash Pick Up**
   In addition to providing financing facilities aimed at supporting working capital and investment needs for MSME business actors who meet the applicable criteria and seek to expand their businesses, MSME loan products and services also offer various advantages. One of these advantages is the installment collection service (cash pick-up), which allows the Bank to collect loan installments directly from debtors based on their conditions and requests.

Development of MSME Loan Service Products

The development of MSME loan products and services is described as follows:

1. **Primary Micro Loan (KMU)**
   Prospective customers eligible for the Kredit Mikro Utama (KMU) facility from bank **bjb** include individual business actors, business entities (PT, CV), and Village-Owned Enterprises (BUMDes) operating in productive economic sectors categorized as Micro, Small, and Medium Enterprises (MSMEs), such as small entrepreneurs, traders, and productive self-employed individuals (for individual applicants). Eligible applicants must have been actively operating their businesses for at least one (1) year.
   Key advantages of the KMU product include:
   - More competitive interest rates compared to similar products offered by competitors
   - Simplified requirements
   - Flexible loan tenors

2. **Small and Medium Enterprise Loans (KUKM)**
   Prospective customers eligible for the Kredit Usaha Kecil Menengah (KUKM) facility from bank **bjb** include individual business actors (including PD/UD) and business entities (PT, CV) operating in productive economic sectors categorized as Small and Medium Enterprises, such as small entrepreneurs, traders, and productive self-employed individuals (for individual applicants), who have been actively operating their businesses for at least three (3) years.

Keunggulan produk UKM adalah:
- Suku bunga bersaing
- Sistem pembayaran angsuran bervariasi
- Kredit Angsuran Berjangka (KAB) /angsuran / *Installment*
- KMK R/C Terbatas
- Kredit Rekening Koran (KRK)

3. **Kredit usaha Rakyat (KUR)**
Calon nasabah yang dapat menikmati fasilitas Kredit Usaha Rakyat dari bank **bjb** adalah segmen pasar kredit Perorangan atau Badan Usaha produktif berupa usaha mikro, kecil dan menengah dengan usaha telah berjalan minimal 6 bulan. Jenis KUR terdiri dari
- KUR Super Mikro
- KUR Mikro
- KUR Kecil
- KUR Penempatan PMI

Keunggulan produk KUR adalah:
- Suku bunga ringan
- Berlaku untuk seluruh segmen usaha produktif

4. **Kredit Skema Subsidi Resi Gudang (SSRG)**

Skema Subsidi Resi Gudang yang selanjutnya disebut **bjb** SSRG adalah kredit yang mendapatkan Subsidi Bunga dari Pemerintah dengan jaminan Resi Gudang yang diberikan oleh bank **bjb** kepada Petani, Koperasi, Kelompok Tani (Poktan), Gabungan Kelompok Tani (Gapoktan) dan Usaha Produktif Perseorangan/Badan Usaha. Resi Gudang adalah dokumen bukti kepemilikan atas barang yang disimpan di Gudang yang diterbitkan oleh Pengelola Gudang.

Keunggulan produk S-SRG adalah:
- Suku bunga ringan
- Bebas biaya provisi
- Bebas biaya administrasi

5. **Kredit bjb Mesra**
Kredit **bjb** Mesra adalah program pinjaman modal usaha dengan plafond maksimal Rp10.000.000,- (sepuluh juta rupiah) bagi masyarakat yang belum *bankable*. Dengan jangka waktu 6 dan 12 bulan.

Keunggulan produk Mesra adalah:
- Bunga 0%
- Tanpa agunan
- Bebas biaya provisi

6. **Kredit Usaha Alat dan Mesin Pertanian (Alsintan)**
Kredit Usaha Alat dan Mesin Pertanian adalah Kredit Investasi yang dikhususkan untuk pembelian Alat dan Mesin Pertanian yang diusahakan sebagai Taksi Alsintan yang diberikan bank **bjb** kepada UMKM Perseorangan,

Key advantages of the KUKM product include:
- Competitive interest rates
- Various installment payment schemes
- Term Installment Loans (KAB)

- Limited Revolving Working Capital Loans (KMK R/C)
- Overdraft Facilities (KRK)

3. **Usaha Rakyat Loans (KUR)**
Prospective customers eligible for the Kredit Usaha Rakyat (KUR) facility from bank **bjb** include individual or business entities operating productive MSME businesses, with business operations running for at least six (6) months.
Types of KUR include:
- KUR Super Mikro
- KUR Mikro
- KUR Small
- KUR for PMI Placement

Key advantages of the KUR product include:
- Affordable interest rates
- Applicable to all productive business sectors

4. **Warehouse Receipt System Subsidy Scheme Loan (SSRG)**
The Warehouse Receipt System Subsidy Scheme (SSRG), hereinafter referred to as **bjb** SSRG, is a loan facility that receives interest subsidies from the Government, secured by Warehouse Receipts. This facility is provided by the Bank to farmers, cooperatives, farmer groups (Poktan), farmer group associations (Gapoktan), and productive individual/business entities. A Warehouse Receipt is a document representing proof of ownership of goods stored in a warehouse and issued by a certified warehouse operator.
Key advantages of the SSRG product include:
- Affordable interest rates
- No provision fees
- No administrative fees

5. **bjb Mesra Loan**
The **bjb** Mesra Loan is a business capital financing program with a maximum plafond of IDR10,000,000 (ten million rupiah) intended for communities that are not yet bankable, with loan tenors of 6 and 12 months.

Key advantages of the Mesra product include:
- 0% interest rate
- No collateral required
- No provision fees

6. **Agricultural Machinery and Equipment Loan (Alsintan)**
The Agricultural Machinery and Equipment Loan (Alsintan) is an investment loan specifically designed to finance the purchase of agricultural machinery and equipment utilized as Alsintan taxi services. This facility is provided by the

Badan Usaha dan/atau Kelompok Usaha dengan jangka waktu paling lama 5 (lima) tahun.

Keunggulan Produk Kredit Usaha Alat dan Mesin Pertanian adalah:
- Suku bunga ringan
- Persyaratan mudah

7. **Kredit Program Perumahan (KPP)**
Kredit Program Perumahan adalah Kredit Investasi dan/atau Kredit Modal Kerja kepada Usaha Mikro, Kecil dan Menengah (UMKM) kepada Pemohon yang dilakukan dalam rangka mendukung pencapaian program prioritas di bidang perumahan.
Keunggulan Kredit Program Perumahan adalah:
- Suku bunga ringan
- Persyaratan mudah

8. **Pemberdayaan Ekonomi Masyarakat Terpadu (PESAT)**

Pemberdayaan Ekonomi Masyarakat Terpadu (PESAT). PESAT adalah layanan UVP (Unique Value Proposition) sebagai pelengkap pembiayaan UMKM. Program ini dijalankan oleh Divisi Kredit UMKM dengan 3 (tiga) Pilar program yaitu; Pilar pertama Pesat Kapasitas Usaha, Pilar kedua Pesat Wirausaha Baru dan Pilar Ketiga Go Digital. Selama periode Januari sampai dengan Desember 2025, Sentra UMKM Pesat baik melalui program 3 (tiga) Pilar Pesat telah melakukan 3.423 kegiatan, dengan 128.932 penerima manfaat. Melalui kegiatan ini kami menghasilkan pemasaran kredit UMKM dengan Potensi sebesar Rp403.240.926.019,- dari kegiatan eksternal dan Rp52.629.662.408,- dari potensi top up debitur kelolaan penerima manfaat program PESAT.

a. **PESAT Kapasitas Usaha**
Pilar PESAT kapasitas usaha ini bertujuan untuk meningkatkan skala usaha (scale up) pelaku UMKM untuk naik kelas, yang ditandai dengan kenaikan aset dan omzet. Jenis program pada pilar ini dilakukan dengan sasaran; peningkatan pengetahuan, sikap dan keterampilan serta kesempatan perluasan pasar. Sejumlah 61.079 penerima manfaat yang telah mengikuti kegiatan WA Buletin, Bincang Bisnis Debitur, serta Aplikasi Disentra dan Aplikasi CAKAP. Penerima Manfaat PESAT Kapasitas Usaha per-Kantor wilayah dapat dilihat sebagai berikut:

- Sentra Bandung:
  Total 16.120 Penerima Manfaat
- Sentra Pakuan:
  Total 3.693 Penerima Manfaat
- Sentra Cirebon:
  Total 5.277 Penerima Manfaat

bank **bjb** to individual MSMEs, business entities, and/or business groups, with a maximum loan tenor of five (5) years.
Key advantages of the Alsintan Loan include:

- Affordable interest rates
- Simplified requirements

7. **Housing Program Loan (KPP)**
The Housing Program Loan (KPP) is an investment loan and/or working capital loan provided to Micro, Small, and Medium Enterprises (MSMEs) to support the achievement of priority government programs in the housing sector.

Key advantages of the Housing Program Loan include:
- Affordable interest rates
- Simplified requirements

8. **Integrated Community Economic Empowerment Program (PESAT)**
The Integrated Community Economic Empowerment Program (PESAT) serves as a Unique Value Proposition (UVP) that complements MSME financing services. The program is implemented by the MSME Credit Division through three main pillars: PESAT Business Capacity Development, PESAT New Entrepreneur Development, and PESAT Go Digital. During the period from January to December 2025, the PESAT MSME Centers, through the implementation of the three PESAT pillars, conducted 3,423 activities, benefiting 128,932 participants. Through these activities, the Bank generated potential MSME loan marketing amounting to IDR403,240,926,019 from external activities, as well as IDR52,629,662,408 from potential top-up financing for managed debtors who were beneficiaries of the PESAT program.

a. **PESAT Business Capacity**
The PESAT Business Capacity pillar aims to support MSME players in scaling up their businesses and moving up to a higher level, as indicated by increases in assets and business turnover. Programs under this pillar are designed to enhance knowledge, attitudes, and skills, as well as to expand market access opportunities. A total of 61,079 beneficiaries participated in various activities, including the WA Bulletin, Debtor Business Talks, as well as through the Disentra Application and the CAKAP Application. The distribution of beneficiaries under the PESAT Business Capacity Development program by regional MSME Centers is as follows:
- Bandung Center:
  Total 16,120 beneficiaries
- Pakuan Center:
  Total 3,693 beneficiaries
- Cirebon Center:
  Total 5,277 beneficiaries

- Sentra Priangan Timur:
  Total 9.030 Penerima Manfaat
- Sentra Banten:
  Total 11.976 Penerima Manfaat
- Sentra Surabaya:
  Total 4.058 Penerima Manfaat

b. **PESAT Wirausaha Baru**

Pesat Wirausaha baru merupakan kegiatan yang diberikan kepada pelaku UMKM, baik *start up* (baru) maupun yang sudah berjalan usahanya tetapi belum menjadi debitur kredit UMKM bank **bjb**. Program ini diberikan untuk membantu penetrasi bisnis bank **bjb** dengan membuka peluang bertambahnya NOA yang akhirnya dapat meningkatkan *outstanding* kredit bank **bjb**.

- **Bincang Jumat Bisnis**

  Dalam upaya meningkatkan pelayanan kepada masyarakat khususnya pelaku UMKM, sekaligus meningkatkan penyebaran informasi produk dan layanan bank **bjb**, maka Sentra UMKM/PESAT menjalankan program Bincang Jumat Bisnis **(bjb)**. Selain mensosialisasikan keberadaan Sentra UMKM PESAT, program ini diproyeksikan sebagai strategi untuk menjaring calon konsumen potensial untuk dapat mengakses layanan perbankan bank **bjb**. Kegiatan ini dilaksanakan seminggu sekali setiap hari Jumat, dengan menghadirkan pembicara yang teruji kompeten dalam bidangnya. Selama tahun 2025 kegiatan dilakukan dengan online dan juga offline.

  Ragam materi telah disampaikan oleh 39 Pemateri dengan total ada 39 materi dan mengacu kepada tema besar yang saat ini sangat dibutuhkan oleh para pelaku UMKM yang diantaranya adalah:

  - Pengembangan Usaha Melalui Topik Strategi Pemasaran Secara Non Digital.
  - Pengembangan Usaha Melalui Topik Strategi Pemasaran Secara Digital.
  - Topik Tentang Perijinan dan Legalitas Usaha.
  - Topik Tentang Pengelolaan Keuangan Usaha.
  - Topik Tentang Mekanisme Ekspor untuk UMKM.
  - Topik Tentang Tips-Tips Terkait Kegiatan Usaha.

  Antusias para pelaku UMKM dalam mengikuti kegiatan ini sangatlah luar biasa, terlihat dari jumlah total partisipan dari bulan Januari hingga bulan Desember 2025 sebanyak 4.248 partisipan. Dengan diadakannya secara online, partisipan Bincang Jumat Bisnis tidak hanya berasal dari Jawa Barat dan Banten saja namun sudah tersebar ke seluruh Indonesia.

- Priangan Timur Center:
  Total 9,030 beneficiaries
- Banten Center:
  Total 11,976 beneficiaries
- Surabaya Center:
  Total 4,058 beneficiariest

b. **PESAT New Entrepreneur**

The PESAT New Entrepreneur Development pillar targets MSME players, including both start-up businesses and existing businesses that have not yet become MSME loan debtors of bank **bjb**. This program aims to support the Bank's business penetration by creating opportunities to increase the Number of Accounts (NoA), which ultimately contributes to the growth of bank **bjb**'s loan portfolio.

- **Friday Business Talk**

  To enhance services for the public, particularly MSME players, while also increasing the dissemination of information regarding bank **bjb** products and services, the MSME PESAT Center conducts the **bjb** Friday Business Talk program. In addition to introducing the PESAT MSME Center, the program is designed as a strategy to attract potential customers to access bank **bjb**'s banking services. The program is held weekly every Friday, featuring speakers who are recognized experts in their respective fields. Throughout 2025, the program was conducted in both online and offline formats.

  A total of 39 speakers delivered 39 topics, focusing on key themes relevant to MSME development, including:

  - Business development through non-digital marketing strategies.
  - Business development through digital marketing strategies.
  - Business licensing and legal compliance topic.
  - Business financial management topic.
  - Export mechanisms for MSMEs topic.
  - Practical tips and insights for business operations topic.

  The enthusiasm of MSME participants in this program was highly encouraging. From January to December 2025, the program recorded a total of 4,248 participants. With the online implementation, participants were not only from West Java and Banten, but also from various regions across Indonesia.

- **Edukasi Perbankan dan Literasi Keuangan**
  Untuk meningkatkan kapasitas pelaku UMKM hingga mampu memenuhi syarat perbankan *(bankable)*, Pada tahun 2025, PESAT telah melaksanakan kegiatan Edukasi Perbankan dan Literasi Keuangan. Kegiatan ini dilaksanakan bekerjasama dengan Organisasi Perangkat Daerah (OPD) Provinsi Jawa Barat dan Banten serta Komunitas. Sebagian dari materi adalah pelatihan kewirausahaan, pengenalan produk kredit UMKM, jenis tabungan bank **bjb**, **bjb** BISA, DPLK, T-samsat dan DIGI bank **bjb**. Jumlah penerima manfaat program pelatihan dengan komunitas/instansi pada tahun 2025 adalah sejumlah 48 Institusi, 8 Perguruan Tinggi.

- **Bincang Bisnis**
  Pembelajaran dengan cara daring atau online atau live secara berkelompok atau grup melalui aplikasi *whatsapp* dan *zoom* dengan beragam materi bersama narasumber yang kompeten yang dilaksanakan diluar kegiatan Bincang Jumat Bisnis. Melalui kegiatan ini diharapkan akan muncul pelaku UMKM yang maju dan berkembang, ditandai dengan adanya peningkatan baik omzet maupun aset. Para pelaku UMKM didorong untuk memiliki mindset kewirausahaan yang inovatif dalam menumbuhkembangkan bisnisnya. Program Bincang Bisnis Online melalui aplikasi Whatsapp merupakan program Sentra UMKM PESAT, yang memfokuskan diskusi tentang topik yang sedang terjadi, khususnya dalam upaya pengembangan UMKM yang mencakup:
  - Penawaran Kredit UMKM melalui formulir *online*
  - Diskusi bersama atau sharing dalam satu grup *whatsapp*
  - Sesi tanya jawab seputar bisnis

  Sedangkan program Bincang Bisnis Online melalui Zoom dilaksanakan dengan menggunakan aplikasi Zoom Meeting dengan durasi waktu 2 (dua) sampai 3 (tiga) jam dengan materi yang bervariatif.

  Pada periode tahun 2025 sebanyak 667 telah menjadi penerima manfaat kegiatan bincang bisnis ini baik melalui media *whatsapp* group maupun *zoom meetings*. Berikut penerima manfaat dari berbagai sentra
  - Sentra UMKM Wilayah Bandung:
    Total 105 Penerima Manfaat
  - Sentra UMKM Wilayah Pakuan:
    Total 163 Penerima Manfaat

- **Banking Education and Financial Literacy**
  To enhance the capacity of MSME players so they can meet banking eligibility standards (bankable), the PESAT program conducted Banking Education and Financial Literacy activities in 2025, These activities were carried out in collaboration with Regional Government Organizations (OPD) of West Java and Banten Provinces, as well as with various community groups. The materials delivered included entrepreneurship training, introduction to MSME loan products, bank **bjb** savings products, as well as other banking services such as **bjb** BISA, DPLK, T-Samsat, and DIGI bank **bjb**. In 2025, the training program conducted in collaboration with communities and institutions reached a total of 48 institutions and 8 universities as beneficiaries.
- **Bincang Bisnis**
  The Business Talks program is conducted through online learning sessions via WhatsApp Groups and Zoom Meetings, featuring discussions with competent speakers on various business-related topics. These sessions are organized outside the regular Friday Business Talk program. Through this initiative, MSME players are expected to grow and develop their businesses, as reflected by improvements in business turnover and asset value. Participants are also encouraged to develop an innovative entrepreneurial mindset to support business growth. The Business Talks Online program via WhatsApp focuses on discussions related to current business topics, particularly those relevant to MSME development, including:
  - MSME loan applications through online forms
  - Group discussions and knowledge sharing within WhatsApp groups
  - Business-related question and answer sessions

  Meanwhile, the Zoom-based Business Talks are conducted through Zoom Meeting sessions lasting approximately 2 to 3 hours, covering a variety of topics.

  In 2025, a total of 667 beneficiaries participated in the Business Talks program through both WhatsApp groups and Zoom meetings. The distribution of beneficiaries by MSME Centers is as follows:
  - Bandung MSME Center:
    Total 105 beneficiaries
  - Pakuan MSME Center:

  Total 181 beneficiaries

c. **PESAT Go Digital**

Pilar PESAT Go Digital yaitu suatu upaya dari bank **bjb** yang bertujuan untuk mengajak masyarakat pelaku UMKM dan Debitur agar dapat mulai memanfaatkan perkembangan teknologi digital dalam menjalankan usaha.

PESAT Go Digital diwujudkan dengan pembuatan Aplikasi **bjb** Disentra (Digital Sistem edukasi dan Interaksi), sebuah aplikasi pembelajaran kewirausahaan untuk para pelaku UMKM. Selama tahun 2025 aplikasi **bjb** Disentra telah digunakan oleh 6.760 user. Selain itu bank **bjb** juga sudah meluncurkan aplikasi pencatatan keuangan berbasis digital yaitu Aplikasi Catatan Akuntansi Lengkap (CAKAP) bagi para pelaku UMKM untuk mendukung pengelolaan keuangan usaha.

c. **PESAT Go Digital**

The PESAT Go Digital pillar represents an initiative by bank **bjb** to encourage MSME players and debtors to adopt and utilize digital technology in their business activities.

The PESAT Go Digital initiative is implemented through the development of the **bjb** Disentra Application (Digital System for Education and Interaction), an entrepreneurship learning platform designed for MSME players. During 2025, the **bjb** Disentra application was utilized by 6,760 users. In addition, bank **bjb** has also launched a digital financial bookkeeping application, namely the Complete Accounting Notes Application (CAKAP), to support MSME players in managing their business finances more effectively.

Produktivitas Kredit UMKM

Uraian produktivitas Kredit UMKM disajikan sebagai berikut.

MSME Loan Productivity

The description of MSME loan productivity is presented as follows.

Tabel Produktivitas Kredit UMKM

Selama tahun 2025 total *outstanding* kredit Kredit UMKM mengalami penurunan dibandingkan tahun sebelumnya sebesar 23,20% dari Rp4,95 triliun di tahun 2024 menjadi sebesar Rp3,81 triliun di tahun 2025. PRA NPL Tahun 2025 mengalami perbaikan secara bertahap dari triwulan ke triwulan, yang mencerminkan efektivitas pelaksanaan strategi pengendalian dan penanganan risiko kredit. Tahun 2025 merupakan periode konsolidasi dan pemulihan awal Kredit UMKM. Dengan fokus pengelolaan yang diarahkan pada peningkatan kualitas kredit, stabilisasi risiko, serta penyaluran kredit yang lebih berkualitas.

During 2025, total outstanding MSME Loans declined by 23.20% compared to the previous year, decreasing from IDR4.95 trillion in 2024 to IDR3.81 trillion in 2025. The PRA NPL in 2025 showed gradual improvement from quarter to quarter, reflecting the effectiveness of the implementation of credit risk control and mitigation strategies. The year 2025 represented a period of consolidation and early recovery for MSME Loans, with management efforts focused on improving credit quality, stabilizing risk, and promoting more prudent and quality loan disbursement.

Dari keseluruhan produk kredit UMKM bank **bjb** produk Kredit Usaha Rakyat memiliki *outstanding* terbesar yaitu 64,84% dari

Among bank **bjb**'s MSME loan products, Kredit Usaha Rakyat (KUR) recorded the largest outstanding balance, accounting for

total *outstanding* produk UMKM atau sebesar 2,467 triliun. Kredit Usaha Rakyat (KUR) memiliki sejumlah keunggulan strategis dibandingkan produk kredit UMKM lainnya, khususnya dalam mendukung perluasan akses pembiayaan yang tetap terkendali dari sisi risiko. KUR didukung oleh kebijakan pemerintah berupa subsidi bunga dan/atau subsidi margin, sehingga tingkat bunga yang dikenakan kepada debitur relatif lebih rendah. Hal ini meningkatkan kemampuan bayar debitur dan memperkuat keberlanjutan usaha.

Faktor Pendukung dan Penghambat Bisnis Kredit UMKM

Uraian faktor pendukung dan penghambat bisnis Kredit UMKM adalah sebagai berikut:

1. **Faktor Pendukung**
   Faktor pendukung bisnis Kredit UMKM antara lain:
   a. Kebijakan pemerintah pusat dan daerah terkait pengembangan sektor bisnis UMKM.
   b. Peningkatan kualitas kredit UMKM.
   c. Pemberian fasilitas kredit beserta program pelatihan.
   d. Layanan penjemputan angsuran.
   e. Layanan referral kredit pada agen **bjb** BISA! Untuk menjangkau para pelaku usaha UMKM yang membutuhkan penambahan modal usaha.
   f. Promosi baik secara *offline* maupun *online*, untuk pemasaran kredit UMKM.
   g. Kolaborasi antar Divisi untuk menggali potensi internal penyaluran kredit UMKM.
   h. Kerjasama pola kemitraan dalam membangun ekosistem kredit UMKM sehingga dapat meningkatkan penyaluran kredit serta kesejahteraan pelaku UMKM.
   i. Kemudahan kebijakan dan proses pengembangan produk Internal.
   j. Sinergi dan kolaborasi dengan lembaga pemerintah dan non pemerintah.
2. **Faktor Penghambat**
   Kondisi makro ekonomi yang belum stabil, sehingga mengakibatkan penurunan daya beli masyarakat, hal ini berdampak kepada penurunan usaha para pelaku UMKM. Disamping hal tersebut, maraknya pinjaman *online* dengan nominal kecil yang tidak terbayarkan oleh para pelaku UMKM mengakibatkan hasil SLIK para pelaku UMKM menjadi tidak baik.

Rencana dan Strategi Kredit UMKM Tahun 2026

Uraian rencana dan strategi bisnis Kredit UMKM pada tahun 2026 adalah sebagai berikut:

1. **Ekspansi Kredit UMKM Berkualitas**
   a. Fokus ekspansi pada sektor agribisnis, rantai pasok pangan, dan sektor ekonomi daerah yang resilien terhadap risiko.
   b. Pengembangan pembiayaan berbasis ekosistem melalui kemitraan *offtaker*, BUMD, marketplace, dan komunitas usaha.

64.84% of total MSME loan outstanding, or IDR2.467 trillion. Kredit Usaha Rakyat (KUR) has several strategic advantages compared to other MSME loan products, particularly in supporting the expansion of financing access while maintaining manageable risk levels. KUR is supported by government policies in the form of interest subsidies and/or margin subsidies, resulting in relatively lower interest rates charged to borrowers. This condition enhances borrowers' repayment capacity and supports the sustainability of their businesses.

Supporting and Inhibiting Factors of MSME Loan Business

Description of Supporting and Inhibiting Factors of MSME credit business is as follows

1. **Supporting Factors**
   Several factors supporting the development of the MSME loan business include the following:
   a. Government policies at both the central and regional levels related to the development of the MSME sector.
   b. Improvement in the quality of MSME loans.
   c. Provision of loan facilities accompanied by training programs.
   d. Installment collection services.
   e. Credit referral services through **bjb** BISA! agents to reach MSME business actors requiring additional working capital.
   f. Promotional activities conducted both offline and online to support MSME loan marketing.
   g. Inter-division collaboration to explore internal opportunities for MSME loan distribution.
   h. Partnership-based cooperation in developing the MSME credit ecosystem, thereby enhancing loan disbursement and improving the welfare of MSME business actors.
   i. Flexible policies and processes for internal product development.
   j. Synergy and collaboration with both government and non-government institutions.
2. **Inhibiting Factors**
   Macroeconomic conditions that remain unstable have led to a decline in public purchasing power, which has adversely affected the business performance of MSME players. In addition, the widespread use of small-value online loans that remain unpaid by MSME business actors has resulted in unfavorable SLIK (Financial Information Service System) records for MSME borrowers.

MSME Loan Business Plan and Strategy for 2026

The business plan and strategy for the MSME loan segment in 2026 are outlined as follows:

1. **Quality MSME Loan Expansion**
   a. Focus expansion on agribusiness, food supply chains, and regional economic sectors that are resilient to risk.
   b. Development of ecosystem-based financing through partnerships with offtakers, regional-owned enterprises (BUMD), marketplaces, and business communities.

c. Optimalisasi pembiayaan kredit program dengan dukungan aktif Pemerintah Daerah.
d. Pemanfaatan ekosistem digital pemerintah (G2B dan G2C) untuk pembiayaan UMKM berbasis transaksi riil.

2. **Perbaikan dan Pengendalian Kualitas Kredit**
   a. Implementasi *Early Warning System* (EWS) berbasis limit eksposur sektoral dan kinerja portofolio ekonomi daerah.
   b. Akselerasi restrukturisasi, *maintenance to exit,* eksekusi agunan, klaim asuransi, dan penyelesaian litigasi secara terukur.
   c. Pengetatan kebijakan *underwriting* berbasis risiko aktual dan hasil evaluasi portofolio historis.

3. **Optimalisasi Proses Bisnis dan Digitalisasi**
   a. Pembangunan aplikasi *mobile loan onboarding* UMKM terintegrasi untuk AO dan pemutus kredit yang mencakup *pipeline, pre-screening* (Dukcapil, SLIK, data internal), analisa kredit, *monitoring* kinerja AO, dan rekomendasi keputusan kredit digital.
   b. Implementasi credit scoring UMKM berbasis data eksternal, transaksi, dan perilaku untuk meningkatkan akurasi analisa dan mempercepat *Turn Around Time* (TAT) .
   c. Standarisasi proses persetujuan kredit UMKM secara nasional untuk mengurangi variasi kualitas antar unit kerja.
4. **Penguatan Manajemen Risiko dan Monitoring**
   a. Integrasi fitur monitoring *portofolio* dan *Early Warning System* (EWS) ke dalam aplikasi *mobile* AO.
   b. Penggunaan *alternative credit scoring* sebagai alat bantu pengambilan keputusan.
5. **Pengembangan Kompetensi dan Disiplin Eksekusi**
   a. Implementasi kurikulum wajib analisa kredit UMKM berbasis sektor unggulan daerah dan karakter usaha lokal.
   b. Evaluasi kinerja AO dan pejabat kredit berbasis kualitas portofolio kredit.
   c. Penguatan integritas dan disiplin kepatuhan melalui monitoring rutin dan sanksi berbasis kinerja risiko.

KREDIT PEMILIKAN RUMAH (KPR) DAN KREDIT KENDARAAN BERMOTOR (KKB)

Penjelasan KPR dan KKB

bjb Kredit Pemilikan Rumah (KPR) adalah fasilitas kredit konsumtif yang diberikan bank **bjb** kepada calon debitur perorangan untuk membeli atau memiliki properti (rumah tapak/apartemen/rumah toko/rumah kantor), baik pembelian baru (*primary*) dari pengembang perusahaan maupun pembelian bekas (*secondary*) dari non pengembang perumahan.

c. Optimization of government program loan financing with active support from regional governments.
d. Utilization of government digital ecosystems (G2B and G2C) to support MSME financing based on real transaction activities.

2. **Credit Quality Improvement and Control**
   a. Implementation of an Early Warning System (EWS) based on sectoral exposure limits and regional economic portfolio performance.
   b. Acceleration of loan restructuring, maintenance to exit strategies, collateral execution, insurance claims, and litigation settlements in a measurable manner.
   c. Strengthening risk-based underwriting policies based on current risk conditions and historical portfolio evaluations.
3. **Business Process Optimization and Digitalization**
   a. Development of an integrated mobile loan onboarding application for MSME lending for Account Officers (AOs) and credit approvers, covering pipeline management, pre-screening (Dukcapil, SLIK, and internal data), credit analysis, AO performance monitoring, and digital credit decision recommendations.
   b. Implementation of MSME credit scoring models based on external data, transaction data, and behavioral data to improve analytical accuracy and accelerate the Turn Around Time (TAT).
   c. Standardization of MSME credit approval processes nationwide to reduce variations in credit quality across business units.
4. **Strengthening Risk Management and Monitoring**
   a. Integration of portfolio monitoring features and an Early Warning System (EWS) into the AO mobile application.
   b. Utilization of alternative credit scoring as a decision-support tool in the credit approval process.
5. **Competency Development and Execution Discipline**
   a. Implementation of a mandatory MSME credit analysis curriculum based on regional leading sectors and local business characteristics.
   b. Performance evaluation of AOs and credit officers based on the quality of the loan portfolio.
   c. Strengthening integrity and compliance discipline through routine monitoring and risk-based performance sanctions.

HOUSING LOAN (KPR) AND MOTOR VEHICLE LOANS (KKB)

KPR and KKB Explanation bjb Housing Loan (KPR)

bjb Kredit Kendaraan Bermotor (KKB) adalah fasilitas kredit yang diberikan bank **bjb** kepada debitur baik secara langsung maupun tidak langsung dengan tujuan pembelian kendaraan bermotor non niaga baik baru maupun bekas ataupun untuk tujuan *refinancing*.

Produk Unggulan

bank **bjb** hadir sebagai mitra terpercaya dalam mewujudkan impian memiliki rumah. Melalui dukungan nyata terhadap program pemerintah, bank **bjb** menghadirkan solusi KPR yang terjangkau dan berkelanjutan melalui **bjb** KPR Sejahtera dan **bjb** TAPERA.

1. **bjb** KPR Sejahtera FLPP (KPR Bersubsidi) merupakan fasilitas pembiayaan perumahan bersubsidi yang bekerja sama dengan Kementerian Pekerjaan Umum dan Perumahan Rakyat (PUPR), dengan uang muka mulai dari 1% serta suku bunga tetap 5% sepanjang tenor, yang diperuntukkan bagi Masyarakat Berpenghasilan Rendah (rumah tapak maupun rumah susun).
2. **bjb** TAPERA merupakan fasilitas pembiayaan bagi peserta Tapera yang mencakup KPR, renovasi, dan pembangunan rumah, dengan suku bunga tetap 5%, uang muka 0%, serta berbagai keuntungan menarik melalui program Dompet Gembira bersama KPR Tapera.

Pengembangan Produk dan Layanan

Dalam rangka menjawab kebutuhan pasar yang terus berkembang, khususnya pada segmen komersil dan generasi millennial, bank **bjb** menghadirkan berbagai inovasi produk pembiayaan yang relevan, fleksibel, dan kompetitif, sebagai solusi finansial yang mendukung gaya hidup, produktivitas, serta perencanaan masa depan nasabah.

1. **bjb KPR Gaul**
   Dirancang khusus bagi generasi millennial dan *first-time home buyers*, **bjb** KPR Gaul memberikan kemudahan memiliki rumah di usia produktif. Dengan konsep ringan, praktis, dan terjangkau, produk ini mendorong generasi muda untuk lebih percaya diri melangkah ke jenjang kehidupan berikutnya—*pede depan mertua*—tanpa harus menunggu usia tua untuk mulai mencicil rumah impian.

2. **bjb KKB Kendaraan Listrik**
   Sebagai bentuk dukungan terhadap gaya hidup ramah lingkungan dan efisiensi energi, **bjb** KKB Kendaraan Listrik menawarkan solusi pembiayaan hemat dengan uang muka mulai dari 10% dan jangka waktu hingga 5 (lima) tahun. Produk ini memberikan kemudahan bagi masyarakat untuk beralih ke kendaraan listrik yang lebih ekonomis, modern, dan berkelanjutan.
3. **bjb MLT BPJS Ketenagakerjaan**
   bjb MLT BPJS Ketenagakerjaan merupakan solusi pembiayaan bagi peserta BPJS Ketenagakerjaan dengan uang muka mulai dari 0%. Produk ini mencakup Pinjaman Renovasi Perumahan (PRP) dan Pinjaman Uang Muka Perumahan (PUMP), yang memberikan kemudahan akses

bjb Kredit Kendaraan Bermotor (KKB) is a loan facility provided by bank **bjb** to debtors both directly and indirectly for the purpose of purchasing noncommercial motor vehicles, both new and used or for the purpose of refinancing.

Featured Product

bank bjb serves as a trusted partner in helping individuals realize their dream of homeownership. Through its tangible support for government housing programs, bank **bjb** provides affordable and sustainable mortgage solutions through **bjb KPR Sejahtera** and **bjb TAPERA**.

1. **bjb** KPR Sejahtera FLPP (Subsidized Mortgage Loan) is a subsidized housing financing facility provided in collaboration with the Ministry of Public Works and Housing (PUPR). The program offers a down payment starting from 1% and a fixed interest rate of 5% throughout the loan tenor, and is intended for Low-Income Communities, covering both landed houses and apartment units.
2. **bjb** TAPERA is a housing financing facility for Tapera participants, covering mortgage loans, home renovation, and home construction. The program offers a fixed interest rate of 5%, a 0% down payment, as well as various attractive benefits through the Dompet Gembira program in conjunction with the Tapera Mortgage.

Product and Service Development

In response to evolving market needs, particularly within the commercial segment and the millennial generation, bank **bjb** continues to introduce various innovative financing products that are relevant, flexible, and competitive, serving as financial solutions that support customers' lifestyles, productivity, and future planning.

1. **bjb KPR Gaul**
   Designed specifically for millennials and first-time home buyers, **bjb** KPR Gaul provides greater accessibility to homeownership during the productive years. With a concept that is practical, affordable, and customer-friendly, this product encourages the younger generation to confidently take the next step in life—*pede depan mertua*—without having to wait until later in life to start financing their dream home.
2. **bjb Electric Vehicle Auto Loan**
   As part of its support for environmentally friendly lifestyles and energy efficiency, **bjb** KKB Kendaraan Listrik offers an affordable financing solution with a down payment starting from 10% and a financing tenor of up to five (5) years. This product enables customers to transition to electric vehicles that are more economical, modern, and sustainable.

3. **bjb MLT BPJS Ketenagakerjaan**
   bjb MLT BPJS Ketenagakerjaan is a financing solution designed for participants of BPJS Ketenagakerjaan, offering a down payment starting from 0%. The product includes the Housing Renovation Loan (PRP) and the Housing Down Payment Loan (PUMP), providing easier access to

dana untuk peningkatan kualitas hunian serta kebutuhan produktif lainnya, dengan proses yang cepat dan persyaratan yang ringan.

Keunggulan Layanan

Keunggulan layanan KPR dan KKB bank **bjb** yaitu suku bunga kompetitif, jenis Produk beragam sesuai kebutuhan calon debitur, proses pengajuan cepat dan mudah dapat dilakukan di Kantor Cabang, jangka waktu kredit maksimal sampai dengan 30 tahun untuk produk tertentu dan bekerja sama dengan jaringan *developer* perumahan di seluruh jaringan wilayah Kantor Cabang bank **bjb**.

Selain keunggulan layanan, keunggulan produk dari KPR dan KKB bank **bjb** yaitu sebagai berikut:

1. **bjb KPR**
   Fasilitas kredit kepada calon debitur perorangan untuk pembiayaan kepemilikan properti, baik pembelian baru atau second dengan beragam tujuan fasilitas kredit seperti pembelian rumah (rumah tapak/apartemen/ruko/rukan/lainnya), *Take Over* XTRA, *top up*, membangun, dan multiguna.

Produktivitas KPR dan KKB

Uraian produktivitas KPR dan KKB disajikan sebagai berikut.

Mortgage Loan (KPR) and Vehicle Loan (KKB) Productivity

The description of mortgage and vehicle loan productivity is presented as follow.

Tabel Produktivitas Kredit KPR dan KKB
Table of KPR and KKB Loand Productivity

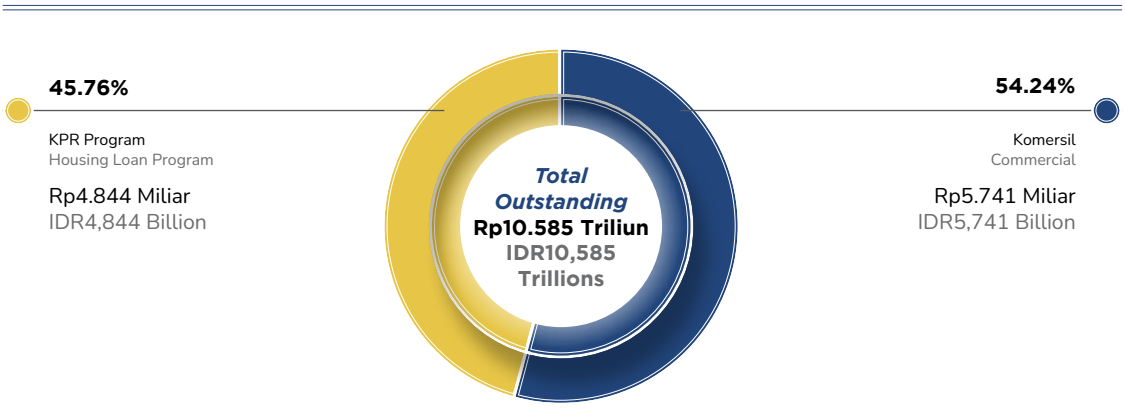
(dalam miliar Rupiah / in IDR million)

Uraian	2025	2024	2023	2022	2021	Pertumbuhan Growth 2024-2025		Description
						Nominal	%	
Portofolio	**10,585**	10,759	10,501	9,183	7,731	(175)	(1.63%)	Portofolio
Non Performing Loan (NPL)	**4.77%**	3.43%	2.60%	2.55%	3.06%	1.34%		Non Performing Loan (NPL)

Pertumbuhan positif yang konsisten selama lima tahun terakhir mengalami koreksi pada tahun 2025, seiring dengan peningkatan rasio NPL. Portofolio kredit KPR dan KKB pada tahun 2025 tercatat sebesar Rp10,59 triliun, mengalami penurunan sebesar Rp175 miliar atau 1,63% dibandingkan tahun 2024 sebesar Rp10,79 triliun. Meskipun menghadapi tantangan pertumbuhan negatif secara yoy, bank **bjb** tetap melayani basis nasabah yang kuat sebanyak 60.033 NoA. Fokus utama saat ini adalah pengendalian kualitas kredit, mengingat kenaikan NPL dari 3,43% pada tahun 2024 menjadi 4,77% pada tahun 2025. Kondisi ini menjadi landasan bagi penyusunan strategi peningkatan kualitas pada tahun 2026.

The consistent positive growth recorded over the past five years experienced a correction in 2025, in line with the increase in the NPL ratio. The mortgage and auto loan portfolio (KPR and KKB) in 2025 was recorded at IDR10.59 trillion, declining by IDR175 billion or 1.63% compared to IDR10.79 trillion in 2024. Despite facing year-on-year negative growth, bank **bjb** continued to serve a strong customer base of 60,033 accounts (NoA). The current primary focus is on maintaining credit quality, considering the increase in the NPL ratio from 3.43% in 2024 to 4.77% in 2025. This condition serves as the basis for formulating credit quality improvement strategies in 2026.

Diagram Komposisi Portofolio KPR Komersil dibandingkan KPR Program
Composition Diagram of Commercial Mortgage Portfolio Compared to Program Mortgage Portfolio



Portofolio didominasi oleh segmen komersil, namun KPR Program (Subsidi) memegang peranan vital hampir setengah dari total portofolio, menandakan peran bank **bjb** yang kuat dalam penyaluran program pemerintah.

The portfolio is predominantly dominated by the commercial segment; however, Program Mortgages (Subsidized Housing Loans) account for nearly half of the total portfolio, highlighting bank **bjb**'s strong role in supporting the distribution of government housing programs.

Wilayah	KPR Komersil Commercial Mortgage Loans		KPR Program (Subsidi) Program Mortgage Loans (Subsidized)		Region
	Number of Account (NoA) Nasabah	*Outstanding*	*Number of Account* (NoA)	*Outstanding*	
Kanwil 1	**7,209**	**2,089,863**	9,562	1,112,851	Regional Office 1
Kanwil 2	**5,851**	**1,869,438**	6,650	855,152	Regional Office 2
Kanwil 3	**2,865**	**689,768**	13,076	1,582,929	Regional Office 3
Kanwil 4	**3,243**	**741,066**	4,442	578,020	Regional Office 4
Kanwil 5	**1,369**	**350,846**	5,766	714,740	Regional Office 5
Total	**20,537**	**5,740,981**	**39,496**	**4,843,692**	**Total**

Kanwil 1 dan Kanwil 2 menjadi motor penggerak utama portofolio Komersil dengan kontribusi terbesar. Kanwil 3 mendominasi penyaluran KPR Program dengan jumlah nasabah (NoA) tertinggi mencapai 13.076, menunjukkan penetrasi pasar subsidi yang sangat efektif di wilayah tersebut.

Regional Office 1 and Regional Office 2 serve as the primary drivers of the Commercial Mortgage portfolio, contributing the largest share. Meanwhile, Regional Office 3 dominates the distribution of Program Mortgages, recording the highest number of accounts (NoA) at 13,076, reflecting highly effective penetration of the subsidized housing market in the region.

Faktor Pendukung dan Penghambat Bisnis KPR dan KKB

Uraian terkait faktor-faktor pendukung dan penghambat Bisnis KPR dan KKB adalah sebagai berikut:

1. **Faktor Pendukung**
   a. Program Promosi
      Rencana untuk bekerjasama dengan PT. Sarana Multigriya Finansial untuk pembiayaan Kredit Pemilikan Rumah Griya Nusantara tujuan pembelian *fixed* 20 tahun.
   b. Optimalisasi penyerapan kuota Kredit Program Pemerintah untuk KPR Sejahtera FLPP dan KPR MLT BPJS Ketenagakerjaan.
   c. Kerja Sama dengan Pengembang:
      Menjalin kerja sama dengan Pengembang untuk menawarkan paket promo **bjb** KPR untuk meningkatkan penjualan serta meningkatkan utilisasi kerjasama pengembang.
   d. Fokus pada profesi *fixed income*.
   e. Peningkatan kualitas SDM
      Pelatihan intensif kepada *account officer* untuk meningkatkan kemampuan analisa dan penjualan produk **bjb** KPR.
   f. Monitoring dan Evaluasi
      Melakukan monitoring dan evaluasi rutin untuk mengidentifikasi peluang dan tantangan dalam penjualan produk **bjb** KPR serta kualitas kredit.

Supporting and Inhibiting Factors of KPR and KKB Business

The description of the supporting and constraining factors affecting the Mortgage (KPR) and Vehicle Loan (KKB) businesses is as follows:

1. **Supporting Factors**
   a. Promotional Programs
      Plans to establish cooperation with PT Sarana Multigriya Finansial for the financing of Griya Nusantara mortgage loans with a fixed rate tenor of 20 years.
   b. Optimization of the utilization of Government program credit quotas, including KPR Sejahtera FLPP and KPR MLT BPJS Ketenagakerjaan.
   c. Collaboration with Developers:
      Establishing partnerships with property developers to offer promotional packages for **bjb** KPR products, aimed at increasing sales and optimizing developer partnership utilization.
   d. Focus on fixed-income professions.
   e. Enhancement of Human Capital Quality
      Providing intensive training to account officers to improve analytical capabilities and sales performance of **bjb** KPR products.
   f. Monitoring and Evaluation
      Conducting regular monitoring and evaluation to identify opportunities and challenges in the sales of **bjb** KPR products, as well as maintaining credit quality.

2. **Faktor Penghambat Bisnis**
   a. Terdapat issue perekonomian nasional dan adanya bencana alam di beberapa wilayah yang ikut memperburuk penurunan daya beli masyarakat dan kemampuan mengangsur masyarakat yang menurun.
   b. Penurunan realisasi kredit akibat berakhirnya suku bunga promo untuk tujuan pembelian.
   c. Kompetisi dengan Bank lain yang menawarkan suku bunga lebih rendah.
   d. Penundaan pembangunan rumah oleh pengembang KPR Sejahtera FLPP yang berdampak pada bangunan *ready stock* serta penyaluran kredit.
   e. Dalam rangka fokus menjaga kualitas kredit, dilakukan pembagian *account office*
   f. Ekspansi dan *account officer collectio*
   g. Penurunan aplikasi atau permohonan kredit akibat kondisi makro ekonomi yang belum membaik.

Rencana dan Strategi KPR dan KKB Tahun 2026

Rencana dan strategi bisnis KPR dan KKB tahun 2026 mencakup penerapan berbagai strategi antara lain sebagai berikut:

1. **Strategi Ekspansi Bisnis**
   a. Optimalisasi Program Pemerintah: Penyaluran **bjb** KPR Sejahtera FLPP secara selektif, termasuk perluasan ke sektor informal.
   b. *Captive Market* BPJS: Penyaluran **bjb** MLT BPJS Ketenagakerjaan secara agresif kepada pekerja keanggotaan BPJS.
   c. Pasar Sekunder *(Secondary Market)*: Peluncuran 'Griya Nusantara' (Dana SMF) untuk menangkap pasar KPR *Secondary* yang belum tergarap maksimal.

2. **Strategi Perbaikan Proses dan Kualitas Kredit**
   a. **Proses Bisnis**
      - Implementasi *New Loan Management System* (LMS) yang terhubung *host to host* dengan Tapera.
      - Penyederhanaan alur proses analisa kredit.
   b. **Strategi Kualitas *(Recovery)***
      - Aplikasi *Best Salmon*: Peluncuran aplikasi khusus monitoring kualitas kredit (mencakup kronologis debitur, prognosa, dan aksi).
      - *Jobdesk Clarity*: Pemisahan tegas antara AO Ekspansi dan AO *Collection*.
      - Restrukturisasi dan Lelang: Percepatan penyelesaian kredit (Restruk >3 kali) dan koordinasi lelang.
      - Pra-NPL: Pemanggilan debitur Pra-NPL oleh Kantor Pusat/Wilayah secara proaktif.

2. **Business Constraints Factors**
   a. Ongoing national economic challenges and the occurrence of natural disasters in several regions have adversely affected purchasing power and reduced customers' repayment capacity.
   b. Decline in loan realization following the end of promotional interest rates for purchase purposes.
   c. Competition from other banks offering lower interest rates.
   d. Delays in housing construction by developers under the KPR Sejahtera FLPP program, affecting ready stock availability and loan disbursement.
   e. In line with the focus on maintaining credit quality, a segmentation of account officer roles has been implemented.
   f. Expansion and account officer collection
   g. Decline in loan applications due to macroeconomic conditions that have not yet fully improved.

KPR and KKB Plans and Strategies for 2026

The business plan and strategy for Mortgage Loans (KPR) and Auto Loans (KKB) in 2026 encompass the implementation of several strategic initiatives, as outlined below::

1. **Business Expansion Strategy**
   a. Optimization of Government Programs: Selective distribution of **bjb** KPR Sejahtera FLPP, including expansion into the informal sector segment.
   b. BPJS Captive Market: Aggressive distribution of **bjb** MLT BPJS Ketenagakerjaan financing to workers registered as members of BPJS.
   c. Secondary Market Development: The launch of "Griya Nusantara" (SMF Funding) to capture opportunities in the secondary mortgage market, which remains underpenetrated.

2. **Process Improvement and Credit Quality Strategy**
   a. **Business Process**
      - Implementation of the New Loan Management System (LMS) integrated host-to-host with Tapera.
      - Streamlining of the credit analysis process flow.
   b. **Quality Strategy (Recovery)**
      - Best Salmon Application: Launch of a dedicated application for monitoring credit quality, covering debtor chronology, prognosis, and follow-up actions.
      - Job Description Clarity: Clear segregation of duties between Expansion Account Officers (AO Expansion) and Collection Account Officers (AO Collection).
      - Restructuring and Auction: Acceleration of loan resolution (restructuring >3 times) and auction coordination.
      - Pre-NPL: Proactive summons of Pre-NPL debtors by the Head Office/Regional Offices.

Dana Pihak Ketiga (DPK)

DPK bank **bjb** terdiri atas dua segmen utama, yaitu DPK Konsumer dan DPK Institusi. DPK Konsumer berfokus pada penghimpunan dana dari nasabah perorangan melalui produk tabungan, giro, dan deposito yang dirancang sesuai dengan kebutuhan individu. Sementara itu, DPK Institusi mengelola dana dari nasabah korporasi, pemerintah daerah, BUMD, serta institusi lainnya. Sinergi antara DPK Konsumer dan DPK Institusi memungkinkan bank **bjb** untuk menjaga keseimbangan struktur pendanaan, meningkatkan efisiensi biaya dana, serta memperkuat kapasitas pembiayaan dalam mendukung pertumbuhan bisnis.

Third Party Funds (TPF)

Third Party Funds (TPF) of bank **bjb** consist of two main segments, namely Consumer TPF and Institutional TPF. Consumer TPF focuses on mobilizing funds from individual customers through savings, current accounts, and time deposits designed in accordance with individual needs. Meanwhile, Institutional TPF manages funds from corporate customers, regional governments, regionally owned enterprises (BUMD), as well as other institutions. The synergy between Consumer TPF and Institutional TPF enables bank **bjb** to maintain a balanced funding structure, improve cost of funds efficiency, and strengthen financing capacity in supporting business growth.

Tabel Produktivitas Dana Pihak Ketiga
Table of Third Party Fund Productivity

(dalam jutaan Rupiah / in IDR million)

Dana Pihak Ketiga	2025	2024	2023	2022	2021	Pertumbuhan Growth 2024-2025		Third Party Fund
	(Rp)	(Rp)	(Rp)	(Rp)	(Rp)	(Rp)	(%)	
DPK Konsumer	**46,678,877**	45,931,249	40,072,667	38,486,719	36,750,785	747,628	1.63%	TPF Consumer
DPK Nasabah Institusi	**76,474,119**	79,826,864	86,662,274	85,447.52	78,227,119	(3,352,745)	(4.20%)	TPF Institution Consumer
Total	**123,152,996**	**125,758,113**	**126,734,941**	**38,572,167**	**114,977,904**	**(2,605,117)**	**(2.07%)**	Total

Pada tahun 2025, total DPK bank **bjb** tercatat sebesar Rp123,15 triliun, mengalami penurunan sebesar 2,07% atau senilai Rp2,61 triliun dibandingkan dengan tahun 2024 yang mencapai Rp125,76 triliun. Penurunan tersebut terutama dipengaruhi oleh berkurangnya DPK dari nasabah institusi, yang tercatat menurun sebesar 4,20% atau Rp3,35 triliun.

In 2025, bank **bjb**'s total Third Party Funds (TPF) amounted to IDR123.15 trillion, representing a decrease of 2.07% or IDR2.61 trillion compared to IDR125.76 trillion in 2024. This decline was primarily attributable to a reduction in Third Party Funds from institutional customers, which decreased by 4.20% or IDR3.35 trillion.

DANA PIHAK KETIGA KONSUMER

Penjelasan Dana Pihak Ketiga Konsumer
Dana pihak ketiga konsumer terdiri atas giro, tabungan, dan deposito perorangan yang dihimpun oleh bank **bjb**.

Jenis-jenis giro, tabungan dan deposito DPK konsumer telah disajikan pada bagian Produk dan Jasa dalam Laporan Tahunan ini.

CONSUMER THIRD PARTY FUND

Consumer Third Party Funds Explanation
Consumer third-party funds consist of current accounts, savings and individual deposits collected by bank **bjb**. .

Types of current accounts, savings and deposits from Consumer TPF is explained in the Products and Services section of this Annual Report.

Perkembangan Produk Dana bank bjb di Tahun 2025

Uraian lengkap perkembangan produk dana bank **bjb** di Tahun 2025 adalah sebagai berikut:

1. **Implementasi bjb Tandamata My Goals pada DIGI bank bjb**
   a. Pengembangan pada Aplikasi DIGI bank **bjb** terkait fitur **bjb** Tandamata My Goals fitur Qurban (BEREHAN).

   b. Pengembangan Perubahan setoran minimal untuk **bjb** Tandamata My Goals menjadi Rp50 ribu kelipatan Rp50 ribu untuk setoran mingguan dan setoran bulanan
2. **bjb Tandamata *Payroll***
   Perubahan pada biaya Administrasi **bjb** Tandamata Payroll berdasarkan Tiering Rp2 ribu,sampai dengan Rp7 ribu.

3. **bjb Deposito *Online***
   a. Implementasi **bjb** Deposito Online pada DIGI bank **bjb**.

   b. Pengembangan Fitur SiSuka Online pada DIGI bank **bjb**.
   c. Penyusunan tiering rate dan penempatan awal **bjb** Deposito Suka-Suka Online.
4. **Pengembangan pada fitur Harian dan Mingguan bjb T-Samsat Pada DIGI bank bjb**
   Pemblokiran PKB pada **bjb** T-Samsat dilakukan dengan pemblokiran sejumlah saldo pada rekening nasabah sesuai jumlah tagihan PKB pada **bjb** T-Samsat sesuai data resmi BAPENDA dengan mekanisme:

   a. Blokir Berkala
      - Bulanan: Tanggal blokir otomatis yang dapat dipilih antara tanggal 1-28.
      - Mingguan: Hari blokir otomatis yang dapat dipilih antara hari Senin-Minggu.
      - Harian: Sistem akan secara otomatis melakukan blokir setiap harinya.

Strategi bank bjb dalam Mendukung Kegiatan DPK di Tahun 2025

Langkah-langkah strategi bank **bjb** dalam mendukung kegiatan DPK di tahun 2025 adalah melakukan perluasan kerjasama penghimpunan dana pihak ketiga baik *Business to Government* (B to G) maupun *Business to Business* (B to B) diantaranya:

1. **Pusat Layanan Pembiayaan Pendidikan (PUSLAPDIK) Kementerian Pendidikan Dasar dan Menengah Republik Indonesia**
   Penyaluran dana Tunjangan Profesi Guru (Sertifikasi) Non ASN dengan potensi dana total sebesar ± Rp1,9 triliun dengan jumlah penerima sebanyak ± 75.539 tenaga pengajar.
2. **Lembaga Layanan Pendidikan Tinggi Wilayah 3 Jakarta**
   Penyaluran dana Tunjangan Profesi Dosen (Sertifikasi) Non ASN dengan potensi dana total sebesar ± Rp30 miliar dengan jumlah penerima sebanyak ± 821 tenaga pengajar. Adapun tahun 2026 terdapat potensi penambahan

Development of bank bjb Fund Products in 2025

The detailed development of bank **bjb** fund products in 2025 is as follows:

1. **Implementation of bjb Tandamata My Goals on DIGI bank bjb**
   a. Development within the DIGI bank **bjb** application related to the **bjb** Tandamata My Goals feature, specifically the Qurban feature (BEREHAN).
   b. Enhancement of the minimum deposit requirement for **bjb** Tandamata My Goals to IDR50 thousand in multiples of IDR50 thousand for weekly and monthly deposits.
2. **bjb Tandamata Payroll**
   Adjustment to the administrative fee for **bjb** Tandamata Payroll based on tiering, ranging from IDR2 thousand to IDR7 thousand.
3. **bjb Online Deposits**
   a. Implementation of **bjb** Online Deposits on DIGI bank **bjb**.
   b. Development of the SiSuka Online feature on DIGI bank **bjb**.
   c. Formulation of the tiering rate and initial placement for **bjb** Deposito Suka-Suka Online.
4. **Enhancement of Daily and Weekly Features of bjb T-Samsat on DIGI bank bjb**
   The blocking of PKB in **bjb** T-Samsat is carried out by blocking a certain amount of balance in the customer's account in accordance with the PKB bill amount in **bjb** T-Samsat, based on official data from BAPENDA, with the following mechanism:
   a. Periodic Blocking
      - Monthly: Automatic blocking date that can be selected between the 1st and 28th.
      - Weekly: Automatic blocking day that can be selected between Monday and Sunday.
      - Daily: The system will automatically perform blocking on a daily basis.

Strategy of bank bjb in Supporting Third Party Funds (TPF) Activities in 2025

The strategic steps undertaken by bank **bjb** in supporting Third Party Funds (TPF) activities in 2025 include expanding cooperation in mobilizing third party funds through both Business to Government (B to G) and Business to Business (B to B) schemes, including the following:

1. **Pusat Layanan Pembiayaan Pendidikan (PUSLAPDIK) Ministry of Primary and Secondary Education of the Republic of Indonesia**
   Distribution of Non-ASN Teacher Professional Allowance (Certification) funds with a total potential fund of approximately IDR1.9 trillion to approximately 75,539 teaching personnel.
2. **Higher Education Service Institution Region III Jakarta**
   Distribution of Non-ASN Lecturer Professional Allowance (Certification) funds with a total potential fund of approximately IDR30 billion to approximately 821 teaching personnel. In 2026, there is a potential increase of

sebanyak ± 400 tenaga pengajar dengan total dana sebesar ± Rp15 miliar.

3. **Kementerian Agama Kantor Wilayah Provinsi DKI Jakarta**
   Penyaluran dana Tunjangan Profesi Guru (Sertifikasi) Non ASN dengan potensi dana total sebesar ± Rp15,2 miliar dengan jumlah penerima sebanyak ± 388 tenaga pengajar. Adapun tahun 2026 terdapat potensi penambahan sebanyak ± 1.807 tenaga pengajar dengan total dana sebesar ± Rp43,3 miliar.
4. **PT Asuransi Angkatan Bersenjata Republik Indonesia (Persero)**
   Pembayaran gaji pensiunan TNI/POLRI dan ASN KEMHAN/ POLRI yang dikelola oleh PT ASABRI (Persero) dengan potensi dana total sebesar Rp313,3 miliar kepada 10.705 pensiunan
5. **Kepolisian Daerah (POLDA) Jawa Barat**
   Penyaluran dana Tunjangan Kinerja (tukin) polisi yang bertugas di Kepolisian Daerah Jawa Barat dengan potensi dana total sebesar ±Rp1,2 triliun kepada 42.000 anggota polisi di Jawa Barat
6. **PT Tabungan dan Asuransi Pegawai Negeri (Persero)**
   Pembayaran gaji pensiunan ASN yang dikelola oleh PT TASPEN (Persero) dengan potensi dana total sebesar Rp7,1 triliun kepada 162.957 pensiunan ASN, adapun salah satu strategi NoA Pensiunan dengan kerjasama antara bank **bjb** dengan Pengurus Besar Persatuan Wredatama Republik Indonesia terkait pemanfaatan Kartu ATM Co-Branding.
7. **Insentif Satgas Papua Yonif 303/Garut dan 321/ Majalengka**
   Penyaluran Insentif untuk Anggota Satgas Papua di Yonif 303/Garut dan Yonif 321/Majalengka kepada sebanyak ± 400 Anggota dengan penyaluran sebesar ± Rp25 miliar/ tahun
8. **Penyaluran Tunjangan Profesi Guru (ASN)**
   Penyaluran dana Tunjangan Profesi Guru (Sertifikasi) Aparatur Sipil Negara (ASN) dengan total penyaluran dana di tahun 2025 sebesar ± Rp8 triliun yang tersebar di wilayah Jawa Barat dan Banten untuk seluruh jenjang.

approximately 400 teaching personnel with a total fund of approximately IDR15 billion.

3. **Ministry of Religious Affairs Regional Office of DKI Jakarta Province**
   Distribution of Non-ASN Teacher Professional Allowance (Certification) funds with a total potential fund of approximately IDR15.2 billion to approximately 388 teaching personnel. In 2026, there is a potential increase of approximately 1,807 teaching personnel with a total fund of approximately IDR43.3 billion.
4. **PT Asuransi Angkatan Bersenjata Republik Indonesia (Persero)**
   Payment of pension benefits for retired TNI/POLRI personnel and ASN of the Ministry of Defense/POLRI managed by PT ASABRI (Persero) with a total potential fund of IDR313.3 billion distributed to 10,705 pensioners.
5. **West Java Regional Police (POLDA Jawa Barat)**
   Distribution of performance allowance (tukin) for police officers serving in the West Java Regional Police with a total potential fund of approximately IDR1.2 trillion distributed to 42,000 police personnel in West Java.
6. **PT Tabungan dan Asuransi Pegawai Negeri (Persero)**
   Payment of pension benefits for retired ASN managed by PT TASPEN (Persero) with a total potential fund of IDR7.1 trillion distributed to 162,957 retired ASN. One of the strategies to increase the number of pensioner accounts (NoA) is through cooperation between bank **bjb** and the Central Board of Persatuan Wredatama Republik Indonesia regarding the utilization of Co-Branding ATM Cards.
7. **Papua Task Force Incentives Yonif 303/Garut and 321/ Majalengka**
   Distribution of incentives for members of the Papua Task Force in Yonif 303/Garut and Yonif 321/Majalengka to approximately 400 personnel with a total distribution of approximately IDR25 billion per year.
8. **Distribution of Teacher Professional Allowance (ASN)**
   Distribution of Teacher Professional Allowance (Certification) funds for State Civil Apparatus (ASN) with a total distribution in 2025 of approximately IDR8 trillion across the West Java and Banten regions covering all education levels.

Produktivitas Dana Pihak Ketiga Konsumer

Uraian produktivitas DPK konsumer disajikan sebagai berikut.

Consumer Third Party Funds Productivity

The description of consumer TPF productivity is presented as follow.

Tabel Produktivitas Dana Pihak Ketiga Konsumer
Table of Consumer Third Party Funds Productivity

(dalam jutaan Rupiah / in IDR million)

Dana Pihak Ketiga	2025	2024	2023	2022	2021	Pertumbuhan Growth 2024-2025		Third Party Fund
	(Rp) (IDR)	(Rp) (IDR)	(Rp) (IDR)	(Rp) (IDR)	(Rp) (IDR)	(Rp) (IDR)	(%)	
Giro	**466,428**	623,081	757,503	1,107,699	976,410	(156,653)	(25.14%)	Current Account

Dana Pihak Ketiga	2025 (Rp) (IDR)	2024 (Rp) (IDR)	2023 (Rp) (IDR)	2022 (Rp) (IDR)	2021 (Rp) (IDR)	Pertumbuhan Growth 2024-2025 (Rp) (IDR)	Pertumbuhan Growth 2024-2025 (%)	Third Party Fund
Tabungan	**32,305,523**	31,588,008	27,623,296	26,552,281	24,685,441	717,515	2.27%	Savings

- Parking Tax, Hotel Tax, Restaurant Tax, Entertainment Tax, Non-Metal and Rock Mineral Tax, Swallow's Nest Tax, Groundwater Tax, Advertising Tax, Public Street Lighting Tax.
- Now **bjb** E-Tax services are increasingly not only cities/regencies in West Java and Banten, but have added the scope of **bjb** e-tax services, namely DKI Jakarta Province, Batam City Government, and Pekanbaru City Government. Transaction service points have also been expanded through cooperation with Alfamart, IndoMarch, and the Post Office.

5. **bjb E-Samsat**

   Merupakan penerimaan pembayaran pajak kendaraan bermotor tahunan untuk perorangan wilayah Jawa Barat melalui ATM bank **bjb.** Saat ini bersama-sama Tim Pembina Samsat Jawa Barat telah meluncurkan program "Samsat J'Bret" (Samsat Jawa Barat Ngabred) yang memungkinkan pembayaran dilakukan diluar *channel* bank **bjb** seperti Alfamart, Indomaret, Tokopedia, Bukalapak, dan PPOB. bank **bjb** juga telah melakukan perluasan pembayaran Pajak Kendaraan Bermotor (PKB) dan Sumbangan Wajib Dana Kecelakaan Lalu Lintas Jalan (SWDKLLJ) Provinsi Jawa Barat yang tidak hanya bisa bertransaksi di seluruh *delivery channel* bank **bjb** tapi juga bisa dilakukan pembayaran melalui gerai *modern channel* Alfamart dan Indomaret serta pembayaran yang dilakukan melalui *collecting agent* diantaranya Tokopedia, Bukalapak dan Kaspro.

   Di Wilayah Provinsi Banten, bank **bjb** bersama dengan Tim Pembina Samsat Provinsi Banten terus berupaya melakukan peningkatan layanan dan meluncurkan berbagai inovasi

5. **bjb E-Samsat**

   Represents receipt of annual Motorized Vehicle Tax payments for individuals in the West Java region through bank **bjb** ATMs. Currently, together with the West Java Samsat Development Team, **bjb** launched the "Samsat J'Bret" program (West Java Samsat Ngabred) which allows payments to be made outside bank **bjb** channels such as Alfamart, Indomart, Tokopedia, Bukalapak, and PPOB. bank **bjb** has also expanded the payment of Motor Vehicle Tax (PKB) and Obligatory Road Traffic Accident Fund Donations (SWDKLLJ) of West Java Province which can not only make transactions on all bank **bjb** delivery channels but can also make payments through Alfamart and IndoMarch Modern Channel Outlets as well as payments made through collecting agents including Tokopedia, Bukalapak and Kaspro.

   In the Banten Province Region, bank **bjb** together with the Banten Province Samsat Supervisory Team continues to strive to improve services and launch various service

layanan untuk lebih mempermudah masyarakat dalam melakukan pembayaran Pajak Kendaraan Bermotor yakni dengan perluasan pembayaran melalui 6 (enam) kanal pembayaran yang sudah sangat dikenal oleh Masyarakat (Indomaret, Alfamart, Tokopedia, Bukalapak, Gopay dan Link Aja).

innovations to make it easier for the public to make motor vehicle tax payments, namely by expanding payments through 6 (six) payment channels that are well known to the Public (IndoMarch, Alfamart, Tokopedia, Bukalapak, Gopay and Link Aja).

Produktivitas Dana Pihak Ketiga Institusi (Kelembagaan)

Uraian produktivitas DPK nasabah institusi disajikan sebagai berikut.

Institutional Third Parties Funds Productivity

The description of the TPF productivity of institutional customer is presented as follows.

Tabel Produktivitas Dana Pihak Ketiga Nasabah Institusi
Table of Produktivitas Third Party Fund Nasabah Institusi

(dalam jutaan Rupiah / in IDR million)

Dana Pihak Ketiga	2025	2024	2023	2022	2021	Pertumbuhan Growth 2024-2025		Third Party Fund
	(Rp) (IDR)	(Rp) (IDR)	(Rp) (IDR)	(Rp) (IDR)	(Rp) (IDR)	(Rp) (IDR)	(%)	
Giro	**18,158,399**	17,748,474	20,814,108	23,976,572	24,936,974	409,925	2.31%	Current Account
Deposito	**56,326,626**	59,473,063	62,154,653	59,616,017	51,748,833	(3,146,437)	(5.29%)	Deposits
Tabungan	**1,989,093**	2,605,328	3,693,513	1,854,929	1,541,312	(616,235)	(23.65%)	Savings
Total DPK Nasabah Institusi	**76,474,119**	**79,826,864**	**86,662,274**	**85,447.52**	**78,227,119**	**(3,352,745)**	**(4.20%)**	**Total TPF Institution Customer**

Total DPK nasabah institusi pada tahun 2025 mencapai Rp76,47 triliun, menurun 4,20% atau Rp3,35 triliun dibandingkan dengan tahun 2024 yang mencapai Rp79,83 triliun. Penurunan tersebut khususnya berasal dari turunnya deposito sebesar Rp3,15 triliun.

Total Third Party Funds (TPF) from institutional customers in 2025 amounted to IDR76.47 trillion, decreasing by 4.20% or IDR3.35 trillion compared to IDR79.83 trillion in 2024. This decline was primarily attributable to a decrease in time deposits of IDR3.15 trillion.

Sesuai dengan tugas dan tanggung jawab Divisi *Institutional & Wholesale Banking* sebagai Divisi yang membuka jalan kemitraan bisnis dengan nasabah institusi, pada tahun 2025

In line with the roles and responsibilities of the Institutional & Wholesale Banking Division as the division that initiates business partnerships with institutional customers, in 2025

Divisi *Institutional & Wholesale Banking* senantiasa bersinergi dengan nasabah institusi untuk meningkatkan hubungan bisnis yang saling menguntungkan.

Pada tahun 2025 Divisi *Institutional & Wholesale Banking* mengelola 62,09% dari DPK bank **bjb** atau sebesar Rp75,91 triliun dari total kelolaan bank **bjb** sebesar Rp122,271 triliun. Dalam perjalanan tahun 2025 Divisi *Institutional & Wholesale Banking* semakin fokus dalam menerapkan strategi sinergi dan kolaborasi dalam membangun kerjasama dengan nasabah institusi dalam upaya optimalisasi *product holding*. Kerjasama yang semakin baik dengan Divisi Teknologi Informasi dalam meningkatkan teknologi perbankan dengan menghasilkan inovasi layanan-layanan berbasis teknologi yang membantu transaksi perbankan untuk nasabah institusi seperti kerjasama *aggregator* penerimaan pajak daerah dalam peningkatan *fee based income* yang memungkinkan nasabah membayar di *channel* lain yang dikerjasamakan *(modern channel, e-commerce,* dan PPOB) serta layanan-layanan pemberian solusi aplikasi kepada segmentasi nasabah seperti SIMRS untuk nasabah Rumah Sakit dan Edusmart untuk nasabah lembaga pendidikan serta layanan kepada pemerintah daerah seperti Kartu Kredit Indonesia (KKI).

Divisi *Institutional & Wholesale Banking* juga berkomunikasi secara intensif dan bekerjasama dengan Divisi Bisnis lain *(collaboration marketing)* dalam mengimplementasikan *product holding* bank **bjb** dalam menggarap nasabah institusi.

the Institutional & Wholesale Banking Division continued to synergize with institutional clients to strengthen mutually beneficial business relationships.

In 2025, the Institutional & Wholesale Banking Division managed 62.09% of bank **bjb**'s Third Party Funds (TPF), or IDR75.91 trillion, out of the Bank's total managed funds of IDR122.271 trillion. Throughout 2025, the Institutional & Wholesale Banking Division increasingly focused on implementing synergy and collaboration strategies in building partnerships with institutional customers as part of efforts to optimize product holding. Closer collaboration with the Information Technology Division has also supported improvements in banking technology through the development of technology-based service innovations that facilitate banking transactions for institutional customers. These include cooperation with regional tax collection aggregators to enhance fee-based income, enabling customers to make payments through various partnered channels (modern channels, e-commerce platforms, and PPOB), as well as application-based solutions tailored to specific customer segments, such as SIMRS for hospital customers and Edusmart for educational institutions. In addition, services for regional governments include the implementation of the Kartu Kredit Indonesia (KKI).

The Institutional & Wholesale Banking Division also maintained intensive communication and collaboration with other Business Divisions (collaboration marketing) in implementing bank **bjb**'s product holding strategy in serving institutional customers.

Grafik Pencapaian Dana Pihak Ketiga Institusi

f. **Go Green Environment,** Various programs as part of bank **bjb**'s commitment to environmental sustainability and the provision of Corporate Social Responsibility (CSR).

2. **Desa Digital bank bjb**

Ekosistem di Desa memiliki potensi besar terutama dalam pengelolaan keuangan mulai dari Dana Desa, Pendapatan Asli Desa (PADesa), Alokasi Dana Desa (ADD), Dana Bagian dari Pajak dan Retribusi Daerah, Hibah dan Sumbangan Pihak Ketiga. Hal tersebut harus didukung oleh pemberian fasilitas baik produk dan layanan perbankan yang sesuai dengan kebutuhan Desa agar terwujud pembangunan yang berkesinambungan di Desa. bank **bjb** selaku bank pemerintah daerah hadir dalam mendukung perkembangan perekonomian desa dengan memberikan layanan yang cepat dan inovatif dalam hal layanan publik melalui program Desa digital **bjb**. Desa Digital **bjb** merupakan program berkesinambungan dalam membentuk ekosistem keuangan desa yang terintegrasi dengan layanan perbankan dalam memberikan kontribusi dan berpartisipasi sebagai penggerak dan pendorong perekonomian di Desa dengan:

2. **Desa Digital bank bjb**

The village ecosystem has significant potential, particularly in financial management, ranging from Village Funds, Village Original Revenue (PADesa), Village Fund Allocation (ADD), revenue-sharing from regional taxes and levies, grants, and third-party donations. This potential needs to be supported by the provision of appropriate banking products and services that align with the needs of villages in order to achieve sustainable development at the village level. As a regional government-owned bank, bank **bjb** plays a role in supporting the development of the village economy by providing fast and innovative public service solutions through the **bjb** Digital Village program The **bjb** Digital Village is a sustainable program aimed at establishing an integrated village financial ecosystem connected with banking services, contributing and participating as a driver and catalyst for economic growth in villages through the following initiatives:

a. Peningkatan konektivitas akses keuangan di Desa melalui berbagai program dan layanan perbankan seperti implementasi *Internet Banking Corporate* (IBC), integrasi *Internet Banking Corporate* (IBC) dengan Sistem Keuangan Desa, Implementasi Laku Pandai (**bjb** BISA) serta layanan lainnya yang memberikan kemudahan akses dalam pengelolaan keuangan di Desa seperti QRIS bagi BUMDES, Koperasi dan *Merchant* di Desa serta fasilitas DPLK.
b. Pemberian fasilitas pembiayaan baik produktif maupun konsumtif. Dari sisi kredit produktif diberikan untuk para pelaku UMKM di Desa serta pemberian pelatihan kewirausahaan melalui program PESAT (Pemberdayaan Masyarakat Ekonomi Terpadu) sedangkan untuk kredit konsumtif diberikan penyaluran kredit bagi perangkat Desa sebagai salah satu upaya dalam meningkatkan kesejahteraan dan daya beli masyarakat di Desa.
c. Kolaborasi dengan berbagai institusi yang memberikan nilai tambah bagi kemajuan Desa menjadi salah satu upaya mewujudkan program Desa Digital **bjb,** seperti pengembangan kerjasama pola kemitraan dengan BUMN (RNI dan Pertamina), sinergi bisnis melalui *cross biller* dengan Perum BULOG serta program-program lainnya baik dengan Kementerian maupun Dinas terkait di Provinsi dan Kabupaten.

a. Enhancing financial access connectivity in villages through various banking programs and services, such as the implementation of Internet Banking Corporate (IBC), integration of Internet Banking Corporate (IBC) with the Village Financial System, implementation of Laku Pandai (**bjb** BISA), as well as other services that facilitate village financial management, including QRIS for BUMDES, cooperatives, and merchants in villages, as well as DPLK facilities.
b. Providing financing facilities, both productive and consumptive. Productive financing is provided to MSME players in villages, along with entrepreneurship training through the PESAT (Integrated Economic Community Empowerment) program. Meanwhile, consumptive financing is provided through credit distribution to village officials as part of efforts to improve welfare and purchasing power in villages.
c. Collaboration with various institutions that provide added value for village development as part of efforts to realize the **bjb** Digital Village program, including the development of partnership cooperation schemes with State-Owned Enterprises (RNI and Pertamina), business synergy through cross-biller arrangements with Perum BULOG, as well as other programs with relevant Ministries and Regional Agencies at the provincial and regency levels.

Faktor Pendukung dan Penghambat Bisnis Dana Pihak Ketiga Institusi (Kelembagaan)

Faktor pendukung kegiatan Divisi *Institutional & Wholesale Banking* adalah komunikasi yang intensif dengan lintas Divisi, Kantor Wilayah dan Kantor Cabang bank **bjb** sehingga terjadi *collaboration marketing* dimana dalam menggarap nasabah institusi, nasabah mendapatkan layanan-layanan perbankan yang ada di bank **bjb** dalam satu paket/bundel. Dengan begitu, tentu membantu pelaksanaan strategi dan pencapaian target Divisi *Institutional & Wholesale Banking* khususnya dan target bank **bjb** secara keseluruhan. Hal tersebut sejalan dengan fungsi dari optimalisasi *product holding* bagi nasabah-nasabah institusi yang melekat pada Divisi Institutional & Wholesale Banking.

Faktor penghambatnya yakni lebih kepada kondisi likuiditas menjelang akhir tahun 2024 cukup ketat, beberapa kali tingkat suku bunga acuan mengalami kenaikan yang menyebabkan bank harus menyesuaikan dengan menaikan tingkat suku bunga. Selain isu likuiditas, isu digitalisasi baik untuk sektor ritel maupun pemerintah daerah menjadi salah satu fokus utama dalam proses pengembangan produk dan layanan.

Strategi Dana Pihak Ketiga Institusi (Kelembagaan) Tahun 2026

Divisi *Institutional & Wholesale Banking* melakukan beberapa strategi utama dalam rangka meningkatkan pencapaian dan melebihi pencapaian tahun 2025 sesuai dengan ASDT 2026 sebagai berikut:

Supporting and Inhibiting Factors of Institutional Third Party Fund Business Factors supporting

Factors supporting the activities of the Institutional Relations Division are intensive communication with cross-Divisions, Regional Offices and bank **bjb** Branch Offices so that collaboration marketing occurs in working on institutional customers, customers get banking services at bank **bjb** in one package/bundle. That way, it certainly helps implement the strategy and achieve the targets of the Institutional Relations Division in particular and bank **bjb** targets as a whole. This is in line with the function of optimizing product holding for institutional customers attached to the Institutional & Wholesale Banking Division.

The inhibiting factor is that the liquidity conditions towards the end of 2024 were quite tight, several times the benchmark interest rate increased which caused banks to have to adjust by raising interest rates. In addition to liquidity issues, digitalization issues for both the retail sector and local government became one of the main focuses in the product and service development process.

Strategy for Institutional Third Party Funds for 2026

The Institutional & Wholesale Banking Division implemented several key strategies to enhance performance and exceed the 2025 achievements in line with ASDT 2026, as follows:

1. ***Business Ecosystem***
   a. Akuisisi potensi dari ekosistem nasabah existing dan implementasi MoU/PKS dalam peningkatan size wallet nasabah dalam upaya menumbuhkan bisnis bank **bjb**.
   b. Orientasi pada peningkatan profitabilitas dari setiap nasabah.
2. **Perluasan Kerjasama**
   Ekspansi terhadap nasabah institusi baru sebagai perluasan dan perluasan dan penguatan bisnis bank **bjb** dalam mendukung pencapaian target bisnis serta konsistensi bank **bjb** dalam memajukan perekonomian daerah melalui dukungan transaksi pengelolaan keuangan dan kerjasama layanan perbankan
3. **Peningkatan CASA dan *Transactional Banking***
   a. bank **bjb** sebagai *transactional banking* dalam upaya peningkatan DPK murah untuk menumbuhkan CASA *ratio*.
   b. Optimalisasi *fee based income* melalui layanan *e-channel* maupun jaringan kantor.
   c. Mendukung dan berperan aktif dalam program pemerintah untuk mensukseskan program Elektronifikasi Transaksi Pemerintah Daerah (ETPD).

1. **Business Ecosystem**
   a. Acquisition of potential business from existing customer ecosystems and implementation of MoUs/Cooperation Agreements (PKS) to increase customer wallet share, as part of efforts to drive the growth of bank **bjb**'s business.
   b. Focus on enhancing profitability from each customer.
2. **Expansion of Partnerships**
   Expansion to new institutional customers as part of broadening and strengthening bank **bjb**'s business, in support of achieving business targets and maintaining the Bank's commitment to advancing regional economic development through financial management transactions and banking service partnerships.
3. **Enhancement of CASA and Transactional Banking**
   a. Positioning bank **bjb** as a transactional banking partner to increase low-cost funds (DPK) and improve the CASA ratio.
   b. Optimization of fee-based income through e-channel services and branch network.
   c. Supporting and actively participating in Government programs to promote the Electronification of Regional Government Transactions (ETPD).

Produktivitas *Wealth Management*

Melalui layanan *wealth management*, bank **bjb** mencatatkan perolehan *fee based income* atas pemasaran produk reksa dana dan *bancassurance*. Uraian produktivitas *wealth management* disajikan sebagai berikut.

Wealth Management Productivity

Through wealth management services, bank **bjb** recorded fee based income from marketing mutual fund and bancassurance products. A description of wealth management productivity is presented as follows.

Tabel Perolehan *Fee Based Income* Produk *Wealth Management*
Table of Earning Fee Based Income for Wealth Management Products

(dalam jutaan Rupiah / in IDR million)

Tahun	2025	2024	2023	2022	2021	Pertumbuhan Growth 2024-2025		Year
	(Rp) (IDR)	(Rp) (IDR)	(Rp) (IDR)	(Rp) (IDR)	(Rp) (IDR)	(Rp) (IDR)	(%)	
Bancassurance	**4,430**	4,893	4,523	4,803	5,920	(463)	(9.46%)	Bancassurance
Reksa Dana	**1,356**	1,502	3,085	4,614	2,267	(146)	(9.72%)	Mutual Fund
Total	**4,430**	**6,395**	**7,608**	**9,417**	**8,188**	**(1,965)**	**(30.73%)**	Total

Sepanjang tahun 2025, perolehan *fee based income* dari aktivitas *wealth management* mencapai Rp4,43 miliar, turun 30,73% dibandingkan dengan tahun 2024 yang mencapai Rp6,40 miliar. Hal tersebut khususnya berasal dari turunnya *fee based income* dari *bancassurance* sebesar Rp463 juta.

Throughout 2025, fee-based income generated from wealth management activities amounted to IDR4.43 billion, representing a decrease of 30.73% compared to IDR6.40 billion in 2024. This decline was primarily attributable to lower fee-based income from bancassurance, which decreased by IDR463 million.

Adapun jumlah premi dan *Asset Under Management* (AUM) dari aktivitas layanan *wealth management* yang dikelola bank **bjb** yaitu sebagai berikut:

The total premium and Assets Under Management (AUM) generated from wealth management services managed by bank **bjb** are presented as follows:

Tabel Pertumbuhan *Asset Under Management* Reksa Dana dan Premi *Bancassurance*
Table of Asset Under Management Mutual Fund and Bancassurance Premium Growth

(dalam jutaan Rupiah / in IDR million)

Tahun	2025	2024	2023	2022	2021	Pertumbuhan Growth 2024-2025		Year
	(Rp) (IDR)	(Rp) (IDR)	(Rp) (IDR)	(Rp) (IDR)	(Rp) (IDR)	(Rp) (IDR)	(%)	
Premi *Bancassurance*	**16,171**	32,390	30,515	27,869	20,703	(16,219)	(50.07%)	Premi Bancassurance
AUM Reksa Dana	**446,648**	241,640	323,543	702,723	737,339	205,008	84.84%	AUM Mutual Fund

Premi *bancassurance* tahun 2025 mencapai Rp16,17 miliar, menurun sebesar 50,07% dibandingkan tahun 2024 mencapai Rp32,39 miliar. Penurunan premi *bancassurance* pada tahun 2025 disebabkan oleh adanya perubahan produk *bancassurance* yang dipasarkan. Di sepanjang tahun 2025 produk yang dipasarkan fokus pada produk asuransi tradisional dan bank **bjb** tidak memasarkan produk *unit link* atau PAYDI (Produk Asuransi Yang Dikaitkan Dengan Investasi). Hal ini berdampak juga pada perolehan *fee based income* bagi bank **bjb**.

Bancassurance premiums in 2025 amounted to IDR16.17 billion, representing a decline of 50.07% compared to IDR32.39 billion in 2024. The decrease in bancassurance premiums in 2025 was attributable to changes in the bancassurance products marketed. Throughout 2025, the products offered were focused on traditional insurance products, and bank **bjb** did not market unit-linked or PAYDI (Investment-Linked Insurance Products). This condition also affected the fee-based income generated by bank **bjb**.

Sementara itu pada produk reksa dana, terjadi pertumbuhan *Asset Under Management* (AUM) reksa dana. AUM reksa dana tahun 2025 mencapai Rp446,65 miliar, meningkat 84,84% dibandingkan dengan tahun tahun 2024 yang mencapai Rp241,64 miliar. Selain perbaikan kinerja investasi pada *underlying asset* reksadana baik obligasi maupun saham pada triwulan IV tahun 2025 , penurunan tingkat suku bunga simpanan juga menjadi pendorong pertumbuhan AUM reksa dana. Nasabah memilih alternatif investasi lain dalam hal ini reksa dana dalam rangka optimalisasi pertumbuhan aset yang dimiliki.

Meanwhile, in mutual fund products, growth was recorded in Assets Under Management (AUM). Mutual fund AUM in 2025 reached IDR446.65 billion, increasing by 84.84% compared to IDR241.64 billion in 2024. In addition to improved investment performance in the underlying assets of mutual funds, both bonds and equities in the fourth quarter of 2025, the decline in deposit interest rates also contributed to the growth in mutual fund AUM. Customers increasingly chose alternative investment instruments, particularly mutual funds, to optimize the growth of their investment portfolios.

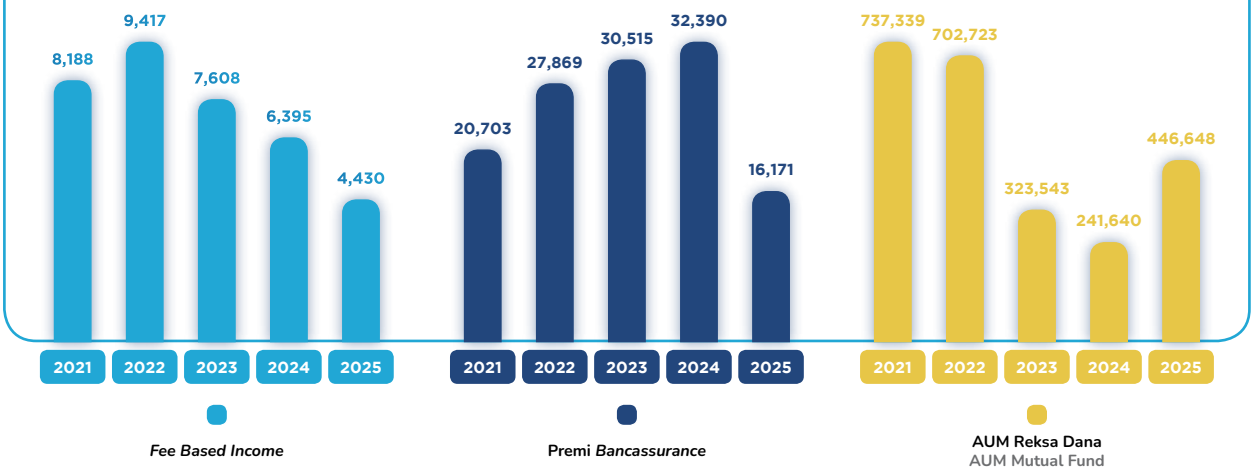
(dalam jutaan Rupiah / in IDR million)



Strategi dan Program Pemasaran *Wealth Management* Tahun 2026

Dalam rangka meningkatkan perolehan *fee based income* dari produk-produk *wealth management* pada tahun 2026, bank **bjb** akan melakukan berbagai program dan strategi pemasaran produk untuk meningkatkan penjualan produk reksa dana dan *bancassurance*. Beberapa program dan strategi yang dilakukan diantaranya yaitu:

1. **Produk Baru *Wealth Management***
   Penambahan beragam pilihan produk *bancassurance traditional insurance*, termasuk pengembangan jalur pemasaran melalui *channel* Telemarketing dan digital. Penambahan produk baru disamping memberikan berbagai alternatif pilihan produk bagi nasabah, juga akan memberikan potensi perolehan *fee based income* bagi bank **bjb**.
2. **Aktivitas Pemasaran**
   Untuk meningkatkan penjualan produk *wealth management* di tahun 2026, aktivitas pemasaran yang akan dilakukan diantaranya:
   a. Penyelenggaraan acara *table talk* dan *customer gathering* dengan mengundang Nasabah bank **bjb** berkoordinasi dengan Kantor Cabang sekaligus memberikan atensi kepada komunitas-komunitas khusus nasabah bank **bjb**.
   b. Melakukan *monitoring* ke seluruh Regional bank **bjb** terkait *Refreshment* Produk *Wealth Management*, maupun *Campaign* Program Promosi yang sedang berlangsung,
   c. Melakukan literasi kepada nasabah bank **bjb** dengan menyelenggarakan acara bersama Divisi lain maupun mitra asuransi/manajer investasi, baik secara *offline* maupun *online*.

Wealth Management Marketing Strategy and Program for 2026

In order to increase the acquisition of Fee Based Income from Wealth Management products in 2026, bank **bjb** carried out various product marketing programs and strategies to increase sales of mutual fund and bancassurance products. Some of the programs and strategies carried out include:

1. **Wealth Management New Product**
   Addition of various traditional insurance bancassurance product options, including the development of marketing channels through telemarketing and digital channels. The addition of new products not only provides customers with a wider range of product alternatives but also offers potential for generating fee-based income for bank **bjb**.

2. **Marketing Activity**
   To increase sales of wealth management products in 2026, marketing activities that will be carried out include:

   a. Organizing table talk events and customer gatherings by inviting bank **bjb** customers in coordination with Branch Offices while also providing engagement with specific communities of bank **bjb** customers.

   b. Conducting monitoring across all bank **bjb** Regional Offices regarding Wealth Management product refreshment as well as ongoing promotional campaign programs.
   c. Conducting financial literacy initiatives for bank **bjb** customers by organizing events together with other Divisions as well as insurance partners/investment managers, both offline and online.

d. Melakukan kolaborasi pemasaran kepada lembaga-lembaga baik Pemerintah maupun swasta untuk meningkatkan literasi dan inklusi terkait produk-produk *wealth management*.
e. Penyelenggaraan *join event* dengan Kantor Cabang dan **bjb** Prioritas melalui berbagai kegiatan olah raga, komunitas dan lainnya untuk meningkatkan jumlah NOA dan perolehan *fee based income*.

3. **Program Promosi**
   Mengembangkan beragam program promosi dan pemasaran yang dapat menambah *value* bagi nasabah yang melakukan pembelian produk *wealth management* dan meningkatkan *product holding* di bank **bjb** serta peningkatan aktivitas penjualan bagi pegawai bank **bjb** diantaranya:
   a. Program *customer reward* baik secara reguler maupun tematik yang menarik bagi nasabah.
   b. Program join promo dengan dengan produk lainnya seperti tabungan, deposito dan produk lainnya.
   c. Penyelenggaraan program *trip reward*.
   d. Program *member get member*.
   e. Program *employee reward* secara berkala untuk pegawai tenaga pemasar.
4. **Pengembangan Kompetensi SDM**
   Meningkatkan kompetensi para pegawai bank **bjb** dalam pemasaran produk *wealth management* melalui pelatihan atau sertifikasi yang dapat menunjang kebutuhan pemasaran di lapangan. Peningkatan *soft skill* melalui *sharing moment* dan berbagai aktivitas dalam rangka *update* pengetahuan serta peraturan dan ketentuan. Serta penyelenggaraan refreshment produk dan *market update* untuk meningkatkan pemahaman pegawai.
5. **Pengembangan Aplikasi *Wealth Management***
   Dalam rangka meningkatkan penetrasi penjualan produk *wealth management*, akan dikembangkan Aplikasi *wealth management* pada *mobile banking* bank **bjb** (DIGI bank **bjb**) diawali dengan penampilan portofolio *wealth management* nasabah pada DIGI bank **bjb**.

d. Conducting marketing collaboration with institutions, both government and private, to enhance literacy and inclusion related to wealth management products.
e. Organizing joint events with Branch Offices and **bjb** Prioritas through various activities such as sports, community events, and others to increase the number of accounts (NOA) and generate fee-based income.

3. **Promotion Program**
   Developing various promotional and marketing programs that can add value to customers who buy wealth management products and increase product holding at bank **bjb** as well as increasing sales activities for bank **bjb** employees including:
   a. Customer reward programs, both regular and thematic, that are attractive to customers.
   b. Joint promotional programs with other products such as savings, deposits, and other products.
   c. Organization of trip reward programs.
   d. Member-get-member programs.
   e. Periodic employee reward programs for marketing personnel.
4. **HR Competency Development**
   Enhancing the competency of bank **bjb** employees in marketing wealth management products through training or certification that supports marketing needs in the field. Improving soft skills through sharing sessions and various activities aimed at updating knowledge as well as regulations and provisions. In addition, conducting product refreshment and market updates to improve employees' understanding.
5. **Development of the Wealth Management Application**
   In order to increase the sales penetration of wealth management products, a wealth management application will be developed within bank **bjb**'s mobile banking (DIGI bank **bjb**), beginning with the display of customers' wealth management portfolios on DIGI bank **bjb**.

Tabel Pertumbuhan DPK dan Nasabah bjb Prioritas
Table of Growth of TPF and **bjb** Priority Customers

Uraian Description	2025	2024	2023	2022	2021	Pertumbuhan Growth 2024-2025		Pertumbuhan Growth 2021-2025	
	(Rp) (IDR)	(Rp) (IDR)	(Rp) (IDR)	(Rp) (IDR)	(Rp) (IDR)	(Rp) (IDR)	(%)	(Rp) (IDR)	(%)
DPK – **bjb** Prioritas (dalam miliar) TPF – **bjb** Prioritas (in billion)	**22,119**	20,238	15,853	13,468	11,923	1,881	9.30%	10,196	85.52%
Nasabah – **bjb** Prioritas (dalam nasabah) Customer – **bjb** Prioritas (in customer)	**18,985**	17,498	17,155	15,651	14,104	1,487	8.50%	4,881	34.61%

Pertumbuhan DPK **bjb** Prioritas selama 5 (lima) tahun terakhir, sejak tahun 2021 sampai dengan tahun 2025 mengalami kenaikan sebesar Rp10,20 triliun dengan pertumbuhan sebesar 85,52% dari posisi tahun 2021. DPK **bjb** Prioritas tahun 2025 sebesar Rp22,12 triliun, meningkat 9,30% dibandingkan dengan tahun 2024 yang sebesar Rp20,24 triliun. Peningkatan tersebut sejalan dengan pertumbuhan jumlah nasabah **bjb** Prioritas.

The growth of **bjb** Prioritas Third Party Funds (TPF) over the past five years, from 2021 to 2025, increased by IDR10.20 trillion, representing growth of 85.52% from the 2021 position. In 2025, **bjb** Prioritas TPF reached IDR22.12 trillion, increasing by 9.30% compared to IDR20.24 trillion in 2024. This increase was in line with the growth in the number of **bjb** Prioritas customers.

Pertumbuhan jumlah nasabah **bjb** Prioritas selama 5 (lima) tahun terakhir, sejak tahun 2021 sampai dengan tahun 2025 mengalami kenaikan sebesar 4.881 nasabah dengan pertumbuhan sebesar 34,61%. Pencapaian jumlah nasabah **bjb** Prioritas pada tahun 2025 adalah sebesar 18.985 nasabah, meningkat 8,50% dibandingkan dengan jumlah nasabah di tahun 2024 yang sebesar 17.498 nasabah. Peningkatan tersebut karena penerapan strategi tepat yang dilakukan oleh **bjb** Prioritas.

The number of **bjb** Prioritas customers over the past five years, from 2021 to 2025, increased by 4,881 customers, representing growth of 34.61%. The total number of **bjb** Prioritas customers in 2025 reached 18,985 customers, increasing by 8.50% compared to 17,498 customers in 2024. This growth was supported by the effective implementation of **bjb** Prioritas business strategies.

Rencana dan Strategi bjb Prioritas Tahun 2026

Strategi **bjb** Prioritas di tahun 2026, terdiri dari strategi *financial*, strategi *business development* dan strategi dalam *people development* atau sumber daya manusia di internal **bjb** Prioritas.

1. **Strategi Financial**
   Strategi financial meliputi program DPK dan program produk *wealth management*.
   a. **Program Produk DPK**
      - **Program *Saving's Club***
        Merupakan program *top-up fresh fund* untuk 10 - 20 nasabah per *Outlet* **bjb** prioritas, melalui mekanisme *hold* dana dalam produk tabungan berhadiah langsung dengan sistem undian, bentuk hadiah berupa paket umroh, motor, mobil, logam mulia, dan lain-lain.
      - **Program *Bundling Sureprize***
        Merupakan program *bundling* antara produk tabungan dan deposito atau tabungan dan *wealth product* dengan hadiah langsung berupa *cashback*.
      - **Program *Member Get Member***
        Merupakan program *referral* bagi nasabah eksisting **bjb** prioritas yang mereferensikan keluarga, saudara, rekan bisnis atau rekan kerjanya, dengan hadiah langsung berupa voucher belanja.
      - ***Thematic Hobby Program***
        Merupakan program khusus yang menyesuaikan dengan trend dan *hobby* yang sedang Hype, diberikan kepada nasabah terpilih yang memiliki potensi bisnis besar dan nasabah merupakan *centre of influence* dalam komunitas, perusahaan atau instansi tertentu. Program diberikan dalam momen tertentu.
   b. **Program Produk *Wealth Management***
      Cross selling produk investasi dan proteksi yang menghasilkan *fee based income* yaitu melalui *event customer gathering market outlook, investment expo, investment clinic* dan melalui *customer gathering* yang diadakan secara *reguler*.

2. **Strategi *Business Development***
   Strategi *business development* meliputi penambahan fasilitas dan layanan, *customer profiling*, pengadaan barang dan jasa serta pengembangan IT.
   a. **Penambahan Fasilitas dan Layanan**
      - **Penambahan *Safe Deposit Box*.**
        Penambahan fasilitas *safe deposit box* yang diberikan untuk nasabah **bjb** Prioritas kota besar yang potensial.
   b. **Penambahan *Outlet* bjb Prioritas**
      Untuk memenuhi kebutuhan bisnis yang dinamis serta dalam rangka ekspansi bisnis **bjb** prioritas, dilakukan pemekaran Kantor **bjb** Prioritas di Kantor Wilayah 1, 3 dan 4.

bjb Prioritas Plans and Strategies for 2026

The **bjb** Prioritas strategy in 2026, consists of a financial Strategy, Business Development Strategy and strategy in People Development or Human Resources in **bjb** Prioritas internally.

1. **Financial Strategy**
   The financial strategy includes third parties programs and Wealth Management product program.
   a. **TPF Product Program**
      - **Saving's Club Program**
        A fresh fund top-up program targeting 10–20 customers per **bjb** Prioritas outlet, implemented through a fund holding mechanism in a prize-linked savings product with a lottery-based system. Prizes offered include Umrah packages, motorcycles, cars, precious metals, and other rewards.
      - **Bundling Sureprize Program**
        A bundling program between savings products and time deposits, or between savings products and wealth products, offering direct rewards in the form of cashback.
      - **Member Get Member Program**
        A referral program for existing **bjb** Prioritas customers who successfully refer family members, relatives, business partners, or colleagues to join **bjb** Prioritas, with direct rewards provided in the form of shopping vouchers.
      - **Thematic Hobby Program**
        A special program designed to align with current trends and popular hobbies, offered to selected customers with significant business potential who act as centers of influence within their communities, companies, or institutions. The program is conducted at specific moments or occasions.
   b. **Produk Wealth Management Program**
      Cross-selling of investment and protection products generating fee-based income is carried out through customer engagement activities, including market outlook customer gatherings, investment expos, investment clinics, as well as regular customer gathering events.
2. **Business Development Strategy**
   Business development strategies include the enhancement of facilities and services, customer profiling, procurement of goods and services, as well as information technology development.
   a. **Addition of Facilities and Services**
      - **Addition of Safe Deposit Box.**
        The addition of safe deposit box facilities is provided for potential **bjb** Prioritas customers in major cities.
   b. **Expansion of bjb Prioritas Outlets**
      In order to accommodate dynamic business needs and support the business expansion of **bjb** Prioritas, the Bank carried out the establishment of additional **bjb** Prioritas offices within Regional Offices 1, 3, and 4.

c. ***Customer Profiling***
   - **Fasilitas Layanan bjb Prioritas**
     Sosialisasi berbagai benefit menjadi nasabah **bjb** Prioritas.
   - **Penambahan fitur kartu ATM VISA**
     Penambahan fitur kartu ATM VISA *Contactless* untuk nasabah **bjb** Prioritas.
   - ***Marketing Research Indonesia* (MRI)**
     Meningkatkan standarisasi kualitas layanan di setiap *outlet* **bjb** Prioritas.

3. **Strategi Pengembangan SDM**
   Strategi pengembangan SDM meliputi:

   a. ***Training***
      Penambahan intensitas *training* untuk internal team **bjb** Prioritas, baik *inhouse training* maupun eksternal *training*. Serta fokus kepada materi-materi training yang *aplicable* dan materi mengenai teknik penjualan.
   b. **Promosi**
      Mapping untuk program standarisasi *grade* khusus untuk *sales force* **bjb** Prioritas.

   c. **Rotasi dan Mutasi**
      Rotasi dilakukan untuk *refreshment staff* yang sudah *incharge* di satu *Outlet* **bjb** Prioritas lebih dari 5 (lima) tahun, mutasi dilakukan berdasarkan pencapaian KPI.

   d. **Penambahan *Staff* bjb Prioritas**
      Seiring dengan bertambahnya jaringan *Outlet* serta dana kelolaan nasabah **bjb** Prioritas, diperlukan penambahan *staff* **bjb** Prioritas di tahun 2026.

c. **Customer Profiling**
   - **bjb Prioritas Service Facilities**
     Dissemination of information regarding the various benefits of becoming a **bjb** Prioritas customer.
   - **Enhancement of ATM Card Features**
     The addition of VISA Contactless ATM card features for **bjb** Prioritas customers.
   - **Marketing Research Indonesia (MRI)**
     Improving the standardization of service quality across each **bjb** Prioritas outlet.

3. **Human Capital Development Strategy**
   The human capital development strategy includes the following initiatives:
   a. **Training**
      Increasing the intensity of training programs for the internal **bjb** Prioritas team, through both in-house and external training programs, with a focus on applicable training materials as well as sales techniques.
   b. **Promotion**
      Conducting a mapping process for the implementation of a standardized grading program specifically for the **bjb** Prioritas sales force.
   c. **Rotation and Transfer**
      Staff rotation is carried out as a refreshment measure for personnel who have been in charge of a **bjb** Prioritas outlet for more than five years, while transfers are implemented based on Key Performance Indicator (KPI) achievements.
   d. Additional **bjb** Prioritas Staff
      In line with the expansion of outlet networks and the growth in assets under management of **bjb** Prioritas customers, additional **bjb** Prioritas staff will be required in 2026.

INTERNATIONAL AND TRANSACTION BANKING

Penjelasan International and Transaction Banking

Secara garis besar produk yang dikelola *International and Transaction Banking* meliputi produk yang termasuk ke dalam transaksi bisnis antar bank dan transaksi bisnis kepada nasabah yang meliputi *trade finance and value chain, remittance, financial institution serta cash management.*

Produk Unggulan International and Transaction Banking

Terdapat beberapa produk dan jasa layanan unggulan atas transaksi-transaksi yang dikelola oleh Divisi *International & Transaction Banking*, yaitu:

1. *Term Loan Placement*
Term Loan merupakan fasilitas pinjaman yang diberikan kepada *Counterparty* Bank dengan jangka waktu tertentu hingga maksimal 3 (tiga) tahun. Fasilitas ini digunakan untuk memenuhi kebutuhan pendanaan jangka menengah, baik untuk penguatan likuiditas maupun optimalisasi

INTERNATIONAL AND TRANSACTION BANKING

International and Transaction Banking Explanation

In general, the products managed by International and Transaction Banking include products which include interbank business transactions and business transactions with customers which include trade finance and value chains, remittances, banking and cash management..

International and Transaction Banking Featured Product

There were several superior products and services for transactions managed by the International and Transaction Banking Division, namely:

1. Term Loan Placement
A Term Loan is a lending facility provided to Counterparty Banks with a specific tenor of up to a maximum of three years. This facility is intended to support the counterparty's medium-term funding requirements, including liquidity strengthening and the optimization of its funding structure.

struktur pendanaan *Counterparty* Bank. Penyaluran *Term Loan* dilakukan dengan skema pembayaran pokok dan bunga sesuai dengan perjanjian kredit, dengan tingkat suku bunga yang ditetapkan berdasarkan profil risiko *Counterparty* Bank serta kondisi pasar. Produk ini dirancang untuk memberikan kepastian pendanaan sekaligus menjaga keseimbangan risiko dan imbal hasil bagi bank **bjb**.

2. ***Money Market Loan***
   Fasilitas pinjaman jangka pendek yang diberikan kepada *Counterparty* Lembaga Keuangan Non-Bank, dengan jangka waktu maksimal hingga 90 (sembilan puluh) hari. Fasilitas ini ditujukan untuk memenuhi kebutuhan likuiditas jangka pendek *Counterparty*, khususnya dalam rangka mendukung kelancaran aktivitas operasional dan pengelolaan arus kas. Penyaluran fasilitas dilakukan dengan memperhatikan profil risiko *Counterparty* serta kondisi pasar, dengan struktur pengembalian pokok dan bunga sesuai dengan ketentuan perjanjian.
3. **Pembelian tagihan SKBDN (Diskonto)**
   Pembelian tagihan Surat Kredit Berdokumen Dalam Negeri (SKBDN) secara Diskonto merupakan fasilitas yang disediakan oleh bank **bjb** kepada nasabah untuk menjual tagihan SKBDNnya yang sudah diakseptasi oleh *Issuing Bank*.
4. **Penerbitan LC/SKBDN**
   bank **bjb** memberikan solusi transaksi bisnis dengan pihak *buyer* melalui penerbitan L*etter Of Credit (LC)* untuk transaksi luar negeri dan Surat Kredit Berdokumen Dalam Negeri (SKBDN) untuk transaksi dalam negeri yang memberikan kepastian pembayaran kepada *Seller* dan memberikan jaminan kepada *buyer* bahwa pembayaran hanya dilakukan setelah dokumen yang dipresentasikan sesuai dengan persyaratan LC/SKBDN.
5. **Transfer Valas**
   Jasa layanan kiriman uang (transfer) dalam valuta asing yang ditujukan ke rekening yang berada di dalam maupun luar negeri atas permintaan dan untuk kepentingan nasabah.
6. ***Firecash***
   Firecash merupakan layanan kiriman uang online berbasis *web* yang dapat mengakomodir transaksi kiriman uang ke rekening Bank lain secara *real time*.
7. **BI-RTGS**
   BI-RTGS merupakan layanan kiriman uang/transfer antar bank skala nasional dimana dana secara efektif dapat diterima di bank tujuan dalam hitungan menit, selama transaksi dilakukan sebelum batas waktu.
8. **BI-SKNBI**
   BI-SKNBI merupakan infrastruktur yang digunakan oleh Bank Indonesia dalam penyelenggaraan transfer dana dan kliring berjadwal untuk promosi proses data keuangan elektronik pada layanan transfer dana, layanan kliring warkat debit, layanan pembayaran reguler, dan layanan penagihan reguler.

The disbursement of Term Loans is conducted with principal and interest payments structured in accordance with the credit agreement, with interest rates determined based on the Counterparty Bank's risk profile as well as prevailing market conditions. This product is designed to provide funding certainty while maintaining an optimal balance between risk and return for bank **bjb**.

2. **Money Market Loan**
   A short-term lending facility provided to Non-Bank Financial Institution counterparties with a maximum tenor of up to 90 (ninety) days. This facility is intended to support the counterparty's short-term liquidity needs, particularly in facilitating operational activities and cash flow management. The facility is extended by taking into consideration the counterparty's risk profile and prevailing market conditions, with principal and interest repayment structured in accordance with the terms and conditions stipulated in the agreement.
3. **Purchase of SKBDN Bills (SKBDN Discounting)**
   The purchase of bills under a SKBDN on a discount basis is a facility provided by bank **bjb** that enables customers to sell their SKBDN receivables which have been accepted by the Issuing Bank.
4. **Issuance of LC/SKBDN**
   bank **bjb** provides solutions for business transactions with buyers through the issuance of a Letter of Credit (LC) for international trade transactions and a SKBDN for domestic trade transactions. These instruments provide payment certainty to the seller while ensuring that payment by the buyer will only be made after the documents presented comply with the terms and conditions of the LC/SKBDN.
5. **Foreign Exchange Transfer**
   A money transfer service in foreign currency to accounts both domestically and internationally upon the request of and for the benefit of customers.
6. **Firecash**
   Firecash is a web-based online money transfer service that facilitates fund transfers to accounts in other banks in real time.
7. **BI-RTGS**
   BI-RTGS is a national interbank funds transfer service through which funds can be effectively received by the beneficiary bank within minutes, provided that the transaction is conducted before the designated cut-off time.
8. **BI-SKNBI**
   BI-SKNBI is an infrastructure operated by Bank Indonesia to facilitate scheduled funds transfers and clearing services, supporting the electronic processing of financial data for fund transfer services, debit clearing services, regular payment services, and regular collection services.

9. **BI-Fast**
   BI-Fast merupakan layanan kiriman uang (transfer) dalam mata uang rupiah yang ditujukan ke rekening yang berada di dalam negeri atas permintaan dan untuk kepentingan nasabah.
10. ***Western Union***
    Western Union bank **bjb** adalah sarana pengiriman dan penerimaan uang dari Indonesia ke luar negeri, luar negeri ke Indonesia maupun antar kota di Indonesia secara cepat (*real time online*).
11. **bjb *quickcash***
    bjb *quickcash* adalah aplikasi kiriman uang berbasis web yang dapat mengakomodir transaksi kiriman uang baik dari dalam maupun luar negeri.

Keunggulan Layanan *International and Transaction Banking*

Keunggulan produk dan layanan *International and Transaction Banking* adalah sebagai berikut:

1. Produk antar bank berbasis *trade finance* maupun pinjaman (*term loan*) yang dirancang sesuai dengan kebutuhan *counterparty* bank didukung oleh struktur pembiayaan yang fleksibel *pricing* yang kompetitif.

    Western Union at bank **bjb** is a service that enables the sending and receiving of funds from Indonesia to overseas, from overseas to Indonesia, as well as between cities within Indonesia, in a fast and real-time online manner.
11. **bjb quickcash**
    bjb quickcash is a web-based remittance application that facilitates money transfer transactions both domestically and internationally.

International and Transaction Banking Services Advantage

The advantages of International and Transaction Banking services as follows:

1. Interbank products based on trade finance and lending (term loan) are structured in accordance with the needs of counterparty banks, supported by flexible financing structures and competitive pricing.
2. Short-term lending products (money market loans) provided to non-bank counterparties, particularly securities companies, offered with competitive pricing as well as fast and efficient processes to support short-term liquidity requirements.
3. Centralized handling of trade finance and value chain transactions certified under ISO 9001:2015, supported by professional human resources with international certifications and the Trade Innovation Plus system to ensure convenience, accuracy, and speed in the processing of trade finance documentation.
4. Trade finance products with flexible trade structures tailored to customer needs, accompanied by competitive pricing.
5. Service advantages for remittance products and services:
   a. Foreign Exchange Transfer
      1) Flexible transfer arrangements allowing transactions to be conducted in currencies as requested, with flexible funding sources in Rupiah or foreign currencies, either in cash or non-cash form.
      2) Fast and secure transactions, supported by reliable technology that ensures convenience and security in sending and receiving remittances, as well as bank **bjb**'s correspondent banking network that enables foreign exchange transfers to reach their destination safely and on time.

3) *One day service settlement* berdasarkan permintaan anda, kiriman uang valas anda dapat diterima pada hari yang sama (*intraday*).
4) *Multi currency services*, bank **bjb** kini dapat melayani transaksi dalam 132 mata uang berbeda. Didukung dengan sistem yang handal dan jaringan bank koresponden di 190 negara.

b. **bjb** *quickcash*
1) Pengiriman uang ke rekening bank **bjb** maupun ke rekening bank di Indonesia secara *real time*.
2) Biaya *flat* dan bersaing.

c. *Firecash*
1) *Firecash* dapat melakukan pengiriman uang rupiah ke rekening bank yang ada di Indonesia secara *real time*.
2) Terdapat fitur *inquiry* nomor rekening dan nama penerima sehingga dapat menghilangkan potensi retur.
3) Jam operasional dapat disesuaikan dan tidak tergantung jam operasional jaringan kantor.

3) One-day service settlement based on customer request, allowing foreign exchange remittances to be received on the same day (intraday).
4) Multi-currency services, enabling bank **bjb** to facilitate transactions in up to 132 different currencies, supported by a reliable system and a correspondent banking network spanning 190 countries.

b. **bjb** quickcash
1) Real-time fund transfers to bank **bjb** accounts as well as to accounts at other banks in Indonesia.
2) Flat and competitive transaction fees.

c. Firecash
1) Firecash enables real-time Rupiah fund transfers to bank accounts within Indonesia.
2) Equipped with an account number and beneficiary name inquiry feature to minimize the risk of returned transactions.
3) Operating hours are flexible and not dependent on branch network operating hours.

Produktivitas *International and Transaction Banking*

Kinerja *International and Transaction Banking* berupa realisasi pendapatan atas target yang ditetapkan setiap tahunnya, yaitu berupa pendapatan *(interest income* dan *fee based income*) atas transaksi yang dikelola oleh Divisi *International and Transaction Banking* serta *outstanding* penyaluran kredit sektor *financial institution (counterparty loan - placement)*, dengan rincian perkembangan kinerja selama 5 (lima) tahun terakhir adalah sebagai berikut

International and Transaction Banking Productivity

The performance of International and Transaction Banking is measured based on the realization of revenue against the targets set annually, comprising income (interest income and fee-based income) generated from transactions managed by the International and Transaction Banking Division, as well as the outstanding loan disbursements to the financial institution sector (counterparty loans – placements). The performance development over the past five years is presented as follows.

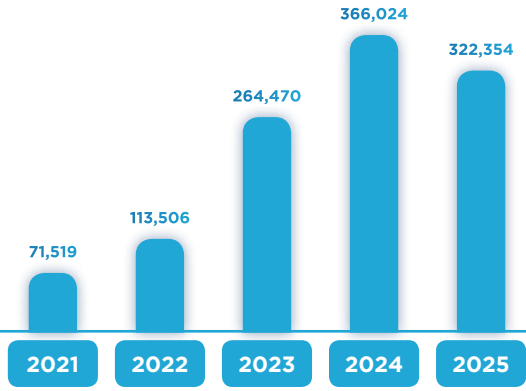
Tabel Produktivitas *International and Transaction Banking*
Table of International and Transaction Banking Productivity

(dalam jutaan Rupiah / in IDR million)

Uraian	2025	2024	2023	2022	2021	Pertumbuhan Growth 2024-2025		Description
	(Rp) (IDR)	(Rp) (IDR)	(Rp) (IDR)	(Rp) (IDR)	(Rp) (IDR)	(Rp) (IDR)	(%)	
Pendapatan (*fee based income* dan *interest Income*)	**322,354**	366,024	264,470	113,506	71,519	(43,670)	(11.93%)	Income (feebased income and interest Income)
Outstanding kredit *Financial Institution* (FI) *counterparty loan*	**2,500,000**	4,644,500	3,307,940	2,050,000	500,000	(2,144,500)	(46.17%)	Outstanding kredit Financial Institution (FI) counterparty loan

Grafik Pendapatan *International and Transaction Banking*
Graph of International and Transaction Banking Income

(dalam jutaan Rupiah / in IDR million)



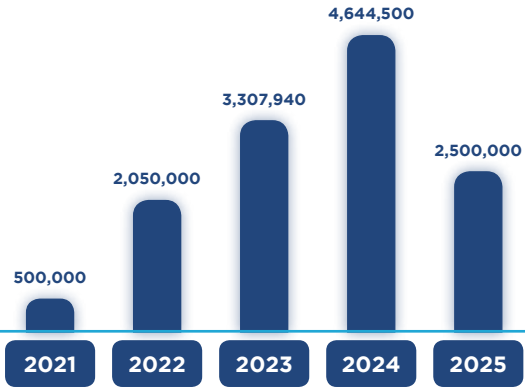
Realisasi pendapatan *International and Transaction Banking* mencapai Rp322,35 miliar atau 91,7% dari target Desember 2025, terdiri dari *fee based income* Rp66,49 miliar dan *interest income* Rp255,86 miliar. Secara tahunan, pendapatan tercatat menurun 11,93% dibandingkan posisi tahun 2024, sejalan dengan penurunan *outstanding* kredit *financial institution* sebesar 46,17% dari Rp4,64 triliun menjadi Rp2,50 triliun. Penurunan tersebut mencerminkan penataan ulang portofolio kredit secara terukur, dimana eksposur pada segmen *financial institution* yang relatif berisiko rendah namun ber-*yield* lebih moderat dialihkan secara selektif ke sektor-sektor dengan potensi imbal hasil yang lebih optimal, dengan tetap menerapkan prinsip kehati-hatian serta menjaga kualitas aset bank **bjb**.

Pendapatan transaksi *financial institution* tercatat Rp242,60 miliar, menurun 11,8% secara yoy. Kontributor utama tetap berasal dari Pendapatan Bunga Kredit yang Diberikan (PBKYD) *counterparty loan* sebesar Rp242,57 miliar. Penurunan kinerja terutama dipicu oleh penurunan volume kredit dan berkurangnya eksposur penyaluran *counterparty loan*, yang meskipun menekan pendapatan, namun menunjukkan pendekatan kehati-hatian bank **bjb** dalam pengelolaan *counterparty risk* dan konsentrasi portofolio.

Pada tahun 2025, transaksi *trade finance* mencatat total pendapatan Rp15,48 miliar, terdiri dari *interest income* Rp13,28 miliar (85,8%) dan *fee based income* Rp2,19 miliar (14,2%). Dibandingkan periode tahun 2024 sebesar Rp34,57 miliar, kinerja tersebut mengalami penurunan yoy sebesar 55,2% atau Rp19,09 miliar. Pendapatan terbesar berasal dari transaksi diskonto dengan kontribusi Rp8,85 miliar.

Grafik *Outstanding* kredit *Financial Institution* (FI) *Counterparty Loan*
Graph of Outstanding kredit Financial Institution

(dalam jutaan Rupiah / in IDR million)



The realization of International and Transaction Banking income reached IDR322.35 billion, or 91.7% of the December 2025 target, consisting of fee-based income of IDR66.49 billion and interest income of IDR255.86 billion. On an annual basis, income declined by 11.93% compared to the 2024 position, in line with the decrease in outstanding financial institution loans of 46.17%, from IDR4.64 trillion to IDR2.50 trillion. The decline reflects a measured rebalancing of the loan portfolio, whereby exposures to the financial institution segment—characterized by relatively lower risk but more moderate yields—were selectively reallocated to sectors with more optimal return potential, while continuing to uphold prudential principles and maintain the asset quality of bank **bjb**.

Income from financial institution transactions amounted to IDR242.60 billion, declining by 11.8% year-on-year. The primary contributor remained Interest Income from Loans (PBKYD) related to counterparty loans, amounting to IDR242.57 billion. The decline in performance was mainly driven by lower loan volumes and reduced exposure in counterparty loan disbursements, which, while exerting pressure on income, reflects bank **bjb**'s prudent approach in managing counterparty risk and portfolio concentration.

In 2025, trade finance transactions recorded total income of IDR15.48 billion, consisting of interest income of IDR13.28 billion (85.8%) and fee-based income of IDR2.19 billion (14.2%). Compared to the 2024 figure of IDR34.57 billion, this performance declined year-on-year by 55.2% or IDR19.09 billion. The largest contribution came from discounting transactions, amounting to IDR8.85 billion.

Kinerja transaksi *remittance* dari tahun ke tahun terus mengalami peningkatan. Pada periode tahun 2025 dibukukan pendapatan sebesar Rp64,26 miliar, meningkat sebesar 15,6% (Rp8,69 miliar) dari periode tahun 2024 sebesar Rp55,57 miliar. Melalui kegiatan pemasaran dan promosi yang efektif serta pengembangan produk dan infrastruktur penunjang yang dilakukan secara berkelanjutan diharapkan dapat meningkatkan pendapatan *remittance* setiap tahunnya yang turut berkontribusi terhadap pencapaian *fee based income* bank **bjb.**

Remittance transaction performance has continued to improve year by year. In 2025, remittance income amounted to IDR64.26 billion, increasing by 15.6% (IDR8.69 billion) from IDR55.57 billion in 2024. Through effective marketing and promotional activities, as well as the continuous development of supporting products and infrastructure, remittance income is expected to continue growing annually and contribute to the achievement of bank **bjb**'s fee-based income**.**

Faktor Pendukung dan Penghambat Bisnis *International and Transaction Banking*

Terdapat beberapa faktor pendukung dan penghambat bisnis atas produk dan jasa layanan yang dikelola Divisi *International and Transaction Banking*, antara lain:

1. **Faktor Pendukung Bisnis**
   a. Peningkatan kualitas layanan serta penguatan hubungan kerja sama dengan *counterparty*, baik bank maupun non-bank, menjadi faktor utama pendukung kinerja bisnis. Upaya ini dilakukan untuk mendorong terbentuknya kerjasama transaksi atas berbagai produk, memperluas basis transaksi, serta meningkatkan volume dan nilai pendapatan secara berkelanjutan.
   b. Terdapat potensi kerja sama dengan pihak Penjaminan/ Asuransi untuk *backup* penerbitan instrumen *trade finance.*
   c. Pengembangan dan penyesuaian produk secara dinamis dan berkelanjutan untuk meningkatkan *competitive advantages* guna memenuhi ekspektasi dan kebutuhan nasabah maupun perkembangan bisnis.
   d. Masih terbukanya potensi transaksi dan pembiayaan dengan skema *trade finance* pada sektor kesehatan.
   e. Terdapat potensi penjajakan kerjasama dengan *remittance agent* untuk layanan kiriman uang.
   f. Potensi kerjasama *remittance* dengan *financial technology*.
   g. Meningkatnya sinergi perbankan dengan anggota KUB dan anak perusahaan dalam kerjasama layanan transaksi *trade finance* dan *remittance.*
2. **Faktor Penghambat Bisnis**
   a. Persaingan di industri perbankan semakin ketat, khususnya dari bank lain yang menawarkan produk sejenis *(bank loan)* dengan tingkat suku bunga yang lebih kompetitif dibandingkan bank **bjb**, berpotensi menekan margin serta mempengaruhi kemampuan bank **bjb** dalam mempertahankan dan memperluas pangsa pasar pada segmen *financial institution*.
   b. Semakin ketatnya persaingan dengan bank lain yang menawarkan produk serupa dengan *rate* yang lebih rendah dari penawaran bank **bjb**.

Supporting and Inhibiting Factors of International and Transaction Banking Business

There were several factors that support and hinder the business of products and services managed by the International and Transaction Banking Division, including:

1. **Business Supporting Factors**
   a. Enhancing service quality and strengthening cooperation with counterparties, both banks and non-bank institutions, serve as key factors supporting business performance. These efforts are undertaken to encourage transaction-based collaborations across various products, expand the transaction base, and sustainably increase transaction volume and revenue generation.
   b. There is potential for cooperation with guarantee and insurance institutions to provide backup support for the issuance of trade finance instruments.
   c. Continuous and dynamic product development and adjustments are undertaken to strengthen competitive advantages in meeting customer expectations and evolving business needs.
   d. There remains significant potential for transactions and financing schemes through trade finance within the healthcare sector.
   e. There is potential to explore partnerships with remittance agents for money transfer services.
   f. Potential collaboration opportunities exist with financial technology companies in the remittance business.
   g. Increasing banking synergies with members of the KUB and subsidiaries in providing trade finance and remittance transaction services.
2. **Business Inhibiting Factors**
   a. Competition within the banking industry has become increasingly intense, particularly from other banks offering similar products (bank loans) with more competitive interest rates than those offered by bank **bjb**. This condition may potentially compress margins and affect bank **bjb**'s ability to maintain and expand its market share within the financial institution segment.
   b. Intensifying competition from other banks offering similar products at lower rates than those offered by bank **bjb**.

c. Digitalisasi layanan dalam pengelolaan transaksi di bank **bjb** masih terbatas.
d. Terbatasnya jaringan korespondensi bank **bjb** di negara tujuan PMI (Pekerja Migran Indonesia).
e. Maraknya *remittance agent* dan aplikasi berbasis *mobile* yang ilegal dengan memberikan kemudahan dan tarif yang relatif murah kepada *customer*.
f. *Shifting* bisnis kiriman uang dari luar negeri ke Indonesia yang semula menggunakan tunai atau rekening bank menjadi menggunakan *e-wallet*.

Pengembangan Produk dan Layanan *International and Transaction Banking*

Dengan semakin bertambahnya persaingan produk dan layanan perbankan khususnya pada transaksi *International Banking*, telah dilakukan pengembangan produk dan peningkatan layanan yang mampu memenuhi ekspektasi nasabah bank **bjb**.

1. Penyediaan produk *term loan* bagi lembaga keuangan bank guna mendukung kebutuhan pendanaan dan pengelolaan likuiditas jangka menengah.
2. Penyediaan produk *money market loan* serta bank garansi bagi lembaga keuangan non-bank termasuk perusahaan sekuritas untuk mendukung kebutuhan likuiditas jangka pendek serta transaksi yang memerlukan instrumen penjaminan.
3. Penerapan sistem manajemen mutu sesuai dengan ISO 90001:2015 telah diimplementasikan dalam rangka meningkatkan kualitas pelayanan transaksi ekspor-impor sesuai dengan kebijakan mutu yang telah ditetapkan. Proses audit sertifikasi ISO 90001:2015 telah dilaksanakan pada tanggal 10-11 Maret 2025 dan Grup *Trade Finance and Value Chain* telah dinyatakan tersertifikasi ISO 90001:2015.
4. Pengembangan aplikasi *front end* untuk pengajuan penerbitan instrumen *trade* secara online/digital.
5. Pengembangan aplikasi *back end* untuk percepatan proses pengelolaan dokumen *trade* secara terintegrasi dan akuntabel.
6. Perluasan segmen debitur pada layanan *open account financing* dan *supply chain financing* selaras dengan strategi penetrasi *Trade Finance* pada sektor kesehatan.
7. Mengembangkan fitur BI-FAST Fase 1 Tahap 2 meliputi layanan *Bulk Credit Transfer* (BCT) pada *Internet Banking Corporate* (IBC) bank **bjb**.
8. Mengembangkan aplikasi **bjb** *quickcash* fitur *incoming* transfer ke rekening bank **bjb** dan selain bank **bjb** yang digunakan oleh *remittance agent* dari Taiwan yaitu *Best Winner Co*, LTD kerja sama dengan bank **bjb** untuk mengakomodir kiriman uang dari Pekerja Migran Indonesia (PMI) dalam masa penempatan di Taiwan.
9. Melakukan pengembangan layanan *firecash* menggunakan metode *Sharing Application Programming Interface* (API) dengan BCA untuk dapat mengakomodir pembukaan layanan di seluruh jaringan kantor bank **bjb** secara optimal.

c. The digitalization of services in managing transactions at bank **bjb** remains limited.
d. The limited correspondent banking network of bank **bjb** in destination countries of Indonesian Migrant Workers (PMI).
e. The proliferation of illegal remittance agents and mobile-based applications offering convenience and relatively lower fees to customers.
f. The shift in remittance transactions from overseas to Indonesia, which were previously conducted through cash or bank accounts, toward the use of e-wallets.

International and Transaction Banking Products and Services Development

With the increasing competition in banking products and services, especially in International Banking transactions, several product developments and service improvements were carried out to meet the expectations of bank **bjb** customers.

1. Provision of term loan products for banking financial institutions to support medium-term funding requirements and liquidity management.
2. Provision of money market loan products and bank guarantees for non-bank financial institutions, including securities companies, to support short-term liquidity needs as well as transactions requiring guarantee instruments.
3. The implementation of a quality management system in accordance with ISO 9001:2015 has been carried out to enhance the quality of export–import transaction services in line with the established quality policy. The ISO 9001:2015 certification audit process was conducted on 10–11 March 2025, and the Trade Finance and Value Chain Group has been declared certified under ISO 9001:2015.
4. Development of a front-end application to facilitate online or digital submission for the issuance of trade instruments.
5. Development of a back-end application to accelerate the processing of trade documents in an integrated and accountable manner.
6. Expansion of debtor segments in open account financing and supply chain financing services in line with the Trade Finance penetration strategy within the healthcare sector.
7. Development of BI-FAST Phase 1 Stage 2 features, including Bulk Credit Transfer (BCT) services on bank **bjb**'s Internet Banking Corporate (IBC).
8. Development of the **bjb** quickcash application with an incoming transfer feature to bank **bjb** accounts as well as accounts at other banks, utilized by the remittance agent from Taiwan, Best Winner Co., Ltd., in collaboration with bank **bjb** to facilitate remittances from Indonesian Migrant Workers (PMI) during their placement in Taiwan.
9. Enhancement of the Firecash service through the Sharing Application Programming Interface (API) method with BCA to enable optimal service implementation across the entire bank **bjb** branch network.

10. Mengembangkan aplikasi *Forex Transaction System* (FTS) untuk mengoptimalkan proses bisnis transaksi transfer valas melalui jaringan kantor dan *delivery channel* bank **bjb**.
11. Melakukan pengembangan layanan *Incoming* Transfer (IT) dari luar negeri menggunakan metode *Sharing Application Programming Interface* (API) dengan bank BRI untuk dapat memperluas jaringan layanan kiriman uang dalam valuta asing.
12. Melakukan pengembangan layanan *Outgoing Transfer* (OT) ke luar negeri menggunakan aplikasi melalui jaringan kantor bank **bjb** bekerja sama dengan *remittance agent* Singapura yaitu *Brdgepay* PTE LTD.
13. Melakukan kerja sama dengan Bank Koresponden dan Penyedia Jasa Pembayaran (PJP) non-bank baik di dalam maupun luar negeri untuk mengakomodir layanan transaksi *cross border payment* melalui jalur non-SWIFT.

Rencana dan Strategi *International and Transaction Banking* Tahun 2026

Divisi *International & Transaction Banking* dalam pencapaian target pendapatan akan melaksanakan strategi sebagai berikut:

1. ***Financial Institution***
   a. Menyusun, melakukan review serta melakukan *monitoring* atas *credit line* guna mendukung kelancaran bisnis bank **bjb** secara berkelanjutan.
   b. Mengoptimalkan kerja sama dengan *counterparty* bank melalui pemasaran produk Term Loan dan produk transaksi antar bank berbasis *trade finance*.
   c. Mengoptimalkan kerja sama dengan *counterparty* non bank melalui penyaluran *money market loan* dan penerbitan bank garansi.
   d. Memberikan *credit line* kepada *counterparty* bank, khususnya pada segmen *asset management*, guna memperluas basis transaksi dan potensi pendapatan bank **bjb**.
   e. Mendukung penghimpunan dana melalui transaksi *Term Loan* (*borrowing*), sebagai bagian dari strategi pengelolaan likuiditas dan diversifikasi sumber pendanaan.
   f. Memperluas kerja sama serta meningkatkan *engagement* dengan *counterparty* bank dan non bank baik di dalam negeri maupun luar negeri untuk memperkuat jaringan bisnis dan meningkatkan volume transaksi.
2. ***Trade Finance and Value Chain***
   a. *Trade Ecosystem*
      - Optimalisasi utilisasi limit Non *Cash Loan* melalui monitoring aktif, *advisory* transaksi dan pendampingan kebutuhan layanan *trade* debitur eksisting.

10. Development of the Forex Transaction System (FTS) application to optimize the business processes of foreign exchange transfer transactions through bank **bjb**'s branch network and delivery channels.
11. Development of Incoming Transfer (IT) services from overseas using the Sharing Application Programming Interface (API) method in collaboration with Bank BRI to expand the network for foreign currency remittance services.
12. Development of Outgoing Transfer (OT) services to overseas destinations through an application operated via the bank **bjb** branch network in collaboration with a Singapore-based remittance agent, Brdgepay PTE Ltd.
13. Establishment of cooperation with correspondent banks and non-bank Payment Service Providers (PJP), both domestically and internationally, to facilitate cross-border payment transaction services through non-SWIFT channels

International and Transaction Banking Plan and Strategy for 2026

The International and Transaction Banking Division in achieving increased revenue targets will implement the following plans and strategies:

1. **Financial Institution**
   a. Preparing, reviewing, and monitoring credit lines to support the sustainability and smooth implementation of bank **bjb**'s business activities.
   b. Optimizing cooperation with counterparty banks through the marketing of Term Loan products and interbank transaction products based on trade finance.
   c. Optimizing cooperation with non-bank counterparties through the provision of money market loans and the issuance of bank guarantees.
   d. Providing credit lines to counterparty banks, particularly within the asset management segment, to expand the transaction base and enhance bank **bjb**'s revenue potential.
   e. Supporting fund-raising activities through Term Loan (borrowing) transactions as part of the Bank's liquidity management strategy and funding source diversification.
   f. Expanding cooperation and strengthening engagement with counterparty banks and non-bank institutions, both domestically and internationally, to reinforce the business network and increase transaction volumes.

2. **Trade Finance and Value Chain**
   a. Trade Ecosystem
      - Optimizing the utilization of Non-Cash Loan limits through active monitoring, transaction advisory services, and assistance in addressing the trade service needs of existing debtors.

- Akselerasi perluasan transaksi dengan memaksimalkan potensi *value chain* dalam ekosistem *trade* debitur.
- Meningkatkan *engagement* ekosistem *supply chain* melalui *gathering customer* dengan supplier dan debitur eksisting.

b. Pembiayaan Fasyankes
- Mendorong penetrasi produk *trade finance* pada sektor layanan kesehatan sebagai solusi manajemen keuangan yang terintegrasi.
- *Gathering* Fasyankes (Rumah Sakit dan Klinik) bersinergi dengan ARSSI, ARSADA dan ASKLIN.

c. *Sinergy*
- Memperluas basis transaksi *trade* melalui sinergi perbankan dengan anak perusahaan dan anggota KUB.
- Mengembangkan pasar UMKM ekspor melalui kolaborasi strategis dengan Disperindag dan KADIN untuk pembinaan dan aktivitas transaksi *trade*.

d. Alternatif *Cover Trade Instrument*
Mengembangkan kemitraan strategis dengan perusahaan asuransi dan/ atau penjaminan untuk menyediakan alternatif *risk coverage* yang optimal dalam penerbitan instrumen *trade*.

e. Digitalisasi
- Pengembangan aplikasi *front end* untuk pengajuan penerbitan instrumen *trade* secara online/digital.
- Pengembangan aplikasi *back end* untuk percepatan proses pengelolaan dokumen *trade* secara terintegrasi dan akuntabel.

f. *Trade Solution Branding*
- Meningkatkan kompetensi pegawai dalam pengelolaan dokumen *trade* melalui sertifikasi *trade finance*.
- Mempertahankan kualitas layanan melalui penerapan standar mutu ISO 9001:2015 pada pengelolaan dokumen *trade*.

3. ***Remittance***

a. Peningkatan transaksi transfer valas melalui pengembangan *Forex Transaction System* (FTS) melalui jaringan kantor maupun *e-channel* bank **bjb**.

b. Mengembangkan layanan sistem pembayaran Bank Indonesia melalui fitur BI-FAST, BI-RTGS, SKNBI dan SNAP BI dalam rangka efisiensi dan efektifitas transaksi kiriman uang domestik.

c. Memperluas jaringan remitansi melalui kerja sama dengan Bank Koresponden Global (*Citibank Worldlink* dan BRIFast), *Remittance Agent* (*Best Winner* Co Ltd), Agen **bjb** BISA!, Anak Perusahaan (bank **bjb** Syariah) dan Anggota KUB (Bank Bengkulu, Bank Jambi).

- Accelerating transaction expansion by maximizing the value chain potential within the trade ecosystem of debtors.
- Enhancing engagement within the supply chain ecosystem through customer gatherings involving suppliers and existing debtors.

b. Healthcare Services Financing
- Encouraging the penetration of trade finance products within the healthcare services sector as an integrated financial management solution.
- Conducting healthcare services gatherings (hospitals and clinics) in synergy with ARSSI, ARSADA, and ASKLIN.

c. Synergy
- Expanding the trade transaction base through banking synergies with subsidiaries and members of the KUB.
- Developing the export-oriented MSME market through strategic collaboration with Disperindag and KADIN for capacity building and trade transaction activities.

d. Alternative Coverage for Trade Instruments
Developing strategic partnerships with insurance and/ or guarantee companies to provide optimal alternative risk coverage in the issuance of trade instruments.

e. Digitalization
- Development of front-end applications for the online or digital submission of trade instrument issuance.
- Development of back-end applications to accelerate the processing of trade documents in an integrated and accountable manner.

f. Trade Solution Branding
- Enhancing employee competencies in trade document management through trade finance certification programs.
- Maintaining service quality through the implementation of ISO 9001:2015 quality standards in trade document management.

3. **Remittance**

a. Increasing foreign exchange transfer transactions through the development of the Forex Transaction System (FTS) across bank **bjb**'s branch network as well as its electronic channels.

b. Enhancing Bank Indonesia payment system services through the implementation of BI-FAST, BI-RTGS, SKNBI, and SNAP BI features in order to improve the efficiency and effectiveness of domestic remittance transactions.

c. Expanding the remittance network through cooperation with Global Correspondent Banks (Citibank Worldlink and BRIFast), remittance agents (Best Winner Co., Ltd.), Agen **bjb** BISA!, subsidiaries (bank **bjb** Syariah), and KUB member banks (Bank Bengkulu and Bank Jambi).

d. Kerjasama remitansi dengan *financial technology* (NIUM, *Transfez* dan *Transwap*) sebagai alternatif pilihan transaksi *remittance* menggunakan SWIFT dengan *pricing* yang lebih kompetitif dan efisien serta SLA yang lebih efektif.

e. Membangun ekosistem transaksi *remittance* pada seluruh jaringan kantor dan *delivery channel* bank **bjb** yang cepat, aman, murah bagi Nasabah serta efektif dan efisien bagi petugas bank **bjb**.

TREASURY

Penjelasan *Treasury*

Produk *Treasury* di tahun 2025 yang menjadi andalan Bisnis *Treasury* adalah sebagai berikut:

1. **bjb *Foreign Exchange***
   bank **bjb** menyediakan layanan transaksi valuta asing bagi nasabah perorangan dan non-perorangan yang memiliki kebutuhan transaksi jual beli valuta asing. Layanan **bjb** *Foreign Exchange* dapat diakses di seluruh Kantor Cabang bank **bjb**, dengan produk yang mencakup transaksi valuta asing tunai (*banknotes*) dan non-tunai (*telegraphic transfer*). Untuk transaksi non-tunai, bank **bjb** melayani berbagai jenis penyelesaian transaksi, meliputi *Today* (TOD), *Tomorrow* (TOM), *Spot*, dan *Forward* (FWD), serta menyediakan layanan transaksi produk derivatif lainnya sebagai solusi pengelolaan risiko nilai tukar bagi nasabah.

2. **bjb Obligasi Ritel**
   bank **bjb** menyediakan berbagai pilihan investasi obligasi bagi nasabah perorangan dan non-perorangan melalui penjualan produk obligasi yang dapat diakses di Kantor Cabang bank **bjb** dan Outlet **bjb** Prioritas. Jenis obligasi yang ditawarkan meliputi SBN Ritel di pasar perdana, serta SBN, SBSN, dan obligasi korporasi di pasar sekunder. Melalui produk ini, nasabah dapat bertransaksi dengan nominal investasi yang terjangkau dan harga yang kompetitif, sehingga memberikan alternatif investasi yang aman, fleksibel, dan sesuai dengan kebutuhan nasabah.

Perkembangan Bisnis *Treasury* Tahun 2025

Divisi *Treasury* menjadi salah satu pilar utama bagi pertumbuhan laba bank **bjb** dengan didukung tenaga profesional dan handal, senantiasa terus mengembangkan produk transaksi dan meningkatkan aktivitas Bisnis *Treasury* dalam rangka optimalisasi likuiditas dan peningkatan pendapatan laba bank.

d. Establishing remittance partnerships with financial technology companies (NIUM, Transfez, and Transwap) as alternative channels for remittance transactions using SWIFT with more competitive and efficient pricing, as well as more effective service level agreements (SLA).
e. Developing a remittance transaction ecosystem across the entire branch network and delivery channels of bank **bjb** that is fast, secure, and cost-efficient for customers, while also being effective and efficient for bank **bjb** personnel.

TREASURY

Treasury Explanation

Treasury products in 2025 which are the mainstay of the Treasury business are as follows:

1. **bjb Foreign Exchange**
   bank **bjb** provides foreign exchange transaction services for individual and non-individual customers who require foreign currency buying and selling transactions. The **bjb** Foreign Exchange service is available at all bank **bjb** Branch Offices, offering products that include both cash foreign exchange transactions (banknotes) and non-cash transactions (telegraphic transfers). For non-cash transactions, bank **bjb** facilitates various settlement types, including Today (TOD), Tomorrow (TOM), Spot, and Forward (FWD), and also provides other derivative transaction services as solutions for customers in managing foreign exchange risk.
2. **bjb Retail Bonds**
   bank **bjb** offers various bond investment options for individual and non-individual customers through the distribution of bond products available at bank **bjb** Branch Offices and **bjb** Prioritas Outlets. The types of bonds offered include Retail Government Securities (SBN Ritel) in the primary market, as well as Government Securities (SBN), Sharia Government Securities (SBSN), and corporate bonds in the secondary market. Through this product, customers are able to conduct investment transactions with relatively affordable investment amounts and competitive pricing, thereby providing a safe, flexible, and customer-oriented investment alternative.

Treasury Business Development in 2025

The Treasury Division serves as one of the key pillars supporting the growth of bank **bjb**'s profitability. Supported by professional and competent personnel, the Division continuously develops transaction products and enhances Treasury business activities in order to optimize liquidity management and increase the Bank's earnings.

Perkembangan Bisnis *Treasury* Tahun 2025

Divisi *Treasury* menjadi salah satu pilar utama bagi pertumbuhan laba bank **bjb** dengan didukung tenaga profesional dan handal, senantiasa terus mengembangkan produk transaksi dan meningkatkan aktivitas Bisnis *Treasury* dalam rangka optimalisasi likuiditas dan peningkatan pendapatan laba bank.

Pada tahun 2026, pasar keuangan global diprediksi bergerak sangat dinamis akibat ketidakpastian pertumbuhan ekonomi akibat adanya faktor kebijakan fiskal Amerika Serikat (AS), ancaman terjadinya perang dagang dari AS terhadap beberapa negara mitra dagang US, konflik yang semakin meluas di Timur Tengah, dan dampak perkembangan teknologi, terutama *Artificial Intelligence* (AI), terhadap ketenagakerjaan global. Beberapa kebijakan Donald Trump yang cenderung fiskal ekspansif mendukung pelemahan USD akibat semakin melebarnya defisit anggaran, risiko peningkatan inflasi, dan penurunan *credit rating* dari AS disertai dengan kebijakan perdagangan AS yang melalui kebijakan tariff-nya, terkesan cenderung proteksionis sebagai bagian dari strategi "*America First*" untuk mengurangi defisit perdagangan membuat hubungan dagang global semakin terfragmentasi, risiko retaliasi meningkat, dan mempercepat diversifikasi rantai pasok ke negara-negara mitra strategis. Selain itu, tensi geopolitik antara Amerika Serikat dengan Iran dan Uni Eropa ikut mempengaruhi volatilitas pasar keuangan dan pasar komoditas.

Pertumbuhan ekonomi global mengalami pertumbuhan 3,2% pada tahun 2025 dan diproyeksikan tumbuh 3,3% pada tahun 2026 namun melambat menjadi 3,2% pada tahun 2027 (IMF) di mana sejumlah negara maju pun diproyeksikan mengalami perlambatan pertumbuhan seperti Tiongkok dan Amerika Serikat. Pergerakan pasar keuangan selama tahun 2025 yang didorong oleh penurunan suku bunga bank sentral berbagai negara , terutama The Fed yang melihat bahwa telah terjadi pelonggaran pada ekonomi Amerika Serikat di mana perkembangan tenaga kerja yang mulai melambat dan walaupun proses disinflasi perekonomian AS yang belum terpengaruh kebijakan tarif. Sepanjang tahun 2025 The Fed telah melakukan penurunan suku bunga sebesar 125bps atau sebanyak 3 kali pemangkasan suku bunga yang dimulai dari bulan September 2025, yang memberikan persepsi *risk on* pada pasar keuangan global dan mendorong *capital inflow* di negara-negara berkembang. Respons kebijakan mayoritas bank sentral berbagai negara pada tahun 2026 diproyeksikan mengadopsi sikap kebijakan suku bunga yang lebih hati-hati dengan kecenderungan menahan suku bunga tetap stabil, di mana hanya terdapat penyesuaian terbatas bergantung pada dinamika inflasi dan pertumbuhan domestik masing-masing negara.

Sepanjang tahun 2025 Bank Indonesia melakukan pemangkasan BI Rate sebanyak 4 kali yaitu 1 kali pada kuartal kedua sebesar 25 bps kemudian pada kuartal ketiga melakukan pemangkasan sebanyak 3 kali masing-masing

Treasury Business Development in 2025

The Treasury Division serves as one of the main pillars supporting bank **bjb**'s profit growth. Supported by professional and competent personnel, the Division continuously develops transaction products and enhances Treasury business activities in order to optimize liquidity and increase the Bank's earnings.

In 2026, global financial markets are projected to remain highly dynamic amid uncertainty surrounding economic growth, driven by factors such as United States (US) fiscal policy, the risk of trade wars initiated by the US against several trading partners, escalating conflicts in the Middle East, and the impact of technological developments, particularly Artificial Intelligence (AI), on global employment. Several policies under Donald Trump, which tend to be fiscally expansionary, are expected to contribute to the weakening of the USD due to widening fiscal deficits, inflationary pressures, and the risk of a downgrade in the US credit rating. In addition, US trade policies, particularly tariff measures that appear increasingly protectionist as part of the "America First" strategy to reduce trade deficits, have led to further fragmentation of global trade, increased risks of retaliation, and accelerated supply chain diversification toward strategic partner countries. Furthermore, geopolitical tensions between the United States and Iran, as well as the European Union, have contributed to volatility in financial and commodity markets.

Global economic growth reached 3.2% in 2025 and is projected to increase to 3.3% in 2026 before moderating to 3.2% in 2027 (IMF), with several advanced economies, including China and the United States, expected to experience a slowdown. Financial market movements throughout 2025 were driven by interest rate cuts by various central banks, particularly the Federal Reserve (The Fed), which observed easing conditions in the US economy, including moderating labor market developments, while the disinflation process remained ongoing despite tariff policies. Throughout 2025, The Fed reduced its policy rate by a total of 125 bps through three rate cuts starting in September 2025, which fostered a risk-on sentiment in global financial markets and encouraged capital inflows into emerging economies. In 2026, the majority of central banks are projected to adopt a more cautious stance, with a tendency to maintain stable interest rates, allowing only limited adjustments depending on domestic inflation and growth dynamics.

Throughout 2025, Bank Indonesia reduced the BI Rate four times, comprising one cut of 25 bps in the second quarter and three consecutive cuts of 25 bps each in the third quarter, bringing the total reduction in the third quarter to 75 bps.

sebesar 25bps sehingga total pemangkasan suku bunga pada kuartal ketiga sebesar 75 bps, BI Rate pada posisi akhir tahun 2025 adalah sebesar 4,75%. Berbagai kebijakan moneter yang dilakukan Bank Indonesia sangat dinamis sebagai respon atas makin tingginya ketidakpastian perekonomian global akibat arah kebijakan Amerika Serikat (AS) dan eskalasi ketegangan geopolitik di berbagai wilayah. Kebijakan yang diambil diarahkan untuk memperkuat stabilitas nilai tukar Rupiah dari dampak memburuknya risiko global serta sebagai langkah *preemptive* dan *forward looking* untuk memastikan inflasi tetap dalam sasaran 2,5±1% pada 2025 dan 2026 sejalan dengan *stance* kebijakan moneter yang *pro-stability*. Bank Indonesia juga terus memperkuat kerja sama bilateral, regional, plurilateral maupun multilateral dengan bank sentral dan otoritas pemerintah negara lain. Sepanjang tahun 2025 nilai tukar Rupiah bergerak pada kisaran Rp16.090-16.969 dan imbal hasil surat berharga 10Y (seri *benchmark index*) untuk surat berharga pemerintah pada akhir tahun 2025 ditutup pada level 6,12%.

As a result, the BI Rate stood at 4.75% at the end of 2025. Bank Indonesia's monetary policy remained highly adaptive in response to heightened global economic uncertainty arising from US policy direction and escalating geopolitical tensions across various regions. The policy mix was aimed at strengthening Rupiah exchange rate stability amid worsening global risks, while also serving as a pre-emptive and forward-looking measure to ensure inflation remains within the target range of 2.5±1% in 2025 and 2026, in line with a pro-stability monetary policy stance. Bank Indonesia also continued to strengthen bilateral, regional, plurilateral, and multilateral cooperation with other central banks and government authorities. Throughout 2025, the Rupiah exchange rate moved within the range of IDR16,090–16,969, while the yield on 10-year Government Securities (benchmark series) closed at 6.12% at year-end 2025.

Sepanjang tahun 2025 Divisi *Treasury* mampu membukukan pendapatan total sebesar Rp2,531 triliun (per 31 Desember 2025) yang diperoleh dari transaksi jual beli valas, surat berharga, penempatan dana pada instrumen pasar uang serta aktivitas kustodian dan wali amanat. Divisi *Treasury* terus meningkatkan aktivitas *sales* khususnya untuk nasabah ritel baik transaksi forex maupun surat berharga dengan memperbanyak *customer based*, memberikan harga yang kompetitif serta terus mengembangkan sistem **bjb** *Treasury Interactive Pricing* (**bjb** TIP) yang merupakan *electronic trading system* yang mempermudah transaksi *Treasury* untuk nasabah di kantor cabang bank **bjb**. Selain itu, bank **bjb** berperan dan berkontribusi aktif dalam aktivitas pendalaman Pasar Uang dan Pasar Valuta Asing (PUVA) dengan menjadi salah satu *Dealer* Utama Bank Indonesia.

Throughout 2025, the Treasury Division recorded total income of IDR2.531 trillion (as of December 31, 2025), generated from foreign exchange trading, securities transactions, placements in money market instruments, as well as custodial and trustee activities. The Treasury Division continued to enhance sales activities, particularly for retail customers, in both foreign exchange and securities transactions by expanding the customer base, offering competitive pricing, and further developing the **bjb** Treasury Interactive Pricing (**bjb** TIP) system, an electronic trading platform that facilitates Treasury transactions for customers at bank **bjb** branch offices. In addition, bank **bjb** actively contributed to the development of the Money Market and Foreign Exchange Market (PUVA) by serving as one of Bank Indonesia's Primary Dealers.

Produktivitas Treasury

Uraian produktivitas *treasury* meliputi transaksi *money market*, *fixed income* dan *forex* yang disajikan sebagai berikut.

Treasury Productivity

Treasury productivity descriptions include money market, fixed income and forex transactions which are presented as follows.

Transaksi *Money Market*

Salah satu aktivitas Divisi *Treasury* adalah pengelolaan dan optimalisasi ekses likuiditas melalui transaksi pasar uang (*money market*). Sepanjang tahun 2025 pendapatan yang diperoleh melalui transaksi *money market* adalah sebesar Rp167,41 miliar.

Money Market Transaction

One of the key activities of the Treasury Division is the management and optimization of excess liquidity through money market transactions. Throughout 2025, income generated from money market transactions amounted to IDR167.41 billion.

Aktivitas transaksi *money market* yang dilakukan antara lain penempatan melalui instrumen moneter Bank Indonesia dan penempatan antar bank untuk optimalisasi likuiditas. Saat ini bank **bjb** telah ditunjuk menjadi salah satu *Dealer* Utama Bank Indonesia di pasar keuangan Rupiah dan Valas, sejalan dengan upaya dalam mendukung efektivitas kebijakan moneter, stabilitas nilai rupiah, dan terciptanya *well functioning market* dan pasar uang yang dalam.

Money market transaction activities carried out by the Bank include placements in Bank Indonesia monetary instruments as well as interbank placements to optimize liquidity management. Currently, bank **bjb** has been appointed as one of Bank Indonesia's Primary Dealers in the Rupiah and foreign exchange financial markets, in line with efforts to support the effectiveness of monetary policy, maintain Rupiah exchange rate stability, and foster a well-functioning and deep money market.

Sejalan dengan program Bank Indonesia dalam rangka pendalaman transaksi pasar uang, bank **bjb** juga aktif dalam melakukan pendalaman transaksi *repo* dan *reverse repo* antar bank sesuai dengan arahan Bank Indonesia, mempertimbangkan transaksi *repo* merupakan alternatif pemenuhan pengelolaan likuiditas yang memiliki risiko lebih rendah karena bersifat "*collateralized*".

In line with Bank Indonesia's initiatives to deepen money market transactions, bank **bjb** has also actively conducted repo and reverse repo transactions in the interbank market in accordance with Bank Indonesia's guidance. Repo transactions serve as an alternative instrument for liquidity management, given their relatively lower risk profile due to their collateralized nature.

Selain itu, bank **bjb** juga turut mendukung upaya Bank Indonesia dalam penguatan strategi operasi moneter yang *pro-market* dengan kepemilikan instrumen moneter seperti Sekuritas Rupiah Bank Indonesia (SRBI) dan Sekuritas Valas Bank Indonesia (SVBI). bank **bjb** juga turut aktif berpartisipasi dalam penawaran lelang BI-*Floating Rate Notes* (BI-FRN).

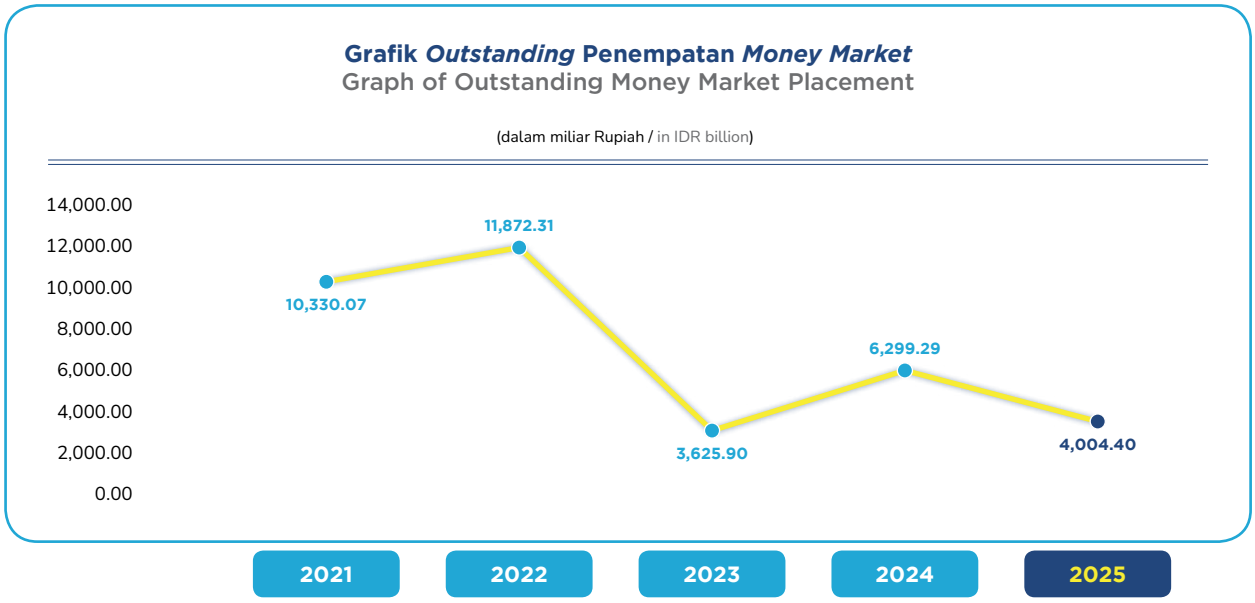
In addition, bank **bjb** supports Bank Indonesia's initiatives to strengthen pro-market monetary operation strategies through the ownership of monetary instruments such as Bank Indonesia Rupiah Securities (SRBI) and Bank Indonesia Foreign Exchange Securities (SVBI). bank **bjb** also actively participates in the auction offerings of BI-Floating Rate Notes (BI-FRN).

Tabel Transaksi *Money Market*
Table of Money Market Transaction

(dalam miliar Rupiah / in IDR billion)

Uraian	2025	2024	2023	2022	2021	Pertumbuhan Growth 2024-2025		Description
	(Rp) (IDR)	(Rp) (IDR)	(Rp) (IDR)	(Rp) (IDR)	(Rp) (IDR)	(Rp) (IDR)	(%)	
Money Market	**4,004.40**	6,299.29	3,625.90	11,872.31	10,330.07	(2,294.89)	(36.43%)	Money Market

Grafik *Outstanding* Penempatan *Money Market*
Graph of Outstanding Money Market Placement



Outstanding penempatan *money market* per 31 Desember 2025 sebesar Rp4,00 triliun, menurun sebesar Rp2,29 triliun atau 36.43% dibandingkan dengan *outstanding* penempatan *money market* per 31 Desember 2024. Penurunan tersebut dikarenakan adanya kenaikan pada kewajiban gwm yang harus dijaga disertai dengan penurunan DPK.

Outstanding money market placements as of December 31, 2025 amounted to IDR4.00 trillion, decreasing by IDR2.29 trillion or 36.43% compared to the outstanding money market placements as of December 31, 2024. The decline was primarily attributable to the increase in statutory reserve requirements that must be maintained, coupled with a decrease in Third Party Funds (TPF).

Adapun untuk total volume transaksi *money market* selama tiga tahun terakhir dengan rincian sebagai berikut.

The total volume of money market transactions over the past three years is presented as follows.

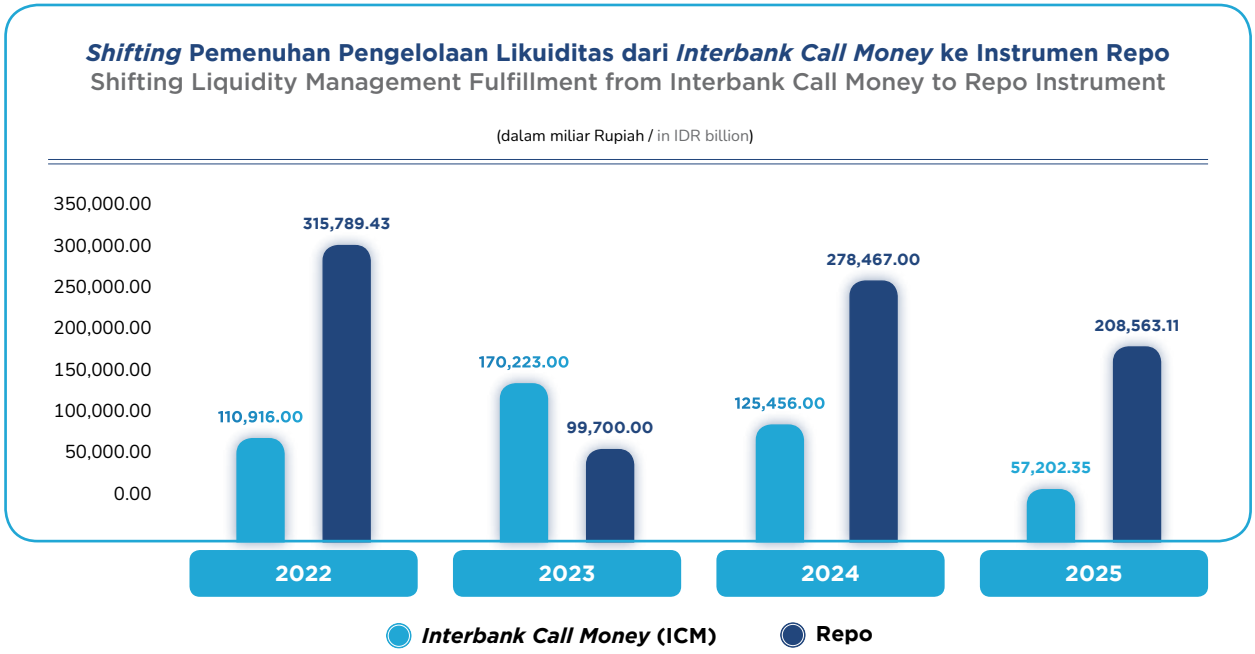
Total portofolio instrumen valuta asing *money market* tahun 2025 sebesar USD 13,67 miliar, menurun sebesar USD 11,193 miliar atau 45.02% dibandingkan tahun 2024. Penurunan terbesar pada tahun 2025 berasal dari portofolio TD valas sebesar USD 11,58 miliar.

The total portfolio of foreign currency money market instruments in 2025 amounted to USD13.67 billion, decreasing by USD11.193 billion or 45.02% compared to 2024. The largest decline in 2025 originated from the foreign currency time deposit (TD) portfolio, which decreased by USD11.58 billion.

Shifting Pemenuhan Pengelolaan Likuiditas dari _Interbank Call Money_ ke Instrumen Repo
Shifting Liquidity Management Fulfillment from Interbank Call Money to Repo Instrument



Seiring dengan peran bank **bjb** dalam upaya mendukung pendalaman pasar oleh Bank Indonesia, terdapat *shifting* pemenuhan pengelolaan likuiditas yang sebelumnya didominasi oleh instrumen *Interbank Call Money* beralih menjadi Instrumen Repo.

In line with bank **bjb**'s role in supporting Bank Indonesia's efforts to deepen the financial market, there has been a shift in liquidity management practices, which were previously dominated by Interbank Call Money instruments, toward the increased utilization of Repo instruments.

Transaksi *Fixed Income*

Selama tahun 2025, pasar obligasi pemerintah Indonesia menunjukkan dinamika yang mencerminkan respons terhadap kondisi makro ekonomi domestik dan global serta kebijakan moneter Bank Indonesia. Yield Surat Berharga Negara (SUN) tenor 10 tahun bergerak dalam rentang yang cukup luas sepanjang tahun, mencerminkan volatilitas pasar dan sentimen investor. Yield SUN 10 tahun berada di sekitar level 6,99% pada awal 2025, sempat mencapai puncaknya di sekitar 7,27% di pertengahan tahun, dan bergerak turun ke kisaran 5,95% pada pertengahan Oktober sebelum menutup tahun di level sekitar 6,02%. Rentang ini menunjukkan pergerakan yield 10-tahun secara historis antara sekitar 5,9% hingga di atas 7,2% sepanjang 2025, dengan fluktuasi dipengaruhi oleh kombinasi sentimen global terhadap suku bunga, kebijakan fiskal domestik, arus modal asing ke pasar surat utang Indonesia, serta perkembangan geopolitik yang terjadi sepanjang tahun 2025.

Pergerakan yield tersebut juga mencerminkan respons investor terhadap kebijakan moneter yang cenderung akomodatif sepanjang tahun, dengan penurunan suku bunga acuan oleh Bank Indonesia yang mendukung penurunan sebagian yield dan stabilisasi pasar obligasi di tengah tekanan eksternal. Di sisi lain, risiko volatilitas tetap ada, terutama pada awal dan pertengahan tahun, ketika yield sempat menembus level yang lebih tinggi di atas 7%, menandakan sensitivitas pasar terhadap perubahan risiko global dan domestik. Secara keseluruhan, pasar obligasi Indonesia pada 2025 menunjukkan daya tahan yang kuat dengan penyempitan rentang

Fixed Income Transaction

During 2025, the Indonesian government bond market demonstrated dynamics reflecting responses to domestic and global macroeconomic conditions, as well as the monetary policy stance of Bank Indonesia. The yield on 10-year Government Securities (Surat Berharga Negara/SUN) moved within a relatively wide range throughout the year, reflecting market volatility and investor sentiment. The 10-year SUN yield stood at around 6.99% at the beginning of 2025, peaked at approximately 7.27% in mid-year, and subsequently declined to around 5.95% in mid-October before closing the year at approximately 6.02%. This range indicates that the 10-year yield moved historically between around 5.9% and above 7.2% throughout 2025, with fluctuations driven by a combination of global interest rate sentiment, domestic fiscal policy, foreign capital flows into Indonesia's debt market, as well as geopolitical developments during the year.

The movement in yields also reflected investor responses to a generally accommodative monetary policy throughout the year, including policy rate reductions by Bank Indonesia that supported the partial decline in yields and helped stabilize the bond market amid external pressures. On the other hand, volatility risks remained, particularly during the early and mid-year periods when yields temporarily rose above the 7% level, indicating market sensitivity to shifts in both global and domestic risk factors. Overall, Indonesia's bond market in 2025 demonstrated strong resilience, with a narrowing yield

yield di akhir tahun, mencerminkan kepercayaan investor yang tetap terjaga meskipun dalam lingkungan pasar yang menantang.

Pengelolaan likuiditas dan optimalisasi pendapatan melalui instrumen *fixed income* dilakukan dengan penempatan dana pada surat berharga baik obligasi pemerintah maupun obligasi korporasi baik di pasar perdana maupun pasar sekunder serta melakukan *trading* (jual/beli) surat berharga. Selain pada obligasi, penempatan dana juga dilakukan pada instrumen Bank Indonesia, instrumen reksadana, baik reksa dana pasar uang, reksa dana pendapatan tetap, reksa dana terproteksi dan reksa dana syariah penyertaan terbatas. Total pendapatan yang diperoleh dari transaksi *fixed income* sepanjang tahun 2025 mencapai Rp2,317 triliun (per Desember 2025).

range toward the end of the year, reflecting sustained investor confidence despite a challenging market environment.

Liquidity management and income optimization through fixed income instruments were carried out through the placement of funds in securities, including both government bonds and corporate bonds in the primary and secondary markets, as well as through trading activities (purchase and sale) of securities. In addition to bonds, fund placements were also made in Bank Indonesia instruments and mutual fund instruments, including money market mutual funds, fixed income mutual funds, protected mutual funds, and limited participation Sharia mutual funds. Total income generated from fixed income transactions throughout 2025 amounted to IDR2.317 trillion (as of December 2025).

Penempatan dana pada Bank Lain dalam bentuk surat berharga obligasi bank per 31 Desember 2025 tercatat sebesar Rp461,97 miliar. Posisi pada akhir tahun 2025 menunjukan peningkatan sebesar Rp130,39 miliar atau sebesar 39,32% dari tahun sebelumnya. Peningkatan ini sejalan dengan strategi Bank dalam meningkatkan *interest income* melalui pembelian surat berharga dengan *yield* tinggi dengan risiko terukur serta batasan-batasan dari ketentuan yang berlaku. Adapun penempatan dalam surat berharga non-bank tercatat sebesar Rp32,04 triliun per akhir tahun 2025. Meskipun posisi akhir tahun 2025 cenderung lebih rendah sebesar 10,42% dari posisi pada akhir tahun 2024, penempatan pada surat berharga non-bank tetap memberikan *return* positif didukung dengan kenaikan kepemilikan instrumen portofolio SRBI sebagai salah satu strategi *yield enhancement* serta bentuk kontribusi bank **bjb** sebagai Dealer Utama PUVA di pasar primer maupun pasar sekunder.

Placements with other banks in the form of bank bonds as of December 31, 2025 were recorded at IDR461.97 billion. The position at the end of 2025 showed an increase of IDR130.39 billion or 39.32% compared to the previous year. This increase was in line with the Bank's strategy to enhance interest income through investments in high-yield securities with measured risk and within the limits of prevailing regulations. Meanwhile, placements in non-bank securities were recorded at IDR32.04 trillion as of the end of 2025. Although the year-end position in 2025 was 10.42% lower compared to the end of 2024, placements in non-bank securities continued to generate positive returns, supported by increased holdings of SRBI portfolio instruments as part of the Bank's yield enhancement strategy, as well as bank **bjb**'s contribution as a Primary Dealer (PUVA) in both the primary and secondary markets.

Tabel Transaksi *Fixed Income*
Table of Fixed Income Transactions

(dalam miliar Rupiah / in IDR billion)

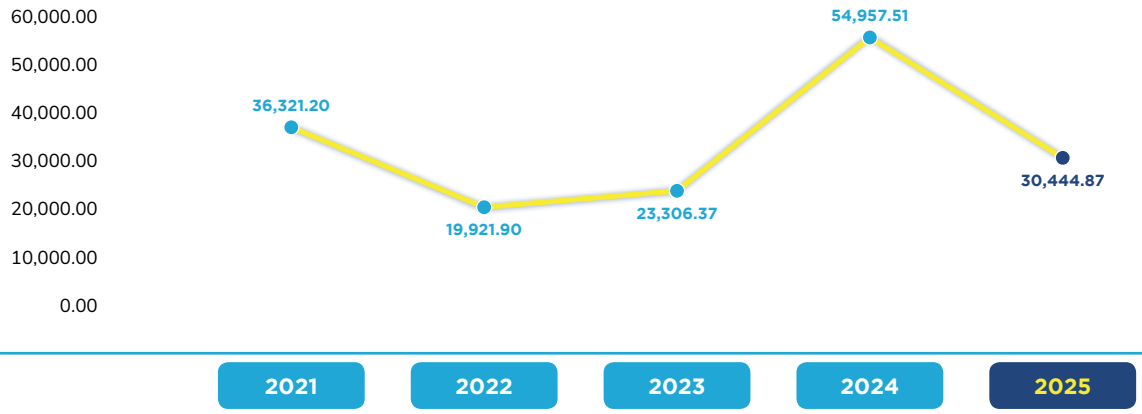
Grafik *Volume* Portofolio *Trading Fixed Income*
Graph of Fixed Income Trading Portfolio Volume

(dalam miliar Rupiah / in IDR billion)



Volume transaksi trading Fixed Income pada tahun 2025 mengalami penurunan dibandingkan dengan tahun 2024. Sepanjang tahun 2025, total volume transaksi tercatat sebesar Rp30,44 triliun, menurun 44,60% dibandingkan realisasi tahun 2024 yang mencapai Rp54,96 triliun. Penurunan volume transaksi tersebut antara lain dipengaruhi oleh kondisi pasar obligasi yang cenderung bullish sepanjang tahun 2025, sehingga strategi pengelolaan portofolio lebih difokuskan pada penahanan posisi (hold) untuk optimalisasi potensi keuntungan. Selain itu, sebagian posisi trading yang diakumulasi pada tahun 2024 masih dipertahankan hingga tahun 2025, sehingga turut mengurangi frekuensi aktivitas transaksi selama periode berjalan.

The trading volume of Fixed Income transactions in 2025 declined compared to 2024. Throughout 2025, the total transaction volume was recorded at IDR30.44 trillion, decreasing by 44.60% compared to the 2024 realization of IDR54.96 trillion. The decline in transaction volume was partly influenced by the bond market conditions, which remained relatively bullish throughout 2025, leading portfolio management strategies to focus more on holding positions to optimize potential gains. In addition, some trading positions accumulated in 2024 were maintained into 2025, which also contributed to the lower frequency of trading activities during the period.

Transaksi *Foreign Exchange*

Divisi *Treasury* secara berkelanjutan terus melakukan aktivitas *sales* kepada nasabah *existing* dan nasabah baru, termasuk berperan aktif dalam transaksi *forex & derivatives interbank*. Selama tahun 2025, volume transaksi *forex & derivatives* mencapai USD3,58 miliar. Keuntungan transaksi *forex & derivatives* yang dibukukan selama tahun 2025 mencapai Rp15,32 miliar. Sementara volume untuk transaksi *forex* kepada nasabah selama tahun 2025 mencapai USD75,44 juta, dengan membukukan keuntungan sebesar Rp2,45 miliar.

Divisi *Treasury* aktif melakukan sosialisasi produk secara berkala kepada tenaga pemasaran di Kantor Cabang yang tersebar di Indonesia terkait produk **bjb** *Foreign Exchange*, mekanisme transaksi, dan ketentuan terkini. Divisi *Treasury* pun melakukan pemasaran secara langsung kepada nasabah mengenai transaksi *Foreign Exchange* dan instrumen *Hedging* seperti *FX Forward* dan *FX Swap*,-*Interest Rate Swap* (IRS) dan *Cross Currency Swap* (CCS) mengingat potensi permintaan untuk melakukan transaksi lindung nilai (*hedging*), khususnya dari nasabah korporasi masih tinggi di pasar. Pada tahun 2025, layanan Cabang Devisa dapat dilakukan diseluruh Kantor Cabang bank **bjb** berjumlah sebanyak 63 Kantor Cabang.

Foreign Exchange Transaction

The Treasury Division continuously conducted sales activities to both existing and new customers, including actively participating in interbank forex and derivatives transactions. Throughout 2025, the volume of forex and derivatives transactions reached USD3.58 billion. Profit generated from forex and derivatives transactions during 2025 amounted to IDR15.32 billion. Meanwhile, the volume of forex transactions with customers during 2025 reached USD75.44 million, generating profit of IDR2.45 billion.

The Treasury Division also actively conducted regular product socialization to marketing personnel at Branch Offices across Indonesia regarding **bjb** Foreign Exchange products, transaction mechanisms, and the latest regulatory provisions. In addition, the Treasury Division carried out direct marketing to customers regarding Foreign Exchange transactions and hedging instruments such as FX Forward, FX Swap, Interest Rate Swap (IRS), and Cross Currency Swap (CCS), considering the strong market demand for hedging transactions, particularly from corporate customers. In 2025, foreign exchange branch services were available across all bank **bjb** Branch Offices, totaling 63 branches.

Selain itu dengan ditunjuknya bank **bjb** sebagai salah satu *Primary Dealer* (Dealer Utama) Bank Indonesia, bank **bjb** secara aktif melakukan aktivitas Dealer Utama pada pasar valas dalam rangka berkontribusi untuk pendalaman pasar valas di Indonesia. Aktivitas tersebut berupa transaksi pada beberapa instrumen derivatif seperti transaksi *Non-Deliverable Forward* (NDF), transaksi *Matchmaking Overnight Index Swap* (OIS), dan kuotasi OIS pada pasar sekunder.

Pencapaian keuntungan transaksi *forex and swap* dikontribusikan oleh aktivitas *trading spot* serta transaksi derivatif, diantaranya *swap* USD/JPY dengan memanfaatkan momentum *gap*/selisih antara suku bunga Amerika Serikat dan Jepang pada tahun 2025.

Moreover, following the appointment of bank **bjb** as one of Bank Indonesia's Primary Dealers (Dealer Utama), bank **bjb** has actively carried out Primary Dealer activities in the foreign exchange market as part of its contribution to the deepening of Indonesia's foreign exchange market. These activities include transactions in several derivative instruments, such as Non-Deliverable Forward (NDF) transactions, Matchmaking Overnight Index Swap (OIS) transactions, and the quotation of OIS in the secondary market.

The profit generated from forex and swap transactions was driven by spot trading activities as well as derivative transactions, including USD/JPY swap transactions by leveraging the momentum arising from the interest rate differential between the United States and Japan in 2025.

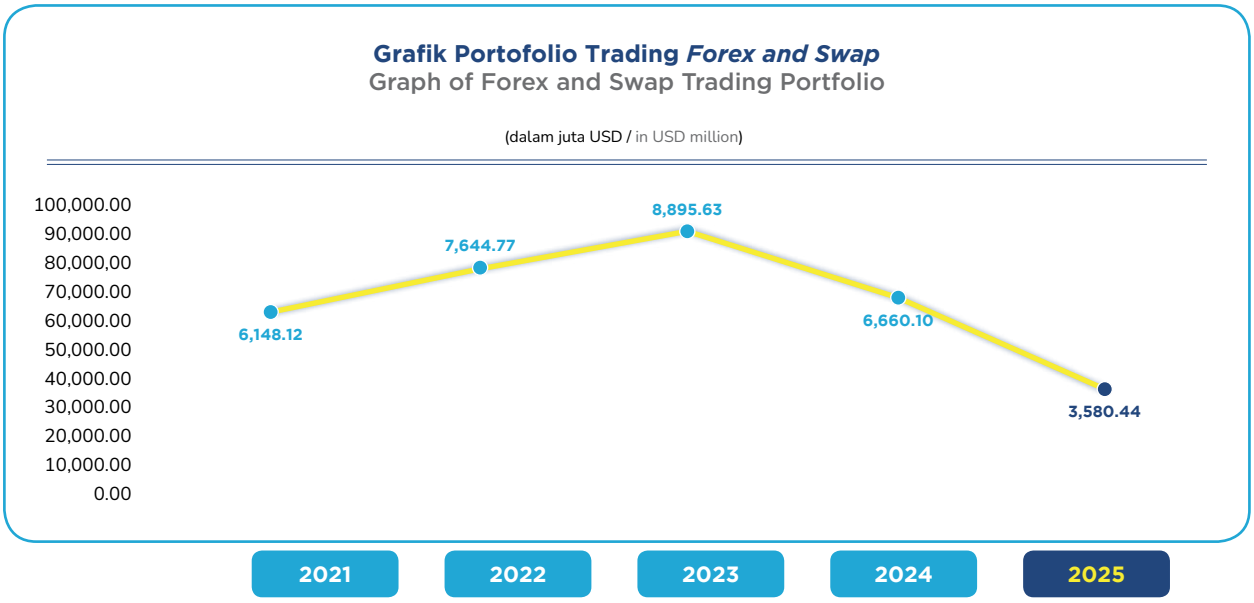
Grafik Portofolio Trading *Forex and Swap*
Graph of Forex and Swap Trading Portfolio



Volume transaksi *forex* dan *swap* bank **bjb** pada tahun 2025 adalah sebesar USD3,58 miliar dengan penurunan volume sebesar USD3,08 miliar dari tahun sebelumnya. Menurunnya transaksi pada tahun tersebut dibandingkan dengan tahun sebelumnya dikarenakan semakin menurunnya imbal hasil pada beberapa transaksi *swap*. Hal ini disebabkan kebijakan hampir seluruh bank sentral untuk menurunkan tingkat suku bunga dengan mempertimbangkan perekonomian di tahun

The volume of bank **bjb**'s forex and swap transactions in 2025 amounted to USD3.58 billion, representing a decrease of USD3.08 billion compared to the previous year. The decline in transaction volume was primarily attributable to the decreasing returns from several swap transactions. This condition was influenced by the policy of most central banks to lower interest rates in consideration of economic conditions in 2025, which contrasted with the increase in the benchmark interest rate

2025, yang bertolak belakang dengan meningkatnya suku bunga acuan Bank Sentral Jepang yang membuat *interest rate differential* semakin menipis dan mempengaruhi imbal hasil *swap*.

Transaksi SBN Ritel

bank **bjb** terus meningkatkan aktivitas transaksi *treasury sales* kepada nasabah termasuk transaksi obligasi sebagai salah satu pilihan produk investasi bagi nasabah. bank **bjb** pada tahun 2024 bertindak sebagai Sub Mitra Distribusi SBN Ritel yang bekerja sama dengan salah satu Mitra Distribusi, yaitu PT Trimegah Sekuritas Indonesia, Tbk. Penjualan SBN Ritel di pasar perdana selama tahun 2025 mencapai Rp308,543 miliar dengan total nasabah ritel yang melakukan pembelian di pasar perdana melalui bank **bjb** sebanyak 588 nasabah perorangan. Transaksi SBN Ritel di pasar perdana tersebut meliputi 7 (tujuh) kali penerbitan, yaitu Obligasi Negara Ritel (ORI) seri ORI027 dan ORI028, Sukuk Negara Ritel (SR) seri SR022 dan SR023, Saving Bond Ritel (SBR) seri SBR014, serta Sukuk Tabungan (ST) seri ST014 dan ST015. Pencapaian *fee based* atas transaksi surat berharga di pasar perdana selama tahun 2025 sebesar Rp437,76 juta.

Tidak hanya transaksi obligasi di pasar perdana saja, bank **bjb** juga terus meningkatkan transaksi obligasi nasabah di pasar sekunder. Adapun obligasi yang diperjualbelikan di pasar sekunder oleh bank **bjb** kepada nasabah baik nasabah perorangan maupun nasabah non perorangan meliputi SBN Ritel, SUN, SBSN, dan Obligasi Korporasi. Selama tahun 2025, volume transaksi obligasi nasabah di pasar sekunder mencapai Rp12,55 triliun dengan membukukan keuntungan sebesar Rp8,51 miliar.

Aktivitas Kustodian dan Wali Amanat

Sepanjang tahun 2025, strategi pemasaran jasa kustodian dan wali amanat difokuskan pada penguatan hubungan dengan nasabah serta peningkatan kualitas dan nilai tambah layanan. Kegiatan pemasaran dilaksanakan melalui komunikasi yang berkesinambungan dan pendekatan yang berorientasi pada kebutuhan nasabah, sejalan dengan ketentuan regulator dan prinsip tata kelola yang baik.

Sebagai bagian dari implementasi strategi tersebut, Bank menyelenggarakan **bjb** Economic Outlook 2026 pada akhir tahun 2025 sebagai kegiatan edukatif yang bertujuan memberikan informasi dan wawasan mengenai kondisi serta proyeksi ekonomi kepada nasabah pengguna jasa kustodian dan wali amanat. Kegiatan ini diharapkan dapat meningkatkan pemahaman nasabah serta memperkuat posisi bank **bjb** dalam memberikan layanan yang berkelanjutan dan bernilai tambah.

Faktor Pendukung dan Penghambat Bisnis *Treasury*

Kondisi perekonomian domestik dan global pada tahun 2025 masih dibayangi oleh berbagai ketidakpastian yang cukup tinggi, didominasi oleh volatilitas yang berkesinambungan,

of the Bank of Japan. As a result, the interest rate differential narrowed, thereby affecting swap yields.

SBN Retail Transaction

bank **bjb** continued to enhance treasury sales transaction activities with customers, including bond transactions as one of the investment product options for customers. In 2024, bank **bjb** acted as a Sub-Distribution Partner for Retail Government Securities (SBN Ritel) in collaboration with one of the Distribution Partners, PT Trimegah Sekuritas Indonesia, Tbk. Sales of Retail Government Securities in the primary market during 2025 reached IDR308.543 billion, with a total of 588 individual retail customers purchasing through bank **bjb** in the primary market. Retail Government Securities transactions in the primary market consisted of seven issuances, namely Retail Government Bonds (ORI) series ORI027 and ORI028, Retail Sukuk (SR) series SR022 and SR023, Retail Savings Bonds (SBR) series SBR014, and Savings Sukuk (ST) series ST014 and ST015. Fee-based income generated from primary market securities transactions in 2025 amounted to IDR437.76 million.

In addition to primary market bond transactions, bank **bjb** also continued to expand customer bond transactions in the secondary market. Bonds traded by bank **bjb** in the secondary market for both individual and non-individual customers included Retail Government Securities (SBN Ritel), Government Bonds (SUN), Government Sharia Securities (SBSN), and Corporate Bonds. Throughout 2025, the volume of customer bond transactions in the secondary market reached IDR12.55 trillion, generating profit of IDR8.51 billion.

Custodian and Trustee Activities

Throughout 2025, the marketing strategy for custodian and trustee services focused on strengthening relationships with clients as well as enhancing service quality and value-added offerings. Marketing activities were carried out through continuous communication and a client-oriented approach aligned with clients' needs, in accordance with regulatory provisions and the principles of good corporate governance.

As part of the implementation of this strategy, the Bank organized the **bjb** Economic Outlook 2026 at the end of 2025 as an educational initiative aimed at providing information and insights regarding economic conditions and projections to clients utilizing custodian and trustee services. This initiative is expected to enhance clients' understanding while strengthening the bank **bjb** position in delivering sustainable and value-added services.

Supporting and Inhibiting Factors of Treasury Business

Domestic and global economic conditions in 2025 remained marked by high uncertainty, characterized by persistent volatility driven by trade dynamics, complex geopolitical developments,

dipicu oleh dinamika perdagangan, dipengaruhi oleh dinamika geopolitik yang kompleks serta arah kebijakan ekonomi yang terus mengalami perubahan. Tarif resiprokal oleh Amerika Serikat (AS) yang dikenakan untuk negara mitra dagang pun turut memengaruhi laju pertumbuhan. IMF memproyeksikan pertumbuhan ekonomi global pada tahun 2025 sebesar 3,2% yoy, sedikit melambat dibandingkan tahun sebelumnya 3,3% yoy dan lebih rendah dibandingkan rata-rata pertumbuhan pra-pandemi global di 3,4%. Tren perlambatan ekonomi terjadi di negara-negara utama, seperti AS yang dipengaruhi oleh ketidakpastian pasar tenaga kerja akibat US *government shutdown* terpanjang dalam sejarah dan efek penerapan tarif resiprokal. Tiongkok, sebagai negara yang berkontribusi besar terhadap perekonomian global juga menunjukkan sinyal perlambatan akibat konsumsi domestik yang moderat. Di sisi lain, tren pertumbuhan di negara Eropa cenderung meningkat, seperti di Jerman dan Italia, setelah mengalami perlambatan tajam atau kontraksi ekonomi di periode-periode sebelumnya. Ketidakpastian yang muncul akibat kebijakan tarif resiprokal, ditambah tekanan inflasi yang bersifat sementara, menyebabkan Bank Sentral AS (The Fed) lebih lambat dalam memulai siklus penurunan suku bunga acuan Fed *Fund Rate* (FFR) di 2025 pada level 3,5%–3,75%, dimana pemangkasan FFR baru dimulai pada September 2025 dan diikuti dengan pemangkasan lanjutan di bulan Oktober 2025 dan Desember 2025.

and evolving economic policy directions. Reciprocal tariffs imposed by the United States (US) on its trading partners also affected growth momentum. The IMF projected global economic growth at 3.2% (yoy) in 2025, slightly slower than 3.3% (yoy) in the previous year and below the pre-pandemic average of 3.4%. Economic slowdown trends were observed in major economies, including the US, influenced by labor market uncertainty due to the longest government shutdown in history and the impact of reciprocal tariffs. China, as a major contributor to the global economy, also showed signs of moderation due to subdued domestic consumption. Meanwhile, economic growth in Europe, particularly in Germany and Italy, showed improvement following previous periods of contraction or sharp slowdown. Uncertainty arising from tariff policies, combined with temporary inflationary pressures, led the US Federal Reserve (The Fed) to delay the start of its rate-cutting cycle, with the Fed Fund Rate (FFR) maintained at 3.5%–3.75% in 2025. Rate cuts were initiated in September 2025, followed by further reductions in October and December 2025.

Dalam konteks domestik, Indonesia menunjukkan resiliensi. Pertumbuhan ekonomi 2025 berada di kisaran 5%, ditopang oleh permintaan domestik dan akselerasi investasi pada paruh kedua tahun 2025. Struktur pertumbuhan mulai menunjukkan pergeseran, di mana kontribusi investasi (*Gross Fixed Capital Formation*/GFCF) meningkat, terutama pada sektor hilirisasi, infrastruktur, energi, serta manufaktur berbasis ekspor dan substitusi impor. Inflasi pada tahun 2025 masih terkendali dan berada dalam target Bank Indonesia. Stabilitas harga pangan dan koordinasi kebijakan moneter-fiskal membantu menjaga ekspektasi inflasi. Namun, volatilitas harga energi global tetap menjadi faktor risiko yang memerlukan kewaspadaan, khususnya terhadap dampaknya pada subsidi dan komponen harga barang atau jasa yang ditentukan langsung oleh kebijakan pemerintah. Nilai tukar Rupiah sepanjang 2025 bergerak fluktuatif mengikuti dinamika dolar AS dan sentimen global. Penguatan dolar akibat *yield* AS yang masih tinggi serta *Risk-Off Episodes* sempat menekan Rupiah, namun stabilitas fundamental domestik dan intervensi terukur Bank Indonesia membantu menjaga volatilitas agar tetap terkendali. Secara umum, Rupiah bergerak stabil meskipun dalam rentang yang lebih lebar dibanding periode sebelum pengetatan global.

In the domestic context, Indonesia demonstrated resilience, with economic growth maintained at around 5%, supported by domestic demand and accelerated investment in the second half of 2025. The growth structure began to shift, with increased contribution from investment (Gross Fixed Capital Formation/GFCF), particularly in downstream industries, infrastructure, energy, and export-oriented and import-substitution manufacturing sectors. Inflation remained controlled within Bank Indonesia's target range, supported by stable food prices and strong monetary-fiscal policy coordination. However, global energy price volatility remained a key risk factor, particularly in relation to subsidy pressures and administered prices. The Rupiah fluctuated throughout 2025, influenced by US dollar movements and global sentiment. Despite pressure from strong US yields and risk-off episodes, domestic fundamentals and calibrated interventions by Bank Indonesia helped maintain overall stability, albeit within a wider range compared to the pre-tightening period.

Kebijakan fiskal di tahun 2025, pemerintah tetap menjaga defisit dalam batas yang ditetapkan, meskipun ruang fiskal semakin terbatas. Belanja sosial dan program prioritas tetap berjalan, sementara kebutuhan pembiayaan meningkat seiring optimalisasi belanja. Disiplin fiskal sepanjang 2025 menjadi

From a fiscal perspective, the government maintained the deficit within the prescribed limits, although fiscal space became more constrained. Social spending and priority programs continued, while financing needs increased alongside expenditure optimization. Fiscal discipline throughout 2025 remained critical

faktor penting dalam menjaga kepercayaan investor terhadap obligasi pemerintah dan stabilitas pasar keuangan domestik. Pasar obligasi Indonesia di tahun 2025 menunjukkan kinerja positif yang cenderung ditopang pemangkasan suku bunga The Fed ditengah moderasi inflasi AS ke level 2,70% yoy serta mendinginnya pasar tenaga kerja AS, mencerminkan keseimbangan antara faktor domestik yang solid dan tekanan eksternal yang volatil. Yield bergerak dinamis mengikuti arah US *Treasury* dan arus modal asing. Stabilitas inflasi dan koordinasi kebijakan menjadi penopang utama sentimen pasar. Tren penguatan pasar turut didorong oleh keputusan Bank Indonesia yang kembali menahan BI-*Rate* untuk ketiga kalinya, dengan ruang pelonggaran tetap terbuka seiring inflasi domestik yang terkendali dan persepsi masyarakat terhadap kondisi ekonomi dalam negeri yang semakin optimistis.

in sustaining investor confidence in government bonds and maintaining domestic financial market stability. The Indonesian bond market showed positive performance, supported by The Fed's rate cuts, moderating US inflation at 2.70% (yoy), and cooling labor market conditions. Yields moved dynamically following US Treasury trends and foreign capital flows, while stable inflation and policy coordination supported market sentiment. Positive market trends were further reinforced by Bank Indonesia's decision to maintain the BI-Rate for the third consecutive time, with room for easing remaining open in line with controlled inflation and improving public confidence in domestic economic conditions.

Tren pemulihan ekonomi domestik yang belum merata memengaruhi kinerja sektor perbankan. Kinerja perbankan 2025 menunjukkan pertumbuhan kredit sebesar 9,69% per Desember 2025. Pertumbuhan kredit perbankan di atas ditopang oleh pertumbuhan dana pihak ketiga (DPK) sebesar 13,8% yoy per Desember 2025. Di tengah berbagai tantangan, baik dari kondisi pasar keuangan, kondisi ekonomi,maupun industri perbankan, bank **bjb** tetap menunjukkan kinerja bisnis yang solid dan berkelanjutan sepanjang 2025. Fundamental kuat melalui efisiensi operasional dan produk digital terintegrasi memastikan pertumbuhan bisnis jangka panjang.

The uneven domestic economic recovery influenced banking sector performance. Banking credit growth reached 9.69% as of December 2025, supported by third-party fund (DPK) growth of 13.8% (yoy). Amid various challenges from financial markets, economic conditions, and industry dynamics, bjb maintained solid and sustainable business performance throughout 2025. Strong fundamentals, supported by operational efficiency and integrated digital products, continue to underpin long-term business growth.

Strategi Bisnis *Treasury* Tahun 2026

Menghadapi tantangan pasar uang tahun 2026, bank **bjb** senantiasa melakukan analisa dan menerapkan strategi agar sejalan dengan perkembangan pasar dengan tetap menjaga likuiditas bank dan optimalisasi pendapatan *interest income* maupun *fee based income* melalui transaksi *treasury*. bank **bjb** akan terus mengembangkan produk dan layanan untuk mengakomodir kebutuhan nasabah dengan lebih baik. Strategi Utama Bisnis *Treasury* tahun 2026 yaitu terus mengembangankan retail bisnis *Treasury* khususnya penjualan *bonds retail* dan valuta asing kepada nasabah, mendorong peningkatan pendapatan melalui kenaikan *fee based income*, jasa layanan kustodian dan wali amanat, dan *enhancement yield instrument treasury* dengan tetap memperhatikan risiko pasar.

Treasury Business Strategy in 2026

In addressing the challenges of the money market in 2026, bank **bjb** continuously conducts analysis and implements strategies aligned with market developments, while maintaining the Bank's liquidity and optimizing both interest income and fee-based income through treasury transactions. bank **bjb** will continue to develop products and services to better accommodate customer needs. The key Treasury business strategies for 2026 include further expanding the retail Treasury business, particularly the sale of retail bonds and foreign exchange to customers; driving revenue growth through increased fee-based income, custodial services, and trustee services; as well as enhancing the yield of treasury instruments while maintaining prudent management of market risk.

The enthusiasm to participate in creating prosperity for the wider community not

ini namun juga di masa depan terutama setelah masa purna tugas sehingga mendorong bank **bjb** untuk mendirikan Dana Pensiun Lembaga Keuangan (DPLK) bank **bjb**. Berdasarkan Surat Keputusan Menteri Keuangan RI Nomor: KEP056/KM.6/2002 tanggal 18 Februari 2002 maka DPLK bank **bjb** resmi beroperasi sejak 20 Februari 2002.

only now but also in the future, especially after retiring had encouraged bank **bjb** to establish a **bjb** Financial Institution Pension Fund (DPLK). Based on the Decree of the Minister of Finance of the Republic of Indonesia Number: KEP-056/KM.6/2002 dated February 18, 2002, bank **bjb** Financial Institution Pension Fund had officially operated since February 20, 2002.

Pengembangan Produk dan Keunggulan Layanan

Dalam rangka meningkatkan layanan digitalisasi kepesertaan secara optimal, DPLK bank **bjb** melakukan pengembangan layanan digitalisasi sistem kepesertaan melalui penambahan fitur layanan *Customer onBoarding* (COB) DPLK pada Digi *Mobile* bank **bjb**. *Customer onBoarding* (COB) merupakan fitur layanan DPLK yang digunakan untuk proses pendaftaran peserta dan penambahan kepesertaan DPLK yang dikhususkan untuk nasabah yang telah memiliki rekening tabungan bank **bjb** melalui Aplikasi Digi *Mobile* bank **bjb**, sehingga calon peserta dapat melakukan pendaftaran peserta baru dan penambahan kepesertaan DPLK secara *online* tanpa harus berkunjung ke Kantor Cabang bank **bjb**.

Product Development and Service Excellence

In order to optimize the digitalization of membership services, DPLK bank **bjb** has enhanced its membership system through the addition of the Customer Onboarding (COB) feature for DPLK within the Digi Mobile bank **bjb** application. Customer Onboarding (COB) is a DPLK service feature designed to facilitate participant registration and the addition of DPLK memberships, specifically for customers who already have a bank **bjb** savings account through the Digi Mobile bank **bjb** application. Through this feature, prospective participants are able to register as new participants and add DPLK memberships online without the need to visit a bank **bjb** branch office.

Produktivitas DPLK

Dalam kurun waktu lima tahun terakhir ekspansi bisnis DPLK bank **bjb** tumbuh dengan pesat, dana kelolaan DPLK bank **bjb** tahun 2025 mencapai Rp2,21 triliun, meningkat Rp4348,52 miliar atau 18,70% dibandingkan tahun 2024 mencapai Rp1,86 triliun. Pertumbuhan tersebut sejalan dengan kenaikan jumlah peserta DPLK.

DPLK Productivity

Over the past five years, the business expansion of DPLK bank **bjb** has grown rapidly. Assets under management of DPLK bank **bjb** in 2025 reached IDR2.21 trillion, increasing by IDR348.52 billion or 18.70% compared to IDR1.86 trillion in 2024. This growth was in line with the increase in the number of DPLK participants.

Jumlah *fee based* yang diperoleh selama tahun 2025 adalah sebesar Rp23,77 miliar yang berasal dari dari fee administrasi bulanan sebesar Rp2,2 miliar, *fee* transaksi penarikan sebesar Rp271 juta dan *fee* pengelolaan sebesar Rp21,2 miliar. Jumlah ini meningkat sebesar Rp2,7 miliar atau 12,93% dari *fee* based tahun 2024 yang sebesar Rp21,05 miliar.

The total fee-based income generated in 2025 amounted to IDR23.77 billion, consisting of monthly administration fees of IDR2.2 billion, withdrawal transaction fees of IDR271 million, and management fees of IDR21.2 billion. This amount increased by IDR2.7 billion or 12.93% compared to the 2024 fee-based income of IDR21.05 billion.

Pengelolaan Investasi

bjb SIAP dalam mengelola dana para peserta memiliki filosofi investasi menjaga pertumbuhan nilai aset peserta pensiun dengan fokus kepada kualitas aset dan *liability driven investment* (pengelolaan investasi dengan berfokus kepada likuiditas untuk pemenuhan manfaat pensiun). Dalam rangka pengelolaan dana peserta, bank **bjb** berkomitmen teguh menerapkan prinsip kehati-hatian serta kedisiplinan dalam memenuhi ketentuan internal maupun regulator.

Penerapan strategi investasi **bjb** SIAP tahun 2025 di antaranya adalah sebagai berikut:

1. Menjaga pertumbuhan imbal hasil yang stabil melalui pengelolaan portofolio yang dinamis dan adaptif terhadap kondisi pasar.
2. Menjaga keseimbangan alokasi pada aset *cyclical* yang pro pertumbuhan maupun *aset defensive* sebagai jangkar stabilitas imbal hasil.

Imbal Hasil Investasi

Tingkat pengembalian investasi tahun 2025 sebesar 7,44%, tumbuh sebesar 13% secara yoy dengan pendapatan investasi sebesar Rp151 miliar yang tumbuh sebesar Rp124 miliar atau tumbuh 44% secara yoy. Dominasi penempatan pada deposito berjangka dan *deposito on call* mulai menurun dari 72% pada Desember 2024 menjadi 69% pada Desember 2025, hal tersebut sejalan dengan peluncuran paket investasi pasar uang dan pendapatan tetap, sehingga alokasi aset mulai terdiversifikasi.

1. **Paket Investasi A (Konservatif)**
   Pilihan investasi ini bertujuan memberikan tingkat likuiditas yang tinggi dalam memenuhi kebutuhan dana tunai untuk waktu yang singkat sekaligus memberikan tingkat pendapatan investasi yang menarik. Dana peserta akan dialokasikan seluruhnya pada instrumen pasar uang seperti deposito berjangka dan/atau *deposito on call* dan/atau surat berharga negara dengan tenor dibawah 1 (satu) tahun. Kinerja paket investasi A selama tahun 2025 memberikan *return* sebesar 7,10%, lebih tinggi dibandingkan tolak ukur indeks reksadana pasar uang sebesar 3,14%.
2. **Paket Investasi B (Agresif)**
   Pilihan investasi ini bertujuan memberikan tingkat pengembalian investasi yang optimal dalam jangka panjang, dengan risiko pasar yang tinggi (suku bunga dan nilai tukar), risiko penurunan nilai investasi serta risiko likuiditas. Dana peserta akan dialokasikan 20% pada deposito berjangka dan 80% pada instrumen campuran (obligasi dan/atau saham). Kinerja paket investasi B tahun 2025 memberikan *return* yang disetahunkan sebesar 13,27%, lebih tinggi dibandingkan tolak ukur indeks reksadana campuran sebesar 12,33%.
3. **Paket Investasi C (Moderate)**
   Pilihan investasi ini bertujuan memberikan tingkat pengembalian yang menarik dan memelihara stabilitas modal yang optimal dalam jangka menengah, dengan

Investment Management

bjb SIAP in managing participant funds had an investment philosophy of maintaining the growth of the value of pension participant assets with a focus on asset quality and liability driven investment (investment management with a focus on liquidity to fulfill pension benefits). In the context of managing participant funds, we firmly committed to implement the principle of prudence and discipline in complying with internal and regulatory provisions.

The implementation of investment strategies that we had carried out in 2025 included as follows:

1. Maintaining stable returns through dynamic and adaptive portfolio management in response to prevailing market conditions.
2. Maintaining a balanced allocation between growth-oriented cyclical assets and defensive assets serving as anchors for return stability.

Investment Returns

The investment return in 2025 was recorded at 7.44%, representing year-on-year growth of 13%, with investment income reaching IDR151 billion, increasing by IDR124 billion or 44% year-on-year. The dominance of placements in time deposits and deposits on call declined from 72% in December 2024 to 69% in December 2025. This development was in line with the launch of money market and fixed income investment packages, resulting in a more diversified asset allocation.

1. **Investment Returns**
   This investment option aims to provide high liquidity to meet short-term cash needs while delivering attractive investment income. Participants' funds are fully allocated to money market instruments such as time deposits and/or deposits on call and/or government securities with tenors of less than one year. The performance of Investment Package A in 2025 generated a return of 7.10%, higher than the benchmark money market mutual fund index of 3.14%.
2. **Investment Package B (Aggresive)**
   This investment option aims to provide optimal long-term investment returns with high market risk (interest rate and exchange rate risks), potential decline in investment value, and liquidity risk. Participants' funds are allocated 20% to time deposits and 80% to mixed instruments (bonds and/or equities). The performance of Investment Package B in 2025 delivered an annualized return of 13.27%, higher than the benchmark mixed mutual fund index of 12.33%.
3. **Investment Package C (Moderate)**
   This investment option aims to deliver attractive returns while maintaining optimal capital stability over the medium term, with moderate market risk (interest rate and exchange

risiko pasar yang sedang (suku bunga dan nilai tukar), risiko kredit dari efek surat utang serta risiko likuiditas. Dana peserta akan dialokasikan sebanyak banyaknya 80% pada efek hutang seperti obligasi korporasi dengan tenor sampai 5 (lima) tahun yang terdaftar di bursa efek di Indonesia dan/atau obligasi yang diterbitkan oleh Negara Republik Indonesia dalam mata uang Rupiah dan/atau reksadana pendapatan tetap. Sedangkan alokasi pada pasar uang seperti deposito berjangka dan/atau *deposito on call* dan/atau surat berharga negara kinerja paket investasi C tahun 2025 memberikan return yang disetahunkan sebesar 12,06%, lebih tinggi dibandingkan tolak ukur indeks reksadana pendapatan tetap sebesar 6,93%.

rate risks), credit risk from debt securities, and liquidity risk. Participants' funds are allocated up to 80% in debt securities such as corporate bonds with tenors of up to five years listed on the Indonesia Stock Exchange and/or bonds issued by the Government of the Republic of Indonesia in Rupiah and/or fixed income mutual funds. The remaining allocation is placed in money market instruments such as time deposits and/or deposits on call and/or government securities. The performance of Investment Package C in 2025 generated an annualized return of 12.06%, higher than the benchmark fixed income mutual fund index of 6.93%.

Faktor Pendukung dan Penghambat Bisnis DPLK

1. **Faktor Pendukung**
   a. Program DPLK dapat diikuti secara mandiri maupun yang diselenggarakan oleh pemberi kerja, sehingga pendanaan dana pensiun dapat menyesuaikan dengan kemampuan finansial individu maupun perusahaan.
   b. Program DPLK sebagai tambahan manfaat pensiun wajib yang diselenggarakan oleh pemerintah (Taspen, ASABRI, BPJS TK) untuk mencapai Tingkat Penghasilan Pensiun (TPP) yang ideal pada saat yang bersangkutan purna tugas.
   c. Program DPLK sebagai salah satu skema pencadangan imbalan pasca kerja serta memberikan efisiensi bagi perusahaan.
   d. Ketentuan perpajakan program pensiun yang berlaku kepada pemberi kerja dan/atau peserta.
   e. Dukungan pendiri dalam hal ini kegiatan pemasaran dan menggunakan rantai produk bank **bjb** (*product holding)* dan kolaborasi dengan unit kerja lain.
2. **Penghambat Bisnis/Kendala Yang Dihadapi**
   a. Semakin banyaknya pelaku program sejenis yang menawarkan program hari tua dengan manfaat tambahan (proteksi), hal ini selaras dengan berlakunya UU Pengembangan dan Penguatan Sektor Keuangan nomor 4 tahun 2023 yang mengatur DPLK dapat dibentuk oleh bank umum, bank umum syariah, perusahaan asuransi, perusahaan asuransi syariah, manajer investasi, manajer investasi syariah, atau lembaga lain yang diatur lebih lanjut dalam Peraturan Otoritas Jasa Keuangan setelah di koordinasikan dengan Menteri dan atas persetujuan Otoritas Jasa Keuangan.
   b. Tingkat literasi yang rendah di industri DPLK sehingga masih kurangnya pemahaman masyarakat terkait pentingnya perencanaan keuangan.
   c. Pesatnya perkembangan *marketplace* dan *e-commerce* menjadikan masyarakat cenderung konsumtif, di sisi lain pelaku industri dana pensiun belum sepenuhnya memanfaatkan teknologi dan *media sosial* sebagai sarana pemasaran dan transaksi.

Supporting and Inhibiting Factors of DPLK Business

1. **Supporting Factors**
   a. DPLK programs can be participated in independently or organized by employers, allowing pension funding to be aligned with the financial capabilities of individuals as well as companies.
   b. DPLK programs serve as a complement to the mandatory pension benefits administered by the government (Taspen, ASABRI, BPJS Ketenagakerjaan) in order to achieve an ideal Pension Replacement Ratio (TPP) when participants reach retirement.
   c. DPLK programs represent one of the schemes for provisioning post-employment benefits while also providing efficiency for companies.
   d. Tax provisions applicable to pension programs for employers and/or participants.
   e. Support from the founder through marketing activities, the utilization of bank **bjb**'s product holding chain, and collaboration with other business units.
2. **Business Inhibitors/Dealt Constraints**
   a. The increasing number of similar program actors offering retirement programs with additional benefits (protection). It was in line with the enactment of Law number 4 of 2023 concerning the Financial Sector Development and Strengthening, which regulated that DPLK can be formed by commercial banks, Islamic commercial banks, insurance companies, Islamic insurance companies, investment managers, Islamic investment managers, or other institutions that are further regulated in the Financial Services Authority Regulation, after being coordinated with the Minister and with the approval of the Financial Services Authority.
   b. The level of literacy in the DPLK industry remains relatively low, resulting in limited public understanding of the importance of financial planning.
   c. The rapid development of marketplaces and e-commerce has led to increasingly consumptive behavior among the public. On the other hand, pension fund industry players have not yet fully utilized technology and social media as channels for marketing and transactions.

d. Regulasi perpajakan program manfaat lain yang belum diatur sehingga terjadi multitafsir terkait pemasaran produk pesangon apakah pajak yang diberlakukan progresif atau final.

e. Umumnya pemberi kerja di Indonesia hanya menyelenggarakan satu skema kesejahteraan pensiun yang diwajibkan oleh pemerintah (BPJS Ketenagakerjaan) dan pengelolaan program imbalan pascakerja dengan skema *pay as you go*.

f. DPLK sebagai program sukarela sehingga DPLK tidak menjadi program wajib yang diselenggarakan oleh pemberi kerja dan/atau instansi.

g. Adanya ketidakpastian dan ketidakstabilan kondisi ekonomi dalam negeri maupun luar negeri yang menyebabkan tingginya risiko penurunan nilai investasi yang akan mempengaruhi pengembangan dana para peserta DPLK serta adanya kecenderungan penurunan *return* di pasar uang.

3. **Upaya Pemecahan Masalah**
   a. Membuat program *marketing* kreatif, program promosi dan *reward* bagi peserta yang lebih kompetitif untuk memberikan tambahan manfaat.
   b. Meningkatkan literasi secara masif dan berkelanjutan baik kepada peserta individu, peserta pemberi kerja terkait pemahamanan pentingnya program pensiun, baik secara langsung maupun melalui pemanfaatan teknologi dan media sosial.
   c. Membuat diversifikasi investasi yang lebih menarik peserta.
   d. Diversifikasi paket investasi yang aman dan memiliki imbal hasil yang optimal.
   e. Penyampaian kinerja investasi dan peningkatan mitigasi risiko atas penempatan instrumen investasi.
   f. Mengembangkan *mobile application* agar lebih adaptif dalam mempermudah akses layanan DPLK.
   g. Penempatan investasi dilakukan secara selektif kepada *counterpart* yang memiliki risiko rendah terhadap ketidakstabilan kondisi ekonomi global.

Rencana dan Strategi DPLK Tahun 2026

Rencana dan strategi DPLK bank **bjb** di tahun 2026 adalah sebagai berikut:

1. Meningkatkan literasi dan inklusi kepada masyarakat untuk memperkuat *branding* DPLK bank **bjb** diseluruh wilayah kerja jaringan kantor bank **bjb** melalui program *marketing* kreatif.
2. Optimalisasi ekosistem bisnis yang terdapat pada bank **bjb**.
3. Diversifikasi investasi dan pengembangan aplikasi investasi untuk mengoptimalkan kinerja portofolio.
4. Meningkatkan *customer relationship* untuk menambah potensi portofolio dana kelolaan.

d. Tax regulations governing other benefit programs have not been fully established, resulting in multiple interpretations regarding the marketing of severance products, particularly whether the applicable tax treatment should be progressive or final.

e. In general, employers in Indonesia only provide one pension welfare scheme mandated by the government (BPJS Ketenagakerjaan) and manage post-employment benefit programs under a pay-as-you-go scheme.

f. As a voluntary program, DPLK is not a mandatory scheme to be implemented by employers and/or institutions.

g. Uncertainty and instability in both domestic and global economic conditions may increase the risk of investment value declines, which could affect the development of DPLK participants' funds, along with a tendency for declining returns in the money market.

3. **Problem-Solving Efforts**
   a. Developing creative marketing programs, promotional initiatives, and more competitive reward schemes for participants to provide additional benefits.
   b. Enhancing literacy in a massive and sustainable manner for both individual participants and employer participants regarding the importance of pension programs, conducted both directly and through the utilization of technology and social media.
   c. Developing more attractive investment diversification to encourage participant interest.
   d. Diversifying investment packages that are secure and provide optimal returns.
   e. Communicating investment performance and strengthening risk mitigation for the placement of investment instruments.
   f. Developing the mobile application to be more adaptive in facilitating easier access to DPLK services.
   g. Investment placements are conducted selectively with counterparties that present lower risk exposure to global economic instability.

DPLK Plan and Strategies for 2026

The plans and strategic steps that will be taken by DPLK bank **bjb** for 2026 are as follows:

1. Improving literacy and inclusion to the community to strengthen the branding of bank **bjb** DLPK throughout the working area of bank **bjb** office network through creative marketing programs.
2. Optimizing bank **bjb**'s business ecosystem..
3. Diversifying investments and developing investment applications to optimize portfolio performanc.
4. Improving customer relationships to increase the potential of the managed fund portfolio.

Selain itu DPLK bank **bjb** telah menetapkan rencana dan langkah-langkah strategis jangka pendek (satu tahun), menengah (tiga tahun) dan panjang (lima tahun) yaitu sebagai berikut:

1. Rencana dan langkah-langkah strategis yang akan ditempuh oleh dana pensiun dalam 1 (satu) tahun:
   a. Penguatan branding **bjb** siap kepada Gen Z melalui program kerja "*Goes to Campus*".
   b. Literasi dan inklusi kepada sektor formal dan informal.
   c. Peningkatan dana kelolaan melalui program DKPK dan PPIP.
   d. Diversifikasi aset investasi dan mendorong ESG.
   e. Digitalisasi marketing dan layanan.
   f. Penguatan *Good Corporate Governance*.
   g. Standarisasi kompetensi SDM di bidang investasi.
   h. Menghentikan penarikan iuran sebagian.
2. Rencana dan langkah-langkah strategis jangka menengah periode 3 (tiga) tahun:
   a. Akselerasi pemanfaat program pensiun kepada Gen Z, mikro dan sektor informal.
   b. **bjb** siap memiliki positioning kuat di industri melalui pilihan beragam paket investasi yang unggul.
   c. **bjb** siap telah *fully* digitalisasi.
   d. **bjb** siap telah memiliki Sumber Daya Manusia dengan kompetensi yang terstandarisasi.
   e. **bjb** siap telah memiliki beragam program pengembangan lainnya.
   f. Penguatan *Governance Risk Compliance*.
   g. **bjb** siap telah menjadi 10 DPLK terbesar.
3. Rencana dan langkah-langkah strategis jangka panjang periode 5 (lima) tahun:
   a. **bjb** siap memiliki digitalisasi yang unggul industri.
   b. **bjb** siap telah menjadi pilihan utama Gen Z dan sektor informal.
   c. Penguatan ekosistem dana pensiun di **bjb** siap.

Segmen Syariah

Penjelasan Segmen Syariah

Segmen Syariah meliputi seluruh transaksi yang dilakukan oleh entitas anak yang bergerak di bidang perbankan syariah, entitas anak bank **bjb** yaitu **bjb** syariah.

Produktivitas Segmen Syariah

Produktivitas segmen usaha *syariah* disajikan dalam bagian Kinerja Entitas Anak dalam Laporan Tahunan ini.

In addition, DPLK bank **bjb** has established short-term (one year), medium-term (three years), and long-term (five years) strategic plans and initiatives as follows:

1. Strategic plans and initiatives to be undertaken by the pension fund within 1 (one) year:
   a. Strengthening the **bjb** siap brand among Gen Z through the "Goes to Campus" program.
   b. Expanding literacy and inclusion initiatives for both formal and informal sectors.
   c. Increasing assets under management through the DKPK and PPIP programs.
   d. Diversifying investment assets while promoting ESG principles.
   e. Enhancing the digitalization of marketing and services.
   f. Strengthening the implementation of Good Corporate Governance.
   g. Standardizing human capital competencies in the investment field.
   h. Discontinuing partial contribution withdrawals.
2. Medium-term strategic plans and initiatives for a period of 3 (three) years:
   a. Accelerating the utilization of pension programs among Gen Z, micro enterprises, and the informal sector.
   b. Strengthening the positioning of **bjb** siap within the industry through a diverse range of superior investment package options.
   c. Achieving full digitalization of **bjb** siap services.
   d. Ensuring that **bjb** siap possesses human capital with standardized competencies.
   e. Developing various additional development programs for **bjb** siap.
   f. Strengthening Governance, Risk, and Compliance.
   g. Positioning **bjb** siap among the top 10 largest DPLK institutions.
3. Long-term strategic plans and initiatives for a period of 5 (five) years:
   a. Establishing **bjb** siap as having industry-leading digitalization capabilities.
   b. Positioning **bjb** siap as the preferred choice for Gen Z and the informal sector.
   c. Strengthening the pension fund ecosystem within **bjb** siap.

Sharia Segment

Sharia Segment Explanation

Telah terealisasinya upaya penyehatan berupa setoran modal dari para pemegang saham dan pelaksanaan restrukturisasi kredit PT BPR Intan Jabar di bank **bjb** maka OJK Provinsi Jawa Barat melalui surat tanggal 12 Januari 2024 menyampaikan bahwa PT BPR Intan Jabar yang semula berstatus "Pengawasan Bank Dalam Penyehatan" menjadi berstatus "Bank Pengawasan Normal", dengan kinerja keuangan BPR Intan Jabar pasca realisasi upaya penyehatan pada posisi Desember 2025 telah membukukan laba sebesar Rp11,85 miliar.

Aset PT BPR Intan Jabar tahun 2025 sebesar Rp457 miliar, turun 14,22% dibandingkan dengan tahun tahun 2024 sebesar Rp532,76 miliar. Total kredit yang disalurkan oleh PT BPR Intan Jabar pada tahun 2025 menurun sebesar 13,77% menjadi Rp381,57 miliar dibandingkan dengan tahun 2024 yang sebesar Rp442,51 miliar. Demikian pula dengan dana pihak ketiga PT BPR Intan Jabar yang mengalami penurunan sebesar 11,00% dari Rp46,12 miliar di tahun 2024 menjadi Rp41,05 miliar di tahun 2025. Penurunan dana pihak ketiga terutama berasal dari turunnya tabungan sebesar 21,51% dan deposito sebesar 7,08%. Sehingga pada tahun 2025 PT BPR Intan Jabar membukukan laba tahun berjalan sebesar Rp11,85 miliar mengalami kenaikan sebesar 812,30% dibandingkan tahun 2024 yang membukukan laba sebesar Rp1,29 miliar.

Following the realization of recovery measures through capital injections from shareholders and the implementation of credit restructuring of PT BPR Intan Jabar at bank **bjb**, the OJK West Java Province, through a letter dated January 12, 2024, informed that PT BPR Intan Jabar's status had been upgraded from "Bank Under Recovery Supervision" to "Bank Under Normal Supervision." With the improvement in its financial performance following the implementation of the recovery measures, PT BPR Intan Jabar recorded a net profit of IDR11.85 billion as of December 2025.

PT BPR Intan Jabar's total assets in 2025 amounted to IDR457 billion, declining by 14.22% compared to IDR532.76 billion in 2024. Total loans disbursed by PT BPR Intan Jabar in 2025 decreased by 13.77% to IDR381.57 billion compared to IDR442.51 billion in 2024. Similarly, Third Party Funds of PT BPR Intan Jabar declined by 11.00%, from IDR46.12 billion in 2024 to IDR41.05 billion in 2025. The decline in Third Party Funds was primarily attributable to decreases in savings of 21.51% and deposits of 7.08%. As a result, PT BPR Intan Jabar recorded profit for the year of IDR11.85 billion in 2025, representing an increase of 812.30% compared to the profit of IDR1.29 billion recorded in 2024.

Aset **bjb** Sekuritas Jawa Barat tahun 2025 mencapai Rp36,23 miliar, naik sebesar 12,28% dibandingkan dengan tahun 2024 sebesar Rp32,27 miliar. Kenaikan aset tersebut berasal dari peningkatan transaksi perantara pedagang efek pada rentang waktu H-2. Liabilitas **bjb** Sekuritas Jawa Barat tahun 2025 mencapai Rp9,61 miliar, tumbuh sebesar 45,55% dibandingkan dengan tahun 2024 sebesar Rp6,69 miliar. Pertumbuhan liabilitas dikarenakan adanya peningkatan transaksi perantara pedagang efek pada rentang waktu H-2. Sedangkan ekuitas **bjb** Sekuritas Jawa Barat tahun 2025 mencapai Rp26,63 miliar, naik sebesar 4,09% dibandingkan dengan tahun 2024 sebesar Rp25,58 miliar sehubungan dengan adanya pembukuan laba dan perbaikan dari nilai ekuitas lainnya. Dari sisi laba/rugi tahun berjalan, tahun 2025 **bjb** Sekuritas Jawa Barat membukukan laba sebesar Rp138 juta, naik 110,17% dibandingkan dengan tahun 2024 yang mencatatkan rugi sebesar Rp1,36 miliar. Kenaikan tersebut sehubungan dengan adanya peningkatan volume transaksi perantara pedagang efek dan pendapatan dividen efek dari transaksi *proprietary trading*.

Assets of **bjb** Sekuritas Jawa Barat in 2025 reached IDR36.23 billion, increasing by 12.28% compared to IDR32.27 billion in 2024. The increase in assets was mainly attributable to higher broker-dealer intermediary transactions within the T+2 settlement period. Liabilities of **bjb** Sekuritas Jawa Barat in 2025 amounted to IDR9.61 billion, growing by 45.55% compared to IDR6.69 billion in 2024. The increase in liabilities was driven by the rise in broker-dealer intermediary transactions within the T+2 settlement period. Meanwhile, equity of **bjb** Sekuritas Jawa Barat in 2025 reached IDR26.63 billion, increasing by 4.09% compared to IDR25.58 billion in 2024, supported by profit recognition and improvements in other equity components. In terms of profit or loss for the year, **bjb** Sekuritas Jawa Barat recorded a net profit of IDR138 million in 2025, representing an increase of 110.17% compared to 2024, when the company recorded a loss of IDR1.36 billion. The improvement was mainly driven by higher broker-dealer intermediary transaction volumes and dividend income from proprietary trading activities.

Aset Bank Bengkulu tahun 2025 mencapai Rp11,19 triliun, meningkat sebesar 8,06% dibandingkan dengan tahun 2024 yang mencapai Rp10,36 triliun. Peningkatan aset tersebut ditopang oleh pos-pos keuangan seperti kredit yang diberikan meningkat sebesar Rp404,06 miliar atau 5,45%, surat berharga yang dimiliki meningkat sebesar Rp26,84 miliar atau 4,56%. Dana pihak ketiga mengalami peningkatan sebesar 2,52% yang dipengaruhi oleh adanya kenaikan pos giro dan deposito yang naik masing-masing sebesar Rp40,63 miliar atau 6,35%, dan Rp297,83 miliar atau 5,42% dengan pos deposito tetap menjadi sumber dana mayoritas pos DPK. Sehingga pada tahun 2025 Bank Bengkulu membukukan laba bersih sebesar Rp135,15 miliar.

Bank Bengkulu's total assets in 2025 reached IDR11.19 trillion, increasing by 8.06% compared to IDR10.36 trillion in 2024. The increase in assets was supported by growth in several financial components, including loans which increased by IDR404.06 billion or 5.45%, and marketable securities which increased by IDR26.84 billion or 4.56%. Third Party Funds recorded growth of 2.52%, driven by increases in demand deposits and time deposits, which rose by IDR40.63 billion or 6.35%, and IDR297.83 billion or 5.42%, respectively. Time deposits remained the largest source of funds within the Third Party Funds portfolio. Accordingly, in 2025, Bank Bengkulu recorded a net profit of IDR135.15 billion.

Pendapatan segmen neto tahun 2025 meningkat menjadi Rp7,51 triliun atau 13,33% dari Rp6,63 triliun pada tahun 2024, didorong oleh pertumbuhan pada segmen konvensional dan syariah. Segmen konvensional tetap menjadi kontributor utama, sementara syariah menunjukkan pertumbuhan lebih tinggi sebagai pendorong ekspansi. Pendapatan operasional lainnya juga meningkat menjadi Rp2,95 triliun, terutama dari fee based income dan keuntungan surat berharga, mencerminkan diversifikasi pendapatan. Di sisi lain, beban operasional dan CKPN meningkat seiring ekspansi bisnis, namun tetap diimbangi dengan kenaikan laba operasional menjadi Rp1,98 triliun dan laba tahun berjalan sebesar Rp1,58 triliun. Secara keseluruhan, kinerja menunjukkan profitabilitas yang tetap tumbuh, dengan konvensional sebagai core profit driver dan syariah sebagai growth engine.

Net segment income in 2025 increased to IDR7.51 trillion, or by 13.33% from IDR6.63 trillion in 2024, driven by growth in both the conventional and sharia segments. The conventional segment remained the main contributor, while the sharia segment recorded higher growth as a driver of expansion. Other operating income also increased to IDR2.95 trillion, primarily derived from fee-based income and gains on securities, reflecting revenue diversification. On the other hand, operating expenses and allowance for impairment losses (CKPN) increased in line with business expansion; however, this was offset by higher operating profit, which rose to IDR1.98 trillion, and profit for the year amounting to IDR1.58 trillion. Overall, performance reflects sustained profitability growth, with the conventional segment serving as the core profit driver and the sharia segment acting as the growth engine.

Digital Banking

Beberapa tahun belakangan ini, kemajuan teknologi benar-benar mengubah cara nasabah bertransaksi. Salah satu terobosan besar yang nyata adalah penarikan uang tunai tanpa kartu (*cardless*) melalui aplikasi DIGI bank **bjb**. Kini, nasabah bisa mengambil uang dari mesin ATM tanpa perlu kartu fisik, cukup dengan membuat kode unik lewat aplikasi. Keunggulan utamanya jelas: lebih aman dan sangat praktis, karena risiko kartu hilang atau dicuri berkurang drastis termasuk proses transaksi pun jadi lebih cepat dan efisien.

Sejalan dengan kemudahan layanan *cardless* ini, pada tahun 2025, bank **bjb** terus mengukuhkan komitmennya pada digitalisasi melalui berbagai pengembangan produk dan fitur. Demi membuat transaksi lebih lancar dan jangkauannya semakin luas, bank **bjb** sudah melakukan penyesuaian *routing* transaksi dan penyesuaian *routing* transfer antar bank melalui jaringan prima pada *mobile banking*. Penyesuaian ini mencakup bank-bank besar seperti Maybank, Niaga, dan OCBC, yang tujuannya adalah memastikan semua proses transfer dan transaksi antar bank berjalan lebih cepat dan stabil.

Di ranah transaksi non-tunai, aplikasi DIGI bank **bjb** makin serbaguna. Selain menjadi *platform* untuk transfer antar bank, bank **bjb** juga fokus mengintegrasikan layanan gaya hidup digital. Hal ini terwujud melalui pengembangan fitur pembelian paket data telkomsel yang sudah dipersonalisasi dan penyesuaian aggregator untuk pengisian saldo dana. Dengan demikian, aplikasi DIGI menjadi solusi transaksi perbankan yang lebih lengkap. Tidak lupa, sebagai bentuk kepedulian sosial, bank **bjb** juga menambahkan lembaga pengelola pembayaran donasi LAZ Persis di aplikasi DIGI, sehingga nasabah dapat beramal dengan lebih mudah.

Pengembangan fitur juga menyentuh kebutuhan pinjaman dan tabungan. Inovasi pengembangan fitur *New* KGB Pisan pada aplikasi DIGI bank **bjb** memudahkan dan mempercepat pengajuan kredit bagi nasabah. Sementara itu, untuk memotivasi nasabah merencanakan keuangan, bank **bjb** meluncurkan Pengembangan fitur **bjb** Tandamata *My Goals*, yang dirancang membantu nasabah mencapai target keuangan impian mereka.

Transformasi digital tidak hanya menyentuh layanan konvensional, tetapi juga merambah layanan syariah. Untuk memudahkan transaksi nontunai, bank **bjb** telah melakukan pengembangan fitur pengisian saldo digicash pada *e-channel* **bjb** Syariah. Selain itu, infrastruktur transaksi digital diperkuat dengan penambahan layanan *virtual account*. Layanan ini sangat membantu untuk pembayaran massal dan memudahkan identifikasi transaksi dengan lebih akurat.

Digital Banking

In recent years, technological advancements have significantly transformed the way customers conduct transactions. One of the most notable innovations is the cardless cash withdrawal feature through the DIGI bank **bjb** application. Customers can now withdraw cash from ATMs without using a physical card, simply by generating a unique code through the application. The main advantages are clear: enhanced security and greater convenience, as the risk of losing or having a card stolen is significantly reduced, while transaction processes become faster and more efficient.

In line with the convenience offered by this cardless service, in 2025 bank **bjb** further strengthened its commitment to digitalization through various product and feature developments. To ensure smoother transactions and broader service coverage, bank **bjb** implemented adjustments to transaction routing and interbank transfer routing through the PRIMA network on its mobile banking platform. These adjustments include major banks such as Maybank, Niaga, and OCBC, with the aim of ensuring that interbank transfers and transactions are processed more quickly and reliably.

In the area of non-cash transactions, the DIGI bank **bjb** application has become increasingly versatile. In addition to serving as a platform for interbank transfers, bank **bjb** continues to integrate digital lifestyle services. This initiative is reflected in the development of personalized Telkomsel data package purchase features and the adjustment of aggregators for DANA balance top-ups. As a result, the DIGI application has evolved into a more comprehensive banking transaction solution. Furthermore, as part of its social commitment, bank **bjb** has also added the LAZ Persis donation management institution to the DIGI application, enabling customers to make charitable contributions more conveniently.

Feature development has also addressed customers' financing and savings needs. The introduction of the New KGB Pisan feature in the DIGI bank **bjb** application facilitates and accelerates loan application processes for customers. Meanwhile, to encourage customers to plan their finances more effectively, bank **bjb** launched the **bjb** Tandamata My Goals feature, designed to help customers achieve their targeted financial goals.

Digital transformation has not only enhanced conventional banking services but has also expanded into Sharia banking services. To facilitate non-cash transactions, bank **bjb** has developed a digicash balance top-up feature on the **bjb** Syariah e-channel. In addition, the digital transaction infrastructure has been strengthened through the addition of virtual account services. This service is particularly useful for facilitating mass payments and enabling more accurate transaction identification.

Pada tahun ini, bank **bjb** telah berhasil melakukan pengembangan produk dalam rangka meningkatkan *image* produk bank **bjb**, *fee based income* dan pelayanan kepada nasabah dalam transaksi *e-banking*, diantaranya:

1. Penyesuaian *routing* transaksi melalui jaringan prima.

2. Pengembangan fitur pembelian paket data - telkomsel *personalized* pada aplikasi DIGI bank **bjb.**
3. Penyesuaian *aggregator* untuk fitur *top up* dana pada aplikasi DIGI bank **bjb.**
4. Pengembangan fitur fitur *top up digicash* pada layanan *e-channel* **bjb** Syariah.
5. Penyesuaian *routing* transaksi transfer antar bank melalui jaringan prima pada *channel mobile banking* untuk Bank Maybank, Bank Niaga dan Bank OCBC.
6. Penambahan lembaga pengelola pembayaran donasi LAZ persis pada aplikasi DIGI bank **bjb.**
7. Pengembangan fitur *New* KGB Pisan pada aplikasi DIGI bank **bjb.**
8. Pengembangan fitur **bjb** Tandamata *My Goals*.
9. Penambahan layanan *Virtual Account* dengan daftar produk sebagai berikut:
   - Universitas Telkom
   - PJDL Kabupaten Sumedang
   - Bapenda Kabupaten Serang
   - Bapenda Kabupaten Bandung
   - KKPD Pemerintah Kabupaten Bandung
   - PT Sinergi Prakarsa Utama

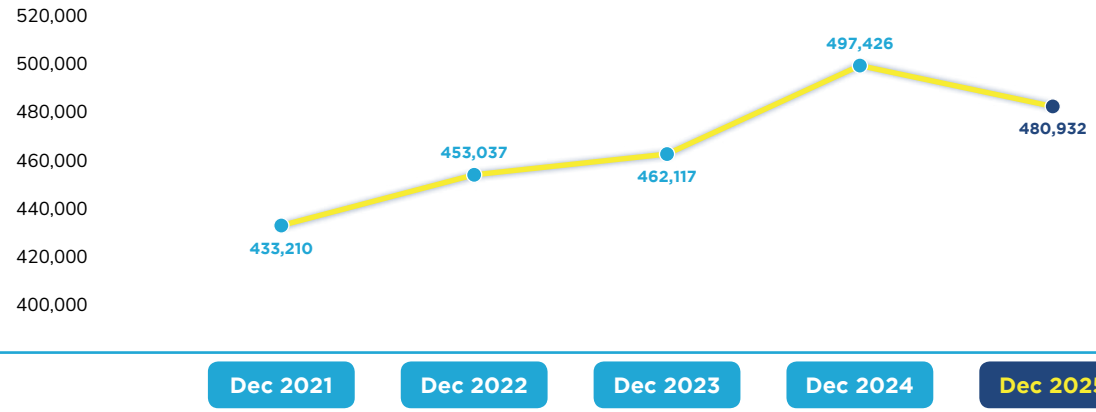
Serangkaian pengembangan produk di tahun 2025 ini benar-benar mencerminkan tren global menuju masyarakat yang semakin digital. Berbagai layanan keuangan kini bisa diakses hanya melalui gawai *(mobile)* dengan cepat. Perkembangan ini tidak hanya meningkatkan kecepatan dan kenyamanan, tetapi juga menciptakan perubahan besar dalam budaya transaksi keuangan modern yang kini terasa lebih aman, efisien, dan terintegrasi.

The series of product developments implemented in 2025 clearly reflects the global trend toward an increasingly digital society. Various financial services can now be accessed quickly through mobile devices. This development not only enhances speed and convenience but also creates significant changes in the culture of modern financial transactions, which are now becoming more secure, efficient, and integrated.

Berikut pencapaian performa layanan *e-channel* bank **bjb** Tahun 2025

The following are the performance achievements of bank **bjb**'s e-channel services in 2025.

Grafik *Fee Based Income* Digital bank bjb
Graph of bank **bjb** E-Channel Fee Based Income



Pencapaian *fee based income digital banking* per Bulan Desember 2025 sebesar Rp480,93 miliar. Pertumbuhan *fee based e-channel* UEB dalam 4 (empat) tahun terakhir selalu mengalami tren positif dengan pertumbuhan *fee* 20%-40% setiap tahunnya. *Fee based e-channel* sendiri berasal dari *fee* administrasi kartu, *fee based* ATM, *fee based* DIGI dan QRIS, *fee based* EDC, *fee* laku pandai dan *fee* transaksi *e-channel* lainnya.

Fee-based income from digital banking as of December 2025 reached IDR480.93 billion. Fee-based income from e-channel UEB has consistently recorded a positive growth trend over the past four years, with annual growth ranging between 20% and 40%. Fee-based income from e-channel activities is generated from card administration fees, ATM fees, DIGI and QRIS fees, EDC fees, Laku Pandai fees, as well as other e-channel transaction fees.

Strategi Digital Banking Tahun 2026

Uraian strategi *digital banking* yang akan dilakukan pada tahun 2026 adalah sebagai berikut:

1. Pengembangan **bjb** *Cardless*:
   a. Kerjasama bank **bjb** dengan Bank BCA untuk **bjb** *Cardless - As Issuer*.
   b. Kerjasama bank **bjb** dengan Lembaga *Switching* untuk **bjb** *Cardless - As Issuer* dan *Acquirer*.
   c. Perluasan **bjb** *Cardless As Acquirer* untuk BPR.
2. Pengembangan *Direct Debit*.
3. Pengembangan **bjb** DigiCash *Merchant*.
4. Pengembangan QRIS (*Crossborder*, CPM, Tuntas dan Tap).
5. Pengembangan fitur *embedded lifestyle* pada aplikasi *New* DIGI bank **bjb**
6. Pengembangan *White Labelling* DIGI bank **bjb**
7. Pengembangan tarik dan setor tunai tanpa kartu pada aplikasi DIGI bank **bjb** melalui *aggregator* finnet.
8. Pengembangan *loyalty system*.
9. Pengembangan fitur *pouch* (saku) pada menu portofolio keuangan DIGI bank **bjb**.
10. Perluasan fitur-fitur DIGI bank **bjb**.

Digital Banking Strategy for 2026

The description of the digital banking strategy that will be carried out in 2026 is as follows:

1. Development of **bjb** Cardless:
   a. Cooperation between bank **bjb** and Bank BCA for **bjb** Cardless – As Issuer.
   b. Cooperation between bank **bjb** and Switching Institution for **bjb** Cardless – As Issuer and Acquirer.
   c. Expansion of **bjb** Cardless As Acquirer for BPR..
2. Development of Direct Debit.
3. Development of **bjb** DigiCash Merchant.
4. Development of QRIS (Crosborder, CPM, Tuntas and Tap).
5. Development of embedded lifestyle features in the New DIGI bank **bjb** application.
6. Development of DIGI bank **bjb** white labelling.
7. Development of cardless cash withdrawal and cash deposit features in the DIGI bank **bjb** application through the Finnet aggregator.
8. Development of a loyalty system.
9. Development of the pouch (wallet pocket) feature within the financial portfolio menu of the DIGI bank **bjb** application.
10. Expansion of DIGI bank **bjb** 4 features.

Tinjauan Keuangan
Financial Review

Tinjauan keuangan yang diuraikan berikut mengacu kepada Laporan Keuangan untuk tahun yang berakhir tanggal 31 Desember 2025 yang disajikan dalam Laporan Tahunan ini. Laporan Keuangan telah diaudit oleh Kantor Akuntan Publik Amir Abadi Jusuf, Aryanto, Mawar & Rekan firma anggota dari jaringan global RSM dan mendapat opini menyajikan secara wajar, dalam semua hal yang material, posisi keuangan konsolidasian PT Bank Pembangunan Daerah Jawa Barat dan Banten Tbk dan entitas anak pada tanggal 31 Desember 2025 serta kinerja keuangan dan arus kas konsolidasiannya untuk tahun yang berakhir pada tanggal tersebut sesuai dengan Standar Akuntansi Keuangan di Indonesia.

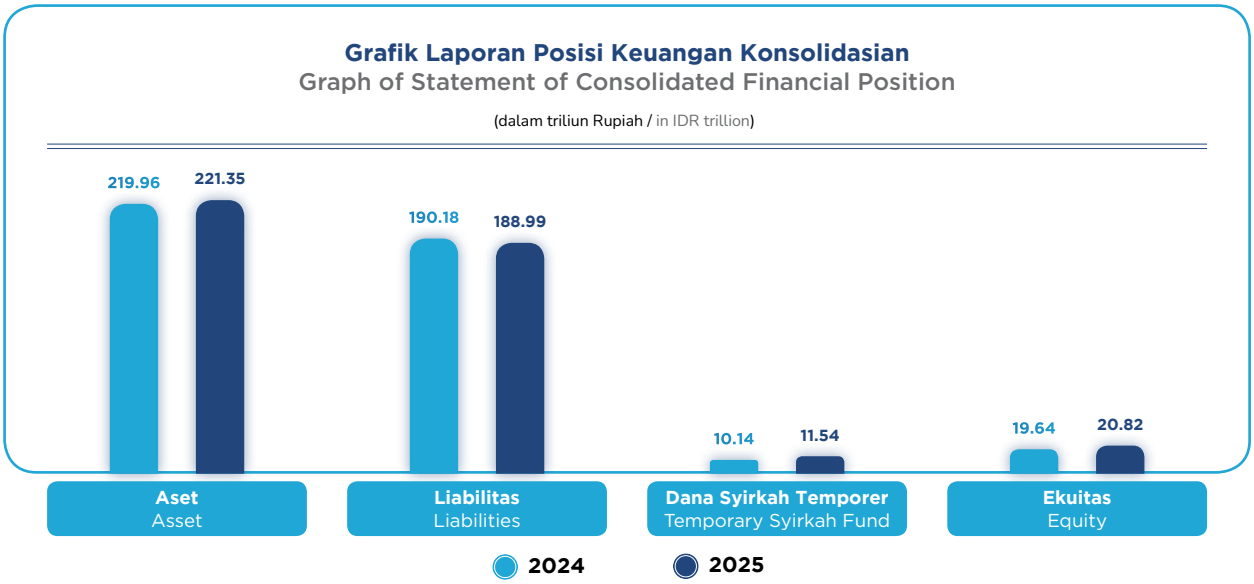
Grafik Laporan Posisi Keuangan Konsolidasian
Graph of Statement of Consolidated Financial Position

(dalam triliun Rupiah / in IDR trillion)



Total Aset

Aset per 2025 tercatat sebesar Rp221,35 triliun, meningkat sekitar 0,63% dibandingkan 2024 sebesar Rp219,96 triliun. Kenaikan total aset terutama didorong oleh peningkatan pada surat berharga sebesar Rp5,74 triliun, giro pada Bank Indonesia sebesar Rp3,24 triliun, serta kenaikan kas sebesar Rp227,93 miliar. Selain itu, penempatan pada Bank Indonesia dan bank lain juga meningkat sebesar Rp336,81 miliar dan tagihan atas efek-efek yang dibeli dengan janji dijual kembali naik Rp440,92 miliar.

Di sisi lain, kenaikan aset tersebut sebagian diimbangi oleh penurunan pada kredit yang diberikan – neto sebesar Rp7,75 triliun atau 6%, penurunan tagihan akseptasi sebesar Rp56,24 miliar, serta penurunan aset pajak tangguhan – neto sebesar

Total Asset

Total assets as of 2025 were recorded at IDR221.35 trillion, representing an increase of approximately 0.63% compared to IDR219.96 trillion in 2024. The increase in total assets was primarily driven by higher securities holdings amounting to IDR5.74 trillion, current accounts with Bank Indonesia of IDR3.24 trillion, as well as an increase in cash of IDR227.93 billion. In addition, placements with Bank Indonesia and other banks increased by IDR336.81 billion, while receivables from securities purchased under resale agreements rose by IDR440.92 billion.

On the other hand, the increase in assets was partly offset by a decrease in loans – net of IDR7.75 trillion or 6%, a decline in acceptances receivable of IDR56.24 billion, and a reduction in deferred tax assets – net of IDR204.05 billion. Nevertheless,

Rp204,05 miliar. Dengan demikian, secara keseluruhan total aset Perseroan pada 2025 tetap mencatatkan pertumbuhan dibandingkan tahun sebelumnya.

overall, the Company's total assets in 2025 continued to record growth compared to the previous year.

Kas

Kas pada tahun 2025 tercatat sebesar Rp4,93 triliun, meningkat sekitar 5% dibandingkan tahun 2024 sebesar Rp4,70 triliun. Peningkatan tersebut terutama didorong oleh kenaikan kas dalam rupiah sebesar Rp227,52 miliar, serta kenaikan kas dalam mata uang asing sebesar Rp410 juta. Kenaikan kas ini mencerminkan adanya peningkatan likuiditas perusahaan dalam mendukung aktivitas operasional yang lebih tinggi dibandingkan tahun sebelumnya.

Cash

Cash in 2025 was recorded at IDR4.93 trillion, representing an increase of approximately 5% compared to IDR4.70 trillion in 2024. The increase was primarily driven by higher cash in Rupiah amounting to IDR227.52 billion, as well as an increase in cash in foreign currencies of IDR410 million. This increase in cash reflects an improvement in the Company's liquidity to support higher operational activities compared to the previous year.

Giro Pada Bank Indonesia

Giro pada Bank Indonesia pada tahun 2025 tercatat sebesar Rp12,02 triliun, meningkat 36,92% dibandingkan tahun 2024 sebesar Rp8,78 triliun. Peningkatan ini terutama disebabkan oleh kenaikan giro dalam rupiah sebesar Rp2,90 triliun serta peningkatan giro dalam dolar Amerika Serikat sebesar Rp251,19 miliar. Kenaikan tersebut mencerminkan peningkatan penempatan dana pada Bank Indonesia sejalan dengan pengelolaan likuiditas Bank yang tetap prudent serta pemenuhan ketentuan giro wajib minimum yang berlaku.

Current Account with Bank Indonesia

Current accounts with Bank Indonesia as of December 31, 2025 were recorded at IDR12.02 trillion, representing an increase of 36.92% compared to IDR8.78 trillion as of December 31, 2024. The increase was primarily driven by higher Rupiah current accounts amounting to IDR2.90 trillion, as well as an increase in United States Dollar current accounts of IDR251.19 billion. This increase reflects higher placements with Bank Indonesia in line with the Bank's prudent liquidity management and compliance with the prevailing minimum reserve requirements.

Giro Pada Bank Lain - Pihak Ketiga

Giro pada bank lain – pihak ketiga pada tahun 2025 tercatat sebesar Rp690,31 miliar, menurun 31,90% dibandingkan tahun 2024 sebesar Rp1,01 triliun. Penurunan ini terutama disebabkan oleh penurunan giro dalam rupiah sebesar Rp280,29 miliar serta penurunan giro dalam mata uang asing sebesar Rp44,66 miliar. Selain itu, penurunan juga dipengaruhi oleh penurunan cadangan kerugian penurunan nilai sebesar Rp1,56 miliar. Penurunan posisi ini mencerminkan optimalisasi penempatan dana Bank pada bank lain sejalan dengan strategi pengelolaan likuiditas.

Current Account with Other Banks - Third Parties

Current accounts with other banks – third parties as of December 31, 2025 were recorded at IDR690.31 billion, representing a decrease of 31.90% compared to IDR1.01 trillion as of December 31, 2024. The decrease was primarily driven by lower Rupiah current accounts amounting to IDR280.29 billion, as well as a decline in foreign currency current accounts of IDR44.66 billion. In addition, the decrease was also influenced by a reduction in allowance for impairment losses amounting to IDR1.56 billion. This decline reflects the optimization of the Bank's placements with other banks in line with its liquidity management strategy.

Penempatan Pada Bank Indonesia dan Bank Lain - Pihak Ketiga

Penempatan pada Bank Indonesia dan bank lain – pihak ketiga pada tahun 2025 tercatat sebesar Rp7,04 triliun, meningkat 5% dibandingkan tahun 2024 sebesar Rp6,71 triliun. Peningkatan ini terutama berasal dari kenaikan penempatan dalam rupiah sebesar Rp337,32 miliar. Selain itu, terdapat peningkatan cadangan kerugian penurunan nilai sebesar Rp510 juta. Secara keseluruhan, kenaikan ini mencerminkan peningkatan penempatan dana Bank pada instrumen yang relatif likuid sebagai bagian dari pengelolaan likuiditas yang *prudent*.

Placements with Bank Indonesia and Other Banks - Third Party

Placements with Bank Indonesia and other banks – third parties as of December 31, 2025 were recorded at IDR7.04 trillion, representing an increase of 5% compared to IDR6.71 trillion as of December 31, 2024. The increase was primarily driven by higher Rupiah placements amounting to IDR337.32 billion. In addition, there was an increase in allowance for impairment losses amounting to IDR510 million. Overall, the increase reflects higher placements in relatively liquid instruments as part of the Bank's prudent liquidity management.

Tagihan Derivatif

Pada tahun 2025 tidak terdapat tagihan derivatif, menurun 100,00% dibandingkan dengan tahun 2024 sebesar Rp2,59 miliar. Hal tersebut disebabkan *interest rate differential* antara Indonesia dan Amerika Serikat cenderung menyempit sepanjang tahun 2025 seiring dengan kebijakan penurunan suku bunga yang ditempuh oleh masing-masing bank sentral. Kondisi ini menyebabkan potensi keuntungan dari transaksi derivatif yang memanfaatkan perbedaan suku bunga menjadi kurang menarik, karena *return* yang dihasilkan relatif lebih kecil dan tidak optimal.

Derivative Receivables

There were no derivative receivables as of December 31, 2025, representing a 100.00% decrease compared to IDR2.59 billion as of December 31, 2024. This condition was attributable to the narrowing interest rate differential between Indonesia and the United States throughout 2025, in line with the monetary easing policies implemented by the respective central banks. This led to reduced attractiveness of derivative transactions that capitalize on interest rate differentials, as the returns generated became relatively lower and less optimal.

Surat Berharga - Pihak Ketiga

Surat berharga – pihak ketiga pada tahun 2025 tercatat sebesar Rp48,77 triliun, meningkat 13% dibandingkan tahun 2024 sebesar Rp43,03 triliun. Peningkatan ini mencerminkan adanya penambahan investasi pada instrumen surat berharga. Di sisi lain, cadangan kerugian penurunan nilai menurun sebesar Rp3,60 miliar. Secara keseluruhan, kenaikan ini menunjukkan optimalisasi penempatan dana pada instrumen keuangan yang memberikan imbal hasil serta tetap memperhatikan kualitas aset.

Marketable Securities - Third Parties

Marketable securities – third parties as of December 31, 2025 were recorded at IDR48.77 trillion, representing an increase of 13% compared to IDR43.03 trillion as of December 31, 2024. The increase reflects additional investments in marketable securities instruments. On the other hand, allowance for impairment losses decreased by IDR3.60 billion. Overall, the increase indicates the optimization of fund placements in yield-generating financial instruments while maintaining asset quality.

Tagihan Atas Efek-Efek yang Dibeli dengan Janji Dijual Kembali

Tagihan atas efek-efek yang dibeli dengan janji dijual kembali pada tahun 2025 tercatat sebesar Rp514,50 miliar, menurun 46,15% dibandingkan tahun 2024 sebesar Rp955,95 miliar. Penurunan ini mencerminkan berkurangnya aktivitas transaksi reverse repo sebagai bagian dari pengelolaan likuiditas bank **bjb** selama tahun berjalan.

Receivable from Marketable Securities Purchased Under Agreements to Resell

Receivables from marketable securities purchased under agreements to resell as of December 31, 2025 were recorded at IDR514.50 billion, representing a decrease of 46.15% compared to IDR955.95 billion as of December 31, 2024. The decrease reflects lower reverse repo transaction activities as part of bank **bjb**'s liquidity management during the year.

Wesel Ekspor dan Tagihan Lainnya - Pihak Ketiga

Wesel ekspor dan tagihan lainnya – pihak ketiga pada tahun 2025 tercatat sebesar Rp73,17 miliar, menurun 79,34% dibandingkan tahun 2024 sebesar Rp354,15 miliar. Penurunan ini terutama disebabkan oleh penurunan tagihan dalam rupiah sebesar Rp284,12 miliar, meskipun terdapat peningkatan dalam dolar Amerika Serikat sebesar Rp3,11 miliar. Selain itu, cadangan kerugian penurunan nilai juga menurun sebesar Rp30 juta. Penurunan ini mencerminkan berkurangnya aktivitas transaksi terkait wesel ekspor dan tagihan lainnya selama tahun berjalan.

Bills and Other Receivables - Third Parties

Bills and other receivables – third parties as of December 31, 2025 were recorded at IDR73.17 billion, representing a decrease of 79.34% compared to IDR354.15 billion as of December 31, 2024. The decrease was primarily driven by lower Rupiah receivables amounting to IDR284.12 billion, despite an increase in United States Dollar receivables of IDR3.11 billion. In addition, allowance for impairment losses decreased by IDR30 million. Overall, the decline reflects reduced transaction activities related to export bills and other receivables during the year.

Kredit Yang Diberikan

Kredit yang diberikan pada tahun 2025 tercatat sebesar Rp125,38 triliun, menurun 6% dibandingkan tahun 2024 sebesar Rp133,12 triliun. Penurunan ini terutama disebabkan oleh penurunan kredit kepada pihak ketiga sebesar Rp7,05 triliun, meskipun kredit kepada pihak berelasi meningkat sebesar Rp188,52 miliar. Selain itu, cadangan kerugian penurunan nilai meningkat sebesar Rp880,97 miliar, yang mencerminkan penguatan pencadangan sejalan dengan penerapan prinsip kehati-hatian dalam pengelolaan kualitas aset.

Loans

Loans as of December 31, 2025 were recorded at IDR125.38 trillion, representing a decrease of 6% compared to IDR133.12 trillion as of December 31, 2024. The decrease was primarily driven by lower loans to third parties amounting to IDR7.05 trillion, despite an increase in loans to related parties of IDR188.52 billion. In addition, allowance for impairment losses increased by IDR880.97 billion, reflecting strengthened provisioning in line with the prudent management of asset quality.

Pembiayaan dan Piutang Syariah - Setelah Dikurangi Margin Ditangguhkan - Pihak Ketiga

Pembiayaan dan piutang syariah – pihak ketiga yang disalurkan melalui entitas anak pada tahun 2025 tercatat sebesar Rp11,67 triliun, meningkat 11,03% dibandingkan tahun 2024 sebesar Rp10,51 triliun. Peningkatan ini terutama didorong oleh kenaikan pada akad Murabahah sebesar Rp623,06 miliar dan Musyarakah sebesar Rp254,96 miliar, serta pertumbuhan signifikan pada akad *Qardh*.

Selain itu, cadangan kerugian penurunan nilai meningkat sebesar Rp10,99 miliar. Secara keseluruhan, pertumbuhan ini mencerminkan peningkatan kontribusi entitas anak di segmen syariah dalam mendukung diversifikasi portofolio pembiayaan Grup.

Sharia Financing and Receivables - Net of Deferred Margin - Third Parties

Sharia financing and receivables – third parties, channeled through subsidiaries, as of December 31, 2025 were recorded at IDR11.67 trillion, representing an increase of 11.03% compared to IDR10.51 trillion as of December 31, 2024. The increase was primarily driven by higher Murabahah financing amounting to IDR623.06 billion and Musyarakah financing amounting to IDR254.96 billion, as well as significant growth in Qardh financing.

In addition, allowance for impairment losses increased by IDR10.99 billion. Overall, the growth reflects the increasing contribution of subsidiaries in the sharia segment in supporting the diversification of the Group's financing portfolio.

Penyertaan Saham

Penyertaan saham pada tahun 2025 tercatat sebesar Rp66,89 miliar, menurun 19,25% dibandingkan tahun 2024 sebesar Rp82,83 miliar. Hal tersebut disebabkan Perubahan nilai valuasi per 31 Oktober 2024 sebesar Rp66,77 miliar yang kemudian dilakukan penilaian kembali per 31 Desember 2024 dengan estimasi nilai Rp47,85 miliar.

Investments In Shares

Investment in shares as of December 31, 2025 was recorded at IDR66.89 billion, representing a decrease of 19.25% compared to IDR82.83 billion as of December 31, 2024. This was caused by a change in valuation as of October 31, 2024, amounting to IDR66.77 billion, which was subsequently reassessed as of December 31, 2024, with an estimated value of IDR47.85 billion.

Aset Tetap dan Aset Hak Guna

Aset tetap dan aset hak guna pada tahun 2025 tercatat sebesar Rp5,41 triliun (nilai buku), meningkat 1,66% dibandingkan tahun 2024 sebesar Rp5,32 triliun. Peningkatan ini sejalan dengan kenaikan harga perolehan sebesar Rp450,61 miliar, yang mencerminkan adanya penambahan aset selama tahun berjalan. Di sisi lain, akumulasi penyusutan juga meningkat sebesar Rp362,22 miliar, yang merupakan konsekuensi dari penggunaan dan umur ekonomis aset. Secara keseluruhan, pergerakan ini menunjukkan ekspansi aset tetap yang tetap diimbangi dengan pencatatan penyusutan secara wajar.

Fixed Assets and Right-of-Use Assets

Fixed assets and right-of-use assets as of December 31, 2025 were recorded at IDR5.41 trillion (net book value), representing an increase of 1.66% compared to IDR5.32 trillion as of December 31, 2024. The increase was in line with higher cost amounting to IDR450.61 billion, reflecting additions of assets during the year. On the other hand, accumulated depreciation also increased by IDR362.22 billion, as a result of asset usage and their economic useful lives. Overall, this movement indicates an expansion of fixed assets, accompanied by appropriate recognition of depreciation.

Aset Pajak Tangguhan - Neto

Aset pajak tangguhan – neto pada tahun 2025 tercatat sebesar Rp49,68 miliar, menurun 80,42% dibandingkan tahun 2024 sebesar Rp253,74 miliar. Aset pajak tangguhan adalah jumlah pajak penghasilan (PPh) yang dapat dipulihkan pada periode masa depan akibat adanya akumulasi rugi pajak belum dikompensasi, perbedaan temporer yang boleh dikurangkan, dan akumulasi kredit pajak belum dimanfaatkan dalam hal peraturan pajak mengizinkan.

Deferred Tax Assets - Net

Deferred tax assets – net as of December 31, 2025 were recorded at IDR49.68 billion, representing a decrease of 80.42% compared to IDR253.74 billion as of December 31, 2024. Deferred tax assets represent the amount of income tax (PPh) recoverable in future periods due to accumulated unutilized tax losses, deductible temporary differences, and unused tax credits, as permitted under applicable tax regulations.

Bunga yang Masih Akan Diterima

Bunga yang masih akan diterima pada tahun 2025 tercatat sebesar Rp1,46 triliun, menurun 4,27% dibandingkan tahun 2024 sebesar Rp1,53 triliun. Penurunan ini sejalan dengan berkurangnya pendapatan bunga yang masih harus diterima pada akhir periode.

Accrued Interest Income

Accrued interest income as of December 31, 2025 was recorded at IDR1.46 trillion, representing a decrease of 4.27% compared to IDR1.53 trillion as of December 31, 2024. The decrease was in line with lower accrued interest income at the end of the reporting period.

Goodwill

Goodwill tahun 2025 sebesar Rp47,26 miliar, tidak mengalami perubahan dari tahun 2024.

Goodwill

Goodwill as of December 31, 2025 amounted to IDR47.26 billion, unchanged from December 31, 2024.

Aset Lain-Lain - Neto

Aset lain-lain – neto pada tahun 2025 tercatat sebesar Rp3,17 triliun, menurun 8% dibandingkan tahun 2024 sebesar Rp3,44 triliun. Penurunan ini mencerminkan berkurangnya saldo pada komponen aset lainnya di luar pos utama.

Other Assets – Net

Other assets – net as of December 31, 2025 were recorded at IDR3.17 trillion, representing a decrease of 8% compared to IDR3.44 trillion as of December 31, 2024. The decrease reflects lower balances in other asset components outside the main accounts.

Total Liabilitas

Total liabilitas pada tahun 2025 tercatat sebesar Rp188,99 triliun, menurun 0,63% dibandingkan tahun 2024 sebesar Rp190,18 triliun. Penurunan total liabilitas pada tahun 2025 terutama disebabkan oleh menurunnya simpanan nasabah serta liabilitas atas efek-efek yang dijual dengan janji dibeli kembali, sejalan dengan pengelolaan struktur pendanaan bank **bjb**, meskipun sebagian diimbangi oleh kenaikan simpanan dari bank lain dan pinjaman yang diterima.

Total Liabilitas

Total liabilities as of December 31, 2025 were recorded at IDR188.99 trillion, representing a decrease of 0.63% compared to IDR190.18 trillion as of December 31, 2024. The decrease in total liabilities in 2025 was primarily due to a decline in customer deposits and liabilities from securities sold under repurchase agreements, in line with **bjb**'s funding structure management, although partially offset by increases in interbank deposits and borrowings received.

Liabilitas Segera

Liabilitas segera pada tahun 2025 tercatat sebesar Rp1,80 triliun, meningkat 39,56% dibandingkan tahun 2024 sebesar Rp1,29 triliun. Peningkatan ini mencerminkan kenaikan kewajiban jangka pendek yang harus segera diselesaikan oleh bank **bjb**, sejalan dengan aktivitas operasional yang meningkat.

Obligations Due Immediately

Obligations due immediately as of December 31, 2025 were recorded at IDR1.80 trillion, representing an increase of 39.56% compared to IDR1.29 trillion as of December 31, 2024. The increase reflects higher short-term obligations to be settled promptly, in line with increased operational activities of bank **bjb**.

Simpanan Nasabah

Simpanan nasabah pada tahun 2025 tercatat sebesar Rp140,10 triliun, menurun 1,76% dibandingkan tahun 2024 sebesar Rp142,61 triliun. Penurunan ini terutama berasal dari berkurangnya dana pihak ketiga, yang sebagian diimbangi oleh pertumbuhan pada sumber pendanaan lainnya.

Deposits from Customers

Deposits from customers as of December 31, 2025 were recorded at IDR140.10 trillion, representing a decrease of 1.76% compared to IDR142.61 trillion as of December 31, 2024. The decrease was primarily driven by lower third-party funds, which was partially offset by growth in other funding sources.

Simpanan Nasabah - Syariah

Simpanan nasabah syariah yang dikelola melalui entitas anak pada tahun 2025 tercatat sebesar Rp1,30 triliun, meningkat 11,99% dibandingkan tahun 2024. Peningkatan ini mencerminkan pertumbuhan dana pihak ketiga pada segmen syariah.

Deposits from Customers - Sharia

Deposits from customers – sharia, managed through subsidiaries, as of December 31, 2025 were recorded at IDR1.30 trillion, representing an increase of 11.99% compared to 2024. The increase reflects growth in third-party funds in the sharia segment.

Simpanan Dari Bank Lain

Simpanan dari bank lain pada tahun 2025 tercatat sebesar Rp5,33 triliun, meningkat 28,46% dibandingkan tahun 2024 sebesar Rp4,15 triliun. Kenaikan ini menunjukkan optimalisasi sumber pendanaan antarbank sebagai pelengkap dana pihak ketiga.

Deposits from Other Banks

Deposits from other banks as of December 31, 2025 were recorded at IDR5.33 trillion, representing an increase of 28.46% compared to IDR4.15 trillion as of December 31, 2024. The increase reflects the optimization of interbank funding sources as a complement to third-party funds.

Liabilitas Derivatif

Liabilitas derivatif tahun 2025 sebesar Rp40 juta, menurun 99,47% dari tahun 2024 sebesar Rp7,53 miliar. Penurunan tersebut dipengaruhi oleh *interest rate differential* antara Indonesia dan Amerika Serikat cenderung menyempit sepanjang tahun 2025 seiring dengan kebijakan penurunan

Derivative Payables

Derivative liabilities as of December 31, 2025 were recorded at IDR40 million, representing a decrease of 99.47% compared to IDR7.53 billion as of December 31, 2024. The decrease was influenced by the narrowing interest rate differential between Indonesia and the United States throughout 2025,

suku bunga yang ditempuh oleh masing-masing bank sentral. Kondisi ini menyebabkan potensi keuntungan dari transaksi derivatif yang memanfaatkan perbedaan suku bunga menjadi kurang menarik, karena *return* yang dihasilkan relatif lebih kecil dan tidak optimal.

following the interest rate reduction policies implemented by the respective central banks. This situation reduced the attractiveness of derivative transactions that exploit interest rate differences, as the returns generated were relatively lower and suboptimal.

Liabilitas Akseptasi

Liabilitas akseptasi pada tahun 2025 tercatat sebesar Rp57,97 miliar, menurun 49,25% dibandingkan tahun 2024. Penurunan ini mencerminkan berkurangnya aktivitas transaksi terkait akseptasi selama tahun berjalan.

Acceptance Payables

Acceptances payable as of December 31, 2025 were recorded at IDR57.97 billion, representing a decrease of 49.25% compared to 2024. The decrease reflects lower acceptance-related transaction activities during the year.

Liabilitas Atas Efek-Efek yang Dijual dengan Janji Dibeli Kembali

Liabilitas atas efek-efek yang dijual dengan janji dibeli kembali tahun 2025 sebesar Rp8,64 triliun, menurun 18,07% dari tahun 2024 sebesar Rp10,55 triliun. Penurunan tersebut dipengaruhi oleh pemenuhan likuiditas dari instrumen lain seperti dpk serta *borrowing interbank call money* (ICM) sehingga terdapat penurunan pada liabilitas atas efek-efek yang dijual dengan janji dibeli kembali. Ditambah sepanjang tahun 2025 Bank Indonesia telah melakukan pemangkasan tingkat suku bunga sebesar 125bps sehingga pendanaan melalui dana murah maupun instrumen lainnya menjadi opsi lain yang cukup memadai selain transaksi *Repo*.

Liabilities from Marketable Securities Sold Under Agreements to Repurchase

Liabilities from marketable securities sold under agreements to repurchase as of December 31, 2025 were recorded at IDR8.64 trillion, representing a decrease of 18.07% compared to IDR10.55 trillion as of December 31, 2024. The decrease was influenced by liquidity fulfillment from other instruments, such as time deposits and interbank call money (ICM) borrowings, resulting in a reduction of liabilities from securities sold under repurchase agreements. Additionally, throughout 2025, Bank Indonesia reduced interest rates by 125 bps, making funding through low-cost funds and other instruments a sufficiently viable alternative to repo transactions.

Efek Utang Yang Diterbitkan – Neto

Efek hutang yang diterbitkan – neto pada tahun 2025 tercatat sebesar Rp2,35 triliun, meningkat 14,68% dibandingkan tahun 2024 sebesar Rp2,04 triliun. Peningkatan ini terutama dipengaruhi oleh penerbitan surat berharga oleh entitas anak (Bank Jabar Banten Syariah) sebesar Rp299,55 miliar.

Sementara itu, posisi obligasi berkelanjutan relatif stabil, dan beban emisi obligasi yang belum diamortisasi mengalami penurunan. Secara keseluruhan, peningkatan ini mencerminkan upaya bank **bjb** dalam mengoptimalkan sumber pendanaan melalui instrumen pasar modal, termasuk melalui kontribusi entitas anak.

Debt Securities Issued – Net

Debt securities issued – net as of December 31, 2025 were recorded at IDR2.35 trillion, representing an increase of 14.68% compared to IDR2.04 trillion as of December 31, 2024. The increase was primarily driven by the issuance of debt securities by a subsidiary (Bank Jabar Banten Syariah) amounting to IDR299.55 billion.

Meanwhile, the outstanding balance of sustainable bonds remained relatively stable, and unamortized bond issuance costs decreased. Overall, the increase reflects bank **bjb**'s efforts to optimize funding sources through capital market instruments, including contributions from its subsidiary.

Pinjaman Yang Diterima - Pihak Ketiga

Pinjaman yang diterima dari pihak ketiga pada tahun 2025 tercatat sebesar Rp22,88 triliun, meningkat 6,30% dibandingkan tahun 2024 sebesar Rp21,52 triliun. Peningkatan ini terutama didorong oleh kenaikan pinjaman dari PT Sarana Multigriya Finansial (Persero) sebesar Rp2,31 triliun serta Kementerian Pekerjaan Umum dan Perumahan Rakyat Republik Indonesia sebesar Rp1,00 triliun, dan PT Bank Central Asia Tbk sebesar Rp300 miliar.

Di sisi lain, terdapat penurunan pada beberapa sumber pendanaan, antara lain pelunasan pinjaman dari PT Bank Mandiri (Persero) Tbk, Bank Indonesia, serta PT Bank Maybank Indonesia Tbk. Secara keseluruhan, peningkatan ini mencerminkan strategi bank **bjb** dalam mengoptimalkan pendanaan dari lembaga keuangan dan institusi pemerintah, dengan tetap melakukan penyesuaian komposisi sumber dana secara selektif.

Borrowings - Third Parties

Borrowings from third parties as of December 31, 2025 were recorded at IDR22.88 trillion, representing an increase of 6.30% compared to IDR21.52 trillion as of December 31, 2024. The increase was primarily driven by higher borrowings from PT Sarana Multigriya Finansial (Persero) amounting to IDR2.31 trillion, the Ministry of Public Works and Housing of the Republic of Indonesia amounting to IDR1.00 trillion, and PT Bank Central Asia Tbk amounting to IDR300 billion.

On the other hand, there were decreases in several funding sources, including the repayment of borrowings from PT Bank Mandiri (Persero) Tbk, Bank Indonesia, and PT Bank Maybank Indonesia Tbk. Overall, the increase reflects bank **bjb**'s strategy to optimize funding from financial institutions and government entities, while selectively adjusting the composition of its funding sources.

Estimasi Kerugian Komitmen dan Kontinjensi

Estimasi kerugian komitmen dan kontinjensi pada tahun 2025 tercatat sebesar Rp20,22 miliar, meningkat 46,19% dibandingkan tahun 2024 sebesar Rp13,83 miliar. Peningkatan ini terutama berasal dari kenaikan pada fasilitas kredit yang belum digunakan sebesar Rp4,60 miliar serta bank garansi sebesar Rp1,79 miliar. Peningkatan pencadangan ini mencerminkan penerapan prinsip kehati-hatian bank **bjb** dalam mengantisipasi potensi risiko atas transaksi komitmen dan kontinjensi, sejalan dengan dinamika aktivitas off-balance sheet.

Estimated Loss on Commitments and Contingencies

Estimated losses on commitments and contingencies as of December 31, 2025 were recorded at IDR20.22 billion, representing an increase of 46.19% compared to IDR13.83 billion as of December 31, 2024. The increase was primarily driven by higher unused credit facilities amounting to IDR4.60 billion and bank guarantees amounting to IDR1.79 billion. The increase in provisioning reflects bank **bjb**'s prudent approach in anticipating potential risks arising from commitments and contingencies, in line with the dynamics of off-balance sheet activities.

Utang Pajak

Utang pajak pada tahun 2025 tercatat sebesar Rp92,44 miliar, menurun 46,00% dibandingkan tahun 2024 sebesar Rp171,19 miliar. Penurunan ini terutama berasal dari berkurangnya utang pajak pada Bank sebesar Rp74,08 miliar serta pada entitas anak sebesar Rp4,67 miliar. Penurunan ini mencerminkan penyelesaian kewajiban perpajakan yang lebih rendah pada periode berjalan, sejalan dengan dinamika aktivitas usaha bank **bjb** dan entitas anak.

Tax Payable

Taxes payable as of December 31, 2025 were recorded at IDR92.44 billion, representing a decrease of 46.00% compared to IDR171.19 billion as of December 31, 2024. The decrease was primarily driven by lower taxes payable at the Bank amounting to IDR74.08 billion, as well as at subsidiaries amounting to IDR4.67 billion. The decrease reflects lower tax obligations settled during the period, in line with the business activity dynamics of bank **bjb** and its subsidiaries.

Bunga Yang Masih Harus Dibayar

Bunga yang masih harus dibayar pada tahun 2025 tercatat sebesar Rp340,98 miliar, menurun 6% dibandingkan tahun 2024 sebesar Rp363,03 miliar. Penurunan ini terutama disebabkan oleh berkurangnya kewajiban bunga dalam rupiah sebesar Rp27,75 miliar, meskipun terdapat peningkatan kewajiban bunga dalam dolar Amerika Serikat sebesar Rp5,70 miliar. Secara keseluruhan, penurunan ini mencerminkan berkurangnya beban bunga yang masih harus dibayar sejalan dengan perubahan struktur liabilitas bank **bjb**.

Interest Payable

Interest payable as of December 31, 2025 was recorded at IDR340.98 billion, representing a decrease of 6% compared to IDR363.03 billion as of December 31, 2024. The decrease was primarily driven by lower Rupiah interest payable amounting to IDR27.75 billion, despite an increase in United States Dollar interest payable of IDR5.70 billion. Overall, the decrease reflects lower accrued interest expenses in line with changes in bank **bjb**'s liability structure.

Liabilitas Imbalan Kerja Pasti

Liabilitas imbalan kerja pada tahun 2025 tercatat sebesar Rp471,84 miliar, meningkat 7,44% dibandingkan tahun 2024 sebesar Rp439,17 miliar. Peningkatan ini terutama dipengaruhi oleh kontribusi pemberi kerja sebesar Rp18,24 miliar serta kenaikan beban imbalan kerja tahun berjalan sebesar Rp17,89 miliar. Di sisi lain, terdapat penurunan pada pembayaran imbalan kerja sebesar Rp29,79 miliar serta dampak dari pengukuran kembali liabilitas imbalan kerja. Secara keseluruhan, pergerakan ini mencerminkan dinamika kewajiban imbalan pascakerja seiring dengan pengelolaan program manfaat karyawan bank **bjb**.

Defined Employee Benefits Liability

Employee benefits liability as of December 31, 2025 was recorded at IDR471.84 billion, representing an increase of 7.44% compared to IDR439.17 billion as of December 31, 2024. The increase was primarily driven by employer contributions amounting to IDR18.24 billion and higher current year employee benefits expenses amounting to IDR17.89 billion. On the other hand, there was a decrease in employee benefit payments amounting to IDR29.79 billion, as well as the impact of the remeasurement of employee benefits liability. Overall, this movement reflects the dynamics of post-employment benefit obligations in line with the management of bank **bjb**'s employee benefit programs.

Liabilitas Lain-Lain

Liabilitas lain-lain pada tahun 2025 tercatat sebesar Rp1,46 triliun, meningkat 11,53% dibandingkan tahun 2024 sebesar Rp1,31 triliun. Peningkatan ini terutama disebabkan oleh kenaikan liabilitas dalam rupiah sebesar Rp152,88 miliar, yang sebagian diimbangi oleh penurunan liabilitas dalam mata uang asing sebesar Rp1,87 miliar. Secara keseluruhan, kenaikan ini mencerminkan peningkatan kewajiban operasional lainnya sejalan dengan aktivitas usaha bank **bjb**.

Other Liabilities

Other liabilities as of December 31, 2025 were recorded at IDR1.46 trillion, representing an increase of 11.53% compared to IDR1.31 trillion as of December 31, 2024. The increase was primarily driven by higher Rupiah liabilities amounting to IDR152.88 billion, which was partially offset by a decrease in foreign currency liabilities amounting to IDR1.87 billion. Overall, the increase reflects higher other operational liabilities in line with bank **bjb**'s business activities.

Obligasi Subordinasi

Obligasi subordinasi pada tahun 2025 tercatat sebesar Rp4,13 triliun, menurun 7% dibandingkan tahun 2024 sebesar Rp4,42 triliun. Penurunan ini terutama disebabkan oleh berkurangnya saldo obligasi subordinasi yang beredar. Di sisi lain, beban emisi obligasi yang belum diamortisasi meningkat sebesar Rp4,35 miliar. Secara keseluruhan, pergerakan ini mencerminkan pengelolaan instrumen permodalan pelengkap bank **bjb** yang tetap terjaga sesuai kebutuhan struktur permodalan.

Subordinated Bonds

Subordinated bonds as of December 31, 2025 were recorded at IDR4.13 trillion, representing a decrease of 7% compared to IDR4.42 trillion as of December 31, 2024. The decrease was primarily driven by a lower outstanding balance of subordinated bonds. On the other hand, unamortized bond issuance costs increased by IDR4.35 billion. Overall, this movement reflects the management of bank **bjb**'s supplementary capital instruments in line with its capital structure requirements.

Total Dana *Syirkah* Temporer

Dana *syirkah* temporer pada tahun 2025 tercatat sebesar Rp11,54 triliun, meningkat 13,75% dibandingkan tahun 2024 sebesar Rp10,14 triliun. Peningkatan ini terutama berasal dari dana pihak ketiga bukan bank yang meningkat sebesar Rp1,39 triliun, serta dana dari pihak berelasi yang meningkat sebesar Rp19,52 miliar. Di sisi lain, dana yang berasal dari bank mengalami penurunan sebesar Rp9,78 miliar. Secara keseluruhan, pertumbuhan ini mencerminkan peningkatan penghimpunan dana berbasis prinsip syariah, khususnya dari nasabah non-bank, yang memperkuat struktur pendanaan.

Total Temporary Syirkah Fund

Temporary syirkah funds as of December 31, 2025 were recorded at IDR11.54 trillion, representing an increase of 13.75% compared to IDR10.14 trillion as of December 31, 2024. The increase was primarily driven by higher non-bank third-party funds amounting to IDR1.39 trillion, as well as an increase in funds from related parties amounting to IDR19.52 billion. On the other hand, funds sourced from banks decreased by IDR9.78 billion. Overall, the growth reflects increased mobilization of sharia-based funds, particularly from non-bank customers, thereby strengthening the funding structure.

Total Ekuitas

Total ekuitas pada tahun 2025 tercatat sebesar Rp20,82 triliun, meningkat 6,02% dibandingkan tahun 2024 sebesar Rp19,64 triliun. Peningkatan ini terutama didorong oleh kenaikan saldo laba, khususnya laba yang belum ditentukan penggunaannya, yang mencerminkan kinerja positif bank **bjb** selama tahun berjalan. Selain itu, kenaikan juga didukung oleh peningkatan kepentingan non-pengendali, sejalan dengan kontribusi entitas anak. Di sisi lain, pertumbuhan ekuitas sebagian diimbangi oleh penurunan pada komponen penghasilan komprehensif lain, terutama dari perubahan nilai wajar aset keuangan. Secara keseluruhan, pergerakan ini menunjukkan struktur permodalan bank **bjb** yang tetap kuat dan didukung oleh kemampuan internal dalam menghasilkan laba serta kontribusi entitas anak.

Modal Ditempatkan dan Disetor Penuh

Modal ditempatkan dan disetor penuh tahun 2025 mencapai Rp2,63 triliun, tidak terdapat perubahan dibandingkan dengan tahun 2024.

Tambahan Modal Disetor

Tambahan modal disetor tahun 2025 mencapai Rp1,81 triliun, tidak terdapat perubahan dibandingkan tahun 2024.

Surplus Dari Revaluasi Aset Tetap

Surplus dari revaluasi aset tetap pada tahun 2025 tercatat sebesar Rp2,27 triliun, meningkat 1,36% dibandingkan tahun 2024 sebesar Rp2,24 triliun. Peningkatan ini mencerminkan adanya penyesuaian nilai wajar atas aset tetap bank **bjb** yang relatif stabil selama tahun berjalan. Secara keseluruhan, pergerakan ini menunjukkan bahwa kontribusi revaluasi aset tetap terhadap ekuitas tetap terjaga, meskipun tidak menjadi faktor utama dalam pertumbuhan ekuitas bank **bjb**.

Keuntungan (Kerugian) yang Belum Direalisasi Atas Aset Keuangan yang Diukur Pada Nilai Wajar Melalui Penghasilan Komprehensif Lain - Setelah Pajak Tangguhan

Keuntungan yang belum direalisasi atas aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain - setelah pajak tangguhan tahun 2024 mencapai mencapai Rp254,45 miliar, berbanding terbalik dibandingkan dengan tahun 2024 yang mencatatkan kerugian yang belum direalisasi atas aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain - setelah pajak tangguhan tahun mencapai Rp425,94 miliar. Peningkatan pada pos keuntungan yang belum direalisasi atas Surat Berharga FVOCI sejalan dengan *trend*

Total Equity

Total equity as of December 31, 2025 was recorded at IDR20.82 trillion, representing an increase of 6.02% compared to IDR19.64 trillion as of December 31, 2024. The increase was primarily driven by higher retained earnings, particularly unappropriated retained earnings, reflecting bank **bjb**'s positive performance during the year. In addition, the increase was supported by higher non-controlling interests, in line with contributions from subsidiaries. On the other hand, equity growth was partially offset by a decrease in other comprehensive income, particularly from changes in the fair value of financial assets. Overall, this movement indicates that bank **bjb**'s capital structure remains strong, supported by its internal profit generation capability and contributions from subsidiaries.

Issued and Fully Paid Capital

Issued and fully paid capital as of December 31, 2025 amounted to IDR2.63 trillion, unchanged compared to December 31, 2024.

Additional Paid-In Capital

Additional paid-in capital as of December 31, 2025 amounted to IDR1.81 trillion, unchanged compared to December 31, 2024.

Revaluation Surplus of Fixed Assets

Revaluation surplus of fixed assets as of December 31, 2025 was recorded at IDR2.27 trillion, representing an increase of 1.36% compared to IDR2.24 trillion as of December 31, 2024. The increase reflects adjustments in the fair value of bank **bjb**'s fixed assets, which remained relatively stable during the year. Overall, this movement indicates that the contribution of fixed asset revaluation to equity remains maintained, although it is not the primary driver of bank **bjb**'s equity growth.

Unrealized Gains (Losses) from Financial Asset Measured at Fair Value Through Other Comprehensive Income - Net of Deferred Tax

Unrealized gains on financial assets measured at fair value through other comprehensive income – net of deferred tax as of December 31, 2025 amounted to IDR254.45 billion, compared to unrealized losses on financial assets measured at fair value through other comprehensive income – net of deferred tax of IDR425.94 billion as of December 31, 2024. The increase in unrealized gains on FVOCI securities was in line with the trend of declining yields or rising prices of securities in 2025. Throughout the year, Bank Indonesia reduced interest rates

penurunan *yield* atau kenaikan harga Surat Berharga di tahun 2025. Dimana sepanjang tahun 2025 Bank Indonesia telah melakukan pemangkasan tingkat suku bunga sebesar 125bps yang berdampak pada penurunan *yield* dan kenaikan harga surat berharga yang jauh lebih signifikan dibandingkan tahun 2024.

by 125 bps, resulting in lower yields and a significantly higher increase in security prices compared to 2024.

Pengukuran Kembali Program Imbalan Pasti - Setelah Pajak Tangguhan

Pengukuran kembali program imbalan pasti – setelah pajak tangguhan pada tahun 2025 tercatat sebesar Rp186,20 miliar, meningkat 7,94% dibandingkan tahun 2024 sebesar Rp172,51 miliar. Peningkatan ini mencerminkan perubahan asumsi aktuaria dan penyesuaian pengalaman aktual atas program imbalan kerja, yang berdampak pada pengakuan kembali dalam penghasilan komprehensif lain.

Remeasurement of Defined Benefit Plans - After Tax Deferred

Remeasurement of defined benefit plan – net of deferred tax as of December 31, 2025 was recorded at IDR186.20 billion, representing an increase of 7.94% compared to IDR172.51 billion as of December 31, 2024. The increase reflects changes in actuarial assumptions and adjustments based on actual experience of the employee benefit program, which are recognized in other comprehensive income.

Saldo Laba

Saldo laba pada tahun 2025 tercatat sebesar Rp10,25 triliun, meningkat 0,47% dibandingkan tahun 2024 sebesar Rp10,20 triliun. Peningkatan ini terutama berasal dari kenaikan laba yang belum ditentukan penggunaannya sebesar Rp36,75 miliar, serta peningkatan laba yang telah ditentukan penggunaannya sebesar Rp11,60 miliar. Secara keseluruhan, saldo laba tetap menjadi kontributor utama dalam pertumbuhan ekuitas, mencerminkan kemampuan bank **bjb** dalam menghasilkan laba dan memperkuat permodalan secara organik.

Retained Earning

Retained earnings as of December 31, 2025 were recorded at IDR10.25 trillion, representing an increase of 0.47% compared to IDR10.20 trillion as of December 31, 2024. The increase was primarily driven by higher unappropriated retained earnings amounting to IDR36.75 billion, as well as an increase in appropriated retained earnings amounting to IDR11.60 billion. Overall, retained earnings remain the main contributor to equity growth, reflecting bank **bjb**'s ability to generate profits and strengthen its capital organically.

Total Ekuitas Yang Dapat Diatribusikan Kepada Entitas Induk

Total ekuitas yang dapat diatribusikan kepada entitas induk pada tahun 2025 tercatat sebesar Rp17,03 triliun, meningkat 5% dibandingkan tahun 2024 sebesar Rp16,29 triliun. Peningkatan ini terutama didorong oleh kenaikan saldo laba, yang mencerminkan kinerja positif bank **bjb** selama tahun berjalan, serta didukung oleh kontribusi dari komponen ekuitas lainnya yang relatif stabil. Secara keseluruhan, pergerakan ini menunjukkan penguatan permodalan yang berasal dari kemampuan internal bank **bjb** dalam menghasilkan laba.

Total Equity Attributable to the Parent Entity

Total equity attributable to equity holders of the parent entity as of December 31, 2025 was recorded at IDR17.03 trillion, representing an increase of 5% compared to IDR16.29 trillion as of December 31, 2024. The increase was primarily driven by higher retained earnings, reflecting bank **bjb**'s positive performance during the year, and was further supported by relatively stable contributions from other equity components. Overall, this movement indicates strengthening capital derived from bank **bjb**'s internal profit generation capability.

Kepentingan Non-Pengendali

Kepentingan non-pengendali pada tahun 2025 tercatat sebesar Rp3,79 triliun, meningkat 13,15% dibandingkan tahun 2024 sebesar Rp3,35 triliun. Peningkatan ini terutama berasal dari kenaikan kontribusi pada beberapa entitas anak, khususnya PT Bank Jambi sebesar Rp551,80 miliar serta PT BPR Intan Jabar sebesar Rp44,24 miliar.

Di sisi lain, terdapat penurunan pada PT Bank Bengkulu sebesar Rp67,75 miliar, sementara entitas anak lainnya menunjukkan pertumbuhan yang relatif stabil. Secara keseluruhan, peningkatan ini mencerminkan kontribusi positif entitas anak terhadap ekuitas Grup.

Non-Controlling Interests

Non-controlling interest as of December 31, 2025 was recorded at IDR3.79 trillion, representing an increase of 13.15% compared to IDR3.35 trillion as of December 31, 2024. The increase was primarily driven by higher contributions from several subsidiaries, particularly PT Bank Jambi amounting to IDR551.80 billion and PT BPR Intan Jabar amounting to IDR44.24 billion.

On the other hand, there was a decrease in PT Bank Bengkulu amounting to IDR67.75 billion, while other subsidiaries showed relatively stable growth. Overall, the increase reflects the positive contribution of subsidiaries to the Group's equity.

Total Pendapatan Bunga dan Syariah

Pendapatan bunga dan syariah pada tahun 2025 tercatat sebesar Rp17,09 triliun, meningkat 7,69% dibandingkan tahun 2024 sebesar Rp15,87 triliun. Peningkatan ini terutama didorong oleh kenaikan pendapatan bunga dan syariah sebesar Rp1,24 triliun, yang mencerminkan pertumbuhan aset produktif bank **bjb**. Di sisi lain, pendapatan provisi dan komisi pembiayaan syariah mengalami penurunan sebesar Rp16,88 miliar. Secara keseluruhan, pergerakan ini menunjukkan bahwa kinerja pendapatan utama bank **bjb** tetap tumbuh, sejalan dengan aktivitas intermediasi yang meningkat.

Total Interest and Sharia Income

Interest and sharia income as of December 31, 2025 was recorded at IDR17.09 trillion, representing an increase of 7.69% compared to IDR15.87 trillion as of December 31, 2024. The increase was primarily driven by higher interest and sharia income amounting to IDR1.24 trillion, reflecting growth in bank **bjb**'s earning assets. On the other hand, sharia financing provision and commission income decreased by IDR16.88 billion. Overall, this movement indicates that bank **bjb**'s core income performance continued to grow, in line with increased intermediation activities.

Pendapatan Bunga dan Syariah

Pendapatan bunga dan syariah pada tahun 2025 tercatat sebesar Rp17,06 triliun, meningkat 8% dibandingkan tahun 2024 sebesar Rp15,82 triliun. Peningkatan ini terutama didorong oleh kenaikan pendapatan dari kredit yang diberikan sebesar Rp815,11 miliar, yang mencerminkan kontribusi utama dari portofolio kredit sebagai aset produktif terbesar bank **bjb**. Selain itu, peningkatan juga berasal dari surat berharga, baik yang diukur pada nilai wajar melalui laba rugi maupun yang tersedia untuk dijual, yang masing-masing meningkat signifikan. Hal ini sejalan dengan peningkatan penempatan pada instrumen surat berharga pada sisi aset, yang turut mendorong optimalisasi imbal hasil.

Dari segmen syariah, pendapatan juga meningkat, terutama dari bagi hasil dan margin, yang mencerminkan pertumbuhan pembiayaan syariah melalui entitas anak. Sementara itu, pendapatan dari penempatan pada Bank Indonesia dan bank lain juga mengalami peningkatan, meskipun relatif terbatas. Di sisi lain, terdapat penurunan pada wesel ekspor dan tagihan lainnya, baik dalam rupiah maupun valuta asing, yang sejalan dengan penurunan posisi aset tersebut pada neraca. Secara keseluruhan, peningkatan pendapatan bunga dan syariah mencerminkan optimalisasi komposisi aset produktif, dengan kontribusi utama dari kredit dan surat berharga, serta didukung oleh pertumbuhan bisnis syariah.

Interest and Sharia Income

Interest and sharia income as of December 31, 2025 was recorded at IDR17.06 trillion, representing an increase of 8% compared to IDR15.82 trillion as of December 31, 2024. The increase was primarily driven by higher income from loans amounting to IDR815.11 billion, reflecting the main contribution from the loan portfolio as bank **bjb**'s largest earning asset. In addition, the increase was supported by higher income from marketable securities, both measured at fair value through profit or loss and available-for-sale, each of which recorded significant growth. This was in line with increased placements in marketable securities on the asset side, contributing to yield optimization.

From the sharia segment, income also increased, particularly from profit sharing and margin, reflecting the growth of sharia financing through subsidiaries. Meanwhile, income from placements with Bank Indonesia and other banks also increased, although relatively limited. On the other hand, income from export bills and other receivables declined, both in Rupiah and foreign currencies, in line with the decrease in the balance of these assets. Overall, the increase in interest and sharia income reflects the optimization of the composition of earning assets, with primary contributions from loans and marketable securities, supported by the growth of the sharia business.

Pendapatan Provisi dan Komisi Pembiayaan Syariah

Pendapatan provisi dan komisi pembiayaan syariah pada tahun 2025 tercatat sebesar Rp36,85 miliar, menurun 31,42% dibandingkan tahun 2024 sebesar Rp53,73 miliar. Penurunan ini sejalan dengan dinamika penyaluran pembiayaan syariah melalui entitas anak, sebagaimana tercermin pada portofolio

Sharia Financing Provision and Commission Income

Sharia financing provision and commission income as of December 31, 2025 was recorded at IDR36.85 billion, representing a decrease of 31.42% compared to IDR53.73 billion as of December 31, 2024. The decrease was in line with the dynamics of sharia financing disbursement through

pembiayaan syariah pada sisi aset. Secara keseluruhan, penurunan ini menunjukkan adanya normalisasi pendapatan berbasis fee dari aktivitas pembiayaan syariah, meskipun kontribusi utama pendapatan dari segmen ini tetap berasal dari margin dan bagi hasil.

Beban Bunga dan Bagi Hasil Syariah

Beban bunga dan bagi hasil syariah pada tahun 2025 tercatat sebesar Rp9,58 triliun, meningkat 3,64% dibandingkan tahun 2024 sebesar Rp9,25 triliun. Peningkatan ini mencerminkan kenaikan biaya dana seiring dengan pengelolaan liabilitas bank **bjb**, khususnya pada simpanan nasabah, simpanan dari bank lain, serta pinjaman yang diterima. Namun demikian, kenaikan beban bunga yang relatif lebih rendah dibandingkan pertumbuhan pendapatan bunga menunjukkan bahwa bank **bjb** mampu menjaga efisiensi biaya dana. Hal ini turut mendukung peningkatan pendapatan bunga dan syariah neto selama tahun berjalan.

Pendapatan Bunga dan Syariah Neto

Pendapatan bunga dan syariah neto pada tahun 2025 tercatat sebesar Rp7,51 triliun, meningkat 13,33% dibandingkan tahun 2024 sebesar Rp6,63 triliun. Peningkatan ini merupakan hasil dari pertumbuhan pendapatan bunga dan syariah yang lebih tinggi dibandingkan kenaikan beban bunga dan bagi hasil syariah. Pergerakan ini mencerminkan kemampuan bank **bjb** dalam mengelola aset produktif, khususnya kredit dan surat berharga, serta menjaga biaya dana yang relatif terkendali di tengah dinamika penghimpunan dana pada sisi liabilitas. Secara keseluruhan, peningkatan ini menunjukkan penguatan kinerja intermediasi bank **bjb**, yang menjadi kontributor utama dalam pembentukan laba operasional selama tahun berjalan.

Pendapatan Operasional Lainnya

Pendapatan operasional lainnya pada tahun 2025 tercatat sebesar Rp2,95 triliun, meningkat 32,87% dibandingkan tahun 2024 sebesar Rp2,22 triliun. Peningkatan ini terutama didorong oleh kenaikan keuntungan dari penjualan surat berharga yang diperdagangkan – neto sebesar Rp186,43 miliar serta keuntungan yang belum direalisasi dari perubahan nilai wajar surat berharga yang diperdagangkan – neto sebesar Rp261,48 miliar.

Selain itu, pendapatan dari provisi dan komisi selain kredit yang diberikan serta lain-lain juga menunjukkan peningkatan, yang mencerminkan aktivitas transaksi dan jasa perbankan yang lebih tinggi. Di sisi lain, terdapat penurunan pada penerimaan kembali kredit yang telah dihapus buku serta keuntungan transaksi valuta asing – neto.

Secara keseluruhan, peningkatan ini menunjukkan kontribusi yang signifikan dari aktivitas treasury dan pengelolaan surat berharga, yang sejalan dengan peningkatan portofolio surat berharga pada sisi aset, sehingga memperkuat pendapatan operasional bank **bjb** di luar pendapatan bunga.

subsidiaries, as reflected in the sharia financing portfolio on the asset side. Overall, the decline indicates a normalization of fee-based income from sharia financing activities, although the main contribution of income from this segment continues to be derived from margin and profit sharing.

Interest Expense and Sharia Profit Sharing

Interest expense and sharia profit sharing as of December 31, 2025 were recorded at IDR9.58 trillion, representing an increase of 3.64% compared to IDR9.25 trillion as of December 31, 2024. The increase reflects higher cost of funds in line with the management of bank **bjb**'s liabilities, particularly deposits from customers, deposits from other banks, and borrowings. Nevertheless, the relatively lower increase in interest expense compared to the growth in interest income indicates that bank **bjb** was able to maintain cost of funds efficiency. This supported the increase in net interest and sharia income during the year.

Net Interest and Sharia Income

Net interest and sharia income as of December 31, 2025 was recorded at IDR7.51 trillion, representing an increase of 13.33% compared to IDR6.63 trillion as of December 31, 2024. The increase was driven by higher growth in interest and sharia income relative to the increase in interest expense and sharia profit sharing. This movement reflects bank **bjb**'s ability to manage earning assets, particularly loans and marketable securities, while maintaining relatively controlled cost of funds amid the dynamics of funding on the liability side. Overall, the increase indicates strengthening intermediation performance, which remains the main contributor to operating income during the year.

Other Operational Income

Other operating income as of December 31, 2025 was recorded at IDR2.95 trillion, representing an increase of 32.87% compared to IDR2.22 trillion as of December 31, 2024. The increase was primarily driven by higher gains on sale of trading securities – net amounting to IDR186.43 billion, as well as higher unrealized gains on changes in fair value of trading securities – net amounting to IDR261.48 billion.

In addition, non-loan related provision and commission income as well as other income also increased, reflecting higher transaction activities and banking services. On the other hand, recoveries from loans written-off and gains from foreign exchange transactions – net decreased.

Overall, the increase indicates a significant contribution from treasury activities and the management of marketable securities, in line with the growth of the securities portfolio on the asset side, thereby strengthening bank **bjb**'s operating income beyond interest income.

Provisi dan Komisi Selain Dari Kredit Yang Diberikan

Provisi dan komisi selain dari kredit yang diberikan pada tahun 2025 tercatat sebesar Rp1,38 triliun, meningkat 2,25% dibandingkan tahun 2024 sebesar Rp1,35 triliun. Peningkatan ini terutama didorong oleh kenaikan provisi dan komisi dalam rupiah sebesar Rp60,18 miliar, yang mencerminkan peningkatan aktivitas jasa perbankan. Di sisi lain, terdapat penurunan pada *fee* komitmen dalam rupiah sebesar Rp25,86 miliar serta penurunan pada komponen dalam mata uang asing, baik provisi dan komisi maupun fee komitmen. Secara keseluruhan, pergerakan ini menunjukkan bahwa pendapatan berbasis fee tetap tumbuh secara moderat, sejalan dengan peningkatan aktivitas transaksi dan layanan perbankan, meskipun terdapat penyesuaian pada beberapa komponen *fee* tertentu.

Non-Loan Related Provisions and Commissions

Non-loan related provision and commission income as of December 31, 2025 was recorded at IDR1.38 trillion, representing an increase of 2.25% compared to IDR1.35 trillion as of December 31, 2024. The increase was primarily driven by higher Rupiah provision and commission income amounting to IDR60.18 billion, reflecting increased banking service activities. On the other hand, there was a decrease in Rupiah commitment fees amounting to IDR25.86 billion, as well as declines in foreign currency components, both in provision and commission income and commitment fees. Overall, this movement indicates that fee-based income continued to grow moderately, in line with increased transaction activities and banking services, despite adjustments in certain fee components

.

Penerimaan Kembali Kredit yang Telah Dihapus Buku

Penerimaan kembali kredit yang telah dihapus buku pada tahun 2025 tercatat sebesar Rp217,45 miliar, menurun 7,80% dibandingkan tahun 2024 sebesar Rp235,85 miliar. Penurunan ini mencerminkan lebih rendahnya realisasi pemulihan atas kredit yang sebelumnya telah dihapusbukukan, sejalan dengan dinamika kualitas portofolio kredit bank **bjb**. Meskipun demikian, penerimaan ini tetap memberikan kontribusi terhadap pendapatan operasional lainnya selama tahun berjalan.

Recoveries from Loans Written-Off

Recoveries from loans written-off as of December 31, 2025 were recorded at IDR217.45 billion, representing a decrease of 7.80% compared to IDR235.85 billion as of December 31, 2024. The decrease reflects lower realization of recoveries from previously written-off loans, in line with the dynamics of bank **bjb**'s loan portfolio quality. Nevertheless, these recoveries continued to contribute to other operating income during the year.

Keuntungan Transaksi Valuta Asing – Neto

Keuntungan transaksi valuta asing – neto pada tahun 2025 tercatat sebesar Rp17,77 miliar, menurun 7,62% dibandingkan tahun 2024 sebesar Rp19,24 miliar. Penurunan

Gain from Foreign Exchange - Net

Gain from foreign exchange transactions – net as of December 31, 2025 was recorded at IDR17.77 billion, representing a decrease of 7.62% compared to IDR19.24 billion as of

ini mencerminkan berkurangnya keuntungan dari aktivitas transaksi valuta asing, sejalan dengan dinamika pergerakan nilai tukar serta aktivitas transaksi nasabah dalam valuta asing. Meskipun demikian, kontribusi dari pos ini tetap mendukung pendapatan operasional lainnya selama tahun berjalan.

Keuntungan dari Penjualan Surat Berharga – Neto

Keuntungan dari penjualan surat berharga yang diperdagangkan – neto pada tahun 2025 tercatat sebesar Rp383,13 miliar, meningkat signifikan sebesar 94,78% dibandingkan tahun 2024 sebesar Rp196,70 miliar. Peningkatan ini mencerminkan kinerja positif dari aktivitas perdagangan surat berharga, sejalan dengan peningkatan portofolio surat berharga pada sisi aset serta kondisi pasar yang mendukung realisasi keuntungan. Secara keseluruhan, pergerakan ini menunjukkan kontribusi yang semakin besar dari aktivitas *treasury*, yang turut memperkuat pendapatan operasional lainnya selama tahun berjalan.

Keuntungan yang Belum Direalisasi dari Perubahan Nilai Wajar Surat Berharga Yang Diperdagangkan - Neto

Keuntungan yang belum direalisasi dari perubahan nilai wajar surat berharga yang diperdagangkan – neto pada tahun 2025 tercatat sebesar Rp407,81 miliar, meningkat signifikan sebesar 178,80% dibandingkan tahun 2024 sebesar Rp146,33 miliar. Peningkatan ini mencerminkan perubahan nilai wajar yang positif atas portofolio surat berharga yang diperdagangkan, sejalan dengan kondisi pasar yang lebih kondusif serta strategi pengelolaan portofolio investasi bank **bjb**. Secara keseluruhan, pergerakan ini semakin memperkuat kontribusi aktivitas treasury, tidak hanya dari realisasi penjualan, tetapi juga dari keuntungan yang belum direalisasi, yang turut mendorong peningkatan pendapatan operasional lainnya selama tahun berjalan.

Lain-Lain

Pendapatan operasional dari lain-lain tahun 2024 mencapai Rp548,75 miliar, meningkat 98,60% dibandingkan tahun 2024 mencapai Rp276,32 miliar. Peningkatan tersebut terbesar disebabkan adanya penyesuaian terkait perhitungan aset hak guna.

Beban Operasional Lainnya

Beban operasional lainnya pada tahun 2025 tercatat sebesar Rp8,48 triliun, meningkat 19,87% dibandingkan tahun 2024 sebesar Rp7,07 triliun. Peningkatan ini terutama dipengaruhi oleh kenaikan beban tenaga kerja dan tunjangan sebesar Rp359,75 miliar serta beban umum dan administrasi sebesar Rp351,90 miliar, yang mencerminkan peningkatan aktivitas operasional bank **bjb**. Selain itu, kenaikan yang signifikan

December 31, 2024. The decrease reflects lower gains from foreign exchange transaction activities, in line with exchange rate movements and customer transaction activities in foreign currencies. Nevertheless, this item continued to support other operating income during the year.

Gain on Sale of Marketable Securities - Net

Gain on sale of trading securities – net as of December 31, 2025 was recorded at IDR383.13 billion, representing a significant increase of 94.78% compared to IDR196.70 billion as of December 31, 2024. The increase reflects positive performance from trading activities in marketable securities, in line with the growth of the securities portfolio on the asset side and favorable market conditions for gain realization. Overall, this movement indicates a greater contribution from treasury activities, further strengthening other operating income during the year.

Unrealized Gain on Changes In Fair Value of Marketable Securites - Net

Unrealized gain on changes in fair value of trading securities – net as of December 31, 2025 was recorded at IDR407.81 billion, representing a significant increase of 178.80% compared to IDR146.33 billion as of December 31, 2024. The increase reflects positive changes in the fair value of the trading securities portfolio, in line with more favorable market conditions and bank **bjb**'s investment portfolio management strategy. Overall, this movement further strengthens the contribution of treasury activities, not only from realized gains but also from unrealized gains, thereby supporting the increase in other operating income during the year.

Others

Other operating income as of December 31, 2025 was recorded at IDR548.75 billion, representing an increase of 98.60% compared to IDR276.32 billion as of December 31, 2024. The increase was primarily driven by adjustments related to the calculation of right-of-use assets.

Others Operational Expense

Other operating expenses as of December 31, 2025 were recorded at IDR8.48 trillion, representing an increase of 19.87% compared to IDR7.07 trillion as of December 31, 2024. The increase was primarily driven by higher salaries and employee benefits expenses amounting to IDR359.75 billion, as well as higher general and administrative expenses amounting to IDR351.90 billion, reflecting increased operational activities

juga berasal dari penyisihan kerugian penurunan nilai aset keuangan dan non-keuangan sebesar Rp525,27 miliar, yang sejalan dengan penguatan pencadangan pada portofolio kredit dan aset produktif lainnya.

Di sisi lain, terdapat peningkatan pada kerugian yang belum direalisasi dari perubahan nilai wajar surat berharga yang diperdagangkan serta penyisihan kerugian komitmen dan kontinjensi, yang mencerminkan dinamika kondisi pasar dan penerapan prinsip kehati-hatian dalam pengelolaan risiko. Secara keseluruhan, kenaikan beban operasional ini menunjukkan adanya tekanan biaya, baik dari sisi operasional maupun pencadangan, meskipun tetap sejalan dengan strategi bank **bjb** dalam menjaga kualitas aset dan mendukung pertumbuhan usaha.

Laba Operasional

Laba operasional pada tahun 2025 tercatat sebesar Rp16,99 triliun, meningkat 6,68% dibandingkan tahun 2024 sebesar Rp15,92 triliun. Peningkatan ini didorong oleh kenaikan pendapatan bunga dan syariah neto serta pendapatan operasional lainnya, yang masing-masing meningkat signifikan selama tahun berjalan. Namun demikian, pertumbuhan laba operasional tersebut sebagian diimbangi oleh kenaikan beban operasional lainnya, khususnya dari peningkatan biaya tenaga kerja, biaya administrasi, serta pencadangan kerugian penurunan nilai. Secara keseluruhan, pergerakan ini mencerminkan bahwa bank **bjb** masih mampu mencatatkan pertumbuhan laba operasional yang solid, didukung oleh kinerja pendapatan yang kuat, meskipun menghadapi tekanan dari sisi biaya dan pencadangan.

Pendapatan (Beban) Non – Operasional

Beban non-operasional – neto pada tahun 2025 tercatat sebesar Rp24,75 miliar, berbalik dari posisi pendapatan neto sebesar Rp8,57 miliar pada tahun 2024. Perubahan ini terutama disebabkan oleh penurunan pendapatan non-operasional sebesar Rp26,42 miliar, serta peningkatan beban non-operasional sebesar Rp6,90 miliar. Pergerakan ini mencerminkan adanya penurunan kontribusi dari aktivitas di luar kegiatan usaha utama bank **bjb**. Meskipun demikian, dampak dari pos non-operasional terhadap kinerja keseluruhan relatif terbatas dibandingkan dengan kontribusi dari kegiatan operasional. Secara keseluruhan, perubahan ini menunjukkan bahwa kinerja laba bank **bjb** pada tahun 2025 tetap didominasi oleh aktivitas operasional utama.

Laba Sebelum Beban Pajak

Laba sebelum beban pajak pada tahun 2025 tercatat sebesar Rp1,96 triliun, meningkat 9,82% dibandingkan tahun 2024 sebesar Rp1,78 triliun. Peningkatan ini terutama didorong oleh pertumbuhan laba operasional yang tetap solid selama

of bank **bjb**. In addition, a significant increase was recorded in provision for impairment losses on financial and non-financial assets amounting to IDR525.27 billion, in line with strengthened provisioning on the loan portfolio and other earning assets.

On the other hand, there was an increase in unrealized losses on changes in fair value of trading securities as well as provision for losses on commitments and contingencies, reflecting market dynamics and the implementation of prudent risk management. Overall, the increase in operating expenses indicates higher cost pressures, both from operational activities and provisioning, in line with bank **bjb**'s strategy to maintain asset quality and support business growth.

Operating Income

Operating income as of December 31, 2025 was recorded at IDR1.98 trillion, representing an increase of 6.68% compared to IDR1.86 trillion as of December 31, 2024. The increase was driven by higher net interest and sharia income as well as other operating income, both of which recorded significant growth during the year. However, the growth in operating income was partially offset by higher other operating expenses, particularly from increased personnel expenses, administrative expenses, and provision for impairment losses. Overall, this movement indicates that bank **bjb** continued to record solid operating income growth, supported by strong revenue performance despite cost and provisioning pressures.

Non-Operating Income (Expenses) - Net

Non-operating expenses – net as of December 31, 2025 were recorded at IDR24.75 billion, compared to net non-operating income of IDR8.57 billion in 2024. The change was primarily driven by a decrease in non-operating income amounting to IDR26.42 billion, as well as an increase in non-operating expenses amounting to IDR6.90 billion. This movement reflects a lower contribution from activities outside bank **bjb**'s core business. Nevertheless, the impact of non-operating items on overall performance remained relatively limited compared to the contribution from operating activities. Overall, this change indicates that bank **bjb**'s earnings performance in 2025 continued to be predominantly driven by its core operational activities.

Income Before Tax Expense

Income before tax as of December 31, 2025 was recorded at IDR1.96 trillion, representing an increase of 9.82% compared to IDR1.78 trillion as of December 31, 2024. The increase was primarily driven by solid growth in operating income during

tahun berjalan. Namun demikian, kenaikan tersebut sebagian dipengaruhi oleh perubahan pada beban non-operasional – neto yang berbalik menjadi beban, sehingga memberikan tekanan tambahan terhadap laba sebelum pajak. Secara keseluruhan, pergerakan ini menunjukkan bahwa kinerja laba bank **bjb** tetap tumbuh dengan baik, didukung oleh aktivitas operasional utama, meskipun terdapat penurunan kontribusi dari pos non-operasional.

Beban Pajak – Neto

Beban pajak – neto pada tahun 2025 tercatat sebesar Rp374,77 miliar, meningkat 14,05% dibandingkan tahun 2024 sebesar Rp328,60 miliar. Peningkatan ini sejalan dengan kenaikan laba sebelum beban pajak selama tahun berjalan. Secara keseluruhan, pergerakan ini mencerminkan kewajiban perpajakan yang meningkat seiring dengan pertumbuhan kinerja laba bank **bjb**, serta tetap menunjukkan pengelolaan beban pajak yang wajar sesuai dengan ketentuan yang berlaku.

Laba Tahun Berjalan

Laba tahun berjalan pada tahun 2025 tercatat sebesar Rp1,58 triliun, meningkat 8,86% dibandingkan tahun 2024 sebesar Rp1,46 triliun. Peningkatan ini didorong oleh pertumbuhan laba sebelum beban pajak, yang mencerminkan kinerja operasional bank **bjb** yang tetap solid selama tahun berjalan. Kenaikan tersebut terjadi meskipun terdapat peningkatan beban pajak, sehingga menunjukkan bahwa pertumbuhan laba bank **bjb** tetap didukung oleh penguatan pendapatan, baik dari pendapatan bunga dan syariah neto maupun pendapatan operasional lainnya. Secara keseluruhan, pergerakan ini mencerminkan kinerja profitabilitas bank **bjb** yang tetap terjaga, didukung oleh aktivitas usaha utama serta kontribusi dari pengelolaan aset produktif dan aktivitas *treasury*.

Dari jumlah tersebut, laba yang dapat diatribusikan kepada pemilik entitas induk tercatat sebesar Rp1,15 triliun, menurun sebesar 15,82% dibandingkan tahun 2024 sebesar Rp1,37 triliun. Sementara itu, laba yang dapat diatribusikan kepada kepentingan non-pengendali meningkat signifikan sebesar 403,14% menjadi Rp431,31 miliar dari Rp85,72 miliar pada tahun sebelumnya. Pergerakan ini mencerminkan peningkatan kontribusi kinerja entitas anak terhadap laba konsolidasian, yang sebagian besar diatribusikan kepada kepentingan non-pengendali. Secara keseluruhan, meskipun laba konsolidasian meningkat, porsi laba yang diatribusikan kepada entitas induk mengalami penurunan.

Penghasilan Komprehensif Lain Tahun Berjalan – Setelah Pajak Penghasilan

Penghasilan komprehensif lain tahun berjalan – setelah pajak pada tahun 2025 tercatat sebesar Rp702,39 miliar, meningkat signifikan 1.313,87% dibandingkan tahun 2024 yang mencatatkan nilai negatif sebesar Rp57,86 miliar. Peningkatan

the year. However, the increase was partially affected by changes in non-operating expenses – net, which turned into an expense, thereby exerting additional pressure on income before tax. Overall, this movement indicates that bank **bjb**'s earnings performance continued to grow, supported by its core operational activities, despite a lower contribution from non-operating items.

Tax Expense – Net

Tax expense – net as of December 31, 2025 was recorded at IDR374.77 billion, representing an increase of 14.05% compared to IDR328.60 billion as of December 31, 2024. The increase was in line with higher income before tax during the year. Overall, this movement reflects higher tax obligations in line with the growth in bank **bjb**'s earnings, while continuing to demonstrate prudent tax management in accordance with prevailing regulations.

Income For The Year

Income for the year as of December 31, 2025 was recorded at IDR1.58 trillion, representing an increase of 8.86% compared to IDR1.46 trillion as of December 31, 2024. The increase was driven by higher income before tax, reflecting bank **bjb**'s solid operational performance during the year. The growth was achieved despite higher tax expenses, indicating that earnings growth remained supported by stronger revenues, both from net interest and sharia income as well as other operating income. Overall, this movement reflects sustained profitability performance, supported by core business activities as well as contributions from the management of earning assets and treasury activities.

Of this amount, income attributable to equity holders of the parent entity was recorded at IDR1.15 trillion, representing a decrease of 15.82% compared to IDR1.37 trillion in 2024. Meanwhile, income attributable to non-controlling interests increased significantly by 403.14% to IDR431.31 billion from IDR85.72 billion in the previous year. This movement reflects the increased contribution of subsidiaries to consolidated income, which was largely attributable to non-controlling interests. Overall, despite an increase in consolidated income, the portion attributable to the parent entity declined.

Other Comprehensive Income for the Year - After Tax

Other comprehensive income for the year – after tax as of December 31, 2025 was recorded at IDR702.39 billion, representing a significant increase of 1,313.87% compared to negative IDR57.86 billion in 2024. The increase was primarily

ini terutama didorong oleh keuntungan dari perubahan nilai aset keuangan dalam kelompok tersedia untuk dijual sebesar Rp685,82 miliar, yang mencerminkan perbaikan nilai wajar portofolio surat berharga sejalan dengan kondisi pasar. Selain itu, terdapat kontribusi dari pajak penghasilan sebesar Rp7,26 miliar.

Di sisi lain, terdapat penurunan pada pengukuran kembali atas program imbalan pasti serta surplus revaluasi aset tetap, yang memberikan dampak negatif terhadap penghasilan komprehensif lain. Secara keseluruhan, pergerakan ini menunjukkan bahwa peningkatan laba komprehensif bank **bjb** tidak hanya didukung oleh laba bersih, tetapi juga oleh perbaikan nilai wajar aset keuangan, yang turut memperkuat total ekuitas selama tahun berjalan.

Total Laba Komprehensif Tahun Berjalan

Total laba komprehensif tahun berjalan pada tahun 2025 tercatat sebesar Rp2,29 triliun, meningkat signifikan 63,64% dibandingkan tahun 2024 sebesar Rp1,40 triliun. Peningkatan ini berasal dari kenaikan laba tahun berjalan serta lonjakan penghasilan komprehensif lain, yang berbalik dari negatif menjadi positif. Pendorong utama penghasilan komprehensif lain adalah keuntungan dari perubahan nilai wajar aset keuangan, sejalan dengan perbaikan kondisi pasar dan kinerja portofolio surat berharga bank **bjb**. Secara keseluruhan, pergerakan ini menunjukkan bahwa kinerja bank **bjb** tidak hanya didukung oleh pertumbuhan laba operasional, tetapi juga oleh peningkatan nilai wajar aset keuangan, sehingga memberikan dampak positif yang lebih besar terhadap total ekuitas selama tahun berjalan.

Dari jumlah tersebut, laba komprehensif yang dapat diatribusikan kepada pemilik entitas induk sebesar Rp1,85 triliun, meningkat 39,46% dibandingkan tahun 2024 sebesar Rp1,32 triliun. Sementara itu, laba komprehensif yang dapat diatribusikan kepada kepentingan non-pengendali juga meningkat signifikan menjadi Rp440,35 miliar dari Rp73,51 miliar pada tahun sebelumnya. Peningkatan ini mencerminkan kontribusi positif dari penghasilan komprehensif lain, khususnya dari perubahan nilai wajar aset keuangan, serta peningkatan kinerja entitas anak. Secara keseluruhan, pergerakan ini menunjukkan penguatan kinerja komprehensif Grup yang berdampak langsung pada peningkatan ekuitas.

Laba Per Saham Dasar yang Dapat Diatribusikan Kepada Pemilik Entitas Induk

Laba per saham dasar yang dapat diatribusikan kepada pemilik entitas induk tahun 2024 mencapai Rp109,57 menurun 15,82% dari tahun 2024 yang mencapai Rp130,16. Penurunan tersebut disebabkan oleh menurunnya laba bersih yang dapat diatribusikan kepada pemilik entitas induk, sejalan dengan dinamika kinerja operasional dan peningkatan beban usaha selama periode berjalan.

driven by gains on changes in fair value of available-for-sale financial assets amounting to IDR685.82 billion, reflecting improvements in the fair value of the securities portfolio in line with market conditions. In addition, there was a contribution from income tax amounting to IDR7.26 billion.

On the other hand, there were decreases in remeasurement of defined benefit plans and revaluation surplus of fixed assets, which had a negative impact on other comprehensive income. Overall, this movement indicates that the increase in bank **bjb**'s comprehensive income was supported not only by net income but also by improvements in the fair value of financial assets, thereby strengthening total equity during the year.

Total Comprehensive Income for the Year

Total comprehensive income for the year as of December 31, 2025 was recorded at IDR2.29 trillion, representing a significant increase of 63.64% compared to IDR1.40 trillion as of December 31, 2024. The increase was driven by higher income for the year as well as a significant increase in other comprehensive income, which reversed from negative to positive. The main driver of other comprehensive income was gains on changes in the fair value of financial assets, in line with improved market conditions and the performance of bank **bjb**'s securities portfolio. Overall, this movement indicates that bank **bjb**'s performance was supported not only by operating income growth but also by improvements in the fair value of financial assets, thereby providing a greater positive impact on total equity during the year.

Of this amount, comprehensive income attributable to equity holders of the parent entity was recorded at IDR1.85 trillion, representing an increase of 39.46% compared to IDR1.32 trillion in 2024. Meanwhile, comprehensive income attributable to non-controlling interests also increased significantly to IDR440.35 billion from IDR73.51 billion in the previous year. The increase reflects the positive contribution from other comprehensive income, particularly from changes in the fair value of financial assets, as well as improved performance of subsidiaries. Overall, this movement indicates strengthened comprehensive performance of the Group, which directly contributed to the increase in equity.

Basic Earnings Per Share Attributable to Equity Holders of the Parent Entity

Basic earnings per share attributable to equity holders of the parent entity as of December 31, 2025 amounted to IDR109.57, representing a decrease of 15.82% compared to IDR130.16 in 2024. The decrease was due to a decline in net profit attributable to owners of the parent entity, in line with operational performance dynamics and increased operating expenses during the period.

Kas dan setara kas pada akhir tahun 2025 tercatat sebesar Rp24,69 triliun, meningkat 16,42% dibandingkan tahun 2024 sebesar Rp21,20 triliun. Peningkatan ini terutama didorong oleh kenaikan arus kas dari aktivitas operasi yang signifikan. Arus kas neto dari aktivitas operasi tercatat sebesar Rp8,43 triliun, meningkat 121,12% dibandingkan tahun sebelumnya sebesar Rp3,81 triliun, mencerminkan penguatan arus kas dari kegiatan usaha utama bank **bjb**. Sementara itu, arus kas dari aktivitas investasi masih mencatatkan arus keluar sebesar

Cash and cash equivalents as of December 31, 2025 were recorded at IDR24.69 trillion, representing an increase of 16.42% compared to IDR21.20 trillion as of December 31, 2024. The increase was primarily driven by a significant rise in cash flows from operating activities. Net cash flows from operating activities were recorded at IDR8.43 trillion, representing an increase of 121.12% compared to IDR3.81 trillion in the previous year, reflecting stronger cash flows from bank **bjb**'s core business activities. Meanwhile, cash flows from investing activities

Rp5,29 triliun, meskipun lebih rendah 35,87% dibandingkan tahun sebelumnya, yang menunjukkan pengelolaan investasi yang lebih selektif. Di sisi lain, arus kas dari aktivitas pendanaan menurun menjadi Rp351,71 miliar, sejalan dengan penurunan penerimaan pendanaan eksternal.

Secara keseluruhan, bank **bjb** mencatatkan kenaikan neto kas dan setara kas sebesar Rp3,49 triliun, berbalik dari penurunan pada tahun sebelumnya, yang mencerminkan perbaikan posisi likuiditas selama tahun berjalan. Komposisi kas dan setara kas didominasi oleh giro pada Bank Indonesia sebesar Rp12,02 triliun, diikuti oleh penempatan pada Bank Indonesia dan bank lain sebesar Rp7,05 triliun, serta kas sebesar Rp4,93 triliun. Pergerakan ini sejalan dengan strategi bank **bjb** dalam memperkuat likuiditas melalui peningkatan penempatan pada instrumen yang likuid dan berisiko rendah.

continued to record net cash outflows of IDR5.29 trillion, although lower by 35.87% compared to the previous year, indicating more selective investment management. On the other hand, cash flows from financing activities decreased to IDR351.71 billion, in line with lower proceeds from external funding.

Overall, bank **bjb** recorded a net increase in cash and cash equivalents of IDR3.49 trillion, reversing the decline in the previous year and reflecting an improved liquidity position during the year. The composition of cash and cash equivalents was dominated by current accounts with Bank Indonesia amounting to IDR12.02 trillion, followed by placements with Bank Indonesia and other banks amounting to IDR7.05 trillion, and cash amounting to IDR4.93 trillion. This movement is in line with bank **bjb**'s strategy to strengthen liquidity through increased placements in liquid and low-risk instruments.

2024 2025

Arus Kas Dari Aktivitas Operasi

Arus kas neto dari aktivitas operasi pada tahun 2025 tercatat sebesar Rp8,43 triliun, meningkat signifikan 121,12% dibandingkan tahun 2024 sebesar Rp3,81 triliun. Peningkatan ini mencerminkan penguatan fundamental bisnis inti bank **bjb** serta perbaikan pengelolaan aset dan liabilitas operasional. Dari sisi penerimaan, arus kas terutama didorong oleh penerimaan bunga dan syariah, provisi dan komisi sebesar Rp15,88 triliun, meningkat sejalan dengan kenaikan kredit yang diberikan dan pendapatan bunga bersih pada laporan laba rugi. Selain itu, terdapat peningkatan penerimaan dari aset operasional sebelum perubahan yang mencapai Rp4,22 triliun, mencerminkan kinerja operasional yang solid. Di sisi lain, arus kas keluar masih didominasi oleh pembayaran bunga sebesar Rp9,03 triliun dan beban tenaga kerja sebesar Rp3,18 triliun, yang sejalan dengan peningkatan biaya dana dan ekspansi bisnis bank **bjb**.

Cash Flows from Operating Activities

Net cash flows from operating activities as of December 31, 2025 were recorded at IDR8.43 trillion, representing a significant increase of 121.12% compared to IDR3.81 trillion as of December 31, 2024. The increase reflects strengthening fundamentals of bank **bjb**'s core business as well as improved management of operating assets and liabilities. From the inflow side, cash flows were primarily driven by receipts from interest and sharia income, as well as provisions and commissions amounting to IDR15.88 trillion, increasing in line with higher loans and net interest income as reported in the statement of profit or loss. In addition, there was an increase in receipts from operating assets before changes amounting to IDR4.22 trillion, reflecting solid operational performance. On the other hand, cash outflows were mainly attributable to interest payments amounting to IDR9.03 trillion and personnel expenses amounting to IDR3.18 trillion, in line with higher cost of funds and business expansion.

Perubahan pada aset operasional menunjukkan penurunan penempatan pada surat berharga dan repo, serta optimalisasi pada instrumen likuid, yang berkontribusi positif terhadap arus kas. Sementara itu, penurunan penyaluran kredit dan pembiayaan secara neto dalam arus kas (Rp5,19 triliun *inflow*) menjadi faktor utama peningkatan kas, yang mengindikasikan adanya strategi penyeimbangan antara pertumbuhan kredit dan likuiditas. Dari sisi liabilitas, terjadi peningkatan liabilitas segera dan pergeseran komposisi simpanan, meskipun terdapat penurunan pada deposito berjangka, yang menunjukkan perubahan strategi pendanaan menuju sumber dana yang lebih efisien.

Changes in operating assets reflected a decline in placements in marketable securities and repo transactions, as well as optimization in liquid instruments, which contributed positively to cash flows. Meanwhile, a decrease in loan and financing disbursement on a net basis in the cash flow (IDR5.19 trillion inflow) became a key factor supporting cash increases, indicating a strategy to balance credit growth and liquidity. From the liability side, there was an increase in obligations due immediately and a shift in the composition of deposits, despite a decline in time deposits, indicating a shift in funding strategy toward more efficient funding sources.

Secara keseluruhan, arus kas operasi yang kuat ini sejalan dengan peningkatan laba operasional serta mendukung penguatan posisi likuiditas bank **bjb**, sebagaimana tercermin pada kenaikan kas dan penempatan pada Bank Indonesia di neraca.

Overall, the strong operating cash flows were in line with higher operating income and supported the strengthening of bank **bjb**'s liquidity position, as reflected in the increase in cash and placements with Bank Indonesia in the statement of financial position.

Arus Kas Dari Aktivitas Investasi

Arus kas dari aktivitas investasi pada tahun 2025 mencatat arus keluar bersih sebesar Rp5,29 triliun, membaik dibandingkan tahun 2024 yang sebesar Rp8,26 triliun. Perbaikan ini menunjukkan pengelolaan investasi yang lebih terkendali, meskipun bank **bjb** tetap melakukan ekspansi pada instrumen strategis. Arus kas keluar terutama berasal dari penyertaan saham sebesar Rp18,31 triliun, meningkat signifikan dibandingkan tahun sebelumnya. Hal ini mencerminkan langkah ekspansi dan penguatan investasi jangka panjang, termasuk pada entitas anak dan instrumen strategis lainnya yang juga terlihat pada peningkatan pos penyertaan saham di neraca.

Di sisi lain, bank **bjb** mencatat arus kas masuk yang signifikan dari penjualan aset tetap sebesar Rp13,51 triliun, meningkat tajam dibandingkan tahun sebelumnya. Hal ini mengindikasikan adanya optimalisasi aset tetap sebagai bagian dari strategi efisiensi dan pengelolaan portofolio aset.

Cash Flows from Investment Activities

Cash flows from investing activities in 2025 recorded net cash outflows of IDR5.29 trillion, improving compared to IDR8.26 trillion in 2024. The improvement indicates more controlled investment management, although bank **bjb** continued to expand in strategic instruments. Cash outflows were primarily attributable to investments in shares amounting to IDR18.31 trillion, which increased significantly compared to the previous year. This reflects expansion initiatives and strengthening of long-term investments, including in subsidiaries and other strategic instruments, as also reflected in the increase in investment in shares in the statement of financial position.

On the other hand, bank **bjb** recorded significant cash inflows from the sale of fixed assets amounting to IDR13.51 trillion, a substantial increase compared to the previous year. This indicates optimization of fixed assets as part of efficiency and asset portfolio management strategies. Meanwhile, purchases

Sementara itu, pembelian aset tetap relatif stabil pada Rp491 miliar, menunjukkan bahwa investasi pada aset operasional tetap dilakukan secara selektif untuk mendukung kegiatan usaha.

Secara keseluruhan, aktivitas investasi mencerminkan strategi bank **bjb** dalam menyeimbangkan ekspansi jangka panjang melalui penyertaan saham dengan optimalisasi aset eksisting, sehingga tekanan terhadap likuiditas dapat diminimalkan dan tetap sejalan dengan penguatan posisi kas.

of fixed assets remained relatively stable at IDR491 billion, indicating that investments in operational assets were carried out selectively to support business activities.

Overall, investing activities reflect bank **bjb**'s strategy to balance long-term expansion through investments in shares with the optimization of existing assets, thereby minimizing liquidity pressure while remaining aligned with strengthening cash position.

Arus Kas Dari Aktivitas Pendanaan

Arus kas dari aktivitas pendanaan pada tahun 2025 mencatat arus masuk bersih sebesar Rp646 miliar, menurun dibandingkan tahun 2024 sebesar Rp2,70 triliun. Penurunan ini mencerminkan strategi bank **bjb** dalam mengurangi ketergantungan pada pendanaan eksternal serta optimalisasi struktur liabilitas.

Dari sisi penerimaan, arus kas masuk terutama berasal dari penerimaan pinjaman sebesar Rp8,28 triliun, meskipun menurun dibandingkan tahun sebelumnya. Hal ini diimbangi dengan pembayaran pinjaman yang juga menurun menjadi Rp6,93 triliun, menunjukkan adanya pengelolaan kewajiban yang lebih terukur. Selain itu, penerbitan instrumen pendanaan melalui efek hutang yang diterbitkan hanya sebesar Rp300 miliar, turun signifikan dibandingkan tahun sebelumnya, yang mengindikasikan penurunan aktivitas penghimpunan dana melalui pasar modal. bank **bjb** juga mencatat pembayaran dividen sebesar Rp897 miliar, yang mencerminkan komitmen dalam memberikan imbal hasil kepada pemegang saham, sejalan dengan kinerja laba tahun berjalan.

Cash Flows from Financing Activities

Cash flows from financing activities in 2025 recorded net cash inflows of IDR646 billion, decreasing compared to IDR2.70 trillion in 2024. The decrease reflects bank **bjb**'s strategy to reduce reliance on external funding and optimize its liability structure.

From the inflow side, cash receipts were primarily derived from borrowings amounting to IDR8.28 trillion, although lower than the previous year. This was accompanied by lower repayment of borrowings amounting to IDR6.93 trillion, indicating more measured liability management. In addition, proceeds from the issuance of debt securities amounted to only IDR300 billion, declining significantly compared to the previous year, indicating reduced activity in raising funds through the capital market. bank **bjb** also recorded dividend payments amounting to IDR897 billion, reflecting its commitment to providing returns to shareholders in line with income for the year.

Secara keseluruhan, aktivitas pendanaan menunjukkan adanya pergeseran strategi ke arah pendanaan yang lebih efisien dan berkelanjutan, dengan fokus pada penguatan dana pihak ketiga dan pengurangan sumber dana berbiaya tinggi. Hal ini konsisten dengan pergerakan pada neraca, khususnya pada penurunan pinjaman yang diterima dan stabilisasi instrumen pendanaan lainnya.

Overall, financing activities reflect a shift toward more efficient and sustainable funding strategies, with a focus on strengthening third-party funds and reducing reliance on higher-cost funding sources. This is consistent with movements in the statement of financial position, particularly the decrease in borrowings and the stabilization of other funding instruments.

Kemampuan Membayar Utang dan Kolektibilitas Piutang

Kemampuan Membayar Utang

Kemampuan membayar utang tercermin dari likuiditas dan solvabilitas bank **bjb**. Berkenaan dengan obligasi yang diterbitkan, kemampuan membayar utang tercermin dari lancarnya pembayaran bunga dan pemeringkatan obligasi.

Perlindungan Hak Kreditur

bank **bjb** memiliki kebijakan tentang pemenuhan hak-hak kreditur yang tertuang dalam Standar Operasional Prosedur (SOP) Asset & Liability Management Nomor 0358/SK/DIR-TRE/2023 tanggal 29 September 2023 dan Surat Keputusan Nomor 0013/SK/ITB-BSU/2023 tanggal 27 Juni 2023 Tentang Petunjuk Teknis *Term Loan* (*Borrowing*) yang digunakan sebagai pedoman dalam melakukan pinjaman kepada kreditur. Tujuan dari kebijakan dimaksud adalah untuk menjaga terpenuhinya

Ability to Pay Debt and Collectibility of Receivables

Ability to Pay Debt

The ability to pay debts is reflected in the Bank's liquidity and solvency. With regard to bonds issued, the ability to repay debt is reflected in the smooth payment of interest expenses and the bond rating.

Protection of Creditors' Rights

bjb has a policy on fulfilling creditor rights, as outlined in the Asset & Liability Management Standard Operating Procedure (SOP) Number 0358/SK/DIRTRE/2023 dated September 29, 2023, and Decree Number 0013/SK/ITB-BSU/2023 dated June 27, 2023, regarding Technical Guidelines for Term Loans (Borrowing), which serve as a reference for lending to creditors. The purpose of this policy is to ensure the fulfillment of creditor rights and maintain creditor trust in **bjb**. The policy includes

hak-hak dan menjaga kepercayaan kreditur terhadap bank **bjb**. Dalam kebijakan tersebut mencakup pertimbangan dalam melakukan perjanjian, serta tindak lanjut dalam pemenuhan kewajiban bank **bjb** kepada kreditur. Kebijakan hak-hak dasar kreditur, antara lain adalah menerima pelunasan pokok dan pembayaran bunga pada waktu yang disepakati, memperoleh hak atas denda keterlambatan pelunasan pokok dan pembayaran bunga serta meminta keterangan, informasi, dan dokumen.

considerations for entering agreements and follow-up actions in meeting **bjb**'s obligations to creditors. Basic creditor rights include receiving principal and interest repayments on the agreed schedule, entitlement to penalties for late repayment of principal and interest, and the right to request information, explanations, and relevant documents.

Kemampuan Membayar Utang Jangka Pendek (Likuiditas Bank)

Pada tahun 2025, rasio kredit terhadap dana pihak ketiga atau *Loan to Deposit Ratio* (LDR) sebesar 88,13% (*bank only*), mengalami penurunan dibandingkan tahun 2024 yang sebesar 89,49% (*bank only*). Hal ini menunjukkan bahwa likuiditas bank **bjb** relatif lebih longgar dibandingkan tahun sebelumnya, seiring dengan pertumbuhan dana pihak ketiga yang lebih tinggi dibandingkan penyaluran kredit.

Ability to Pay Short Term Debt (Bank Liquidity)

In 2025, the Loan to Deposit Ratio (LDR) stood at 88.13% (bank only), decreasing compared to 89.49% (bank only) in 2024. This indicates that bank **bjb**'s liquidity position was relatively more accommodative compared to the previous year, in line with higher growth in third-party funds relative to loan disbursement.

Kemampuan Membayar Utang Jangka Panjang (Solvabilitas Bank)

bank **bjb** mengukur solvabilitas melalui rasio permodalan bank. bank **bjb** memastikan kecukupan modal bank untuk dapat memenuhi risiko kredit, risiko pasar dan risiko operasional yang tercermin dari Rasio Kecukupan Modal (*Capital Adequacy Ratio*/CAR). CAR adalah rasio modal terhadap aset tertimbang menurut risiko (*Risk Weighted Assets*/RWA).

Pada tahun 2025, *Capital Adequacy Ratio* (CAR) bank **bjb** mencapai 21,20% (*bank only*), meningkat dibandingkan tahun 2024 sebesar 19,70% (*bank only*). Rasio ini berada jauh di atas ketentuan minimum yang ditetapkan regulator sebesar 14%. Dengan posisi CAR yang meningkat tersebut, struktur permodalan bank **bjb** menunjukkan kondisi yang semakin kuat, serta memiliki kapasitas yang memadai untuk mengantisipasi risiko kredit, risiko pasar, dan risiko operasional. Hal ini mencerminkan bahwa bank **bjb** telah mengelola permodalan secara prudent dan memiliki ketahanan yang baik dalam mendukung ekspansi bisnis serta menjaga stabilitas solvabilitas.

Ability to Pay Long Term Debt (Bank Solvency)

bank **bjb** measures solvency through its capital adequacy ratio. The Bank ensures sufficient capital to cover credit risk, market risk, and operational risk, as reflected in the Capital Adequacy Ratio (CAR). CAR represents the ratio of capital to Risk Weighted Assets (RWA).

In 2025, bank **bjb**'s Capital Adequacy Ratio (CAR) reached 21.20% (bank only), increasing compared to 19.70% (bank only) in 2024. This ratio is well above the minimum regulatory requirement of 14%. With the improved CAR position, bank **bjb**'s capital structure demonstrates increasing strength and adequate capacity to absorb credit risk, market risk, and operational risk. This reflects bank **bjb**'s prudent capital management and its resilience in supporting business expansion while maintaining solvency stability.

Kemampuan Membayar Utang Dari Efek-Efek yang Diterbitkan

Kemampuan membayar utang juga dapat tercermin berdasarkan peringkat dari efek-efek yang diterbitkan bank **bjb** yaitu obligasi. Efek-efek yang diterbitkan secara rutin dinilai oleh lembaga pemeringkatan guna mendukung kelayakan efek. Kualitas efek sangat ditentukan oleh kemampuan perusahaan penerbit efek dalam membayar efek nya pada saat jatuh tempo dan kemampuannya membayar bunga atau kupon selama jangka waktu penerbitan efek tersebut.

Ability to Pay Debt From Securities Issued

The ability to meet debt obligations can also be reflected through the ratings of securities issued by bank **bjb**, namely bonds. These securities are regularly assessed by rating agencies to support their creditworthiness. The quality of such securities is largely determined by the issuer's ability to repay principal at maturity and to meet interest or coupon payments throughout the term of issuance.

Pefindo *Rating*	idAA	Obligor dengan peringkat idAA memiliki kapasitas yang sangat kuat untuk memenuhi komitmen keuangan jangka panjangnya. Obligor rated idAA have a very strong capacity to meet its long-term financial commitments.
	idA	Obligor dengan peringkat idA memiliki kapasitas yang kuat untuk membayar kewajiban/utang jangka panjang dibandingkan dengan obligor Indonesia yang lain. Obligor dalam *rating* ini lebih rentan terhadap perubahan kondisi ekonomi dibanding obligor dengan *rating* idAAA dan idAA. Obligors with idA rating have a strong capacity to pay long-term obligations/debts compared to other Indonesian obligors. Obligors in this rating are more vulnerable to changes in economic conditions than obligors with a rating idAAA and idAA
Tanda tambah (+) Plus sign (+)		Pada peringkat tertentu menunjukkan bahwa peringkat tersebut relatif kuat dalam masing-masing kategori peringkat. A certain ranking indicates that the ranking is relatively strong in each ranking category.
Tanda minus (-) Minus sign (-)		Pada peringkat tertentu menunjukkan bahwa peringkat tersebut relatif lemah dalam masing-masing kategori peringkat. A certain ranking indicates that the ranking is relatively weak in each ranking category.

Kolektibilitas Piutang

Secara umum, kolektibilitas piutang bank **bjb** tetap terjaga dengan baik. Rasio *Non-Performing Loan* (NPL) tercatat mengalami peningkatan, dengan NPL *Gross* menjadi 2,91% dari 2,22% dan NPL *Nett* menjadi 1,29% dari 1,00%. Kenaikan tersebut antara lain dipengaruhi oleh penyesuaian kualitas kredit secara lebih *prudent* serta dinamika kondisi usaha debitur pada beberapa segmen. Peningkatan rasio NPL tersebut berdampak pada kenaikan pembentukan cadangan kerugian penurunan nilai, yang merupakan langkah antisipatif dan mencerminkan komitmen bank **bjb** dalam menerapkan prinsip kehati-hatian *(prudential banking)*.

Collectibility of Receivables

In general, the collectability of receivables of bank **bjb** remained well maintained. The Non-Performing Loan (NPL) ratio recorded an increase, with Gross NPL rising to 2.91% from 2.22% and Net NPL increasing to 1.29% from 1.00%. The increase was attributable, among others, to more prudent credit quality adjustments as well as the evolving business conditions of debtors across several segments. The rise in the NPL ratio also led to an increase in the allowance for impairment losses, representing a precautionary measure and reflecting bank **bjb**'s commitment to implementing prudential banking principles.

Kredit segmen konvensional pada tahun 2025 tercatat sebesar Rp128,79 triliun, menurun dibandingkan tahun 2024 sebesar Rp135,66 triliun. Penurunan ini terutama berasal dari kredit kolektif lancar yang turun sebesar Rp8,71 triliun, meskipun sebagian diimbangi oleh peningkatan pada kredit dalam perhatian khusus baik pada segmen individual maupun kolektif. Dari sisi kualitas aset, peningkatan terlihat pada kategori macet, baik pada segmen individual maupun kolektif, yang masing-masing naik sebesar Rp50,38 miliar dan Rp563,06 miliar.

Selain itu, kredit diragukan pada segmen individual juga meningkat signifikan. Pergerakan ini menunjukkan adanya tekanan pada kualitas portofolio kredit konvensional selama tahun berjalan. Sejalan dengan perkembangan tersebut, cadangan kerugian penurunan nilai meningkat menjadi Rp3,41 triliun dari Rp2,53 triliun, atau naik Rp880,97 miliar. Peningkatan cadangan ini mencerminkan langkah kehati-hatian bank **bjb** dalam memperkuat pencadangan atas risiko penurunan kualitas kredit.

Conventional loan segment as of December 31, 2025 was recorded at IDR128.79 trillion, decreasing compared to IDR135.66 trillion as of December 31, 2024. The decrease was primarily driven by a decline in current collective loans amounting to IDR8.71 trillion, although partly offset by an increase in special mention loans in both individual and collective segments. From an asset quality perspective, increases were observed in the loss category, both in individual and collective segments, amounting to IDR50.38 billion and IDR563.06 billion, respectively.

In addition, doubtful loans in the individual segment also increased significantly. This movement indicates pressure on the quality of the conventional loan portfolio during the year. In line with these developments, allowance for impairment losses increased to IDR3.41 trillion from IDR2.53 trillion, or by IDR880.97 billion. The increase in provisioning reflects bank **bjb**'s prudent approach in strengthening reserves against potential deterioration in loan quality.

Kredit non performing pada tahun 2025 tercatat sebesar Rp3,59 triliun, meningkat dibandingkan tahun 2024 sebesar Rp2,93 triliun. Peningkatan ini terutama berasal dari sektor lain-lain sebesar Rp346,73 miliar, perdagangan sebesar Rp185,62 miliar, dan pertanian sebesar Rp128,24 miliar. Di sisi lain, penurunan kredit non performing terjadi pada beberapa sektor, antara lain konstruksi, pertambangan, dan jasa-jasa sosial. Meskipun demikian, secara keseluruhan tekanan kualitas kredit masih terlihat pada beberapa sektor utama, khususnya perdagangan, industri, dan lain-lain, yang juga menjadi kontributor terbesar terhadap total kredit *non performing*.

Non-performing loans as of December 31, 2025 were recorded at IDR3.59 trillion, increasing compared to IDR2.93 trillion as of December 31, 2024. The increase was primarily driven by the “others” sector amounting to IDR346.73 billion, trade amounting to IDR185.62 billion, and agriculture amounting to IDR128.24 billion. On the other hand, decreases in non-performing loans were recorded in several sectors, including construction, mining, and social services. Nevertheless, overall credit quality pressure remained evident in several key sectors, particularly trade, industry, and others, which also represent the largest contributors to total non-performing loans..

Sejalan dengan peningkatan tersebut, cadangan kerugian penurunan nilai juga meningkat menjadi Rp2,02 triliun dari Rp1,63 triliun, atau naik Rp392,70 miliar. Peningkatan cadangan ini terutama terjadi pada sektor perdagangan, lain-lain, dan pertanian, yang mencerminkan langkah kehati-hatian bank **bjb** dalam menjaga kecukupan pencadangan atas risiko penurunan kualitas kredit. Secara keseluruhan, perkembangan ini menunjukkan bahwa bank **bjb** terus memperkuat pencadangan sejalan dengan dinamika kualitas aset pada sejumlah sektor ekonomi.

Pembiayaan syariah pada tahun 2025 tercatat sebesar Rp11,88 triliun secara bruto, meningkat dibandingkan tahun 2024 sebesar Rp10,73 triliun. Setelah dikurangi cadangan kerugian penurunan nilai sebesar Rp248,88 miliar, pembiayaan syariah – neto tercatat sebesar Rp11,67 triliun, meningkat dari Rp10,51 triliun pada tahun sebelumnya. Komposisi pembiayaan syariah masih didominasi oleh kategori lancar, yaitu sebesar Rp11,00 triliun atau sekitar 93% dari total pembiayaan bruto, meningkat dari Rp10,07 triliun pada tahun 2024. Hal ini menunjukkan bahwa secara umum kualitas portofolio pembiayaan syariah melalui entitas anak masih tetap terjaga.

Dari sisi jenis pembiayaan, peningkatan terutama berasal dari pembiayaan konsumsi, yang mencapai Rp7,84 triliun, diikuti oleh pembiayaan investasi sebesar Rp2,09 triliun dan modal kerja sebesar Rp1,95 triliun. Di sisi lain, terdapat peningkatan pada kategori dalam perhatian khusus, kurang lancar, dan diragukan, sementara pembiayaan macet relatif stabil.

Sejalan dengan perkembangan tersebut, cadangan kerugian penurunan nilai juga meningkat menjadi Rp248,88 miliar dari Rp237,89 miliar, yang mencerminkan penerapan prinsip kehati-hatian dalam pengelolaan risiko pembiayaan syariah. Secara keseluruhan, pergerakan ini menunjukkan bahwa pertumbuhan pembiayaan syariah tetap terjaga, dengan kualitas portofolio yang masih didominasi pembiayaan lancar dan didukung oleh pencadangan yang memadai.

In line with this increase, allowance for impairment losses also rose to IDR2.02 trillion from IDR1.63 trillion, or by IDR392.70 billion. The increase in provisioning was mainly observed in the trade, others, and agriculture sectors, reflecting bank **bjb**'s prudent approach in maintaining adequate reserves against potential deterioration in credit quality. Overall, this development indicates that bank **bjb** continues to strengthen provisioning in line with asset quality dynamics across several economic sectors.

Sharia financing as of December 31, 2025 was recorded at IDR11.88 trillion on a gross basis, increasing compared to IDR10.73 trillion as of December 31, 2024. After deducting allowance for impairment losses amounting to IDR248.88 billion, sharia financing – net was recorded at IDR11.67 trillion, increasing from IDR10.51 trillion in the previous year. The composition of sharia financing remained dominated by the current category, amounting to IDR11.00 trillion or approximately 93% of total gross financing, increasing from IDR10.07 trillion in 2024. This indicates that, overall, the quality of the sharia financing portfolio through subsidiaries remained well maintained.

In terms of financing type, the increase was primarily driven by consumer financing, which reached IDR7.84 trillion, followed by investment financing amounting to IDR2.09 trillion and working capital financing amounting to IDR1.95 trillion. On the other hand, there were increases in the special mention, substandard, and doubtful categories, while non-performing financing remained relatively stable.

In line with these developments, allowance for impairment losses also increased to IDR248.88 billion from IDR237.89 billion, reflecting the application of prudent principles in managing sharia financing risk. Overall, this movement indicates that sharia financing growth remained sustained, with portfolio quality still dominated by current financing and supported by adequate provisioning.

Pembiayaan syariah *non performing* pada tahun 2025 tercatat sebesar Rp411,80 miliar, meningkat dibandingkan tahun 2024 sebesar Rp356,38 miliar. Peningkatan ini terutama berasal dari sektor lain-lain sebesar Rp61,58 miliar, konstruksi sebesar Rp26,70 miliar, dan perdagangan sebesar Rp20,08 miliar. Selain itu, pembiayaan non performing pada sektor pengangkutan dan pergudangan juga mulai tercatat pada tahun 2025. Di sisi lain, penurunan terjadi pada beberapa sektor, terutama jasa dunia usaha, serta dalam skala yang lebih terbatas pada sektor pertanian, pertambangan, dan industri. Meskipun demikian, secara keseluruhan kualitas pembiayaan syariah masih menunjukkan tekanan pada beberapa sektor utama, khususnya lain-lain dan konstruksi, yang menjadi kontributor terbesar terhadap total pembiayaan non performing.

Sejalan dengan perkembangan tersebut, cadangan kerugian penurunan nilai atas pembiayaan syariah non performing meningkat menjadi Rp195,89 miliar dari Rp189,44 miliar. Peningkatan cadangan ini terutama terjadi pada sektor lain-lain, konstruksi, dan perdagangan, yang mencerminkan langkah kehati-hatian dalam menjaga kecukupan pencadangan atas risiko penurunan kualitas pembiayaan. Secara keseluruhan, pergerakan ini menunjukkan bahwa pertumbuhan pembiayaan syariah tetap disertai dengan penguatan pencadangan pada sektor-sektor yang mengalami peningkatan risiko.

Non-performing sharia financing as of December 31, 2025 was recorded at IDR411.80 billion, increasing compared to IDR356.38 billion as of December 31, 2024. The increase was primarily driven by the “others” sector amounting to IDR61.58 billion, construction amounting to IDR26.70 billion, and trade amounting to IDR20.08 billion. In addition, non-performing financing in the transportation and warehousing sector was newly recorded in 2025. On the other hand, decreases were observed in several sectors, particularly business services, as well as to a lesser extent in agriculture, mining, and industry. Nevertheless, overall sharia financing quality continued to show pressure in several key sectors, particularly others and construction, which represent the largest contributors to total non-performing financing

.

In line with these developments, allowance for impairment losses on non-performing sharia financing increased to IDR195.89 billion from IDR189.44 billion. The increase in provisioning was mainly observed in the others, construction, and trade sectors, reflecting a prudent approach in maintaining adequate reserves against potential deterioration in financing quality. Overall, this movement indicates that growth in sharia financing was accompanied by strengthened provisioning in sectors experiencing increased risk.

Rasio Keuangan Penting

Rasio keuangan penting bank **bjb** pada tahun 2025 menunjukkan beberapa dinamika, khususnya pada aspek profitabilitas dan kualitas aset. ROA menurun menjadi 0,70% dari 0,86% dan ROE menjadi 7,32% dari 9,57%, sejalan dengan peningkatan beban operasional serta beban pencadangan (CKPN) yang tercermin dari kenaikan rasio CKPN menjadi 1,98% dari 1,42%.

Di sisi lain, kualitas aset mengalami tekanan yang tercermin dari peningkatan NPL *Gross* menjadi 2,91% dari 2,22% dan NPL *Nett* menjadi 1,29% dari 1,00%, yang berdampak pada peningkatan pembentukan cadangan dan turut menekan profitabilitas bank **bjb**.

Namun demikian, bank **bjb** masih mampu menjaga *Net Interest Margin* (NIM) tetap stabil di 3,84%, menunjukkan kemampuan dalam mengelola margin bunga di tengah tekanan biaya dana. Selain itu, rasio efisiensi BOPO meningkat menjadi 92,18% dari 90,20%, yang mencerminkan peningkatan beban operasional terhadap pendapatan.

Important Financial Ratio

Key financial ratios of bank **bjb** in 2025 reflected several dynamics, particularly in profitability and asset quality. Return on Assets (ROA) decreased to 0.70% from 0.86%, and Return on Equity (ROE) declined to 7.32% from 9.57%, in line with higher operating expenses and provisioning costs, as reflected in the increase in the allowance for impairment losses (CKPN) ratio to 1.98% from 1.42%.

On the other hand, asset quality showed signs of pressure, as indicated by the increase in Gross Non-Performing Loans (NPL) to 2.91% from 2.22% and Net NPL to 1.29% from 1.00%, which led to higher provisioning and exerted pressure on bank **bjb**’s profitability.

Nevertheless, bank **bjb** was able to maintain a stable Net Interest Margin (NIM) at 3.84%, reflecting its ability to manage interest margins amid cost of funds pressures. In addition, the efficiency ratio (BOPO) increased to 92.18% from 90.20%, indicating higher operating expenses relative to operating income.

Dari sisi likuiditas, LDR menurun menjadi 88,13% dari 89,49%, yang menunjukkan kondisi likuiditas yang relatif lebih longgar. Sementara itu, dari sisi permodalan, KPMM (CAR) meningkat menjadi 21,20% dari 19,70%, mencerminkan penguatan struktur permodalan bank **bjb**.

From a liquidity perspective, the Loan to Deposit Ratio (LDR) decreased to 88.13% from 89.49%, indicating relatively more accommodative liquidity conditions. Meanwhile, from a capital perspective, the Capital Adequacy Ratio (CAR) increased to 21.20% from 19.70%, reflecting a strengthening capital structure of bank **bjb**.

Suku Bunga Dasar Kredit

Suku Bunga Dasar Kredit (SBDK) digunakan sebagai dasar penetapan suku bunga kredit yang akan dikenakan oleh Bank Umum Konvensional (BUK) kepada nasabah. SBDK ditentukan BUK berdasarkan berbagai faktor, diantaranya suku bunga acuan yang ditetapkan oleh otoritas yang berwenang, harga pokok dana untuk kredit (*cost of fund*), biaya *overhead*, margin keuntungan, dan perkembangan kondisi ekonomi.

SBDK belum memperhitungkan komponen estimasi premi risiko yang besarnya tergantung dari penilaian BUK terhadap risiko untuk masing-masing debitur atau kelompok debitur. Besarnya suku bunga kredit yang dikenakan kepada debitur belum tentu sama dengan SBDK. Informasi SBDK yang berlaku setiap saat dapat dilihat pada publikasi di setiap kantor bank **bjb** dan/atau *website* bank **bjb** (www.bank**bjb**.co.id). Tingkat suku bunga yang disajikan adalah efektif p.a.

Prime Lending Rate

The Prime Lending Rate (PLR) serves as the basis for determining lending interest rates applied by Conventional Commercial Banks (BUK) to customers. The PLR is determined by BUK based on various factors, including the benchmark interest rate set by the relevant authority, cost of funds for lending, overhead costs, profit margin, and prevailing economic conditions.

The PLR does not include the estimated risk premium component, the amount of which depends on the bank's assessment of the risk associated with each debtor or group of debtors. The lending interest rate applied to a debtor may differ from the PLR. Information on the prevailing PLR can be obtained from publications at all bank **bjb** offices and/or through the bank **bjb** website (www.bank**bjb**.co.id). The interest rates presented are on an effective per annum (p.a.) basis.

Struktur Permodalan

Kebijakan Manajemen dan Dasar Pemilihan Kebijakan Manajemen atas Struktur Modal

Kebijakan terhadap struktur modal yaitu cadangan dari laba yaitu sebesar 55% dan direncanakan melalui *right issue*, penerbitan obligasi subordinasi dan penyisihan laba tahun lalu. Beberapa perkembangan peraturan yang signifikan mempengaruhi kondisi operasional dan bisnis bank **bjb** ke depan antara lain tercermin dari terbitnya Peraturan Otoritas Jasa Keuangan Nomor 12/POJK.03/2021 tentang Bank Umum. Berdasarkan POJK tersebut bank **bjb** yang sebelumnya dalam kategori Bank Umum berdasarkan Kegiatan Usaha (BUKU) III menjadi Kelompok Bank Berdasarkan Modal Inti (KBMI) 2 (Bank dengan Modal Inti lebih dari Rp6 triliun sampai dengan Rp14 triliun). Masuknya modal inti bank **bjb** dalam kategori KBMI 2 membuat kegiatan usaha yang dapat dilakukan oleh bank **bjb** menjadi lebih luas, serta dapat meningkatkan kepercayaan nasabah dalam melakukan aktivitas kegiatan perbankannya melalui bank **bjb**.

Capital Structure

Management Policy and Basis for Selecting Management Policy on Capital Structure

The policy on capital structure is a profit reserve of 55% and is planned through a rights issue , the issuance of Subordinated Bonds and an allowance for last year's profits. Several significant regulatory developments affect future operational and business conditions of bank **bjb**, among others reflected in the issuance of Financial Services Authority Regulation Number 12/POJK.03/2021 concerning Commercial Banks. Based on OJK regulation This is bank **bjb** which was previously in the Commercial Bank category based on Business Activities (BUKU) III, it becomes a Bank Group Based on Core Capital (KBMI) 2 (Banks with more Core Capital from IDR6 trillion to IDR14 trillion). Entry of core capital bank **bjb** in the KBMI 2 category makes the business activities that can be carried out by bank **bjb** wider, and can increase customer confidence in carrying out activities banking activities through bank **bjb**.

Per akhir Desember 2025, modal inti bank **bjb** (*audited*) mencapai Rp14,89 triliun dan berada pada kategori KBMI 2 membuat kegiatan usaha yang dapat dilakukan oleh bank **bjb** menjadi lebih luas, serta dapat meningkatkan kepercayaan nasabah dalam melakukan aktivitas kegiatan perbankannya melalui bank **bjb**. Strategi permodalan yang efektif, kuat dan efisien telah menjadi fokus manajemen seiring dengan terus bertumbuhnya bank **bjb** menjadi bank yang semakin besar dan semakin kuat.

Komponen permodalan bank **bjb** didominasi oleh komponen permodalan yang bersifat permanen, dimana komponen modal inti merupakan komponen terbesar dalam struktur permodalan bank **bjb**. Pada posisi bulan Desember 2025, rasio modal inti bank **bjb** baik secara individual dan konsolidasi terhadap total ATMR bank **bjb** mencapai 17,45% dan 16,16%. Rasio tersebut berada diatas ketentuan yang ditetapkan oleh bank Indonesia dengan batasan minimum yaitu 6% baik secara individual maupun konsolidasi. Perhitungan rasio modal inti utama (*Common Equity Tier 1 Ratio*) terhadap total ATMR bank **bjb** baik secara individual dan konsolidasi di bulan Desember 2025 mencapai 16,28% dan 15,21% berada di atas ketentuan yang telah ditetapkan Bank Indonesia dengan batasan minimum yaitu 4,50%.

Kecukupan Permodalan

Sebagai salah satu pengungkapan Basel II Pilar III, Otoritas Jasa Keuangan telah menerbitkan Surat Edaran Otoritas Jasa Keuangan Nomor 26/SEOJK.03/2016 tanggal 14 Juli 2016 perihal Kewajiban Penyediaan Modal Minimum sesuai Profil Risiko dan Pemenuhan *Capital Equivalency Maintained Assets* (CEMA). Sehubungan hal tersebut, bank telah mengembangkan dan menerapkan metodologi untuk penerapan Internal *Capital Adequacy Assessment Process* (ICAAP) dimana metodologi tersebut telah dibahas dan disetujui dalam Komite Manajemen Risiko bank **bjb**. Dewan Komisaris dan Direksi senantiasa melakukan telaah atas kebijakan struktur modal Perseroan agar sejalan dengan strategi yang telah ditetapkan dan *risk appetite* bank **bjb**. Laporan rasio kecukupan penyediaan modal minimum sesuai Profil Risiko dilaporkan secara berkala kepada Dewan Komisaris dan Direksi sebagai salah satu bentuk kepatuhan terhadap ketentuan Surat Edaran Otoritas Jasa Keuangan tersebut.

Pengukuran internal yang dilakukan bank telah memperhitungkan Pilar I dan Pilar II yaitu rasio kecukupan modal bank minimum sesuai profil risiko baik secara individual maupun konsolidasi di bulan Desember 2025 mencapai 9,21% dimana hasil pengukuran profil risiko bank pada periode tersebut berada pada level peringkat komposit *Low to Moderate*. Pada posisi bulan Desember 2025, rasio kecukupan modal minimum bank baik secara individual sebesar 9,21% serta konsolidasi sebesar 9,21%

As of December 31, 2025, bank **bjb**'s core capital (audited) amounted to IDR14.89 trillion and was classified under KBMI 2, enabling bank **bjb** to expand the scope of its business activities and enhance customer confidence in conducting banking transactions through bank **bjb**. An effective, strong, and efficient capital strategy has remained a key focus of management in line with bank **bjb**'s continued growth into a larger and more resilient bank.

The capital structure of bank **bjb** is predominantly composed of permanent capital components, with core capital representing the largest portion. As of December 31, 2025, the core capital ratio of bank **bjb**, both on an individual and consolidated basis, to total risk-weighted assets (RWA) stood at 17.45% and 16.16%, respectively. These ratios were above the minimum requirement set by Bank Indonesia of 6% for both individual and consolidated levels. Furthermore, the Common Equity Tier 1 (CET1) ratio to total RWA of bank **bjb**, both individually and on a consolidated basis as of December 2025, reached 16.28% and 15.21%, respectively, exceeding the minimum regulatory requirement of 4.50% as stipulated by Bank Indonesia.

Adequacy of Capital

As part of Basel II Pillar III disclosures, the Financial Services Authority has issued Circular Letter of the Financial Services Authority Number 26/SEOJK.03/2016 dated July 14, 2016 concerning the Minimum Capital Adequacy Requirement based on Risk Profile and the Fulfillment of Capital Equivalency Maintained Assets (CEMA). In relation thereto, the Bank has developed and implemented a methodology for the Internal Capital Adequacy Assessment Process (ICAAP), which has been reviewed and approved by the Risk Management Committee of bank **bjb**. The Board of Commissioners and the Board of Directors continuously review the Company's capital structure policy to ensure alignment with the established strategy and the risk appetite of bank **bjb**. The report on the minimum capital adequacy ratio based on the Bank's risk profile is submitted periodically to the Board of Commissioners and the Board of Directors as part of compliance with the aforementioned Circular Letter of the Financial Services Authority.

The Bank's internal assessment has incorporated both Pillar I and Pillar II, whereby the minimum capital adequacy ratio based on the risk profile, both on an individual and consolidated basis as of December 2025, reached 9.21%. The Bank's risk profile assessment during the period was rated at a composite level of Low to Moderate. As of December 2025, the Bank's minimum capital adequacy ratio stood at 9.21% on both an individual and consolidated basis.

Sejalan telah diterbitkannya POJK Nomor 11/POJK.03/2016 tanggal 29 Januari 2016 perihal Kewajiban Penyediaan Modal Minimum bank Umum, saat ini bank telah mempersiapkan infrastruktur yang baik dan efektif dalam rangka memastikan implementasi POJK tersebut tidak mengganggu ekspansi bisnis dan aktivitas operasional bank **bjb**. Sesuai POJK tersebut, bank harus menyediakan rasio kecukupan modal minimum sesuai profil risiko bank ditambah dengan *Capital Conservation Buffer*, *Countercylical Buffer* dan *Capital Surcharge* untuk D-SIB *(Domestic Systemically Important Bank)*. *Capital Conservation Buffer* tersebut diperlukan oleh bank sebagai upaya penyangga *(buffer)* dalam menghadapi kerugian akibat kondisi krisis, sedangkan *Countercylical Buffer* dibutuhkan bank sebagai tambahan modal penyangga untuk mengantisipasi kerugian apabila terjadi pertumbuhan kredit perbankan yang berlebihan sehingga berpotensi mengganggu stabilitas sistem keuangan.

Following the issuance of Financial Services Authority Regulation Number 11/POJK.03/2016 dated January 29, 2016 concerning the Minimum Capital Adequacy Requirement for Commercial Banks, the Bank has established adequate and effective infrastructure to ensure that the implementation of such regulation does not hinder the expansion of business activities and operational performance of bank **bjb**. In accordance with the regulation, the Bank is required to maintain a minimum capital adequacy ratio based on its risk profile, supplemented by a Capital Conservation Buffer, Countercyclical Buffer, and Capital Surcharge for Domestic Systemically Important Banks (D-SIB). The Capital Conservation Buffer serves as a buffer to absorb potential losses during periods of financial stress, while the Countercyclical Buffer provides additional capital to mitigate potential losses arising from excessive credit growth that may disrupt financial system stability.

bank **bjb** selalu melakukan perbaikan dan pengembangan baik dari segi produk dan jasa serta peningkatan infrastruktur manajemen risiko bank melalui analisis yang komprehensif disertai dengan riset yang memadai sehingga dapat menjaga agar aktivitas bisnis dan operasional bank tetap *prudent* dan berada dalam batas toleransi risiko bank. Selain itu pula, bank telah menetapkan *risk appetite* dan *risk tolerance* agar kecukupan permodalan yang dimiliki bank masih memadai dan mampu meng-*cover* kerugian ataupun potensi risiko kerugian yang timbul dari aktivitas operasional bank **bjb**.

bank **bjb** continuously enhances and develops its products and services, as well as strengthens its risk management infrastructure through comprehensive analysis supported by adequate research, to ensure that its business and operational activities remain prudent and within the Bank's defined risk tolerance. In addition, the Bank has established risk appetite and risk tolerance frameworks to ensure that its capital adequacy remains sufficient to absorb losses or potential losses arising from its operational activities.

Pengelolaan modal risiko kredit bank **bjb** berpedoman pada Surat Edaran Otoritas Jasa Keuangan nomor 42/SEOJK.03/2016 tanggal 28 September 2016 perihal Pedoman Perhitungan Aset Tertimbang Menurut Risiko untuk Risiko Kredit dengan Menggunakan Pendekatan Standar. Penetapan bobot risiko pada perhitungan ATMR mengacu kepada bobot risiko sesuai ketentuan Otoritas Jasa Keuangan dimaksud.

The management of credit risk capital at bank **bjb** refers to Circular Letter of the Financial Services Authority Number 42/SEOJK.03/2016 dated September 28, 2016 concerning Guidelines for the Calculation of Risk-Weighted Assets for Credit Risk using the Standardized Approach. The determination of risk weights in the calculation of Risk-Weighted Assets (RWA) is conducted in accordance with the applicable regulations of the Financial Services Authority.

Dalam mengukur ATMR Risiko Pasar, bank mempergunakan format *standardized approach* dengan berpedoman pada Surat Edaran Otoritas Jasa Keuangan nomor 23/SEOJK.03/2022 tanggal 7 Desember 2022 tentang Perhitungan Aset Tertimbang Menurut Risiko Untuk Risiko Pasar Bagi Bank Umum.

In measuring RWA for market risk, the Bank applies the standardized approach in accordance with Circular Letter of the Financial Services Authority Number 23/SEOJK.03/2022 dated December 7, 2022 concerning the Calculation of Risk-Weighted Assets for Market Risk for Commercial Banks.

Perhitungan kecukupan modal risiko operasional masih menggunakan metode pendekatan standar yang dilakukan sesuai dengan Surat Edaran Otoritas Jasa Keuangan nomor 6/SEOJK.03/2020 tanggal 29 April 2020 tentang Perhitungan Aset Tertimbang Menurut Risiko Untuk Risiko Operasional dengan Menggunakan Pendekatan Standar Bagi Bank Umum. Berdasarkan metode tersebut, Perusahaan mengalokasikan modal minimum untuk risiko operasional berdasarkan hasil perkalian antara Komponen Indikator Bisnis (KIB) dan Faktor Pengali Kerugian Intern (FPKI). Perhitungan kecukupan modal risiko operasional tersebut menjadi dasar dalam perhitungan ATMR Risiko Operasional.

The calculation of capital adequacy for operational risk continues to apply the standardized approach in accordance with Circular Letter of the Financial Services Authority Number 6/SEOJK.03/2020 dated April 29, 2020 concerning the Calculation of Risk-Weighted Assets for Operational Risk using the Standardized Approach for Commercial Banks. Based on this approach, the Bank allocates minimum capital for operational risk by multiplying the Business Indicator Component (BIC) with the Internal Loss Multiplier (ILM). The calculation of capital adequacy for operational risk serves as the basis for determining RWA for operational risk.

Rincian Struktur Modal

Sesuai dengan Peraturan OJK, Struktur permodalan Bank terdiri dari Modal Inti (*Tier* 1) dan Modal Pelengkap (*Tier* 2).

Capital Structure Details

In accordance with OJK Regulations, the Bank's capital structure consists of Core Capital (Tier 1) and Supplementary Capital (Tier 2).

Struktur permodalan bank **bjb** pada tahun 2025 menunjukkan penguatan yang tercermin dari peningkatan total modal inti dan modal pelengkap menjadi Rp18,08 triliun dari Rp17,70 triliun pada tahun 2024. Secara konsolidasian, total modal juga meningkat menjadi Rp20,65 triliun dari Rp20,18 triliun. Penguatan tersebut terutama didorong oleh peningkatan modal inti (*Tier* 1), khususnya Modal Inti Utama (CET1), yang naik menjadi Rp13,89 triliun pada level Bank dan Rp15,94 triliun secara konsolidasian. Sementara itu, modal inti tambahan (AT1) relatif stabil, sedangkan modal pelengkap (Tier 2) menurun dibandingkan tahun sebelumnya.

Di sisi lain, Aset Tertimbang Menurut Risiko (ATMR) menurun menjadi Rp85,30 triliun pada level Bank dari Rp89,84 triliun, dan secara konsolidasian turun menjadi Rp104,82 triliun dari Rp107,84 triliun. Penurunan ini terutama berasal dari penurunan ATMR risiko kredit, meskipun ATMR untuk risiko operasional dan risiko pasar mengalami peningkatan. Sejalan dengan perkembangan tersebut, rasio permodalan bank **bjb** menunjukkan perbaikan, dengan rasio CET1 meningkat menjadi 16,28% dari 14,14%, rasio Tier 1 menjadi 17,45% dari 15,25%, dan rasio KPMM menjadi 21,20% dari 19,70%. Secara konsolidasian, rasio KPMM juga meningkat menjadi 19,70% dari 18,71%.

Secara keseluruhan, posisi permodalan bank **bjb** tetap berada jauh di atas rasio KPMM sesuai profil risiko sebesar 9,21%, serta di atas *buffer* permodalan yang diwajibkan, sehingga mencerminkan kapasitas permodalan yang kuat untuk mendukung ekspansi usaha dan menyerap risiko yang melekat pada kegiatan usaha bank **bjb**.

The capital structure of bank **bjb** in 2025 demonstrated strengthening, as reflected in the increase in total core capital and supplementary capital to IDR18.08 trillion from IDR17.70 trillion in 2024. On a consolidated basis, total capital also increased to IDR20.65 trillion from IDR20.18 trillion. This improvement was primarily driven by the increase in core capital (Tier 1), particularly Common Equity Tier 1 (CET1), which rose to IDR13.89 trillion at the Bank level and IDR15.94 trillion on a consolidated basis. Meanwhile, additional Tier 1 (AT1) remained relatively stable, while supplementary capital (Tier 2) declined compared to the previous year.

On the other hand, Risk-Weighted Assets (RWA) decreased to IDR85.30 trillion at the Bank level from IDR89.84 trillion, and on a consolidated basis declined to IDR104.82 trillion from IDR107.84 trillion. This decrease was mainly attributable to a reduction in credit risk RWA, despite increases in RWA for operational risk and market risk. In line with these developments, bank **bjb**'s capital ratios improved, with the CET1 ratio increasing to 16.28% from 14.14%, the Tier 1 ratio to 17.45% from 15.25%, and the Capital Adequacy Ratio (CAR) to 21.20% from 19.70%. On a consolidated basis, the CAR also increased to 19.70% from 18.71%.

Overall, bank **bjb**'s capital position remained well above the minimum capital adequacy ratio based on its risk profile of 9.21%, as well as above the required capital buffers, reflecting a strong capital capacity to support business expansion and absorb risks inherent in bank **bjb**'s business activities.

Ikatan Material Terkait Investasi Barang Modal

Selama tahun 2025 dan 2024, bank **bjb** tidak memiliki ikatan material terkait investasi barang modal. Sehingga tidak terdapat informasi tujuan dari ikatan tersebut, sumber dana yang diharapkan untuk memenuhi ikatan tersebut, mata uang yang menjadi denominasi dan langkah yang direncanakan untuk melindungi risiko dari posisi mata uang asing yang terkait.

Material Commitments Related to Investment in Capital Goods

During 2025 and 2024, bank **bjb** did not have any material commitments related to capital expenditures. Accordingly, there is no information to be disclosed regarding the objectives of such commitments, the expected sources of funding to fulfill such commitments, the currency denomination, or the measures planned to mitigate foreign exchange risk associated with such positions.

Investasi Barang Modal

Investasi berupa barang modal (*capital expenditure*) merupakan aktivitas pengeluaran dana yang digunakan untuk membeli sejumlah aset tetap atau menambah nilai aset tetap yang diharapkan dapat memberikan nilai manfaat di masa depan.

Investment In Capital Goods

Investment in the form of capital goods (capital expenditure) is the activity of spending funds used to purchase a number of Fixed Assets or increase the value of Fixed Assets which are expected to provide beneficial value in the future.

Jenis dan Nilai Investasi Barang Modal

Jenis dan investasi barang modal disajikan dalam tabel berikut.

Type and Value of Investment In Capital Goods

The types and investments in capital goods are presented in the following table.

Tabel Penambahan Aset Tetap Kepemilikan Langsung Yang Dimiliki Bank
Table of Addition of Fixed Assets Directly Owned by Banks

(dalam jutaan Rupiah / in IDR million)

Jenis Type	Penambahan Investasi Tahun 2025 Investment Additions in 2025	Penambahan Investasi Tahun 2024 Investment Additions in 2024	Kenaikan/Penurunan Growth/Decline
Tanah Land	**25,835**	5,780	20,055
Bangunan Building	**11,160**	2,081	9,079
Perlengkapan Equipment	**162,121**	231,565	(69,444)
Kendaraan Vehicle	**3,676**	821	2,855

Total	**385,466**	**420,459**	**(34,993)**

Penambahan aset tetap pada tahun 2025 tercatat sebesar Rp385,47 miliar, meningkat dibandingkan tahun 2024 sebesar Rp420,46 miliar (secara komposisi tetap tinggi meskipun terdapat penurunan pada beberapa pos). Penambahan terbesar berasal dari aset dalam penyelesaian sebesar Rp182,67 miliar dan perlengkapan sebesar Rp162,12 miliar, yang mencerminkan *ongoing* investasi Bank dalam pengembangan infrastruktur dan operasional. Sementara itu, penambahan pada tanah dan bangunan juga meningkat, masing-masing sebesar Rp25,84 miliar dan Rp11,16 miliar, menunjukkan adanya ekspansi fisik secara selektif. Secara keseluruhan, penambahan aset tetap ini sejalan dengan arus kas investasi,

Additions to fixed assets in 2025 amounted to IDR385.47 billion, reflecting a decrease compared to 2024 of IDR420.46 billion (while the overall composition remained relatively significant despite declines in certain components). The largest additions were derived from construction in progress amounting to IDR182.67 billion and equipment amounting to IDR162.12 billion, reflecting the Bank's ongoing investments in infrastructure and operational development. Meanwhile, additions to land and buildings also increased, amounting to IDR25.84 billion and IDR11.16 billion, respectively, indicating selective physical expansion. Overall, these additions to fixed assets were in line with investing cash flows, whereby bank

di mana bank **bjb** tetap melakukan investasi secara terukur untuk mendukung pertumbuhan bisnis, dengan tetap menjaga efisiensi dan optimalisasi aset.

Tujuan Investasi Barang Modal

bank **bjb** melakukan investasi barang modal dalam bentuk aset tetap berupa tanah, bangunan, perlengkapan/inventaris kantor dan kendaraan, dengan tujuan untuk mendukung kelancaran kegiatan operasional.

Investasi barang modal tahun 2025 terbesar yaitu terkonsentrasi pada inventaris kantor dalam rangka pemenuhan permintaan - permintaan seluruh unit kerja, *support* perluasan jaringan kantor dari Divisi Jaringan dan Layanan, Divisi Operasional, serta *support* peningkatan teknologi dari Divisi Information Technology dan Divisi IT Security.

Komitmen dan Kontijensi

Ikhtisar komitmen dan kontijensi bank **bjb** adalah sebagai berikut.

bjb continued to undertake measured investments to support business growth while maintaining efficiency and optimizing asset utilization.

Purpose of Investment in Capital Goods

bank **bjb** invests in capital goods in the form of Fixed Assets in the form of land, buildings, office equipment/inventory and vehicles, with the aim of supporting the smooth running of operational activities.

The largest investments in capital goods in 2025 were concentrated on office inventory in order to fulfill the demands of all business units, support for office network expansion from the Network and Services Division, Operations Division, and support for technology improvements from the Information Technology Division and IT Security Division.

Commitments and Contingencies

An overview of bank **bjb** commitments and contingencies is as follows.

Posisi komitmen dan kontinjensi bank **bjb** pada tahun 2025 menunjukkan penurunan dibandingkan tahun sebelumnya, terutama pada sisi liabilitas komitmen dan liabilitas kontinjensi. cDari sisi tagihan komitmen, total tercatat sebesar Rp11,65 triliun, relatif stabil dibandingkan tahun 2024 sebesar Rp11,69 triliun. Posisi ini terutama ditopang oleh komponen lainnya sebesar Rp11,54 triliun, sementara fasilitas pinjaman/ pembiayaan yang belum ditarik tetap sebesar Rp108,00 miliar.

Di sisi liabilitas komitmen, total tercatat sebesar Rp15,21 triliun, menurun dibandingkan tahun 2024 sebesar Rp18,94 triliun. Penurunan ini terutama berasal dari berkurangnya fasilitas kredit kepada debitur yang belum digunakan menjadi Rp3,95 triliun dari Rp6,56 triliun, serta penurunan *irrevocable* letters of credit yang masih berjalan menjadi Rp45,89 miliar dari Rp158,47 miliar.

Sementara itu, tagihan kontinjensi tercatat stabil sebesar Rp7,89 miliar. Adapun liabilitas kontinjensi menurun menjadi Rp719,70 miliar dari Rp966,17 miliar, terutama berasal dari penurunan garansi yang diterbitkan.

Secara keseluruhan, perkembangan ini menunjukkan bahwa eksposur *off-balance sheet* bank **bjb** pada tahun 2025 cenderung lebih rendah dibandingkan tahun sebelumnya, yang mencerminkan pengelolaan komitmen dan kontinjensi yang tetap prudent.

The position of commitments and contingencies of bank **bjb** in 2025 showed a decrease compared to the previous year, particularly on the commitment liabilities and contingent liabilities sides. On the receivables from commitments side, the total amounted to IDR11.65 trillion, relatively stable compared to IDR11.69 trillion in 2024. This position was primarily supported by other components amounting to IDR11.54 trillion, while undrawn loan/financing facilities remained at IDR108.00 billion.

On the commitment liabilities side, the total amounted to IDR15.21 trillion, decreasing from IDR18.94 trillion in 2024. This decline was mainly attributable to the reduction in unused credit facilities to debtors to IDR3.95 trillion from IDR6.56 trillion, as well as a decrease in outstanding irrevocable letters of credit to IDR45.89 billion from IDR158.47 billion.

Meanwhile, contingent receivables remained stable at IDR7.89 billion. Contingent liabilities decreased to IDR719.70 billion from IDR966.17 billion, primarily due to a decline in issued guarantees.

Overall, these developments indicate that bank **bjb**'s off-balance sheet exposure in 2025 was lower compared to the previous year, reflecting prudent management of commitments and contingencies.

Informasi dan Fakta Material Setelah Tanggal Laporan Akuntan

Sampai dengan akhir Laporan Tahunan disusun tidak terdapat uraian kejadian penting setelah tanggal laporan akuntan termasuk dampaknya terhadap kinerja dan risiko usaha di masa mendatang.

Information and Material Facts After the Date of the Accountant's Report

Up to the end of the Annual Report preparation, there were no descriptions of significant events after the accountant's report date, including their impact on future operational performance and business risks.

Prospek Usaha dan Strategi Ke Depan Tahun 2026

Menurut International Monetary Fund (IMF) dalam *World Economic Outlook* (WEO) Oktober 2025, pertumbuhan ekonomi global diperkirakan melambat dan mencapai sekitar 3,1% pada tahun 2026. Perlambatan tersebut dipengaruhi oleh meningkatnya ketidakpastian kebijakan perdagangan global yang berdampak pada melemahnya kepercayaan pelaku usaha dan investor, serta mendorong fragmentasi ekonomi global. Kondisi ini tercermin dari meningkatnya kecenderungan proteksionisme dan penyesuaian rantai pasok global yang mengurangi efisiensi produksi dan menekan kinerja perdagangan internasional. Selain itu, dampak lanjutan kebijakan tarif Amerika Serikat terhadap mitra dagangnya masih berlanjut dan turut meningkatkan biaya produksi, menekan volume perdagangan global, serta menahan arus investasi lintas negara.

Business Prospects and Future Strategies In 2026

According to the International Monetary Fund (IMF) in the World Economic Outlook (WEO) October 2025, global economic growth is projected to moderate and reach approximately 3.1% in 2026. The slowdown is driven by rising uncertainty in global trade policies, which has weakened business and investor confidence and contributed to increasing global economic fragmentation. This condition is reflected in the growing trend of protectionism and adjustments in global supply chains, which reduce production efficiency and put pressure on international trade performance. In addition, the ongoing impact of United States tariff policies on its trading partners continues to increase production costs, suppress global trade volumes, and restrain cross-border investment flows.

Di tengah dinamika tersebut, meningkatnya risiko geopolitik global menambah ketidakpastian prospek ekonomi dunia. Pada saat yang sama, keterbatasan ruang fiskal di sejumlah negara maju, seiring tingginya tingkat utang publik dan kebutuhan konsolidasi fiskal pasca pandemi, membatasi kapasitas kebijakan fiskal untuk memberikan stimulus tambahan bagi perekonomian. Kombinasi berbagai faktor tersebut menyebabkan pemulihan ekonomi global berlangsung secara moderat dan tidak merata antar negara, serta secara keseluruhan menahan prospek pertumbuhan ekonomi global dalam jangka menengah.

Amid these dynamics, heightened global geopolitical risks have further increased uncertainty surrounding the global economic outlook. At the same time, limited fiscal space in several advanced economies, in line with elevated public debt levels and the need for post-pandemic fiscal consolidation, has constrained the capacity of fiscal policy to provide additional economic stimulus. The combination of these factors has resulted in a moderate and uneven global economic recovery across countries, thereby weighing on global economic growth prospects over the medium term.

Meskipun lanskap global menunjukkan perlambatan, perekonomian Indonesia pada tahun 2026 diproyeksikan tetap solid, meskipun dibayangi ketidakpastian eksternal yang tinggi. Kementerian Keuangan memperkirakan pertumbuhan ekonomi Indonesia mencapai sebesar 5,4%, didukung oleh terjaganya permintaan domestik, keberlanjutan agenda reformasi struktural, serta efektivitas bauran kebijakan fiskal dalam menjaga momentum pemulihan ekonomi. Sejalan dengan itu, Bank Indonesia memproyeksikan pertumbuhan ekonomi berada pada kisaran 4,9%-5,7%, mencerminkan ketahanan konsumsi rumah tangga, meningkatnya kontribusi investasi, serta dukungan kebijakan moneter dan makroprudensial yang akomodatif dan terkoordinasi dengan kebijakan fiskal. Bloomberg memperkirakan pertumbuhan ekonomi Indonesia sebesar 5,0%, dengan mempertimbangkan moderasi kinerja ekspor seiring pelemahan permintaan global, namun tetap ditopang oleh kuatnya pasar domestik dan stabilitas makroekonomi yang terjaga.

Despite the moderating global landscape, Indonesia's economy in 2026 is projected to remain resilient, albeit amid elevated external uncertainties. The Ministry of Finance estimates Indonesia's economic growth at 5.4%, supported by sustained domestic demand, the continuation of structural reform agendas, and the effectiveness of fiscal policy mix in maintaining the momentum of economic recovery. In line with this, Bank Indonesia projects economic growth in the range of 4.9%–5.7%, reflecting resilient household consumption, increasing investment contributions, and accommodative monetary and macroprudential policies coordinated with fiscal policy. Bloomberg estimates Indonesia's economic growth at 5.0%, taking into account the moderation in export performance in line with weakening global demand, while remaining supported by a strong domestic market and maintained macroeconomic stability.

Industri perbankan Indonesia pada 2026 diproyeksikan tetap tumbuh positif, meski harus menghadapi dinamika global dan nasional yang penuh ketidakpastian. Sejumlah faktor pendukung prospek pertumbuhan, antara lain inflasi yang terjaga di kisaran target 2,5% ±1% pada tahun 2026, ruang pelonggaran kebijakan moneter Bank Indonesia (BI), serta stimulus fiskal pemerintah yang difokuskan pada UMKM, energi terbarukan, perumahan, dan infrastruktur. Program populis seperti Makan Bergizi Gratis (MBG) dan pembangunan 770 ribu unit rumah melalui FLPP dan Tapera dipastikan akan meningkatkan permintaan kredit ritel maupun konstruksi.

The Indonesian banking industry in 2026 is projected to continue growing positively, despite facing global and domestic dynamics marked by heightened uncertainty. Several supporting factors underpin this growth outlook, including inflation maintained within the target range of 2.5% ±1% in 2026, room for monetary policy easing by Bank Indonesia (BI), and government fiscal stimulus focused on MSMEs, renewable energy, housing, and infrastructure. Populist programs such as the Free Nutritious Meals (MBG) program and the construction of 770 thousand housing units through FLPP and Tapera are expected to increase demand for both retail and construction loans.

Mencermati berbagai tantangan dan peluang yang dihadapi industri perbankan, serta arah kebijakan yang akan ditempuh ke depan, Bank Indonesia memproyeksikan pertumbuhan kredit pada kisaran 8%–12%. Proyeksi ini sejalan dengan perkiraan Otoritas Jasa Keuangan yang memproyeksikan Dana Pihak Ketiga (DPK) berpotensi tumbuh sekitar 7%–9%, didukung oleh stabilitas makroekonomi yang terjaga, inflasi yang terkendali, serta tetap kuatnya kepercayaan masyarakat terhadap sistem keuangan nasional. Dengan demikian, secara fundamental, ruang ekspansi intermediasi perbankan pada tahun mendatang masih relatif terbuka.

In view of the challenges and opportunities faced by the banking industry, as well as the policy direction going forward, Bank Indonesia projects credit growth in the range of 8%–12%. This projection is in line with that of the Financial Services Authority, which estimates Third Party Funds (DPK) to grow by approximately 7%–9%, supported by maintained macroeconomic stability, controlled inflation, and sustained public confidence in the national financial system. Accordingly, from a fundamental perspective, the room for banking intermediation expansion in the coming year remains relatively open.

Meskipun demikian, prospek pertumbuhan tersebut tidak terlepas dari berbagai tantangan struktural yang masih membayangi industri. Tingginya biaya dana (Cost of Fund/CoF) akibat dominasi dana mahal, khususnya deposito berjangka, terus menekan ruang ekspansi dan margin intermediasi. Selain itu, risiko kredit pada sektor-sektor yang bersifat siklikal seperti komoditas, konstruksi, dan perdagangan menuntut penerapan manajemen risiko yang lebih pruden dan selektif. Kondisi ini menunjukkan bahwa pertumbuhan yang diharapkan tetap harus diimbangi dengan pengelolaan risiko dan efisiensi yang kuat.

Di saat yang sama, dinamika persaingan juga semakin kompleks. Meningkatnya intensitas kompetisi dengan perusahaan *financial technology (fintech)* dan lembaga keuangan non-bank, baik dalam penghimpunan dana maupun penyaluran pembiayaan, mendorong perbankan untuk mempercepat transformasi digital, meningkatkan efisiensi operasional, serta memperkuat proposisi nilai. Artinya, keberlanjutan pertumbuhan tidak hanya ditentukan oleh faktor makroekonomi, tetapi juga oleh kemampuan adaptasi model bisnis terhadap perubahan lanskap industri keuangan.

Namun demikian, di tengah berbagai tantangan tersebut, peluang pertumbuhan tetap terbuka lebar. Akselerasi digitalisasi sistem pembayaran, penguatan ekosistem *Open Banking* dan integrasi QRIS lintas negara, serta pengembangan pembiayaan berkelanjutan *(green financing)* sejalan dengan implementasi *Green Taxonomy* 2.0 dan kebijakan pajak karbon menjadi katalis positif bagi ekspansi yang lebih inklusif dan berkelanjutan. Oleh karena itu, melalui penerapan strategi yang tepat—meliputi optimalisasi CASA untuk menekan CoF, peningkatan efisiensi operasional, penguatan manajemen risiko, serta ekspansi pembiayaan ke sektor hijau dan UMKM—industri perbankan nasional memiliki ruang untuk mencatatkan pertumbuhan yang moderat hingga agresif secara berkelanjutan pada tahun 2026.

Dengan mempertimbangkan berbagai proyeksi pertumbuhan ekonomi dan sektor keuangan tersebut, bank **bjb** optimistis memiliki prospek usaha yang baik serta ruang ekspansi yang berkelanjutan pada tahun mendatang. Ketahanan ekonomi domestik, dukungan kebijakan fiskal dan moneter yang akomodatif, serta meningkatnya kebutuhan pembiayaan pada sektor-sektor prioritas menjadi landasan kuat bagi bank **bjb** untuk memperkuat fungsi intermediasi dan meningkatkan daya saing. Sejalan dengan hal tersebut, peluang yang dapat dimanfaatkan oleh bank **bjb** antara lain sebagai berikut:

Nevertheless, these growth prospects are not without structural challenges that continue to weigh on the industry. The high cost of funds (CoF), driven by the dominance of high-cost funding, particularly time deposits, continues to exert pressure on expansion capacity and intermediation margins. In addition, credit risks in cyclical sectors such as commodities, construction, and trade necessitate more prudent and selective risk management practices. This condition indicates that the expected growth must be accompanied by strong risk management and efficiency measures.

At the same time, competitive dynamics are becoming increasingly complex. Intensifying competition with financial technology (fintech) companies and non-bank financial institutions, both in fund raising and financing distribution, is encouraging banks to accelerate digital transformation, improve operational efficiency, and strengthen their value proposition. This implies that the sustainability of growth is determined not only by macroeconomic factors but also by the ability of business models to adapt to changes in the financial industry landscape.

However, amid these challenges, growth opportunities remain substantial. The acceleration of payment system digitalization, strengthening of the Open Banking ecosystem and cross-border QRIS integration, as well as the development of sustainable financing (green financing) in line with the implementation of Green Taxonomy 2.0 and carbon tax policies, serve as positive catalysts for more inclusive and sustainable expansion. Therefore, through the implementation of appropriate strategies—comprising CASA optimization to reduce CoF, enhancement of operational efficiency, strengthening of risk management, and expansion of financing to green sectors and MSMEs—the national banking industry has the potential to achieve moderate to aggressive growth on a sustainable basis in 2026.

- A Stable and Contributive Financial Services Sector Supporting Financial Market Deepening and the National Economy, Annual Meeting of the Financial Services Industry (PTIJK) 2026, Financial Services Authority, February 5, 2026.

Taking into account the various projections for economic growth and the financial sector, bank **bjb** remains optimistic about its business prospects and the availability of sustainable expansion opportunities in the coming year. The resilience of the domestic economy, supported by accommodative fiscal and monetary policies, as well as increasing financing needs in priority sectors, provides a strong foundation for bank **bjb** to strengthen its intermediation function and enhance competitiveness. In line with this, the opportunities that can be leveraged by bank **bjb** include the following:

1. Sinergi dengan pemerintah daerah menjadi peluang untuk *cross selling* kredit produktif, *treasury*, dan layanan digital publik berbasis integrasi ekosistem, serta memperluas *income* melalui *bundling* produk investasi dan asuransi bagi ASN dan Pemda.

2. Fitur dan layanan digital bank **bjb** dapat ditingkatkan, karena wadahnya sudah tersedia dan terdapat peluang besar untuk memperkuat posisi di *digital banking*.

3. Penyesuaian biaya akuisisi (*cost per acquisition)* memungkinkan fleksibilitas dalam strategi *pricing*, baik untuk efisiensi maupun daya saing.
4. Ambisi Pemerintah Provinsi Jawa Barat RPJMD, RKPD Jabar 2026 untuk mempercepat pembangunan ekonomi regional melalui pelaksanaan berbagai proyek (misalnya infrastruktur, pendidikan) menciptakan peluang signifikan bagi bank **bjb** untuk menjadi penyedia layanan keuangan utama, sekaligus mendorong sinergi strategis.

5. Preferensi terhadap pembiayaan berkelanjutan (ESG) meningkat, membuka potensi bank **bjb** sebagai katalis pembiayaan hijau dan syariah daerah.
6. Tren digitalisasi pelayanan publik (SP2D, QRIS Daerah, *payroll* ASN) memberi peluang bagi bank **bjb** dalam menjadi *anchor* bank bagi Pemda melalui integrasi sistem pembayaran publik.
7. Peningkatan (Rp200 triliun) likuiditas nasional membuka peluang bagi bank **bjb** dalam memperluas ekspansi kredit produktif, memperkuat posisi likuiditas, dan melakukan *reposisi pricing* berbasis layanan serta efisiensi pendanaan.
8. Pergeseran minat masyarakat ke aset aman seperti emas dan saham, membuka peluang bagi bank **bjb** dalam menawarkan produk investasi ritel, sehingga dana tetap berada di ekosistem bank **bjb**.

Berdasarkan hal yang telah dijabarkan di atas, bank **bjb** optimis untuk dapat senantiasa meningkatkan kinerja dalam jangka pendek maupun jangka panjang secara berkelanjutan. Hal ini didasarkan pada kekuatan yang dimiliki oleh bank **bjb** yaitu:

1. *Captive market* di Jawa Barat (ASN dan Pemda), serta dukungan aktif dari pemerintah daerah memperkuat posisi bank **bjb** sebagai bank mitra pembangunan daerah.

2. *Brand equity* yang kuat, sejalan dengan visi menjadi "Bank Pilihan Utama Anda", memperkuat *positioning* dan citra layanan yang handal.
3. Jaringan operasional telah meluas ke luar Jawa Barat, dengan BPD dengan jumlah kantor cabang terbanyak di Indonesia memperkuat kehadiran fisik dan aksesibilitas.

4. Demografi pegawai didominasi usia 30-40 tahun, dengan daya adaptasi digital yang kuat dan inovatif.

1. Synergy with regional governments presents opportunities for cross-selling of productive loans, treasury services, and digital public services based on integrated ecosystems, as well as expanding income through bundled investment and insurance products for civil servants and regional governments.
2. bank **bjb**'s digital features and services can be further enhanced, as the platform is already in place and there is significant potential to strengthen its position in digital banking.
3. Adjustments to acquisition costs (cost per acquisition) provide flexibility in pricing strategies, both to improve efficiency and enhance competitiveness.
4. The development ambitions of the West Java Provincial Government as outlined in the Regional Medium-Term Development Plan (RPJMD) and the 2026 Regional Government Work Plan (RKPD) to accelerate regional economic growth through various projects (such as infrastructure and education) create significant opportunities for bank **bjb** to serve as a primary financial services provider, while also fostering strategic synergies.
5. Increasing preference for sustainable financing (ESG) opens opportunities for bank **bjb** to act as a catalyst for regional green and sharia financing.
6. The trend of public service digitalization (SP2D, Regional QRIS, civil servant payroll) provides opportunities for bank **bjb** to become an anchor bank for regional governments through the integration of public payment systems.
7. The increase in national liquidity (IDR200 trillion) presents opportunities for bank **bjb** to expand productive lending, strengthen its liquidity position, and reposition pricing strategies based on service value and funding efficiency.
8. The shift in public interest toward safe-haven assets such as gold and equities provides opportunities for bank **bjb** to offer retail investment products, thereby retaining funds within the bank **bjb** ecosystem.

Based on the foregoing, bank **bjb** remains optimistic about its ability to continuously improve performance in both the short and long term on a sustainable basis. This optimism is supported by the strengths possessed by bank **bjb**, as follows:

1. A captive market in West Java (civil servants and regional governments), along with active support from regional governments, strengthens bank **bjb**'s position as a regional development partner bank.
2. Strong brand equity, in line with its vision to become "Your Main Bank of Choice", reinforces its positioning and reliable service image.
3. An expanded operational network beyond West Java, with the highest number of branch offices among Regional Development Banks (BPDs) in Indonesia, enhances physical presence and accessibility.
4. A workforce demographic dominated by individuals aged 30–40 years, with strong digital adaptability and innovation capabilities.

5. Produk lengkap sebagai *one stop solution*, memberikan kemudahan bagi nasabah, serta variasi produk simpanan dan pinjaman yang beragam sebagai *one-stop solution*, memperkuat positioning bank di berbagai segmen nasabah.
6. Digitalisasi lebih maju dibandingkan BPD lain, dengan modernisasi layanan digital (**bjb** DIGI, DIGI *Cash*, Kredit Digital) menjadi keunggulan kompetitif dalam layanan.

Menghadapi berbagai tantangan di tengah kondisi bisnis yang semakin kompleks, Direksi terus berperan aktif dalam menavigasi, mitigasi, dan beradaptasi secara cepat dan tepat dalam merumuskan strategi serta menentukan kebijakan strategis untuk mengoptimalkan kinerja bank **bjb**. Dalam menghadapi dinamika bisnis yang terus berubah, bank **bjb** menetapkan kebijakan strategis yang tertuang dalam Rencana Bisnis Bank (RBB) sebagai panduan untuk lebih selektif dan berhati-hati dalam penyaluran kredit guna mengurangi risiko penurunan kualitas kredit. Sejalan dengan itu, bank **bjb** terus berusaha mengembangkan produk-produk inovatif untuk memenuhi kebutuhan nasabah serta menangkap peluang dari tren bisnis yang berkembang. Berikut arahan strategis Direksi Tahunan 2026 untuk mencapai pertumbuhan kinerja optimal:

1. Menjaga keseimbangan pendanaan yang sehat dan berkelanjutan melalui strategi pengelolaan likuiditas yang efisien dan mendorong inklusi keuangan untuk memastikan ketersediaan dana dalam mendukung ekspansi bisnis secara optimal.
2. Akselerasi pertumbuhan kredit yang berkualitas dan berkelanjutan dengan fokus pada *target market* potensial melalui penyempurnaan proses bisnis serta memastikan profitabilitas yang optimal dengan risiko terukur.
3. Meningkatkan kontribusi *fee based income* melalui percepatan transformasi digital dengan penguatan produk-produk transaksional dengan pengembangan *platform* bisnis yang *agile* dan inklusif berbasis ekosistem digital, dengan tetap menjaga efisiensi operasional.
4. Memperkuat pengelolaan manajemen risiko, tata kelola dan kepatuhan sebagai pilar utama dalam membangun kinerja bank yang tangguh, terpercaya dan berkelanjutan.
5. Mengembangkan *human capital* yang adaptif, berorientasi bisnis dan risiko melalui penguatan kepemimpinan, peningkatan kompetensi, serta penerapan sistem insentif dan *engagement* yang mendukung produktivitas dan integritas organisasi.

Pencapaian Target dan Target Ke Depan

Pencapaian Target 2025

Realisasi rencana bisnis periode 2025 disajikan dalam bentuk perbandingan target dan pencapaian kinerja bank **bjb** Desember 2025.

5. Comprehensive product offerings as a one-stop solution, providing convenience for customers, along with a diverse range of deposit and loan products, thereby strengthening the Bank's positioning across various customer segments.
6. More advanced digitalization compared to other Regional Development Banks (BPDs), with modernized digital services (**bjb** DIGI, DIGI Cash, Digital Loans) serving as a competitive advantage in service delivery.

In addressing various challenges amid an increasingly complex business environment, the Board of Directors continues to play an active role in navigating, mitigating, and adapting swiftly and appropriately in formulating strategies and determining strategic policies to optimize the performance of bank **bjb**. In response to evolving business dynamics, bank **bjb** has established strategic policies as set out in the Bank Business Plan (RBB) to serve as guidance in adopting a more selective and prudent approach to lending in order to mitigate the risk of deterioration in credit quality. In line with this, bank **bjb** continues to develop innovative products to meet customer needs and capture opportunities arising from emerging business trends. The following are the Board of Directors' strategic directions for 2026 to achieve optimal performance growth:

1. Maintaining a sound and sustainable funding structure through efficient liquidity management strategies and promoting financial inclusion to ensure the availability of funds in supporting optimal business expansion.
2. Accelerating high-quality and sustainable loan growth by focusing on potential target markets through the refinement of business processes, while ensuring optimal profitability with measured risks.
3. Increasing the contribution of fee-based income through the acceleration of digital transformation by strengthening transactional products and developing agile and inclusive business platforms based on digital ecosystems, while maintaining operational efficiency.
4. Strengthening risk management, governance, and compliance as key pillars in building a resilient, reliable, and sustainable banking performance.
5. Developing adaptive human capital with strong business and risk orientation through leadership enhancement, competency development, and the implementation of incentive systems and engagement initiatives that support productivity and organizational integrity.

Achievement of Targets and Future Targets

Achievement of 2025 Targets

The realization of the 2025 business plan is presented in the form of a comparison between bank **bjb**'s targets and actual performance as of December 2025.

Perbandingan Target dan Realisasi Keuangan

Informasi perbandingan target dan realisasi keuangan tahun 2025 disajikan sebagai berikut.

Comparison of Targets and Financial Performance

The following presents a comparison of the financial targets and actual performance for 2025.

Tabel Perbandingan Target dan Realisasi Keuangan
Table of Comparison of Financial Targets and Realizations

(dalam jutaan Rupiah / in IDR million)

Uraian	Target 2025	Realisasi 2025 Realization 2025	Pencapaian Achievement	Description
1	2	3	4=3/2*100%	1
KEUANGAN				**FINANCE**
Aset	**178,581,904**	181,190,812	101.46%	Asset
Dana Pihak Ketiga	**125,318,899**	122,088,401	97.42%	Third Party Funds
Giro	**23,880,586**	17,130,629	71.73%	Current Account
Tabungan	**41,258,206**	34,250,746	83.02%	Savings
Simpanan Berjangka	**60,180,107**	70,707,026	117.49%	Time Deposits
Kredit yang diberikan	**115,919,982**	111,943,038	96.57%	Loans
Pendapatan Bunga dan Syariah	**14,018,024**	13,738,526	98.01%	Interest and Sharia Income
Laba Tahun Berjalan	**1,010,559**	1,032,314	102.15%	Income for the ye
Ekuitas	**16,580,661**	17,027,794	102.70%	Equity
RASIO KEUANGAN (*BANK ONLY*, %)				**FINANCIAL RATIOS (BANK ONLY, %)**
CAR	**19.90%**	21.20%	106.52%	CAR
ROE	**6.54%**	7.32%	111.98%	ROE
ROA	**0.56%**	0.70%	124.21%	ROA
NIM	**4.02%**	3.84%	95.59%	NIM
NPL (*Gross*)	**2.64%**	2.91%	110.43%	NPL (Gross)
NPL (*Nett*)	**1.25%**	1.29%	103.42%	NPL (Nett)

Secara umum, realisasi kinerja keuangan bank **bjb** pada tahun 2025 menunjukkan hasil yang tetap solid, meskipun tidak seluruh indikator mencapai target yang ditetapkan. Dari sisi posisi keuangan, realisasi aset dan ekuitas berhasil melampaui target masing-masing sebesar 101,46% dan 102,70%, mencerminkan fundamental bank **bjb** yang tetap kuat. Sementara itu, dana pihak ketiga dan kredit yang diberikan belum sepenuhnya mencapai target dengan capaian 97,42% dan 96,57%, namun capaian tersebut tetap menunjukkan pertumbuhan yang sehat dan terkendali. Khusus untuk kredit, realisasi yang sedikit di bawah target juga mencerminkan penerapan prinsip kehati-hatian dalam penyaluran kredit di tengah dinamika risiko.

In general, the financial performance of bank **bjb** in 2025 remained solid, although not all indicators achieved the established targets. From a financial position perspective, the realization of assets and equity exceeded the targets at 101.46% and 102.70%, respectively, reflecting the Bank's strong fundamentals. Meanwhile, third party funds and loans did not fully meet the targets, achieving 97.42% and 96.57%, respectively; however, these achievements still indicate healthy and controlled growth. In particular, the slightly below-target loan realization also reflects the prudent application of lending principles amid evolving risk dynamics.

Pada sisi pendapatan, realisasi pendapatan bunga dan syariah yang mendekati target mencapai 98,01% menunjukkan bahwa kemampuan bank **bjb** dalam menjaga pendapatan inti tetap terpelihara. Di saat yang sama, laba tahun berjalan justru melampaui target dengan capaian 102,15%, yang menegaskan efektivitas bank **bjb** dalam menjaga profitabilitas melalui pengelolaan pendapatan dan biaya yang baik.

On the income side, the realization of interest and sharia income, which reached 98.01% of the target, indicates that bank **bjb**'s ability to maintain its core income remained well preserved. At the same time, income for the year exceeded the target, achieving 102.15%, underscoring the effectiveness of bank **bjb** in maintaining profitability through sound income and cost management.

Dari sisi rasio keuangan, realisasi CAR, ROE, dan ROA berada di atas target masing-masing sebesar 106,52%, 111,98% dan 124,21%, mencerminkan permodalan yang kuat serta profitabilitas yang tetap terjaga. Sementara itu, NIM yang sedikit di bawah target dengan capaian 95,59% tetap menunjukkan margin bunga yang stabil. Adapun NPL *Gross* dan NPL *Nett* yang berada di atas target menunjukkan adanya tekanan pada kualitas aset, namun sekaligus mencerminkan sikap bank **bjb** yang lebih *prudent* dalam mengelola risiko kredit.

From a financial ratio perspective, the realization of CAR, ROE, and ROA exceeded the targets at 106.52%, 111.98%, and 124.21%, respectively, reflecting strong capital adequacy and sustained profitability. Meanwhile, NIM, which was slightly below the target at 95.59%, continued to indicate stable interest margins. Gross NPL and Net NPL ratios, which were above the targets, indicate pressure on asset quality, while also reflecting bank **bjb**'s more prudent approach in managing credit risk.

Secara keseluruhan, capaian tahun 2025 menunjukkan bahwa meskipun terdapat beberapa indikator yang belum sepenuhnya memenuhi target, kinerja bank **bjb** tetap terjaga dengan baik dan ditopang oleh fundamental yang kuat, profitabilitas yang sehat, serta pengelolaan risiko yang hati-hati.

Overall, the 2025 performance demonstrates that despite certain indicators not fully meeting the targets, bank **bjb**'s performance remained well maintained, supported by strong fundamentals, sound profitability, and prudent risk management.

Perbandingan Target dan Realisasi Pemasaran

Comparison of Targets and Marketing Performance

Uraian perbandingan target dan realisasi pemasaran bank **bjb** tahun 2025 disajikan sebagai berikut.

The following presents a comparison of bank **bjb**'s marketing targets and actual performance for 2025.

Tabel Perbandingan Target dan Realisasi Pemasaran

Perbandingan Target dan Realisasi Struktur Modal (*Capital Structure*)

Comparison of Target and Realization of Capital Structure

Secara total, realisasi struktur permodalan bank **bjb** mencapai 99,69% dari target, dengan nilai sebesar Rp18,14 triliun. Hal tersebut dipengaruhi oleh Realisasi Modal Pelengkap (*Tier* 2) per 31 Desember 2025 tercatat sebesar Rp3,20 triliun, lebih rendah dibandingkan proyeksi sebesar Rp4,71 triliun. Selisih tersebut terutama disebabkan oleh kebijakan bank **bjb** untuk tidak melakukan penerbitan instrumen obligasi subordinasi pada tahun 2025. Kebijakan tersebut diambil dengan mempertimbangkan kondisi permodalan bank **bjb** yang masih

In total, the realization of bank **bjb**'s capital structure reached 99.69% of the target, amounting to IDR18.14 trillion. This was influenced by the realization of Supplementary Capital (Tier 2) as of December 31, 2025, which was recorded at IDR3.20 trillion, lower than the projected IDR4.71 trillion. The variance was mainly due to bank **bjb**'s decision not to issue subordinated bond instruments in 2025. This decision was made considering the Bank's capital condition, which remained strong, as reflected in the Capital Adequacy Ratio

cukup kuat, tercermin dari rasio *Capital Adequacy Ratio* (CAR) yang mencapai 21,20% pada tahun 2025, lebih tinggi dari proyeksi sebelumnya sebesar 19,9%.

(CAR) of 21.20% in 2025, exceeding the previous projection of 19.9%.

Selain itu, kebijakan ini juga merupakan bagian dari upaya pengelolaan struktur permodalan yang lebih efisien, khususnya dalam mengendalikan biaya dana yang timbul dari penerbitan instrumen subordinasi. Dengan tidak dilakukannya penerbitan subordinasi, bank **bjb** tetap mampu menjaga kecukupan modal untuk mendukung ekspansi bisnis secara *prudent*, sekaligus mengoptimalkan profitabilitas.

In addition, this policy forms part of efforts to manage the capital structure more efficiently, particularly in controlling the cost of funds arising from the issuance of subordinated instruments. By not issuing subordinated debt, bank **bjb** was still able to maintain adequate capital to support prudent business expansion, while optimizing profitability.

Proyeksi Kebijakan Dividen

Kebijakan pembagian dividen mengikuti mekanisme Rapat Umum Pemegang Saham Tahunan (RUPST) bank **bjb**. Dalam penentuan dividen bagi pemegang saham, bank **bjb** selalu memperhatikan proyeksi pertumbuhan bisnis kedepannya sehingga kecukupan modal perusahaan selalu terpenuhi sesuai dengan target yang telah ditetapkan. Proyeksi nominal untuk pembayaran dividen tahun buku 2025 yang direncanakan akan dibayarkan pada tahun 2026 adalah sebesar minimum dividen tahun buku 2024.

Dividend Policy Projections

The dividend distribution policy follows the mechanism of **bjb**'s Annual General Meeting of Shareholders (AGMS). In determining dividends for shareholders, **bjb** always considers future business growth projections to ensure that the company's capital adequacy meets the established targets. The projected nominal dividend for the 2025 fiscal year, planned for payment in 2026, is set at a minimum equal to the 2024 fiscal year dividend.

Proyeksi Pemasaran

8.	Pengembangan Fitur Akseptasi Pembayaran melalui Gerai Indomaret pada DIGI bank **bjb** Acceptance Feature Development via Indomaret Outlets on **bjb** DIGI	Pengembangan fitur akseptasi pembayaran melalui gerai Indomaret pada DIGI bank **bjb** merupakan inovasi layanan digital yang memungkinkan nasabah melakukan pembayaran di lebih dari 23.000 *outlet* Indomaret cukup dengan barcode atau kode token dari aplikasi DIGI bank **bjb**, hasil kerja sama dengan PT Mitra Sentral Terpadu (MST) sebagai *integrator* sistem. The payment acceptance feature at Indomaret outlets via DIGI bank **bjb** enables customers to make payments at over 23,000 Indomaret outlets using a barcode or token code from the DIGI app, in collaboration with PT Mitra Sentral Terpadu (MST) as the system integrator.
9.	Pengembangan QRIS CPM QRIS Customer Presented Mode (CPM) Development	QRIS *Customer Presented Mode* (CPM) merupakan salah satu metode pembayaran QRIS dimana Pengguna DIGI bank **bjb** menunjukan QRIS/Kode QR kepada *merchant* untuk dipindai. QRIS CPM is a QRIS payment method where DIGI bank **bjb** users present a QR code to merchants for scanning.

Proyeksi Pengembangan SDM

Pada tahun 2026, bank **bjb** memproyeksikan alokasi anggaran pengembangan sumber daya manusia (SDM) sebesar Rp48.939.016.667. Anggaran tersebut difokuskan pada peningkatan kapasitas dan kapabilitas pegawai melalui berbagai program pengembangan. Dengan pengembangan SDM yang berkelanjutan, diharapkan kinerja organisasi dapat semakin optimal dalam mendukung pertumbuhan bisnis bank **bjb**.

Kebijakan, Pengumuman dan Pembayaran Dividen

Kebijakan mengenai dividen diatur pada Surat Keputusan Direksi PT Bank Pembangunan Daerah Jawa Barat dan Banten, Tbk. Nomor: 0062/SK/DIR-PST/2024 tentang Kebijakan Dividen yang ditetapkan pada tanggal 16 Februari 2024. Kebijakan tersebut mengatur mengenai prinsip pembagian dividen, jenis dividen, pertimbangan bank **bjb** dalam pembagian dividen, perhitungan besaran dividen, dan mekanisme persetujuan usulan besaran dividen.

Evaluasi terhadap kebijakan dividen ini dilakukan secara berkala minimal 1 (satu) tahun sekali sesuai ketentuan yang berlaku atau kebutuhan khususnya apabila terdapat penetapan/perubahan ketentuan dari Regulator yang mempengaruhi kebijakan dividen. Berdasarkan kebijakan dividen, perhitungan besaran dividen yang diberikan, menggunakan rasio pembayaran dividen atau *Dividend Payout Ratio* (DPR) paling sedikit 30% (tiga puluh persen) dari laba bersih bank **bjb**.

Pertimbangan bank **bjb** dalam pembagian dividen memperhatikan pertimbangan internal dan eksternal antara lain:

1. **Pertimbangan Internal**
   a. Realisasi kinerja keuangan;
   b. Rencana pertumbuhan bisnis;
   c. Prospek profitabilitas yang akan datang;
   d. Tingkat kesehatan;
   e. Pemenuhan tingkat kecukupan permodalan;
   f. Potensi risiko dari internal bank; dan
   g. Kebutuhan penguatan permodalan di masa depan.
2. **Pertimbangan Eksternal**
   a. Kondisi dan prospek perekonomian (*market wide*);
   b. Potensi risiko dari eksternal bank; dan
   c. Pemenuhan ketentuan peraturan perundang-undangan, antara lain perpajakan.

HR Development Projections

In 2026, bank **bjb** projects a human capital development budget allocation of IDR48,939,016,667. The budget is focused on enhancing employees' capacity and capabilities through various development programs. Through sustainable human capital development, the Bank expects to further optimize organizational performance in supporting the business growth of bank **bjb**.

Policies, Announcements and Payment of Dividend

The policy regarding dividends is regulated in the Decree of the Board of Directors of PT Bank Pembangunan Daerah West Java and Banten, Tbk. Number: 0062/SK/DIR-PST/2024 concerning Dividend Policy which was stipulated on February 16, 2024. This policy regulates the principles of dividend distribution, types of dividends, bank **bjb** considerations in distributing dividends, calculating the amount of dividends, and the mechanism for approving proposed dividend amounts.

Evaluation of the dividend policy is carried out periodically at least once a year in accordance with applicable regulations or needs, especially if there are stipulations/changes in provisions from the Regulator that affect the dividend policy. Based on the dividend policy, the calculation of the amount of dividends given uses a dividend payout ratio (DPR) of at least 30% (thirty percent) of bank **bjb**'s net profit.

bank **bjb**'s considerations in distributing dividends take into account internal and external considerations, including:

1. **Internal Considerations**
   a. Realization of financial performance;
   b. Business growth plan;
   c. Future profitability prospects;
   d. Soundness level;
   e. Fulfillment of capital adequacy levels;
   f. Potential risks from internal banks; And
   g. The need to strengthen capital in the future.
2. **External Considerations**
   a. Economic conditions and prospects (market wide);
   b. Potential risks from external banks; And
   c. Fulfillment of statutory provisions, including taxation.

Berdasarkan Keputusan RUPST bank **bjb** melaksanakan pengumuman dan pembagian dividen sebagaimana diuraikan sebagai berikut.

Based on the AGMS Decision, bank **bjb** carries out the announcement and distribution of dividends as described as follows.

Tabel Pengumuman dan Pembayaran Dividen
Table of Announcement and Dividend Payments

Uraian	Tahun Buku 2024 Fiscal Year 2024	Tahun Buku 2023 Fiscal Year 2023	Description

Tanggal Pembayaran Dividen Kas	**16 Mei 2025**	2 Mei 2024	Cash Dividend Payment Date
Tanggal Pembayaran Dividen Non Kas *)	-	-	Non-Cash Dividend Payment Date *)

*) bank **bjb** tidak memiliki dividen non kas
*) bank **bjb** does not have non-cash dividends

Dividen tunai akan dibagikan kepada pemegang saham yang namanya tercatat dalam Daftar Pemegang Saham bank **bjb** (DPS) atau *recording date* pada tanggal 29 April 2025 dan/atau pemilik saham bank **bjb** pada sub rekening efek di PT Kustodian Sentral Efek Indonesia (KSEI) pada penutupan perdagangan saham di Bursa Efek Indonesia tanggal 29 April 2025.

Cash dividends will be distributed to shareholders whose names are recorded in the Shareholders Register of bank **bjb** (DPS) or as of the recording date on April 29, 2025 and/or shareholders of bank **bjb** whose shares are recorded in the securities sub-accounts at PT Kustodian Sentral Efek Indonesia (KSEI) at the close of trading on the Indonesia Stock Exchange on April 29, 2025.

Bagi Pemegang Saham yang sahamnya dimasukkan dalam penitipan kolektif KSEI, pembayaran dividen tunai dilaksanakan melalui KSEI dan akan didistribusikan ke dalam rekening perusahan Efek dan/atau Bank Kustodian pada tanggal 16 Mei 2025. Bukti pembayaran dividen tunai akan disampaikan oleh KSEI kepada Pemegang Saham melalui Perusahaan Efek dan/atau Bank Kustodian tempat Pemegang Saham membuka rekeningnya. Sedangkan bagi Pemegang Saham yang sahamnya tidak dimasukkan dalam penitipan kolektif KSEI maka pembayaran dividen tunai akan ditransfer ke rekening Pemegang Saham.

For shareholders whose shares are deposited in the collective custody of KSEI, the payment of cash dividends will be made through KSEI and distributed to the accounts of securities companies and/or custodian banks on May 16, 2025. Proof of cash dividend payment will be provided by KSEI to shareholders through the securities companies and/or custodian banks where the shareholders maintain their accounts. Meanwhile, for shareholders whose shares are not deposited in the collective custody of KSEI, the cash dividend will be transferred directly to the shareholders' accounts.

Atas pembayaran dividen tunai kepada pemegang saham akan dilakukan pemotongan Pajak Penghasilan sesuai dengan ketentuan perpajakan yang berlaku pada saat *recording date*. Pajak Penghasilan atas dividen yang diterima oleh pemegang saham yang bersangkutan (jika ada), dilaksanakan oleh masing-masing pemegang saham.

The payment of cash dividends to shareholders will be subject to withholding of income tax in accordance with the prevailing tax regulations as of the recording date. The income tax on dividends received by the respective shareholders (if any) shall be borne and fulfilled by each shareholder.

Bagi Pemegang Saham yang merupakan Wajib Pajak Dalam Negeri yang berbentuk badan hukum yang belum

Shareholders who are domestic taxpayers in the form of legal entities and have not yet provided their Taxpayer Identification

mencantumkan Nomor Pokok Wajib Pajak (NPWP) diminta menyampaikan NPWP kepada KSEI atau Biro Administrasi Efek/BAE PT Datindo Entrycom (BAE) dengan alamat Jl. Hayam Wuruk no.28 Jakarta 10120 paling lambat tanggal 29 April 2025 pada pukul 16.00 WIB.

Number (NPWP) are requested to submit their NPWP to KSEI or the Securities Administration Bureau (BAE), PT Datindo Entrycom, at Jl. Hayam Wuruk No.28, Jakarta 10120, no later than April 29, 2025 at 16.00 Western Indonesia Time.

Bagi Pemegang Saham yang merupakan Wajib Pajak Luar Negeri yang pemotongan pajaknya akan menggunakan tarif berdasarkan Persetujuan Penghindaran Pajak Berganda (P3B) wajib memenuhi persyaratan Peraturan Direktur Jenderal Pajak No. PER 2025/PJ/2018 tentang Tata Cara Penerapan Persetujuan Penghindaran Pajak Berganda serta menyampaikan dokumen bukti rekam atau tanda terima DGT/SKD yang telah diunggah ke laman Direktorat Jenderal Pajak kepada KSEI atau BAE sesuai ketentuan dan peraturan KSEI terkait batas waktu penyampaian DGT. Tanpa adanya dokumen dimaksud, dividen tunai yang dibayarkan akan dikenakan PPh Pasal 26 sebesar 20%.

Shareholders who are foreign taxpayers and whose tax withholding will be based on the Double Taxation Avoidance Agreement (DTA) are required to comply with the provisions of the Directorate General of Taxes Regulation No. PER-25/PJ/2018 concerning Procedures for the Implementation of Double Taxation Avoidance Agreements, and to submit proof of record or receipt of DGT/SKD that has been uploaded to the Directorate General of Taxes website to KSEI or BAE in accordance with the applicable KSEI rules and deadlines. In the absence of such documents, the cash dividend paid will be subject to Article 26 income tax at a rate of 20%.

Apabila setelah tanggal *recording date*, terbit peraturan pelaksana baru terkait perpajakan atas dividen yang berlaku surut meliputi tanggal *recording date* dan pemotongan Pajak Penghasilan atas dividen telah dilakukan sebelumnya, maka jika terdapat kelebihan pemotongan pajak penghasilan atas dividen terkait pelaksanaan peraturan pelaksana baru tersebut, penyelesaian pengembalian pajak dilakukan melalui mekanisme pengembalian pajak yang seharusnya tidak terutang sesuai dengan ketentuan perpajakan yang berlaku yang dilakukan oleh masing-masing pemegang saham yang terdampak peraturan tersebut.

If, after the recording date, new implementing regulations related to dividend taxation are issued with retroactive effect covering the recording date and the withholding of income tax on dividends has been carried out previously, any overpayment of income tax on dividends arising from the implementation of such regulations shall be settled through the tax refund mechanism for taxes that should not have been payable, in accordance with prevailing tax regulations, by the respective affected shareholders.

Bagi pemegang saham yang sahamnya disimpan dalam penitipan kolektif KSEI, bukti pemotongan pajak dividen tunai dapat diambil di Perusahaan Efek dan/atau Bank Kustodian tempat pemegang saham membuka rekening efek. Bagi pemegang saham warkat/*script*, bukti pemotongan pajak dividen tunai diambil di Biro Administrasi Efek Perseroan, yaitu PT Datindo Entrycom, Jl. Hayam Wuruk No.28 Jakarta 10120.

For shareholders whose shares are deposited in the collective custody of KSEI, proof of withholding tax on cash dividends can be obtained from the securities company and/or custodian bank where the shareholder maintains the securities account. For script shareholders, proof of withholding tax on cash dividends can be obtained from the Company's Securities Administration Bureau, namely PT Datindo Entrycom, Jl. Hayam Wuruk No.28, Jakarta 10120.

Bagi Perusahaan Efek dan/atau Bank Kustodian yang memiliki catatan elektronik untuk saham Perseroan dalam penitipan kolektif KSEI, diminta untuk menyerahkan data pemegang saham dan dokumen status pajaknya kepada KSEI dalam jangka waktu 1 (satu) hari setelah tanggal pencatatan Daftar Pemegang Saham atau sesuai dengan ketentuan KSEI.

Securities companies and/or custodian banks that maintain electronic records of the Company's shares in the collective custody of KSEI are requested to submit shareholder data and tax status documents to KSEI within 1 (one) day after the recording date of the Shareholders Register or in accordance with the applicable KSEI provisions.

Apabila terdapat masalah perpajakan di kemudian hari atau klaim atas dividen tunai yang telah dibayarkan kepada dan diterima oleh pemegang saham yang sahamnya disimpan dalam penitipan kolektif KSEI selain kondisi pada butir 6, diminta untuk menyelesaikannya dengan Perusahaan Efek dan/atau Bank Kustodian tempat pemegang saham membuka rekening efek dengan merujuk pada ketentuan perpajakan yang berlaku.

In the event of any tax-related issues in the future or claims regarding cash dividends that have been paid to and received by shareholders whose shares are deposited in the collective custody of KSEI, other than the condition referred to in point 6 above, such matters should be resolved with the securities company and/or custodian bank where the shareholder maintains the securities account, with reference to the applicable tax regulations.

Informasi Material yang Mengandung Benturan Kepentingan, Transaksi Pihak Afiliasi dan Transaksi Pihak Berelasi

Transaksi material adalah setiap transaksi yang dilakukan oleh Perusahaan Terbuka atau Perusahaan Terkendali yang memenuhi batasan nilai sebagaimana diatur dalam Peraturan Otoritas Jasa Keuangan (POJK) No.17/POJK.04/2020 Tentang Transaksi Material dan Perubahan Kegiatan Usaha.

Lingkup Transaksi:
Perusahaan Terbuka yang melakukan Transaksi Material dalam:
a. 1 (satu) kali transaksi; atau
b. Suatu rangkaian transaksi untuk suatu tujuan atau kegiatan tertentu, wajib memenuhi ketentuan sebagaimana diatur dalam POJK No.17/POJK.04/2020.

Material Information Involving Conflict of Interest, Affiliated Party Transactions, and Related Party Transactions

A material transaction is any transaction carried out by a Public Company or Controlled Company that meets the value limits as regulated in the OJK Regulation (POJK) No.17/POJK.04/2020 concerning Material Transactions and Changes in Business Activities.

Transaction Scop:
Public Companies that carry out Material Transactions i:
a. 1 (one) transaction; or
b. A series of transactions for a particular purpose or activity must comply with the provisions as regulated in OJK regulation No.17/POJK.04/2020.

Batasan Nilai:

(1) Suatu transaksi dikategorikan sebagai Transaksi Material apabila nilai transaksi sama dengan 20% (dua puluh persen) atau lebih dari ekuitas Perusahaan Terbuka.
(2) Transaksi berupa perolehan dan pelepasan atas perusahaan atau segmen operasi dikategorikan sebagai Transaksi Material dalam hal:
    a. Nilai transaksi sama dengan 20% (dua puluh persen) atau lebih dari ekuitas Perusahaan Terbuka;
    b. Total aset yang menjadi objek transaksi dibagi total aset Perusahaan Terbuka nilainya sama dengan atau lebih dari 20% (dua puluh persen);
    c. Laba bersih objek transaksi dibagi dengan laba bersih Perusahaan Terbuka nilainya sama dengan atau lebih dari 20% (dua puluh persen); atau
    d. Pendapatan usaha objek transaksi dibagi dengan pendapatan usaha Perusahaan Terbuka nilainya sama dengan atau lebih dari 20% (dua puluh persen).
(3) Dalam hal transaksi sebagaimana dimaksud pada (1) dan (2) dilakukan oleh Perusahaan Terbuka yang mempunyai ekuitas negatif, transaksi dikategorikan sebagai Transaksi Material apabila nilai transaksi sama dengan 10% (sepuluh persen) atau lebih dari total aset Perusahaan Terbuka.

Transaksi Benturan Kepentingan

Berdasarkan POJK Nomor 42/POJK.04/2020 Tentang Transaksi Afiliasi dan Transaksi Benturan Kepentingan, yang di maksud benturan kepentingan adalah perbedaan antara kepentingan ekonomis perusahaan terbuka dengan kepentingan ekonomis pribadi anggota Direksi, anggota Dewan Komisaris, Pemegang Saham Utama, atau Pengendali yang dapat merugikan Perusahaan Terbuka dimaksud. Transaksi benturan kepentingan adalah transaksi yang dilakukan oleh perusahaan terbuka atau perusahaan terkendali dengan setiap pihak, baik dengan afiliasi maupun pihak selain afiliasi yang mengandung benturan kepentingan.

bank **bjb** berkomitmen untuk menangani semua transaksi yang mengandung benturan kepentingan dengan mematuhi peraturan Otoritas Jasa Keuangan dan ketentuan peraturan perundang-undangan yang berlaku. bank **bjb** telah menetapkan ketentuan internal untuk mengatur pengelolaan terhadap benturan kepentingan. bank **bjb** telah memiliki pedoman benturan kepentingan untuk dapat menangani situasi benturan kepentingan yang dihadapi, dalam rangka menjalankan kegiatan usaha bank **bjb** yang ditetapkan melalui:

1. Surat Keputusan Direksi Nomor 0098/SK/DIR-KAP/2024 tanggal 22 Maret 2024 tentang Kebijakan Tata Kelola Bank.
2. Surat Keputusan Direksi Nomor 0380/SK/DIR-CSE/2019 tanggal 23 Agustus 2024 tentang Kebijakan Tata Tertib Kerja Direksi.
3. Surat Keputusan Direksi Nomor 0605/SK/DIR-KAP/2022 tanggal 25 Oktober 2022 tentang Standar Operasional Prosedur (SOP) Anti Korupsi.

Value Limitation:

(1) A transaction is categorized as a Material Transaction if the transaction value is equal to 20% (twenty percent) or more of the Public Company's Equity.
(2) Transactions in the form of acquisitions and disposals of companies or operating segments are categorized as Material Transactions if:
    a. The transaction value is equal to 20% (twenty percent) or more of the Public Company's Equity;
    b. The total assets that are the object of the transaction divided by the total assets of the Public Company are equal to or more than 20% (twenty percent);
    c. The net profit of the transaction object divided by the net profit of the Public Company is equal to or more than 20% (twenty percent); or
    d. The business income of the transaction object divided by the business income of the Public Company is equal to or more than 20% (twenty percent).
(3) In the event that the transaction as intended in (1) and (2) is carried out by a Public Company that has negative Equity, the transaction is categorized as a Material Transaction if the transaction value is equal to 10% (ten percent) or more of the Public Company's total asset.

Conflict of Interest Transactions

Based on OJK regulation Number 42/POJK.04/2020 concerning Affiliate Transactions and Conflict of Interest Transactions, what is meant by conflict of interest is the difference between the economic interests of a public company and the personal economic interests of members of the Board of Directors, members of the Board of Commissioners, Major Shareholders or Controller. Conflict of interest transactions are transactions carried out by a public company or controlled company with any party, both affiliates and parties other than affiliates that contain a conflict of interest.

bank **bjb** is committed to handling all transactions containing conflicts of interest by complying with OJK Regulations and applicable laws and regulations. Bank has established internal provisions to regulate the management of conflicts of interest. bank **bjb** has conflict of interest guidelines to be able to handle conflict of interest situations faced, in the context of carrying out the Bank's business activities as determined through:

1. Board of Directors Decree No. 0098/SK/DIR-KAP/2024 dated March 22, 2024 concerning Bank Governance Policy.
2. Board of Directors Decree No. 0380/SK/DIR-CSE/2019 dated August 23, 2024 concerning the Board of Directors' Code of Conduct.
3. Board of Directors Decree No. 0605/SK/DIR-KAP/2022 dated October 25, 2022 concerning Anti-Corruption Standard Operating Procedures (SOP).

4. Surat Keputusan Dewan Komisaris Nomor 1/SK/DKO/2024 tanggal 17 Januari 2024 tentang Pedoman dan Tata Tertib Kerja Dewan Komisaris.
5. Surat Keputusan Direksi Nomor 0588/SK/DIR-KAP/2025 tanggal 27 November 2025 tentang Pedoman Benturan Kepentingan.

Mekanisme pengelolaan penerapan terhadap benturan kepentingan sebagai berikut:

1. Keputusan yang dibuat oleh insan bank **bjb** dalam rangka menjalankan kegiatan operasional bank **bjb** memberikan dampak kepada bank **bjb** dan merepresentasikan bank **bjb** sebagai suatu perusahaan.
2. Insan bank **bjb** wajib menghindari situasi benturan kepentingan agar keputusan yang diambil lebih objektif, independen, dan selalu mengedepankan kepentingan bank **bjb**.
3. Insan bank **bjb** yang berpotensi menghadapi atau telah berada pada situasi benturan kepentingan yang dapat mempengaruhi keputusannya wajib mengungkapkan situasi benturan kepentingan yang dihadapinya kepada pihak yang melaksanakan pengelolaan benturan kepentingan melalui surat deklarasi pada saat pertama kali diketahui adanya potensi atau telah berada pada situasi benturan kepentingan oleh yang bersangkutan.
4. Pihak yang melaksanakan pengelolaan benturan kepentingan wajib memberikan rekomendasi atas pengungkapan situasi benturan kepentingan yang dihadapi oleh insan bank **bjb** untuk tidak memperkenankan melanjutkan tugas dan tanggung jawabnya yang berkaitan dengan situasi benturan kepentingan atau tetap berada pada situasi benturan kepentingan tersebut pada surat deklarasi yang telah disampaikan oleh insan bank **bjb**.
5. Setiap insan bank **bjb** yang berpotensi menghadapi atau telah berada pada situasi benturan kepentingan tidak diperkenankan untuk melanjutkan tugas dan tanggung jawabnya dalam rangka mengundang, memberikan persetujuan, melakukan pembahasan, mengungkapkan informasi yang terkait, memanfaatkan fasilitas bank serta melakukan tindakan-tindakan lain yang berkaitan dengan situasi benturan kepentingan tersebut. Dalam hal ini, di antaranya pemberian perlakuan istimewa kepada pihak-pihak tertentu di luar prosedur dan ketentuan yang termasuk dalam kategori benturan kepentingan yang menimbulkan kerugian bank **bjb** atau mengurangi keuntungan bank **bjb** di antaranya pemberian suku bunga lebih rendah atau pemberian kredit kepada debitur atau calon debitur yang dinilai tidak layak yang tidak sesuai dengan prosedur dan ketentuan yang berlaku dikarenakan adanya hubungan afiliasi atau hal lain yang dapat mempengaruhi keputusan insan bank **bjb**, namun demikian dalam hal keputusan tetap harus diambil maka pihak-pihak dimaksud wajib mengutamakan kepentingan ekonomis bank **bjb** dan menghindarkan bank **bjb** dari kerugian yang timbul atau kemungkinan berkurangnya keuntungan bank **bjb** serta wajib mengungkapkan kondisi benturan kepentingan dalam setiap keputusan.

4. Board of Commissioners Decree No. 1/SK/DKO/2024 dated January 17, 2024 concerning Guidelines and Code of Conduct of the Board of Commissioners.
5. Board of Directors Decree No. 0588/SK/DIR-KAP/2025 dated November 27, 2025 concerning Conflict of Interest Guidelines.

Mechanism for managing conflicts of interest is as follows:

1. Decisions made by bank **bjb** personnel in the course of carrying out the operational activities of bank **bjb** have an impact on bank **bjb** and represent bank **bjb** as a company.
2. bank **bjb** personnel must avoid situations of conflicts of interest to ensure that decisions made are more objective, independent, and always prioritize the interests of bank **bjb**.
3. bank **bjb** personnel who potentially face or are already in situations of conflicts of interest that may affect their decisions must disclose the conflict of interest to the party responsible for managing conflicts of interest through a declaration letter when the potential or existing conflict of interest is first known by the individual concerned.
4. The party responsible for managing conflicts of interest must provide recommendations on the disclosure of conflicts of interest faced by bank **bjb** personnel to prevent them from continuing their duties and responsibilities related to the conflict of interest situation, as stated in the declaration letter submitted by the bank **bjb** personnel.
5. Any bank **bjb** personnel who potentially face or are already in situations of conflicts of interest are not allowed to continue their duties and responsibilities related to the conflict of interest situation, including inviting, approving, discussing, disclosing related information, utilizing bank facilities, and taking other actions related to the conflict of interest situation. This includes providing preferential treatment to certain parties outside the procedures and provisions that fall into the category of conflicts of interest that cause losses to bank **bjb** or reduce bank **bjb**'s profits, such as offering lower interest rates or extending credit to debtors or prospective debtors deemed unfit, which do not comply with applicable procedures and provisions due to affiliations or other factors that may influence the decisions of bank **bjb** personnel. However, in case a decision must still be made, the parties involved must prioritize the economic interests of bank **bjb**, avoid losses, or potential reduction of profits, and disclose the conflict of interest in every decision.

6. Parameter situasi benturan kepentingan yang tetap mengharuskan pihak yang mengalami benturan kepentingan untuk tetap ikut serta dalam pengambilan keputusan, antara lain namun tidak terbatas pada:
   a. Adanya keterbatasan sumber daya manusia baik dari sisi kuantitas maupun kualitas dalam hal pengambilan keputusan pada Unit Kerja Terkait dan/atau bank **bjb**.
   b. Tidak mengakibatkan kerugian atau mengurangi keuntungan bagi bank **bjb** dalam setiap pengambilan keputusan.
7. Dalam hal terjadi rangkap jabatan oleh insan bank **bjb** yang berpotensi menimbulkan situasi benturan kepentingan dimungkinkan untuk tetap dilaksanakan selama terdapat ketentuan internal bank **bjb** yang mengatur mengenai rangkap jabatan dimaksud dan tidak bertentangan dengan peraturan perundang-undangan yang berlaku.
8. Insan bank **bjb** yang telah berada pada situasi benturan kepentingan dan harus memberikan keputusan melalui forum rapat, maka wajib mengungkapkan benturan kepentingan dimaksud dalam setiap keputusan yang dituangkan dalam notula rapat.

Sepanjang tahun 2025, terdapat 3 (tiga) laporan benturan kepentingan yang telah ditindaklanjuti sesuai dengan ketentuan internal yang berlaku, termasuk melakukan klarifikasi, analisa serta evaluasi atas potensi benturan kepentingan yang dilaporkan.

Transaksi Pihak Afiliasi

Berdasarkan POJK Nomor 42/POJK.04/2020 yang dimaksud afiliasi adalah:
1. Hubungan keluarga karena perkawinan dan keturunan sampai derajat kedua, baik secara horizontal maupun vertikal;
2. Hubungan antara pihak dengan pegawai, direktur, atau komisaris dari pihak tersebut;
3. Hubungan antara 2 (dua) perusahaan di mana terdapat 1 (satu) atau lebih anggota direksi atau dewan komisaris yang sama;
4. Hubungan antara perusahaan dan pihak, baik langsung maupun tidak langsung, mengendalikan atau dikendalikan oleh perusahaan tersebut;
5. Hubungan antara 2 (dua) perusahaan yang dikendalikan, baik langsung maupun tidak langsung, oleh pihak yang sama; atau
6. Hubungan antara perusahaan dan pemegang saham utama.

Transaksi Afiliasi adalah setiap aktivitas dan/atau transaksi yang dilakukan oleh perusahaan terbuka atau perusahaan terkendali dengan afiliasi dari perusahaan terbuka atau afiliasi dari anggota Direksi, anggota Dewan Komisaris, Pemegang Saham Utama, atau Pengendali, termasuk setiap aktivitas

6. Parameters for conflict of interest situations that still require the involvement of the conflicted party in decisionmaking include, but are not limitedt:
   a. Limitations in human resources, both quantitatively and qualitatively, in decision-making at the Relevant Work Unit and/or bank **bjb**.
   b. Not causing losses or reducing profits for the Bank in every decision-making.
7. In case of overlapping positions by bank **bjb** personnel that may create a conflict of interest situation, it is possible to proceed as long as there are internal regulations of bank **bjb** governing the said overlapping positions and it does not conflict with applicable laws and regulation.
8. bank **bjb** personnel who are in situations of conflicts of interest and are required to make decisions through a meeting forum must disclose the conflict of interest in every decision documented in the meeting minutes.

Throughout 2025, there were 3 (three) conflict of interest reports that have been followed up in accordance with applicable internal provisions, including conducting clarification, analysis, and evaluation of the reported potential conflicts of interest.

Affiliated Party Transactions

Based on OJK regulation Number 42/POJK.04/2020, what is meant by affiliation is:
1. Family relationships due to marriage and descent up to the second degree, both horizontally and vertically;
2. The relationship between the party and the Employee, Board of Directors or Board of Commissioner of that party;
3. Relationship between 2 (two) companies where there are 1 (one) or more members of the same Board of Directors or Board of Commissioners;
4. The relationship between the Company and parties, whether directly or indirectly, controlling or controlled by the company;
5. Relationship between 2 (two) companies controlled, either directly or indirectly, by the same party; or
6. The relationship between the company and its major shareholders.

Affiliate Transaction is any activity and/or transaction carried out by a public company or controlled company with an affiliate of a public company or an affiliate of a member of the Board of Directors, member of the Board of Commissioners, Major Shareholders or Controller, including every activity and/or

dan/atau transaksi yang dilakukan oleh Perusahaan Terbuka atau Perusahaan Terkendali untuk kepentingan afiliasi dari Perusahaan Terbuka atau afiliasi dari anggota Direksi, anggota Dewan Komisaris, Pemegang Saham Utama, atau Pengendali.

Sepanjang tahun 2025, tidak terdapat transaksi material yang memenuhi kategori transaksi pihak afiliasi.

Transaksi Pihak Berelasi

Dalam menjalankan usahanya, bank **bjb** dan entitas anak melakukan transaksi dengan pihak-pihak berelasi seperti yang didefinisikan dalam PSAK No. 7 (Revisi 2015) tentang "Pengungkapan Pihak-pihak Berelasi".

Suatu pihak dianggap berelasi dengan Bank dan entitas anak jika:

i. Suatu pihak yang secara langsung. atau tidak langsung yang melalui satu atau lebih perantara. suatu pihak (i) mengendalikan. atau dikendalikan oleh. atau berada di bawah pengendalian bersama. dengan Bank dan entitas anak; (ii) memiliki pengaruh signifikan atas Bank dan entitas anak; atau (iii) memiliki pengendalian bersama atas Bank dan entitas anak;

Persentase terhadap total beban bunga dan bonus	**2.60%**	**2.14%**	**Percentage of total interest and bonus expenses**

Realisasi transaksi dengan pihak berelasi pada tahun 2025 masih berada pada tingkat yang relatif terbatas terhadap total posisi keuangan dan kinerja bank **bjb**. Dari sisi aset, total aset kepada pihak berelasi – neto tercatat sebesar Rp680,81 miliar, meningkat dibandingkan tahun 2024 sebesar Rp509,47 miliar. Kenaikan ini terutama berasal dari peningkatan kredit yang diberikan, sehingga persentasenya terhadap total aset – neto meningkat menjadi 0,32% dari 0,24%. Dari sisi liabilitas dan dana syirkah temporer, total transaksi kepada pihak berelasi tercatat sebesar Rp5,49 triliun, menurun dibandingkan tahun 2024 sebesar Rp6,41 triliun. Sejalan dengan itu, persentasenya terhadap total liabilitas dan dana syirkah temporer juga menurun menjadi 2,74% dari 3,20%.

Sementara itu, dari sisi pendapatan bunga dan bagi hasil, total pendapatan dari pihak berelasi meningkat menjadi Rp57,79 miliar dari Rp34,59 miliar, dengan kontribusi terhadap total pendapatan bunga dan syariah meningkat menjadi 0,34% dari 0,22%. Di sisi beban bunga, total beban kepada pihak berelasi juga meningkat menjadi Rp248,79 miliar dari Rp197,44 miliar, sehingga porsinya terhadap total beban bunga dan bonus meningkat menjadi 2,60% dari 2,14%.

Secara keseluruhan, transaksi dengan pihak berelasi masih berada dalam porsi yang terkendali dan dilakukan sebagai bagian dari kegiatan usaha normal bank **bjb** dengan tetap memperhatikan prinsip kewajaran dan ketentuan yang berlaku.

Rujukan Pengungkapan dalam Laporan Keuangan

Rincian nama pihak terkait realisasi (nilai) transaksi pihak berelasi disajikan pada Catatan 43 atas Laporan Keuangan yang terlampir pada Laporan Tahunan ini. Transaksi berelasi tersebut merupakan kegiatan usaha yang dijalankan dalam rangka menghasilkan pendapatan usaha dan dijalankan secara rutin, berulang, dan/atau berkelanjutan.

Pemenuhan Peraturan dan Ketentuan Terkait

Selama tahun 2025 dan 2024, tidak terdapat pelanggaran terhadap peraturan perundang-undangan terkait transaksi dengan pihak berelasi. Selain itu, pada tahun 2025 dan 2024 tidak terdapat transaksi pihak berelasi yang memerlukan persetujuan Pemegang Saham Independen.

Mekanisme *Review* Transaksi Pihak Berelasi serta Peran Dewan Komisaris dan Komite Audit

Dalam memastikan bahwa setiap transaksi dengan pihak berelasi dilakukan secara wajar dan sesuai dengan kepentingan bank **bjb** (*arm's length principle*), bank **bjb** menerapkan mekanisme *review* transaksi pihak berelasi yang telah ditetapkan secara internal. Melalui mekanisme ini, setiap

The realization of transactions with related parties in 2025 remained relatively limited compared to the overall financial position and performance of bank **bjb**. From the asset side, total assets with related parties – net amounted to IDR680.81 billion, increasing from IDR509.47 billion in 2024. This increase was primarily driven by the growth in loans, resulting in an increase in its proportion to total assets – net to 0.32% from 0.24%. From the liabilities and temporary syirkah fund side, total transactions with related parties amounted to IDR5.49 trillion, decreasing from IDR6.41 trillion in 2024. In line with this, its proportion to total liabilities and temporary syirkah funds also declined to 2.74% from 3.20%.

Meanwhile, from the perspective of interest income and profit sharing, total income from related parties increased to IDR57.79 billion from IDR34.59 billion, with its contribution to total interest and sharia income rising to 0.34% from 0.22%. On the expense side, total interest expense to related parties also increased to IDR248.79 billion from IDR197.44 billion, resulting in its proportion to total interest expense and bonuses increasing to 2.60% from 2.14%.

Overall, transactions with related parties remained within a controlled proportion and were conducted as part of bank **bjb**'s normal business activities, while adhering to the arm's length principle and prevailing regulations.

Disclosure Reference in Financial Reports

Details of the names of related parties and the realization (value) of related party transactions are presented in Note 43 to the Financial Statements as attached to this Annual Report. Such related party transactions represent business activities undertaken in the ordinary course of business to generate operating income and are conducted on a routine, recurring, and/or continuous basis.

Compliance with Related Regulations and Provisions

During 2025 and 2024, there were no violations of laws and regulations related to transactions with related parties. In addition, in 2025 and 2024, there were no related party transactions requiring approval from Independent Shareholders.

Mechanism for Reviewing Related Party Transactions and the Role of the Board of Commissioners and the Audit Committee

In ensuring that each transaction with related parties is conducted on an arm's length basis and in accordance with the interests of bank **bjb**, the Bank has implemented an internally established related party transaction review mechanism. Through this mechanism, each transaction is first identified,

transaksi terlebih dahulu diidentifikasi, dianalisis, dan dievaluasi kewajarannya guna memastikan tidak terdapat unsur benturan kepentingan serta tetap mengedepankan prinsip tata kelola perusahaan yang baik.

Sejalan dengan hal tersebut, sebagaimana telah diuraikan pada bagian transaksi benturan kepentingan, bank **bjb** telah memiliki kebijakan yang mengatur transaksi benturan kepentingan, termasuk transaksi dengan pihak berelasi. Dalam implementasinya, transaksi yang bersifat material diputuskan oleh pejabat tertinggi pada masing-masing level kewenangan, serta dibahas dan diputuskan dalam Rapat Direksi apabila terdapat benturan kepentingan yang melibatkan Direksi, sehingga proses *review* dan pengambilan keputusan tetap berlangsung secara independen, objektif, dan akuntabel. Proses ini juga dilengkapi dengan pengawasan Dewan Komisaris yang didukung oleh Komite Audit melalui penelaahan kewajaran dan kepatuhan untuk memastikan pelaksanaannya tetap transparan, independen, dan sesuai dengan kepentingan terbaik bank **bjb**.

Pernyataan Direksi Terkait Transaksi Pihak Berelasi

Transaksi material dengan pihak berelasi diputuskan dengan senantiasa memperhatikan prinsip kehati-hatian dan independen serta telah memenuhi ketentuan Otoritas Jasa Keuangan maupun peraturan perundang undangan lain yang berlaku. Direksi menyatakan bahwa transaksi telah melalui prosedur yang memadai untuk memastikan bahwa transaksi dilaksanakan sesuai dengan praktik bisnis yang berlaku umum antara lain dilakukan dengan memenuhi prinsip transaksi yang wajar (*arm's length principle*).

Kebijakan Pemberian Pinjaman Bagi Dewan Komisaris/Direksi

bank **bjb** dan entitas anak telah memenuhi ketentuan Bank Indonesia tentang Batas Maksimum Pemberian Kredit (BMPK) sesuai Peraturan Otoritas Jasa Keuangan Republik Indonesia Nomor 32/POJK.03/2018 tentang Batas Maksimum Pemberian Kredit (BMPK) dan Penyediaan Dana Besar Bagi Bank Umum dan POJK No. 38/POJK.03/2019 Tentang Perubahan atas POJK No. 32/POJK.03/2018 Tentang BMPK dan Penyediaan Dana Besar Bagi Bank Umum.

Sesuai dengan POJK No. 38/POJK.03/2019 Tentang Perubahan atas POJK No. 32/POJK.03/2018 Tentang BMPK dan Penyediaan Dana Besar Bagi Bank Umum, yang dimaksud dengan Pihak Terkait adalah termasuk anggota Direksi, anggota Dewan Komisaris dan Pejabat Eksekutif Bank. Pemberian kredit kepada Direksi dan Dewan Komisaris termasuk ke dalam penyediaan dana kepada pihak terkait, dan hal ini wajib mendapatkan persetujuan kepada Dewan Komisaris.

analyzed, and evaluated for its fairness to ensure that there is no element of conflict of interest while upholding the principles of good corporate governance.

In line with this, as described in the section on conflict of interest transactions, bank **bjb** has established policies governing conflict of interest transactions, including transactions with related parties. In practice, material transactions are decided by the highest authority at each respective level of authority, and are discussed and resolved in Board of Directors meetings if a conflict of interest involves members of the Board of Directors, thereby ensuring that the review and decision-making processes remain independent, objective, and accountable. This process is further supported by oversight from the Board of Commissioners, assisted by the Audit Committee through the review of fairness and compliance, to ensure that its implementation remains transparent, independent, and aligned with the best interests of bank **bjb**.

Directors' Statement Regarding Related Transactions

Material transactions with related parties are determined with due regard to the principles of prudence and independence, and have complied with the regulations of the Financial Services Authority as well as other applicable laws and regulations. The Board of Directors confirms that such transactions have undergone adequate procedures to ensure that they are conducted in accordance with generally accepted business practices, including compliance with the arm's length principle.

Loan Provision Policy for Board of Commissioners/Board of Directors

bjb and its subsidiaries have complied with Bank Indonesia regulations on the Maximum Credit Provision (BMPK) in accordance with the Financial Services Authority of the Republic of Indonesia Regulation No. 32/POJK.03/2018 on Maximum Credit Provision and Large Fund Allocation for Commercial Banks, as amended by POJK No. 38/POJK.03/2019.

In accordance with POJK No. 38/POJK.03/2019, amending POJK No. 32/POJK.03/2018 on Maximum Credit Provision and Large Fund Allocation for Commercial Banks, "Related Parties" include members of the Board of Directors, Board of Commissioners, and Bank Executive Officers. Credit granted to Directors and Commissioners falls under related party funding and must obtain approval from the Board of Commissioners.

Penyediaan dana kepada pihak terkait telah diatur oleh Otoritas Jasa Keuangan dan ketentuan internal bank **bjb** yaitu:

- Surat Keputusan Direksi Nomor 0160/SK/DIR-MRP/2024 Tanggal 29 April 2024 tentang Kebijakan Perkreditan Bank.
- Surat Keputusan Komite Kebijakan Perkreditan Nomor 0005/SK/CPC-KPR/2024 Tanggal 21 Oktober 2024 tentang Susunan Komite Kredit, Susunan Komite Restrukturisasi Kredit, Limit Kewenangan Memutus Kredit (LKMK) dan Limit Kewenangan Restrukturisasi Kredit.

Ketentuan dan prosedur pemberian kredit kepada Direksi dan Dewan Komisaris berlaku sama seperti pemberian kredit kepada calon debitur bank **bjb** pada umumnya dan diberikan sesuai bunga pasar (*market rate*) dan wajar (*arm's length basis*) dengan tetap memperhatikan prinsip kehati-hatian.

Related party funding is governed by the Financial Services Authority and **bjb**'s internal regulations, as follows:

- Board of Directors Decree No. 0160/SK/DIR-MRP/2024 dated April 29, 2024, regarding the Bank's Credit Policy.
- Credit Policy Committee Decree No. 0005/SK/CPC-KPR/2024 dated October 21, 2024, concerning the Composition of the Credit Committee, Credit Restructuring Committee, Credit Decision Authority Limits (LKMK), and Credit Restructuring Authority Limits.

The provisions and procedures for granting credit to Directors and Commissioners are the same as those applied to prospective **bjb** debtors, provided at market rates and on an arm's length basis, while still observing prudential principles.

Perubahan Peraturan Perundang-Undangan dan Dampaknya Terhadap Bank

Perubahan peraturan perundang-undangan yang berpengaruh terhadap bank **bjb** beserta dampak perubahan dan informasi penyesuaian yang dilakukan bank **bjb** terhadap perubahan tersebut selama tahun 2025 adalah sebagai berikut.

Changes In Legislation and Their Impact on the Bank

The changes in legislation that affect bank **bjb**, along with the impacts of these changes and the adjustments made by bank **bjb** in response to these changes throughout 2025, are as follow.

Banks shall ensure that any transactions with related parties are not more favorable than transactions conducted with other parties under similar conditions and are carried out on an arm's length basis. 2. Transactions between the Bank and related parties, as well as the write-off of exposures to related parties, must obtain approval from the Bank's Board of Commissioners.	1. Bank menyusun dan memiliki kebijakan dan prosedur transaksi Bank dengan pihak yang memiliki hubungan istimewa serta memastikan penerapan kebijakan dan prosedur secara efektif, untuk memastikan transaksi terhadap pihak yang memiliki hubungan istimewa dilakukan tanpa adanya benturan kepentingan. 1. Banks shall establish and maintain policies and procedures governing transactions with related parties and ensure their effective implementation, in order to ensure that such transactions are conducted without any conflict of interest.
4.	SEOJK Nomor 26/ SEOJK.03/2025 Circular Letter of the Financial Services Authority Number 26/ SEOJK.03/2025	19 November 2025 November 19, 2025	Proses Asesment Kecukupan Likuiditas Secara Internal Internal Liquidity Adequacy Assessment Process	1. Bank adalah bank yang melaksanakan usaha secara konvensional atau melaksanakan kegiatan usaha berdasarkan prinsip syariah, yang dalam kegiatannya memberikan jasa dalam lalu lintas pembayaran, termasuk kantor cabang dari bank yang berkedudukan di luar negeri dan unit usaha syariah. 2. Bank Umum Konvensional yang selanjutnya disingkat BUK adalah bank umum, termasuk kantor cabang dari Bank yang berkedudukan di luar negeri, yang melaksanakan kegiatan usaha secara konvensional. 3. *Internal liquidity adequacy assessment* process atau proses asesmen kecukupan likuiditas secara internal yang selanjutnya disingkat ILAAP adalah proses yang dilakukan Bank untuk memperhitungkan kecukupan likuiditas dalam berbagai skenario kondisi pasar serta periode tekanan yang mungkin dihadapi oleh Bank. 4. *Liquidity supervisory review and evaluation process* atau proses peninjauan dan evaluasi likuiditas dalam rangka pengawasan yang selanjutnya disingkat LSREP merupakan proses evaluasi atas hasil ILAAP Bank yang dilakukan oleh Otoritas Jasa Keuangan. 5. Bank wajib melakukan ILAAP yang disesuaikan dengan ukuran, karakteristik, dan kompleksitas usaha Bank. 6. Bank menentukan kecukupan likuiditas dengan memperhatikan kondisi pasar dan periode tekanan yang mungkin dihadapi oleh Bank. 7. ILAAP merupakan proses yang tidak terpisahkan dari manajemen risiko likuiditas Bank sebagaimana ketentuan Otoritas Jasa Keuangan mengenai penerapan manajemen risiko bagi Bank. Dalam penerapan ILAAP, Bank perlu memastikan pengelolaan likuiditas Bank sejalan dengan tingkat risiko yang diambil *(risk appetite)* dan toleransi risiko *(risk tolerance)* yang ditetapkan oleh Bank serta memperhitungkan dampak risiko likuiditas terhadap kondisi Bank.	1. Dalam penerapan ILAAP, Bank perlu memastikan pengelolaan likuiditas Bank sejalan dengan tingkat risiko yang diambil *(risk appetite)* dan toleransi risiko *(risk tolerance)* yang ditetapkan oleh Bank serta memperhitungkan dampak risiko likuiditas terhadap kondisi Bank. 2. Bank secara berkala menyampaikan laporan ILAAP kepada Otoritas Jasa Keuangan yang akan dijadikan bahan pertimbangan dalam penilaian profil risiko untuk risiko likuiditas sesuai dengan Peraturan Otoritas Jasa Keuangan mengenai penerapan manajemen risiko bagi Bank dan *self assessment* tingkat kesehatan Bank sesuai dengan ketentuan Otoritas Jasa Keuangan mengenai penilaian tingkat kesehatan Bank. 3. Laporan ILAAP terdiri dari Laporan Penerapan ILAAP, Laporan Likuiditas Intrahari, Laporan LCR dalam Mata Uang Asing yang Signifikan, Laporan Profil Pendanaan, Laporan *Survival Period Monitoring* (SPM), serta Laporan Nasabah *Displaced Commercial Risk* (DCR) dan Strategi Perataan Bagi Hasil (bagi Bank Umum Syariah dan Unit Usaha Syariah).

No	Peraturan Regulation	Tanggal Berlaku Effective Date	Tentang Subject	Uraian Pokok Pengaturan Key Provisions	Informasi Penyesuaian Yang Dilakukan bank bjb Adjustments Made bank bjb
				8. Dalam melakukan ILAAP, Bank menerapkan manajemen risiko mengacu pada: a. Lampiran I.A untuk BUK; dan b. Lampiran II.A untuk BUS dan UUS, yang merupakan bagian tidak terpisahkan dari Surat Edaran Otoritas Jasa Keuangan ini 9. Dalam penerapan ILAAP, Bank diharapkan dapat: a. Meningkatkan penerapan manajemen risiko likuiditas Bank melalui penilaian sendiri *(self-assessment)* atas kecukupan likuiditas secara berkesinambungan dengan mempertimbangkan berbagai skenario kondisi pasar dan periode tekanan yang mungkin dihadapi oleh Bank. b. Meningkatkan konsistensi antara strategi dan operasional Bank dalam menjaga kecukupan likuiditas. c. Mengetahui kecukupan likuiditas pada berbagai kondisi stres yang mungkin dihadapi oleh Bank. d. Mendapatkan gambaran risiko likuiditas sehingga meningkatkan kemampuan pengambilan keputusan Bank. e. Mendokumentasikan dan menunjukkan kecukupan likuiditas dalam laporan yang lebih spesifik dan detail atas risiko likuiditas. 10. Dalam penerapan ILAAP, Bank menyusun dan menyampaikan laporan ILAAP kepada Otoritas Jasa Keuangan. Laporan ILAAP menjadi bahan pertimbangan dalam penilaian: a. Profil risiko untuk risiko likuiditas sesuai dengan Peraturan Otoritas Jasa Keuangan mengenai penerapan manajemen risiko bagi Bank. b. *Self-Assessment* tingkat kesehatan Bank sesuai dengan ketentuan Otoritas Jasa Keuangan mengenai penilaian tingkat kesehatan Bank. 11. Penerapan LSREP antara lain mencakup evaluasi atas: a. Keterlibatan direksi, dewan komisaris, dan dewan pengawas syariah bagi BUS dan UUS dalam penerapan ILAAP termasuk dalam penyusunan kebijakan, pengawasan, dan pelaksanaan kaji ulang; b. Kebijakan terkait tingkat risiko yang *diambil (risk appetite)* Bank, rencana pendanaan, akses pasar, kemampuan Bank untuk monetisasi aset likuid berkualitas tinggi atau *High Quality Liquid Asset* (HQLA), manajemen likuiditas intrahari, dan rencana kontingensi likuiditas. c. Proses identifikasi Bank atas kebutuhan likuiditas dalam kondisi stres untuk semua *risk drivers* yang relevan dan kecukupan sumber daya likuiditas Bank untuk memenuhi kebutuhan tersebut. d. Pelaksanaan kaji ulang dan evaluasi dalam rangka pengendalian intern atas ILAAP. 12. Dalam pelaksanaan LSREP, Otoritas Jasa Keuangan dapat meminta Bank untuk melakukan pengkinian dan penyesuaian antara lain terkait skenario dalam laporan ILAAP dan persentase rasio kecukupan likuiditas atau *Liquidity Coverage Ratio* (LCR) yang harus dipenuhi oleh Bank. 13. Bank menyampaikan hasil penginian dan penyesuaian ILAAP sesuai permintaan Otoritas Jasa Keuangan. 1. A Bank is a bank that conducts business activities conventionally or based on sharia principles, which in its operations provides payment traffic services, including branch offices of banks domiciled abroad and sharia business units. 2. A Conventional Commercial Bank, hereinafter referred to as BUK, is a commercial bank, including branch offices of banks domiciled abroad, that conducts business activities conventionally. 3. Internal Liquidity Adequacy Assessment Process, hereinafter referred to as ILAAP, is a process undertaken by a Bank to assess its liquidity adequacy under various market scenarios and stress periods that may be faced by the Bank. 4. Liquidity Supervisory Review and Evaluation Process, hereinafter referred to as LSREP, is the process of evaluating the results of the Bank's ILAAP conducted by the Financial Services Authority. 5. Banks are required to implement ILAAP in accordance with the size, characteristics, and complexity of the Bank's business. 6. Banks shall determine liquidity adequacy by considering market conditions and stress periods that may be faced by the Bank. 7. ILAAP is an integral part of the Bank's liquidity risk management as stipulated in the Financial Services Authority regulations regarding the implementation of risk management for banks. In implementing ILAAP, the Bank shall ensure that liquidity management is aligned with the Bank's risk appetite and risk tolerance, and takes into account the impact of liquidity risk on the Bank's condition.	4. Periode penyampaian laporan pertama kali dan pelaksanaan uji coba didasarkan pada pengelompokan Bank sebagai KBMI 1, KBMI 2, KBMI 3, KBMI 4, dan/atau Bank Asing per tanggal 31 Desember 2025. 5. Otoritas Jasa Keuangan melakukan *Liquidity Supervisory Review And Evaluation Process* (LSREP) yang merupakan proses evaluasi Otoritas Jasa Keuangan atas hasil ILAAP Bank. 6. Dalam hal berdasarkan ILAAP dan LSREP, Bank dinilai memiliki tingkat risiko likuiditas yang tinggi, Bank mengambil langkah-langkah antara lain seperti penguatan kondisi likuiditas dan penguatan manajemen risiko ILAAP. 1. In implementing ILAAP, the Bank shall ensure that its liquidity management is aligned with the level of risk assumed (risk appetite) and risk tolerance established by the Bank, and shall take into account the impact of liquidity risk on the Bank's condition. 2. The Bank shall periodically submit ILAAP reports to the Financial Services Authority, which will be used as a basis for assessing the liquidity risk profile in accordance with the Financial Services Authority regulations on the implementation of risk management for banks, and for the Bank's self-assessment of soundness level in accordance with the Financial Services Authority provisions on bank soundness assessment. 3. The ILAAP report consists of the ILAAP Implementation Report, Intraday Liquidity Report, Liquidity Coverage Ratio (LCR) Report in Significant Foreign Currencies, Funding Profile Report, Survival Period Monitoring (SPM) Report, as well as Displaced Commercial Risk (DCR) Customer Report and Profit Equalization Strategy Report (for Sharia Commercial Banks and Sharia Business Units). 4. The initial reporting period and trial implementation shall be based on the classification of Banks as KBMI 1, KBMI 2, KBMI 3, KBMI 4, and/or Foreign Banks as of December 31, 2025. 5. The Financial Services Authority conducts the Liquidity Supervisory Review and Evaluation Process (LSREP), which is the evaluation process of the Financial Services Authority on the results of the Bank's ILAAP. 6. In the event that, based on ILAAP and LSREP, the Bank is assessed as having a high level of liquidity risk, the Bank shall take necessary measures, including strengthening its liquidity condition and enhancing ILAAP risk management.

No	Peraturan Regulation	Tanggal Berlaku Effective Date	Tentang Subject	Uraian Pokok Pengaturan Key Provisions	Informasi Penyesuaian Yang Dilakukan bank bjb Adjustments Made bank bjb
				8. In implementing ILAAP, the Bank shall apply risk management in accordance with: a. Appendix I.A for BUK; and b. Appendix II.A for Sharia Commercial Banks (BUS) and Sharia Business Units (UUS), which form an integral part of this Circular Letter of the Financial Services Authority. 9. In implementing ILAAP, the Bank is expected to: a. Enhance the implementation of liquidity risk management through continuous self-assessment of liquidity adequacy by considering various market scenarios and stress periods that may be faced by the Bank. b. Improve consistency between the Bank's strategies and operations in maintaining liquidity adequacy. c. Identify liquidity adequacy under various stress conditions that may be faced by the Bank. d. Obtain a comprehensive understanding of liquidity risk to enhance the Bank's decision-making capability. e. Document and demonstrate liquidity adequacy in more specific and detailed reports on liquidity risk. 10. In implementing ILAAP, the Bank shall prepare and submit the ILAAP report to the Financial Services Authority. The ILAAP report serves as a basis for assessment of: a. Risk profile for liquidity risk in accordance with the Financial Services Authority regulations on the implementation of risk management for banks. b. The Bank's self-assessment of soundness level in accordance with the Financial Services Authority provisions on bank soundness assessment. 11. The implementation of LSREP includes, among others, the evaluation of: a. The involvement of the Board of Directors, Board of Commissioners, and Sharia Supervisory Board (for BUS and UUS) in the implementation of ILAAP, including in policy formulation, oversight, and review processes; b. Policies related to the Bank's risk appetite, funding plans, market access, the Bank's ability to monetize High Quality Liquid Assets (HQLA), intraday liquidity management, and liquidity contingency plans; c. The Bank's process in identifying liquidity needs under stress conditions for all relevant risk drivers and the adequacy of the Bank's liquidity resources to meet such needs; d. The implementation of review and evaluation as part of internal control over ILAAP. 12. In the implementation of LSREP, the Financial Services Authority may require the Bank to update and adjust, among others, the scenarios in the ILAAP report and the percentage of liquidity adequacy ratio or Liquidity Coverage Ratio (LCR) that must be met by the Bank. 13. Banks shall submit the updated and adjusted ILAAP results in accordance with the request of the Financial Services Authority.

Tingkat Kesehatan Bank

Mengacu pada Surat Edaran Otoritas Jasa Keuangan (SEOJK) Nomor 14/SEOJK.03/2017 tanggal 17 Maret 2017 tentang Penilaian Tingkat Kesehatan Bank Umum. Tingkat Kesehatan Bank adalah hasil penilaian kondisi Bank yang dilakukan terhadap Risiko dan kinerja Bank. Bank wajib melakukan penilaian Tingkat Kesehatan Bank secara *self assessment* untuk posisi akhir bulan Juni dan Desember. Penilaian Tingkat Kesehatan dengan pendekatan Risiko *(Risk-Based Bank Rating)* tersebut dilakukan dengan cakupan penilaian terhadap faktor-faktor:

a. Profil Risiko
b. Tata Kelola
c. Rentabilitas
d. Permodalan

Peringkat Komposit Tingkat Kesehatan Bank ditetapkan berdasarkan analisis yang komprehensif dan terstruktur dengan memperhatikan materialitas dan signifikansi masing-masing faktor penilaian.'

Peringkat Komposit Tingkat Kesehatan Bank dikategorikan sebagai berikut:

a. Peringkat Komposit 1 (PK-1) mencerminkan kondisi Bank yang secara umum Sangat Sehat.
b. Peringkat Komposit 2 (PK-2) mencerminkan kondisi Bank yang secara umum Sehat.
c. Peringkat Komposit 3 (PK-3) mencerminkan kondisi Bank yang secara umum Cukup Sehat.

Bank Soundness Level

Referring to the OJK Circular Letter (SEOJK) Number 14/SEOJK.03/2017 dated March 17, 2017 concerning Assessment of the Soundness Level of Commercial Banks. Bank Soundness Level is the result of an assessment of the Bank's condition regarding Bank Risk and performance. Banks are required to carry out a thorough assessment of the Bank Soundness Level self-assessment for positions at the end of June and December. Bank Soundness Level Assessment with a Risk approach (Risk-Based Bank Rating) is carried out with the scope of the assessment to factors:

a. Risk Profile
b. Governance
c. Profitability
d. Capital

The Bank Soundness Composite Rating is determined based on a comprehensive and structured analysis taking into account the materiality and significance of each assessment factor.

Bank Soundness Composite Ratings are categorized as follows::

a. Composite Rating 1 (CR-1), reflects Bank's condition that is in general extremely sound.
b. Composite Rating 2 (CR-2), reflects Bank's condition that is in general sound.
c. Composite Rating 3 (CR-3), reflects Bank's condition that is in general adequately sound.

d. Peringkat Komposit 4 (PK-4) mencerminkan kondisi Bank yang secara umum Kurang Sehat.
e. Peringkat Komposit 5 (PK-5) mencerminkan kondisi Bank yang secara umum Tidak Sehat.

Hasil penilaian secara *self assessment* Peringkat Komposit Tingkat Kesehatan bank **bjb** per 31 Desember 2025 dan 31 Desember 2024 adalah sebagai berikut:

d. Composite Rating 4 (CR-4), reflects Bank's condition that is in general less sound.
e. Composite Rating 5 (CR-5), reflects Bank's condition that is in general unsound..

The results of the self-assessment of bank **bjb** Composite Soundness Rating as of December 31, 2025 and December 31, 2024 are as follows:

Tabel Tingkat Kesehatan Bank
Table of Bank Soundness Levels

Faktor Penilaian	Peringkat Komposit / Composite Rating		Rating Factors
	31 Desember 2025 December 31, 2025	31 Desember 2024 December 31, 2024	
Profil Risiko	**2**	2	Risk Profile
Tata Kelola	**2**	2	Governance
Rentabilitas	**3**	2	Profitability
Permodalan	**2**	2	Capital
Peringkat komposit	**2**	**2**	**Composite rating**

Peringkat Komposit Tingkat Kesehatan bank **bjb** posisi 31 Desember 2025 berada pada PK 2 (Sehat). Kondisi bank **bjb** secara umum sehat, sehingga dinilai mampu menghadapi pengaruh negatif yang signifikan dari perubahan kondisi bisnis dan faktor eksternal lainnya. Hal ini tercermin dari peringkat faktor penilaian antara lain profil risiko, penerapan tata kelola, rentabilitas, dan permodalan yang secara umum baik. Dalam hal terdapat kelemahan, maka secara umum kelemahan tersebut kurang signifikan.

bjb's soundness Level Composite Rating position 31 December 2025 is at CR 2 (General Sound). bank **bjb**'s condition is generally sound, so it is considered being capable of facing significant negative influence from changes in business condition and other external factors. This is reflected in the rating of assessment factors including risk profile, implementation of governance, profitability and capital which are generally good. If there is a weakness, in general the weakness is less significant.

Informasi Kelangsungan Usaha

Hal-Hal yang Berpotensi Berpengaruh Signifikan Terhadap Kelangsungan Usaha

Ketidakpastian ekonomi global masih tinggi akibat perubahan kebijakan perdagangan internasional. Meski ketegangan dagang antara Amerika Serikat (AS) dan Tiongkok sempat mereda melalui kesepakatan sementara dan penyesuaian tarif di beberapa sektor, arah kebijakan perdagangan global belum sepenuhnya jelas. Kondisi ini menahan minat investasi dan membuat arus perdagangan global tumbuh lebih lambat karena pelaku usaha cenderung bersikap hati-hati.

Di sisi lain, risiko geopolitik terus membebani perekonomian global. Konflik Rusia dan Ukraina yang belum berakhir masih mengganggu pasokan energi dan pangan dunia, khususnya bagi negara-negara Eropa. Sementara itu, meningkatnya ketegangan di Timur Tengah, termasuk risiko konflik antara Iran dan Israel, mendorong kenaikan premi risiko dan memicu volatilitas harga

Business Continuity Information

Significant Potential Towards of Business Continuity

Global economic uncertainty remains high due to changes in international trade policies. Although trade tensions between the United States (US) and China eased temporarily through interim agreements and tariff adjustments in certain sectors, the overall direction of global trade policy remains unclear. This situation has restrained investment interest and slowed the growth of global trade, as businesses adopt a more cautious approach.

On the other hand, geopolitical risks continue to weigh on the global economy. The ongoing Russia–Ukraine conflict still disrupts global energy and food supplies, particularly for European countries. Meanwhile, rising tensions in the Middle East, including the risk of conflict between Iran and Israel, have driven up risk premiums and triggered oil price volatility due

minyak akibat kekhawatiran terhadap stabilitas pasokan, meskipun pasokan fisik energi relatif tetap terjaga.

Kondisi tersebut berpotensi menjaga tekanan inflasi tetap tinggi dan menyebabkan suku bunga global bertahan pada level yang relatif tinggi dalam jangka waktu lebih lama. Bagi industri perbankan, kondisi ini berdampak pada meningkatnya biaya dana *(cost of fund)* serta semakin ketatnya likuiditas di pasar, seiring dengan meningkatnya kompetisi dalam penghimpunan dana.

Salah satu tantangan utama yang dihadapi adalah penghimpunan DPK. Realisasi Dana Pihak Ketiga (DPK) hingga akhir Triwulan IV 2025 tercatat sebesar Rp122,10 triliun atau 97,43% dari target sebesar Rp125,31 triliun, dengan deviasi negatif sebesar Rp3,2 triliun. Dimana produk giro mencatat pencapaian kinerja di Triwulan IV 2025 sebesar 71,79%, kondisi ini dikarenakan adanya penarikan dana akibat penggunaan rekening KASDA pada Giro Pemda. Tabungan mencatat pencapaian sebesar 83,02%, hal tersebut disebabkan oleh penyesuaian tingkat suku bunga yang mendorong nasabah *High Net Worth Individual* (HNWI) yang sensitif terhadap perubahan suku bunga mengalihkan simpanannya dari bank **bjb**. Selain itu adanya strategi penyesuaian suku bunga tabungan dengan rate khusus juga dibatasi dengan tujuan untuk menjaga efisiensi *cost of fund*. Produk simpanan berjangka masih menjadi penopang utama dalam struktur DPK dengan realisasi sebesar Rp70,70 triliun dengan pencapaian 117,49%. Hal tersebut mengindikasikan bahwa produk ini masih menjadi pilihan unggulan bagi nasabah yang mengutamakan kepastian imbal hasil dan stabilitas penempatan dana. Kontribusi simpanan berjangka yang signifikan juga membantu memperkuat fondasi pendanaan bank secara berkelanjutan, meskipun pengelolaan *cost of fund* tetap menjadi area yang harus dioptimalkan.

Di sisi lain, penyaluran dana khususnya kredit yang diberikan juga mengalami tantangan. Realisasi kredit yang diberikan selama tahun 2025 tercatat sebesar Rp111,94 triliun, dengan pencapaian 96,57% dari target yang ditetapkan. Kondisi ini menunjukkan adanya perlambatan penyaluran kredit pada akhir tahun yang dapat dipengaruhi oleh kondisi permintaan kredit yang melemah. Secara segmentasinya kredit korporasi tercatat sebesar 85,94%. Ketidaktercapaian kredit korporasi tersebut dipengaruhi oleh pelunasan beberapa debitur yang memiliki tingkat suku bunga di bawah SBDK, sehingga nilai *outstanding* menurun. Selain itu, ekspansi kredit dan pencairan longgar tarik belum berjalan optimal karena tingkat persaingan suku bunga yang ketat, sehingga minat debitur untuk melakukan pengajuan kredit baru menjadi terbatas. Kredit komersial tercapai sebesar 94,73%, adapun yang menjadi kendala pencapaian adalah proyeksi *pipeline* dari kantor cabang, kantor wilayah, dan kantor pusat tidak dapat terealisasi karena pencairan kredit yang bergeser (*carry over*) ke tahun berikutnya. Selain itu, mayoritas BPR memiliki likuiditas tinggi sehingga penarikan longgar tarik belum optimal meskipun masih terdapat LCU BPR dengan longgar tarik yang signifikan.

to concerns over supply stability, even though physical energy supplies remain relatively stable.

This situation has the potential to keep inflationary pressures high and sustain global interest rates at relatively elevated levels for a longer period. For the banking industry, this results in higher funding costs (cost of fund) and tighter market liquidity, coupled with increased competition in fund mobilization.

One of the main challenges faced is the mobilization of third-party funds (DPK). As of the end of the fourth quarter of 2025, DPK reached IDR122.10 trillion, or 97.43% of the target of IDR125.31 trillion, with a negative deviation of IDR3.2 trillion. Demand deposits achieved 71.79% in Q4 2025, impacted by withdrawals due to the use of KASDA accounts in municipal current accounts. Savings reached 83.02%, affected by interest rate adjustments that led interest-sensitive High Net Worth Individual (HNWI) customers to shift their funds from **bjb**. Additionally, special rate adjustments on savings were limited to maintain cost-of-fund efficiency. Time deposits remained the mainstay of DPK structure with a realization of IDR70.70 trillion, achieving 117.49%, indicating that this product continues to be preferred by customers prioritizing yield certainty and fund placement stability. The significant contribution of time deposits also strengthens **bjb**'s sustainable funding foundation, although cost-of-fund management remains an area requiring optimization.

On the other hand, fund disbursement, particularly credit, also faced challenges. Total credit disbursed during 2025 amounted to IDR111.94 trillion, achieving 96.57% of the target. This reflects a slowdown in credit disbursement at year-end due to weaker credit demand. By segment, corporate credit reached 85.94%, impacted by repayments from debtors with below-SBDK interest rates, which reduced outstanding balances. Credit expansion and drawdowns were not optimal due to tight interest rate competition, limiting debtor interest in new credit applications. Commercial credit achieved 94.73%, with the main obstacle being that projected pipelines from branch offices, regional offices, and head office could not be realized due to credit disbursement carryover to the following year. Moreover, most BPRs maintained high liquidity, so drawdowns were not fully optimized despite significant LCU with available drawdown capacity.

Di sisi lain, terjadi pelunasan dipercepat dan *run off* dari beberapa debitur dengan nilai cukup besar dalam tiga bulan terakhir, terutama pada segmen KMKK. Kredit UMKM mencatat pencapaian sebesar 86,59% dari target yang ditetapkan. Hal ini dipengaruhi oleh masih rendahnya literasi keuangan pelaku usaha, pembatasan segmen penerima KUR, dan kenaikan suku bunga bagi debitur eksisting. Selain itu, akses pengajuan kredit yang belum terdigitalisasi sehingga turut membatasi akselerasi penyaluran kredit pada segmen ini. Kredit KPR tercatat sebesar 99,25% dari target, deviasi negatif terhadap target kredit dipengaruhi oleh melemahnya kondisi ekonomi nasional dan bencana alam yang menurunkan daya beli serta kemampuan angsur masyarakat, berakhirnya suku bunga promo, serta meningkatnya kompetisi dari Bank lain dengan suku bunga lebih rendah. Selain itu, penundaan pembangunan rumah oleh pengembang FLPP berdampak pada ketersediaan rumah *ready stock* dan penyaluran kredit, disertai kebijakan internal untuk memprioritaskan kualitas kredit melalui pemisahan fungsi *account officer*.

On the other hand, there were early repayments and run-offs from several debtors with significant amounts over the last three months, particularly in the KMKK segment. MSME loans achieved 86.59% of the target, affected by low financial literacy among business actors, limitations on KUR recipients, and higher interest rates for existing debtors. In addition, the lack of digitalized credit application access has also constrained the acceleration of credit disbursement in this segment. Mortgage loans (KPR) reached 99.25% of the target, with negative deviations due to weakening national economic conditions, natural disasters reducing purchasing power and repayment capacity, the expiration of promotional interest rates, and increased competition from banks offering lower rates. Furthermore, delays in housing construction by FLPP developers impacted ready-stock availability and credit disbursement, coupled with internal policies prioritizing credit quality through separation of account officer functions.

Sedangkan realisasi kredit konsumer masih menjadi kontributor utama bank **bjb** dengan pencapaian sebesar 100,22% dari target, yang didukung oleh stabilitas permintaan kredit dari segmen ASN dan pensiunan. Selain itu pencapaian ini juga didukung oleh optimalisasi produktivitas KCP, peningkatan *engagement* dengan Kepala Dinas, *key person* dan proses pencairan yang cepat melalui *platform* digital KGB Pisan. Kemudian realisasi kredit ritel tercapai sebesar 96,75% dari target, ketidaktercapaian tersebut terjadi kareja terdapat beberapa kendala dalam penyaluran kredit pada segmen ini diantaranya preferensi nasabah mulai bergeser ke pinjaman digital jangka pendek, sementara mitra pengelola pensiun belum mampu mengakomodir kebutuhan Bank secara optimal. Selain itu, perubahan status kementerian dan penggabungan beberapa BUMN membatasi proses penyaluran kredit ritel sebagai mitigasi risiko mutasi pegawai ke instansi yang belum memiliki kerja sama bantuan potong dengan bank **bjb**. Di sisi lain, strategi *one stop service* Bank Himbara melalui *bundling payroll* dan penyaluran kredit membuat beberapa instansi/ perusahaan memiliki kewenangan terbatas untuk melakukan kerja sama bantuan potong dengan bank **bjb**.

Consumer credit remains a major contributor for **bjb**, achieving 100.22% of the target, supported by stable credit demand from civil servants and retirees. This performance is also supported by optimized KCP productivity, enhanced engagement with agency heads and key persons, and fast disbursement processes via the KGB Pisan digital platform. Retail credit realization reached 96.75% of the target, with shortfalls due to several challenges in this segment, including a shift in customer preference toward short-term digital loans, while pension management partners have not fully accommodated the bank's needs. Additionally, changes in ministry status and mergers of several SOEs have limited retail credit disbursement as a risk mitigation measure against staff transfers to institutions without payroll deduction agreements with **bjb**. Moreover, the Himbara one-stop service strategy through payroll bundling and credit distribution has restricted certain agencies and companies from establishing payroll deduction cooperation with **bjb**.

Dari sisi kualitas aset, rasio NPL *gross* tercatat sebesar 2,90% lebih besar dari target 2,64% demikian juga NPL Netto tercatat sebesar 1,28% lebih tinggi dari target sebesar 1,25%. Menunjukkan tingkat kredit bermasalah yang lebih tinggi dibanding ekspektasi walaupun kondisi tersebut relatif masih berada pada level yang manageable dan sesuai dengan *risk appetite* bank **bjb**, serta mencerminkan komitmen bank **bjb** dalam menjaga kualitas kredit dan stabilitas kinerja secara berkelanjutan.

From an asset quality perspective, the gross NPL ratio stood at 2.90%, higher than the target of 2.64%, while net NPL reached 1.28%, above the target of 1.25%. This indicates a higher level of problem loans than expected, although still at a manageable level and within **bjb**'s risk appetite, reflecting the bank's commitment to maintaining credit quality and sustainable performance stability.

Sehingga sampai dengan akhir tahun 2025, bank **bjb** berhasil membukukan laba sebelum pajak sebesar Rp1,29 triliun, atau mencapai 127,56% dari target RBB tahun 2025 sebesar Rp1,01 triliun, sehingga terdapat deviasi positif sebesar Rp278,60 miliar. Pencapaian ini mencerminkan kinerja profitabilitas yang terjaga dan berkelanjutan yang didukung

As of the end of 2025, **bjb** recorded a pre-tax profit of IDR1.29 trillion, achieving 127.56% of the 2025 RBB target of IDR1.01 trillion, resulting in a positive deviation of IDR278.60 billion. This achievement reflects sustainable and well-maintained profitability, supported by effective fund cost management and prudent, market-adaptive asset management. Moving forward,

oleh pengelolaan biaya dana yang efektif dan pengelolaan aset yang prudent dan adaptif terhadap dinamika pasar. Ke depan, bank **bjb** akan terus mengoptimalkan struktur aset dan likuiditas untuk mendukung pertumbuhan usaha yang sehat dan berkesinambungan.

bjb will continue to optimize its asset and liquidity structure to support healthy and sustainable business growth.

Assessment Manajemen Atas Hal-Hal yang Berpengaruh Signifikan Terhadap Kelangsungan Usaha

Manajemen secara rutin melakukan evaluasi dan *assessment* terkait dengan kemampuan dan pencapaian target kinerja dari seluruh unit sesuai dengan rencana bisnis bank **bjb** yang telah disusun. Evaluasi dilakukan secara berkala untuk setiap level meliputi produktivitas, profitabilitas serta indikator-indikator utama yang tertuang dalam *Key Performance Indicator* (KPI) unit kerja. Berdasarkan hasil penilaian dan evaluasi yang rutin dilakukan secara berkala, manajemen bank **bjb** berkeyakinan bahwa bank **bjb** memiliki sumber daya untuk melakukan kegiatan usaha dimasa mendatang. bank **bjb** tidak memiliki ketidakpastian material yang dapat menimbulkan keraguan yang signifikan terhadap kemampuan bank **bjb** untuk mempertahankan kelangsungan usaha.

Management Assessment of Significant Influences on Business Continuity

Management routinely conducts evaluations and assessments of the capabilities and performance target achievements of all units in accordance with **bjb**'s business plan. Evaluations are carried out periodically at each level, covering productivity, profitability, and key indicators outlined in the unit's Key Performance Indicators (KPI). Based on these regular assessments, **bjb** management is confident that the bank possesses the resources to continue its business activities in the future. **bjb** does not face any material uncertainties that could cast significant doubt on its ability to maintain business continuity.

Asumsi yang Digunakan Manajemen Dalam Melakukan *Assessment*

Dalam melaksanakan penilaian atas kemampuan bank **bjb** untuk melanjutkan kelangsungan usaha di masa yang akan datang, digunakan beberapa asumsi dan pertimbangan. Asumsi dan pertimbangan tersebut antara lain kinerja keuangan, tingkat kecukupan modal, likuiditas, solvabilitas, profitabilitas, dan efisiensi bank **bjb**, permasalahan internal dan perkara hukum yang dihadapi bank **bjb**, serta kondisi ekonomi mikro dan makro pada saat ini dan masa yang akan datang.

Assumptions Used by Management in Conducting the Assessment

In assessing **bjb**'s ability to continue its business operations in the future, several assumptions and considerations are applied. These include financial performance, capital adequacy, liquidity, solvency, profitability, and efficiency of **bjb**, internal issues and legal matters faced by the bank, as well as current and future macroeconomic and microeconomic conditions.

Aspek Perpajakan

Publikasi Pembayaran Pajak

bank **bjb** sebagai wajib pajak badan dalam negeri berhak mendapatkan insentif dari pemerintah berupa penurunan tarif pajak. Hal ini sesuai dengan ketentuan Pasal 17 ayat (2b) Undang-Undang No. 7 Tahun 1983 tentang Pajak Penghasilan sebagaimana telah beberapa kali diubah terakhir dengan Undang-Undang No. Tahun 2021 tentang Harmonisasi Peraturan Perpajakan yang menyatakan bahwa wajib pajak badan dalam negeri dapat memperoleh tarif 3% lebih rendah dari tarif sebesar 22% yang berlaku pada tahun pajak 2023 dengan memenuhi ketentuan :

1. Berbentuk Perseroan;
2. Dengan jumlah keseluruhan saham yang disetor diperdagangkan pada bursa efek di Indonesia paling sedikit 40%; dan
3. Memenuhi persyaratan tertentu.

Aspects of Tax

Tax Payment Publication

As a domestic corporate taxpayer, **bjb** is entitled to government incentives in the form of reduced tax rates. This is in accordance with Article 17 paragraph (2b) of Law No. 7 of 1983 concerning Income Tax, as amended most recently by the 2021 Law on Harmonization of Tax Regulations, which stipulates that domestic corporate taxpayers may receive a tax rate 3% lower than the 22% rate applicable in the 2023 tax year, provided that they meet the following requirements:

1. Incorporated as a limited liability company (Perseroan);
2. At least 40% of the total paid-up shares are traded on the Indonesia Stock Exchange; and
3. Comply with certain specified requirements.

Berdasarkan ketentuan di atas, bank **bjb** mendapatkan penurunan tarif pajak sebesar 3%, sehingga tarif pajak yang digunakan dalam perhitungan PPh Badan adalah 19%

bank **bjb** dalam kegiatan operasionalnya telah menjalankan tata kelola perusahaan yang baik *(Good Corporate Governance)* yang dilakukan secara transparan dan akuntabel khususnya dalam mengelola hak dan kewajiban perpajakannya, hak dan kewajiban perpajakannya dilakukan sesuai dengan ketentuan dan peraturan yang berlaku.

Based on the provisions above, **bjb** received a 3% reduction in the tax rate, resulting in a corporate income tax rate of 19% applied in its PPh Badan calculation.

In its operations, **bjb** has implemented good corporate governance (GCG) practices in a transparent and accountable manner, particularly in managing its tax rights and obligations, which are carried out in accordance with applicable laws and regulations.

Pembayaran Pajak

Total pembayaran pajak periode Januari sampai dengan Desember 2025 dan 2024 adalah sebagai berikut.

Tax Payment

Total tax payments for the period from January to December 2025 and 2024 were as follows.

Catatan
*) PPh Pasal 29 masih angka sementara menunggu finalisasi Audit Laporan Keuangan, dibayarkan sebelum dilakukan pelaporan SPT PPh Badan 2025 paling lambat April 2026.
Note
*) Article 29 Income Tax (PPh Pasal 29) remains provisional pending the finalization of the Financial Statement Audit and will be paid prior to the 2025 Corporate Income Tax (SPT PPh Badan) filing, no later than April 2026.

Ketidakpatuhan dalam Pembayaran Pajak

Pada periode 2025, tidak terdapat ketidakpatuhan bank **bjb** dalam kewajiban membayar pajak (NIHIL).

Non-Compliance In Tax Payment

During the 2025 period, **bjb** had no non-compliance in fulfilling its tax obligations (NIL).

Larangan, Batasan dan/atau Hambatan Signifikan Untuk Melakukan Penyediaan Dana Antara Bank dan Entitas Lain Dalam Suatu Kelompok Usaha

bank **bjb** dan entitas anak telah memenuhi ketentuan Bank Indonesia tentang Batas Maksimum Pemberian Kredit (BMPK) sesuai Peraturan Otoritas Jasa Keuangan Republik Indonesia Nomor 32/POJK.03/2018 tentang Batas Maksimum Pemberian Kredit (BMPK) dan Penyediaan Dana Besar Bagi Bank Umum dan POJK No. 38/POJK.03/2019 Tentang Perubahan atas POJK No. 32/POJK.03/2018 Tentang BMPK dan Penyediaan Dana Besar Bagi Bank Umum.

Prohibitions, Limitations and/or Significant Obstacles to Providing Funds Between Bank and other Entities in a Business Group

bank **bjb** and Subsidiaries have complied with Bank Indonesia provisions regarding the Legal Lending Limit (LLL) in accordance with the OJK Regulation of Republic of Indonesia Number 32/POJK.03/2018 concerning the Legal Lending Limit (LLL) and Provision of Large Funds for Commercial Banks and OJK Regulation No.38/POJK.03/2019 Concerning Amendments to OJK Regulation No. 32/POJK.03/2018 concerning LLL and Provision of Large Funds for Commercial Bank.

Sesuai dengan POJK No. 38/POJK.03/2019 Tentang Perubahan atas POJK No. 32/POJK.03/2018 Tentang BMPK dan Penyediaan Dana Besar Bagi Bank Umum, yang dimaksud dengan Pihak Terkait adalah termasuk anggota Direksi, anggota Dewan Komisaris dan Pejabat Eksekutif Bank. Pemberian kredit kepada Direksi dan Dewan Komisaris termasuk ke dalam penyediaan dana kepada pihak terkait, dan hal ini wajib mendapatkan persetujuan kepada Dewan Komisaris.

In accordance with Financial Services Authority Regulation No. 38/POJK.03/2019 concerning Amendments to POJK No. 32/POJK.03/2018 on Legal Lending Limit (BMPK) and Large Exposures for Commercial Banks, related parties include members of the Board of Directors, members of the Board of Commissioners, and Executive Officers of the Bank. The extension of credit to the Board of Directors and the Board of Commissioners constitutes fund provision to related parties and must obtain approval from the Board of Commissioners.

Penyediaan dana kepada pihak terkait telah diatur oleh Otoritas Jasa Keuangan dan ketentuan internal bank **bj**b berdasarkan Surat Keputusan Direksi Nomor 0622/SK/DIR-MR/2019 tanggal 29 Mei 2019 sebagaimana diubah terakhir oleh Surat Keputusan Direksi 0038/SK/DIR-MRI/2023 Tanggal 03 Februari 2023 tentang Kebijakan Perkreditan Bank. Ketentuan dan prosedur pemberian kredit kepada Direksi dan Dewan Komisaris berlaku sama seperti pemberian kredit kepada calon debitur bank **bj**b pada umumnya dan diberikan sesuai bunga pasar *(market rate*) dan wajar *(arm's length basis*) dengan tetap memperhatikan prinsip kehati-hatian.

The provision of funds to related parties has been regulated by the Financial Services Authority and by internal policies of bank **bjb** based on the Board of Directors Decree No. 0622/SK/DIR-MR/2019 dated May 29, 2019, as last amended by Board of Directors Decree No. 0038/SK/DIR-MRI/2023 dated February 3, 2023 concerning the Bank's Credit Policy. The terms and procedures for extending credit to the Board of Directors and the Board of Commissioners are applied in the same manner as credit extension to prospective debtors of bank **bjb** in general, and are provided at market rates and on an arm's length basis, while adhering to the prudential principle.

Tabel Penyediaan Dana Kepada Pihak Terkait dan Debitur Besar
Table of Provision of Funds to Related Parties and Large Debtors

No	Penyedia Dana Fund Provider	Jumlah 2025 Total 2025		Jumlah 2024 Total 2024	
		Number of Account (NoA)	Nominal (dalam jutaan Rupiah) Amount (in IDR million)	*Number of Account* (NoA)	Nominal (dalam jutaan Rupiah) Amount (in IDR million)
1	Kepada Pihak Terkait To Related Parties	**58**	**1,460,708**	312	1,406,824
2	Kepada 50 Debitur Inti To 50 Core Debtors				
	a. Individu a. Individual	-	-	-	-
	b. Grup b. Group	**33**	**6,829,321**	27	17,547,640
	Total Debitur Inti Total Core Debtors	**33**	**6,829,321**	27	17,547,640

Penyediaan dana kepada pihak terkait pada tahun 2025 tercatat sebesar Rp1,46 triliun dengan jumlah 58 debitur, meningkat dibandingkan tahun 2024 sebesar Rp1,41 triliun dengan 312 debitur. Sementara itu, penyediaan dana kepada 50 debitur inti tercatat sebesar Rp6,83 triliun yang seluruhnya berasal dari kategori grup, dengan jumlah 33 debitur, menurun dibandingkan tahun 2024 sebesar Rp17,55 triliun dengan 27 debitur. Penurunan signifikan pada penyediaan dana kepada debitur inti tersebut mencerminkan upaya bank **bj**b dalam mengelola konsentrasi risiko kredit, termasuk diversifikasi portofolio pembiayaan serta penyesuaian eksposur terhadap debitur besar.

The provision of funds to related parties in 2025 amounted to IDR1.46 trillion with 58 debtors, increasing compared to 2024 of IDR1.41 trillion with 312 debtors. Meanwhile, the provision of funds to the 50 largest debtors amounted to IDR6.83 trillion, entirely originating from the group category, with 33 debtors, decreasing compared to 2024 of IDR17.55 trillion with 27 debtors. The significant decrease in the provision of funds to core debtors reflects bank **bjb**'s efforts in managing credit risk concentration, including portfolio diversification and adjustments to exposure to large debtors.

Secara keseluruhan, posisi penyediaan dana kepada pihak terkait dan debitur besar tetap berada dalam batas ketentuan Batas Maksimum Pemberian Kredit (BMPK) yang berlaku, sehingga mencerminkan penerapan prinsip kehati-hatian dalam pengelolaan risiko kredit bank **bjb**.

Overall, the provision of funds to related parties and large debtors remained within the applicable Legal Lending Limit (BMPK), reflecting the implementation of prudential principles in bank **bjb**'s credit risk management.

Pengungkapan Kualitatif Mengenai Struktur Permodalan dan Kecukupan Permodalan

Beberapa perkembangan peraturan yang signifikan mempengaruhi kondisi operasional dan bisnis bank **bjb** ke depan antara lain tercermin dari terbitnya Peraturan Otoritas Jasa Keuangan Nomor 12/POJK.03/2021 tentang bank Umum yang mengklasifikasikan bank menjadi 4 (empat) kategori utama berdasarkan modal inti atau Kelompok Bank berdasarkan Modal Inti (KBMI). Per akhir Desember 2025, modal inti bank **bjb** (*audited*) mencapai Rp14,89 triliun dan berada pada kategori KBMI 2 membuat kegiatan usaha yang dapat dilakukan oleh bank **bjb** menjadi lebih luas, serta dapat meningkatkan kepercayaan nasabah dalam melakukan aktivitas kegiatan perbankannya melalui bank **bjb**. Strategi permodalan yang efektif, kuat dan efisien telah menjadi fokus manajemen seiring dengan terus bertumbuhnya bank **bjb** menjadi bank yang semakin besar dan semakin kuat.

Komponen permodalan bank **bjb** didominasi oleh komponen permodalan yang bersifat permanen, dimana komponen modal inti merupakan komponen terbesar dalam struktur permodalan bank **bjb**. Pada posisi bulan Desember 2025, rasio modal inti bank **bjb** baik secara individual dan konsolidasi terhadap total ATMR bank **bjb** mencapai 17,45% dan 16,16%. Rasio tersebut berada diatas ketentuan yang ditetapkan oleh bank Indonesia dengan batasan minimum yaitu 6% baik secara individual maupun konsolidasi. Perhitungan rasio modal inti utama (*Common Equity Tier 1 Ratio*) terhadap total ATMR bank **bjb** baik secara individual dan konsolidasi di bulan Desember 2025 mencapai 16,28% dan 15,21% berada di atas ketentuan yang telah ditetapkan Bank Indonesia dengan batasan minimum yaitu 4,50%.

Qualitative Disclosure on Capital Structure and Capital Adequacy

Several significant regulatory developments are expected to influence the future operational and business conditions of bank **bjb**, as reflected in the issuance of Financial Services Authority Regulation No. 12/POJK.03/2021 concerning Commercial Banks, which classifies banks into four (4) main categories based on core capital, known as the Bank Group based on Core Capital (KBMI). As of the end of December 2025, bank **bjb**'s audited core capital reached Rp14.89 trillion, placing it in the KBMI 2 category. This classification enables bank **bjb** to undertake a broader range of business activities and enhances customer confidence in conducting their banking transactions through bank **bjb**. An effective, strong, and efficient capital strategy remains a key focus of management as bank **bjb** continues to grow into a larger and stronger bank.

bank **bjb**'s capital structure is predominantly composed of permanent capital components, with core capital representing the largest portion of its capital structure. As of December 2025, the Bank's core capital ratio, both on an individual and consolidated basis, reached 17.45% and 16.16% of total Risk-Weighted Assets (RWA), respectively. These ratios are above the minimum requirement set by Bank Indonesia, which is 6% for both individual and consolidated levels. Furthermore, the Common Equity Tier 1 (CET1) ratio of bank **bjb**, both on an individual and consolidated basis, stood at 16.28% and 15.21% as of December 2025, exceeding the minimum regulatory requirement of 4.50% set by Bank Indonesia.

Kecukupan Permodalan

Sebagai salah satu pengungkapan Basel II Pilar III, Otoritas Jasa Keuangan telah menerbitkan Surat Edaran Otoritas Jasa Keuangan Nomor 26/SEOJK.03/2016 tanggal 14 Juli 2016 perihal Kewajiban Penyediaan Modal Minimum sesuai Profil Risiko dan Pemenuhan *Capital Equivalency Maintained Assets* (CEMA). Sehubungan hal tersebut, bank telah mengembangkan dan menerapkan metodologi untuk penerapan Internal *Capital Adequacy Assessment Process* (ICAAP) dimana metodologi tersebut telah dibahas dan disetujui dalam Komite Manajemen Risiko bank **bjb**. Laporan rasio kecukupan penyediaan modal minimum sesuai Profil Risiko dilaporkan secara berkala kepada Dewan Komisaris dan Direksi sebagai salah satu bentuk kepatuhan terhadap ketentuan Surat Edaran Otoritas Jasa Keuangan tersebut.

Pengukuran internal yang dilakukan bank telah memperhitungkan Pilar I dan Pilar II yaitu rasio kecukupan modal bank minimum sesuai profil risiko baik secara individual maupun konsolidasi di bulan Desember 2025 mencapai 9,21% dimana hasil pengukuran profil risiko bank pada periode tersebut berada pada level peringkat komposit *Low to Moderate*. Pada posisi bulan Desember 2025, rasio kecukupan modal minimum bank baik secara individual sebesar 9,21% serta konsolidasi sebesar 9,21%

Sejalan telah diterbitkannya POJK Nomor 11/POJK.03/2016 tanggal 29 Januari 2016 perihal Kewajiban Penyediaan Modal Minimum bank Umum, saat ini bank telah mempersiapkan infrastruktur yang baik dan efektif dalam rangka memastikan implementasi POJK tersebut tidak mengganggu ekspansi bisnis dan aktivitas operasional bank **bjb**. Sesuai POJK tersebut, bank harus menyediakan rasio kecukupan modal minimum sesuai profil risiko bank ditambah dengan *Capital Conservation Buffer, Countercylical Buffer* dan *Capital Surcharge* untuk D-SIB *(Domestic Systemically Important Bank)*. *Capital Conservation Buffer* tersebut diperlukan oleh bank sebagai upaya penyangga *(buffer)* dalam menghadapi kerugian akibat kondisi krisis, sedangkan *Countercylical Buffer* dibutuhkan bank sebagai tambahan modal penyangga untuk mengantisipasi kerugian apabila terjadi pertumbuhan kredit perbankan yang berlebihan sehingga berpotensi mengganggu stabilitas sistem keuangan.

bank **bjb** selalu melakukan perbaikan dan pengembangan baik dari segi produk dan jasa serta peningkatan infrastruktur manajemen risiko bank melalui analisis yang komprehensif disertai dengan riset yang memadai sehingga dapat menjaga agar aktivitas bisnis dan operasional bank tetap *prudent* dan berada dalam batas toleransi risiko bank. Selain itu pula, bank telah menetapkan *risk appetite* dan *risk tolerance* agar kecukupan permodalan yang dimiliki bank masih memadai dan mampu meng-*cover* kerugian ataupun potensi risiko kerugian yang timbul dari aktivitas operasional bank **bjb**.

Adequacy of Capital

As part of Basel II Pillar III disclosure, the Financial Services Authority has issued Circular Letter No. 26/SEOJK.03/2016 dated July 14, 2016 concerning Minimum Capital Adequacy Requirements based on Risk Profile and the fulfillment of Capital Equivalency Maintained Assets (CEMA). In this regard, the Bank has developed and implemented a methodology for the Internal Capital Adequacy Assessment Process (ICAAP), which has been reviewed and approved by the Risk Management Committee of bank **bjb**. Reports on the minimum capital adequacy ratio based on the Bank's risk profile are submitted periodically to the Board of Commissioners and the Board of Directors as part of compliance with the said Circular Letter.

The Bank's internal assessment incorporates both Pillar I and Pillar II requirements. As of December 2025, the minimum capital adequacy ratio based on the Bank's risk profile, both on an individual and consolidated basis, stood at 9.21%, with the Bank's risk profile assessed at a composite rating of Low to Moderate. Accordingly, as of December 2025, the minimum capital adequacy ratio was 9.21% on both an individual and consolidated basis.

Following the issuance of Financial Services Authority Regulation No. 11/POJK.03/2016 dated January 29, 2016 concerning Minimum Capital Adequacy Requirements for Commercial Banks, the Bank has prepared adequate and effective infrastructure to ensure that the implementation of the regulation does not hinder business expansion and operational activities. In accordance with the regulation, banks are required to maintain minimum capital adequacy ratios based on their risk profile, supplemented by a Capital Conservation Buffer, Countercyclical Buffer, and Capital Surcharge for Domestic Systemically Important Banks (D-SIB). The Capital Conservation Buffer serves as a cushion against potential losses during periods of stress, while the Countercyclical Buffer provides additional capital to mitigate risks arising from excessive credit growth that may disrupt financial system stability.

bank **bjb** continuously enhances and develops its products, services, and risk management infrastructure through comprehensive analysis and adequate research to ensure that business and operational activities remain prudent and within the Bank's risk tolerance limits. The Bank has also established its risk appetite and risk tolerance to ensure that its capital adequacy remains sufficient to absorb losses or potential losses arising from its operational activities.

Pengelolaan modal risiko kredit bank **bjb** berpedoman pada Surat Edaran Otoritas Jasa Keuangan nomor 42/SEOJK.03/2016 tanggal 28 September 2016 perihal Pedoman Perhitungan Aset Tertimbang Menurut Risiko untuk Risiko Kredit dengan Menggunakan Pendekatan Standar. Penetapan bobot risiko pada perhitungan ATMR mengacu kepada bobot risiko sesuai ketentuan Otoritas Jasa Keuangan dimaksud.

Dalam mengukur ATMR Risiko Pasar, bank mempergunakan format *standardized approach* dengan berpedoman pada Surat Edaran Otoritas Jasa Keuangan nomor 23/SEOJK.03/2022 tanggal 7 Desember 2022 tentang Perhitungan Aset Tertimbang Menurut Risiko Untuk Risiko Pasar Bagi Bank Umum.

Perhitungan kecukupan modal risiko operasional masih menggunakan metode pendekatan standar yang dilakukan sesuai dengan Surat Edaran Otoritas Jasa Keuangan nomor 6/SEOJK.03/2020 tanggal 29 April 2020 tentang Perhitungan Aset Tertimbang Menurut Risiko Untuk Risiko Operasional dengan Menggunakan Pendekatan Standar Bagi Bank Umum. Berdasarkan metode tersebut, Perusahaan mengalokasikan modal minimum untuk risiko operasional berdasarkan hasil perkalian antara Komponen Indikator Bisnis (KIB) dan Faktor Pengali Kerugian Intern (FPKI). Perhitungan kecukupan modal risiko operasional tersebut menjadi dasar dalam perhitungan ATMR Risiko Operasional.

The management of credit risk capital at bank **bjb** is guided by Financial Services Authority Circular Letter No. 42/SEOJK.03/2016 dated September 28, 2016 concerning Guidelines for the Calculation of Risk-Weighted Assets (RWA) for Credit Risk using the Standardized Approach. The determination of risk weights in RWA calculations refers to the risk weights stipulated under the relevant OJK regulations.

In measuring RWA for Market Risk, the Bank applies the standardized approach in accordance with Financial Services Authority Circular Letter No. 23/SEOJK.03/2022 dated December 7, 2022 concerning the Calculation of Risk-Weighted Assets for Market Risk for Commercial Banks.

The calculation of capital adequacy for operational risk continues to use the standardized approach as stipulated in Financial Services Authority Circular Letter No. 6/SEOJK.03/2020 dated April 29, 2020 concerning the Calculation of Risk-Weighted Assets for Operational Risk using the Standardized Approach for Commercial Banks. Under this method, the Bank allocates minimum capital for operational risk based on the multiplication of the Business Indicator Component (BIC) and the Internal Loss Multiplier (ILM), which forms the basis for the calculation of RWA for Operational Risk.

Pengungkapan Kuantitatif

Informasi pengungkapan kuantitatif struktur permodalan bank **bjb** adalah sebagai berikut.

Quantitative Disclosure

Information on quantitative disclosure of bank **bjb** capital structure is as follows.

Tabel Pengungkapan Kuantitatif Struktur Permodalan Bank Umum

Rasio Pengungkit
Leverage Ratio

Laporan Kewajiban Pemenuhan Rasio Pengungkit
Leverage Ratio Compliance Report

No.	Keterangan Description	Jumlah Total
1	Total aset di laporan posisi keuangan pada laporan keuangan publikasi (nilai gross sebelum dikurangi CKPN). Total assets in the statement of financial position in the published financial statements (gross before allowance for impairment losses).	**178,769,049**
2	Penyesuaian untuk nilai penyertaan pada Bank, lembaga keuangan, perusahaan asuransi, dan/atau entitas lain yang berdasarkan standar akuntansi keuangan harus dikonsolidasikan namun di luar cakupan konsolidasi berdasarkan ketentuan Otoritas Jasa Keuangan. Adjustment for investments in banks, financial institutions, insurance companies, and/or other entities that are required to be consolidated under financial accounting standards but excluded from the scope of consolidation based on OJK regulations.	-
3	Penyesuaian untuk nilai kumpulan aset keuangan yang mendasari yang telah dialihkan dalam sekuritisasi aset yang memenuhi persyaratan jual putus sebagaimana diatur dalam Peraturan Otoritas Jasa Keuangan mengenai prinsip kehati-hatian dalam aktivitas sekuritisasi aset bagi bank umum. Dalam hal aset keuangan yang mendasari dimaksud telah dikurangkan dari total aset pada laporan posisi keuangan maka angka pada baris ini adalah 0 (nol). Adjustment for the value of underlying financial asset pools transferred in asset securitization transactions that meet the true sale requirements as stipulated in OJK regulations on prudential principles in asset securitization activities for commercial banks. If the underlying financial assets have been deducted from total assets in the statement of financial position, the amount in this row is 0 (zero).	-
4	Penyesuaian terhadap pengecualian sementara atas penempatan giro pada Bank Indonesia dalam rangka memenuhi ketentuan giro wajib minimum (jika ada). Adjustment for the temporary exclusion of demand deposits with Bank Indonesia to meet the minimum reserve requirement (if any).	-
5	Penyesuaian untuk aset fidusia yang diakui sebagai komponen laporan posisi keuangan berdasarkan standar akuntansi keuangan namun dikeluarkan dari perhitungan total eksposur dalam Rasio Pengungkit. Adjustment for fiduciary assets recognized in the statement of financial position under financial accounting standards but excluded from the calculation of total exposure in the Leverage Ratio.	-
6	Penyesuaian untuk nilai pembelian atau penjualan aset keuangan secara reguler dengan menggunakan metode akuntansi tanggal perdagangan. Adjustment for purchases or sales of financial assets under regular way transactions using trade date accounting..	-
7	Penyesuaian untuk nilai transaksi cash pooling yang memenuhi persyaratan sebagaimana diatur dalam Peraturan Otoritas Jasa Keuangan ini. Adjustment for cash pooling transactions that meet the requirements as stipulated in this OJK regulation.	-
8	Penyesuaian untuk nilai eksposur transaksi derivatif Adjustment for derivative transaction exposure.	-
9	Penyesuaian untuk nilai eksposur SFT sebagai contoh transaksi reverse repo. Adjustment for SFT exposure, such as reverse repo transactions.	**147,936**
10	Penyesuaian untuk nilai eksposur TRA yang telah dikalikan dengan FKK. Adjustment for TRA exposure after applying the credit conversion factor (CCF).	**1,123,288**
11	Penyesuaian penilaian prudensial berupa faktor pengurang modal dan CKPN. Adjustment for prudential valuation, including capital deduction factors and allowance for impairment losses.	**(5,401,552)**
12	Penyesuaian lainnya Other adjustments.	**78,120**
13	Total eksposur dalam perhitungan Rasio Pengungkit Total exposure in Leverage Ratio calculation	**174,716,841**

Analisa Kualitatif
Qualitative Analysis

Nilai Total Eksposur dalam perhitungan rasio pengungkit untuk posisi 31 Desember 2025 tercatat sebesar Rp174,71 Triliun, meningkat Rp5,74 Triliun dari posisi 30 September 2025 yaitu sebesar Rp168,97 Triliun. Adapun peningkatan nilai Total Eksposur disebabkan oleh adanya peningkatan pada Eksposur Securities Financing Transaction sebesar Rp8,56 Triliun dari posisi 30 September 2025 Rp454,72 Miliar menjadi Rp9,01 Triliun, sedangkan untuk eksposur lainnya mengalami penurunan yaitu sebagai berikut :

1. Eksposur Aset dalam Laporan Posisi Keuangan (Neraca) menjadi Rp164,58 Triliun menurun sebesar Rp2,60 Triliun dari posisi 30 September 2025 yaitu sebesar Rp167,18 Triliun;
2. Total Eksposur Transaksi Derivatif menjadi Rp0 menurun sebesar Rp3,79 Miliar dari posisi 30 September 2025 yaitu sebesar Rp3,79 Miliar;
3. Total Eksposur Transaksi Rekening Administratif menjadi Rp1,12 Triliun menurun sebesar Rp202,10 Miliar dari posisi 30 September 2025 yaitu sebesar Rp1,32 Triliun.

The Total Exposure value in the calculation of the leverage ratio as of December 31, 2025 was recorded at IDR174.71 trillion, representing an increase of IDR5.74 trillion compared to the position as of September 30, 2025 of IDR168.97 trillion. The increase in Total Exposure was primarily attributable to the rise in Securities Financing Transaction exposure amounting to IDR8.56 trillion, from IDR454.72 billion as of September 30, 2025 to IDR9.01 trillion, while other exposures experienced a decrease as follows :

1. Asset Exposure in the Statement of Financial Position (Balance Sheet) amounted to IDR164.58 trillion, decreasing by IDR2.60 trillion from IDR167.18 trillion as of September 30, 2025;
2. Total Derivative Transaction Exposure amounted to IDR0, decreasing by IDR3.79 billion from IDR3.79 billion as of September 30, 2025;
3. Total Off-Balance Sheet Exposure amounted to IDR1.12 trillion, decreasing by IDR202.10 billion from IDR1.32 trillion as of September 30, 2025.

Analisa Kualitatif
Qualitative Analysis

Per posisi 31 Desember 2025 perhitungan rasio pengungkit mencapai 8,52%, dengan modal inti tercatat sebesar Rp14,88 Triliun dan total eksposur sebesar Rp174,71 Triliun. Perkembangan rasio pengungkit memiliki tren menurun sebesar 0,08% dibandingkan posisi 30 September 2025 yaitu sebesar 8,60%, dan dengan laporan perhitungan rasio pengungkit saat ini maka pemenuhan kecukupan rasio pengungkit telah memadai dengan ekses rasio sebesar 5,52%.

As of December 31, 2025, the leverage ratio was recorded at 8.52%, with Tier 1 Capital amounting to IDR14.88 trillion and Total Exposure of IDR174.71 trillion. The leverage ratio exhibited a declining trend of 0.08% compared to the position as of September 30, 2025 of 8.60%. Based on the current leverage ratio calculation, the fulfillment of the minimum leverage ratio requirement remains adequate, with an excess ratio of 5.52%.

Manajemen Risiko - Pendekatan Manajemen Risiko Bank (OVA)

Risk Management – Bank's Risk Management Approach (OVA)

Risiko Kredit

bank **bjb** menerapkan proses yang ketat pada setiap penyusunan maupun perubahan ketentuan internal bank **bjb**. Penyusunan maupun perubahan KPB, SOP, Pedoman, maupun Petunjuk Teknis perkreditan dilakukan melalui tahapan berjenjang dimulai dari pembahasan pada level teknis hingga melalui persetujuan Direksi. bank **bjb** juga telah memiliki standar baku dalam alur penyusunan ketentuan sehingga dapat menghasilkan kualitas yang baik. Setiap penyusunan maupun perubahan atas Kebijakan, SOP, Pedoman dan Petunjuk Teknis perkreditan senantiasa melalui pembahasan bersama Divisi yang terkait sehingga memenuhi kecukupan identifikasi dan mitigasi risiko serta ketentuan yang berlaku.

bank **bjb** saat ini telah memiliki *portofolio guideline* serta menetapkan (*risk appetite*) dan toleransi risiko (*risk tolerance*) berdasarkan pertimbangan kekuatan permodalan serta target pendapatan kredit. Tingkat Risiko yang akan diambil (*risk appetite*) merupakan tingkat dan jenis risiko yang bersedia diambil oleh bank **bjb** dalam rangka mencapai sasaran bank **bjb**. Toleransi risiko (*risk tolerance*) merupakan tingkat dan jenis risiko yang dapat ditolerir secara maksimum oleh bank **bjb**. Toleransi risiko menjadi penjabaran dari tingkat risiko yang akan diambil.

Selain itu, bank **bjb** menetapkan batas maksimum *exposure*/ portofolio per sektor ekonomi/industri per debitur dan per *group* debitur dengan mempertimbangkan tingkat kemampuan bank **bjb**, kecukupan modal dan tingkat risiko. Penetapan batas maksimum *exposure*/portofolio diatur dalam ketentuan dan dilakukan review secara periodik. Penetapan *Portfolio Guideline* mencakup panduan pemilihan sektor industri yang prospektif, serta pengaturan batas maksimal eksposur dan arah pertumbuhan bisnis.

Adapun terkait dengan limit kewenangan memutus kredit saat ini bank **bjb** telah menerapkan mekanisme keputusan kredit secara berjenjang sesuai dengan tingkat risiko yang tercermin dari plafon fasilitas kredit.

Credit Risk

bank **bjb** applies a strict process for each preparation and amendment to each bank **bjb** internal regulations. The preparation and amendment to the KPB, SOP, Guidelines and Credit Technical Instructions are carried out through a tiered phase which starts from discussion at the technical level to through the approval of Board of Directors. bank **bjb** has also owned a standard in the flow of provisions so that it can produce good quality. Every preparation or amendment to Policies, SOPs, Guidelines and Credit Technical Instructions has always been discussed with the relevant divisions so as to meet the adequacy of risk identification and mitigation as well as applicable regulations.

bank **bjb** currently has a Guideline Portfolio and establishes (risk appetite) and risk tolerance (risk tolerance) based on consideration of capital strength and credit income targets. The level of risk to be taken (risk appetite) is the level and type of risk that is willing to be taken by bank **bjb** in order to achieve bank **bjb** goals. Risk tolerance is the level and type of risk that is maximally determined by bank **bjb**. Risk Tolerance is the translation of the level of risk to be taken.

In addition, bank **bjb** sets maximum exposure/portfolio limits per economic/industrial sector per debtor and per group of debtors taking into account the level of bank **bjb** capability, capital adequacy and level of risk. Determination of the maximum exposure/ portfolio limit is regulated in the provisions and is reviewed periodically. Determination of the Portfolio Guideline includes guidelines for selecting prospective industrial sectors, as well as setting maximum exposure limits and business growth direction.

As for the credit limit, bank **bjb** has implemented a tiered credit decision mechanism in accordance with the level of risk that is reflected in the credit facility ceiling.

Kecukupan Proses Identifikasi, Pengukuran, Pemantauan, dan Pengendalian Risiko, Serta Sistem Informasi Manajemen Risiko

Dalam analisa kredit, bank telah menerapkan proses identifikasi atas potensi risiko yang melekat. Proses identifikasi tersebut menjadi lebih optimal dengan dibentuknya Divisi *Credit Risk* yang khusus melaksanakan *review* dan analisa lanjutan atas proses pengajuan fasilitas kredit yang telah disusun oleh bagian bisnis.Sebagai bentuk identifikasi atas risiko kredit, bank **bjb** telah mengembangkan adanya kajian independen yang berisi analisa atas perkembangan portofolio kredit, *Non Performing Loan* (NPL), *Root Cause Credit* serta prediksi perkembangan kualitas kredit dengan mempertimbangkan kesiapan infrastruktur pendukungnya.

Dalam melakukan pengukuran risiko, bank **bjb** mengembangkan model risiko kredit melalui penggunaan Internal *Credit Risk Rating* (ICRR) dan *Internal Credit Risk Scoring* (ICRS) pada setiap pengajuan kredit. Penyusunan ICRR dan ICRS menggunakan faktor kualitatif dan faktor kuantitatif yang dapat mengindikasikan risiko gagal bayar calon debitur

Adapun *rating* dan *scoring* yang dimiliki oleh bank **bjb** meliputi:
1. Segmen Korporasi dan Komersial
2. Segmen Konsumer dan Ritel
3. Segmen UMKM
4. Segmen KPR dan KKB
5. Segmen BPR dan Koperasi
6. Segmen Internasional
7. Segmen Akseptasi Rekanan

ICRR adalah suatu alat bantu dalam mengukur risiko kredit dalam bentuk suatu model yang digunakan untuk memprediksi tingkat kemungkinan kegagalan pembayaran oleh debitur atas fasilitas kredit yang diberikan. ICRR Mengklasifikasikan entitas perusahaan/korporasi secara sistematis ke dalam suatu kelas risiko (*grading* atau peringkat). Penggunaan ICRR bertujuan untuk menentukan peringkat bagi debitur yang mencerminkan besaran *Probability of Default* (PD). Debitur dengan rating terbaik memiliki *probability of default* yang mendekati nol. Adapun untuk kredit dengan *rating* lebih rendah, akan memiliki *probability of default* yang meningkat. bank **bjb** menggunakan model statistik dalam analisa data untuk menghasilkan perkiraan *probability of default*.

Adequacy of the Risk Identification, Measurement, Monitoring and Control Process, and The Risk Management Information System

In the credit analysis, bank **bjb** has implemented a process of identifying potential inherent risks. The identification process has become more optimal with the formation of a Credit Risk Division that specializes in carrying out further reviews and analysis of the credit facility application process prepared by the business department. As a form of identification of credit risk, bank **bjb** has developed an independent study that contains an analysis of the development of credit portfolios, Non-Performing Loans (NPLs), Root Cause Credit and predictions of credit quality development by considering the readiness of supporting infrastructure.

In measuring risk, bank **bjb** develops a credit risk model through the use of the Internal Credit Risk Rating (ICRR) and Internal Credit Risk Scoring (ICRS) for each credit application. The preparation of ICRR and ICRS uses qualitative factors and quantitative factors that can indicate the risk of default on prospective borrowers.

The rating and scoring owned by bank **bjb** includ:
1. Corporate and Commercial Segments
2. Consumer and Retail Segmen
3. MSME Segment
4. KPR and KKB segment
5. BPR and Cooperative Segment
6. International Segment
7. Partner Acceptance Segment

ICRR is a tool in measuring credit risk in the form of a model used to predict the likelihood of payment defaults by debtors on credit facilities provided. ICRR Classifies systematic corporate/corporate entities into a risk class (grading or rating). The use of ICRR aims to determine the rating for debtors that reflects the amount of Probability of Default (PD). Debtors with the best rating have a Probability of Default that is close to zero. As for credit with a lower rating, it will have an increased Probability of Default. bank **bjb** uses statistical models in data analysis to generate Probability of Default estimates.

Tingkatan *rating* debitur dinyatakan dengan huruf yang meliputi 20 (dua puluh) peringkat berbeda yaitu:

Debtor rating levels are stated in letters covering 20 (twenty) different ratings, namely:

20	D	*Doubtful*

Adapun penerapan ICRS menjadi suatu alat bantu rekomendasi terhadap keputusan persetujuan atau penolakan atas pengajuan fasilitas kredit. Dengan menggunakan ICRS, maka bank dapat memproses kredit dengan lebih baik, obyektif dan standar, serta dengan waktu proses relatif lebih cepat. Sebagai bentuk lain dari pengukuran risiko kredit, bank **bjb** telah melakukan estimasi kerugian yang telah diperkirakan (*expected loss*) serta besar kerugian yang tidak diperkirakan (*unexpected loss*). *Expected Loss* (EL) adalah besaran kerugian secara statistik yang diperkirakan timbul secara rata-rata dari perkiraan kerugian yang secara umum terjadi. EL didapatkan dari perhitungan Eksposur pada saat *default* (EAD), kerugian pada saat *default* (LGD) dan probabilitas terjadinya *default* (PD), yang diestimasi dari data probabilitas *default* secara historis. Sementara itu *Unexpected Loss* (UL) merupakan deviasi dari rata-rata kerugian. Perhitungan UL diperoleh dari data volatilitas secara historis (*historical volatility*) atas data *default*.

The application of ICRS becomes a decision of approval or rejection of credit facility applications. By using ICRS, bank **bjb** can process credit better, objectively and according to the standard, and with a relatively faster processing time. As another form of credit risk measurement, bank **bjb** has estimated the estimated loss (Expected Loss) as well as the amount of an unexpected loss (Unexpected Loss). Expected Loss (EL) is the amount of a statistically estimated loss arising on average from the estimated losses that generally occur. EL is obtained from the calculation of Exposure at the time of default (EAD), losses at the time of default (LGD) and probability of occurrence of default (PD), which is estimated from historical default probability data. Meanwhile Unexpected Loss (UL) is the deviation from the average loss. UL calculations are obtained from historical volatility data on default data.

bank **bjb** juga telah mengembangkan proses pemantauan risiko yang dilakukan secara berkala melalui penerbitan laporan *Root Cause of Credit Risk* (RCCR) yang disampaikan kepada Direksi dan seluruh Divisi terkait. Laporan *Root Cause of Credit Risk* (RCCR) berisi analisa perkembangan portofolio beserta kualitas kreditnya, Analisa *Loan at Risk* (LAR), serta tingkat konsentrasi kredit baik berdasarkan sektor ekonomi, maupun debitur inti. Melalui laporan ini bank **bjb** mengembangkan mekanisme identifikasi berkala atas potensi penurunan kualitas suatu portofolio kredit sehingga menjadi masukan dalam penyusunan strategi Manajemen Risiko. Dengan demikian maka penanganan

bank **bjb** has also developed a risk monitoring process that is carried out periodically through the issuance of the Root Cause of Credit Risk (RCCR) report submitted to Board of Directors and all relevant Divisions. The Root Cause of Credit Risk (RCCR) report contains an analysis of the development of the portfolio and its credit quality, Loan at Risk (LAR) analysis, as well as the level of credit concentration based on the economic sector and core debtors. Through this report bank **bjb** develops a periodic identification mechanism for the potential deterioration in the quality of a credit portfolio so that it becomes input in the preparation of a Risk Management strategy. Thus, the handling of

atas kemungkinan penurunan kualitas portofolio kredit dapat segera ditindaklanjuti sehingga menjadi *Early Warning Signal* (EWS). EWS dapat meminimalkan risiko terjadinya kerugian dan mengoptimalkan modal untuk memperoleh pendapatan.

Disamping itu bank **bjb** secara berkala melakukan analisa *stress test* yang meliputi beberapa skenario utama yaitu:

1. ***Portfolio Concentration Stress Test* (*Specific Market Crisis*)**
   Perhitungan *stress test* dengan pendekatan *portfolio concentration* bertujuan untuk menghitung perubahan *Probability of Default* (PD) yang diakibatkan memburuknya kolektibilitas seluruh kredit.
2. ***Macro Economy Stress Test* (*General Market Crisis*)**
   Perhitungan *stress test* dengan menggunakan analisa makro ekonomi bertujuan untuk mengetahui perubahan *Probability of Default* (PD) yang disebabkan oleh adanya pergerakan Kurs USD/IDR, perubahan suku bunga acuan, serta perubahan tingkat inflasi dan *Gross Domestic Product* (GDP).
3. ***Reverse Stress Test***
   Apabila pada pelaksanaan *stress test* pada umumnya bertujuan untuk menghitung dampak perubahan makro ekonomi yang telah ditentukan sebelumnya terhadap perubahan nilai NPL, *Profit and Loss* serta CAR, dan Aktiva Tertimbang Menurut Risiko (ATMR) maka perhitungan *stress test* dengan skenario *reverse* bertujuan untuk mengetahui perubahan kondisi makro ekonomi yang berdampak pada penurunan nilai CAR hingga berada di bawah ketentuan.
4. ***Bottom Up Stress Test***
   bank **bjb** secara berkala melakukan *stress test* ketahanan permodalan bank dimana pada tahun 2024 bank terlibat dalam penyusunan *Bottom Up Stress Test* (BUST). Pelaksanaan *stress test* dilakukan dengan pendekatan kategori *portfolio* level dan bertujuan untuk menghitung pengaruh kondisi *shock* makro ekonomi terhadap peningkatan PD (*Probability of Default*) secara *bankwide* serta pencapaian laba dan permodalan bank. Pelaksanaan perhitungan menggunakan *satellite model* yang meliputi baik kredit produktif maupun kredit non-produktif pada seluruh sektor ekonomi. *Satellite model* tersebut merupakan perhitungan regresi *multiple* yang menghubungkan kondisi makro ekonomi sebagai *independent variable* dan PD sebagai *dependent variable*. Adapun berdasarkan hasil perhitungan *stress test* diketahui bahwa perubahan aspek eksternal tersebut tidak berdampak secara signifikan terhadap penurunan *Capital Adequacy Ratio* (CAR) sehingga dapat dikatakan bahwa permodalan cukup memadai dalam menghadapi gejolak perubahan faktor eksternal.

the possibility of decreasing the quality of the loan portfolio can be immediately followed up so that it becomes an Early Warning Signal (EWS). EWS can minimize the risk of loss and optimize capital to earn income. Besides this, bank **bjb** regularly conducts.

Besides this, bank **bjb** regularly conducts stress test analysis which covers several main scenarios, namely:

1. **Portfolio Concentration Stress Test (Specific Market Crisis)**
   Calculation of stress tests using the portfolio concentration approach aims to calculate changes in Probability of Default (PD) resulting from the deteriorating collectibility of all loans.
2. **Macro Economy Stress Test (General Market Crisis)**
   Calculation of stress tests using macroeconomic analysis aims to determine changes in Probability of Default (PD) caused by movements in the USD/IDR exchange rate, changes in reference interest rates, as well as changes in the Inflation Rate and Gross Domestic Product (GDP).
3. **Reverse Stress Test**
   If the implementation of stress tests generally aims to calculate the impact of predetermined macroeconomic changes on the value of NPLs, Profit and Loss and CAR, and Risk Weighted Assets (RWA), the calculation of stress tests with a reverse scenario aims to determine changes in macro economics conditions that have an impact on the decline in the value of the CAR to be below the provisions.
4. **Bottom Up Stress Test**
   bank **bjb** has periodically conducted stress tests on the resilience of bank capital where in 2022, bank **bjb** was involved in the preparation of the Bottom Up Stress Test (BUST). The stress test was carried out using a portfolio level category approach and aimed to calculate the effect of macroeconomic shock conditions on the increase in PD (Probability of Default) bankwide and the achievement of bank **bjb** profits and capital. The calculation was carried out using a satellite model including both productive and non-productive loans in all economic sectors. The satellite model was a multiple regression calculation that related macroeconomic conditions as the independent variable and PD as the dependent variable. Meanwhile, based on the results of the stress test calculation, it was known that changes in external aspects did not have a significant impact on the decrease in the Capital Adequacy Ratio (CAR) so that the capital was adequate in dealing with changes in external factors.

Sistem Pengendalian Intern yang Menyeluruh

bank **bjb** telah memiliki sistem pengendalian intern untuk manajemen risiko kredit dengan berpedoman pada SE OJK Nomor 34/SEOJK.03/2016 tanggal 1 September 2016 Tentang Penerapan Manajemen Risiko bagi bank Umum. Dalam pelaksanaannya, sistem pengendalian intern untuk risiko kredit mencakup penerapan atas hal-hal sebagai berikut:

1. Dipenuhinya kecukupan Kebijakan, Pedoman dan Prosedur bidang perkreditan.
2. Dilakukannya *review* oleh unit kerja independen atas rancangan Kebijakan, Pedoman dan Prosedur bidang perkreditan.
3. Dilakukannya *review*/kaji ulang atas metode pengukuran risiko oleh Divisi Manajemen Risiko Kredit, Pasar dan Terintegrasi yang mencakup penilaian kesesuaian metode, dan asumsi yang digunakan untuk mengukur risiko.
4. Kaji ulang atas kepatuhan bank terhadap ketentuan internal dan eksternal bidang perkreditan.

Dalam rangka optimalisasi pengendalian intern, maka bank **bjb** juga telah melakukan pemisahan fungsi yang jelas antara unit bisnis dan unit yang melaksanakan pengendalian sehingga bank telah menerapkan *segregation of duty* dan *dual control* dalam melakukan keputusan kredit. Pengendalian intern untuk manajemen risiko kredit juga mencakup pengawasan oleh Dewan Komisaris dan Direksi secara berkala melalui pelaporan yang disampaikan oleh Divisi Manajemen Risiko Kredit, Pasar dan Terintegrasi maupun pelaksanaan *Risk Management Committee* (RMC) yang beranggotakan Direksi serta pejabat eksekutif terkait. Adapun pelaksanaan rapat Komite Pemantau Risiko (KPR) telah dilaksanakan secara berkala oleh Dewan Komisaris yang ditujukan untuk memantau perkembangan eksposur risiko kredit sesuai dengan perkembangan terkini.

Comprehensive Internal Control System

bank **bjb** already has an internal control system for credit risk management based on the Financial Services Authority (OJK) Circular Letter Number 34/SEOJK.03/2016 dated September 1, 2016, concerning Application of Risk Management for Commercial Banks. In the implementation, The internal control system for credit risk includes the following matter:

1. Fulfillment of the adequacy of Credit Policy, Guidelines and Procedures in the field of credit;
2. Conducting a review by an independent work unit on the draft Credit Policy, Guidelines and Procedures;
3. Conducting a review/review of the risk measurement method by the Credit, Market, and Integrated Risk Management Division which includes an assessment of the suitability of the method, and the assumptions used to measure risk
4. Review bank **bjb** compliance with internal and external provisions in the credit sector..

In the context of optimizing internal control, bank **bjb** has also performed a clear separation of functions between business units and units that carry out control so that bank **bjb** has implemented segregation of duty and dual control in making credit decisions. Internal control for credit risk management also includes supervision by the Board of Commissioners and Board of Directors on a regular basis through reporting submitted by the Credit, Market, and Integrated Risk Management Division and the implementation of the Risk Management Committee (RMC) consisting of Board of Directors and related executive officers. The implementation of Risk Monitoring Committee (KPR) meetings has been held periodically aimed at monitoring the development of credit risk exposures in accordance with the latest developments.

Analisa Kualitatif Qualitative Analysis
-

Pengungkapan Kualitatif terkait Teknik MRK (CRC)
Qualitative Disclosures Regarding MRK Techniques (CRC)

a. Kualitatif **1. Fitur utama dari kebijakan dan proses terkait evaluasi dan manajemen agunan** Agunan Kredit merupakan salah satu unsur yang diperhatikan dalam pemberian kredit. Apabila berdasarkan analisa, Bank telah memperoleh keyakinan atas kelayakan/kemampuan untuk mengembalikan hutangnya, maka agunan dapat hanya berupa obyek yang dibiayai dengan kredit. Faktor yang harus dipertimbangkan dalam mengevaluasi agunan Bank adalah aman secara yuridis, dapat dikontrol, mudah dipasarkan dan mempunyai nilai ekonomi yang memadai. Selain itu Bank memiliki kebijakan internal mengenai agunan kredit yang mengatur tata cara, jenis dan persyaratan, serta penilaian agunan. Dalam hal Mitigasi Risiko Kredit, Bank menerapkan Teknik Mitigasi Risiko Kredit sesuai Pedoman perhitungan Aktiva Tertimbang Menurut Risiko Menurut Pendekatan Standar yang mencakup Mitigasi Risko Kredit dalam bentuk Agunan, Garansi dan Penjaminan **2. Informasi terkait konsentrasi Risiko Kredit atas instrumen yang digunakan sebagai teknik Mitigasi Risiko Kredit.** Bank melakukan Restukturisasi Kredit terhadap debitur yang mengalami kesulitan pembayaran pokok dan/atau bunga Kredit dan debitur masih memiliki prospek usaha yang baik dan dinilai mampu memenuhi kewajiban setelah Kredit direstrukturisasi. Bank melakukan restrukturisasi kredit dengan memperhatikan prinsip objektivitas, *four eyes principle,* menghindari benturan kepentingan dan kewajaran. Bank mengkategorikan Kredit dalam Korporasi dan Ritel berdasarkan segmentasi yang dimiliki Bank. Kredit Korporasi merupakan Kredit yang berasal dari segmen Kredit kelolaan Divisi Korporasi, Divisi Komersial, dan Divisi *International Banking*, sementara Kredit Ritel merupakan Kredit kelolaan Divisi Kredit Konsumer, Divisi Kredit Ritel, Divisi Kredit UMKM dan Divisi Kredit KPR & KKB.	**a Qualitative** **1. Key features of policies and processes related to collateral evaluation and management** Credit collateral is one of the elements considered in granting credit. If, based on analysis, the Bank has obtained confidence in the feasibility/ability to repay its debt, then the collateral can only be the object financed by the credit. Factors that must be considered in evaluating the Bank's collateral include legal security, controllability, marketability, and sufficient economic value. Furthermore, the Bank has an internal policy regarding credit collateral that regulates the procedures, types and requirements, and collateral valuation. In terms of Credit Risk Mitigation, the Bank applies Credit Risk Mitigation Techniques in accordance with the Guidelines for Calculating Risk-Weighted Assets According to the Standard Approach, which includes Credit Risk Mitigation in the form of Collateral, Guarantees, and Guarantees. **2. Information regarding the concentration of Credit Risk on the instruments used as Credit Risk Mitigation techniques.** The Bank restructures credit for debtors experiencing difficulties in paying principal and/or interest, and debtors who still have good business prospects and are deemed capable of meeting their obligations after the credit is restructured. The Bank conducts credit restructuring by adhering to the principles of objectivity, the four eyes principle, avoiding conflicts of interest, and fairness. The Bank categorizes Corporate and Retail Loans based on its segmentation. Corporate Loans are loans managed by the Corporate Division, Commercial Division, and International Banking Division, while Retail Loans are loans managed by the Consumer Loan Division, Retail Loan Division, MSME Loan Division, and Mortgage & Vehicle Loan Division.

Pengungkapan Penggunaan Peringkat Kredit Eksternal (CRD)
Disclosure on the Use of External Credit Ratings (CRD)

a. Kualitatif **1. Lembaga Pemeringkat yang Digunakan Selama Periode Laporan** Sesuai ketentuan dalam SEOJK Nomor 37/SEOJK.03/2016 tentang Lembaga Pemeringkat dan Peringkat yang Diakui Otoritas Jasa Keuangan, Bank menggunakan Lembaga Pemeringkat yang diakui OJK, yaiu Perusahaan Pemeringkat Ficth Rating International, Ficth Rating Indonesia, PT Pemeringkat Efek Indonesia. **2. Kategori Portofolio yang Menggunakan Peringkat** Bobot risiko sesuai peringkat ditetapkan untuk jenis kategori portofolio sesuai dengan yang diatur dalam SEOJK Nomor 24/SEOJK.03/2021 tentang Perhitungan Aset Tertimbang Menururt Risiko Untuk Risiko Kredit dengan Menggunakan Pendekatan Standar bagi Bank Umum. Kategori portfolio yang menggunakan peringkat adalah Tagihan Kepada Entitas Sektor Publik, Tagihan Kepada Bank, Tagihan Kepada Perusahaan Efek dan Tagihan Kepada Lembaga Jasa Keuangan Lainnya, serta Tagihan Kepada Korporasi.	**a. Qualitative** **1. Rating Agencies Used During the Reporting Period** In accordance with the provisions of OJK Circular Letter No. 37/SEOJK.03/2016 concerning Rating Agencies and Ratings Recognized by the Financial Services Authority, the Bank uses rating agencies recognized by the OJK, namely Fitch Rating International, Fitch Rating Indonesia, and PT Pemeringkat Efek Indonesia. **2. Portfolio Categories Using Ratings** Risk weights based on ratings are determined for each portfolio category as stipulated in OJK Circular Letter No. 24/SEOJK.03/2021 concerning the Calculation of Risk-Weighted Assets for Credit Risk Using the Standardized Approach for Commercial Banks. Portfolio categories using ratings are Receivables to Public Sector Entities, Receivables to Banks, Receivables to Securities Companies, Receivables to Other Financial Services Institutions, and Receivables to Corporations.

Pengungkapan Kualitatif *Counterparty Credit Risk* (CCRA)
Qualitative Disclosure on Counterparty Credit Risk (CCRA)

Counterparty credit risk merupakan Risiko yang timbul akibat terjadinya kegagalan pihak lawan dalam memenuhi kewajibannya dan timbul dari jenis transaksi yang memiliki karakteristik tertentu, misalnya transaksi yang dipengaruhi oleh pergerakan nilai wajar atau nilai pasar. Risiko kredit akibat pihak lawan (counterparty credit risk) dapat terjadi akibat transaksi derivatif, repo dan reverse repo.	Counterparty credit risk is the risk arising from a counterparty's failure to fulfill its obligations and arises from certain types of transactions with specific characteristics, such as transactions influenced by fluctuations in fair value or market value. Counterparty credit risk can arise from derivative transactions, repos, and reverse repos.
Dalam rangka perhitungan KPMM, perhitungan untuk risiko kredit akibat kegagalan pihak lawan (counterparty credit risk) menggunakan metode perhitungan Standardised Approach for Measuring Counterparty Credit Risk Exposures (SA-CCR). Namun demikian, merujuk pada SEOJK No 23/SEOJK.03.2022 tentang Perhitungan Aset Tertimbang Menurut Risiko untuk Risiko Pasar Bagi Bank Umu, mulai periode Januari 2024 Bank melakukan perhitungan Credit Valuation Adjustment (CVA) menggunakan pendekatan dasar yang disederhanakan (basic approach CVA-BA CVA) dan pelaporannya menjadi bagian dari ATMR Risiko Pasar.	For the purposes of calculating CAR, the calculation for counterparty credit risk (CPRM) uses the Standardized Approach for Measuring Counterparty Credit Risk Exposures (SA-CCR) calculation method. However, referring to OJK Circular Letter No. 23/SEOJK.03.2022 concerning the Calculation of Risk-Weighted Assets for Market Risk for Commercial Banks, starting in January 2024, banks will calculate Credit Valuation Adjustment (CVA) using the simplified basic approach (CVA-BA CVA), and its reporting is part of the Market Risk Risk-Weighted Assets (RWA).
Jenis instrumen mitigasi risiko dari counterparty credit risk yang diterima oleh Bank antara lain : 1. Uang tunai yang disimpan oleh Bank 2. Giro, tabungan, atau deposito yang diterbitkan oleh Bank 3. Surat berharga pemerintah Indonesia dan Surat Berharga Syariah Negara.	The types of risk mitigation instruments accepted by the Bank for counterparty credit risk include: 1. Cash held by the Bank 2. Current accounts, savings, or time deposits issued by the Bank 3. Indonesian government securities and State Sharia Securities.

Risiko Pasar

Risiko pasar adalah risiko yang timbul atas portfolio pada posisi neraca dan rekening administratif termasuk transaksi derivatif, akibat perubahan secara keseluruhan dari kondisi pasar, termasuk Risiko perubahan harga option.

Komponen risiko pasar meliputi:

- Risiko *suku bunga* adalah risiko akibat perubahan harga instrumen keuangan dari posisi *trading book* yang disebabkan oleh pergerakan sensitivitas risiko (*risk factor*) pada setiap instrumen atau akibat perubahan nilai ekonomis modal (*economic value of equity*) bank dari aktivitas *banking book* yang disebabkan oleh perubahan suku bunga.
- Klasifikasi risiko suku bunga mencakup pula risiko suku bunga dari posisi *banking Book* yang antara lain meliputi *repricing risk*, *yield curve risk*, *basis risk*, dan *optionality risk*.
- Risiko nilai tukar adalah risiko akibat perubahan nilai posisi terbuka valuta asing klasifikasi *trading book* atau akibat perubahan posisi devisa neto bank (*banking Book*) yang disebabkan oleh perubahan nilai tukar valuta asing.

Risiko pasar timbul dari pergerakan/perubahan tingkat suku bunga dan/atau nilai tukar yang mempengaruhi posisi keuangan bank khususnya terhadap rasio permodalan. Secara garis besar, manajemen risiko pasar terbagi menjadi 2 (dua) yaitu manajamen risiko pasar *trading book* dan manajemen risiko pasar *banking book*. Sumber risiko pasar *trading book* timbul dari aktivitas dealing room Divisi Treasuri akibat posisi terbuka bank yang terekspos pergerakan suku bunga atau nilai tukar valuta asing.

Market Risk

Market Risk is the risk arising from the portfolio in the balance sheet and administrative account positions including derivative transactions, due to overall changes in market conditions, including the risk of changes in option price.

Components of market risk include:

- Interest Rate Risk is the risk due to changes in financial instrument prices from Trading Book positions caused by risk factor movements on each instrument or due to changes in the Economic Value Of Equity of bank **bjb** from Banking Book activities caused by changes in interest rates.
- Classification of interest rate risk also includes interest rate risk from the banking book position, which includes repricing risk, yield curve risk, basis risk, and optionality ris.
- Exchange Rate Risk is the risk due to changes in the value of open positions in the Trading Book classification or due to changes in the position of bank **bjb** Net Open Exchange (Banking Book) caused by changes in foreign exchange rates.

Market risk arises from movements/changes in interest rates and/ or exchange rates that affect the financial position of bank **bjb**, especially towards capital ratios. Broadly speaking, market risk management is divided into 2 (two), namely trading book market risk management and banking book market risk management. The source of trading book market risk arises from the Dealing Room of the Treasury Division due to bank **bjb** open position exposed to movements in interest rates or foreign exchange rates.

Sumber risiko pasar *banking book* timbul antara lain disebabkan oleh perubahan stuktur portofolio neraca dan rekening adminstratif bank yang sensitif terhadap pergerakan suku bunga sehingga berdampak terhadap pendapatan bunga bersih dan yang yang disebabkan pula karena perubahan struktur portofolio neraca dan rekening adminstratif bank yang sensitif terhadap pergerakan nilaii tukar yang tercermin dari posisi devisa neto bank.

Pengawasan Aktif Dewan Komisaris dan Direksi

Dewan Komisaris dan Direksi bertanggungjawab atas efektivitas penerapan manajemen risiko pasar di bank **bjb**. Terkait wewenang dan tanggung jawab pengawasan aktif Dewan Komisaris dan Direksi bank **bjb**, Dewan Komisaris dan Direksi selalu memperoleh informasi yang jelas mengenai evaluasi dan penerapan manajemen risiko eksposur risiko pasar, pemantauan limit secara harian serta langkah-langkah yang diambil oleh *Risk Taking Unit* khususnya terkait adanya pelampauan limit.

Dalam pelaksanaan pengawasannya, Dewan Komisaris dibantu oleh Komite Pemantau Risiko (KPR), bank secara berkala melakukan pengawasan melalui koordinasi dengan Satuan Kerja Manajemen Risiko. Media koordinasi yang digunakan dapat berupa laporan pemantauan risiko oleh SKMR yang disampaikan kepada Komite Pemantau Risiko ataupun melalui media rapat antara kedua belah pihak. Pada implementasinya, pelaksanaan rapat yang diadakan umumnya membahas penerapan manajemen risiko di bank **bjb** menyangkut diantaranya penerapan pengukuran *risk tolerance* risiko pasar, pembahasan profil risiko yang bersifat material, serta kecukupan dan evaluasi metodologi dan/atau *tools* pengukuran risiko pasar yang dipergunakan Satuan Kerja Manajemen Risiko.

Pengawasan yang dilakukan oleh Direksi adalah melalui pemantauan penerapan limit *treasury* secara berkala baik terjadi pelampauan limit (*breach limit*) maupun tidak terjadi pelampauan limit, dan melakukan persetujuan atas limit yang bersifat baru ataupun setelah dilakukan perubahan. Sedangkan pembahasan eksposur risiko pasar dibahas dalam rapat Komite Manajemen Risiko/*Risk Management Committee* (RMC). Sejalan dengan kebijakan manajemen risiko pasar mengenai tahapan eskalasi pelampauan limit, setiap pelampauan limit akan diinformasikan dan disetujui apabila terjadi kondisi abnormal dalam Komite Manajemen Risiko (RMC). Pengelolaan risiko pasar tersebut disusun ke dalam bentuk kebijakan, prosedur, limit risiko dan hasil keputusan lainnya terkait dengan pengelolaan risiko pasar. Limit risiko pasar dan *risk appetite* bank dievaluasi secara periodik atau sewaktu-waktu diperlukan untuk dilakukan evaluasi sesuai dengan perubahan lingkungan bisnis bank **bjb**.

Sources of banking book market risk arise, among others, due to changes in the structure of bank **bjb** balance sheet and administrative accounts which are sensitive to interest rate movements so that it has an impact on net interest income and which is also caused by changes in the structure of bank **bjb** balance sheet and administrative accounts which are sensitive to exchange rate movements reflected by bank **bjb** Net Open Positio.

Active Supervision of the Board of Commissioners and Board of Directors

The Board of Commissioners and Board of Directors are responsible for the effectiveness of the application of Market Risk Management in bank **bjb**. Related to the authority and responsibility of active supervision of bank **bjb** Board of Commissioners and Board of Directors, the Board of Commissioners and Board of Directors always obtain clear information regarding the evaluation and application of risk management for market risk exposure, daily monitoring of limits and steps taken by the Risk Taking Unit, especially related to the existence of limit exceeding.

In carrying out its supervisory duties, the Board of Commissioners is assisted by the Risk Monitoring Committee (KPR). The bank periodically conducts oversight through coordination with the Risk Management Unit (SKMR). Coordination is facilitated via risk monitoring reports submitted by SKMR to the Risk Monitoring Committee or through meetings between the two parties. In practice, these meetings generally discuss the implementation of risk management at **bjb**, including the application of market risk tolerance measurements, review of material risk profiles, and the adequacy and evaluation of methodologies and/or tools used by the Risk Management Unit for market risk measurement.

Supervision by the Board of Directors is conducted through regular monitoring of treasury limit compliance, whether or not limit breaches occur, and includes approval of new or revised limits. Market risk exposures are discussed in Risk Management Committee (RMC) meetings. In line with market risk management policies on limit breach escalation, any limit breach is reported and requires approval in the RMC if abnormal conditions arise. Market risk management is formalized through policies, procedures, risk limits, and other decisions related to market risk oversight. Market risk limits and the bank's risk appetite are evaluated periodically or on an ad hoc basis as needed, in accordance with changes in **bjb**'s business environment.

Kecukupan Kebijakan, Prosedur dan Penetapan Limit

Sebagai penerapan manajemen risiko pasar yang bersifat dinamis, Satuan Kerja Manajemen Risiko bank **bjb** melakukan pembaharuan dan evaluasi atas kebijakan dan pedoman manajemen risiko bank **bjb** secara berkala. Evaluasi pedoman pengukuran limit risiko pasar oleh Satuan Kerja Manajemen Risiko secara berkala dan dilakukan pembahasan dengan *Risk Taking Unit* (Divisi *Treasury*) dan selanjutnya akan diajukan kepada Direksi untuk persetujuan atas pedoman dimaksud. Terkait dengan evaluasi penetapan limit *Dealing Room Treasury* dan ALM yang diajukan oleh Divisi *Treasury*, Satuan Kerja Manajemen Risiko melakukan evaluasi terhadap limit tersebut dengan metodologi yang telah disahkan dalam pedoman manajemen risiko bank. Limit untuk level portofolio treasury dievaluasi minimal satu tahun sekali atau dapat dilakukan lebih sering jika terdapat pergerakan volatilitas harga pasar atau perubahan *business plan Risk Taking Unit*. Evaluasi analisa tersebut sekurang-kurangnya memuat informasi mengenai latar belakang perubahan limit, kondisi saat ini, dasar perhitungan dalam melakukan perubahan limit, kepatuhan terhadap regulasi dan dampak terhadap modal.

Kecukupan Proses Identifikasi, Pengukuran, Pemantauan, dan Pengendalian Risiko, Serta Sistem Informasi Manajemen Risiko

Dalam melakukan penerapan manajemen risiko melalui proses identifikasi, pengukuran, pemantauan, dan pengendalian risiko, serta sistem informasi manajemen risiko untuk risiko pasar sebagaimana Surat Edaran Otoritas Jasa Keuangan Nomor 34/SEOJK.03/2016 tanggal 1 September 2016, bank **bjb** melakukan penerapan manajemen risiko yaitu:

a. **Identifikasi Risiko Pasar**
   Proses identifikasi risiko pasar meliputi identifikasi dari karakteristik produk baru, identifikasi sumber risiko pasar yang dapat berdampak kepada transaksi yang akan dilakukan oleh *dealing room treasury*. Proses identifikasi risiko yang disesuaikan dengan risiko pasar melekat pada aktivitas bisnis bank **bjb** yang meliputi risiko suku bunga antara lain *repricing risk*, *yield curve risk*, *basis risk*, *optionality risk*, dan untuk risiko nilai tukar antara lain tercermin dari besarnya eksposur transaksional. Satuan Kerja Manajemen Risiko juga melakukan *review* atau evaluasi atas produk maupun aktivitas yang terekspos pengaruh pergerakan variabel pasar.
b. **Pengukuran Risiko Pasar**
   Pengelolaan portofolio Divisi Treasuri tanpa adanya dasar pertimbangan dan penilaian risiko akan mengakibatkan kerugian di atas toleransi bank **bjb** dalam menyerap kerugian. Salah satu cara dalam menanggulangi kejadian risiko yang dapat menyebabkan kerugian di atas toleransi risiko bank adalah penggunaan toleransi risiko atau limit transaksi yang diperkenankan manajemen bank **bjb**.

Adequacy of Policies, Procedures, and Limit Determination

As a dynamic application of market risk management, bank **bjb** Risk Management Work Unit regularly updates and evaluates bank **bjb** risk management policies and guidelines. Evaluate guidelines for measuring market risk limits by the Risk Management Work Unit on a regular basis and discuss with the risk taking unit (Treasury Division) and subsequently will be submitted to Board of Directors for approval of the guidelines referred to. In connection with the evaluation of the determination of the Dealing Room Treasury and ALM limits proposed by the Treasury Division, the Risk Management Work Unit evaluates these limits using the methodology that has been approved in bank **bjb** risk management guidelines. Limit for treasury portfolio level is evaluated at least once a year or can be done more frequently if there is a movement in market price volatility or changes in business plan risk taking units. Evaluation of the analysis contains at least information on the background of changes in limits, current conditions, the basis for calculating changes in limits, compliance with regulations and the impact on capitaL.

Adequacy of the Risk Identification, Measurement, Monitoring and Control Process, As Well As Risk Management Information System

In implementing Risk Management through the process of identifying, measuring, monitoring, and controlling Risk, as well as the Risk Management information system for Market Risks as stated in the Financial Services Authority (OJK) Circular Letter Number 34/DPNP.03/2016 dated September 1, 2016, bank **bjb** implements risk management, namely:

a. **Market Risk Identification**
   The process of identifying market risk includes identification of the characteristics of new products and identification of sources of market risk that can have an impact on transactions that will be carried out by the Dealing Room Treasury. The risk identification process that is adjusted to Market Risk is inherent in bank **bjb** business activities which includes interest rate risk including repricing risk, yield curve risk, basis risk, and optionality risk and for exchange rate risk, among others, reflected in the magnitude of transactional exposure. The Risk Management Work Unit also reviews or evaluates products and activities that are exposed to the influence of market variable movements.
b. **Market Risk Measurement**
   Management of the Treasury Division's portfolio without a basis for consideration and risk assessment will result in losses above bank **bjb** tolerance in absorbing losses. One way to overcome risk events that can cause losses above bank **bjb** risk tolerance is to use risk tolerance or transaction limits that are allowed by bank **bjb** management. Submission of limits by the Treasury

Pengajuan limit oleh Divisi Treasuri sebagai *Risk Taking Unit* harus mendapatkan kajian risiko secara terukur oleh Divisi Manajemen Risiko Kredit, Pasar dan Terintegrasi. Pengajuan limit ini bertujuan untuk mempermudah Manajemen bank **bjb** dalam memahami risiko yang dihadapi serta pengelolaan risikonya.

Pengajuan limit harus meliputi kriteria-kriteria sebagai berikut:
Divisi Treasuri sebagai *Risk Taking Unit* menerapkan "*trading*" dan "*hedging*" secara berkala sebagai bagian dari proses pengelolaan bisnis *Treasury* khususnya bidang *Treasury Trading*. Pada konteks limit berbasis risiko ini, yang ditentukan adalah limit yang berkaitan dengan aktivitas *Treasury*. Dalam proses penerapan limit dilakukan usaha pendekatan dimana terdapat komponen-komponen yang mendukung diantaranya:

1. **Rencana Bisnis**
   a. Rencana bisnis harus secara luas mencantumkan tujuan dari limit yang diminta, target pasar, pendapatan yang diharapkan dan kebutuhan akan modal. Rencana tersebut harus mengkualifikasikan cara bagaimana limit tersebut akan dipergunakan, contoh "*trading*" atau "*hedging*".
   b. Aplikasi limit harus mengidentifikasi mata uang dan pasar spesifik yang menjadi eksposur terhadap tujuan unit bisnis.
2. **Persyaratan Modal dan Proyeksi Pendapatan**
   a. Divisi Treasuri meminta masukan dari Divisi Manajemen Risiko Kredit, Pasar dan Terintegrasi dalam mengukur alokasi modal yang harus disediakan dalam memitigasi potensi kerugian yang akan timbul.
   b. Divisi Treasuri harus memberikan proyeksi pendapatan yang berhubungan dengan aplikasi limit. Proyeksi tersebut akan memudahkan Direksi dalam proses pengambilan keputusan persetujuan limit.
3. **Penggunaan Historis**
   Divisi Treasuri dapat memberikan analisa *trend market outlook* dengan penggunaan historis yang ada atas eksposur risiko atau limit yang akan diterapkan.

Prosedur kerja pengukuran limit unit bisnis Treasuri mempertimbangkan beberapa aspek yang dinilai cukup berpotensial dalam menimbulkan kejadian risiko. Komponen yang mendasari dalam pengukuran limit memuat yaitu:

a. **Faktor Sensitivitas Risiko Pasar**
   Setiap aktivitas Treasuri terdapat risiko yang melekat (*risk inherent*) dimana proses dalam pengukuran risiko harus didasarkan pada sensitivitas risiko yang melekat pada aktivitas transaksi Treasuri. Faktor sensitivitas risiko pasar meliputi yaitu PV01, *duration* dan volatilitas transaksi.
b. **Kecukupan Data**
   Kecukupan data diperlukan sebagai kecukupan prosedur analisis statistik dan agar analisis pengukuran terhadap risiko menghasilkan output yang memadai

Division as a risk-taking unit must obtain a measurable risk assessment by the Credit, Market, and Integrated Risk Management Division. Submission of this limit aims to facilitate management bank **bjb** in understanding the risks faced and managing the risks.

Submission of limits must include the following criteria:
Treasury Division as a risk taking unit implements "trading" and "hedging" regularly as part of the Treasury business management process, especially in the field of Treasury Trading. In the context of this risk-based limit, what is determined is the limit relating to Treasury activities. In the process of applying limits, an attempt is made to approach where there are supporting components including:

1. **Business Plan**
   a. The business plan must broadly state the objectives of the requested limit, target market, expected income, and capital requirements. The plan must qualify the way the limit will be used, for example "trading" or "hedging".
   b. The limit application must identify specific currencies and markets that are exposure to the objectives of the business unit.
2. **Capital Requirements and Projection of Income**
   a. The Treasury Division requests input from the Credit, Market, and Integrated Risk Management Division in measuring capital allocation that must be provided in mitigating potential losses that will aris.
   b. The Treasury Division must provide income projections related to limit applications. This projection will facilitate Board of Directors in the decision process for approval of limits.
3. **Historical Use**
   The Treasury Division can provide an analysis of market outlook trends with existing historical use of risk exposures or limits to be applied.

The work procedure for measuring Treasury business unit limits considers several aspects that are considered to be quite potential in causing risk events. The underlying component in the measurement limit loading namely:

a. **Market Risk Sensitivity Factor**
   Each Treasury activity has risk inherent where the process of measuring risk must be based on the risk sensitivity inherent in Treasury transaction activities. Market risk sensitivity factors include PV01, Duration and transaction volatility.
b. **Data Adequacy**
   Adequacy of data is needed as an adequate statistical analysis procedure and so that the measurement of risk analysis produces adequate output and is in accordance

dan sesuai dengan eksposur risiko yang dihadapi oleh bank. Data yang diperlukan adalah data historis yang dibutuhkan guna memperkuat suatu analisis pengukuran limit risiko.

c. **Pengukuran *Value at Risk***

Model *Value at Risk* tersebut dipergunakan dalam mengukur dan menganalisa risiko transaksi Treasuri secara komprehensif dan terukur. Misalnya, penggunaan VaR (*value at risk*) untuk mengukur kerugian/*budget loss* atas aktivitas transaksi *treasury trading* selain itu kegunaan model ini juga dapat mengukur perkiraan kerugian terburuk yang dapat dialami bank dalam selang waktu tertentu pada kondisi pasar yang normal dan tingkat kepercayaan tertentu.

Beberapa strategi pengelolaan risiko pasar yang dilakukan bank **bjb** adalah mencakup sistem dan prosedur dengan menggunakan teknik *Mark to Market, mark to model*, *Value at Risk* (VaR), *Stress Testing*, *Repricing Gap* and *Duration Gap Model* atau metoda lain yang sesuai untuk mendapatkan nilai wajar eksposur secara berkala, sekaligus merupakan platform yang tepat untuk menilai posisi risiko.

Pada saat ini bank **bjb** menerapkan metode yang mampu mengukur risiko terhadap nilai tukar yaitu dengan menggunakan Model Nilai Tukar Var EWMA (*Exponential Weighted Moving Average*) yang dilengkapi dengan *Fundamental Analysis* dan *Historical Simulation* untuk menangkap tingkat risiko nilai tukar yang tercermin dalam Posisi Devisa Netto. bank **bjb** juga telah membangun model pengukuran risiko tingkat suku bunga dengan menggunakan metodologi yang dapat menangkap risiko suku bunga dari portofolio aset dan kewajiban yang sensitif terhadap perubahan suku bunga serta menentukan besaran risiko terhadap bank **bjb** melalui pengukuran *interest rate risk in the banking book* yang meliputi Re*pricing Profile, Duration GAP, Economic Value of Equity* (EVE), dan sensitivitas *Net interest income* (NII). Dalam proses pengukuran potensi kerugian baik itu suku bunga dan nilai tukar dari transaksi-transaksi *treasury* diukur melalui VaR simulasi historis baik secara sistem (OPICS *Risk*) maupun manual. Pengujian kelayakan internal VaR simulasi historis melalui *back testing* VaR vs *profit/loss treasury* dan dilakukan secara berkala.

Pemantauan Risiko Pasar

1. Aktivitas Adanya RMA (*Risk Management Agency*) yang berfungsi untuk melakukan proses manajemen risiko pasar *trading book* melalui pemantauan limit Treasuri secara harian, misalnya ketentuan GWM, *open position, budget loss, risk sensitivity limit*, dan lain-lain. Sebagai upaya proses pemantauan yang efektif dan akurat, bank telah memiliki sistem OPICS *Risk* yang berfungsi dalam mengukur eksposur risiko *trading book* yang dilakukan oleh *dealing room Treasury*.

with the risk exposures faced by bank **bjb**. The data needed is historical data needed to strengthen an analysis of risk limit measurements.

c. **Measurement of Value Risk**

The Value at Risk model is used in measuring and analyzing Treasury transaction risk in a comprehensive and measurable manner. For example, the use of VaR (value at risk) to measure losses/budget loss on Treasury trading transaction activities. In addition, the use of this model can also measure the estimated worst losses that can be experienced by bank **bjb** in certain intervals under normal market conditions and a certain level of confidence.

Some of the market risk management strategies undertaken by bank **bjb** include systems and procedures using Mark To Market, Mark to Model, Value at Risk (VaR), Stress Testing, Repricing Gap, and Duration Gap Models or other appropriate methods to obtain fair value of periodic exposures, as well as being the right platform for assessing risk position.

At this time bank **bjb** applies a method that is able to measure risk to the exchange rate, namely by using the EWMA Var (Exponential Weighted Moving Average) Exchange Rate Model which is equipped with fundamental analysis and historical simulation to capture the exchange rate risk level reflected in the Net Open Position. bank **bjb** has also developed a model for measuring interest rate risk using a methodology that can capture interest rate risk from portfolio assets and liabilities that are sensitive to changes in interest rates and determine the amount of risk to bank **bjb** through Repricing Profile, Duration GAP, Economic Value of Equity (EVE), and Net Interest Income sensitivity (NII). In the process of measuring potential losses both interest rates and exchange rates of Treasury transactions are measured through historical VaR simulation cally (OPICS Risk) and manually. Testing the internal feasibility of historical VaR simulations through back testing VaR vs Profit/Loss Treasury and is conducted regularly.

Market Risk Monitoring

1. The existence of an RMA (Risk Management Agency) that functions to carry out the trading book market risk management process through daily monitoring of Treasury limits, for example the statutory reserve requirement, open positions, budget loss, risk sensitivity limits, etc. As an effort to monitor the process effectively and accurately, bank **bjb** has an OPICS Risk system that functions in measuring trading book risk exposure by the Treasury dealing room.

2. Pemantauan risiko nilai tukar *banking book* dilakukan melalui pemantauan posisi devisa neto secara harian agar berada dalam toleransi limit internal bank dan regulasi Bank Indonesia.
3. Pemantauan risiko suku bunga *banking book* dilakukan melalui pengukuran *Repricing GAP, Duration GAP,* dan *Economic Value of Equity* (EVE) untuk melihat sensitivitas porotfolio aktiva dan pasiva bank dalam menghadapi perubahan suku bunga di masa datang.
4. Melakukan evaluasi terhadap eksposur risiko yang dimiliki oleh bank **bjb**.
5. Apabila terjadi pelampauan limit, Divisi Manajemen Risiko Kredit, Pasar dan Terintegrasi segera melakukan pelampauan tersebut kepada Direksi.

Pengendalian Risiko Pasar

Strategi yang diambil oleh bank dalam proses pengendalian risiko pasar, antara lain melalui *hedging, squaring position, back-to-back* dan cara lain yang bertujuan untuk meng-*offset* suatu transaksi/posisi yang mengalami kerugian serta *stress testing* guna melihat ketahanan posisi keuangan bank dalam menghadapi kondisi krisis. Selain itu pula dapat digunakan untuk mentransfer risiko yang dimiliki *dealing room Treasury* bank sepanjang transfer risiko tersebut masih berada dalam *risk limit* bank. bank juga membatasi atau melarang jenis transaksi atau instrumen tertentu untuk ditransaksikan oleh bisnis unit, serta mengurangi risiko dengan cara memberikan batas maksimum transaksi atau portofolio sesuai dengan *risk appetite* bank **bjb**.

Sistem Pengendalian Intern yang Menyeluruh

Dalam rangka pengembangan penerapan manajemen risiko yang dinamis, Satuan Kerja Manajemen Risiko selalu melakukan evaluasi atas kebijakan, prosedur dan limit risiko pasar secara berkala. Sebagai upaya pengendalian risiko pasar berupa kecukupan kebijakan dan prosedur Satuan Kerja Manajemen Risiko, kaji ulang atas kebijakan dan prosedur dilakukan oleh unit independen baik di internal ataupun pihak eksternal.

Pelaksanaan kaji ulang dan evaluasi terhadap pengukuran risiko yang dilakukan oleh Divisi Manajemen Risiko Kredit, Pasar dan Terintegrasi meliputi:

1. Kesesuaian kebijakan, desain proses manajemen risiko, sistem informasi, dan pelaporan manajemen risiko bank **bjb** dengan kebutuhan bisnis bank **bjb**, serta perkembangan peraturan dan praktek terbaik *(best practice)* terkait manajemen risiko.
2. Metode, asumsi, dan variabel yang digunakan untuk mengukur risiko dan menetapkan limit risiko pasar.
3. Perbandingan antara asumsi yang digunakan dalam metode pengukuran risiko yang dipergunakan dengan kondisi yang sebenarnya/aktual.
4. Perbandingan antara limit yang ditetapkan dengan eksposur yang sebenarnya/aktual.

2. Banking book exchange risk monitoring is carried out through monitoring the Net Open Position per 30 minutes and on a daily basis to be within the tolerance limits of bank **bjb** internal limits and Bank Indonesia regulations.
3. Banking book interest rate risk monitoring is carried out through measurement of Repricing GAP, Duration GAP, and Economic Value of Equity (EVE) to see the sensitivity of bank **bjb** assets and liabilities portfolio in the face of changes in interest rates in the future.
4. Evaluate the risk exposures held by bank **bjb**.
5. In the event of exceeding the limit, the Credit, Market, and Integrated Risk Management Division immediately reports the excess to the Board of Directors.

Market Risk Control

Strategies taken by bank **bjb** in the process of controlling market risk include hedging, squaring positions, back-to-back and other means aimed at offsetting a transaction/position that has a loss and stress testing in order to see the resilience of bank **bjb** financial position in facing crisis conditions. In addition, it can also be used to transfer risks owned by the Treasury bank's dealing room as long as the risk transfer is still within bank **bjb** risk limit. bank **bjb** also limits or prohibits certain types of transactions or instruments to be transacted by business units and reduces risk by providing a maximum limit of transactions or portfolios in accordance with bank **bjb** risk appetite.

Comprehensive Internal Control System

In the context of developing a dynamic application of risk management, the Risk Management Unit always evaluates market risk policies, procedures and limits on a regular basis. As an effort to control market risk in the form of adequacy of policies and procedures of the Risk Management Work Unit, reviews of policies and procedures are carried out by independent units, both internal and external parties.

The review and evaluation of risk measurements carried out by the Credit, Market, and Integrated Risk Management Division include:

1. Conformity of policies, design of Risk Management processes, information systems, and reporting of bank **bjb** risk management with bank business needs, as well as the development of regulations and best practices related to Risk Management;
2. The methods, assumptions, and variables used to measure risk and determine market risk limits;
3. Comparison between assumptions used in the risk measurement method used and actual/actual conditions;
4. Comparison between specified limits and actual/actual exposures;..

Hasil kaji ulang Satuan Kerja Manajemen Risiko (Divisi Manajemen Risiko Kredit, Pasar dan Terintegrasi) yang telah dikaji ulang oleh Satuan Kerja Audit Intern (SKAI) akan disampaikan dalam Komite Manajemen Risiko (RMC) untuk kemudian diminta persetujuannya kepada Direksi. Pembahasan tersebut dilakukan pula dengan Dewan Komisaris yang dibantu oleh Komite Pemantau Risiko. Kaji ulang yang dilakukan oleh Satuan Kerja Audit Intern (SKAI) meliputi:

1. Keandalan kerangka manajemen risiko, yang mencakup kebijakan, struktur organisasi, alokasi sumber daya, desain proses manajemen risiko, sistem informasi, dan pelaporan risiko bank **bjb**.
2. Proses pemantauan yang dilakukan oleh Satuan Kerja Manajemen Risiko.
3. Evaluasi atas metodologi pengukuran Satuan Kerja Manajemen Risiko.

The results of the Risk Management Work Unit (Credit, Market, and Integrated Risk Management Division) which have been reviewed by the Internal Audit Work Unit (SKAI) will be submitted to the Risk Management Committee (RMC) for approval from Board of Directors. The discussion was also conducted with the Board of Commissioners, assisted by the Risk Monitoring Committee. The review conducted by the Internal Audit Work Unit (SKAI) include:

1. Reliability of the Risk Management framework, which includes policies, organizational structure, resource allocation, design of the Risk Management process, information systems, and bank **bjb** Risk reporting;
2. The monitoring process carried out by the Risk Management Work Unit;
3. Evaluation of the measurement methodology of the Risk Management Work Unit..

Pengungkapan ATMR untuk Risiko Pasar dengan Menggunakan Pendekatan Standar yang Disederhanakan (MR3)

Perhitungan ATMR Pasar menggunakan metode standardized approach. Skala Bisnis dan Kompleksitas Portofolio membuat penggunaan *Simplified Standardized Approach* tidak memadai untuk mencerminkan profil risiko bank.

Disclosure of Market Risk-Weighted Assets Using the Simplified Standardized Approach (MR3)

The calculation of Risk-Weighted Assets (RWA) for Market Risk is conducted using the standardized approach. The Bank's business scale and portfolio complexity render the use of the Simplified Standardized Approach inadequate to appropriately reflect the Bank's risk profile.

Pengungkapan Informasi Kualitatif terkait CVA (CVAA)

Perhitungan ATMR CVA termasuk dalam perhitungan ATMR risiko pasar yang diterbitkan dalam SEOJK No.23/SEOJK.03/2022. Risiko CVA merupakan risiko kerugian yang timbul dari perubahan nilai CVA sebagai akibat dari perubahan credit spread pihak lawan dan faktor risiko pasar yang mempengaruhi harga transaksi derivatif dan securities financing transaction (SFT). Pengukuran dilakukan menggunakan sistem Bank berdasarkan bobot risiko per counterparty dan data transaksi seperti jangka waktu hingga jatuh tempo, nilai transaksi, serta market data. Dari data-data tersebut selanjutnya dihitung CVA dan kebutuhan permodalan untuk risiko CVA. Pemantauan dilakukan secara bulanan untuk memperhitungkan dampaknya terhadap ATMR Risiko Pasar. Sedangkan pengendalian dilakukan dengan menetapkan limit counterparty.

Qualitative Information Disclosure Related to CVA (CVAA)

The calculation of Risk-Weighted Assets (RWA) for Credit Valuation Adjustment (CVA) is included in the calculation of RWA for Market Risk as stipulated under SEOJK No.23/SEOJK.03/2022. CVA risk represents the risk of loss arising from changes in CVA value due to movements in counterparty credit spreads and market risk factors affecting the pricing of derivative transactions and securities financing transactions (SFT). The measurement is conducted using the Bank's internal system based on risk weights per counterparty and transaction data, including time to maturity, transaction value, and relevant market data. Based on these inputs, the CVA and the corresponding capital requirement for CVA risk are subsequently calculated. Monitoring is performed on a monthly basis to assess its impact on RWA for Market Risk, while control is implemented through the establishment of counterparty limits.

Pengungkapan BA-CVA yang Disederhanakan (CVA1)

Sebagaimana dijelaskan pada SEOJK No.23/SEOJK.03/2022, Perhitungan beban modal untuk risiko CVA dengan pendekatan dasar yang disederhanakan dihitung dan dijumlahkan untuk seluruh pihak lawan yang masuk dalam cakupan perhitungan CVA. Pada perhitungan periode Desember 2025, bank tidak memiliki exposure at default sehingga tidak memiliki nilai CVA.

Simplified BA-CVA Disclosure (CVA1)

As stipulated in SEOJK No.23/SEOJK.03/2022, the calculation of capital charges for CVA risk using the simplified basic approach is performed and aggregated across all counterparties within the scope of CVA calculation. As of the December 2025 reporting period, the Bank did not have any exposure at default; therefore, no CVA value was recognized.

Interest Rate Risk In Banking Book (IRRBB)

Interest Rate Risk In Banking Book (IRRBB)

Laporan Penerapan Manajemen Risiko untuk IRRBB (IRRBBA)

Implementation of Risk Management for IRRBB Report (IRRBBA)

Analisa Kualitatif
Qualitative Analysis

1. Penjelasan mengenai bagaimana Bank mendefinisikan IRRBB untuk pengukuran dan pengendalian Risiko :
   Risiko suku bunga dalam banking book (IRRBB) merupakan risiko yang timbul akibat dari posisi aset, kewajiban dan rekening administratif yang terekspos pergerakan suku bunga pasar yang menimbulkan *gap risk*, *basis risk* dan *option risk* sehingga dapat mempengaruhi nilai ekonomis (*economic value*) dan pendapatan bunga bersih (*net interest income*) bank. Bank mengukur eksposur IRRBB menggunakan 2 (dua) pendekatan yaitu perspektif nilai ekonomis modal (*economic value of equity*) dan perspektif rentabilitas (*earnings*) berdasarkan skenario *shock* suku bunga yang telah ditetapkan oleh OJK.
2. Penjelasan mengenai strategi Manajemen Risiko dan mitigasi Risiko untuk IRRBB :
   Bank telah memiliki kebijakan dan prosedur manajemen risiko pasar suku bunga banking book termasuk strategi mitigasi dalam mendukung pelaksanaan manajemen risiko suku bunga. Untuk memitigasi risiko serta langkah perbaikan terhadap eksposur IRRBB, Bank secara bertahap akan melakukan penerapan limit risiko IRRBB, strategi natural *hedging*, melakukan *stress testing* IRRBB, pengawasan oleh Satuan Kerja Audit Internal atas eksposur IRRBB yang dilakukan secara periodik serta pembahasan pengukuran IRRBB baik metode maupun model yang digunakan untuk pengukuran IRRBB pada komite ALCO dan Komite Manajemen Risiko.
3. Periodisasi perhitungan IRRBB Bank dan penjelasan mengenai pengukuran spesifik yang digunakan Bank untuk mengukur sensitivitas terhadap IRRBB :
   Perhitungan IRRBB dilakukan setiap triwulan sesuai dengan periode pelaporan profil risiko dan tingkat kesehatan bank. Perhitungan IRRBB dilakukan dengan memperhatikan ketentuan yang tertuang pada Surat Edaran OJK No.12/SEOJK.03/2018 mengenai Pedoman Pengukuran Risiko Pendekatan Standar untuk Risiko Suku Bunga dalam Banking Book bagi Bank Umum dimana bank mengukur sensitivitas IRRBB melalui perhitungan ΔEVE terhadap Modal Inti untuk mengetahui dampak risiko IRRBB terhadap Limit yang ditetapkan serta perhitungan rasio ΔNII terhadap *net interest income*.
4. Penjelasan mengenai skenario shock suku bunga dan skenario stress yang digunakan Bank dalam perhitungan IRRBB dengan menggunakan metode EVE dan NII :
   Bank menggunakan 6 skenario shock suku bunga dalam perhitungan IRRBB dengan menggunakan metode EVE, yaitu *parallel up*, *parallel down*, *steepener*, *flattener*, *short rate up* dan *short rate down*. Sementara perhitungan dengan metode NII menggunakan 2 skenario, yaitu *parallel up* dan *parallel down*.
5. Asumsi Pemodelan yang Berdampak secara Signifikan dalam Perhitungan IRRBB, yang mana Asumsi tersebut Berbeda dari Perhitungan IRRBB dengan Pendekatan Standar :
   Asumsi pemodelan yang dilakukan bank dalam perhitungan IRRBB mengikuti pendekatan standar yang tertuang pada Surat Edaran OJK No.12/SEOJK.03/2018. Sehingga untuk saat ini bank tidak memiliki asumsi pemodelan khusus yang memiliki pendekatan yang berbeda dari pendekatan standar.
6. Penjelasan mengenai bagaimana Bank melakukan lindung nilai (*hedging*) terhadap IRRBB (apabila ada) dan perlakuan akuntansi terkait :
   Dalam melakukan lindung nilai (*hedging*) bank menggunakan *natural hedging* antara aset dan kewajiban yang terekspos risiko suku bunga.

1. Explanation of how the Bank defines IRRBB for the measurement and management of risk:
   Interest Rate Risk in the Banking Book (IRRBB) represents the risk arising from positions in assets, liabilities, and off-balance sheet accounts that are exposed to movements in market interest rates, resulting in gap risk, basis risk, and option risk, which may affect the Bank's economic value and net interest income. The Bank measures IRRBB exposure using two approaches, namely the economic value perspective (Economic Value of Equity/EVE) and the earnings perspective, based on interest rate shock scenarios as prescribed by OJK.
2. Explanation of Risk Management strategy and mitigation for IRRBB:

   The Bank has established policies and procedures for managing interest rate risk in the banking book, including mitigation strategies to support the implementation of interest rate risk management. In mitigating risk and undertaking corrective actions on IRRBB exposure, the Bank progressively implements IRRBB risk limits, adopts natural hedging strategies, conducts IRRBB stress testing, and ensures periodic oversight by the Internal Audit Unit over IRRBB exposure. In addition, discussions on IRRBB measurement, including the methods and models applied, are conducted within the Asset and Liability Committee (ALCO) and the Risk Management Committee.
3. Frequency of IRRBB calculation and explanation of specific measurements used by the Bank to assess IRRBB sensitivity:

   IRRBB is calculated on a quarterly basis in line with the reporting period for the Bank's risk profile and soundness level. The calculation of IRRBB is performed in accordance with the provisions set out in SEOJK No.12/SEOJK.03/2018 regarding the Standardized Approach for measuring interest rate risk in the banking book for commercial banks, whereby the Bank measures IRRBB sensitivity through the calculation of ΔEVE to Tier 1 Capital to assess the impact of IRRBB risk against established limits, as well as the calculation of the ΔNII ratio to net interest income.
4. Explanation of interest rate shock scenarios and stress scenarios used by the Bank in IRRBB calculation using the EVE and NII methods :

   The Bank applies six interest rate shock scenarios in the calculation of IRRBB using the EVE method, namely parallel up, parallel down, steepener, flattener, short rate up, and short rate down. Meanwhile, the NII method utilizes two scenarios, namely parallel up and parallel down.
5. Modeling assumptions that have a significant impact on IRRBB calculation, where such assumptions differ from the IRRBB calculation under the Standardized Approach :
   The Bank's modeling assumptions applied in the IRRBB calculation are aligned with the standardized approach as stipulated in SEOJK No.12/SEOJK.03/2018. Accordingly, the Bank currently does not apply any specific modeling assumptions that differ from the standardized approach.
6. Explanation of how the Bank performs hedging for IRRBB (if any) and the related accounting treatment:

   In performing hedging activities, the Bank applies natural hedging between assets and liabilities that are exposed to interest rate risk.

Analisa Kualitatif Qualitative Analysis	
7. Penjelasan Komprehensif mengenai Asumsi Utama Pemodelan dan Parametric yang Digunakan untuk Menghitung ΔEVE dan ΔNII : Dalam perhitungan ΔEVE dan ΔNII, tingkat suku bunga diskonto yang digunakan berdasarkan *risk free* ditambah margin komersial. Metodologi yang digunakan untuk mengestimasi *prepayment rate* dari pinjaman berdasarkan analisis historis *prepayment* terhadap total nilai portofolio untuk masing-masing segmen kredit. Selanjutnya diperoleh nilai baseline *rate credit prepayment risk* (CPR) dikalikan dengan multiplier berdasarkan *shock* skenario yang telah ditentukan regulator, kemudian ditentukan arus kas masing-masing untuk setiap skenario. Pada *early withdrawal* Deposito berjangka dimana terdapat mitigasi untuk meminimalkan angka *early withdrawal rate*. Dampak *early withdrawal* ini sangat minimum terhadap IRRBB karena deposito berjangka mayoritas bertenor pendek (1 bulan). *Non Maturing Deposit* (NMD) mencakup produk Giro dan Tabungan, dimana karakteristik behavior NMD tersebut dipengaruhi oleh jenis kelompok produk/nasabah, seperti CASA Retail dan CASA Wholesale. Penentuan rata-rata jatuh tempo penilaian ulang (*repricing maturities*) menggunakan analisa terhadap data historis internal dengan tetap mempertimbangkan caps terhadap proporsi dan terhadap jangka waktu rata-rata dari *core deposit* sesuai dengan SEOJK IRRBB. Perhitungan total ΔEVE menggunakan mata uang Rupiah, adapun untuk mata uang valuta asing (valas) di konversi kedalam mata uang Rupiah, hal ini dikarenakan eksposur dalam mata uang valuta asing kurang dari 5% dari total aset dan liabilitas dalam posisi *banking book*. 8. Informasi lainnya yang perlu diungkapkan oleh Bank terkait interpretasi Bank terhadap signifikansi dan sensitivitas hasil pengukuran IRRBB yang telah diungkapkan dan/atau penjelasan terhadap variasi yang signifikan pada tingkat IRRBB yang dilaporkan dibandingkan dengan pengungkapan sebelumnya (apabila ada) : Tidak terdapat informasi tambahan atas pengungkapan sebelumnya.	7. Comprehensive explanation of key modeling assumptions and parameters used to calculate ΔEVE and ΔNII: In calculating ΔEVE and ΔNII, the discount rate applied is based on the risk-free rate plus a commercial margin. The methodology used to estimate the prepayment rate of loans is based on historical analysis of prepayment relative to the total portfolio value for each loan segment. Subsequently, the baseline credit prepayment risk (CPR) is determined and multiplied by a multiplier based on regulatory-defined shock scenarios, after which the respective cash flows are derived for each scenario. For early withdrawal of time deposits, mitigation measures are in place to minimize the early withdrawal rate. The impact of early withdrawal on IRRBB is considered minimal, as time deposits are predominantly short-tenor (1 month). Non-Maturing Deposits (NMD), comprising current accounts and savings accounts, exhibit behavioral characteristics influenced by product and customer segments, such as Retail CASA and Wholesale CASA. The determination of average repricing maturities is based on analysis of internal historical data while taking into account caps on both the proportion and the average maturity of core deposits in accordance with IRRBBB SEOJK. The calculation of total ΔEVE is conducted in Indonesian Rupiah. Foreign currency exposures are converted into Indonesian Rupiah, as such exposures represent less than 5% of total assets and liabilities in the banking book position. 8. Other information to be disclosed by the Bank regarding the Bank's interpretation of the significance and sensitivity of IRRBB measurement results disclosed and/or explanation of significant variations in IRRBB levels compared to previous disclosures (if any): There is no additional information to be disclosed compared to the previous disclosure.

Analisa Kualitatif Quantitative Analysis	
1. Rata-rata jangka waktu penyesuaian suku bunga (*repricing maturity*) yang diterapkan untuk *Non Maturing Deposit* (NMD) : Rata-rata jangka waktu penyesuaian suku bunga (*repricing maturity*) yang diterapkan untuk *Non Maturing Deposit* (NMD) adalah 5 tahun untuk core CASA retail transaksional, 4.5 tahun untuk CASA Retai non transaksional dan 4 Tahun untuk CASA *Wholesale*. 2. Jangka waktu penyesuaian suku bunga (*repricing maturity*) terlama yang diterapkan untuk *Non Maturing Deposit* (NMD) : *Repricing maturity* terpanjang atau terlama yang diterapkan untuk NMD ada di *time bucket* antara 4 tahun s/d 5 tahun sesuai dengan ketentuan SE OJK No.12/SEOJK.03/2018.	1. Average repricing maturity applied to Non-Maturing Deposits (NMD) : The average repricing maturity applied to Non-Maturing Deposits (NMD) is 5 years for transactional Retail CASA core deposits, 4.5 years for non-transactional Retail CASA, and 4 years for Wholesale CASA. 2. Maximum repricing maturity applied to Non-Maturing Deposits (NMD): The maximum repricing maturity applied to NMD is within the time bucket of 4 years to 5 years, in accordance with the provisions set out in SEOJK No.12/SEOJK.03/2018.

Risiko Likuiditas

Risiko likuiditas adalah risiko akibat ketidakmampuan bank untuk memenuhi kewajiban yang timbul atas kewajiban yang telah jatuh tempo. Risiko ini terjadi akibat kegagalan pengelolaan sumber dana dan penanaman dana (*mismatch*) atau kekurangan likuiditas (*shortage*) yang mengakibatkan bank tidak mampu memenuhi kewajiban keuangannya pada waktu yang telah ditetapkan. Risiko likuiditas dapat dikategorikan sebagai berikut:

a. Risiko likuiditas pasar, yaitu risiko yang timbul karena bank tidak mampu melakukan *offsetting* posisi tertentu dengan harga pasar karena kondisi likuiditas pasar yang tidak memadai atau terjadi gangguan di pasar (*market disruption*);
b. Risiko likuiditas pendanaan, yaitu risiko yang timbul karena bank tidak mampu mencairkan asetnya atau memperoleh pendanaan dari sumber dana lain.

Liquidity Risk

Liquidity Risk is the risk due to the inability of banks to meet obligations that arise or obligations that are due. This risk occurs due to the failure of the management of the source of funds and investment of funds (mismatch) or lack of liquidity (shortage) which results in bank not being able to meet its financial obligations at the specified time. Liquidity risk can be categorized as follows:

a. Market Liquidity Risk, the risk arising because banks are unable to offsetting certain positions at market prices due to inadequate market liquidity conditions or market disruption;
b. Funding Liquidity Risk, the risk arising because banks are unable to disburse their assets or obtain funding from other funding source.

Manajemen Risiko Likuiditas (LIQA)

Pengawasan Aktif Dewan Komisaris dan Direksi

Dewan Komisaris dan Direksi bertanggungjawab atas efektivitas penerapan Manajemen Risiko Likuiditas di bank **bjb**. Terkait wewenang dan tanggung jawab pengawasan

Liquidity Risk Management (LIQA)

Active Supervision of the Board of Commissioners and Board of Directors

The Board of Commissioners and Board of Directors are responsible for the effectiveness of the implementation of Liquidity Risk Management in bank **bjb**. Regarding the powers

aktif Dewan Komisaris dan Direksi bank **bjb**, Dewan Komisaris dan Direksi selalu memperoleh informasi yang jelas mengenai evaluasi dan penerapan manajemen risiko eksposur risiko likuiditas, pemantauan limit secara harian serta langkah-langkah yang diambil oleh *Risk Taking Unit* khususnya terkait adanya pelampauan limit.

Dalam pelaksanaan pengawasannya, Dewan Komisaris dibantu oleh Komite Pemantau Risiko (KPR) bank yang secara berkala melakukan pengawasan melalui koordinasi dengan Satuan Kerja Manajemen Risiko. Media koordinasi yang digunakan dapat berupa laporan pemantauan risiko oleh SKMR yang disampaikan kepada Komite Pemantau Risiko maupun melalui media rapat antara kedua belah pihak. Adapun rapat yang diadakan tersebut pada umumnya membahas penerapan manajemen risiko di bank **bjb** menyangkut diantaranya penerapan pengukuran *risk tolerance* risiko likuiditas, *stress testing* likuiditas, pembahasan profil risiko likuiditas yang bersifat material, dan kecukupan metodologi pengukuran yang dipergunakan Satuan Kerja Manajemen Risiko.

Pengawasan yang dilakukan oleh Direksi yaitu memantau penerapan limit Treasury secara berkala baik terjadi pelampauan limit (*breach limit*) maupun tidak terjadi pelampauan limit, melakukan persetujuan atas limit yang bersifat baru ataupun perubahannya. Pembahasan tentang pengelolaan risiko likuiditas seperti komposisi deposan inti, *maturity profile* bank dilakukan dalam Rapat ALCO (*Asset Liability Committee*) sedangkan pembahasan eksposur risiko likuiditas seperti profil risiko likuiditas yang bersifat material, *liquidity stress testing*, dan eksposur risiko likuiditas lainnya dibahas dalam rapat Komite Manajemen Risiko (RMC).

Kecukupan Kebijakan, Prosedur dan Penetapan Limit

Sebagai upaya menghadapi permasalahan likuiditas mendasar, bank **bjb** telah memiliki kebijakan dan pedoman terkait penerapan manajemen risiko likuiditas. Kebijakan dan pedoman tersebut memuat diantaranya memuat identifikasi, pengukuran, pemantauan dan pengendalian risiko likuiditas, *stress testing* likuiditas dengan menggunakan skenario *general market crisis* dan *bank specific crisis* serta Pengaturan langkah-langkah Bank dalam menjaga ketersediaan likuiditas pada saat terjadi krisis atau tekanan likuiditas yang dituangkan dalam Pedoman Rencana Pendanaan Darurat (*Contingency Funding Plan/CFP*). Penetapan limit likuiditas yang berjalan di bank **bjb** meliputi limit *liquidity coverage ratio* (LCR), limit net stable funding ratio (NSFR), limit terkait pemantauan GWM serta limit yang mencerminkan kondisi likuiditas harian bank sementara itu, penetapan pagu kas di Cabang Operasional dilakukan oleh Divisi Operasi.

and responsibilities of active supervision of the Board of Commissioners and Board of Directors of bank **bjb**, the Board of Commissioners and Board of Directors has always obtained clear information regarding the evaluation and implementation of risk management for liquidity risk exposure, daily limit monitoring as well as steps taken by the risk taking unit, especially in relation to the existence of exceedance of limit.

In implementing its supervision, the Board of Commissioners has been assisted by bank **bjb** Risk Monitoring Committee (KPR), which has regularly performed supervision through coordination with the risk management work unit. The coordination media used could be in the form of risk monitoring reports by the Risk Management Working Unit (SKMR) which were submitted to the Risk Monitoring Committee or through media meetings between the two parties. The meetings held generally discuss the application of risk management at bank **bjb**, including the application of risk tolerance measurement for liquidity risk, stress testing of liquidity, discussion of material liquidity risk profiles, and the adequacy of the measurement methodology used by the Risk Management Work Unit.

Supervision was carried out by Board of Directors, namely monitoring the implementation of treasury limits on a regular basis whether there was a breach limit or there was no exceeding the limit, approving new limits or changes. Discussions on liquidity risk management such as the composition of core depositors, bank **bjb** maturity profiles were conducted at the Asset Liability Committee (ALCO) meeting, while discussions on liquidity risk exposures such as material liquidity risk profiles, liquidity stress testing, and other liquidity risk exposures were discussed in the Risk Management Committee (RMC) meeting.

Adequacy of Policies, Procedures and Limit Determination

As an effort to deal with fundamental liquidity problems, bank **bjb** had policies and guidelines related to the implementation of liquidity risk management. The policies and guidelines included procedures for measuring liquidity risk, liquidity stress testing including scenarios of general market crisis and bank specific crisis and Guidelines for Contingency Funding Plan (CFP). The determination of the current liquidity limit at bank **bjb** was the determination of the limit of primary reserve, secondary reserve, and excess reserve GWM, excess to total funding ratio and daily limit of Liquidity coverage ratio while the determination of the cash ceiling in Operational Branch was carried out by the Operations Division.

Satuan Kerja Manajemen Risiko selalu melakukan evaluasi atas kebijakan, prosedur dan analisis kinerja bank terhadap limit yang diterapkan. Adapun perubahan limit dilakukan oleh *Risk Taking Unit* untuk kemudian dilakukan evaluasi melalui pengukuran yang telah distandardisasi oleh Satuan Kerja Manajemen Risiko.

The risk management work unit always evaluates the policies, procedures and performance analysis of bank **bjb** against the applied limits. The limit changes are carried out by the risk taking unit and then evaluated through standardized measurements by the Risk Management Work Unit.

Kecukupan Proses Identifikasi, Pengukuran, Pemantauan, dan Pengendalian Risiko, Serta Sistem Informasi Manajemen Risiko

Adequacy of the Risk Identification, Measurement, Monitoring and Control Process, As Well As the Risk Management Information System

Kebijakan risiko likuiditas mencakup risiko yang dapat menimbulkan kerugian bagi bank akibat meningkatnya biaya dana atau adanya hambatan/keterbatasan dalam memenuhi kewajiban yang jatuh tempo. Sebagian besar transaksi finansial atau komitmen mempunyai dampak terhadap likuiditas bank. Oleh karena itu, bank sangat rentan terhadap masalah likuiditas, baik bagi bank maupun terhadap stabilitas industri perbankan secara keseluruhan. Untuk itu, bank berkewajiban memenuhi kewajiban keuangannya secara tepat waktu sehingga bank harus mampu memelihara serta mempertahankan tingkat likuiditas yang memadai setiap waktu.

Liquidity risk policies include risks that cause bank **bjb** to suffer losses due to increased funding costs or the presence of obstacles/ limitations in meeting obligations that are due. Most financial transactions or commitments have an impact on bank **bjb** liquidity. Therefore, banks are very vulnerable to liquidity problems, both for bank **bjb** themselves and their effects on bank **bjb** industry as a whole. bank **bjb** is required to meet their financial obligations in a timely manner so that bank **bjb** must be able to maintain an adequate level of liquidity at all time.

Dalam menentukan limit risiko likuiditas, bank **bjb** memperhatikan kondisi likuiditas dari aktiva-pasiva bank. Likuiditas yang cukup besar perlu dikelola secara baik dan dijadikan indikator dalam penerapan limit risiko likuiditas untuk mendukung upaya peningkatan profitabilitas bank. Hal ini penting karena likuiditas yang berlebihan akan meningkatkan *idle fund*, yang berpotensi merugikan bank, terutama bagi bank yang didanai oleh nasabah korporasi. Gap likuiditas secara historis dapat dijadikan patokan dalam menentukan limit risiko likuiditas bagi bank. Penerapan limit likuiditas yang berjalan di bank ~~yaitu~~ meliputi limit *Liquidity Coverage Ratio* (LCR)), limit net stable funding ratio (NSFR), limit terkait pemantauan GWM serta limit yang mencerminkan kondisi likuiditas harian bank sementara itu penetapan pagu kas di Cabang Operasional dilakukan oleh Divisi Operasi.

In determining the liquidity risk limit, bank **bjb** considered the liquidity condition of bank **bjb** assets and liabilities. Large liquidity needed to be managed properly and used as an indicator in implementing liquidity risk limits to support efforts to increase bank **bjb** profitability, because sufficiently large liquidity would actually increase idle funds and would be detrimental to bank **bjb**, especially bank **bjb** funded by corporate customers. The liquidity gap had historically been used as a benchmark in determining the liquidity risk limit for a bank **bjb**. The implementation of the current liquidity limit at the bank **bjb** became the determination of the limit of primary reserve, secondary reserve, excess reserve requirement, excess to total funding ratio and daily limit of Liquidity coverage ratio (LCR), while the determination of cash ceiling in Operational Branch was carried out by the Operations Division.

~~Saat ini~~ Bank telah memiliki sistem informasi untuk pengukuran risiko likuiditas seperti *maturity profile* yang terintegrasi. Satuan Kerja Manajemen Risiko bersama *Risk Taking Unit* secara berkala melakukan pemantauan kewajiban jatuh tempo menggunakan sistem informasi maturity profile. Selain itu sistem pelaporan *maturity profile* telah terintegrasi dan tervalidasi dengan memadai sehingga pelaporannya tidak memerlukan proses manual lagi.

Currently bank **bjb** is developing a liquidity risk measurement information system such as an integrated maturity profile. The Risk Management Unit together with the Risk Taking Unit in the integration stage of the maturity profile information system always hold meetings to find out the utilization of the progress that has been made. System The foreign currency maturity profile reporting system had been adequately integrated and validated so that reporting did not require manual processing anymore.

Sebagai bagian dari koordinasi manajemen bank dalam menghadapi kemungkinan krisis likuiditas di masa mendatang, bank **bjb** menyusun Tim Manajemen Krisis Likuiditas (*Liquidity Crisis Management Team*) sebagai langkah antisipatif dalam menindaklanjuti krisis likuiditas dengan menjalankan prosedur rencana pendanaan darurat (*Contingency Funding Plan*) sesuai dengan kerangka kerja skenario yang telah ditetapkan.

As part of the bank's management coordination in preparing for potential future liquidity crises, **bjb** has established a Liquidity Crisis Management Team as a proactive measure to address liquidity crises by implementing the Contingency Funding Plan in accordance with the established scenario framework.

Dalam proses pemantauan limit *Risk Taking Unit*, Satuan Kerja Manajemen Risiko selalu melakukan pemantauan limit secara harian dan dilaporkan kepada Direksi secara berkala. Apabila terjadi eskalasi pelampauan limit, hal tersebut akan segera dilaporkan kepada Direksi, termasuk upaya *contingency plan* yang akan dilakukan oleh *Risk Taking Unit*. Sejalan dengan implementasi Basel III yang terfokus kepada pengelolaan risiko likuiditas, Satuan Kerja Manajemen Risiko bekerja sama dengan Unit Bisnis dan *Supporting Unit* melakukan pengukuran dampak Basel III terhadap bank dengan melakukan simulasi perhitungan rasio *Liquidity Coverage Ratio* (LCR) dan NSFR (*Net Stable Funding Ratio*) untuk memastikan bank dapat terhindar dari risiko likuiditas sekaligus mematuhi kepatuhan internal maupun eksternal.

In the process of monitoring the Risk Taking Unit limit, the Risk Management Unit always monitors the limits on a daily basis and is reported to Board of Directors periodically. Meanwhile, in the event of an escalation in excess of the limit, it will be immediately reported to Board of Directors, including a contingency plan that will be carried out by the Risk Taking Unit. Related to the implementation of Basel III which is focused on liquidity issues, the Risk Management Work Unit in collaboration with the Business Unit and Supporting Unit measures the impact of Basel III on bank **bjb** by simulating the calculation of the LCR ratio (Liquidity Coverage Ratio) and NSFR (Net Stable Funding Ratio) which needed by bank **bjb** to avoid the effects of liquidity risk and internal and external compliance.

Sistem Pengendalian Intern yang Menyeluruh

Dalam rangka pengembangan penerapan manajemen risiko yang dinamis, Satuan Kerja Manajemen Risiko selalu melakukan evaluasi atas kebijakan, prosedur dan limit risiko likuiditas secara berkala. Sebagai upaya pengendalian risiko pasar berupa kecukupan kebijakan dan prosedur Satuan Kerja Manajemen Risiko, kaji ulang atas kebijakan dan prosedur dilakukan oleh unit independen baik di internal ataupun pihak eksternal. Satuan Kerja Manajemen Risiko pun melakukan stress testing likuiditas bank **bjb** dan memberikan informasi kondisi kecukupan asset likuid yang dipandang memadai untuk meng-*cover* penarikan dana oleh nasabah secara tiba-tiba dan dalam jumlah besar. Laporan tersebut diinformasikan kepada Direksi dan *Risk Taking Unit* agar mendapatkan *feedback* dan menciptakan *risk awareness*.

Comprehensive Internal Control System

In the context of developing a dynamic application of risk management, the Risk Management Work Unit always evaluates policies, procedures and liquidity risk limits on a regular basis. As an effort to control market risk in the form of adequacy of policies and procedures of the Risk Management Work Unit, reviews of policies and procedures are carried out by independent units, both internal and external parties. The Risk Management Work Unit conducts stress testing of bank **bjb** liquidity and provides information on the adequacy of liquid assets that are deemed adequate to cover sudden and large withdrawals of funds by customers. The report is informed to Board of Directors and risk taking units in order to get feed back and create risk awareness.
